**§ 18–16.804 U.S. Government Tax Exemption (Standard Form 1094, TD 1444, TD 1486).**

(a) Tax Exemption Certificate (Standard Form 1094—Revised) shall be used as prescribed in § 18–11.302.

(b) Treasury Department Form 1444 (Alcohol for Use of United States) and Treasury Department Form 1488 (Specially Denatured Alcohol for Use of United States) shall be used in accordance with the provisions of § 18–11.205.

**§ 18–16.805 Bond forms.**

The bond forms listed below are available for use in accordance with the provisions of Part 10 of this Regulation.

(a) Bid Bond (Standard Form 24);

(b) Annual Bid Bond (Standard Form 34);

(c) Performance Bond (Standard Form 25);

(d) Annual Performance Bond (Standard Form 35);

(e) Payment Bond (Standard Form 25A);

(f) Performance Bond (Corporate Co-Surety) Standard Form 27A);

(g) Payment Bond (Corporate Co-Surety) (Standard Form 27A);

(h) Continuation Sheet (Corporate Co-Surety) (Standard Form 27B); and

(i) Affidavit of Individual Surety (Standard Form 28).

**§ 18–16.810 Bidders Mailing List Application (Standard Form 129).**

**§ 18–16.810–1 General.**

Standard Form 129, Bidders Mailing List Application shall be used in connection with the establishment and maintenance of bidders lists as prescribed by § 18–2.205.

**§ 18–16.810–2 Conditions for use.**

The application shall be submitted and signed by the supplier (the manufacturer or regular dealer), as distinguished from an agent of the supplier. However, suppliers are not precluded from designating on Standard Form 129 their agents to receive invitations for bids and requests for proposals.

**§ 18–16.811 Security requirements (DD Forms 441 and 254).**

**§ 18–16.811–1 Security agreement.**

DD Form 441, Security Agreement, is authorized for use in connection with the requirements of § 18–7.104–12.

**§ 18–16.811–2 Security requirements checklist.**

DD Form 254, Security Requirements Checklist, is authorized for use in connection with the notice required by the "Security Requirements" clause (see §§ 18–7.104–12, 18–7.204–12, 18–7.304–25, and 18–7.402–24), which is included in all contracts classified "Confidential" or higher and in other contracts the performance of which may require access to classified information or material. Instructions for preparation are included in the form.

**§ 18–16.812 Release and assignment forms (NASA Forms 778, 779, 780, and 781).**

The forms identified in this section are approved for use in complying with the release and assignment provisions of paragraph (f) of the allowable cost clause of a cost-reimbursement type contract (see §§ 18–7.203–4, 18–7.402–3, and 18–7.451–3) and the requirements of § 18–51.405:

(a) Contractor's Release (NASA Form 778);

(b) Assignee's Release (NASA Form 779);

(c) Contractor's Assignment of Refunds, Rebates, Credits, and Other Amounts (NASA Form 780); and

(d) Assignee's Assignment of Refunds, Rebates, Credits, and Other Amounts (NASA Form 781).

Forms differing from the above approved forms may be used if the contracting officer determines that such forms meet the applicable requirements of the clause.

**§ 18–16.814 Architect-Engineer Questionnaire Form (Standard Form 251).**

U.S. Government Architect-Engineer Questionnaire (Standard Form 251, June 1961 edition) may be used in accordance with the provisions of § 18–3.1503–2(a)(1). This form is designed to assure the uniform submission of experience and organizational data by architect-engineer firms.

**§ 18–16.815 Contract modification forms (NASA Forms 450, 449, 449–1, and 449–2).**

**§ 18–16.815–1 Change Order (NASA Form 450).**

(a) This form shall be used for:

(1) Any change order issued pursuant to the Changes clause of a contract;

(2) Any other unilateral contract modification, except notices of termination (see § 18–16.701), issued pursuant to a contract provision authorizing such modification without the consent of the contractor; and

(3) Administrative changes, such as the correction of typographical errors, changes in the paying office, and changes in accounting and appropriation data.

(b) NASA Form 449–1 (Contract Modification Continuation Sheet) may be used as required.

**§ 18–16.815–2 Supplemental Agreement (NASA Form 449).**

The following forms are authorized for use in connection with supplements to NASA contracts.

(a) NASA Form 449 (Supplemental Agreement);

(b) NASA Form 449–1 (Contract Modification Continuation Sheet); and

(c) NASA Form 449–2 (Signature Page for Supplemental Agreement).

**§ 18–16.816 Identical Bid Report for Procurement (DJ 1500).**

DJ 1500, Identical Bid Report for Procurement, shall be used in reporting identical bids in accordance with the requirements of § 18–1.114.

**§ 18–16.850 Semiannual Report of Participating Companies (NASA Form 524).**

NASA Form 524, Semiannual Report of Participating Companies, shall be used for the submission of semiannual reports by all NASA contractors who participate in the NASA Subcontracting Small Business Program, as required by § 18–1.707–5. Instructions for its use are printed on the form.

**§ 18–16.851 Pre-Award Surveys (NASA Forms 585 and 586).**

(a) NASA Form 585, Request for Pre-Award Survey, shall be used in accordance with the instructions contained in § 18–1.905–52.

(b) NASA Form 586, Financial Data Sheet, shall be used as required by § 18–1.905–52.

**§ 18–16.852 Procurement Request (NASA Form 404).**

NASA Form 404, Procurement Request, shall be used for initiating procurements in accordance with § 18–3.850.

**§ 18–16.853 Request for Proposals (NASA Form 529).**

NASA Form 529, Request for Proposals in Soliciting Proposals for Major NASA Research and Development Contracts, is authorized for use as a general guide in preparing requests for proposals for major research and development contracts in accordance with § 18–3.854.

**§ 18–16.854 Request for Contractor Clearance (NASA Form 446).**

NASA Form 446, Request for Contractor Clearance, shall be used in accordance with NASA Management Instruction 24–3–1, if the proposed procurement will involve access to classified information.

**§ 18–16.855 Nonpersonal Services Contracts (NASA Form 610).**

The General Provisions contained in NASA Form 610, together with a Cover Page (NASA Form 437), a Schedule, and a Signature Page (NASA Form 437–1), are authorized for use in contracts for nonpersonal services.

**§ 18–16.856 Contractor Financial Management Report (NASA Form 533).**

NASA Form 533, Contractor Financial Management Report, is designed for use by the contractor in providing certain financial projections and experience through the reporting period. NASA Management Instruction 6–2–4A sets forth details for use of the form. Instructions for completing NASA Form 533 are printed on the reverse of the form.

**§ 18–16.857 Bill of Material (DD Forms 346 and 347).**

DD Form 346, Raw (Basic Process) and Semi-Fabricated Stock Form, and DD Form 347, Bill of Material—Subcontracted Parts—Purchased Parts—Government-Furnished Property, are authorized for use to describe the materials required for furnishing the supplies to be

delivered under contract, in accordance with § 18–7.105–6.

**§ 18–16.858 Tax forms.**

(a) *Special Fuels Tax (Standard Forms 1169, 1103).* Treasury Department Form 720 (Quarterly Federal Excise Tax Return) shall be used in accordance with § 18–11.101–5 in making quarterly payments of tax on tax-free special fuels used for a taxable purpose.

(b) *Transportation of persons tax.* Standard Form 1169, Transportation Request, is designed for obtaining exemption from tax on transportation of persons, in accordance with § 18–11.202(b).

(c) *Transportation of property tax.* Standard Form 1103, U.S. Government Bill of Lading, is authorized for use to obtain exemption from tax on transportation of property, in accordance with § 18–11.202(b).

**§ 18–16.859 Letter contracts.**

**§ 18–16.859–1 General.**

This § 18–16.859 prescribes the forms to be used in connection with letter contracts contemplating cost-reimbursement type or fixed-price type definitive contracts.

**§ 18–16.859–2 Cost-reimbursement type letter contract.**

The following forms are prescribed for use in letter contracts contemplating cost-reimbursement type definitive contracts:

(a) Cover Page—NASA Form 551;

(b) Letter of Transmittal—NASA Form 551–1;

(c) Schedule Format—NASA Form 551–2;

(d) General Provisions—NASA Form 551–3; and

(e) NASA Form 417 or 418, as appropriate, in accordance with the instructions contained in Article V of the Schedule Format—NASA Form 551–2. In addition, the prescribed clauses set forth in NASA Form 417 or 418 shall be modified or deleted and additional clauses, applicable to the kinds of such contracts for which such forms were designed, shall be included in the contracts as required or authorized by §§ 18–7.402 through 18–7.404, or §§ 18–7.203 through 18–7.205, respectively. Also, see instructions contained in Article Vb of the Schedule Format—NASA Form 551–2.

**§ 18–16.859–3 Fixed-price type letter contract.**

The following forms are prescribed for use in letter contracts contemplating fixed-price type definitive contracts:

(a) Cover Page—NASA Form 551;

(b) Letter of Transmittal—NASA Form 551–1;

(c) Schedule Format—NASA Form 551–2;

(d) General Provisions—NASA Form 551–3, except that Clause 5, "Termination," shall be deleted and the "Termination" clause set forth in § 18–8.701(b) shall be substituted therefor; and

(e) NASA Form 247, or Standard Form 32 and NASA Form 250, as appropriate, in accordance with the instructions contained in Article V of the Schedule Format—NASA Form 551–2. In addition, the prescribed clauses set forth in NASA Form 247, Standard Form 32, or NASA Form 250 shall be modified or deleted and additional clauses, applicable to the kinds of such contracts for which such forms were designed, shall be included in the contract as required or authorized by §§ 18–7.302 through 18–7.304, or §§ 18–7.102 through 18–7.108, respectively. Also, see instructions contained in Article Vb of the Schedule Format.

**§ 18–16.859–4 Letter contract forms.**

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Date: ----------
*Letter Contract*
Contract No: ----

To:
Gentlemen:

1. This letter, when accepted by you, will constitute a Letter Contract bearing the contract number above indicated, whereby you, as Contractor, agree to furnish to the Government the supplies or services set forth in the attached Contract Schedule in accordance with the terms, conditions, and administrative provisions set forth in the Schedule and in the current edition of the NASA Forms identified in the Enclosures listed below, and such NASA Forms, if any, as are referenced therein, all of which are attached hereto and made a part hereof. This letter, Schedule, and the Forms are submitted to you in quadruplicate.

2. If you agree to the terms set forth in the attached Schedule and in the NASA Forms listed in the Enclosures, please indicate your acceptance by signing the original and two copies of this Letter in the place provided in the lower left corner and return the executed copies to the Contracting Officer who signed this letter on behalf of the United States.

3. It is understood by your acceptance hereof that you will undertake, without delay, to enter into negotiations with the National Aeronautics and Space Administration looking to the execution of a definitive contract and to furnish all cost and price information requested by the Contracting Officer. The form and provisions of the definitive contract which the National Aeronautics and Space Administration intends to use as the basis for negotiation are set forth in the Schedule.

(Contracting Officer)

(c) *Schedule format for letter contracts (NASA Form 551–2, September 1962).*

SCHEDULE FORMAT

Article I—*Statement of work:*

a. (Include a complete description of the supplies to be furnished or work to be done in the same detail as in a definitive contract.)

b. (Include all pertinent specifications or references thereto in the same detail as in a definitive contract.)

Article II—*Delivery or performance schedule:* (Self-explanatory, but state, by item, whether delivery will be f.o.b. origin or transportation prepaid to destination. If f.o.b. origin, include statement "for shipment ----------" on G.B.L.)

Article III—*Consideration and payment:*

a. The maximum amount for which the Government will be liable if this Letter Contract is terminated is $---------.

b. Contractor's invoices or vendor's shipping documents used as invoices shall be made out to the Office designated to make payment marked, "Attention: Fiscal Officer," and delivered to the Contracting Officer. Payment will be made as provided in the Payment clause of NASA Form 551–3, except as otherwise stated below:

c. (Set forth any prices or rates of payment which the Government and Contractor may have agreed to or which the Government is offering to pay for supplies to be delivered or services to be performed under this Letter Contract or for identified portions of such work or services.)

Article IV—*Inspection and acceptance:* (Name the place where inspection is to be made and specify details concerning inspection and acceptance in the same detail as in a definitive contract.)

Article V—*Clauses incorporated:*

a. There are incorporated by reference in this Letter Contract all the clauses contained in NASA Form -------- (--------) except for the following clauses, which are to be deleted for the purpose of this Letter Contract:

(i) (Where a fixed-price R & D contract is contemplated, insert NASA Form 247 and date of the current form in the blank above, and list as the clauses to be deleted "Payments" and "Termination for convenience of the Government."

(ii) (Where a fixed-price supply contract is contemplated, the reference in the blank above should be to Standard Form 32 and NASA Form 250 and dates to the current forms, and list as the clauses to be deleted "Payments" and "Termination for Convenience of the Government"; or

(iii) Where a cost-remburement type contract is contemplated, insert NASA Form 417 or 418 and the date of the current form, as appropriate, in the blank above, and list as the clauses to be deleted "Limitation of Cost," "Allowable Cost, Fixed-Fee, and Payment," "Termination," and "Limitation on Withholding of Payments.")

b. (Identify and reference any other clause appropriate to the contract and attach such clause to the Schedule.)

Article VI—*Definitive contract:*

a. The definitive contract will be negotiated and executed on or before ----------, unless such date is extended in writing by the Contracting Officer.

b. It is contemplated that the definitive contract will be negotiated on the basis of NASA Form -------- (--------) and such additional clauses as are appropriate to the subject matter of this contract. However, the parties are not hereby committed to the negotiation of this type of contract.

(d) *General provisions for letter contracts (NASA Form 551–3, 1963).*

GENERAL PROVISIONS FOR LETTER CONTRACTS

INDEX OF CLAUSES

1. Direction to proceed.
2. Contract clauses incorporated.
3. Authority to obligate funds.
4. Payments.
5. Termination.

1. *Directions to proceed:* Except as otherwise expressly provided to the contrary in this Letter Contract, the Contractor is directed, upon his acceptance to this Letter Contract, to proceed immediately to procure the necessary materials, and to commence the manufacture of the supplies or performance of the services called for herein, and to pursue such work with all diligence to the end that the supplies or services called for under Article I of the Schedule will be delivered or performed in accordance with Article II of the Schedule and all other terms of this Letter Contract.

2. *Contract clauses incorporated:* The contract clauses set forth in the NASA Contract form identified in the Schedule, subject to the alterations in such form shown in the Schedule, and including any other clauses referenced in the Schedule as applicable to this Letter Contract and attached to the Schedule, are hereby incorporated into this Letter Contract and made a part hereof.

3. *Authority to obligate funds:* The maximum amount for which the Government shall be liable if this contract is terminated is specified in the Schedule, and any expenditure or obligation by the Contractor in excess of that amount, in furtherance of performance hereunder, shall be at the Contractor's own risk.

4. *Payments:*

(a) If this Letter Contract is on a fixed-price basis, and is governed generally by the provisions of a fixed-price contract form (SF–32 and NASA Form 250, or NASA Form 247), the Government will pay to the Contractor, not to exceed the maximum amount specified in Article IIIa of the Schedule, upon the submission of proper invoices or vouchers, the prices, if any, specified in Article III of the Schedule for supplies delivered and accepted or services rendered and accepted, less deductions, if any, provided for in this Letter Contract. Unless otherwise specified, payment will be made on partial deliveries accepted by the Government.

(b) If this Letter Contract is on a cost-reimbursement basis and is governed generally by the provisions of a cost-reimbursement type contract form (NASA Form 417 or 418) referenced in the Schedule, the Government will pay to the Contractor, not to exceed the maximum amount specified in Article IIIa of the Schedule, upon the submission of proper invoices or vouchers, his costs for the performance of this contract determined by the Contracting Officer to be allowable in accordance with (i) Part 15, Subpart 2 of the NASA Procurement Regulation as in effect on the date of this Letter Contract, and (ii) any special provisions concerning allowable costs or payment set forth in the Schedule.

(c) Nothing shall be paid under this Letter Contract to the Contractor for profit or fee, except as provided in the Termination clause of this Letter Contract.

5. *Termination:*

(a) In case a definitive contract is not executed by the date specified in Article VI of the Schedule, because of the inability of the parties to agree upon a definitive contract, this Letter Contract may be terminated in its entirety by either party by delivering to the other party a notice in writing specifying the effective date of termination, which date shall not be earlier than thirty (30) days after receipt of such notice.

(b) The performance of work under this Letter Contract also may be terminated by the Government in accordance with this clause in whole, or from time to time in part:

(i) whenever the Contractor shall default in performance of this Letter Contract in accordance with its terms (including in the term "default" any such failure by the Contractor to make progress in the prosecution of the work hereunder as endangers such performance), and shall fail to cure such default within a period of ten days (or such longer period as the Contracting Officer may allow) after receipt from the Contracting Officer of a notice specifying the default; or

(ii) whenever for any reason the Contracting Officer shall determine that such termination is in the best interest of the Government.

Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying whether termination is for the default of the Contractor or for the convenience of the Government, the extent to which performance of work under this Letter Contract is terminated, and the date upon which such termination becomes effective. If, after notice of termination of this Letter Contract for default under (i) above, it is determined for any reason that the Contractor was not in default pursuant to (i) above, or that the Contractor's failure to perform or to make progress in performance is due to causes beyond the control and without the fault or negligence of the Contractor pursuant to the provisions of the clause of this Letter Contract relating to excusable delays, the Notice of Termination shall be considered to have been issued under (ii) above, and the rights and obligations of the parties hereto shall in such event be governed accordingly.

(c) After receipt of a Notice of Termination and except as otherwise directed by the Contracting Officer, the Contractor shall:

(i) stop work under this Letter Contract on the date and to the extent specified in the Notice of Termination;

(ii) place no further orders or subcontracts for materials, services, or facilities, except as may be necessary for completion of such portion of the work under this Letter Contract as is not terminated;

(iii) terminate all orders and subcontracts to the extent that they relate to the performance of work terminated by the Notice of Termination;

(iv) assign to the Government, in the manner, at the times, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

(v) with the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final and conclusive for all purposes of this clause, settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, the cost of which would be reimbursable in whole or in part, in accordance with the provisions of this Letter Contract;

(vi) transfer title (to the extent that title has not already been transferred) and, in the manner, to the extent, and at the times directed by the Contracting Officer, deliver to the Government (A) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced as a part of, or acquired in respect of the performance of, the work terminated by the Notice of Termination, (B) the completed or partially completed plans, drawings, information, and other property which, if this Letter Contract had been completed, would be required to be furnished to the Government, and (C) the jigs, dies, and fixtures, and other special tools, and tooling acquired or manufactured for the performance of this Letter Contract, for the cost of which the Contractor has been or will be reimbursed under this Letter Contract;

(vii) use his best efforts to sell in the manner, at the times, to the extent, and at the price or prices directed or authorized by the Contracting Officer, any property of the types referred to in (vi) above: *Provided, however,* That the Contractor (A) shall not be required to extend credit to any purchaser, and (B) may acquire any such property under the conditions prescribed by and at a price or prices approved by the Contracting Officer; and *Provided further,* That the proceeds of any such transfer or disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this Letter Contract or shall otherwise be credited to the price or cost of the work covered by this Letter Contract or paid in such other manner as the Contracting Officer may direct;

(viii) complete performance of such part of the work as shall not have been terminated by the Notice of Termination; and

(ix) take such action as may be necessary or as the Contracting Officer may direct, for the protection and preservation of the property related to this Letter Contract which is in the possession of the Contractor in which the Government has or may acquire an interest.

The Contractor shall proceed immediately with the performance of the above obligations notwithstanding any delay in determining the amount of any items of reimbursable cost, under this clause. At any time after expiration of the plant clearance period, as defined in Part 8 of the NASA Procurement Regulation as it may be amended from time to time, the Contractor may submit to the Contracting Officer a list, certified as to quantity and quality, of any or all items of termination inventory not previously disposed of exclusive of items the disposition of which has been directed or authorized by the Contracting Officer, and may request the Government to remove such items or enter into a storage agreement covering them. Not later than fifteen (15) days thereafter, the Government will accept such items and remove them or enter into a storage agreement covering the same, *provided* that the list submitted shall be subject to verification by the Contracting Officer upon removal of the items, or if the items are stored, within forty-five (45) days from the date of submission of the list, and any necessary adjustment to correct the list as submitted shall be made prior to final settlement.

(d) After receipt of a Notice of Termination, the Contractor shall submit to the Contracting Officer his termination claim in the form and with the certification prescribed by the Contracting Officer. Such claim shall be submitted promptly, but in no event later than one (1) year from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer upon request of the Contractor made in writing within such one (1) year period or authorized extension thereof. However, if the Contracting Officer determines that the facts justify such action, he may receive and act upon any such termination claim at any time after such one (1) year period or any extension thereof. Upon failure of the Contractor to submit his termination claim within the time allowed, the Contracting Officer may, subject to any Settlement Review Board approvals required by NASA regulations in effect on the date of the execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination, and shall thereupon pay to the Contractor the amount so determined.

(e) Subject to the provisions of paragraph (d) hereof, and subject to any Settlement Review Board approvals required by NASA regulations in effect as of the date of execution of this Letter Contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the total or partial termination of work pursuant to this clause. In the event of any termination pursuant to paragraph (a) or (b)(i) hereof, such amount or amounts shall not include any allowance for fee. In the event of any termination pursuant to paragraph (b)(ii) hereof, such amount or amounts may include a reasonable allowance for fee, but only on work actually done in connection with the terminated portion of this Letter Contract. Any such amount shall not exceed the maximum amount specified in Article IIIa of the Schedule. Any such agreement shall be embodied in an amendment to this Letter Contract and the Contractor shall be paid the agreed amount.

(f) In the event of the failure of the Contractor and the Contracting Officer to agree in whole or in part, as provided in paragraph (e) above, as to the amount or amounts to be paid to the Contractor in connection with the termination of work pursuant to this clause, the Contracting Officer shall, subject to any Settlement Review Board approvals required by NASA regulations in effect as of the date of execution of this Letter Contract, determine, on the basis of information available to him, and in accordance with the applicable cost principles of the NASA Procurement Regulation as in effect on the date of this Letter Contract, the amount, if any, due to the Contractor by reason of the termination and shall pay such amount to the Contractor. In the event of the termination of this Letter Contract pursuant to paragraph (a) or (b)(i) hereof, no allowance for fee shall be included in the amount to be paid the Contractor.

(g) The Contractor shall have the right of appeal, under the clause of this Letter Contract entitled "Disputes," from any determination made by the Contracting Officer under paragraph (d) or (f) above (including any disputes as to whether termination has in fact taken place pursuant to paragraph (a) or (b)(i) hereof), except that if the Contractor has failed to submit a claim within the time provided in paragraph (d) above and has failed to request extension of such time, he shall have no such right of appeal. In any case where the Contracting Officer has made a determination of the amount due under paragraph (d) or (f) above, the Government shall pay to the Contractor the following:

(i) if there is no right of appeal hereunder or if no timely appeal has been taken, the amount so determined by the Contracting Officer; or

(ii) if an appeal has been taken, the amount finally determined on such appeal.

(h) In arriving at the amount due the Contractor under this clause there shall be deducted:

(i) all unliquidated advance or other payments theretofore made to the Contractor, applicable to the terminated portion of this Letter Contract;

(ii) any claim which the Government may have against the Contractor in connection with this Letter Contract; and

(iii) the agreed price for, or the proceeds of sale of, any materials, supplies, or other things acquired by the Contractor or sold pursuant to the provisions of this clause and not otherwise recovered by or credited to the Government.

(i) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the terminated portion of this Letter Contract whenever in the opinion of the Contracting Officer the aggregate of such payments shall be within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally agreed or determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand, together with interest computed at the rate of 6 percent per annum, for the period from the date such excess payment is received by the Contractor to the date on which such excess is repaid to the Government: *Provided, however,* That no interest shall be charged with respect to any such excess payment attributable to a reduction in the Contractor's claim by reason of retention or other disposition of termination inventory until ten days after the date of such retention or disposition, or such later date as determined by the Contracting Officer by reason of the circumstances.

### § 18–16.860 Processing payments under cost-reimbursement contracts.

The following forms are authorized for processing payment under cost-reimbursement type contracts in accordance with Subpart 18–51.4.

(a) NASA Form 456, Notice of Costs Suspended and/or Disapproved;

(b) NASA Form 456–1, Notice of Costs Suspended and/or Disapproved Continuation Sheet;

(c) DD Form 396, Notice of Costs Suspended and/or Disapproved;

(d) Standard Form 1034, Public Voucher for Purchases and Services Other than Personal;

(e) Standard Form 1034A, Public Voucher for Purchases and Services Other than Personal—Memorandum Copy;

(f) Standard Form 1035, Public Voucher for Purchases and Services Other than Personal Continuation Sheet; and

(g) Standard Form 1035A, Public Voucher for Purchases and Services Other than Personal Continuation Sheet—Memorandum.

### § 18–16.861 Withholdings under Davis-Bacon Act (S.F. 1093).

Standard Form 1093, Schedule of Withholdings Under the Davis-Bacon Act, shall be used in accordance with § 18–12.404–9.

### § 18–16.862 Unitary Plan Wind Tunnel Facilities (NASA Form 362).

NASA Form 362, Agreement for Use of NASA Unitary Plan Wind Tunnel Facilities, shall be used in connection with the use of the NASA unitary plan wind tunnel facilities for company projects. The form shall be executed by authorized representatives of NASA and the company on all company projects, as defined in NASA Management Instruction 7–8–1. The symbol "NAS (UP)" shall be placed on each agreement, followed by the numerical designation of the field installation, and consecutive numbers assigned (for example, "NAS (UP)–1"). Billings shall be rendered by and payments made to the NASA laboratory concerned in accordance with applicable fiscal regulations.

## Subpart 18–16.9—Procurement Action and Status Reports

### § 18–16.900 Scope of subpart.

This Subpart 18–16.9 describes procurement action and status reports required by NASA Headquarters from all NASA procurement offices.

### § 18–16.901 Purpose.

The reports prescribed herein are designed to provide records and statistics necessary for procurement management purposes and to serve as a basis for required recurring and special reports to the President, the Congress, the General Accounting Office, the Small Business Administration, and other Federal agencies.

### § 18–16.902 Applicability.

Individual Procurement Action Reports (NASA Form 507) and Procurement Status Reports (NASA Form 561) shall be prepared by all offices at Headquarters and NASA field installations charged with the responsibility for making and administering purchases and contracts.

### § 18–16.903 Definition.

(a) "Procurement actions" means contractual actions to obtain supplies, services, or construction which obligate or de-obligate funds, including:

(1) Preliminary contractual instruments, e.g., letter contracts;

(2) Definitive contracts (including notices of award);

(3) Purchase orders;

(4) Job orders;

(5) Task orders;

(6) Delivery orders; and

(7) Any other orders against existing contracts, including debit and credit actions that modify a contract, such as amendments, change orders, supplemental agreements, cancellations, and terminations.

The term does not include contracts which do not obligate a firm total dollar amount or do not name a fixed quantity, such as indefinite delivery type contracts. However, orders against such contracts shall be reported as procurement actions.

(b) "Proposed procurements" means purchase requests received by NASA procurement offices to issue orders and enter into contracts.

(c) "Procurement status" means any of the 11 steps involved in the processing of a proposed procurement as set forth for columns G through Q of § 18–16.904–2(c)(2).

**§ 18–16.904 Reports required.**

**§ 18–16.904–1 Individual procurement action report (NASA Form 507).**

Pending the formal issuance of instructions in this Chapter, Individual Procurement Action Reports (NASA Form 507 (6–63)) shall be prepared and submitted in accordance with the instructions contained in the letter from NASA Headquarters addressed to procurement officers, dated June 20, 1963; subject, "Revised Individual Procurement Action Report (NASA Form 507)."

**§ 18–16.904–2 NASA Procurement Status Report (NASA Form 561).**

(a) *Preparation.* NASA Form 561 (or work sheets, see paragraph (b) of this section) shall be prepared monthly showing the procurement status of all proposed procurements which may result in purchase orders or contracts of $500,000 or more by all procurement offices at NASA Headquarters and NASA field installations. The report shall include proposed procurements of $500,000 or more which represent proposed modifications of existing contracts or purchase orders and shall be prepared in accordance with paragraph (c) of this section.

(b) *Submission.* (1) NASA Form 561 may be used for submitting the report required in paragraph (c) of this section. However, copies of work sheets maintained by the procurement offices may be submitted in lieu of NASA Form 561 provided that all of the data required by paragraph (c) of this section is included on the work sheets or on attachments thereto.

(2) Two copies of the report shall be submitted to the Office of Procurement (Code KDS) in time to arrive by the tenth of the month following the month for which the report is being made. A negative report shall be submitted where a procurement office has no action to report for a given month.

(3) Classified information required by a report shall be transmitted under separate cover in accordance with NASA Management Instruction 24–1–1.

(c) *Instructions for preparation of NASA procurement status report (NASA Form 561).*—(1) *General.* (i) NASA Form 561 (or installation work sheets) shall be used by NASA procurement offices for each monthly procurement status report. Each report shall list (1) all previously reported proposed procurements on which procurement action had not been reported as completed in the previous month's report, and (2) all new proposed procurements of $500,000 or more received during the month, whether or not procurement actions on such new procurements had been completed by the end of the month.

(ii) NASA Form 561 (paragraph (d) of this section) has been developed so that retyping of the data listed on previous reports is not required; i.e., copies of the previous report may be submitted and proposed procurements on which action had been reported as completed in the previous report may be lined out and new proposed procurements may be added.

(iii) The individual line items on the report shall be listed in the order most convenient to the respective procurement offices.

(iv) "Proposed procurements" means purchase requests received by NASA procurement offices to issue orders and enter into contracts.

(v) "Procurement status" means any of the 11 steps involved in the processing of a proposed procurement as set forth for columns G through Q of subparagraph (2).

(vi) NASA Form 561 (or installation work sheets) shall be submitted to NASA Headquarters in accordance with § 18–16.904–2(b).

(2) *Detailed Instructions.*

| Column | Caption | Explanation of Entries |
|---|---|---|
| A | Purchase Request No. | Enter the number of the purchase request identifying the proposed procurement. Procurement offices utilizing requisition numbers to identify proposed procurements may enter such numbers in lieu of the purchase request numbers. |
| B | Existing Contract No./Modification No. | If the proposed procurement represents a modification of an existing contract or purchase order, enter the number of the contract or purchase order in the top block and the number of the modification in the block below. |
| C | Program/Project | Enter the number(s) of the program(s) and project(s) from which the proposed procurement is to be funded. These numbers will be obtained from the NASA agency-wide coding structure (Financial Management Manual Vol. 4). If the proposed procurement is to be funded from more than one program or project, list all applicable numbers, using additional lines as necessary. |
| D | Description | Enter a brief description of the proposed procurement. |
| E | Cost/Committed | If the proposed procurement involves incremental funding, enter the estimated total cost of the contract in the top block. Enter the commitments and the last 2 digits of the fiscal year in which the committed funds were appropriated in the second block.<br>If the proposed procurement is to be funded from more than one program or project, enter the commitments against each program or project. |
| F | Advertised or negotiated | If the proposed procurement is to be formally advertised, enter the letter "A"; if it is to be negotiated, enter the letter "N." |
| G–Q | | Columns G through Q pertain to steps in the procurement process. In each column enter the month and day, in numerals, when the designated step was accomplished.<br>If the last action had been accomplished more than a year prior to the date of the report, enter also the last 2 digits of the calendar year.<br>Cross out steps not applicable to a specific proposed procurement.<br>Use footnotes to modify columnar designations, where required.<br>In some instances, completion of procurement action may be delayed by reasons not within the control of procurement personnel. When applicable, use the following code designations and enter the applicable letter in the column immediately following the last step accomplished.<br>P—Awaiting action by program offices.<br>F—Awaiting funding action.<br>C—Awaiting contractor action.<br>When, in the judgment of the respective procurement office, a procurement action is requiring more than a normal period of processing time for reasons other than those stated above, provide an explanation on attached sheets. |
| G | Received from technical programs offices. | Enter the date only if the purchase request was received by the procurement office prior to the date necessary funds had been committed. |
| H | Received from fiscal office | Enter the date the purchase request was received by the procurement office with necessary funds committed. |
| I | D&F or procurement plan approved. | If both actions are to be taken with respect to a specific proposed procurement, enter only the date the last required action was accomplished. |
| J | IFB or RFP issued | Self-explanatory. (For modifications, use this column to indicate date quotation was requested. For actions placed with or through other Government agencies, use this column to indicate date purchase request or order was forwarded to the Government agency.) |
| K | Bid or proposal opened—scheduled/actual. | Enter the scheduled date in the top block. Enter the actual date in the block below. (For modifications, enter in the lower block the date the quotation was received.) |
| L | Contractor Selected | Enter the date. Also enter the name and address (city and State only) of the contractor in column(s). |
| M | Letter Contract Issued | Self-explanatory. |
| N | Notice of Award Issued | Self-explanatory. |
| O | Definitive Contract Mailed to Contractor for Signature. | Self-explanatory. |
| P | Approved by Headquarters | Enter the date when approval is required. |
| Q | Signed Copies Distributed | Self-explanatory. (For actions placed with or through other Government agencies, use this column to indicate date acceptance was received.) |
| R | New Contract No./Amount Obligated. | Enter in the top block the number of the contract or purchase order. Enter in the block below the amount obligated. If the contract or purchase order is funded from more than one program or project (see column E), enter the obligations against each program or project. |
| S | Contractor | Enter the name and address (city and State) of the contractor. |

**§ 18–16.904–3 Geographic distribution of NASA subcontracts (NASA Form 667).**

In order to obtain information relating to the geographic distribution of subcontracts awarded under certain NASA contracts, the following clause will be inserted in all NASA contracts of $500,000 or more:

REPORT ON NASA SUBCONTRACTS (JANUARY 1964)

(a) The Contractor agrees to submit information on NASA Form 667 to the National Aeronautics and Space Administration (Code: KDS), Washington, D.C., substantially as follows with respect to each subcontract or modification thereof exceeding $10,000 as soon as possible after execution thereof:

(i) the name and address of the prime contractor and the NASA prime contract number;

(ii) the name and address of the subcontractor;

(iii) whether the subcontractor is a large or small business concern;

(iv) whether the type of effort being performed involves research and development;

(v) a brief description of the subcontract work;

(vi) the amount of the subcontract; and

(vii) the principal location where the subcontract work is to be performed, if known.

(b) The term "subcontract" as used herein means procurement in excess of $10,000 by the Contractor or first-tier subcontractor of articles, materials, or services entering into the performance of this contract, except purchases, regardless of amount, of stock items, materials, or services which cannot be specifically identified with this contract.

(c) The term "research and development" as used herein means basic and applied research, and design and development of prototypes and processes to (1) pursue a planned search for new knowledge, with or without reference to a specific application, (2) apply existing knowledge in the creation of new products or processes and (3) apply existing knowledge in the improvement or modification of present products and processes. It excludes subcontracts for the purchase of standard commercial items and services.

(d) The Contractor further agrees to insert the provisions of paragraphs (a), (b) and (c) of this Clause in each subcontract in excess of $50,000. The Contractor will instruct his subcontractors to submit their reports directly to the National Aeronautics and Space Administration (Code: KDS), Washington, D.C., and will provide his subcontractors with the number of the NASA prime contract.

## PART 18–17—EXTRAORDINARY CONTRACTUAL ADJUSTMENTS PROCEDURE

Sec.

18–17.000 Scope of part.
18–17.101 Authority.
18–17.102 General policy.
18–17.103 Standards for deciding cases.
18–17.103–1 General.
18–17.103–2 Amendments without consideration.
18–17.103–3 Mistakes.
18–17.103–4 Informal commitments.
18–17.104 Limitations upon deciding cases.
18–17.105 Procedures for filing requests.
18–17.105–1 Filing requests.
18–17.105–2 Form of requests.
18–17.105–3 Additional facts and evidence.
18–17.106 Processing contractor requests.
18–17.106–1 Investigation.
18–17.106–2 Submission of requests to the contract adjustment board.
18–17.106–3 Action by contract adjustment board.
18–17.107 Implementation of board's decision.
18–17.108 Contractual requirements.
18–17.109 Records and reports.
18–17.110 Interdepartmental coordination.

AUTHORITY: The provisions of this Part 18–17 issued under 42 U.S.C. 2473(b)(1).

**§ 18–17.000 Scope of part.**

This Part 18–17 establishes standards and procedures for the disposition of requests for extraordinary contractual adjustments by contractors of the National Aeronautics and Space Administration (hereinafter referred to as "NASA" or the "Administration") pursuant to the Act of August 28, 1958 (Public Law 85–804; 50 U.S.C. 1431–35) (hereinafter referred to as "the Act"), and Executive Order No. 10789 (CFR Comp. 1954–1958) (hereinafter referred to as "the Executive Order"). It does not extend to advance payments or the so-called "residual powers" under the Act.

**§ 18–17.101 Authority.**

(a) The Act empowers the President to authorize Departments and agencies exercising functions in connection with the national defense to enter into contracts or into amendments or modifications of contracts and to make advance payments, without regard to other provisions of law relating to the making, performance, amendment, or modification of contracts, whenever he deems that such action would facilitate the national defense.

(b) The Executive Order authorizes the Administrator of NASA (hereinafter referred to as "the Administrator"), to exercise the authority conferred by the Act, and to prescribe regulations for the carrying out of such authority.

(c) NASA Management Instruction 2–4–4 establishes the Contract Adjustment Board (hereinafter referred to as "the Board") to consider and dispose of requests for extraordinary contractual adjustments by NASA contractors.

**§ 18–17.102 General policy.**

The authority conferred by the Act shall be utilized primarily as an aid to procurement but shall not be utilized so as to encourage carelessness and laxity on the part of contractors or NASA personnel, nor be relied upon by NASA where other adequate legal authority exists. The actions authorized under the Act shall be processed as expeditiously as practicable but with the care, restraint, and sound judgment appropriate to the exercise of such extraordinary authority.

**§ 18–17.103 Standards for deciding cases.**

**§ 18–17.103–1 General.**

The mere fact that losses occur under a Government contract is not, by itself, a sufficient basis for the exercise of the authority conferred by the Act. Whether, in a particular case, appropriate action (such as amendment without consideration, correction of a mistake or ambiguity in a contract, or formalization of an informal commitment) will facilitate the national defense is a matter of sound judgment to be made on the basis of all of the facts of the case. Although it is obviously impossible to predict or enumerate all types of cases with respect to which action may be appropriate, examples of cases or types of cases where action may be proper are set forth in §§ 18–17.103–2, 18–17.103–3, and 18–17.103–4. Even if all of the factors contained in any of the examples are present, other factors or considerations in a particular case may result in a denial of the request. These examples are not intended to exclude other cases where the

Board determines that the circumstances warrant action.

**§ 18–17.103–2 Amendments without consideration.**

(a) Where an actual or threatened loss under a Government contract, however caused, will impair the productive ability of a contractor whose continued operation as a source of supply is found to be essential to the national defense, the contract may be adjusted, but only to the extent necessary to avoid such impairment to the contractor's productive ability.

(b) Where a contractor suffers a loss (not merely a diminution of anticipated profits) on a Government contract as a result of Government action, the character of the Government action will generally determine whether any adjustment in the contract will be made and its extent. Where the Government action is directed primarily at the contractor and is taken by the Government in its capacity as the other contracting party, the contract may be adjusted if fairness so requires; thus, where such Government action, although not creating any liability on the part of the Government, increases the cost of performance, considerations of fairness may make some adjustment in the contract appropriate.

**§ 18–17.103–3 Mistakes.**

A contract may be amended or modified to correct or mitigate the effect of a mistake. Examples of cases where such action may be appropriate include the following:

(a) A mistake or ambiguity which consists of the failure to express or to express clearly in a written contract the agreement as both parties understood it;

(b) A mistake on the part of the contractor which is so obvious that it was or should have been apparent to the contracting officer; and

(c) A mutual mistake as to a material fact.

Amending contracts to correct mistakes with the least possible delay normally will facilitate the national defense by expediting the procurement program and by giving contractors proper assurance that such mistakes will be corrected expeditiously and fairly.

**§ 18–17.103–4 Informal commitments.**

Informal commitments may be formalized under certain circumstances to permit payment to persons who have taken action without a formal contract; for example, where any person, pursuant to written or oral instructions from an official of NASA and relying in good faith upon the apparent authority of the official to issue such instructions, has arranged to furnish or has furnished property or services to NASA or to a Government contractor or subcontractor without formal contractual coverage for such property or services. Formalization of commitments under such circumstances normally will facilitate the national defense by assuring such persons that they will be treated fairly and paid expeditiously.

**§ 18–17.104 Limitations upon deciding cases.**

(a) The Act is not authority for:

(1) The use of the cost-plus-a-percentage-of-cost system of contracting;

(2) The execution of any contract in violation of existing law relating to limitation of profit or fees;

(3) The negotiation of purchases of or contracts for property or services required by law to be procured by formal advertising and competitive bidding;

(4) The waiver of any bid, payment, performance, or other bond required by law;

(5) The amendment of a contract negotiated under 10 U.S.C. 2304(a)(15) to increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder; or

(6) The formalization of an informal commitment, unless it is found that at the time the commitment was made it was impracticable to use normal procurement procedures.

(b) No contract, amendment, or modification shall be entered into under the authority of the Act:

(1) Unless a finding is made that the action will facilitate the national defense;

(2) Unless other legal authority in the Administration is deemed to be lacking or inadequate;

(3) Unless the request therefor has been filed before all obligations have been discharged and final payment made; and

(4) Except within the limits of the amounts appropriated and the statutory contract authorization.

**§ 18–17.105 Procedures for filing requests.**

**§ 18–17.105–1 Filing requests.**

Any person or company seeking an adjustment under the standards set forth in § 18–17.103 (hereinafter called the "contractor") may file a request in duplicate with the cognizant contracting officer or his duly authorized representative. If such filing is impracticable, requests will be deemed to be properly filed if filed with the Board or the Administrator for forwarding to the cognizant contracting officer.

**§ 18–17.105–2 Form of requests.**

The contractor's request shall normally consist of a statement, dated and signed by the contractor, containing as a minimum the following information:

(a) A chronological narrative of the essential facts, showing in detail the chain of events leading up to the request;

(b) The contractor's conclusions based on such facts, showing in terms of the standards set forth in § 18–17.103 and the limitations set forth in § 18–17.104 why the contractor considers himself entitled to the adjustment requested;

(c) The precise adjustment requested, showing how it was formulated or computed and the consequences of granting or denying the request, including whether any proceeds from the request, if granted, will be subject to any assignment or other transfer, and to whom;

(d) If a written contract is involved, a statement of the contractor's understanding of why the subject matter of the request cannot now and could not at the time it arose be disposed of under the terms of the contract itself;

(e) If a written contract is involved, a complete copy of or a brief description of the contract, indicating the dates of execution and amendments thereto, the items being procured, the price or prices, the delivery schedule or revisions thereof, and such other special contractual provisions as may be relevant to the request;

(f) If a written contract is involved, whether all obligations, including final payment under the contract have been discharged; and

(g) Whether the contractor has sought the same, or a similar or related, adjustment from the General Accounting Office or any other agency of the Government, or anticipates doing so.

**§ 18–17.105–3 Additional facts and evidence.**

(a) *General.* The cognizant contracting officer or the Contract Adjustment Board may, where considered pertinent, request the contractor to furnish additional facts and evidence in support of his request, of the nature set forth in this paragraph. In complying with such requests, the contractor may also submit other statements and evidence which he may consider helpful to his case:

(1) The best evidence available to the contractor in support of any facts alleged by the contractor, including contemporaneous memoranda, correspondence, affidavits, and any other material tending to establish matters of fact;

(2) A history of performance indicating when work under the contracts or commitments was begun, the progress made to the present, and exact statement of the contractor's remaining obligations, and the contractor's expectations regarding completion thereof;

(3) A statement of payments received, payments due, and payments yet to be received or to become due, including advance and progress payments and amounts withheld by the Government, and formation as to other obligations of the Government, if any, which are yet to be performed under the contract;

(4) A statement giving a detailed analysis of the monetary elements of the request, including precisely how the actual or estimated dollar amount of the request was arrived at, the effect of approval or denial on the contractor's profits before Federal income taxes, and whether the costs for which reimbursement is requested have been included as a part of his gross costs in statutory renegotiation proceedings, together with the contractor's renegotiation status for the relevant years;

(5) Relevant financial statements, cost analyses, or other such data, preferably certified by a certified public accountant, including such additional financial data as is necessary to explain fully and to support the monetary elements of the request for adjustment;

(6) A list of persons (in the employ of the Government, in the employ of the contractor, or otherwise connected with the contract) who have some factual knowledge of the subject matter, including, where possible, the name, office or title, address, and telephone number of each such person;

(7) A statement and evidence of steps taken to mitigate loss and reduce claims to a minimum; and

(8) Such other statements or evidence as may be requested.

(b) *Amendments without consideration under § 18–17.103–2(a).* In addition to the facts and evidence enumerated in paragraph (a) of this section, where a request involves possible amendment without consideration, and "essentiality" is a factor, the contractor may be asked to furnish:

(1) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances and profit;

(2) A statement and evidence of the contractor's present estimate of total costs under the contracts involved if enabled to complete, broken down between costs accrued to date of request and run-out costs, and between costs for which the contractor has made payment and those for which he is indebted at the time of the request;

(3) A statement and evidence of the contractor's estimate of the final price of the contracts involved, giving effect to all escalation, changes, extras, and the like, known or contemplated by the contractor;

(4) A statement of any claims known or contemplated by the contractor against the Government involving the contracts in question, other than those stated in response to subparagraph (3) of this paragraph;

(5) An estimate of the contractor's total profit or loss under the contracts involved if enabled to complete at the final contract price (see subparagraph (3) of this paragraph) broken down between profit or loss to date and run-out profit or loss;

(6) An estimate of the total profits from other Government business and all other sources during the period from the date of the first contract involved to the estimated date of completion of all the contracts involved;

(7) A statement of the amount of any tax refunds and an estimate of those anticipated during or for the period from the date of the first contract involved through the estimated completion date of all the contracts involved;

(8) A statement in detail as to efforts the contractor has made to obtain funds from commercial sources to enable him to complete performance of the contracts involved;

(9) A statement of the minimum amount necessary as an amendment without consideration to enable the contractor to complete performance of the contracts involved, and the detailed basis for that amount;

(10) An estimate of the time required to complete each contract if the request is granted;

(11) A statement of the factors which have caused the loss under the contracts involved;

(12) A statement as to the course of events anticipated if the request is denied;

(13) Balance sheets, preferably certified by a certified public accountant, as of the end of the contractor's fiscal year first preceding the date of the first contract, as of the end of each subsequent fiscal year, as of the date of the request, and projected as of the date of completion of all the contracts involved, assuming the contractor is enabled to complete the contracts at the final prices estimated pursuant to subparagraph (3) of this paragraph, together with income statements for annual periods subsequent to the date of the first balance sheet. Balance sheets and income statements should be both consolidated, and by affiliates, and should show all transactions between the contractor and his affiliates, stockholders, and partners including loans to the contractor guaranteed by any stockholder or partner; and

(14) A list of all salaries, bonuses, and all other forms of compensation of the principal officers or partners and of all dividends and other withdrawals, and all payments to stockholders in any form since the date of the first contract involved.

(c) *Amendments without consideration under § 18–17.103–2(b).* In addition to the facts and evidence enumerated in paragraph (a) of this section, where a request involves possible amendment without consideration because of Government action, and "essentiality" is not a factor, the contractor may be asked to furnish:

(1) A detailed statement of the precise Government action which the contractor considers caused a loss under the contract, with evidence to support each essential fact;

(2) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances and profit;

(3) The estimated total loss suffered under the contract, with detailed supporting analysis; and

(4) The estimated loss resulting from the Government action, with detailed supporting analysis.

(d) *Correction of mistakes under § 18–17.103–3.* In addition to the facts and evidence enumerated in paragraph (a) of this section, where a request involves possible correction of a mistake, the contractor may be asked to furnish:

(1) A statement and evidence of the precise mistake or error that was made, the ambiguity that exists, or the misunderstanding that arose, showing of what it consisted and how it occurred, and the intention of the parties;

(2) A statement explaining when the mistake was discovered, when notice of mistake was given to the contracting officer, and whether given before completion of work under, or the effective date of termination of, the contract;

(3) An estimate of loss or profit under the contract with detailed supporting analysis; and

(4) An estimate of the increase in cost to the Government resulting from the adjustment requested, with detailed supporting analysis.

(e) *Formalization of informal commitments under § 18–17.103–4.* In addition to the facts and evidence enumerated in paragraph (a) of this section, where a request involves possible formalization of an informal commitment, the contractor may be asked to furnish:

(1) Copies of any written instructions or assurances, or a statement under oath of any oral instructions or assurances made to the contractor, with identification of the Government officer or official making such statement;

(2) A statement as to when the property or services were furnished or arranged to be furnished, and to whom;

(3) Evidence that the contractor relied upon the instructions or assurances, with a full description of the circumstances which led him so to rely, and that the contractor intended, at the time of performing the work, to be compensated directly for it by the Government and did not anticipate recovery of the costs in some other way;

(4) A cost breakdown supporting the amount claimed as a fair compensation for the work performed; and

(5) A statement and evidence of why it was impracticable to provide for the work performed in an appropriate contractual instrument.

**§ 18–17.106 Processing contractor requests.**

**§ 18–17.106–1 Investigation.**

Upon receipt of a contractor's request for an extraordinary contractual adjustment, the cognizant contracting officer shall be responsible for making a thorough investigation of all facts and issues relevant to the request. Facts and evidence shall be obtained from contractor and Government personnel, including signed statements of material facts within the knowledge of individuals where documentary evidence is lacking, and audits where considered necessary to establish financial or cost facts. The investigation shall establish the facts essential to meeting the standards required for a decision on the request.

**§ 18–17.106–2 Submission of request to the Contract Adjustment Board.**

(a) *Statements and information to board.* (1) After completing the investigation of the facts and issues relevant to the contractor's request, the cognizant contracting officer shall forward the request to the Chairman, Contract Adjustment Board, NASA Headquarters, and shall state the following in his forwarding letter:

(i) The nature of the case; and

(ii) The disposition recommended for the request, and, if contractual action is recommended, the opinion of the contracting officer that such action will facilitate the national defense.

(2) The forwarding letter shall enclose the contractor's request, and all

material submitted by the contractor in support of such request, together with such additional material as the contracting officer has obtained from Government sources or personnel in the course of his investigation of the facts and issues relevant to the request. The contracting officer's forwarding letter and all enclosures shall be submitted in duplicate. Any classified information included in the material forwarded shall be identified as such.

(b) *Amendments without consideration under § 18-17.103-2(a).* Where an amendment without consideration under the standards of § 18-17.103-2(a) is recommended by the cognizant contracting officer, the forwarding letter shall include, in addition to the statements and information described in paragraph (a) (1) and (2) of this section, a statement of the contracting officer's findings as to:

(1) The contractor's performance record, including the quality of product, rate of production, and promptness of deliveries;

(2) The importance to the Government of the performance of the contract by the contractor and the importance of the contractor to the national defense;

(4) The forecast of future contracts with the contractor; and

(5) Other available sources of supply for the supplies or services covered by the contract, and the time and cost of having contract performance completed by such other sources.

(c) Formalization of informal commitments under § 18-17.103-4. Where the formalization of an informal commitment under the standards of § 18-17.103-4 is recommended by the cognizant contracting officer, the forwarding letter shall include, in addition to the statements and information described in paragraph (a) (1) and (2) of this section, a statement that the contracting officer has determined that at the time the informal commitment was made, it was impracticable to use normal procurement procedures.

**§ 18-17.106-3 Action by Contract Adjustment Board.**

(a) *Investigation.* Upon receipt of a request which is forwarded by the cognizant contracting officer, the Board, acting through its Counsel, may make such further investigation of the facts and issues involved in the request, and obtain such additional facts and evidence relating to the request, either from the contractor or the contracting officer, or others, as is necessary to make a determination as to the contractor's entitlement to the relief requested, or to other equitable relief.

(b) *Decision.* The Board, acting in accordance with its own procedures, will render its decision on a request as expeditiously as practicable. A Memorandum of Decision disposing of the case shall be prepared for the signature of the Chairman of the Board, and shall be dated and contain the following information:

(1) The name and address of the contractor, the contract identification, and the nature of the request;

(2) The decision reached and the actual cost or estimated potential cost, if any, of the decision;

(3) A concise description of the property or services involved;

(4) A statement of the circumstances justifying the decision; and

(5) If some adjustment action is approved, a statement in substantially the following form: "The Board finds that the action authorized herein will facilitate the national defense."

(c) The Memorandum of Decision shall omit any of the foregoing information classified "Confidential" or higher.

**§ 18-17.107 Implementation of Board's decision.**

(a) Copies of the Board's decision will be transmitted to the cognizant contracting officer, who will take such action as is authorized by the decision. Where the Board's decision is to reject the contractor's request for relief, the cognizant contracting officer will advise the contractor of such decision.

(b) Except as provided in paragraph (c) of this section, immediately upon execution of a contract or contract amendment which implements the decision of the Board, the contracting officer shall forward two copies of the contractual document to the Chairman, Contract Adjustment Board, marked for the attention of the Counsel to the Board, for retention with the Board's permanent files.

(c) Contracts or contract amendments for which approval of NASA Headquarters is otherwise required under the provisions of this chapter shall be forwarded for approval as provided in this chapter. After approval has been received, the provisions of paragraph (b) of this section will be complied with.

**§ 18-17.108 Contractual requirements.**

Every contract entered into or amended or modified pursuant to this Part 18-17 shall contain:

(a) A citation of the Act and Executive Order;

(b) A brief statement of the circumstances justifying the action;

(c) A recital of the finding that the action will facilitate the national defense;

(d) The contract clause entitled "Covenant Against Contingent Fees" (see § 18-7.103);

(e) The contract clause entitled "Examination of Records" (see § 18-7.104-15);

(f) The contract clause entitled "Nondiscrimination in Employment" (see § 18-12.802);

(g) The contract clause entitled "Assignment of Claims" (see § 18-7.103-8);

(h) If otherwise applicable, the contract clauses entitled "Walsh-Healey Public Contracts Act" (41 U.S.C. 35), "Davis-Bacon Act" (40 U.S.C. 276a), "Copeland ('Anti-Kickback') Act—Nonrebate of Wages" (18 U.S.C. 874), and "Work Hours Act of 1962—Overtime Compensation" (76 Stat. 357) (see §§ 18-12.403 and 18-12.604); and

(i) Any other clauses which are appropriate to the particular procurement.

**§ 18-17.109 Records and reports.**

(a) The following documents shall be maintained in the permanent files of the Board:

(1) The original copy of the Memorandum of Decision; and

(2) Copies of the contractual document implementing the Board's decision.

(b) The Board shall prepare reports for submission to Congress in accordance with the Act.

**§ 18-17.110 Interdepartmental coordination.**

(a) *General.* Where a case involves matters of interest to more than one Department or agency, the Board may take such joint action as may be proper under the circumstances, including holding joint meetings or hearings. Liaison with the Military Departments and other Departments and agencies of the Government in connection with all such cases shall be the responsibility of the Board.

(b) *Amendments under § 18-17.103-2(a).* Requests for amendments without consideration under § 18-17.103-2(a) where "essentiality" is an issue involving another Department or agency shall not be finally determined by NASA until advice on the "essentiality" issue is requested and received from such other Department or agency. When such advice is received, the responsibility for taking the appropriate action, if any, shall be with NASA.

(c) *Funds of other departments or agencies.* Requests for adjustment within any category, where the funds of other than NASA may be required, shall not be approved by NASA until advice is requested and received from the other department or agency involved that additional funds will be made available. The request for such advice shall disclose the following data:

(1) Contractor's name;

(2) Contract number;

(3) Amount of proposed relief;

(4) Brief description of the procurement; and

(5) Account classification—fund citation.

## PART 18-50—ADMINISTRATIVE POLICIES AND PROCEDURES

18-50.306 Retention of documents for onsite audit.

AUTHORITY: The provisions of this Part 18-50 issued under 42 U.S.C. 2473(b)(1).

### Subpart 18-50.1—Administrative Requirements for Advance Information and for Obtaining Approval of Contracts and Modifications

**§ 18-50.100 Scope of subpart.**

This Subpart 18-50.1 sets forth administrative requirements for furnishing advance contract information to NASA Headquarters and to specified field installations of certain proposed procurements expected to exceed $10,000; and for obtaining the approval of NASA Headquarters, prior to award, of specified categories of contracts and modifications. This subpart further prescribes information to be furnished by contracting officers in submitting contracts and modifications that require NASA Headquarters approval. The requirements of this subpart are in addition to other approval and review requirements, such as those with respect to approval of procurement plans (see § 18-3.852) and those made in connection with source evaluation procedures (see § 18-3.856).

**§ 18-50.101 Contract review function.**

The primary purpose of contract review and approval by NASA Headquarters of certain categories of contractual actions is to provide an independent review and analysis for the purpose of determining whether the procurements:

(a) Were competently negotiated;

(b) Are based on adequate information;

(c) Are in conformance with law, established policies and procedures, and sound business practices; and

(d) Will result in contracts that adequately protect the interest of the Government.

**§ 18-50.102 General authority of contracting officers.**

Contracting officers may enter into, amend, modify, and take other action with respect to contracts for property or services subject to the limitations and requirements set forth in this chapter and in letters designating them as contracting officers.

**§ 18-50.103 Prerequisites for contracting.**

Whether the procurement is to be effected by formal advertising or by negotiation, a contract or amendment may be entered into by a contracting officer only if:

(a) All applicable requirements of law, NASA regulations, and instructions of the installation have been met;

(b) Required approvals have been obtained from the technical and management authorities at the installation concerned; this includes, prior to the incurrence of an obligation, obtaining approval as to the availability of funds;

(c) The contract is written on a standard or an approved form of contract; and

(d) Approval of deviations from standard or authorized contract clauses has been obtained from the Director of Procurement (see § 18-1.109). In the case of advertised procurements, approval of deviations should be obtained prior to solicitation of bids; and in the case of negotiated procurements, approval of deviations should be secured prior to the conclusion of negotiations.

**§ 18-50.104 Advance information.**

**§ 18-50.104-1 Procurements in excess of $10,000.**

The procedures set forth in this § 18-50.104-1 shall be followed by procurement offices in connection with procurements expected to exceed $10,000. (The information required is used primarily for the purpose of carrying out the policies described in Subpart 18-1.10.)

(a) A copy of each unclassified preinvitation notice, invitation for bids (IFB), request for proposals (RFP), or request for quotations (RFQ), including specifications but not drawings, shall be forwarded to the Office of Procurement (Code KD-2), the North Eastern Office, and the Western Operations Office, at the time the notice is issued or bids or proposals are solicited. If the proposed procurement is classified, only a copy of the notice or solicitation of bids or proposals shall be forwarded to NASA Headquarters.

(b) The pre-invitation notice will contain the information prescribed by § 18-2.205-4(c). Each copy of the IFB, RFP, or RFQ shall be accompanied by a statement of the estimated cost of the proposed procurement and a complete list of firms or persons solicited or invited to submit bids or proposals. This information is for internal use.

(c) Changes in or amendments to the original pre-invitation notice, IFB, RFP, or RFQ will be distributed in the same manner as the original documents.

**§ 18-50.104-2 Information for consideration of labor surplus area concerns.**

For information required for consideration of labor surplus area concerns see § 18-1.8.

**§ 18-50.105 Approval of contracts and modifications.**

(a) All contractual documents, regardless of dollar value, require a complete review by the contracting officer, notwithstanding that further review and approval may be required.

(b) Proposed contracts and modifications in the following categories shall be submitted to the Director of Procurement for approval:

(1) All incentive type contracts (see Subpart 18-3.4);

(2) Contracts for utility service when they fall within any of the categories set forth in § 18-4.5006;

(3) For architect-engineer services when:

(i) The total dollar value is $250,000, or

(ii) The work to be performed under a cost-plus-fixed-fee contract includes services of the types described in § 18-4.201(b) (2), (3), and (4), and the fee, inclusive of the architect-engineer's costs, to be paid to the architect-engineer for the performance of such services exceeds 6% of the estimated cost of the related construction project, exclusive of the amount of such fee.

(4) All contracts for personal services (see § 18-3.204);

(5) All contracts for management consultant or advisory services (see § 18-4.5205-3);

(6) All contracts involving advance payments by the Government;

(7) All facilities contracts which provide facilities having a total acquisition value exceeding $50,000, or which provide real property regardless of amount (see § 18-13.403(e));

(8) All leases for real property where the annual rental is more than $25,000 or where a certificate of necessity under 40 U.S.C. 278b is required or where the lease deviates from the forms and clauses prescribed by NASA Headquarters (see NASA Management Instruction 3-8-2A (29 F.R. 4148) concerning delegations of authority for real property transactions);

(9) Each negotiated contract or modification which by itself would obligate the Government in an amount in excess of the dollar values set forth below for the installation making the award—

(i) $200,000: Wallops Station.

(ii) $500,000: Flight Research Center.

(iii) $1,000,000: Headquarters Contracts Division, Kennedy Space Center, Space Nuclear Propulsion Office (Germantown), and Western Operations Office.

(iv) $2,500,000: Ames Research Center, Langley Research Center, Lewis Research Center, Goddard Space Flight Center, Manned Spacecraft Center, and Marshall Space Flight Center.

(10) Each proposed award in excess of the amount of contract approval authority set forth in (9) above for the installation proposing to make the award when only one responsive bid has been received after formal advertising.

(c) *Authorization to issue letter contracts.* All letter contracts require advance NASA Headquarters authorization for issuance. Such prior authorization shall be obtained in accordance with the procedures set forth in paragraph D5, Section VII of the "NASA Basic Administrative Processes" (NPC 107).

(d) *Approval Provision.* All negotiated definitive instruments which require the approval of the Director of Procurement, pursuant to paragraph (b) of this section, shall contain the clause set forth in § 18–7.104–51.

**§ 18–50.106 Information to be furnished when requesting approval of contracts and modifications.**

(a) General: Requests for approval of negotiated definitive contracts and modifications submitted to Headquarters for approval by the Director of Procurement, in accordance with § 18–50.105 and the procedures in NPC 107, Section VII, paragraphs D5 1 through k, shall include the information set forth in this paragraph and shall be forwarded in sufficient time to allow a minimum of 15 days for review. The official contract file (which will be returned with the notice of approval, or disapproval) will be submitted with the request for approval and will include NASA Form 1098, "Check List for Contract File Content," in an original and three copies. NASA Form 1098 and the contract file will be completed and documented in accordance with the "Instructions" block on NASA Form 1098.

(b) Formal advertising: Each request for approval of a contract or modification to be entered into by formal advertising shall be accompanied by the official contract file and NASA Form 1098, completed in accordance with paragraph (a) of this section, and, to the extent not otherwise required, will include:

(1) A copy of the invitation for bids, specifications, and all addenda thereto;

(2) A list of persons or firms invited to bid;

(3) A copy of the bid received from the bidder to whom award is proposed, together with his bid bond, if any;

(4) A complete statement justifying reasons for the award, to include the basis for the determination of reasonableness of the proposed contract price; and

(5) Accounting data indicating availability of funds, and appropriate project and subproject chargeable.

(c) Negotiation: Each request for approval of a contract or modification to be entered into as a result of negotiation will contain, in the letter of transmittal, the information required by subparagraphs (1) through (4) of this paragraph and shall be accompanied by the official contract file and NASA Form 1098, completed in accordance with paragraph (a) of this section, and, to the extent not otherwise required, will include:

(1) Name and address of the proposed contractor;

(2) Location of plant or work site for performance of the contract;

(3) Contract number, including amendment number if applicable;

(4) Type of contract action (letter contract; conversion of letter contract to definitive contract, firm fixed-price, CPFF, etc.);

(5) A statement by the contracting officer justifying the use of negotiation or reference to the findings and determination authorizing negotiation, citing the appropriate subsection of 10 U.S.C. 2304(a);

(6) A copy of the request for proposals, the specifications and any addenda thereto, or a description of the property or services being procured, including delivery schedule, quantities, and estimated cost;

(7) A copy of the proposal for which award is recommended;

(8) An original and three copies of the contract, executed by the contractor and the contracting officer; in addition, for those contracts under the program cognizance of the Office of Manned Space Flight, five unexecuted copies of the contract;

(9) A list of firms invited to submit proposals and the names of firms quoting, together with copies of their respective quotations; if no competition was solicited, furnish a statement of "Justification for Noncompetitive Procurement";

(10) The history of negotiations, indicating the consideration given to appropriate factors, and the basis upon which it is concluded that the results of the negotiations are advantageous to the Government, including—

(i) The basis and reasons for selection of the firm to which award of contract is recommended—with evidence of the degree to which the capabilities of various firms were investigated prior to the final selection;

(ii) A brief summary of principal points involved in negotiations and the final results thereof, indicating price change, if any, during negotiations and explanations therefor;

(iii) A comparison of the proposed contract with previous procurements of the same or similar property or services, including dates of previous procurements, quantities, changes in specifications from last purchases, if any, and justification for change in price;

(iv) A cost breakdown representing the final negotiation and indicating:

(*a*) Direct materials—the amounts of raw materials, purchased parts, and subcontracting. Include material handling expense if the contractor's accounting system provides a separate rate therefor. State basis for determining material handling expense or rate. Comment on the complexity of items to be procured by the contractor and whether or not the NASA technical personnel consider the quantities and prices reasonable.

(*b*) Direct labor—the number of hours, hourly rate, and total cost for each class of direct labor to the extent deemed practicable. Include a statement by NASA technical personnel as to reasonableness.

(*c*) Overhead—burden applicable to the contract, including a brief statement of the basis for determining the overhead rate or amount.

(*d*) Special tooling and/or plant facilities—costs directly chargeable to the contract and necessary for the performance of the work, including a statement of how the contract will provide for protection of the Government's interest therein.

(*e*) Other direct costs—the nature and reasons therefor.

(*f*) Other indirect expenses—the amounts for general and administrative expense, selling expense, engineering or research and development burden, etc., including the basis for determining rates or amounts and methods of allocation and reason for inclusion in contract price or estimated cost.

(*g*) Profit or fixed fee—the dollar amount and percentage of profit or fixed fee, including a statement as to the basis for determining the profit or fixed fee (if the fixed fee, in addition to providing for profit, includes any allowance for costs properly allocable to work under the contract and not otherwise reflected in the breakdown, furnish a complete explanation of the nature and amounts of such costs).

(*h*) Contingencies—the nature and reason therefor.

(v) Names and locations, when available, of prospective subcontractors and estimated amounts of respective subcontracts which will exceed $25,000; state whether competition was obtained in selecting such subcontracts; if not, cite reasons for absence of competition;

(vi) A statement as to whether the contract will contain any form of price redetermination or escalation, including reasons for inclusion;

(vii) General types of Government property to be furnished, and facilities to be provided, and property already provided the proposed contractor, which will be used in performance of the work;

(viii) Statement as to whether the financial condition of the proposed contractor is considered satisfactory;

(ix) Statement of make-or-buy program agreed to with the contractor; if no make-or-buy program is established, state reasons therefor;

(x) Statement as to the technical ability and past performance of the proposed contractor;

(xi) Amount of funds available for proposed contract, including citation to appropriation, project number, and subproject breakdown;

(xii) Any other pertinent data in the form of explanations, comments, or comparisons concerning any unusual or new phases of the procurement or negotiation relating thereto (comments or audit report as to the financial and pricing aspects of the proposed contract should be included under this subparagraph 10 of this paragraph.

(11) Reasons for any deviation from standard or approved contract clauses; if deviation has been approved previously, include copy of request and approval document (see § 18–1.109); and

(12) If an amendment, brief summary of the basic contract and previous amendments issued.

(d) In order to comply with the provisions of § 18–3.854 (in notifying the Office of Legislative Affairs and the Office of Public Affairs, NASA Headquarters) contracting officers shall prepare and submit an original and three copies of the "Memorandum of Contract Award" with the contract file being forwarded to the Director of Procurement.

(e) The Director of Procurement shall, at the time of approving a proposed contract or amendment, forward copies of the "Memorandum of Contract Award" to the Assistant Administrator for Public Affairs and the Assistant Administrator for Legislative Affairs.

(f) Distribution of contract documents: Upon approval (or disapproval) of the proposed contract or modification, the Director of Procurement will forward the original and two executed copies of the contract and the contract file to the Installation Director via the Program Director. An information copy of the approval letter will be sent directly to the Institutional Director. An executed copy of the contract will be retained by the Director of Procurement. Contracting officers shall make prompt distribution of approved contracts, subject to the provisions of § 18–3.854. Contracting officers shall report to the Bureau of Census, Department of Commerce, contract awards subject to the Davis-Bacon Act on CB Form 16–19 (Construction Contract Award Notification) in accordance with § 18–12.404–13. Contracting officers shall report to the Department of Labor contract awards subject to the Walsh-Healey Public Contracts Act on Standard Form 99 (Notice of Award of Contract) in accordance with § 18–12.603 (d).

## Subpart 18–50.3—Numbering and Distribution of Contracts and Grants

**§ 18–50.300 Scope of subpart.**

This Subpart 18–50.3 sets forth procedures with respect to numbering and distribution of NASA contracts, grants, and purchase orders.

**§ 18–50.301 Applicability.**

Contracts and grants are numbered with approved letter symbols and serial numbers for identification, audit, and filing purposes. Documents coming within the scope of this Subpart include contracts for the purchase or sale of property or services (including construction and facilities contracts), grants, purchase orders, letters of intent, letter contracts, leases, easements, or other documents evidencing in whole or in part an agreement between the parties which involves the payment of appropriated funds or collection of funds for credit to the Treasurer of the United States.

**§ 18–50.302 Contracts and modifications.**

**§ 18–50.302–1 Contracts requiring numbering.**

The following contracts shall be numbered in accordance with the uniform numbering system prescribed in §§ 18–50.302–2, 18–50.302–3 and 18–50.302–4:

(a) All contracts, letters of intent, or letter contracts for procurement or sale of supplies or services involving or likely to involve the payment or receipt of $2,500 or more ($2,000 in the case of construction work);

(b) All indefinite delivery type contracts involving more than one payment and estimated to involve payment or receipt of more than $2,500 during the fiscal year;

(c) All facilities contracts;

(d) All leases of real property and renewals thereof;

(e) All easements; and

(f) All other written agreements involving payment or receipt of funds not covered by §§ 18–50.303 and 18–50.304.

**§ 18–50.302–2 Assignment of numbers.**

The Comptroller General of the United States has prescribed the letter symbol "NAS" for NASA-wide use on contract documents. A complete contract number shall consist of the following and will be assigned to NASA contracts designated in § 18–50.302–1:

(a) One of the identification letter symbols set forth in § 18–50.302–3 followed by a hyphen; and

(b) A serial number (assigned in accordance with § 18–50.302–4) for the particular procurement or sale.

**§ 18–50.302–3 Symbol identification.**

| Headquarters: | *Symbol* |
|---|---|
| All Headquarters contracts except those issued by the Office of Research Grants and Contracts | NASw– |
| Contracts issued by the Office of Research Grants and Contracts | NASr– |
| Field Installations and Space Nuclear Propulsion Offices (SNPO): | |
| Langley Research Center | NAS1– |
| Ames Research Center | NAS2– |
| Lewis Research Center | NAS3– |
| Flight Research Center | NAS4– |
| Goddard Space Flight Center | NAS5– |
| Wallops Station | NAS6– |
| Western Operations Office | NAS7– |
| George C. Marshall Space Flight Center | NAS8– |
| Manned Spacecraft Center | NAS9– |
| John F. Kennedy Space Center | NAS10– |
| SNPO, Germantown | SNP– |
| SNPO, Cleveland Extension | SNPC– |
| SNPO, Nevada Extension | SNPN– |

**§ 18–50.302–4 Serial numbers.**

Contracts shall be numbered serially by the organization unit authorized to assign such numbers, commencing with the number 1 and continuing in succession without regard to fiscal year or type of contract, for example: NAS5–300; NAS5–301. If the contract is a facilities contract, the letter "F," in parentheses, shall be added at the end of the serial number for identification purposes, for example: NAS1–600(F). When the series of numbers under a symbol exceeeds five digits (99,999), a new series of numbers will be used beginning the series with number 1 and followed by the capital letter "A." Should additional series become necessary, they will be distinguished by the capital letters "B," "C," "D," etc., as may be required.

**§ 18–50.302–5 Modifications.**

Supplemental agreements, change orders, and renewals of leases shall bear the same identification as the original contract. The same series of consecutive numbers will be used for each contract even though it is modified or amended by both supplemental agreements and change orders.

**§ 18–50.303 Purchase orders and requests.**

**§ 18–50.303–1 General.**

Purchase orders and requests to other Government agencies to furnish supplies or services will be assigned a complete identifying number consisting of:

(a) One of the letter symbols set forth in § 18–50.303–2 followed by a hyphen; and

(b) A serial number, assigned in accordance with § 18–50.303–3.

**§ 18–50.303–2 Symbol identification.**

| Headquarters: | *Symbol* |
|---|---|
| Headquarters purchase orders or requests except those issued by the Office of Research Grants and Contracts | W– |
| Purchase orders or requests issued by the Office of Research Grants and Contracts | R– |
| Field Installations and Space Nuclear Propulsion Offices: | |
| Langley Research Center | L– |
| Ames Research Center | A– |
| Lewis Research Center | C– |
| Flight Research Center | E– |
| Goddard Space Flight Center | S– |
| Wallops Station | P– |
| Western Operations Office | WO– |
| George C. Marshall Space Flight Center | H– |
| Manned Spacecraft Center | T– |
| John F. Kennedy Space Center | CC– |
| Pacific Launch Operations Office | PL– |
| SNPO, Germantown | SN– |
| SNPO, Cleveland Extension | SNC |
| SNPO, Nevada Extension | SNN– |

**§ 18–50.303–3 Serial numbers.**

The same series of consecutive numbers will be used for both purchase orders and requests to other Government agencies. The series of numbers will commence with the number 1 and continue in succession without regard to the fiscal year. The number will follow the letter symbol, separated by a hyphen, for example: Order Number L–350; Order Number W–1,000. When the series of numbers under a symbol ex-

ceeds 5 digits (99,999), a new series will be used beginning the series with number 1 and followed by the capital letter "A." Should additional series become necessary they will be distinguished by the capital letters "B," "C," "D," etc., as may be required.

**§ 18–50.304 Grants and supplements.**

**§ 18–50.304–1 Grants.**

Grants shall be identified by letter symbols for the various types of grants, followed by a hyphen and a serial number. The serial numbers for each type of grant will begin with the number 1 and continue in succession without regard to fiscal year. The symbols for the types of grants and examples of each are set forth below:

(a) *Research Grants.* Research grants shall be identified by the letter symbol "NsG." (Example: NsG–25.)

(b) *Training Grants.* Training grants shall be identified by the letter symbol "NsG(T)." (Example: NsG(T)–300.)

(c) *Facilities Grants.* Facilities grants shall be identified by the letter symbol "NsG(F)." (Example: NsG(F)–150.)

**§ 18–50.304–2 Supplements.**

Supplements to a grant shall bear the same identification as the original grant and shall be numbered consecutively. (Example: Grant NsG–25, Supplement No. 1.)

**§ 18–50.305 Distribution of contracts, grants, and purchase orders.**

Distribution of contracts, grants, purchase orders, and modifications or supplements thereto shall be made by the initiating office in accordance with its requirements, except that in all cases not less than two copies will be furnished to paying offices, one of which will support the payment file and be retained for audit purposes in accordance with § 18–50.306. One copy of all contracts and modifications thereto requiring the approval of the Director of Procurement will be retained by the Office of Procurement.

**§ 18–50.306 Retention of documents for on-site audit.**

NASA contracts, grants, and purchase orders are subject to on-site audit by the General Accounting Office. The originals or a signed copy of these documents and supporting data shall be retained by the installation to be available to the General Accounting Office for audit purposes.

## PART 18–51—CONTRACT MANAGEMENT PROCEDURES

**Subpart 18–51.4—Processing Payments Under Cost-Reimbursement Type Contracts**

Sec.

18–51.400 Scope of subpart.
18–51.401 Definitions.
18–51.402 Initial conference.
18–51.403 Vouchers—general.
18–51.404 Provisional approval of vouchers.
18–51.405 Completion voucher.
18–51.406 Withholding pursuant to contract terms.
18–51.407 Alteration of vouchers.
18–51.408 Distribution of vouchers.
18–51.409 Cost-reimbursement type subcontracts and billings.
18–51.410 Suspension and disapproval.
18–51.411 Procedure when current claim is insufficient to cover credit.

**Subpart 18–51.27—Closing Completed Contracts**

18–51.2700 Scope of subpart.
18–51.2701 General.
18–51.2702 Definition—completed contract.
18–51.2703 Closing checklist.
18–51.2704 Special considerations.

### Subpart 18–51.4—Processing Payments Under Cost-Reimbursement Type Contracts

**§ 18–51.400 Scope of subpart.**

This Subpart 18–51.4 prescribes procedures pertaining to the processing of vouchers and invoices under cost-reimbursement type contracts and subcontracts.

**§ 18–51.401 Definitions.**

As used in this Subpart 18–51, the following terms have the meaning stated below:

(a) "Cost-reimbursement type contracts" include cost, cost-plus-a-fixed-fee, cost-plus-an-incentive-fee, cost-sharing, labor-hour, and time and material contracts.

(b) "Completion voucher or completion invoice" are terms used to identify a voucher or invoice which includes the entire or remaining contract costs and/or fee upon completion of work under a Government contract.

**§ 18–51.402 Initial conference.**

To establish a basis for a cooperative and efficient relationship, a conference should be arranged, when deemed necessary by the contracting officer, between representatives of the contractor and cognizant Government personnel, including the cognizant audit agency auditor and financial management personnel, to acquaint the contractor with contractual requirements and NASA procedures for administering the contract. The Government representatives should explain the procedures to be followed in presenting claims and obtaining reimbursement, the requirements as to documentary evidence, the administrative approvals required, the manner in which administrative approvals are given, and reporting requirements under the terms of the contract. Specific items which should be discussed include:

(a) Audit of the contractor's records and examination of his procedures;

(b) Withholding of contractual reserves;

(c) Allowability of costs under applicable contract cost principles and the segregation of unallowable costs thereunder:

(d) Subcontracting policies; and

(e) Procedures and contractor's rights under the "Disputes" clause.

**§ 18–51.403 Vouchers—general.**

(a) The frequency of submission of claims for payment is generally specified in the contract. In the absence of a contract provision to the contrary, the contractor should be requested to submit reimbursement claims once each month, or at more frequent intervals if approved by the contracting officer or his authorized representative. The contracting officer will request the contractor to consolidate claims under one contract as much as possible to minimize the number of vouchers. Only charges pertaining to one contract may be included on the same voucher.

(b) As a part of each voucher submission, the contracting officer shall request the contractor to provide an analysis of the total vouchered charges. Where data is readily available from the contractor's records, a limited analysis may be placed on the face of Public Voucher for Purchases and Services Other Than Personal (Standard Form 1034): *Provided*, The reliability of the contractor has otherwise been established. As a minimum, the analysis shall include fee and cumulative and current costs broken down by cost elements. When a more detailed analysis is required, the Continuation Sheet (Standard Form 1035) or an attachment may be used.

(c) Where the amount of fee claimed depends on a computation based on physical progress or rate of delivery of the completed item, the contracting officer shall request the contractor to show the basis for computing the fee installment on the voucher (face or reverse of Standard Form 1035) or on an attachment. Prior to approving the voucher for payment, the contracting officer shall, as appropriate, verify the status of the contract by coordinating with cognizant Government personnel (i.e., technical, audit, and financial personnel).

(d) As an aid to administration, the contracting officer shall direct the contractor to submit separate vouchers for each of the categories of charges enumerated below:

(1) Reclaim vouchers covering items of cost initially allowed and reimbursed to the contractor, but subsequently deducted administratively or refunded by the contractor, due to the issuance of a General Accounting Office exception;

(2) Costs reserved in final settlement (these reservations are ordinarily set forth in the final release of the settlement agreement under a terminated contract; the contractor should clearly indicate on the voucher the specific exception in the final release or settlement agreement under which the amount sought to be reimbursed is claimed); and

(3) Abatement of disapproved costs for income taxes paid thereon (see Section 1481 of the Revenue Code of 1954). The voucher should be accompanied by an authenticated copy of the applicable tax reduction as calculated by the cognizant Director of Internal Revenue.

**§ 18–51.404 Provisional approval of vouchers.**

(a) The eligibility for reimbursement of claims submitted by a contractor for costs or payment of fee shall be determined pursuant to the terms of the contract. Authority for payment must be established before any reimbursements under the contract are approved. In no event will a reimbursement claim be processed by the contracting officer for payment which would result in cumulative payment in excess of the maximum amount payable as limited by the contract.

(b) Normally, the contractor shall be instructed to submit reimbursement vouchers under cost-type contracts directly to the contracting officer for approval prior to payment. All vouchers, with the exception of the completion voucher, shall be marked "Provisionally Approved Subject to Final Audit," signed by the contracting officer, and forwarded to the NASA fiscal or financial management office designated in the administrative recitals of the contract. Questionable costs of significant amounts determined through periodic audit or otherwise shall be suspended or disapproved prior to approval of the voucher. In those situations where (1) there is reason to question the reliability or accuracy of the contractor's claim, (2) there is an indication of cost overrun, or (3) the submission is the contractor's initial claim and the contractor is not then receiving reimbursement under a cost-reimbursement type prime contract, the recommendations of the cognizant auditor should be requested prior to approval.

**§ 18–51.405 Completion voucher.**

Upon receipt of a completion voucher, the contracting officer shall furnish a copy, with supporting forms, to the cognizant auditor for final audit prior to payment. The completion voucher shall be supported by the contractor's (or assignee's) release and assignment forms, and the final schedule of cumulative cost under the contract. Completion vouchers shall not be approved until the results of the final audit have been received by the contracting officer.

**§ 18–51.406 Withholding pursuant to contract terms.**

Unless the contractor has deducted from his claims amounts required to be withheld pursuant to the provisions of the contract, the contracting officer shall make the deduction therefor. Such deductions shall be treated as suspensions and be covered by Notice of Costs Suspended and/or Disapproved (NASA Form 456 or DD Form 396). Amounts deducted may be resubmitted by the contractor at such time as the contractor has evidenced compliance with the requirements necessary to permit payment and may, in any event, be claimed on the completion voucher.

**§ 18–51.407 Alteration of vouchers.**

Vouchers which have not been properly prepared by the contractor should be returned for revision. No erasures will be made on a voucher or a continuation sheet. However, a voucher and/or continuation sheet or its equivalent which requires alteration may be changed by striking out the incorrect item and writing in the correct item. An alteration made by the contractor must be initialed by the contractor. An alteration made by the contracting officer must be initialed by the contracting officer and may be made only in accordance with 36 Comp. Gen. 769 which provides that when errors in computations or extensions are detected, where the payee has clearly made claim for the full quantity of materials or services and at the proper unit price, the claim may be altered upward or downward prior to approval *provided* the adjustment does not exceed $10. Vouchers may be adjusted by contracting officers: *Provided*, NASA Form 456 or DD Form 396 is not otherwise required for costs suspended and/or disapproved and the errors are not too numerous to correct. The incorrect computation or extension may be altered by drawing a line through the incorrect amount and inserting the corrected amount on the original and all copies of the voucher. Each alteration must be initialed. The amount of the error will be deducted from or added to the total of Standard Form 1035, if submitted, and will also be deducted from or added to the total by use of the "Differences" block on Standard Form 1034. Contractors will be notified, by NASA Form 456 or DD Form 396, of mathematical errors which overstate the total amount claimed in excess of $10. If an underclaim is in excess of $10, the actual amount claimed, if otherwise proper, may be processed for payment. Contractors should be notified of any errors detected or of any adjustments made according to this policy.

**§ 18–51.408 Distribution of vouchers.**

(a) The following is the minimum distribution to be made of vouchers.

| | SF 1034 | SF 1034A | SF 1035 (if any) | SF 1035A (if any) |
|---|---|---|---|---|
| NASA contracting officer's file copy | ..... | 1 | ..... | 1 |
| Through NASA contracting officer to NASA financial management office: | | | | |
| Financial management office | 1 | 1 | 1 | 1 |
| Project management office (when required) | ..... | 1 | ..... | 1 |
| Contractor (paid copy) | ..... | 1 | ..... | 1 |
| Cognizant audit agency (paid copy) | ..... | 1 | ..... | 1 |

(b) After processing and approval of vouchers by the contracting officer, all copies of the vouchers except the contracting officer's file copy shall be forwarded to the installation fiscal or financial management office for certification, payment, and distribution.

**§ 18–51.409 Cost-reimbursement type subcontracts and billings.**

(a) The contracting officer shall advise the contractor who placed a cost-reimbursement type subcontract of his responsibility for the proper performance of the subcontractor and the financial settlement with the subcontractor. While the prime contractor's or upper-tier subcontractor's responsibility for a proper financial settlement includes the obligation to perform an adequate audit of the subcontractor, in appropriate circumstances audit by a Government auditor may be advisable. Adherence to this policy will ensure consistent treatment of subcontractor's cost, reduce duplicate auditing of the same records by two or more groups of auditors, and reduce the costs incurred by the prime contractor.

(b) The contracting officer shall advise the contractor to request the subcontractors to prepare their claims or commercial invoices and submit them directly to the prime contractor or upper-tier subcontractor who placed the subcontract with copies to the Government auditor and the contracting officer's authorized representative cognizant of the subcontractor. Charges should be itemized in the same detail and manner re-

quired of the prime contractor. Each claim or commercial invoice should identify the prime contract and/or upper-tier subcontract to which it relates.

(c) The Government auditor cognizant to the prime contract or upper-tier subcontract under which the cost-reimbursement type subcontract was issued is primarily responsible for determining the need for audit of such subcontract. The following criteria should be considered when determining whether the prime contractor or the Government should perform the audit of the subcontract:

(1) Whether the subcontractor objects to an accounting review of his records by the prime contractor for valid business reasons;

(2) Whether the Government Audit Agency is currently performing audit work at the subcontractor's plant or can do so more economically or efficiently;

(3) Whether the audit by the Government Audit Agency is necessary for consistent audit treatment and orderly administration; and

(4) Whether the prime contractor has a substantial or controlling financial interest in the subcontractor.

**§ 18–51.410 Suspension and disapproval.**

(a) The determination as to the suspension or disapproval of an item of cost is the responsibility of the contracting officer. Suspended costs are those costs which appear questionable but upon which a final determination cannot be made based upon available information; suspended costs also include amounts which the contractor claims but which are required to be withheld pursuant to the provisions of the contract (see § 18–51.406). Disapproved costs are those costs which have been determined by the contracting officer to be unallowable under the provisions of the contract.

(b) Auditors, during the course of contract audit, may recommend to the contracting officer the suspension or disapproval of items of cost included in a contractor's voucher through the issuance of NASA Form 456 or DD Form 396. In such cases, an original and six unnumbered copies of the notice are sent to the contracting officer for his action.

(c) Upon receipt of the notice of suspension or disapproval from the auditor, the contracting officer will review pertinent data and consult with appropriate personnel to determine what further action should be taken as to the items of cost in question.

(1) Where the contracting officer is in agreement with the notice issued by the auditor, he will assign a Notice Number to the form and distribute the original and two copies to the contractor, two copies (one copy each attached to SF 1034 and SF 1034A) to the Financial Management Office, one copy to the auditor, and one copy for his own file. The original and the copies for the contractor and one copy to the Financial Management Office will be signed by the contracting officer. Other copies may bear typed or stamped signatures. Amounts deducted from the contractor's claim by the contracting officer will be shown in the "Difference" block on the face of the voucher, using one line for the amount deducted and one line for the new approved amount. In all cases, the contracting officer must be satisfied that the explanation and reasoning given for suspension or disapproval are complete and accurate. If DD Form 396 is used to disapprove an item of cost, numbered paragraph 3 of the form will be appropriately modified to show that the disapproved costs apply to a NASA contract.

(2) Where the contracting officer does not agree with the notice issued by the auditor, he shall state his reasons therefor and shall furnish to the auditor a copy of his statement, with an unsigned and unnumbered copy of the applicable NASA Form 456 or DD Form 396. Subsequent thereto, he should consult with the auditor and other Government personnel, as may be necessary, and the contractor, if appropriate, to dispose of any remaining items in question.

(d) Where a notice of suspension or disapproval is issued by the contracting officer, the contractor shall be given sufficient time to present additional information or justification in support of the items of cost suspended or disapproved. Normally, this period should not exceed 30 days. The contracting officer shall inform the contractor that issuance of NASA Form 456 or DD Form 396 is not a decision by the Contracting officer with respect to the Disputes clause of the contract. However, the contractor shall be advised that failure to reply within the time limit set by the contracting officer, or any authorized extension thereof, may result in the contracting officer issuing a final decision on the items of cost suspended or disapproved, pursuant to the Disputes clause of the contract, except for those items of cost suspended in accordance with § 18–51.406.

(e) If, after receipt of NASA Form 456 or DD Form 396, the contractor requests, in writing, an extension of time in which to present additional information or justification in support of the items of cost suspended or disapproved, the contracting officer may, if he decides that the facts justify such action, grant such additional time to the contractor, by separate letter. Where the contractor fails to submit additional data within the time specified, and fails to obtain an extension of time for submitting such data, the contracting officer may receive and act upon any data received from the contractor at any time prior to final payment under the contract, if he decides that the circumstances warrant such action.

(f) Upon receipt of the contractor's reply, the contracting officer will consult with the Government auditor, and such other personnel as may be appropriate, concerning the additional information and justification submitted.

(1) If the contracting officer decides to withdraw the notice of suspension or disapproval, action shall be taken to reinstate the items of cost involved, and the contractor's voucher, if otherwise authorized, may be processed for payment.

(2) For those items of cost which, after reexamination, the contracting officer determines are unallowable and the contractor has continued to claim, the contracting officer shall prepare and process a final decision pursuant to the Disputes clause (see § 18–1.314). Resolution of questions regarding suspended costs also may be effected by an appropriate statement from the contractor evidencing his acceptance of the suspension.

(3) When sufficient information is not available to change the status of items of cost that have been suspended, such items shall be held in a suspended status until an appropriate decision can be made. During the period of the contract, mere passage of time does not change the basic reimbursable or nonreimbursable nature of the item of cost in question. Accordingly, costs suspended will not be converted to costs disapproved when there is no reason for the conversion other than the failure of the contractor to resubmit costs. However, a final decision concerning the status of all suspended items shall be made prior to or at the time the completion voucher under the contract is processed for payment.

**§ 18–51.411 Procedure when current claim is insufficient to cover credit.**

(a) When the current claim is not in an amount sufficient to satisfy a credit due the Government under the contract, the contracting officer shall follow one or a combination of the procedures outlined in this paragraph to effect collection in the most expeditious and practicable manner:

(1) Deduct the amounts necessary to satisfy the credit from the current and succeeding vouchers (expected to be received within a reasonable length of time). The deductions on any voucher shall not exceed the amount thereof to avoid processing of a voucher in a credit amount. Notwithstanding that a voucher may be in a zero amount, it will be processed to the fiscal or financial management office via the usual channels to provide a record of the voucher action.

(2) Obtain from the contractor his check for the amount of the credit, payable to the Treasurer of the United States.

(3) When the credit cannot be recovered by deductions from the current and succeeding vouchers and the contractor declines to make refund thereof, the contracting officer shall accomplish or cause to be accomplished the collection by a setoff deducted from voucher(s) submitted by the contractor under any of his other contracts with the contracting officer concerned, unless otherwise precluded, such as by the no-setoff provisions of the Assignment of Claims clause. Where the contracting officer has no other contracts under which a setoff may be accomplished, he shall refer the matter to the installation fiscal or financial management office for collection by setoff or any other method.

(b) When the collection is effected by setoff, there will be shown on the voucher from which the deduction is made a notation identifying the contract and appropriation to which the credit is applicable and identifying the related NASA Form 456 or DD Form 396.

No. 237—Pt. II——34

## Subpart 18–51.27—Closing Completed Contracts

**§ 18–51.2700 Scope of subpart.**

This Subpart 18–51.27 establishes policy and procedures governing the closing of files on completed contracts and is applicable to all NASA contracts. However, not every item listed is applicable to all contracts or all contract types. Contracting officers, in the exercise of their best judgment and discretion, will utilize those guidelines which are applicable to the particular contract, deviating from or expanding them where appropriate. The provisions of 18–8 shall be followed in closing terminated contracts.

**§ 18–51.2701 General.**

The procedures for closing completed contracts are a primary tool of contract management. The closing review should be painstaking and exhaustive and should ensure that the contract file is completely documented. A comprehensive closing review serves the following purposes, among others:

(a) Timely closing action ensures that records and files will not be unnecessarily encumbered and consequently permits more effective handling of current active contracts;

(b) The review identifies all uncompleted actions which might previously have been overlooked and thus facilitates expeditious final disposition action; and

(c) The review is an essential step, supplementing active contract management during performance, to ensure that all contractual obligations have been fulfilled and that the interests of the Government have been adequately protected.

**§ 18–51.2702 Definition — completed contract.**

A completed contract is one which is both physically and administratively complete and with respect to which all aspects of contractual performance have been either accomplished or formally waived. A contract is physically complete only after all articles and services called for under the contract, including such related items as reports, spare parts, and exhibits, have been delivered to and accepted by the Government (including those articles and services with respect to which no specific compensation may have been stipulated). A contract is administratively complete when all payments have been made and all administrative actions accomplished.

**§ 18–51.2703 Closing checklist.**

(a) The closing review will focus on a verification that (1) all actions necessary to complete the contract (as defined in § 18–51.2702) have been consummated; and (2) actions have been fully documented to the extent practicable. When the review indicates that the contract may be incomplete in any respect, the surrounding circumstances shall be investigated to determine whether some necessary action has been omitted. Where prior actions have been taken but not documented, the closing memorandum shall, to the extent practicable, provide proper documentation; if this is not practicable, the closing memorandum shall be annotated to reflect the fact. When a contractual matter remains in an open status, completion action shall be initiated to the extent feasible (see § 18–51.2704(b)).

(b) The following list represents the more significant items of contract closing which should be reflected by proper documentation. (Listing these actions in connection with the closing review of the contract, contract file, and other pertinent data is not intended to indicate the order in which the actions should be taken.)

(1) Determine the status of deliveries and billings. If necessary to reconcile deliveries and payments, a letter should be obtained from the contractor showing total deliveries by items, total billings, and total payments. This data should be related to administrative records and such action to be taken may be required to reconcile differences in billings and payments and to resolve discrepancies in delivery or performance.

(2) Verify that all contract changes have been formalized. If such verification cannot be established by Government personnel, a letter may be obtained from the contractor indicating that all contractual changes have been covered by contract modification. The file should be further documented to support all equitable adjustments completed or in process.

(3) Examine the contract file to ensure that adequate documentation exists (in the form of receiving reports or other documents) to evidence receipt, inspection, and acceptance of all contract items, accomplishment of all corrections, and appropriate refund or credit when nonconforming supplies are accepted at a reduced price, in accordance with the "Inspection" clause.

(4) Verify the proper disposition of all property matters. Examination should focus on documentation evidencing:

(i) Screening of excess materials and recording of proceeds received from disposal of any surplus;

(ii) Full accounting for all Government property and, as appropriate, its transfer or removal;

(iii) Resolving of all reports of survey or other evidence of property shortages or damage, supported in each instance by administrative determination and, as appropriate, by a record of proper remittance;

(iv) Taking of proper action with respect to special tooling (review should determine whether, in those instances where the Government has paid for special tooling, including subcontractor tooling, title has been taken or disposal proceeds received);

(v) Taking of proper action to ensure that contractor use of Government-owned facilities does not extend beyond the date of authorized use (files shall be documented to show that the Government has been reimbursed in full for all rentals due for use of facilities); and

(vi) Conducting of final review of all property records by the Property Administrator, supported by a statement from the contractor that all property has been disposed of.

(5) A final review of all security requirements should be made by the Security Officer, supported by his statement that all security matters have been disposed of, to include:

(i) Declassification or downgrading, where required;

(ii) Return or disposal, where required; and

(iii) Certification by the contractor that the contractor and subcontractors have satisfied all security requirements.

(6) When a renegotiation report has been made, verify that the contract file contains a copy of the report and all supporting documents.

(7) Verify that price revision or redetermination action when called for, has been accomplished and examine the adequacy of supporting data. Files should be documented in sufficient detail when price revision has been waived.

(8) Verify that consent to subcontracts has been obtained in all instances required by the contract. The absence of consent, where contractually required, shall be the subject of appropriate comment.

(9) Ensure that all advance or progress payments have been liquidated and that action has been initiated to recover any overpayments.

(10) Ensure that in all instances where performance of contract administration functions has been delegated the actions required have been performed.

(11) Ensure that the contractor has been alerted to the contract requirement for maintenance of books and records.

(12) Confirm that appropriate and fully documented action was taken with respect to violations of standard contract clauses based on acts of Congress or Executive Orders concerning labor laws, contingent fees, domestic articles, officials not to benefit, etc., or in lieu thereof that the file contains a memorandum that cognizant administrative personnel know of no such violation.

(13) Ascertain whether any questions arose regarding exemptions from Federal or State tax laws and ensure that such questions have been properly resolved, with adequate documentation.

(14) Examine the contract and contract files to ascertain the possible existence of pending disputes, contingent liabilities, or circumstances out of which future claims of litigation might arise, potential credits, or refunds or other future recoveries. Ensure that adequate reserves have been set aside to provide for contingent liabilities. Maintain sus-

pense and follow-up on any matters which remain unresolved. Coordinate with legal personnel, where appropriate.

(15) Determine that all administrative reviews and approvals have been accomplished and documented (regarding wages and salaries, insurance, accounting, purchasing, etc.).

(16) Review all notices of cost suspension or disallowance to determine that the issues have been properly resolved, in accordance with § 18–51.410, and see that reductions of fee which are appropriate under the contract have been obtained.

(17) Determine that all reports under clauses relating to patents, inventions, and royalties have been received.

(18) Determine that all required data has been delivered. A review of the data should be made by cognizant technical personnel to ensure that the drawings, specifications, etc., reflect the most recent design changes and modifications. The review should also determine whether it is necessary or desirable that NASA have possession of the complete technical data package, including production procedures, tooling setup, quality control procedures, test reports, etc. If plans call for turning the data over to another contractor for production purposes, the technical representative should ensure that the applicable Government-furnished equipment, machine tools, and associated jigs, fixtures, and special tooling are identified and readily usable.

(19) Ensure that all investigations of fraud or suspicion of same, and reports on General Accounting Office or similar type investigations, have been completed and documented. Proper action also should be reflected with respect to delinquencies or failures in performance.

(20) Confirm that assignment and subrogation have been accomplished in favor of the Government in connection with all contractor's rights and claims, other than those against the Government, pursuant to contract terms.

(21) Establish that the final fee voucher is supported by the necessary cumulative claim and reconciliation, assignment of refunds, rebates, credits and other amounts, and final release of claims by the contractor.

(22) Ensure that the contractor performance evaluation report has been furnished, where required, and that a copy is retained in the contract file.

**§ 18–51.2704 Special considerations.**

(a) In the absence of full performance and compliance with all contract terms, as disclosed by the closing review, the contract file shall be examined to ensure that the documentation contained therein adequately reflects that proper action has been taken with respect to deviations, omissions, or waivers.

(b) Under appropriate circumstances, a contract may be treated as complete (when complete in all other respects) despite the existence of one or more unresolved contingencies (e.g., litigation between a prime and subcontractor). The determination that such contract will be closed will be made by the procurement officer of the installation from which the contract was issued. The contract files shall be fully documented by memoranda detailing the circumstances connected with the open item(s). No closing action shall be taken when:

(1) A matter awaiting disposition may be anticipated to have a significant impact on performance or consideration; or

(2) Complete disposition may call for substantive action on the part of the Government.

## PART 18–52—PRIORITIES AND ALLOCATIONS

Sec.

18–52.000 Scope of part.
18–52.001 General.

Subpart 18–52.1—Reporting of Controlled Materials Requirements

18–52.101 Data to be reported.
18–52.102 Scope of reports.
18–52.103 Basis for developing materials requirements.
18–52.104 Requirements coordination with other Government agencies.
18–52.105 Report due dates.
18–52.106 Requirements review, assembly, and submission to DOD.
18–52.107 List of controlled materials.

Subpart 18–52.2—Allocations and Allotments

18–52.201 Allocations to installations.
18–52.202 Allotments.
18–52.203 Ledger accounts of controlled materials.
18–52.204 Report of allotments and authorized controlled materials orders.

Subpart 18–52.3—Special Expediting Assistance

18–52.301 Purpose and applicability.
18–52.302 Policy.
18–52.303 Criteria for special assistance requests.
18–52.304 Forms, preparation, and routing of requests.
18–52.305 Action by NASA Headquarters.

AUTHORITY: The provisions of this Part 18–52 issued under 42 U.S.C. 2473(b)(1).

**§ 18–52.000 Scope of part.**

This Part 18–52 contains procedures relating to NASA administration of the Defense Materials System (DMS). These procedures supplement the Department of Defense Priorities and Allocations Manual (PAM) and § 18–1.307. Subpart 18–52.1 contains procedures for field installation quarterly reporting of estimates of requirements for DMS controlled materials (see § 18–52.107, which lists controlled materials by their codes, forms, shapes, and subdivisions); the field installation quarterly reports described in Subpart 18–52.1 are the basis of NASA's consolidated estimates to DOD (which acts as the claimant agency for NASA) and to the Office of Emergency Planning. Subpart 18–52.2 contains procedures for (a) NASA apportionment to field installations of controlled materials allocations received from DOD and (b) allotment of controlled materials by field installations to contractors. Subpart 18–52.3 provides procedures whereby field installations may obtain special assistance in expediting raw materials, supplies, and equipment from commercial sources on NASA programs.

**§ 18–52.001 General.**

The Defense Materials System is maintained by the Government to assure priorities and allocation support of current production, construction, and research and development programs of selected Government agencies. The system has been declared by the Office of Emergency Planning as an essential mobilization preparedness measure. The Defense Materials System operates in NASA under a delegation of authority from the Department of Defense. The system provides priorities authority for NASA and its contractors in obtaining raw materials, supplies and equipment from industry on a preferential basis. Contractors and field installations acquire priority authority to purchase controlled materials by obtaining allotments of materials. Allotments are required for all contractors producing Class A products including construction, except for those contractors who qualify under the small order procedure as described in Section 3–4.7 of the PAM and for direct purchase of controlled materials by field installations. Allotments are not required when placing orders for Class A products with distributors, with GSA, or against a GSA schedule contract. A priority rating is used to obtain materials (other than controlled materials) and equipment in support of NASA programs.

### Subpart 18–52.1—Reporting of Controlled Materials Requirements

**§ 18–52.101 Data to be reported.**

Field installations shall submit quarterly estimates of controlled materials requirements by the codes, forms, shapes, and subdivisions listed in § 18–52.107 for the applicable claimant programs as described in PAM 2–2. Reports will be submitted on DD Form 614, Materials Requirements—Steel and Nickel Alloys, and DD Form 614.1, Materials Requirements—Copper and Aluminum.

**§ 18–52.102 Scope of reports.**

(a) Requirements to be reported shall include the controlled materials needed for all NASA procurements, as follows: (1) materials to be purchased by contractors for production of Class A products, including construction, and materials for research and development, and (2) materials to be purchased by field installations for in-house operations. Materials required for production of Class B products are not to be reported. (Section 1–4 of the PAM sets forth the definition of Class A and B products.)

(b) In addition to reports for the separate claimant programs of paragraph (a) of this section, a summary or total report of such requirements of all programs shall be submitted.

(c) A separate report shall also be submitted of estimates for the materials required for items and projects which are of highest national priority. Such programs as are authorized for the special DX priority rating may be found in the DOD Master Urgency List. Requirements set forth in this separate report should also be included in the data called for in paragraphs (a) and (b) of this section.

**§ 18–52.103 Basis for developing materials requirements.**

The reports submitted in accordance with this instruction shall be based on the research and development, end-item, and construction programs which take into consideration all funds available or anticipated to become available. Estimates shall reflect the best judgment of the installation, and should, if possible, be derived by multiplying unit weight per item by scheduled production, with due consideration of production and purchasing lead times. When this approach is not feasible, other methods, such as factoring a relationship of materials to dollar value, engineering estimates, contractor estimates, or actual past usage of materials, may be utilized in preparing the requirements. Records shall be maintained by the field installations of the methods and data used in preparing the reports, for review upon request by NASA Headquarters.

**§ 18–52.104 Requirements coordination with other Government agencies.**

Field installations shall *not* report materials requirements for those items which are purchased by other Government agencies (such as the Air Force, Corps of Engineers, etc.) for NASA use. However, end-item quantitative requirements for Class A products will, if requested, be furnished to the purchasing department in order that the purchasing department may compute and include the required materials in its submission of reports to DOD.

**§ 18–52.105 Report due dates.**

Reports for the first quarter of each calendar year shall be forwarded to reach the Office of Procurement by the preceding September 1, for the second calendar quarter by the preceding December 1, for the third calendar quarter by the preceding March 1, and for the fourth calendar quarter by the preceding June 1.

**§ 18–52.106 Requirements review, assembly, and submission to DOD.**

NASA Headquarters, Office of Procurement, will:

(a) Review field installation reports for accuracy of computations and reasonableness of computed quantities in relation to authorized program procurements;

(b) Summarize data received from field installation into an overall NASA report for submission to the Department of Defense; and

(c) Justify and defend NASA estimates as may be necessary before DOD and the Office of Emergency Planning.

**§ 18–52.107 List of controlled materials—Defense Materials System Regulation I.**

| *DOD Code* | *Material* |
|---|---|
| 1200 | Carbon steel (including wrought iron) total (exchange castings) |
| 1212 | Ingots, billets, blooms, slabs, and related products (excluding wire rods and stock for projectile and shell bodies) |
| 1215 | Billets, stock for projectile and shell bodies |
| 1221 | Bars, cold-finished |
| 1222 | Bars, hot-rolled (excluding stock for projectile and shell bodies and reinforcing bars) |
| 1223 | Bars, reinforcing |
| 1225 | Bars, hot-rolled, stock for projectile and shell bodies |
| 1231 | Structural shapes |
| 1232 | Piling |
| 1240 | Pipe and tubing (including threaded couplings) |
| 1251 | Plates (excluding tin, terne, and tin mill black plate) |
| 1252 | Sheet and strip (excluding galvanized) |
| 1261 | Sheet, galvanized |
| 1262 | Tin plate, terne plate, and tin mill black plate |
| 1270 | Rails and track accessories |
| 1280 | Wheels, tires, and axles |
| 1290 | Wire rods, wire, and wire products |
| 1300 | Alloy steel (excluding stainless steel) total (excluding castings) |
| 1312 | Ingots, billets, blooms, slabs, and related products (excluding wire rods) |
| 1321 | Bars, cold-finished |
| 1322 | Bars, hot-rolled |
| 1331 | Structural shapes |
| 1340 | Pipe and tubing (including threaded couplings) |
| 1351 | Plates (excluding rolled armor) |
| 1352 | Sheet and strip |
| 1355 | Plates, rolled armor |
| 1370 | Track accessories |
| 1380 | Wheels, tires, and axles |
| 1390 | Wire rods, wire, and wire products |
| 1000 | Stainless steel—non-nickel-bearing total (excluding castings) |
| 1400 | Stainless steel—nickel-bearing total (exoluding castings) |
| 1510 | Brass mill copper base alloy products total |
| 1511 | Plate, sheet and strip (excluding ammunition cups and discs) |
| 1512 | Rods, bars and wire (including extruded shapes) |
| 1513 | Tube and pipe |
| 1514 | Ammunition cups and discs |
| 1520 | Brass mill unalloyed copper products total |
| 1530 | Wire mill products (copper) |
| 1540 | Foundry products (copper and copper-base alloys) |
| 1550 | Powder (copper and copper-base alloys) |
| 1600 | Aluminum total |
| 1611 | Rods and bars, rolled (excluding stock for wire, forgings, impact extrusions, rolled structural shapes and electrical cable) |
| 1612 | Rods and bars, rolled (forging stock and impact extrusion stock) |
| 1620 | Wire and cable (excluding rivet wire) |
| 1630 | Rivets and rivet wire |
| 1651 | Sand castings |
| 1652 | Permanent and semipermanent (plaster) mold castings |

| 0601 | 5% to 29.9% nickel content inclusive |
| 0602 | 30% to 49.9% nickel content inclusive |
| 0603 | 50% to 100% nickel content inclusive |

### Subpart 18–52.2—Allocations and Allotments

**§ 18–52.201 Allocations to installations.**

(a) *Apportionment.* The Office of Procurement will apportion the allocation of controlled materials received from the Department of Defense between the various field installations. These allocations to field installations will be made on DD Form 529, Allocation Determination (in duplicate), on the basis of requirement estimates submitted by the field installations on DD Forms 614 and 614.1. DMS officers at field installations shall acknowledge receipt of allocations by signing and returning one copy of the DD Form 529 to the Office of Procurement. Appropriate entries reflecting the transaction shall be made in DMS ledger accounts. Supplemental allocations will be processed in the same manner. Field installations may request additional allocations by letter, telephone, or telegraph. Allocations issued by telephone or telegraph will be confirmed by the Office of Procurement using the DD Form 529.

(b) *Return of unused allocations.* Not later than the fifth day of each month, field installations shall review their controlled materials ledgers, together with their anticipated allotment requirements,

to determine whether they have an excess allocation of materials. Allocated quantities determined to be excess shall be returned promptly to the Office of Procurement. Returns of excess allocated controlled materials will be accepted by the Office of Procurement at any time up to the 10th day of the third month of each quarter. Return of excess allocations will be made on DD Form 530 in duplicate.

**§ 18–52.202 Allotments.**

Field installations shall make allotments of controlled materials to prime contractors who produce Class A products, except as noted in the PAM Section 3–4.7. Effort should be made to assure that prime consumers apply for and receive allotments. A form letter similar to that shown in Section 3–4.1 (Exhibit 3) of the PAM may be used for this purpose. Allotments should normally be issued to contractors for the full period of the contract unless the period is beyond the one-year period within which NASA has been authorized to allot materials. Allotments shall be issued on Form DMS–10, Allotment of Controlled Materials (Production), or DMS–13, Allotment of Controlled Materials (Construction). Decreases of allotments will be made on Forms DMS–11, Allotment Decrease (Production), and DMS–14, Allotment Decrease (Construction). Form DMS–12, Applicant's Return of Allotment, should be used by contractors to return unused portions of allotments. Contractor applications should be screened to determine their reasonable accuracy as to quantities of materials and delivery schedule requested.

**§ 18–52.203 Ledger accounts of controlled materials.**

(a) Ledger accounts will be maintained by field installations and NASA Headquarters for recording DMS transactions. The ledgers are necessary to assure that no allotments are issued without proper authority; to record purchases of controlled materials for internal consumption; and to provide data for reports of actions taken.

(b) The following account ledgers shall be maintained as a minimum requirement:

(1) By the Office of Procurement—

(i) A ledger which reflects DMS transactions for each field installation, showing the allocation given, allotments issued, returns received and remaining balance; and

(ii) A master ledger which summarizes the transactions of all field installations and headquarters for each DMS material;

(2) By field installations—ledgers for each quarter and each material by program (A1, A2, C2), as appropriate, which reflects the allocations received from Headquarters, allotments issued, returns to Headquarters, and remaining balances.

(c) Detailed information regarding the various types of ledgers which may be established and instructions for recording transactions are set forth in the PAM, Sections 5–6 and 5–7. All prime contractors who received allotments from NASA must maintain allotment accounts, in accordance with DMS Regulation I and Section 5–6 of the PAM.

**§ 18–52.204 Report of allotments and authorized controlled materials orders.**

(a) The Defense Materials System Officer of each field installation which issues allotments shall provide the Office of Procurement with a cumulative monthly report showing, for each controlled material and each calendar quarter, the allocations received, allotments made by claimant programs, amounts issued (with breakout for DX programs), and the unused balances. DD Form 492 will be used for this purpose. The report shall be as of the end of the calendar month and be forwarded so as to reach the Office of Procurement (Code KDF) on or before the 10th day of the next month. The report shall reflect data contained in the ledger accounts.

(b) The Office of Procurement will review and check field installation reports with NASA master ledger transactions, after which a consolidated report shall be prepared and submitted to the Department of Defense. The Office of Procurement report will be made to DOD by the 15th of the month, for the transactions of the preceding month.

## Subpart 18–52.3—Special Expediting Assistance

**§ 18–52.301 Purpose and applicability.**

This Subpart 18–52.3 provides a procedure whereby field installations and contractors may obtain special assistance in expediting delivery of raw materials, supplies, and equipment from commercial sources for NASA programs. The procedure is applicable to NASA Headquarters and field installations.

**§ 18–52.302 Policy.**

In most instances, with the use of priority rating and timely procurement action, it is possible to obtain satisfactory deliveries of materials and equipment to meet program schedules. However, conflicts occasionally occur between priority-rated programs competing for the same resources. A number of factors may cause such a conflict, such as a shortage of capacity to produce a material or product, or placement by different sources of similar orders on a supplier which require delivery within the same time period. Resolution of problems of this type are accomplished by using the special assistance procedure described herein if their solution cannot be arranged at the field level. Detailed explanation, in addition to that of this Subpart, with regard to the special assistance procedure is contained in Section 7 of the PAM.

**§ 18–52.303 Criteria for special assistance requests.**

(a) Requests for special assistance may be submitted by field installations if there is, at a minimum, a clear demonstration:

(1) Of the relationship and importance of the applicant's requirements to NASA programs;

(2) Of the inability of the applicant to divert materials or equipment from other production to meet requirements;

(3) That failure to obtain the supplies will delay NASA program schedules; and

(4) That satisfactory arrangements cannot be accomplished by the field installation.

(b) Requests may be submitted for assistance in placement of orders, as well as to improve deliveries of orders already placed.

**§ 18–52.304 Forms, preparation, and routing of requests.**

(a) Form BDSAF–138 shall be used for all special assistance requests. Copies of this form may be obtained from Department of Commerce field offices, the addresses of which are listed in Section 9 of the PAM.

(b) The form shall be prepared in accordance with the instructions set forth in Section 7–2, Exhibit 2, of the PAM. Block 23C through Block 26D of the form should be left vacant for use of NASA Headquarters and DOD offices. The form may be prepared by any authorized field installation representative or by the prime contractor or subcontractors. Prime contractors may prepare forms for their subcontractors if expedient. However, all forms prepared by contractors must be endorsed by a NASA representative who preferably shall be the DMS Officer of the installation administering the contract. Technical offices of field installations having need for expediting assistance are urged to utilize the services of their local DMS Officer in preparing and processing special assistance requests.

(c) Special assistance requests on BDSAF–138 shall be transmitted in quintuplicate to the Office of Procurement (Code KDF). For emergency cases involving programs of highest national priority (DX), which warrant special handling to obtain immediate deliveries, requests will be accepted by telephone. Data transmitted by phone shall be confirmed by submission of a Form BDSAF–138 through regular mail channels.

**§ 18–52.305 Action by NASA Headquarters.**

(a) After receipt of the Form BDSAF–138, a thorough exploration of the case will be undertaken with a view toward determining the specific deficiency (*e.g.*, lack of capacity, prior higher priority orders, shortage of materials or parts, etc.). On the basis of the information developed, action will be taken to resolve the case by informal arrangements with the supplier and applicant. If this is not successful, the case will be endorsed, through DOD, to the Business and Defense Services Administration. One of the following actions will be taken by BDSA:

(1) Arrangement of improved delivery dates by informal agreement with the supplier;

(2) Issuance of a DX rating; or

(3) Issuance of a directive requiring the supplier to produce or deliver the specified item by a specific date.

(b) The Office of Procurement will maintain a follow-up of all cases received and notify field installations as to final disposition of individual cases.

## PART 18–54—CONTRACT APPEAL PROCEDURE

Sec.
18–54.000 Scope of part.
18–54.101 Authority.
18–54.102 Notice of appeal.
18–54.103 Action by contracting officer.
18–54.104 Designation of Government counsel.
18–54.105 Petition.
18–54.106 Answer.
18–54.107 Reply.
18–54.108 Appeal file—inspection of file.
18–54.109 Amendments to petition and answer.
18–54.110 Trial briefs.
18–54.111 Motions to dismiss for lack of jurisdiction.
18–54.112 Failure to state a case.
18–54.113 Depositions.
18–54.114 Stipulations.
18–54.115 Prehearing conference.
18–54.116 Settlement.
18–54.117 Filing of papers.
18–54.118 Hearing.
18–54.119 Representation of the contractor.
18–54.120 Decisions.
18–54.121 Reconsideration.
18–54.122 Rescinded instructions.
18–54.123 Form for notice of appeal.

AUTHORITY: The provisions of this Part 18–54 issued under 42 U.S.C. 2473(b)(1).

**§ 18–54.000 Scope of part.**

This Part 18–54 establishes procedures for the review and adjudication of appeals arising from NASA contracts.

**§ 18–54.101 Authority.**

Under provisions of NASA Management Instruction 2–4–1, June 25, 1959, the Board of Contract Appeals is authorized to act for the Administrator in hearing, considering, and deciding appeals by contractors from findings of fact or decisions of NASA contracting officers or their representatives.

**§ 18–54.102 Notice of appeal.**

An appeal from findings of fact or decision of a NASA contracting officer shall be made by submitting a notice in writing, addressed to the Board of Contract Appeals (hereinafter referred to as the Board), National Aeronautics and Space Administration, Washington, D.C., 20546. Such notice shall be filed within 30 days from the date of receipt of the written decision of the contracting officer, unless otherwise provided in the contract. The original notice, together with two copies thereof, shall be mailed to or filed with the contracting officer from whose decision the appeal is taken. The notice of appeal shall indicate that an appeal is thereby intended, and shall identify the contract (by number), the contracting officer, and specify the portion of the findings of fact or decision from which the appeal is taken: *Provided, however,* That an appeal shall not be deemed invalid if the notice expresses a desire for a review of the adverse decision. The notice shall be signed by the contractor or his attorney. A suggested form of notice of appeal is set forth in § 18–54.123.

**§ 18–54.103 Action by contracting officer.**

When a notice of appeal in any form has been received by the contracting officer, he shall endorse thereon the date of mailing or the date of receipt if otherwise filed, and shall forward such notice immediately to the Chairman of the Board for docketing. Within 10 days from the date of receipt of the notice of appeal, the contracting officer shall transmit one copy of the notice of appeal to the General Counsel for use of Government counsel and one copy to the Board. The Board's copy shall be accompanied by a file consisting of:

(a) The findings of fact and the decision from which the appeal is taken;

(b) All documents relied upon in making findings or decision;

(c) A copy of the contract and specifications, pertinent plans, amendments, and change orders;

(d) All correspondence between the parties relating to the dispute;

(e) Transcripts of any testimony taken in connection with the dispute in addition to any affidavits or statements of any witnesses that were made prior to the notice of appeal; and

(f) Such additional information as the contracting officer may consider material.

True copies may be substituted for originals in this file.

**§ 18–54.104 Designation of government counsel.**

Upon receipt of the copy of notice of appeal from the contracting officer, the General Counsel shall promptly designate counsel to represent the interests of the Government. Government counsel

shall file a notice of appearance with the Board, and notice thereof shall be given promptly to the contractor by the Board.

**§ 18–54.105 Petition.**

A petition in support of the appeal shall be filed by the appellant with the Board within 30 days after the mailing or filing of the notice of appeal or within such longer period of time as may be allowed by the Board. A supporting brief may also be filed. The petition shall set forth:

(a) A summary of the decision of the contracting officer on the dispute from which the appeal is taken; and

(b) A simple, concise, and direct statement of each claim upon which the contractor relies and the reasons why the findings or decision are deemed erroneous.

Documentary evidence in support of claims may be filed as exhibits to the petition. Exhibits shall be plainly listed and identified in the petition. An original and two copies of the petition and exhibits shall be filed. Upon receipt thereof the Board shall forward a copy of the petition to counsel for the Government and a copy to the contracting officer.

**§ 18–54.106 Answer.**

(a) Within 30 days after receipt of the petition, or within such longer period of time as may be allowed by the Board, counsel for the Government shall prepare and file with the Board an answer thereto. The answer shall set forth simple, concise, and direct statements of the Government's position on each claim asserted by the contractor. A supporting brief may also be filed.

(b) Documentary evidence in support of the Government's position may be filed as exhibits to the answer. All documents filed as exhibits to the answer shall be plainly listed and identified in the answer. An original and two copies of the answer and exhibits shall be filed with the Board. Upon receipt thereof the Board shall forward a copy of the answer to the contractor or his attorney and a copy to the contracting officer.

**§ 18–54.107 Reply.**

The contractor may file a reply within 15 days after receipt of the answer of counsel for the Government.

**§ 18–54.108 Appeal file—inspection of file.**

The appeal file shall consist of the notice of appeal, documents required to be filed pursuant to § 18–54.103, the petition and exhibits thereto, the answer and exhibits attached thereto, all papers filed by the parties with the Board pursuant to instructions contained herein, and all correspondence exchanged between the Board and the parties or their attorneys. The appeal file shall be available for inspection by the appellant and Government counsel at the offices of the Board or the office of the contracting officer.

**§ 18–54.109 Amendments to petition and answer.**

At any time before oral hearing or before submission of a case by the parties without an oral hearing, the Board at its discretion may permit a party, within the proper scope of the appeal, to amend its petition or answer, upon conditions just to both parties. The Board, at its discretion or upon application by a party, may order a party to make a more definite statement of its petition or answer, or to reply to an answer. When issues within the proper scope of the appeal but not raised by the complaint and answer are tried by express or implied consent of the parties, they shall be treated in all respects as if they had been raised therein. If evidence is objected to at the hearing on the ground that it is not within the issues made by the petition and answer, the Board may allow the pleadings to be amended within the proper scope of the appeal and shall do so freely when the presentation of the merits of the action will be served thereby and the objecting party fails to satisfy the Board that the admission of such evidence would prejudice him in maintaining his case or defense upon the merits. The Board may, however, grant a continuance to enable the objecting party to meet such evidence.

**§ 18–54.110 Trial briefs.**

The Board at its discretion may order the submission of trial briefs prior to oral hearing.

**§ 18–54.111 Motions to dismiss for lack of jurisdiction.**

Defenses which go to the jurisdiction of the Board shall be raised by motion. Filing of motions to dismiss for lack of jurisdiction shall not be unreasonably delayed. Motions to dismiss for lack of jurisdiction shall, upon application of either party, be heard and determined before oral hearing on the merits. The Board, however, has the right at any time to recognize its lack of authority to proceed in a particular case.

**§ 18–54.112 Failure to state a case.**

If, after completion of the pleadings, the Board finds that the appellant has failed to state a case on which any relief could be granted by the Board, the Board may give notice to the appellant to show cause why the appeal should not be dismissed on the ground that no useful purpose would be served by setting the case for oral hearing on the merits. The appellant, in such event, will be afforded an opportunity to be heard orally for the purpose of showing cause why the appeal should not be dismissed on that ground and, if the appellant so desires, to move to amend the complaint within the proper scope of the appeal. If the Board thereafter finds that the appellant has failed to show cause, and finds that the complaint, with such amendments as may be offered by the appellant, fails to state a case on which the Board could grant relief, the appeal shall be dismissed.

**§ 18–54.113 Depositions.**

(a) Depositions shall be limited to those situations where there is reason to believe that the witness will not be available for the hearing, and shall be permitted in evidence only when in fact the witness is not present at the hearing. Subject to the foregoing limitation, depositions upon oral examination or written interrogatories may be taken by either party and used as evidence at the hearing when relevant and material to the case.

(b) Depositions to be offered in evidence before the Board may be taken before and authenticated by any person authorized by the laws of the United States, or by the laws of the place where the deposition is taken, to administer oaths.

(c) The taking of a deposition shall be preceded by giving the opposite party at least 15-day notice in writing of the time and place where such deposition will be taken. The notice shall state the name and address of the witness, and the name, official title, and address of the person before whom the deposition is to be taken; and shall indicate whether the deposition will be taken on oral examination or written interrogatories. The parties may stipulate in writing the requirements of the notice, in which case no notice is required. If the deposition is to be taken on written interrogatories, two copies thereof should accompany the notice or stipulation.

(d) Within 10 days after receipt of the interrogatories, the opposing party may serve cross-interrogatories to be propounded to the witness by forwarding them to the officer designated to take the deposition and simultaneously forwarding a copy to the other party.

(e) Each deposition shall show the docket number and caption of the proceedings, the place and date of taking, the name of the witness, and the names of all persons present. The person taking the deposition shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness, and shall enclose the original deposition and exhibits in a sealed packet with postage and other transportation prepaid and forward same to the Board.

(f) A deposition taken under the provisions of this section may be offered by either party to the appeal. Depositions will not be considered as evidence until they have been offered and received as such. All objections made at the time of the taking of the deposition will be passed on at the hearing by the Board, which may exclude any part determined to be irrelevant, immaterial, or otherwise not admissible as evidence in the proceedings. The entire deposition must be offered unless otherwise stipulated by the parties or directed by the Board.

**§ 18–54.114 Stipulations.**

The parties may stipulate in writing to any facts that are relevant and material to the issues involved, and to those documents or facts which may be received in evidence without formal proof.

**§ 18–54.115 Prehearing conference.**

The Board, upon its own initiative or upon application of one of the parties, may direct the parties or their attorneys to appear before the Board or a member designated by the Chairman at a specified time and place for a conference to consider:

(a) Simplification of the issues;

(b) The possibility of obtaining stipulations as to admissions of fact and introduction of documents which will avoid unnecessary proof;

(c) The limitation of the number of expert witnesses, if a hearing is to be held; and

(d) Such other matters as may aid in the disposition of the appeal.

The results of the conference shall be reduced to writing by the Board or the member designated by the Chairman and made part of the record.

**§ 18–54.116 Settlement.**

A dispute may be settled at any time by the contractor's filing written notice withdrawing his appeal or by written stipulation between the contractor and the Government counsel approved by the Board settling either the entire dispute or any part thereof. If only part of the dispute is settled, the appeal shall continue as to any issues remaining in dispute.

**§ 18–54.117 Filing of papers.**

The parties shall file with the Board an original and two copies of all papers, subsequent to the petition and answer. Upon receipt thereof, the Board shall forward a copy to the opposing party.

**§ 18–54.118 Hearing.**

(a) The contractor may submit the case on the record or request a hearing. The Board shall, at the request of either party within 15 days after the answer is filed, grant a hearing. The parties shall be given at least 15-day notice of the time and place of hearing.

(b) Hearings will be held at NASA Headquarters, Washington, D.C., unless otherwise ordered by the Board.

(c) Hearings shall be as informal as may be reasonably allowable and appropriate under all the circumstances. Both parties may offer oral and written evidence, subject to the exclusion by the Chairman of any irrelevant, immaterial, or repetitious evidence. The general procedure as to the introduction of evidence and the calling of witnesses shall be at the discretion of the Chairman.

(d) Testimony shall be under oath or affirmation, unless the facts are stipulated or the Chairman shall otherwise order. Attention of witnesses shall be invited to the provisions of 18 U.S.C. 1621 relating to false testimony under oath. If the testimony of a witness is not given under oath the Board shall invite the attention of the witness to the provisions of Title 18, United States Code, Sections 287, 1001; Section 19 of the Contract Settlement Act of 1944 (41 U.S.C. 119); and any other provisions of law imposing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof.

(e) The Board shall make provision for a verbatim transcript of the hearing.

(f) After a decision has become final, the Board may, upon request and after notice to the other party, permit the withdrawal of original exhibits, or any part thereof, by the party entitled thereto. The substitution of true copies of exhibits or any part thereof may be required by the Board at its discretion as a condition of granting permission for such withdrawal.

**§ 18–54.119 Representation of the contractor.**

An individual appellant may appear before the Board in person; a corporation may be represented by an officer thereof, a partnership or joint venture by a member thereof; or an organization may be represented by an attorney-at-law duly licensed in any State, Commonwealth, or in the District of Columbia. In special cases, the Board may authorize contractors to be represented by persons other than those mentioned.

**§ 18–54.120 Decisions.**

Decisions of the Board shall be made in writing and shall reflect the opinion of a majority of the members. Copies of the decision shall be forwarded simultaneously to both parties. All final orders and decisions (except those required for good cause to be held confidential) shall be available for public inspection at the offices of the Board, NASA Headquarters, Washington, D.C.

**§ 18–54.121 Reconsideration.**

A request for reconsideration by the Board may be filed within 30 days after the date of the decision. Such request shall set forth specifically the ground or grounds relied upon to sustain the request.

**§ 18–54.122 Rescinded instructions.**

This Part 18–54 incorporates the Instruction entitled "Contract Appeal Procedure" issued by the Administrator and effective on June 25, 1959. The procedures set forth supersede the contract appeal procedures established under NASA (NACA) General Regulation No. 6, November 14, 1955; they do not apply to appeals filed prior to June 25, 1959, unless otherwise directed by the Board with the contractor's consent.

**§ 18–54.123 Form for notice of appeal.**

The following is a suggested form for Notice of Appeal.

Date _____

BOARD OF CONTRACT APPEALS,
NATIONAL AERONAUTICS AND SPACE ADMINISTRATION,
*Washington, D.C., 20546.*

Appeal of _____
(Name of Contractor)

Address _____
(Street No.) (City) (Zone/State)

Contract No. (Invitation No.) _____
Specification No. _____
_____
(Name and Location of Project)
_____
(Name of NASA Office or Field Installation)
The undersigned contractor appeals to the NASA Board of Contract Appeals from the decision or findings of fact dated _____ by _____
(Name of Contracting Officer)
The decision or findings of fact is erroneous because:

(State specific facts and circumstances and the contractual provisions involved. Use additional pages as necessary.)

## Title 7—AGRICULTURE

### Chapter VII—Agricultural Stabilization and Conservation Service, (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

### PART 722—COTTON

### Subpart—1965 Crop of Upland Cotton—National Marketing Quota; National Allotment and National Reserve and Apportionment to the States and Counties; National Domestic Acreage Allotment; Referendum Date

STATE RESERVE AND COUNTY ALLOTMENT

(a) Section 722.261 is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended, 7 U.S.C. 1281 et seq.). This section establishes the State reserve and its allocation among uses for the 1965 crop of upland cotton. It also allocates the State's share of the national reserve among counties and establishes the county allotment. Such determinations were made initially by the respective State committees and are hereby approved and made effective by the Administrator pursuant to delegated authority (19 F.R. 74, 21 F.R. 1665, 25 F.R. 3925, 28 F.R. 4368).

(b) Notice that the Secretary was preparing to establish State and county allotments was published in the FEDERAL REGISTER on September 12, 1964 (29 F.R. 12878) in accordance with section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003). No written submissions were received in response to such notice.

(c) Since the allocations under this section require immediate action by the Agricultural Stabilization and Conservation State and county committees, it is essential that § 722.261 be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and § 722.261 shall be effective upon filing this document with the Director, Office of the Federal Register.

**§ 722.261 State reserve and county allotment for the 1965 crop of upland cotton.**

(a) *State reserve.* The State reserve for each State shall be established and allocated among uses as shown in the following table for the 1965 crop of upland cotton pursuant to § 722.208 of the Acreage Allotment Regulations for the 1964 and Succeeding Crops of Upland Cotton (28 F.R. 11041):

[Acres]

| State | Total State reserve | Allocations from State reserve for— | | | |
|---|---|---|---|---|---|
| | | Trends | Small farms | Inequity and hardship cases | New farms and set-aside for errors |
| Alabama | 125 | | | | 125 |
| Arizona | 25 | | | | 25 |
| Arkansas | 132,785 | 132,785 | | | |
| California | 50 | | | | 50 |
| Florida | 300 | | | | 300 |
| Georgia | 40,630 | 40,630 | | | 300 |
| Illinois | 50 | | | 40 | 10 |
| Kansas | | | | | |
| Kentucky | 697 | 547 | 100 | 50 | |
| Louisiana | 55,815 | 55,815 | | | |
| Maryland | | | | | |
| Mississippi | 153,031 | 153,006 | | | 25 |
| Missouri | 4,500 | | | 4,476 | 24 |
| Nevada | | | | | |
| New Mexico | 506 | | | 436 | 70 |
| North Carolina | 43,706 | | | 43,506 | 200 |
| Oklahoma | 111,521 | | | 110,821 | 700 |
| South Carolina | 66,620 | 66,120 | | | 500 |
| Tennessee | 53,151 | 53,021 | | | 130 |
| Texas | 679,990 | | | 678,990 | 1,000 |
| Virginia | 465 | | 225 | 225 | 15 |

(b) *Explanation of allocations of State reserve among uses*—(1) *State reserve for minimum farms.* It is hereby determined that the State's share of the national reserve will meet the requirements for additional acreage for establishing minimum farm allotments under section 344(f)(1) of the act and accordingly, the State committee is not required to establish a State reserve for minimum farm allotments.

(2) *State reserve for abnormal conditions.* It is hereby determined that no State reserve for abnormal conditions is required.

(3) *State reserve for trends.* It is hereby determined that State reserves in substantial amounts are required for trend adjustments in applicable counties of Arkansas, Georgia, Kentucky, Louisiana, Mississippi, South Carolina and Tennessee. Cotton producers in such counties generally plant the entire farm allotment each year and the size of available farm allotments is the limiting factor on the acreage planted to cotton in such counties. Cotton producers in other areas of these States fail to fully utilize farm allotments because of a trend away from cotton production. The following formulas for trend adjustments in county allotments in these States shall be used:

(i) *Arkansas.* An average decimal ratio shall be computed for each county by dividing the total preliminary county allotments for each of the three years, 1963, 1964 and 1965 by the preceding year's county allotment. Each county with a ratio of 0.98 or more shall be eligible for a trend adjustment from the State reserve. A trend base acreage for apportioning the State reserve for trend adjustments shall be determined for each eligible county by multiplying the 1961–1963 average history acreage for each eligible county according to the following weights:

| County average decimal ratio: | Weight |
|---|---|
| 0.98–0.986 | 1.00 |
| 0.987–0.996 | 1.25 |
| 0.997 and over | 1.40 |

(ii) *Kentucky.* It is hereby determined that the entire State reserve for trend adjustments shall be allocated to Fulton County which is the only county in Kentucky where cotton allotments are a limiting factor on the acreage planted for cotton. Producers in all other counties of Kentucky are trending from cotton production.

(iii) *Georgia.* A decimal ratio shall be computed for each county by dividing the county total of the 1965 farm base acreages by the 1964 county allotment. Each county with a decimal ratio of 0.970 shall be eligible for a trend adjustment from the State reserve. A trend base acreage for each eligible county for apportioning the State reserve for trend shall be determined by multiplying the three year average, 1962–1964, of the total farm base acreages for the county by the following weights:

| County decimal ratio: | Weight |
|---|---|
| 0.970–0.974 | 1.00 |
| 0.975–0.979 | 1.10 |
| 0.980–0.984 | 1.20 |
| 0.985–0.989 | 1.30 |
| 0.990–0.994 | 1.40 |
| 0.995 and over | 1.50 |

(iv) *Louisiana.* A decimal ratio shall be computed for each parish by dividing the parish total of the preliminary 1965 farm base acreages by the 1964 parish allotment for upland cotton, excluding released allotments allocated to the parish by the State committee. Each parish for which such ratio is 95.1 or more shall be eligible for a trend adjustment from the State reserve. The State reserve for trend adjustments shall be apportioned to eligible parishes in such manner that the 1965 allotments for such parishes shall be in the same relationship for such parishes as has been in effect since 1961.

(v) *Mississippi.* An average decimal ratio for the three years, 1963–1965, shall be computed for each county by dividing the county total of the farm base acreages for the respective years by the county allotment for the year preceding each of such three years. Each county for which a decimal ratio of 0.93 or more is determined shall be eligible for an adjustment from the State reserve for trends as follows:

(*a*) Each eligible county for which the decimal ratio is in the ratio range of 0.930 through 0.960 shall be given a preliminary trend adjustment equal to the additional acreage that the county would have received in the absence of a State reserve for trends.

(*b*) The acreage remaining in the State reserve for trends after preliminary adjustments have been made in accordance with (*a*) of this subdivision shall be apportioned to eligible counties for which the decimal ratio is in the ratio range of 0.970 and above for the county on the basis of county trend base acreages computed by multiplying the five-year (1959–1963) average history acreage for each eligible county according to the following range of county decimal ratios and weights:

| County decimal ratio: | *Weight* |
|---|---|
| 0.970–0.979 | 2.0 |
| 0.980 and up | 5.0 |

(vi) *South Carolina.* A decimal ratio for each county shall be computed by dividing the total 1965 preliminary farm base acreage by the total 1964 county allotment. Each county with a decimal ratio of 0.970 or more shall be eligible for a trend adjustment from the State reserve. The State reserve for trends shall be apportioned to eligible counties on the basis of trend base acreages computed by multiplying the average county allotment base acreages for the three years, 1962–1964, by the following weights:

| County decimal ratio: | *Weight* |
|---|---|
| 0.97–0.979 | 1.0 |
| 0.980–0.987 | 2.0 |
| 0.988–0.995 | 3.0 |
| 0.996–1.000 | 3.5 |

(vii) *Tennessee.* Each county shall be allocated a portion of the State reserve for trends equal to an acreage resulting by subtracting the sum of the 1964 computed county allotment and the allocation to the county from the State's share of the national reserve from the county total of the 1965 preliminary farm allotment bases. A State total of such allocations to counties from the State reserve for trends shall be deducted from the State reserve for trends. Such remainder of the State reserve for trends shall be apportioned to those counties for which the sum of the computed county allotment and the allocation from the national reserve equals the county total of 1965 preliminary farm allotment bases on the basis of the computed county allotments for such counties.

(4) *State reserve to correct inequities and prevent hardship.* It is hereby determined that State reserves in substantial amounts are required to correct inequities in farm allotments and to prevent hardships on farms in applicable counties of North Carolina, Oklahoma, and Texas as shown in paragraph (c) of this section. Cotton producers in such counties generally plant the entire farm allotment each year and the size of available farm allotments is the limiting factor on the acreage planted to cotton in such counties. Cotton producers in other areas of these States fail to fully utilize farm allotments. In addition, in certain areas of these States, the reduction of the number of farms eligible for allotments as old cotton farms has resulted in inequitable allotments on the remaining old cotton farms in such areas. Allocation of State reserves for inequities and hardships so as to reduce excessive farm allotments in such areas will also tend to eliminate inequities in farm allotments between areas of these States and between farms within the areas.

(5) *State reserve for new farms, missed and reconstituted farms and correction of errors.* It is hereby determined that a State reserve for new farms shall be established only for Oklahoma and Tennessee. Such reserve is included with the State reserve for missed and reconstituted farms and correction of errors.

(c) *County allotment.* The county allotment is established for the 1965 crop of upland cotton in accordance with § 722.209 of the Acreage Allotment Regulations for the 1964 and Succeeding Crops of Upland Cotton (28 F.R. 11041). The county allotment consists of the computed county allotment, allocation from the State's share of the national reserve and allocation from the State reserve for trends. The following table sets forth the county allotment, allocations from the State's share of the national reserve and allocations from the State reserve.

## Chapter XVI—Agricultural Marketing Service (Food Stamp Program), Department of Agriculture

## PART 1600—GENERAL INFORMATION AND DEFINITIONS

## PART 1601—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Regulations are hereby issued for the operation of the Food Stamp Program pursuant to the authority contained in the Food Stamp Act of 1964 (P.L. 88-525, 78 Stat. 703, approved August 31, 1964).

Sec.
1600.1 General purpose and scope.
1600.2 Definitions.
1600.3 Administration.
1600.4 Coupons as obligations of the United States, crimes and offenses.
1600.5 Miscellaneous provisions.

AUTHORITY: The provisions of this Part 1600 issued under Public Law 88-525, 78 Stat. 703.

### § 1600.1 General purpose and scope.

The Food Stamp Act of 1964 (P.L. 88-525, 78 Stat. 703) authorizes the Secretary of Agriculture to formulate and administer a food stamp program for the purpose of encouraging the increased utilization of the nation's abundance of food by raising levels of nutrition among low-income households. The regulations in this chapter are issued for the purpose of effectuating the provisions of the Act. These regulations prescribe the policies and procedures governing the participation in the Program of State agencies, eligible households, retail food stores, wholesale food concerns, banks and other persons concerned with the issuance, possession, negotiation and redemption of coupons under the Program. This Part 1600 contains general information, definitions, and other material applicable to the program as a whole. Part 1601 of this chapter sets forth policies and procedures governing the manner in which State agencies desiring to participate in the Program will carry out the administrative responsibilities assumed by them under the provisions of the Food Stamp Act of 1964, and further prescribes the manner in which eligible households can obtain and use coupons issued to them by such State agencies. Part 1602 of this chapter, to be published at a later date, will set forth additional terms and conditions relating to the participation of retail food stores, wholesale food concerns and banks.

### § 1600.2 Definitions.

For the purpose of this chapter, the term:

(a) "AMS" means the Agricultural Marketing Service of the United States Department of Agriculture.

(b) "Application form" means AMS forms "Retailer Application for Authorization to Participate in the Food Stamp Program" or "Wholesaler Application for Authorization to Participate in the Food Stamp Program", or both as required by the context.

(c) "Authorization" means the approval by AMS of retail food stores and wholesale food concerns to participate in the Program.

(d) "Authorization card" means the AMS form which evidences approval of a retail food store or a wholesale food concern to participate in the Program.

(e) "Bank" means member and nonmember banks of the Federal Reserve System.

(f) "Board" means the Food Stamp Appeals Board.

(g) "Coupon" means any coupon, stamp, or type of certificate issued pursuant to the provisions of this chapter for the purchase of eligible food.

(h) "Coupon allotment" means the total value of coupons issued to a household during each month or other time period not in excess of one month.

(i) "Department" means the United States Department of Agriculture.

(j) "Eligible food" means any food or food product for human consumption except alcoholic beverages, tobacco, those foods which are identified on the package as being imported, and meat and meat products which are imported.

(k) "Eligible household" means a household that lives in a project area and whose income and resources are determined to be a substantial limiting factor in the attainment of a nutritionally adequate low-cost diet.

(l) "Federal fiscal year" means a period of twelve calendar months beginning with July 1 of any calendar year and ending with June 30 of the following calendar year.

(m) "Federally aided public assistance programs" means any of the following programs authorized in the Social Security Act of 1935, as amended: Old-age Assistance, Aid to Families with Dependent Children, Aid to the Blind, and Aid to the Permanently and Totally Disabled.

(n) "Federal reserve banks" means the 12 Federal Reserve Banks and their 24 branches.

(o) "Firm" means a retail food store or a wholesale food concern.

(p) "Food retailer" means any individual, partnership, corporation or other legal entity owning or operating a retail food store.

(q) "Food wholesaler" means any individual, partnership, corporation or other legal entity owning or operating a wholesale food concern.

(r) "Free coupon(s)" mean(s) that portion of the coupon allotment that is in excess of the amount paid by an eligible household for its coupon allotment.

(s) "Head of the household" means the member of the household in whose name application is made for participation in the Program.

(t) "Household" means a group of related or nonrelated individuals, who are not residents of an institution or boarding house, but who are living as one economic unit sharing common cooking facilities and for whom food is customarily purchased in common. It shall also mean a single individual living alone who has cooking facilities and who purchases and prepares food for home consumption.

(u) "Program" means the Food Stamp Program conducted under the Food Stamp Act of 1964 (Public Law 88-525, 78 Stat. 703) and the provisions of this chapter.

(v) "Project area" means the political subdivision within a State which has been approved for participation in the Program by the Department.

(w) "Purchase requirement" means the amount to be paid by an eligible household for its coupon allotment.

(x) "Redemption certificate" means AMS forms: "Retail Merchants Food Stamp Program Redemption Certificate"; or "Wholesalers Food Stamp Program Redemption Certificate", or both as required by the context.

(y) "Retail food store" means an establishment, including a recognized department thereof, or a house-to-house trade route which sells eligible food to households for home consumption.

(z) "State" means any one of the fifty States or the District of Columbia.

(aa) "State agency" means the agency of the State government, including the local offices thereof, which has the responsibility for the administration of the federally aided public assistance programs within the State, and, in those States where such assistance programs are operated on a decentralized basis, it includes the counterpart local agencies which administer such assistance programs for the State agency.

(bb) "State issuing agency" means another agency of the State government to which the State agency delegates its Statewide administrative responsibilities in connection with the issuance of coupons.

(cc) "Wholesale food concern" means an establishment which sells eligible food to retail food stores for resale to households.

### § 1600.3 Administration.

(a) Within the Department, AMS shall act on behalf of the Department in the administration of the Program.

(b) The State agency shall, except as provided in this chapter, be responsible for the administration of the Program within the State, including, but not limited to, the certification of applicant households; the acceptance, storage and protection of coupons after their delivery to receiving points within the State, and the issuance of coupons to eligible households and the control and accountability therefor: *Provided*, That the State agency may, subject to State law, and under agreement or contract, delegate its Statewide administrative responsibility in connection with the issuance of coupons to another agency of the State government. In the event such administrative responsibility in connection with the issuance of coupons is delegated as permitted by this paragraph, the provisions of this chapter applicable thereto shall be carried out by such other agency of the State government under the direction of the State agency and the State agency shall be responsible to the Department for the carrying out of the delegated responsibilities and for the payment of any claims arising out of any failure of the other agency of the State government to carry out any such delegated responsibilities.

### § 1600.4 Coupons as obligations of the United States, crimes and offenses.

(a) Coupons are an obligation of the United States within the meaning of 18 U.S.C. 8. The provisions of Title 18 of the U.S. Code, "Crimes and Criminal Procedure," relative to counterfeiting and alteration of obligations of the United States and the uttering, dealing in, etc., of counterfeit obligations of the United States are applicable to coupons.

(b) Any unauthorized issuance, use, transfer, acquisition, possession or presentation of coupons may subject any individual, partnership, corporation, or other legal entity involved to prosecution under sections 14 (b) and (c) of the Food Stamp Act of 1964 (Public Law 88-525, 78 Stat. 703). These sections of the Act read as follows:

(b) Whoever knowingly uses, transfers, acquires, or possesses coupons in any manner not authorized by this Act or the regulations issued pursuant to this Act shall, if such coupons are of the value of $100 or more, be guilty of a felony and shall, upon conviction thereof, be fined not more than $10,000 or imprisoned for not more than five years, or both, or, if such coupons are of a value of less than $100, shall be guilty of a misdemeanor and shall, upon conviction thereof, be fined not more than $5,000 or imprisoned for not more than one year, or both.

(c) Whoever presents, or causes to be presented, coupons for payment or redemption of the value of $100 or more, knowing the same to have been received, transferred,

or used in any manner in violation of the provisions of this Act or the regulations issued pursuant to this Act shall be guilty of a felony and shall, upon conviction thereof, be fined not more than $10,000 or imprisoned for not more than five years, or both, or, if such coupons are of a value less than $100, shall be guilty of a misdemeanor and shall, upon conviction thereof, be fined not more than $5,000 or imprisoned for not more than one year, or both.

(c) All individuals, partnerships, corporations, or other legal entities including State agencies and their delegatees (referred to in this paragraph as "persons") having custody, care and control of coupons, shall at all times use care and caution in receiving, storing, transmitting, or otherwise handling coupons to avoid acceptance, transfer, negotiation, or use of spurious, altered, or counterfeit coupons and to avoid any unauthorized transfer, negotiation, or use of coupons. Such persons shall also use care and caution in safeguarding coupons from theft, embezzlement, loss, damage or destruction. Any false statement made by any person, in any application of certification required by this chapter, by the Plan of Operation of any State agency, or by instructions of AMS, may subject such person to criminal prosecution under any applicable provision of federal law or to civil liability under the provisions of 31 U.S.C. 231 or either, or both, as well as to any legal action as may be maintained under State law.

**§ 1600.5 Miscellaneous provisions.**

(a) AMS shall have the power to determine the amount of and settle and adjust any claim and to compromise or deny all or part of any such claim arising under the provisions of this chapter.

(b) Persons or agencies desiring information concerning the Program should write to the appropriate Area Office of the Food Distribution Division of AMS as follows:

(1) For project areas in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, West Virginia: U.S. Department of Agriculture, Food Distribution Division, AMS, 346 Broadway, Room 604, New York, N.Y., 10013;

(2) For project areas in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia: U.S. Department of Agriculture, AMS, Food Distribution Division, 50 Seventh Street NE., Room 252, Atlanta, Ga., 30323;

(3) For project areas in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin: U.S. Department of Agriculture, AMS, Food Distribution Division, 536 South Clark Street, Chicago, Ill., 60605;

(4) For project areas in Arkansas, Colorado, Kansas, Louisiana, New Mexico, Oklahoma, Texas: U.S. Department of Agriculture, AMS, Food Distribution Division, 500 South Ervay Street, Room 3-127, Dallas, Tex., 75201;

(5) For project areas in Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, Wyoming: U.S. Department of Agriculture, AMS, Food Distribution Division, Appraisers' Building, Room 734, 630 Sansome Street, San Francisco, Calif., 94111.

(c) *Saving Clause.* The Department reserves the right at any time to withdraw, modify or amend this chapter.

(d) *Effective date.* The provisions of this chapter shall become effective on publication thereof in the FEDERAL REGISTER: *Provided, however,* That in the case of those geographic areas in which Pilot Food Stamp Projects are presently operating under the provisions of 6 CFR Part 540 the provisions of this chapter shall not be operative or effective until further notice is published in the FEDERAL REGISTER specifying the effective date(s) for the provisions of this chapter for each such geographic area and until such notice(s) the provisions of 6 CFR Part 540 shall continue to govern the operation of the Pilot Food Stamp Program in such areas.

Sec.

1601.1 General terms and conditions for State agencies.
1601.2 Payments for certain costs of the State agency.
1601.3 Household eligibility.
1601.4 Certification of households.
1601.5 Basis for issuing coupons to eligible households.
1601.6 Methods of distributing and accounting for coupons and receipts.
1601.7 Financial liabilities of the State agency.
1601.8 Plans of operation.
1601.9 Use or redemption of coupons by eligible households.

AUTHORITY: The provisions of this Part 1601 issued under P.L. 88-525, 78 Stat. 703.

**§ 1601.1 General terms and conditions for State agencies.**

(a) In project areas there shall be no distribution of federally owned foods to households under the authority of any other law except during emergency situations caused by a natural or other disaster as determined by the Secretary of Agriculture.

(b) In the certification of applicant households for the Program there shall be no discrimination against any household by reason of race, religious creed, national origin, or political beliefs.

(c) States or the governing officials of project areas shall not decrease welfare grants or other similar aid extended to any person or persons as a consequence of such person's or persons' participation in benefits made available under the provisions of this chapter.

(d) Free coupons provided to any eligible household shall not be considered to be income or resources for any purpose under the Social Security Act of 1935, as amended, or under any other Federal or State laws including, but not limited to, laws relating to taxation, welfare, and public assistance programs.

(e) Except as provided for in § 1601.2, each State shall finance, or cause to be financed, from funds available to the State or political subdivision thereof, the costs of carrying out the administrative responsibilities assigned to it under the provisions of this chapter.

(f) Each State agency shall establish specific standards to be used in determining the eligibility of applicant households. Such standards shall include maximum income limitations consistent with income standards used by the State agency in administration of its federally aided public assistance programs. Such standards also shall place a limitation on the resources to be allowed eligible households. The standards of eligibility to be used by each State for the Program shall be subject to the approval of AMS.

(g) Each State agency shall undertake the certification of applicant households in accordance with the general procedures and merit system personnel standards used by it in the certification of applicants for benefits under its federally aided public assistance programs.

(h) Each State agency shall submit for the approval of AMS a Plan of Operation, prepared in accordance with the provisions of § 1601.8 and instructions issued by AMS. Such Plan shall cover a federal fiscal year and may be extended for succeeding federal fiscal years at the option of AMS unless sooner terminated or suspended in accordance with the provisions of this part.

(i) If AMS determines that, in the administration of the Program, a State agency has failed to comply substantially with the provisions of this chapter, with instructions issued pursuant to this chapter, or with the State Plan of Operation, AMS shall inform such State agency of such failure and shall allow the State agency a reasonable period of time, as determined by AMS, for the correction of such failure. If, prior to the expiration of such period, corrective action has not been taken, AMS shall direct that there be no further issuance of coupons in the project areas where such failure has occurred until such time as satisfactory corrective action has been taken.

**§ 1601.2 Payments for certain costs of the State agency.**

(a) AMS shall make payments to State agencies for certain costs incurred by such agencies in the certification of the type of households described in § 1601.3(c). The amount of any such payment to any one State agency shall be 50 per centum of the sum of the following: (1) The direct salary costs (including the cost of such fringe benefits as are normally paid to its personnel by the State agency) of the personnel used to make such interviews and such post interview field investigations as are necessary to certify the eligibility of such households, and of the immediate supervisor of such personnel, for such periods of time as they are employed in certifying the eligibility of such households; (2) travel and related costs incurred by such personnel in post interview field investigations of such households; and (3) an amount equal to 25 per centum of the costs computed under subparagraphs (1) and (2) of this paragraph.

(b) The State agency shall submit claims to AMS for such payments in accordance with instructions issued by AMS.

**§ 1601.3 Household eligibility.**

(a) Eligibility for and participation in the Program shall be on a household basis.

(b) Households in which all members thereof are recipients of welfare assistance under (1) federally aided public assistance programs, or (2) State or local general assistance programs applying the criteria of need which are the same as, or similar to, those applied under any such federally aided programs, shall be determined to be low-income households and, therefore, eligible to participate in the Program while receiving such benefits.

(c) Other households, including those in which some members are recipients of the types of assistance set forth in paragraph (b) of this section, shall be determined to be low-income households and, therefore, eligible to participate in the Program if the economic status of the members who are not recipients of welfare assistance meet the standards of eligibility established in accordance with § 1601.1(f).

(d) Any other households meeting criteria of eligibility specifically approved by AMS may be determined to be low-income households and, therefore, eligible to participate in the Program while meeting such criteria.

**§ 1601.4 Certification of households.**

(a) In carrying out its responsibilities for the certification of applicant households the State agency shall:

(1) Provide for adequate documentation and verification of certification information obtained from applicant households.

(2) Make periodic reviews of certification of households to determine changes in status, which would affect the continued eligibility of the household, the amount of its coupon allotment, or its purchase requirement. In the case of households of the category described in § 1601.3(c) reviews shall be made at least on a quarterly basis, except that a Plan of Operation may be submitted for approval which provides a different schedule of review, but no less often than once every six months, for certain categories of such households based upon the probability of changes in the status of such households. Reviews for households of the category described in § 1601.3(b) shall be made whenever there is a redetermination of such household's assistance grant. The schedule of reviews for households of the category described in § 1601.3(d) shall be specifically approved by AMS.

(3) Issue an identification card to each household certified as eligible to participate in the Program.

(4) Issue written instructions to personnel responsible for the certification of applicant households. Such instructions shall be submitted to AMS for review and approval.

(b) If any eligible household is found to have failed to participate regularly, such household shall be eligible to continue to participate in the Program only if the State agency determines that such household failed to participate regularly because of emergency circumstances of a temporary and substantial nature.

**§ 1601.5 Basis for issuing coupons to eligible households.**

(a) The face value of the coupon allotment which State agencies shall be authorized to issue to households certified as eligible to participate in the Program shall be in such amount as will provide such households with an opportunity more nearly to obtain a low-cost nutritionally adequate diet and the purchase requirement for such households shall be in such amount as is determined to be equivalent to their normal expenditures for food.

(b) AMS, after consultation with the State agency, shall establish various classes of eligible households according to such factors as income, and family size and composition, and shall prepare a schedule showing the coupon allotments to be provided the various classes established, and the purchase requirements for such classes.

**§ 1601.6 Methods of distributing, issuing and accounting for coupons and receipts.**

(a) AMS will distribute coupons, printed in such denominations as it may determine necessary, directly to the receiving points designated by the State agency in the Plan of Operation. While in the course of shipment to receiving points coupons shall be considered to be at the risk of the Department.

(b) The State agency shall arrange for the prompt verification of and receipting for the contents of each coupon shipment, in accordance with instructions issued by AMS. Thereafter, the State agency shall be accountable to AMS for the coupons distributed to it and for the sums authorized to be collected from households as payment for the coupon allotments issued to such households.

(c) The State agency shall arrange for: (1) The adequate safekeeping of its supplies of coupons; (2) the maintenance of a reasonable working inventory of coupons; (3) the ordering of coupons in accordance with AMS instructions; and (4) the maintenance of proper inventory and accounting controls for such coupons in accordance with instructions issued by AMS.

(d) The State agency shall arrange for the issuance of coupons to eligible households and for the collection of the sum required from eligible households as payment therefor. The frequency of the issuance of coupons shall be such as to encourage participation of eligible households, but, in any event, shall be no less often than monthly. The coupon allotment to be issued to any household, and the payments therefor, shall be in the amounts determined in accordance with § 1601.5.

(e) The State agency may authorize, under written agreement with public or private agencies, the acceptance of vouchers or warrants issued by such agencies in payment for coupon allotments issued to eligible households. Such vouchers or warrants shall be converted into cash as soon as practicable thereafter in accordance with instructions issued by AMS.

(f) The State agency shall arrange for the reconciliation of coupon inventories, coupon issuances, sums collected from eligible households, vouchers, or warrants accepted from public or private agencies, or other receipts, in accordance with instructions issued by AMS. All such receipts shall be properly safeguarded at all times and deposited in accordance with instructions issued by AMS.

(g) The State agency shall issue written instructions to personnel responsible for the issuance of coupons. Such instructions shall be submitted to AMS for review and approval.

(h) Every official or employee who is responsible for receiving and issuing coupons or accepting cash or other receipts from eligible households shall be covered by an appropriate form of surety bond in favor of the State agency or the State issuing agency.

**§ 1601.7 Financial liabilities of the State agency.**

(a) If AMS determines that there has been gross negligence or fraud on the part of the State agency in the initial certfication of applicant households, or in the periodic review of the eligibility of such households as provided in § 1601.4(a)(2) and the provisions of the Plan of Operation relating thereto, the State shall, on demand by AMS, deposit in accordance with instructions issued by AMS, a sum equal to the amount of any free coupons issued as a result of such negligence or fraud.

(b) If AMS determines that there has been a failure on the part of the State agency to account fully for coupons distributed to it, or the sums authorized to be collected by it in payment of the purchase requirement including the cash equivalent of any vouchers or warrants accepted by it in accordance with § 1601.6(c), the State agency shall, on demand by AMS, pay to AMS, in accordance with instructions issued by AMS, the amount due as a result of such failure.

(c) Upon a determination by the State agency that a participating household has fraudulently obtained coupons, the State agency, on behalf of AMS, shall make demand upon such household for repayment of the value of the free coupons issued to such household as a result of such fraud. Such actions shall be documented in the files of the State agency, and any funds collected as a result of such actions shall be deposited by the State agency in accordance with instructions issued by AMS. Demand and payment of any such amounts shall not relieve or discharge such household of any liability, either civil or criminal, for such additional amounts as may be due under any other applicable provisions of law.

**§ 1601.8 Plans of operation.**

(a) The State agency shall submit a Plan of Operation to AMS for its ap-

proval and there shall be no issuance of coupons prior to the date on which the Plan of Operation is approved by AMS.

(b) The proposed Plan of Operation of each State agency shall be prepared and submitted to AMS in accordance with instructions issued by AMS. Such AMS instructions shall, among other things, require that the State agency: (1) Agree to carry out the Program in accordance with the provisions of this chapter; (2) specify the standards to be used by it in determining the eligibility of applicant households and the policies, procedures, and methods it will follow, and the forms and records it will use in carrying out the administrative responsibilities assigned to it under the provisions of this chapter; (3) specify safeguards which restrict the use or disclosure of information obtained from applicant households to persons directly connected with the administration or enforcement of the provisions of the Food Stamp Act of 1964 or this chapter; (4) agree to keep such records and submit such reports and other information as may from time to time be required by AMS; (5) agree that such Program records shall be available for review or audit by the Department for a period of three years following the close of the federal fiscal year to which they pertain; and (6) specify the project areas within the State in which it desires to conduct the Program and the effective dates on which it proposes to begin operation of the Program in each such project area.

(c) No amendment to the Plan of Operation of any State agency shall be made without prior written approval of AMS, and AMS may require amendment of any agency's Plan of Operation as a condition of continuing approval.

**§ 1601.9 Use or redemption of coupons by eligible households.**

(a) The head of the eligible household, or such other person as may be authorized to act on his behalf in accordance with instructions issued by AMS, shall sign each book of coupons provided to the head of the household in his coupon allotment. The coupons may be used only by the head of the household or other persons selected by him to purchase eligible food for such households. Except for those uncancelled and unendorsed coupons of fifty-cent denomination returned to him as change by authorized retail food stores, coupons shall be detached from the book only at the time such coupons are used for payment of eligible food purchased in or delivered by authorized retail stores.

(b) Upon request, the head of the eligible household or his selected representative shall present the identification card of the head of the household in the retail food store when exchanging food coupons for eligible food.

(c) Coupons shall not be used to pay for any eligible food purchased prior to the time at which the coupons are used to pay for eligible food purchased in or delivered by authorized retail food stores.

(d) If after investigation the State agency finds that any eligible household has failed substantially to comply with the provisions of this part, the Plan of Operation, or any procedure or instructions issued by the State agency or AMS relating to the use of coupons issued to them, such household shall be disqualified from further participation by the State agency for such period as the State agency shall determine.

(e) In the event any eligible household which holds coupons properly issued to such household elects to discontinue participation in the Program, unused coupons may be returned for cash refund from AMS in the same ratio of cash to coupons as was applied by the State agency in the issuance of the coupons to the household. Application for such refund shall be made in accordance with instructions issued by AMS.

NOTE: The recordkeeping and reporting requirements herein specified have been approved by, and further such requirements that may be established will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

The provisions of this part shall become effective as provided in § 1600.5(f) of this chapter.

S. R. SMITH,
*Administrator.*

Approved: December 3, 1964.

ORVILLE L. FREEMAN,
*Secretary.*

# Title 14—AERONAUTICS AND SPACE

## Chapter I—Federal Aviation Agency

[Airspace Docket No. 64-CE-36]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Designation of Federal Airway

On September 23, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 13209) stating that the Federal Aviation Agency proposed to designate a Federal airway between Dunoir, Wyo., and Billings, Mont.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., February 4, 1965, as hereinafter set forth.

In § 71.123 (29 F.R. 1009), V-485 is amended by adding to the beginning of the text "From Dunoir, Wyo., direct Billings, Mont."

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1964.

D. E. BARROW,
*Chief, Airspace Regulations and Procedures Division.*

[F.R. Doc. 64-12493; Filed, Dec. 7, 1964; 8:45 a.m.]

[Airspace Docket No. 64-WA-44]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Designation of Reporting Points

The purpose of this amendment to Part 71 [New] of the Federal Aviation Regulations is to designate the San Juan, Puerto Rico, VORTAC as a domestic reporting point at all altitudes and to designate the San Juan RBN and the Ramey AFB, Puerto Rico, RBN as high altitude reporting points.

The San Juan VORTAC is an integral part of the en route structure and is presently utilized extensively in the movement of IFR traffic within the San Juan domestic controlled area. Additionally, this facility is the basic approach and departure aid for San Juan approach control and is required as a compulsory reporting point at all altitudes for efficient air traffic control.

The San Juan and Ramey radio beacons are presently utilized as noncompulsory reporting points to facilitate the movement of IFR traffic in and about their respective areas. There is a requirement that they be made compulsory reporting points for the high altitude structure.

Designation of these reporting points do not involve the assignment of airspace and their use as compulsory reporting points in the San Juan area is presently required. Since the public is not particularly interested in this matter, the Administrator finds that compliance with the notice and public procedure provisions of the Administrative Procedure Act is unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, the following actions are taken, effective 0001 e.s.t., February 4, 1965.

In § 71.207 (29 F.R. 1223) the following is added.

Ramey AFB, P.R., RBN.
San Juan, P.R., RBN.

In § 71.209 (29 F.R. 1226) the following is added.

San Juan, P.R.

(Sec. 307(a), Federal Aviation Act of 1958; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 1, 1964.

D. E. BARROW,
*Chief, Airspace Regulations and Procedures Division.*

[F.R. Doc. 64-12493; Filed, Dec. 7, 1964; 8:45 a.m.]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES [NEW]

[Reg. Docket No. 6299; Amdt. 402]

## PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES [NEW]

### Miscellaneous Amendments

The amendments to the standard instrument approach procedures contained herein are adopted to become effective when indicated in order to promote safety. The amended procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the complete procedure is republished in this amendment indicating the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In view of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 97 [New] (14 CFR Part 97 [New]) is amended as follows:

1. By amending the following automatic direction finding procedures prescribed in § 97.11(b) to read:

ADF STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

| Transition | | | | Ceiling and visibility minimums | | | |
|---|---|---|---|---|---|---|---|
| From— | To— | Course and distance | Minimum altitude (feet) | Condition | 2-engine or less | | More than 2-engine, more than 65 knots |
| | | | | | 65 knots or less | More than 65 knots | |
| CID VOR | LOM | Direct | 2000 | T-dn | 300-1 | 300-1 | 200-½ |
| IOW VOR | LOM | Direct | 2500 | C-dn | 400-1 | 500-1 | 500-1½ |
| Watkins Int | LOM (final) | Direct | 1900 | S-dn-8 | 400-1 | 400-1 | 400-1 |
| Belle Plaine Int | Watkins Int | Direct | 2500 | A-dn | 800-2 | 800-2 | 800-2 |
| Vinton Int | LOM | Direct | 2700 | | | | |
| Lisbon Int | LOM | Direc | 2500 | | | | |
| Solon Int | LOM | Direct | 2400 | | | | |
| Guernsey Int | LOM | Direct | 2500 | | | | |

Radar vectoring to final approach crs authorized in accordance with patterns.
Procedure turn N side of crs, 265° Outbnd, 085° Inbnd, 2000' within 10 miles.
Minimum altitude over facility on final approach crs, 1900'.
Crs and distance, facility to airport, 058°—3.6 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 3.6 miles after passing CI LOM, climb to 2500' on crs 085° within 15 miles o', when directed by ATC, make right-climbing turn to 2000' and proceed to LOM.
NOTE: Aircraft executing missed approach may be radar controlled after radar identification.
Minimum radar altitudes from CI LOM: 0 to 10 miles CW, 235° to 300°—2000'; 10 to 20 miles CW, 235° to 300°—2500'; 0 to 10 miles CW, 300° to 060°—2900'; 0 to 25 miles CW, 060° to 210°—2500'; 0 to 20 miles CW, 210° to 235°—2500'.
MSA within 25 miles of facility: 000°-090°—2900'; 090°-180°—2100'; 180°-270°—2200'; 270°-360°—3400'.

Procedure turn N side of crs, 263° Outbnd, 083° Inbnd, 5000′ within 10 miles.
Minimum altitude over TUS RBn on final approach crs, 5000′; over Mission FM, *4200′.
Crs and distance TUS RBn to airport, 083°—10.6 miles; Mission FM, 083°—3.6 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 10.6 miles after passing TUS RBn (or 3.6 miles after passing Mission FM), turn right, climbing direct to TUS RBn. Cross TUS RBn at 5000′ minimum.
MSA within 25 miles of facility: 000°-090°—9700′; 090°-180°—9100′; 180°-270°—7900′; 270°-360°—5700′.
*If Mission FM not received, maintain 4200′ and minimums are 1600-2.
%All directions (except V-16 and V-105 westbound) IFR departures must comply with published Tucson SID's.

City, Tucson; State, Ariz.; Airport Name, Tucson International; Elev., 2630′; Fac. Class., HSABZ; Ident., TUS; Procedure No. 1 ,Amdt. 1; Eff. Date, 5 Dec. 64; Sup. Amdt. No. Orig.; Dated, 13 Oct 62

## 2. By amending the following very high frequency omnirange (VOR) procedures prescribed in § 97.11(c) to read:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

| Transition | | | | Ceiling and visibility minimums | | | |
|---|---|---|---|---|---|---|---|
| From— | To— | Course and distance | Minimum altitude (feet) | Condition | 2-engine or less | | More than 2-engine, more than 65 knots |
| | | | | | 65 knots or less | More than 65 knots | |
| Lisbon Int | Ely Int (final) | Via crs 200°—1.9 miles to CID VOR R-067. | 2500 | T-dn | 300-1 | 300-1 | 200-½ |
| | | | 2500 | C-dn | 400-1 | 500-1 | 500-1½ |
| | | | | S-dn-26# | 400-1 | 400-1 | 400-1 |
| Solon Int | Ely Int (final) | Via crs 340°—1.8 miles to CID VOR R-067. | | A-dn | 800-2 | 800-2 | 800-2 |
| CID VOR | Ely Int | Direct | 2500 | | | | |
| IOW VOR | Ely Int | Direct | 2500 | | | | |

Radar vectoring to final approach crs authorized in accordance with approved patterns.
Procedure turn N side of crs, 087° Outbnd, 267° Inbnd, 2500′ within 10 miles of Ely Int.
Minimum altitude over facility on final approach crs, 2500′.
Crs and distance, Ely Int to airport 267°—5.3 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 5.3 miles after passing Ely Int, proceed to CID VOR via R-067, climbing to 2000′ or, when directed by ATC, make right turn, climbing to 2500′ and return to Ely Int.
NOTE: Aircraft executing missed approach may be radar controlled after radar identification. Operating dual VOR equipment required to execute this procedure.
Minimum radar altitudes from Ely Int: 0 to 25 miles CW, 060° to 290°—2500′; 0 to 15 miles CW, 290° to 310°—2500′; 0 to 10 miles CW, 310° to 060°—2900′.
#400-¾ authorized, except for turbojet aircraft, with operative high-intensity runway lights.
MSA within 25 miles of facility: 000°-090°—2900′; 090°-180°—2100′; 180°-270°—2200′; 270°-360°—3400′.

City, Cedar Rapids; State, Iowa, Airport Name, Cedar Rapids Municipal; Elev., 863′; Fac. Class., BVORTAC; Ident., CID; Procedure No. 2, Amdt. 2; Eff. Date, 5 Dec 64; Sup. Amdt. No. 1; Dated, 30 Nov. 63

**3. By amending the following very high frequency omnirange-distance measuring equipment (VOR/DME) procedures prescribed in § 97.15 to read:**

VOR/DME STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

| Transition | | | | Ceiling and visibility minimums | | | |
|---|---|---|---|---|---|---|---|
| | | | | | 2-engine or less | | |
| From— | To— | Course and distance | Minimum altitude (feet) | Condition | 65 knots or less | More than 65 knots | More than 2-engine, more than 65 knots |
| 19.0-mile DME fix R-087 | 9.0-mile DME fix R-087 | Direct | 2500 | T-dn | 300–1 | 300–1 | 200–½ |
| 9.0-mile DME fix R-087 | 6.0-mile DME fix R-087 | Direct | 1400 | C-dn | 400–1 | 500–1 | 500–1½ |
| | | | | S-dn-26# | 400–1 | 400–1 | 400–1 |
| | | | | A-dn | 800–2 | 800–2 | 800–2 |

Radar vectoring to final approach crs authorized in accordance with approved patterns.
Procedure turn N side of crs, 087° Outbnd, 267° Inbnd, 2500′ between 9.0 and 19.0 miles.
Minimum altitude over 6.0-mile DME fix on final approach crs 1400′.
Crs and distance, 6.0-mile DME fix to airport 087°—2.1 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished at 3.9-mile DME fix R-087 proceed to CID VOR via R-087 climbing to 2000′ or, when directed by ATC, make right turn climbing to 2500′ and return to 9.0-mile DME fix R-087.
NOTE: When authorized by ATC, DME may be used to position aircraft for final approach at 2500′ between radials 060° clockwise to 160° via 19.0-mile DME arc, with elimination of procedure turn.
Minimum radar altitudes from 9.0-mile DME fix: 0 to 25 miles CW, 060° to 290° 2500′; 0 to 15 miles CW, 290° to 310° 2500′; 0 to 10 miles CW, 310° to 060° 2900′.
MSA within 25 miles of facility: 000°–090°—2900′; 090°–180°—2100′; 180°–270°—2200′; 270°–360°—3400′.
#400–¼ authorized, except for turbojet aircraft with operative high-intensity runway lights.

City, Cedar Rapids; State, Iowa; Airport Name, Cedar Rapids Municipal; Elev., 863′; Fac. Class., BVORTAC; Ident., CID; Procedure No. VOR/DME No. 1, Amdt. 3; Eff. Date, 5 Dec. 64; Sup. Amdt. No. 2; Dated, 30 Nov. 63

Minimum altitude over HUF RBn, 1500′; over HUF VOR, 1500′.
Crs and distance, HUF RBn to airport, 225°—4 miles; HUF VOR to airport, 229°—3 miles.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 4 miles after passing HUF RBn or 3 miles after passing HUF VOR, climb to 2200′ southwestbound on SW crs HUF ILS to Prairie Creek Int or, when directed by ATC, make climbing left turn to 2500′ and proceed direct to LEU VOR.
*400–¾ authorized, except for turbojet aircraft, with operative high-intensity runway lights.
NOTE: When authorized by ATC, DME may be used to position aircraft on final approach crs at 2200′ via 10-mile DME arc, 320° clockwise to 180° from HUF VOR, with elimination of the procedure turn.
NOTE: 1. No glide slope. 2. No approach lights. 3. This procedure not authorized unless aircraft equipped to receive ILS and ADF or ILS and VOR simultaneously. 4. Final approach from holding pattern not authorized. Procedure turn required.

City, Terre Haute; State, Ind.; Airport Name, Hulman Field; Elev., 585′; Fac. Class., ILS; Ident., I–HUF; Procedure No. ILS–23, Amdt. 6; Eff. Date, 5 Dec. 64 (Back Course); Sup. Amdt. No. 5; Dated, 10 Oct. 64

**5. By amending the following radar procedures prescribed in § 97.19 to read:**

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

| Transition | | | | Ceiling and visibility minimums | | | |
|---|---|---|---|---|---|---|---|
| From— | To— | Course and distance | Minimum altitude (feet) | Condition | 2-engine or less | | More than 2-engine, more than 65 knots |
| | | | | | 65 knots or less | More than 65 knots | |
| Within 20 miles of Houston radar site | Within 5 miles of LaPorte Airport | Direct | *1600 | T-dn | 300–1 | 300–1 | 200–½ |
| Within 5 miles of LaPorte Airport | LaPorte Airport (final) | Direct | **700 | | | | |
| | | | | Surveillance approach | | | |
| | | | | C-dn | 700–1 | 700–1 | 700–1½ |
| | | | | A-dn | NA | NA | NA |

Procedure turn not authorized.
If visual contact not established upon descent to authorized landing minimums at radar fix over LaPorte Airport, climb to 1500′ on V–208 and proceed to LaPorte Int, hold E; or when directed by ATC, climb to 2500′ and proceed direct to Houston VOR.
*Houston radar control must provide 1000′ vertical clearance or 3-mile lateral clearance from 1549′ tower 13.7 miles SW; 1051′ tower 11.0 miles SW; and 1235′ tower 10.7 miles SSE of HOU radar site.
**HOU radar control must provide 300′ vertical clearance or restrict descent to 900′ until 1 mile past 610′ monument, 4.5 miles NNW of LaPorte Airport, on final approach from 5-mile radar fix.

City, LaPorte; State, Tex.; Airport Name, LaPorte Municipal; Elev., 30′; Fac. Class., and Ident., Radar HOU; Procedure No. 1, Amdt. Orig.; Eff. Date, 5 Dec. 64

These procedures shall become effective on the dates specified therein.

(Secs. 307(c), 313(a), and 601 of the Federal Aviation Act of 1958; 49 U.S.C. 1348(c), 1354(a), 1421; 72 Stat. 749, 752, 775)

Issued in Washington, D.C., on October 29, 1964.

G. S. MOORE,
*Director, Flight Standards Service.*

# Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

## Chapter 101—Federal Property Management Regulations

### SUBCHAPTER B—ARCHIVES AND RECORDS

### ADDITION OF SUBCHAPTER

Subchapter B is added to Chapter 101 of Title 41 of the Code of Federal Regulations, reading as follows:

Part
101–7 National Archives.
101–8 National Historical Publications Commission. [Reserved]
101–9 Federal records centers.
101–10 Presidential libraries.
101–11 Records management.
101–12 Current records created by General Services Administration.
101–13 [Reserved]

## PART 101–7—NATIONAL ARCHIVES

Subpart 101–7.1—Public Use of Records and Facilities of the National Archives

Sec.
101–7.100 Scope of subpart.
101–7.101 General provisions.
101–7.101–1 Meaning of terms.
101–7.101–2 Legal custody.
101–7.101–3 Availability of records in general.
101–7.101–4 Access to classified and restricted records.
101–7.102 Photography in the National Archives Exhibition Hall. [Reserved]
101–7.103 [Reserved]
101–7.104 Admission to research rooms.
101–7.104–1 Application for admission to research rooms.
101–7.104–2 Granting and withdrawal of admission card to research rooms.
101–7.104–3 Hours of admission to research rooms.
101–7.104–4 Admission and use of the National Archives Theater.
101–7.106 Research room rules.
101–7.105–1 Register of researchers.
101–7.105–2 Researcher's responsibility.
101–7.105–3 Protection of records.
101–7.105–4 Keeping records in order.
101–7.105–5 Night and Saturday use.
101–7.105–6 Removal or mutilation of records.
101–7.105–7 Disturbances.
101–7.105–8 Smoking and eating.
101–7.106 Reproduction services.
101–7.106–1 Reproduction fees.
101–7.106–2 Reproduction equipment and personnel.
101–7.106–3 Authentication and attestation.
101–7.107 Information service.
101–7.107–1 Information about records.
101–7.107–2 Information derived from records.
101–7.108 Legal demands.
101–7.108–1 Service of subpoena or other legal demand; compliance.

AUTHORITY: The provisions of this Part 101–7 issued under sec. 205(c), 63 Stat. 390, 40 U.S.C. 486(c).

Subpart 101–7.1—Public Use of Records and Facilities of the National Archives

§ 101–7.100 Scope of subpart.

The provisions of this subpart apply to the public use of records deposited with the National Archives of the United States.

§ 101–7.101 General provisions.

§ 101–7.101–1 Meaning of terms.

As used in this part, unless the context otherwise requires, terms shall have the meaning ascribed in the Federal Property and Administrative Services Act of 1949, as amended (63 Stat. 377; 40 U.S.C. 472, 44 U.S.C. 391).

§ 101–7.101–2 Legal custody.

The Administrator has legal custody of all records deposited with the National Archives of the United States.

§ 101–7.101–3 Availability of records in general.

(a) Records deposited with the National Archives of the United States will be made available for use subject to restrictions and limitations imposed by law, by Executive order, by the regulations in this Part 101–7, by the agency from which they have been transferred, or by the Archivist of the United States.

(b) The following general practices will be observed:

(1) Records will not ordinarily be made available for purposes that can be as well served by a public library.

(2) Persons wishing to examine records will, as a rule, be required to do so in the research rooms of the National Archives Building.

(3) The National Archives and Records Service will also render services with regard to reproductions, information, motion pictures, and sound recordings in accordance with the provisions of this Part 101–7.

§ 101–7.101–4 Access to classified and restricted records.

Access to records bearing security classification will be governed by the terms of Executive Order 10501 of November 5, 1953 (3 CFR) as amended. Access to records subject to other forms of restriction will be governed by the conditions set forth by the Archivist in the pertinent Restriction Statements.

§ 101–7.101–5 Photography in the National Archives Exhibition Hall.

Visitors are permitted to take photographs in the National Archives Exhibition Hall without restriction if flash equipment or other special photolighting devices are not used and if the photographs are not intended for commercial use. Persons desiring to take photographs requiring the use of photo lighting devices or for commercial purposes must obtain special permission from the Archivist. Application for such permission should be made to the Exhibits and Publications Division.

§ 101–7.102 [Reserved]

§ 101–7.103 [Reserved]

§ 101–7.104 Admission to research rooms.

§ 101–7.104–1 Application for admission to research rooms.

Persons desiring permission to examine records in the National Archives Building must make application on a form provided for that purpose, on which they will clearly state the subject or nature of their research. The application must show a definite and serious purpose. Permission to examine records will not be given to persons under the age of 16 years unless accompanied by an adult who will undertake in writing to remain with the applicant while records are in use and to be responsible for the applicant's compliance with all National Archives and Records Service regulations. Officers or employees of foreign governments who wish to examine records must apply for permission through the Department of State. Forms will be provided and applications received at the Central Research Room Branch, National Archives Building, Eighth and Pennsylvania Avenue, NW., Washington, D.C. 20408, or the World War II Reference Branch Research Room, Federal Records Center, Building 10, Alexandria, Va. 22314.

§ 101–7.104–2 Granting and withdrawal of admission card to research rooms.

(a) If an application is approved, a card of admission to research rooms will be issued. This card will be valid for

a period not longer than one year but may be renewed upon application. It is not transferable and must be produced when required. Possession of this card does not entitle a researcher to examine records whose use is restricted. The Archivist of the United States may withdraw the privilege of admission to research rooms from any one who violates the regulations in this Part 101–7 or disregards the instructions of a research room supervisor.

(b) A person whose application for admission to research rooms has been approved and who has been issued a card of admission described in this § 101–7.104–2 shall be considered a researcher for the purpose of regulations in this part.

**§ 101–7.104–3 Hours of admission to research rooms.**

The research rooms and the library will be open to persons authorized to use them from 8:45 a.m. to 5:00 p.m. Monday through Friday, Federal holidays excepted. The central research room will also remain open from 5:00 to 9:50 p.m. Monday through Friday, and from 8:45 a.m. to 5:00 p.m. on Saturdays, Federal holidays excepted. In special circumstances, by direction of the Archivist of the United States, the research rooms may be closed during any of the hours specified in this section or may be opened at other times.

**§ 101–7.104–4 Admission and use of the National Archives Theater.**

(a) Applications for admission to the National Archives Theater for the purpose of viewing motion pictures or hearing sound recordings deposited with the National Archives and Records Service shall be made to the Chief, Audio-Visual Branch. Applications should be made long enough in advance to permit the completion of necessary arrangements. A group of persons must be represented by an authorized spokesman, who in making application for their admission, must identify the group he represents. On approval of the application, a time will be fixed for the rendering of the service, and the applicant will be notified.

(b) As indicated in paragraph (a) of this section, the theater in the National Archives Building was designed to be used for the furnishing of reference services on the motion picture holdings of the National Archives, and its facilities are utilized primarily for that purpose. Assignments to any other agencies of the Federal Government, to agencies of the Government of the District of Columbia, or to private organizations may be made, but only when the theater is not required for the furnishing of reference services on those motion picture films or for other official use of the National Archives and Records Service. No application for the use of the theater by either a Federal or District of Columbia agency or a private organization will be approved unless the purpose for which use is requested is related to the work of the National Archives and Records Service. Meetings in the theater shall not in any event be sponsored by profitmaking organizations, promote commercial enterprises or commodities, or have a political, sectarian, or similar nature or purpose. The National Archives Theater will not be authorized for use by any organization or group of individuals which practices discrimination as defined in the Civil Rights Act of 1964 (P.L. 88–352).

(c) Each application for the use of the theater will be submitted in writing by the head of the requesting agency or organization, or his duly authorized representative, at least one week in advance of the use for which the assignment is requested. Each application for use should be addressed and delivered to General Services Administration, National Archives and Records Service, Administrative Officer, The National Archives Building, Washington, D.C. 20408, and shall include the following information:

(1) The name of the governmental agency or private organization requesting the assignment.

(2) The date on which assignment is requested, and the hours of contemplated use.

(3) A brief description of the program of the scheduled meeting or performance.

(4) The approximate number of persons expected to attend the meeting or performance (the capacity of the National Archives Theater is 216 persons).

(5) A statement as to whether it is the intention to exhibit at the meeting or performance motion pictures or lantern slides and, if so, the size of the film (35 mm. or 16 mm.) or of the lantern slides; and whether the film to be shown, if any, is on nitrate or safety base.

(6) Samples of any literature, folders, or posters to be distributed or exhibited at the meeting or performance.

(d) No program will be permitted to continue beyond 10:00 p.m.

(e) Assignments will not be made, unless specifically justified, for Saturdays, Sundays, Holidays, or other days or at hours during which the building is normally closed.

(f) No admission fee will be charged, no indirect assessment will be made for admission, and no collection will be taken. Commercial advertising or the sale of articles of any character will not be permitted.

(g) The serving or consumption of food or beverages within the theater will be prohibited.

(h) Smoking will be prohibited within the theater.

(i) If the projection of motion pictures or lantern slides is a part of the program, competent operators will be furnished by the National Archives and Records Service on a reimbursable basis.

(j) Posting of any material about the premises will be subject to the approval of the GSA building superintendent.

(k) All persons attending meetings or performances will be required to go directly to the theater which is on the fifth floor of the building. No one will be admitted to other parts of the building closed to the general public.

(l) All persons attending meetings or performances will be subject to the "Rules and Regulations Governing Public Buildings and Grounds" issued by the Administrator of General Services (Subpart 101–19.3).

**§ 101–7.105 Research room rules.**

**§ 101–7.105–1 Register of researchers.**

Each day that a researcher uses records in a research room he must sign the register maintained there.

**§ 101–7.105–2 Researcher's responsibility.**

When a researcher has completed his use of records or leaves the research room for more than a short period of time, he must notify the supervisor. A researcher is responsible for all records delivered to him until he returns them to the supervisor. The researcher must at no time leave loose or unprotected papers on desks or tables while he is absent from the room.

**§ 101–7.105–3 Protection of records.**

Researchers must exercise all possible care to prevent damage to the records delivered to them. They must not use ink at desks upon which there are records, except when a supervisor authorizes the use of a fountain pen or a ball point pen. Bottled liquids may not be placed on desks where there are records. Records may not be leaned on, written on, folded anew, traced, or handled in any way likely to damage them. Application to the records of paper clips, rubber bands, or other fasteners not on them when they are delivered to a researcher is prohibited. The use of records of exceptional value or in fragile condition will be subject to such special safeguards as the supervisor may deem necessary.

**§ 101–7.105–4 Keeping records in order.**

The researcher must keep unbound papers in the order in which they are delivered to him. If records appear to be in disorder, the researcher must not attempt to restore them to order but should call the fact to the attention of a supervisor. The supervisor may place a limitation on the use of records from more than one container at one time and may limit the quantity of records delivered to a researcher at one time.

**§ 101–7.105–5 Night and Saturday use.**

Requests for records or library books to be used at night must be submitted to the supervisor in charge of the central research room before 4:00 p.m. on the day on which they are to be used, and those for records or books to be used on Saturdays must be submitted before 3:00 p.m. on the preceding Friday.

**§ 101–7.105–6 Removal or mutilation of records.**

No records or other property of the National Archives and Records Service may be taken from the research rooms except by members of the Service staff acting in their official capacities or by others having written authorization from a research room supervisor. The unlawful removal or mutilation of records is forbidden by law and is punishable by fine or imprisonment or both (18 U.S.C. 2071). When so requested by a guard or a research room supervisor, a researcher must present for examination any briefcase, notebook, package, envelope, book, or other article that could be used to carry records.

**§ 101–7.105–7 Disturbances.**

Loud talking and other actions likely to disturb researchers are prohibited. Persons desiring to use typewriters, to read proof aloud, or to do other work that may disturb others in the research rooms will, where possible, be assigned desks in a room designated for such purposes.

**§ 101–7.105–8 Smoking and eating.**

Smoking and eating in the research rooms are prohibited, and food may not be brought into the research rooms except in sealed containers.

**§ 101–7.106 Reproduction services.**

**§ 101–7.106–1 Reproduction fees.**

The National Archives and Records Service will, for a fee, furnish reproductions of records in its custody to which no restriction has been attached. Fees must be paid in advance except in cases where the Chief of a Reference Branch approves an order for handling them on an "accounts receivable basis." Fees may be paid to the National Archives and Records Service in coin or currency of the United States, by postal money order, by check drawn on a bank in the United States or one of its possessions and made payable to GSA, or by international money order or check drawn in United States dollars on a bank in the United States and payable to GSA.

**§ 101–7.106–2 Reproduction equipment and personnel.**

Insofar as practicable the reproduction of records in the National Archives Building will be done by personnel of the National Archives and Records Service with equipment belonging to the Service. Exceptions to this rule may be made by the Chief of a Reference Branch only when it has been determined by proper authority that the equipment proposed to be used is safe for use in the place and manner intended, and that the equipment is used under the supervision of responsible personnel of the Service.

**§ 101–7.106–3 Authentication and attestation.**

Upon request and the payment of appropriate fees, authentication certificates in the name of the Archivist of the United States will be prepared and attached to reproductions of records deposited with the National Archives. Authority to issue such certificates is redelegated to the Director, Office of the Federal Register; the Assistant Archivists for Civil and Military Archives; the Chief, Central Research Room Branch; and the Chief of any Reference Branch of the Offices of Civil and Military Archives.

**§ 101–7.107 Information service.**

**§ 101–7.107–1 Information about records.**

Upon request, information about the overall holdings of the National Archives and Records Service or information about the presence of specific records among its holdings will be furnished, provided that the time required to service such requests is not excessive.

**§ 101–7.107–2 Information derived from records.**

Information contained in the records will not ordinarily be furnished by the National Archives and Records Service except in the form of photo-copies of the records themselves subject to the provisions of § 101–7.101–4.

**§ 101–7.108 Legal demands.**

**§ 101–7.108–1 Service of subpoena or other legal demand; compliance.**

(a) A subpoena duces tecum or other legal demand for the production of records or other material deposited with the National Archives may be served on the Administrator of General Services, the Archivist of the United States, or the cognizant Assistant Archivist, or if such records or material are deposited outside Washington, D.C., on the Regional Administrator, the Regional Director of the National Archives and Records Service, or the Manager of the Federal Records Center.

(b) Such served official will, so far as legally practicable, comply with the subpoena or demand by submitting authenticated copies of the records or material, or the original records or material if necessary, unless he or the Administrator of General Services determines that disclosure of the information contained therein is contrary to law, Executive order, or other governing restriction or would prejudice the national interest or security.

(c) When such subpoena or demand is served on any other officer or employee of GSA, except the General Counsel or Regional Counsel, he will, unless otherwise directed by the Administrator, respectfully decline to produce such records or material on the ground that he is without authority under this Part 101–7 to do so.

(d) The General Counsel and, with respect to records or material outside Washington, D.C., the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

## PART 101–8—NATIONAL HISTORICAL PUBLICATIONS COMMISSION [RESERVED]

## PART 101–9—FEDERAL RECORDS CENTERS

**Subpart 101–9.1—Preservation and Use of Records in Regional Federal Records Centers**

Sec.
101–9.100 Scope of subpart.
101–9.101 Definitions.
101–9.102 Legal custody.
101–9.103 Availability of records.
101–9.104 Location of Federal Records Centers.
101–9.105 Penalty for unlawful removal or mutilation.
101–9.106 Photocopying by regional Federal records centers.
101–9.107 Authentication and attestation of copies; costs.
101–9.108 Service of subpoena or other legal demand; compliance.

AUTHORITY: The provisions of this Part 101–9 issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

### Subpart 101–9.1—Preservation and Use of Records in Regional Federal Records Centers

**§ 101–9.100 Scope of subpart.**

The provisions of this subpart apply to records in regional Federal records centers of the GSA.

**§ 101–9.101 Definitions.**

As used in this subpart, unless the context otherwise requires:

(a) The term "regional Federal records center" means a records center operated by GSA primarily to serve other Federal agencies.

(b) The term "Regional Administrator" means the Administrator of a region established by GSA.

(c) The term "Manager" means the manager of a regional Federal records center.

**§ 101–9.102 Legal custody.**

The Administrator of General Services has legal custody of records in regional Federal records centers.

**§ 101–9.103 Availability of records.**

Upon written request to the Manager of the Federal Records Center, he will make available records in Federal Records Centers to persons properly and directly concerned, subject to the approval of the agency whose records are involved and other conditions or restrictions imposed by law, the regulations in this Part 101–9, or the Regional Administrator. If a request is denied, a brief statement of reasons will be furnished the applicant.

**§ 101–9.104 Location of Federal Records Centers.**

GSA Federal records centers and the areas they serve are listed in § 101–11.410–1.

**§ 101–9.105 Penalty for unlawful removal or mutilation.**

The unlawful removal or mutilation of records is forbidden and is punishable by fine or imprisonment or both (18 U.S.C. 2071).

**§ 101–9.106 Photocopying by regional Federal records centers.**

Requests for photographic copies of records in regional Federal records centers and requests for certification or authentication of such copies should be made to the manager of the appropriate regional Federal records center.

**§ 101–9.107 Authentication and attestation of copies; costs.**

The managers of the several regional Federal records centers are authorized to authenticate and attest, for and in the name of the appropriate Regional Administrator of GSA, copies or reproductions of records in regional Federal records centers. Such copies or reproductions of records will be furnished in appropriate cases upon payment of costs.

**§ 101–9.108 Service of subpoena or other legal demand; compliance.**

(a) A subpoena duces tecum or other legal demand for the production of records deposited in a Federal Records Center should be served on the Federal agency whose records are involved (*cf.* 40 U.S.C. 397(b)).

(b) However, when a subpoena duces tecum or other legal demand for such records is served on the Administrator of General Services, the Archivist of the United States, the Regional Administrator, or the Manager of the Federal Records Center, such official will, so far as legally practicable, after obtaining the approval of the agency whose records are involved, comply with the subpoena or demand by submitting authenticated copies of the records, or the original records if necessary, unless he or the Administrator of General Services determines that disclosure of the information contained therein is contrary to law. Executive order, or other governing restriction or would prejudice the national interest or security.

(c) When such subpoena or demand is served on any other officer or employee of GSA, except the General Counsel or the Regional Counsel, he will, unless otherwise directed by the Administrator, respectfully decline to produce such records on the ground that he is without authority under this Part 101–9 to do so.

(d) The General Counsel and the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (b) of this section.

## PART 101–10—PRESIDENTIAL LIBRARIES

Sec.
101–10.000 Scope of part.

**Subpart 101–10.1—Herbert Hoover Library**

101–10.100 Scope of subpart.
101–10.101 General provisions.
101–10.101–1 Definitions.
101–10.101–2 Legal custody.
101–10.101–3 General conduct.
101–10.101–4 Photography by visitors.
101–10.102 Availability and use of historical materials.
101–10.102–1 Inquiries regarding use.
101–10.102–2 Restricted materials.
101–10.103—101–10.105 [Reserved]
101–10.106 Legal demands.
101–10.106–1 Service of subpoena or other legal demand; compliance.
101–10.107 Museum areas and grounds.
101–10.107–1 Admission fee.
101–10.107–2 Free admissions.
101–10.107–3 Hours of admission to museum areas and library grounds.
101–10.107–4 Eating and smoking prohibited.
101–10.107–5 Supplemental rules.

**Subpart 101–10.2—Franklin D. Roosevelt Library**

101–10.200 Scope of subpart.
101–10.201 General provisions.
101–10.201–1 Definitions.
101–10.201–2 Legal custody.
101–10.201–3 General conduct.
101–10.201–4 Photography by visitors.
101–10.202 Availability and use of historical material.
101–10.202–1 Application for permission to use.
101–10.202–2 Admission card.
101–10.202–3 Withdrawal of admission card.
101–10.202–4 Restricted materials.
101–10.202–5 Hours of admission.
101–10.203 Research room rules.
101–10.203–1 Requests for historical material.
101–10.203–2 Researcher's responsibility for historical material.
101–10.203–3 Prevention of damage to historical material.
101–10.203–4 Limitation on quantity.
101–10.203–5 Removal prohibited.
101–10.203–6 Disturbance prohibited.
101–10.203–7 Smoking and eating prohibited.
101–10.204 Loans, reproduction fees, and publication.
101–10.204–1 Loans.
101–10.204–2 Reproduction fees.
101–10.204–3 Publication of historical material.
101–10.204–4 Authentication and attestation of copies; costs.
101–10.205 Legal demands.
101–10.205–1 Service of subpoena or other legal demand; compliance.
101–10.206 Museum.
101–10.206–1 Admission fee.
101–10.206–2 Free admission.
101–10.206–3 Hours of admission.
101–10.206–4 Checking of certain personal property.

**Subpart 101–10.3—Harry S. Truman Library**

101–10.300 Scope of subpart.
101–10.301 General provisions.

101–10.403—101–10.405 [Reserved]
101–10.406 Legal demands.
101–10.406–1 Service of subpoena or other legal demand; compliance.
101–10.407 Auditorium.
101–10.407–1 Primary uses.
101–10.407–2 Standards for other uses.
101–10.407–3 Application procedure.
101–10.407–4 General provisions.

AUTHORITY: The provisions of this Part 101–10 issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

**§ 101–10.000 Scope of part.**

The provisions of this part apply to the Presidential libraries under the jurisdiction of GSA.

## Subpart 101–10.1—Herbert Hoover Library

**§ 101–10.100 Scope of subpart.**

The provisions of this subpart apply to the Herbert Hoover Library and adjacent buildings and grounds, West Branch, Iowa 52358.

**§ 101–10.101 General provisions.**

**§ 101–10.101–1 Definitions.**

As used in this subpart, unless the context otherwise requires:

(a) The term "Library" means the Herbert Hoover Library, West Branch, Iowa.

(b) The term "adjacent buildings" means the Hoover Birthplace Cottage and the "blacksmith shop" located on the grounds of the Library.

(c) The term "historical material" includes books, correspondence, documents, papers, pamphlets, works of art, models, pictures, photographs, plats maps, films, motion pictures, sound recordings, and other objects or materials having historical or commemorative value.

**§ 101–10.101–2 Legal custody.**

The Administrator of General Services has legal custody of historical material in the Library and adjacent buildings.

**§ 101–10.101–3 General conduct.**

All persons entering in or upon Library property are subject to the general regulations covering public buildings and grounds issued by the Administrator of General Services (Subpart 101–19.3).

**§ 101–10.101–4 Photography by visitors.**

Visitors are permitted to take photographs in the Library and adjacent buildings without restriction if flash bulbs or other special photolighting devices are not used, and the photographs are not intended for commercial use. Persons desiring to take photographs requiring the use of photolighting devices, tripods or other elaborate equipment or for commercial purposes, must obtain special permission from the Director of the Library. Applications for such permission should be made to the Director of the Library.

**§ 101–10.102 Availability and use of historical material.**

**§ 101–10.102–1 Inquiries regarding use.**

Historical material in the Library, except for items displayed in exhibit areas, will not be available for use until restricted material has been identified and segregated. When unrestricted materials are opened to research this section will be revised accordingly. In the interim, questions regarding access to historical material should be addressed to the Director of the Library.

**§ 101–10.102–2 Restricted materials.**

In accordance with the provisions of section 507(f)(3) of the Federal Property and Administrative Services Act of 1949 (44 U.S.C. 397(f)(3)), materials on which availability and use restrictions have been specified in writing by the donors or depositors will be made available subject to the restrictions specified. The following classes of material will not be made available for examination or use:

(a) Materials on which the Archivist of the United States has imposed restrictions.

(b) Materials restricted by law or Executive order.

(c) Materials containing information the disclosure of which would be prejudicial to the national interest or security of the United States.

**§§ 101–10.103—101–10.105 [Reserved]**

**§ 101–10.106 Legal demands.**

**§ 101–10.106–1 Service of subpoena or other legal demand; compliance.**

(a) A subpoena duces tecum or other legal demand for the production of historical material in the library may be served upon the Administrator of General Services, the Archivist of the United States, the cognizant Assistant Archivist, or the Director of the Library.

(b) Such served official will, so far as legally practicable, comply with the subpoena or demand by submitting authenticated copies of the material, or the original material if necessary, unless he or the Administrator of General Services determines that disclosure of the information contained therein is contrary to law, Executive order, or other governing restriction or would prejudice the national interest or security.

(c) When a subpoena or demand is served on any other officer or employee of GSA, except the General Counsel or Regional Counsel, he will, unless otherwise directed by the Administrator, respectfully decline to produce such material on the ground that he is without authority under this Subpart 101–10.1 to do so.

(d) The General Counsel and, where the Director of the Library is named, the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

**§ 101–10.107 Museum areas and grounds.**

**§ 101–10.107–1 Admission fee.**

A charge of 50 cents shall be collected from every person visiting and viewing the museum portion of the Library building, except as provided in § 101–10.107–2. Admission to adjacent buildings is free.

**§ 101–10.107–2 Free admissions.**

The following persons will be admitted to the museum portion of the Library building free of charge provided that the applicable tax, if any, will be collected from such persons unless exempt by law:

(a) *Without prior application.* (1) Children 12 years of age or under when accompanied by an adult assuming responsibility for their safety and orderly conduct.

(2) Uniformed members of the Armed Forces of the United States.

(3) Persons in the support or care of charitable institutions and their attendants.

(b) *When prior application has been made.* Persons from educational institutions when such persons are accompanied by officers or instructors of such institutions.

(c) *Special cases.* Persons engaged in business affecting the Library and other persons when specifically authorized by the Director of the Library.

**§ 101–10.107–3 Hours of admission to museum areas and Library grounds.**

The Library museum rooms and adjacent buildings will be open from 9:00 a.m. to 4:30 p.m., Monday through Saturday, and from 2:00 p.m. to 5:00 p.m. on Sundays, including Federal legal holidays except Thanksgiving Day, Christmas Day, and New Year's Day, and at such other times as the Director may authorize. From June 1 to September 15 the museum rooms and adjacent buildings will be open from 10:00 a.m. to 5:00 p.m. on Sundays. The Library grounds will be open from 8:30 a.m. to 10:00 p.m. daily, except as otherwise authorized by the Director of the Library.

**§ 101–10.107–4 Eating and smoking prohibited.**

Eating and smoking are prohibited in the museum rooms of the Library and within the immediate vicinity of adjacent buildings.

**§ 101–10.107–5 Supplemental rules.**

The Director of the Library is authorized to establish and post such rules as he may deem necessary regarding the reservation and use of the grounds and shelters, the conduct of persons therein, the admission of pets, the playing of games, or any other subjects on which, in his judgment, rules are required.

## Subpart 101–10.2—Franklin D. Roosevelt Library

**§ 101–10.200 Scope of subpart.**

The provisions of this subpart apply to the Franklin D. Roosevelt Library, Hyde Park, New York 12538.

**§ 101–10.201 General provisions.**

**§ 101–10.201–1 Definitions.**

As used in this subpart, unless the context otherwise requires:

(a) The term "Library" means the Franklin D. Roosevelt Library, Hyde Park, New York.

(b) The term "historical material" includes books, correspondence, documents, papers, pamphlets, works of art, models, pictures, photographs, plats, maps, films, motion pictures, sound recordings, and other objects or materials having historical or commemorative value.

**§ 101–10.201–2 Legal custody.**

The Administrator of General Services has legal custody of historical material in the Library.

**§ 101–10.201–3 General conduct.**

All persons entering in or upon Library property are subject to the general regulations covering public buildings and grounds issued by the Administrator of General Services (Subpart 101–19.3).

**§ 101–10.201–4 Photography by visitors.**

Visitors are permitted to take photographs in the Library without restriction if flash bulbs or other special photolighting devices are not used, and the photographs are not intended for commercial use. Persons desiring to take photographs requiring the use of photolighting devices, tripods or other elaborate equipment, or for commercial purposes, must obtain special permission from the Director of the Library. Applications for such permission should be made to the Director of the Library.

**§ 101–10.202 Availability and use of historical material.**

**§ 101–10.202–1 Application for permission to use.**

Permission to use unrestricted historical material may be obtained by making advance written application to the Director of the Library on a form provided for the purpose, and stating clearly therein the specific subject of the applicant's interest, and the purpose of his study. An applicant must satisfy the Director of the Library that he is qualified to do research, and that his proposed study has a serious and useful purpose.

**§ 101–10.202–2 Admission card.**

If the application is approved, a card will be issued permitting the applicant to use in the Research Room those unrestricted historical material that bears on the subject of the applicant's interest as stated in his application. This card is valid for a period not in excess of one year, but may be renewed on application.

**§ 101–10.202–3 Withdrawal of admission card.**

The card of admission may be withdrawn by the Director of the Library for any violation of the provisions of this subpart, or for disregarding the authority of the supervisor in charge.

**§ 101–10.202–4 Restricted materials.**

In accordance with the provisions of section 507(f)(3) of the Federal Property and Administrative Services Act of 1949 (44 U.S.C. 397(f)(3)), materials on which restrictions on availability have been specified in writing by the donors or depositors will be made available subject to the restrictions specified. The following classes of material will not be made available for examination or use:

(a) Materials on which the Archivist of the United States has imposed restrictions.

(b) Materials restricted by law or Executive order.

(c) Materials containing information the disclosure of which would be prejudicial to the national interest or security of the United States.

**§ 101–10.202–5 Hours of admission.**

The Research Room will be open from 9 a.m. to 5 p.m. Monday through Friday, Federal legal holidays excepted, and at such other times as the Director of the Library may authorize.

**§ 101–10.203 Research room rules.**

**§ 101–10.203–1 Requests for historical material.**

Requests for historical material must be made to the Research Room supervisor on a form provided for that purpose.

**§ 101–10.203–2 Researcher's responsibility for historical material.**

When a researcher has completed his use of historical material or leaves the Research Room other than for short periods of time, he must notify the supervisor. A researcher is responsible for all historical material delivered to him until it has been returned by him to the supervisor.

**§ 101–10.203–3 Prevention of damage to historical material.**

The research is required to exercise all possible care to prevent damage to historical material, and to maintain papers in the order in which they are delivered to him. Except when a supervisor authorizes the use of a fountain pen, the use of ink at desks upon which there is historical material is prohibited. Historical material may not be leaned upon, written upon, folded anew, traced or handled in any way likely to damage it. The use of historical material of exceptional value or in fragile condition is subject to such special restrictions as the supervisor may deem necessary.

**§ 101–10.203–4 Limitation on quantity.**

The supervisor in charge of the Research Room may limit the quantity of historical material to be delivered to a researcher at any one time.

**§ 101–10.203–5 Removal prohibited.**

Researchers may not take historical material from the Research Room.

**§ 101–10.203–6 Disturbance prohibited.**

Loud talking and other activities likely to disturb researchers are prohibited. Persons wishing to use typewriters or sound recording devices may be requested to work in specially designated areas.

**§ 101–10.203–7 Smoking and eating prohibited.**

Smoking and eating in the Research Room are prohibited.

**§ 101–10.204 Loans, reproduction fees, and publication.**

**§ 101–10.204–1 Loans.**

Historical material may not be borrowed for use outside the Library except upon authorization in each instance by the Archivist of the United States.

**§ 101–10.204–2 Reproduction fees.**

The Library will, for a fee, furnish reproductions of unrestricted historical material. Fees must be paid in advance except when payment on an "accounts receivable" basis is approved by the Director of the Library.

**§ 101–10.204–3 Publication of historical material.**

Historical material made available to researchers may not be published except upon the written authorization of the Director of the Library.

**§ 101–10.204–4 Authentication and attestation of copies; costs.**

The Director of the Library is authorized to authenticate and attest, for and in the name of the Archivist of the United States, copies or reproductions of unrestricted historical material. Such copies or reproductions will be furnished upon payment of costs.

**§ 101–10.205 Legal demands.**

**§ 101–10.205–1 Service of subpoena or other legal demand; compliance.**

(a) A subpoena duces tecum or other legal demand for the production of historical material in the library may be served upon the Administrator of General Services, the Archivist of the United States, the cognizant Assistant Archivist, or the Director of the Library.

(b) Such served official will, so far as legally practicable, comply with the subpoena or demand by submitting authenticated copies of the material, or the original material if necessary, unless he or the Administrator of General Services determines that disclosure of the information contained therein is contrary to law, Executive order, or other governing restriction or would prejudice the national interest or security.

(c) When a subpoena or demand is served on any other officer or employee of GSA, except the General Counsel or Regional Counsel, he will, unless otherwise directed by the Administrator, respectfully decline to produce such material on the ground that he is without

authority under this Subpart 101–10.2 to do so.

(d) The General Counsel and, where the Director of the Library is named, the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

**§ 101–10.206 Museum.**

**§ 101–10.206–1 Admission fee.**

A charge of 40 cents shall be collected from each person visiting and viewing the museum portion of the Library, except as provided in the following § 101–10.206–2.

**§ 101–10.206–2 Free admissions.**

The following persons will be admitted to the museum free of charge after any applicable tax is collected from such persons unless exempt by law:

(a) *Without prior application.* (1) Children 12 years of age or under when accompanied by an adult assuming responsibility for their safety and orderly conduct.

(2) Uniformed members of the Armed Forces of the United States.

(3) Persons in the support or care of charitable institutions and their attendants.

(b) *When prior application has been made.* (1) Persons from educational institutions when such persons are accompanied by officers or instructors of such institutions.

(c) *Special cases.* Persons engaged in business affecting the Library and other persons when specifically authorized by the Director of the Library.

**§ 101–10.206–3 Hours of admission.**

The museum portion of the Library will be open from 10 a.m. to 5 p.m., Tuesday through Sunday, including Federal legal holidays, except Christmas, and at such other times as the Director of the Library may authorize. The museum will also be open each Monday that is a Federal legal holiday other than Christmas.

**§ 101–10.206–4 Checking of certain personal property.**

Visitors to the museum rooms shall check, at a place designated by the Director of the Library, all parcels, luggage, and such other personal property as may be determined by the Director of the Library.

## Subpart 101–10.3—Harry S. Truman Library

**§ 101–10.300 Scope of subpart.**

The provisions of this subpart apply to the Harry S. Truman Library, Independence, Missouri 64050.

**§ 101–10.301 General provisions.**

**§ 101–10.301–1 Definitions.**

As used in this subpart, unless the context otherwise requires:

(a) The term "Library" means the Harry S. Truman Library, Independence, Missouri.

(b) The term "historical material" includes books, correspondence, documents, papers, pamphlets, works of art, models, pictures, photographs, plats, maps, films, motion pictures, sound recordings, and other objects or materials having historical or commemorative value.

**§ 101–10.301–2 Legal custody.**

The Administrator of General Services has legal custody of historical material in the Library.

**§ 101–10.301–3 General conduct.**

All persons entering in or upon Library property are subject to general regulations covering public buildings and grounds issued by the Administrator of General Services (Subpart 101–19.3).

**§ 101–10.301–4 Photography by visitors.**

Visitors are permitted to take photographs in the Library without restriction if flash bulbs or other special photolighting devices are not used, and the photographs are not intended for commercial use. Persons desiring to take photographs requiring the use of photolighting devices, tripods or other elaborate equipment, or for commercial purposes, must obtain special permission from the Director of the Library. Applications for such permission should be made to the Director of the Library.

**§ 101–10.302 Availability and use of historical material.**

**§ 101–10.302–1 Application for permission to use.**

Permission to use unrestricted historical material may be obtained by making advance written application to the Director of the Library on a form provided for the purpose, stating clearly therein the specific subject of the applicant's interest and the purpose of his study. An applicant must satisfy the Director of the Library that he is qualified to do research, and that his proposed study has a serious and useful purpose.

**§ 101–10.302–2 Admission card.**

If the application is approved, a card will be issued permitting the applicant to use in the Research Room those unrestricted historical material that bears on the subject of the applicant's interest as stated in his application. This card is valid for a period not in excess of one year, but may be renewed on application.

**§ 101–10.302–3 Withdrawal of admission card.**

The card of admission may be withdrawn by the Director of the Library for any violation of the provisions of this subpart, or for disregarding the authority of the supervisor in charge.

**§ 101–10.302–4 Restricted materials.**

In accordance with the provisions of section 507(f)(3) of the Federal Property and Administrative Services Act of 1949 (44 U.S.C. 397(f)(3)), materials on which restrictions on availability have been specified in writing by the donors or depositors will be made available subject to the restrictions specified. The following classes of materials will not be made available for exmaination or use:

(a) Materials on which the Archivist of the United States has imposed restrictions.

(b) Materials restricted by law or Executive order.

(c) Materials containing information the disclosure of which would be prejudicial to the national interest or security of the United States.

**§ 101–10.302–5 Hours of admission.**

The Research Room of the Library will be open from 8:45 a.m. to 4:45 p.m., Monday through Friday, Federal legal holidays excepted, and at such other times as the Director of the Library may authorize.

§ 101–10.303 Research room rules.

**§ 101–10.303–1 Requests for historical material.**

Requests for historical material must be made to the Research Room supervisor on a form provided for that purpose.

**§ 101–10.303–2 Researcher's responsibility for historical material.**

When a researcher has completed his use of historical material or leaves the Research Room other than for short periods of time, he must notify the supervisor. A researcher is responsible for all historical material delivered to him until it has been returned by him to the supervisor.

**§ 101–10.303–3 Prevention of damage to historical material.**

The researcher is required to exercise all possible care to prevent damage to historical material, and to maintain papers in the order in which they are delivered to him. The use of ink at desks upon which there is historical material is prohibited. Historical material may not be leaned upon, written upon, folded anew, traced or handled in any way likely to damage it. The use of historical material of exceptional value or in fragile condition is subject to such special restrictions as the supervisor may deem necessary.

**§ 101–10.303–4 Limitation on quantity.**

The supervisor in charge of the Research Room may limit the quantity of historical materials to be delivered to a researcher at any one time.

**§ 101–10.303–5 Removal prohibited.**

Researchers may not take historical material with them from the Research Room.

**§ 101–10.303–6 Disturbance prohibited.**

Loud talking and other activities likely to disturb researchers are prohibited. Persons wishing to use typewriters or sound recording devices may be requested to work in specially designated areas.

**§ 101–10.303–7 Eating and smoking prohibited.**

Eating in the Research Room is prohibited. Smoking is prohibited except in the designated smoking area at the end of the Research Room, to which historical material may not be taken.

**§ 101–10.304 Loans, reproduction fees, and publication.**

**§ 101–10.304–1 Loans.**

Historical material may not be borrowed for use outside the Library except upon authorization in each instance by the Archivist of the United States, with the exception that certain materials may be loaned through established interlibrary loan procedure.

**§ 101–10.304–2 Reproduction fees.**

The Library will, for a fee, furnish reproductions of unrestricted historical material. Fees must be paid in advance except when payment on an "accounts receivable" basis is approved by the Director of the Library.

**§ 101–10.304–3 Publication of historical material.**

Historical material made available to researchers may not be published except upon the written authorization of the Director of the Library.

**§ 101–10.304–4 Authentication and attestation of copies; costs.**

The Director of the Library is authorized to authenticate and attest, for and in the name of the Archivist of the United States, copies or reproductions of unrestricted historical material. Such copies or reproductions will be furnished upon the payment of costs.

**§ 101–10.305 Legal demands.**

**§ 101–10.305–1 Service of subpoena or other legal demand; compliance.**

(a) A subpoena duces tecum or other legal demand for the production of historical material in the library may be served upon the Administrator of General Services, the Archivist of the United States, the cognizant Assistant Archivist, or the Director of the Library.

(b) Such served official will, so far as legally practicable, comply with the subpoena or demand by submitting authenticated copies of the material, or the original material if necessary, unless he or the Administrator of General Services determines that disclosure of the information contained therein is contrary to law, Executive order, or other governing restriction or would prejudice the national interest or security.

(c) When a subpoena or demand is served on any other officer or employee of GSA, except the General Counsel or Regional Counsel, he will, unless otherwise directed by the Administrator, respectfully decline to produce such material on the ground that he is without authority under this Subpart 101–10.3 to do so.

(d) The General Counsel and, where the Director of the Library is named, the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

**§ 101–10.306 Museum.**

**§ 101–10.306–1 Admission fee.**

A charge of 50 cents shall be collected from every person visiting and viewing the museum portion of the Library, except as provided in the following § 101–10.306–2.

**§ 101–10.306–2 Free admissions.**

The following persons will be admitted to the museum free of charge after any applicable tax is collected from such persons unless exempt by law:

(a) *Without prior application.* (1) Children 12 years of age or under when accompanied by an adult assuming responsibility for their safety and orderly conduct.

(2) Uniformed members of the Armed Forces of the United States.

(3) Persons in the support or care of charitable institutions and their attendants.

(b) *When prior application has been made.* Persons from educational institutions when such persons are accompanied by officers or instructors of such institutions.

(c) *Special cases.* Persons engaged in business affecting the Library and other persons when specifically authorized by the Director of the Library.

**§ 101–10.306–3 Hours of admission.**

The museum portion of the Library will be open from 9 a.m. to 4:30 p.m., Monday through Saturday, and from 2:00 p.m. to 5:00 p.m., Sunday, including Federal legal holidays except Thanksgiving Day, Christmas Day, and New Year's Day, and at such other times as the Director of the Library may authorize. From June 1 to September 15 the Museum will be open from 10:00 a.m. to 5:00 p.m. on Sundays.

**§ 101–10.307 Auditorium.**

**§ 101–10.307–1 Primary uses.**

The auditorium is designed primarily to serve the purposes of the Library in the presentation or discussion of historical materials, through lectures, seminars, meetings of professional societies, projection of historical motion pictures, and the like.

**§ 101–10.307–2 Standards for other uses.**

(a) When the auditorium is not required for library purposes, applications for the following uses will be considered:

(1) Meetings of Federal Government organizations or recognized Federal employee groups.

(2) For meetings (including meetings of civic or veterans organizations and professional, scientific, educational, and other similar societies or organizations) that are sponsored by or related to the activities of the Library or the Harry S. Truman Library Institute.

(3) For the presentation to the public of lectures, concerts, and similar performances sponsored by the Library or in which its employees participate.

(4) For other uses at the discretion of the Director of the Library.

(b) In no case will the use of the auditorium be authorized for any event, meeting, or performance sponsored by a profit making organization, or those promoting commercial enterprises or commodities, or those having political, sectarian, or similar nature or purpose.

(c) Assignment will not be made for Saturdays, Sundays, or holidays, unless specifically justified.

**§ 101–10.307–3 Application procedure.**

Each application for use of the auditorium will be submitted in writing by the head of the requesting agency or organization, or his duly authorized representative, at least one week in advance of the proposed use. Each application should be directed to the Director of the Library and should include the following information:

(a) The name of the organization requesting the assignment.

(b) The date on which assignment is requested, and the hours of contemplated use.

(c) A brief description of the scheduled meeting or performance.

(d) The approximate number of persons expected to attend (capacity of the auditorium is 250).

(e) A statement as to whether or not it is the intention to exhibit at the meeting or performance motion pictures or slides and, if so, the size of the film or slides and whether the film to be shown, if any, is on nitrate or safety base.

(f) Samples or description of any literature, folders, or posters to be distributed or exhibited at the meeting or performance.

**§ 101–10.307–4 General provisions.**

(a) No program will be permitted to continue beyond 10:00 p.m.

(b) No admission fee may be charged, except by the Library, no indirect assessment fee may be made for admission, and no collection may be taken. Commercial advertising or the sale of articles of any character is not permitted.

(c) The serving or consumption of food or beverages within the auditorium is prohibited.

(d) Smoking is prohibited within the auditorium.

(e) Music racks, ushers, and attendants for checking wraps, if needed, will be furnished and paid for by the applying organization.

(f) If the projecting of motion pictures or slides is part of the program, a competent operator, if available, will be furnished by the Library for a fee. The using organization may provide its own operator with the approval of the Director.

(g) The posting of any material about the premises is subject to the approval of GSA's Building Manager.

(h) All persons attending meetings or performances are required to go directly to the auditorium. No one is admitted to other parts of the building closed to the general public.

## Subpart 101–10.4—Dwight D. Eisenhower Library

**§ 101–10.400 Scope of subpart.**

The provisions of this subpart apply to historical material in the Dwight D. Eisenhower Library, Abilene, Kansas 67410.

**§ 101–10.401 General provisions.**

**§ 101–10.401–1 Definitions.**

As used in this subpart, unless the context otherwise requires:

(a) The term "Library" means the Dwight D. Eisenhower Library, Abilene, Kansas.

(b) The term "building" means the building occupied by the Library at Abilene, Kansas.

(c) The term "historical material" includes books, correspondence, documents, papers, pamphlets, works of art, models, pictures, photographs, plats, maps, films, motion pictures, sound recordings, and other objects or materials having historical or commemorative value.

**§ 101–10.401–2 Legal custody.**

The Administrator of General Services has legal custody of historical material in the Library.

**§ 101–10.401–3 General conduct.**

All persons entering in or upon Library property are subject to the general regulations covering public buildings and grounds issued by the Administrator of General Services (Subpart 101–19.3).

**§ 101–10.401–4 Photography by visitors.**

Visitors are permitted to take photographs in the Library without restriction if flash bulbs or other special photolighting devices are not used, and if the photographs are not intended for commercial use. Persons desiring to take photographs requiring the use of photolighting devices, tripods, or other elaborate equipment, or for commercial purposes, must obtain special permission from the Director of the Library. Applications for such permission should be made to the Director of the Library.

**§ 101–10.402 Availability and use of historical material.**

**§ 101–10.402–1 Inquiries regarding use.**

Historical material in the Library, except for items displayed in the exhibit rooms, will not be available for use until restricted material has been identified and segregated. When unrestricted materials are opened to research, this § 101–10.402–1 will be revised accordingly. In the interim, questions regarding access to historical material should be addressed to the Director of the Library.

**§ 101–10.402–2 Restricted materials.**

In accordance with the provisions of section 507(f)(3) of the Federal Property and Administrative Services Act of 1949 (44 U.S.C. 397(f)(3)), materials on which availability and use restrictions have been specified in writing by the donors or depositors will be made available subject to the restrictions specified. The following classes of material will not be made available for examination or use:

(a) Materials on which the Archivist of the United States has imposed restrictions.

(b) Materials restricted by law or Executive order.

(c) Materials containing information the disclosure of which would be prejudicial to the national interest or security of the United States.

**§§ 101–10.403—101–10.405 [Reserved]**

**§ 101–10.406 Legal demands.**

**§ 101–10.406–1 Service of subpoenas or other legal demand; compliance.**

(a) A subpoena duces tecum or other legal demand for the production of historical material in the library may be served upon the Administrator of General Services, the Archivist of the United States, the cognizant Assistant Archivist, or the Director of the Library.

(b) Such served official will, so far as legally practicable, comply with the subpoena or demand by submitting authenticated copies of the material, or the original material if necessary, unless he or the Administrator of General Services determines that disclosure of the information contained therein is contrary to law, Executive order, or other governing restriction or would prejudice the national interest or security.

(c) When a subpoena or demand is served on any other officer or employee of GSA, except the General Counsel or Regional Counsel, he will, unless otherwise directed by the Administrator, respectfully decline to produce such material on the ground that he is without authority under this Subpart 101–10.4 to do so.

(d) The General Counsel and, where the Director of the Library is named, the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

**§ 101–10.407 Auditorium.**

**§ 101–10.407–1 Primary uses.**

The auditorium is designed primarily to serve the purposes of the Library in the presentation or discussion of historical materials, through lectures, seminars, meetings of professional societies, projection of historical motion pictures, and the like.

**§ 101–10.407–2 Standards for other uses.**

(a) When the auditorium is not required for library purposes, applications for the following uses will be considered:

(1) For meetings of Federal Government organizations or recognized Federal employee groups.

(2) For meetings (including meetings of civic or veterans organizations and professional, scientific, educational, and other similar societies or organizations) that are sponsored by or related to the activities of the Library.

(3) For the presentation to the public of lectures, concerts, and similar performances sponsored by the Library or in which its employees participate.

(4) For other uses at the discretion of the Director of the Library.

(b) In no case will the use of the auditorium be authorized for any meeting, event, or performance sponsored by a profitmaking organization, or those promoting commercial enterprise or commodities, or those having political, sectarian, or a similar nature or purpose.

(c) Assignment will not be made for Saturdays, Sundays, or holidays, unless specifically justified.

**§ 101–10.407–3 Application procedure.**

Each application for use of the auditorium will be submitted in writing by the head of the requesting agency or organization, or his duly authorized representative, at least one week in advance of the proposed use. Each application should be directed to the Director of the Library and should include the following information:

(a) The name of the organization requesting the assignment.

(b) The date on which assignment is requested, and the hours of contemplated use.

(c) A brief description of the scheduled meeting or performance.

(d) The approximate number of persons expected to attend (capacity of the auditorium is 165).

(e) A statement as to whether or not it is the intention to exhibit at the meeting or performance motion pictures or slides and, if so, the size of the film or slides and whether the film to be shown, if any, is on nitrate or safety base.

(f) Samples or description of any literature, folders, or posters to be distributed or exhibited at the meeting or performance.

**§ 101–10.407–4 General provisions.**

(a) No program will be permitted to continue beyond 10 p.m.

(b) No admission fee may be charged, no indirect assessment fee may be made for admission, and no collection may be taken. Commercial advertising or the sale of articles of any character is prohibited.

(c) The serving or consumption of food or beverages within the auditorium is prohibited.

(d) Smoking is prohibited within the auditorium.

(e) Music racks, ushers, and attendants for checking wraps, if needed, will be furnished and paid for by the applying organization.

(f) If the projecting of motion pictures or slides is part of the program, a competent operator, if available, will be furnished by the Library for a fee. The using organization may provide its own operator with the approval of the Director of the Library.

(g) The posting of any material about the premises is subject to the approval of GSA's Building Manager.

(h) All persons attending meetings or performances are required to go directly to the auditorium. No one shall be admitted to other parts of the building closed to the general public.

## PART 101–11—RECORDS MANAGEMENT

Sec.
101–11.000 Scope of part.

Subpart 101–11.1—Federal Records; General

101–11.101 General provisions.
101–11.101–1 Authority.
101–11.101–2 Applicability.
101–11.101–3 Records defined.
101–11.101–4 Reports to the President and the Congress.
101–11.102 Agency records management programs.
101–11.102–1 Authority.
101–11.102–2 Program content.
101–11.102–3 Creation of records.
101–11.102–4 Organization, maintenance, and use of records.
101–11.102–5 Disposition of records.
101–11.102–6 Liaison offices.
101–11.102–7 Biennial summary of records holdings.
101–11.103 Agency program evaluation.
101–11.103–1 Authority.
101–11.103–2 Evaluation by National Archives and Records Service.
101–11.103–3 Agency internal evaluation.

Subpart 101–11.2—Creation of Records

101–11.200 Scope of subpart.
101–11.201 General provisions.
101–11.201–1 Agency action.
101–11.202 Adequate and proper documentation.
101–11.202–1 Statutory responsibilities.
101–11.202–2 Documentation standards.
101–11.203 Creating records essential for current business.
101–11.203–1 Statutory responsibilities.
101–11.203–2 General requirements.
101–11.204 [Reserved]
101–11.205 [Reserved]
101–11.206 Correspondence—agency program responsibilities.
101–11.206–1 Correspondence management function.
101–11.206–2 Correspondence defined.
101–11.206–3 Program requirements.
101–11.206–4 Program implementation.
101–11.207 Reports—agency program responsibilities.
101–11.207–1 Reports management function.
101–11.207–2 Reports defined.
101–11.207–3 Program requirements.
101–11.207–4 Program implementation.
101–11.208 Forms—agency program responsibilities.
101–11.208–1 Forms management function.
101–11.208–2 Forms defined.
101–11.208–3 Program requirements.
101–11.208–4 Program implementation.
101–11.209 Directives—agency program responsibilities.
101–11.209–1 Directives management function.
101–11.209–2 Directives defined.
101–11.209–3 Program requirements.
101–11.209–4 Program implementation.

Subpart 101–11.3—Organization, Maintenance, and Use of Current Records

101–11.301 General provisions.
101–11.301–1 Authority.
101–11.301–2 Agency action.
101–11.302 [Reserved]
101–11.303 [Reserved]
101–11.304 Mail—agency program responsibilities.
101–11.304–1 Mail management function.
101–11.304–2 Mail defined.
101–11.304–3 Program requirements.
101–11.304–4 Program implementation.
101–11.305 Files—agency program responsibilities.
101–11.305–1 Files management function.
101–11.305–2 Files defined.
101–11.305–3 Program requirements.
101–11.305–4 Program implementation.
101–11.306 Records equipment and supplies—agency program responsibilities.
101–11.306–1 Managing records equipment and supplies.
101–11.306–2 Records equipment and supplies defined.
101–11.306–3 Program requirements.
101–11.306–4 Program implementation.

Subpart 101–11.4—Disposition of Federal Records

101–11.401 Records control schedules.
101–11.401–1 Records scheduling programs.
101–11.401–2 Basic elements in records scheduling programs.
101–11.401–3 Formulation of records control schedules.
101–11.401–4 Provisions of records control schedules.
101–11.401–5 Application of records control schedules.
101–11.402 [Reserved]
101–11.403 Standards for the selective retention of records.
101–11.403–1 Authority.
101–11.403–2 Records retention and disposal standards.
101–11.403–3 Permanently valuable records retention program.
101–11.403–4 Application of records retention plans.
101–11.404 General retention and disposal schedules.
101–11.404–1 Authority.
101–11.404–2 Approved general records schedules.
101–11.405 [Reserved]
101–11.406 Agency disposal authority.
101–11.406–1 Authority.

Sec.
101–11.406–2 Submission of disposal requests.
101–11.406–3 Certification.
101–11.406–4 General Accounting Office clearance.
101–11.406–5 Approval of requests for disposal authority.
101–11.406–6 Mutilation and destruction of records.
101–11.406–7 Extension of retention periods.
101–11.406–8 Withdrawal of disposal authority.
101–11.406–9 Supersession of disposal authority.
101–11.407 Emergency authorization for the disposal of records.
101–11.407–1 General provisions.
101–11.407–2 Menaces to human health or life or to property.
101–11.407–3 State of war or threatened war.
101–11.408 Methods of disposal.
101–11.408–1 Authority.
101–11.408–2 Sale or salvage.
101–11.408–3 Donation for preservation and use.
101–11.408–4 Destruction.
101–11.409 Transfer of records from the custody of one executive agency to another.
101–11.409–1 Authority.
101–11.409–2 Approval.
101–11.409–3 Agency request.
101–11.409–4 Agency concurrences.
101–11.409–5 Records of terminated agencies.
101–11.409–6 Equipment.
101–11.409–7 Costs of transfers.
101–11.409–8 Restrictions on use of records.
101–11.409–9 Exceptions.
101–11.410 Transfer of records to Federal Records Centers.
101–11.410–1 Authority.
101–11.410–2 Procedures for transfers to regional Federal Records Centers.
101–11.410–3 Procedures for transfer to the Federal Records Center, St. Louis.
101–11.410–4 Vital operating records.
101–11.410–5 Surveys of records available for transfer.
101–11.410–6 Release of equipment.
101–11.410–7 Use of records transferred to Federal Records Centers.
101–11.410–8 Disposal clearances.
101–11.411 Transfer of records to the National Archives.
101–11.411–1 Authority.
101–11.411–2 Transfers via Records Centers.
101–11.411–3 Direct transfers.
101–11.411–4 Release of equipment.
101–11.411–5 Use of records transferred to the National Archives.
101–11.411–6 Disposal clearances.
101–11.411–7 Transfer of audiovisual records.
101–11.411–8 Transfer of cartographic records.
101–11.412 Agency records centers; establishment.
101–11.412–1 Authority.
101–11.412–2 Existing records centers.
101–11.412–3 Requests for authority to establish or relocate records centers.
101–11.412–4 Annual agency records center report.

Subpart 101–11.5 [Reserved]

Subpart 101–11.6—Records Equipment and Supplies

101–11.601 [Reserved]
101–11.602 [Reserved]
101–11.603 Stationery standards.
101–11.603–1 General provisions.
101–11.603–2 Standard specifications.
101–11.603–3 Letterhead stationery.
101–11.603–4 Memorandum stationery.
101–11.603–5 Continuation sheets.
101–11.603–6 Manifold (tissue) sheets.
101–11.603–7 [Reserved]
101–11.603–8 Envelopes (printing).
101–11.603–9 Envelopes; borders, markings, etc.
101–11.603–10 Procurement forms.
101–11.603–11 Optional Form 10, United States Government Memorandum, May 1962.
101–11.603–12 Standard Form 63, Memorandum of Call, Nov. 1961.
101–11.603–13 Standard Form 65, U.S. Government Messenger Envelope, Nov. 1961.
101–11.603–14 Optional Form 27, United States Government 2-way Memo.

Subpart 101–11.7—Vital Records: Records During an Emergency

101–11.701 Emergency preparedness program; vital records protection status report.
101–11.701–1 Purpose.
101–11.701–2 Authority.
101–11.701–3 Background.
101–11.701–4 Forms.
101–11.701–5 Definitions.
101–11.701–6 Preparing offices and coverage.
101–11.701–7 Security.
101–11.701–8 Reporting periods and due dates.
101–11.701–9 Copies and distribution.
101–11.701–10 Availability of forms.

Subpart 101–11.49—Forms and Reports

101–11.4900 Scope of subpart.
101–11.4901 Standard Form 136: Biennial Summary of Records Holdings.
101–11.4902 Standard Form 115: Request for Authority to Dispose of Records.
101–11.4903 Standard Form 115a: Request for Authority to Dispose of Records—Continuation Sheet.
101–11.4904 Instructions for preparing Standard Forms 115 and 115a.
101–11.4905 Standard Form 137: Agency Records Center Annual Report.
101–11.4906 Standard Form 127: Request for Official Personnel Folder (Separated Employee).
101–11.4907 Standard Form 135: Records Transmittal and Receipt.
101–11.4908 Standard Form 135a: Records Transmittal and Receipt—(Continuation).
101–11.4909 GSA Form 439: Report of Disposition of Records.
101–11.4910 Optional Form 11: Reference Request—Federal Records Centers.
101–11.4911 GSA Form 10: United States Government Memorandum.
101–11.4912 Optional Form 10: United States Government Memorandum.
101–11.4913 Standard Form 63: Memorandum of Call.
101–11.4914 Standard Form 65: U.S. Government Messenger Envelope.
101–11.4915 Optional Form 27: United States Government 2-Way Memo.
101–11.4916 "Guides to Simplified Informal Correspondence".
101–11.4917 GSA Form 2034: Vital Records Protection Status Report (Part I—Emergency Operating Records).
101–11.4918 GSA Form 2035: Vital Records Protection Status Report (Part II—Rights and Interests Records).
101–11.4919 Instruction for preparing GSA Forms 2034 and 2035.

AUTHORITY: The provisions of this Part 101–11 issued under sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

## § 101–11.000 Scope of part.

This part prescribes policies and promulgates standards, procedures, and techniques for the economical and efficient management of records of Federal agencies.

### Subpart 101–11.1—Federal Records; General

#### § 101–11.101 General provisions.

#### § 101–11.101–1 Authority.

The regulations in this subpart are issued pursuant to the authority contained in the Act of July 7, 1943, as amended (44 U.S.C. 366–376, 378–380), hereinafter referred to as the Records Disposal Act, and the records provisions of the Federal Property and Administrative Services Act of 1949, as amended (44 U.S.C. 391–396, 397–401).

#### § 101–11.101–2 Applicability.

The regulations in this subpart apply to all Federal agencies to the extent provided in the Acts cited in § 101–11.101–1, except that the disposal of court records shall be in accordance with the provisions of 28 U.S.C. 457. Section 3 of the Federal Property and Administrative Services Act (40 U.S.C. 472) defines "Federal agency" as "any executive agency or any establishment in the legislative or judicial branch of the Government (except the Senate, House of Representatives, and the Architect of the Capitol and any activities under his direction)." The same section defines "executive agency" as "any executive department or independent establishment in the executive branch of the Government, including any wholly owned Government corporation."

#### § 101–11.101–3 Records defined.

(a) Section 1 of the Records Disposal Act (44 U.S.C. 366) defines the term "records," as applied to the disposition of records, to include "all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government in pursuance of Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informational value of data contained therein. Library and museum material made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference, and stocks of publications and of processed documents are not included within the definition of the word 'records' • • •."

(b) This definition also applies to the term "records" when used in the Federal Records Act of 1950, by virtue of section 511(a) thereof (44 U.S.C. 401(a)). The Federal Records Act of 1950 was enacted as Title V (sections 501–511) of the Federal Property and Administrative Services Act of 1949, as amended (44 U.S.C. 391–396, 397–401).

#### § 101–11.101–4 Reports to the President and the Congress.

Section 508(b) of the Federal Records Act of 1950 (44 U.S.C. 398(b)) provides: "The Administrator shall, whenever he finds that any provisions of this title have been or are being violated, inform in writing the head of the agency concerned of such violations and make recommendations regarding means of correcting them. Unless corrective measures satisfactory to the Administrator are inaugurated within a reasonable time, the Administrator shall submit a written report thereon to the President and the Congress."

### § 101–11.102 Agency records management programs.

#### § 101–11.102–1 Authority.

Section 506(b) of the Federal Records Act of 1950 (44 U.S.C. 396(b)) requires the head of each Federal agency to establish and maintain an active, continuing program for the economical and efficient management of the records of the agency.

#### § 101–11.102–2 Program content.

Agency programs shall, among other things, provide for:

(a) Effective controls over the creation, the organization, maintenance and use, and the disposition of all agency records.

(b) Cooperation with GSA in developing and applying standards, procedures, and techniques designed to improve the management of records, assure the maintenance and security of records of continuing value, and facilitate the segregation and disposal of all records of temporary value.

(c) Compliance with the provisions of the Federal Records Act of 1950 and with the regulations issued thereunder.

#### § 101–11.102–3 Creation of records.

Adequate records management controls over the creation of agency records shall be instituted to insure that important policies and decisions are adequately recorded; that routine operational paper work is kept to a minimum; and that the accumulation of unnecessary files is prevented. Effective techniques to be applied in this area include the application of systems for the control of correspondence, forms, directives and issuances, and reports; the minimizing of duplicate files; and the disposal without filing of transitory material that has no value for record purposes.

#### § 101–11.102–4 Organization, maintenance, and use of records.

Provision shall be made for the continued analysis and improvement of such matters as mail handling and routing, record classification and indexing systems, the use of filing equipment and supplies, the reproduction and transportation of records, and work production standards relating thereto, to insure that records are maintained economically and efficiently and in such a manner that their maximum usefulness is attained.

#### § 101–11.102–5 Disposition of records.

Provision shall be made to insure that records of continuing value are preserved but that records no longer of current use to an agency are promptly disposed of or retired. Effective techniques for accomplishing these ends are the development of records control schedules; the transfer of records to records centers and to the National Archives; the microfilming of appropriate records; and the disposal of valueless records.

#### § 101–11.102–6 Liaison offices.

Responsibility for the development of the records management program shall be specifically assigned to an office or offices within each Federal agency. The office to which the major responsibility is assigned shall be reported for liaison purposes to the National Archives and Records Service.

#### § 101–11.102–7 Biennial summary of records holdings.

Each Federal agency shall submit to the National Archives and Records Service within 30 days after the close of each even numbered fiscal year a summary of its records holdings on Standard Form 136 (§ 101–11.4901). Instructions for the preparation of the report are set forth on the form. The summary may be consolidated for the entire agency, or, if more practical, individual reports may be submitted for bureaus or comparable organizational units.

### § 101–11.103 Agency program evaluation.

#### § 101–11.103–1 Authority.

Section 505(c) of the Federal Records Act of 1950 (44 U.S.C. 395(c)) authorizes the Administrator of General Services to inspect or survey, personally or by deputy, the records of any Federal agency, as well as to make surveys of records management and records disposal practices in such agencies.

#### § 101–11.103–2 Evaluation by National Archives and Records Service.

Agency programs for controlling the creation, maintenance, and use of current records; for the selective retention of records of continuing value; and for the disposal of noncurrent records will be inspected periodically by the National Archives and Records Service. The objectives of these inspections are to:

(a) Determine agency compliance with the provisions of the Records Disposal Act and the Federal Records Act of 1950.

(b) Determine agency observance of the regulations set forth in this Subpart 101.11.1.

(c) Evaluate the effectiveness of agency records management programs.

#### § 101–11.103–3 Agency internal evaluation.

Each agency should periodically inspect their records management programs within the agency, with the frequency and depth permitted by the agency's resources. These inspections should have objectives similar to those listed in § 101–11.103–2, and should be designed to complement the inspections performed by the National Archives and Records Service. Criteria for agency self-inspection are available from the National Archives and Records Service.

## Subpart 101–11.2—Creation of Records

**§ 101–11.200 Scope of subpart.**

(a) Sections 505 and 506 of the Federal Records Act of 1950 (44 U.S.C. 395, 396) place upon the Administrator of General Services and the heads of Federal agencies responsibility for the development and implementation of standards and programs for the economical and efficient management of Federal records. Specifically, the Act requires that each Federal agency provide for effective controls over the creation of records, including the making of records containing adequate and proper documentation of agency administration and operations.

(b) Effective controls over records creation must encompass all types of records at all levels of organization, central office and field. Specifically, there are four types of records which require continuing attention. These types—correspondence, reports, forms, and directives—are common to all agencies. Generally these records are created on sheets of paper, but they may also appear on punch cards, film, tape, and other media.

**§ 101–11.201 General provisions.**

**§ 101–11.201–1 Agency action.**

(a) The head of each Federal agency, in meeting the requirements of section 506 of the Federal Records Act of 1950 for controlling the creation of records, is expected to observe the program responsibilities and standards set forth in this Subpart 101–11.2. These responsibilities and standards are basic to the Government-wide control of records creation; however, the application of the program responsibilities by individual agencies may be influenced by factors such as agency size, organization, mission, and paperwork activity.

(b) Each Federal agency is expected to:

(1) Assign to an office(s) of the agency the responsibility for the development and implementation of agencywide management programs for correspondence, reports, forms, and directives and for adequate and proper documentation. When organization arrangement, size, or complexity requires, actual control may be established at bureau, service, or office level. Programs at these control points will operate within the framework of the overall agency plan.

(2) Issue a directive(s) establishing program objectives, responsibilities, and authorities. A copy of each directive issued (and subsequent amendments or supplements) should be readily available for inspection by the National Archives and Records Service, GSA.

**§ 101–11.202 Adequate and proper documentation.**

**§ 101–11.202–1 Statutory responsibilities.**

(a) Section 505(a) of the Federal Records Act of 1950 (44 U.S.C. 395(a)) vests in the Administrator of General Services responsibility for developing and issuing standards to improve the management of records.

(b) Section 506(a) of the Federal Records Act of 1950 (44 U.S.C. 396(a)) requires that the head of each Federal agency "shall cause to be made and preserved records containing adequate and proper documentation of the organization, functions, policies, decisions, procedures, and essential transactions of the agency and designed to furnish the information necessary to protect the legal and financial rights of the Government and of persons directly affected by the agency's activities."

**§ 101–11.202–2 Documentation standards.**

To insure that adequate and proper records are made and preserved in the Federal Government, the following documentation standards will apply in each Federal agency:

(a) The record of the transaction of public business by any Federal official or employee is to be complete to the extent required (1) to facilitate informed action by the incumbents and their successors in office; (2) to make possible a proper scrutiny by the Congress, other duly authorized agencies of the Government, and other persons properly and directly concerned, of the manner in which public business has been discharged; and (3) to protect the financial, legal, and other rights of the Government and of persons affected by the Government's actions.

(b) With particular regard to the formulation and execution of basic Government policy, Federal officials are responsible for incorporating in the records of their agencies all essential information on their major actions. Significant decisions and commitments reached orally (person to person, by telephone, or in conference) should be reduced to writing and included in the record. Minutes should be taken at important board, committee, and staff meetings, and these, together with a copy of the agenda and all documents considered at or resulting from such meetings, should be made a part of the record.

(c) The programs, policies, and procedures of Federal agencies are to be adequately documented in appropriate directives. A record copy of each such directive (including those superseded) will be maintained as a part of the official files.

(d) Papers of a private or nonofficial character which pertain only to an individual's personal affairs that are kept in the office of a Federal official will be clearly designated by him as nonofficial and will at all times be filed separately from the official records of his office. In cases where matters requiring the transaction of official business are received in private personal correspondence, the portion of such correspondence that pertains to official business will be extracted and made a part of the official files (see § 101–11.406–6).

**§ 101–11.203 Creating records essential for current business.**

**§ 101–11.203–1 Statutory responsibilities.**

(a) Section 505(a) of the Federal Records Act of 1950 (44 U.S.C. 395(a)), vests in the Administrator of General Services responsibility for developing and issuing standards to improve the management of records and for promoting the efficient utilization of space, equipment, and supplies needed for records.

(b) Section 506(b) of the Federal Records Act of 1950 (44 U.S.C. 396(b) requires that the head of each Federal agency "shall establish and maintain an active, continuing program for the economical and efficient management of the records of the agency. Such program shall, among other things, provide for (1) effective controls over the creation * * * of records in the conduct of current business * * *" Correspondence, reports, forms, and directives are the principal types of records created on a current basis by Federal agencies.

**§ 101–11.203–2 General requirements.**

Positive action is to be taken to prevent the making of unnecessary records. Existing and proposed office procedures are to be subject to continuing examination by agency management with a view to determining their effect on record making. Where justified, such procedures will be revised, consolidated, or eliminated so as to keep record making to a necessary minimum. In addition, the detailed program requirements for correspondence, reports, forms, and directives management set forth in the following sections of this subpart are to be observed.

**§ 101–11.204 [Reserved]**

**§ 101–11.205 [Reserved]**

**§ 101–11.206 Correspondence—agency program responsibilities.**

**§ 101–11.206–1 Correspondence management function.**

The objectives of correspondence management are to limit correspondence to essential requirements, to improve the quality of necessary correspondence, and to provide for its creation in an economical and efficient manner.

**§ 101–11.206–2 Correspondence defined.**

Correspondence is a generic term including letters, form letters, telegrams, memorandums, endorsements, summary sheets, postal cards, memo routing slips, and other written communications.

**§ 101–11.206–3 Program requirements.**

(a) Each Federal agency, in providing for effective controls over the creation of records, is expected to establish an appropriate program for the management of agency correspondence (§ 101–11.201–1). The program will:

(1) Prescribe the types of correspondence to be used in official agency communications.

(2) Establish and implement agency standards concerning the number and kind of copies required, their distribution and purpose.

(3) Implement the correspondence standards set forth in the U.S. Government Correspondence Manual and in pertinent GSA Records Management Handbooks, with such modifications as may be necessary for specialized agency practices.

(4) Implement the Government-wide standards issued by GSA for the procurement and use of letterheads, manifold paper, memorandum forms, and envelopes.

(5) Review, on a continuing basis, agency correspondence practices and procedures to find opportunities for improvement and simplification.

(b) Standards, guides, and instructions developed for the agency correspondence management program are to be in published form, designed for easy reference and revision. They should be readily available to those who write, review, sign, type, and file correspondence.

**§ 101–11.206–4 Program implementation.**

The following actions are generally basic to a correspondence management program:

(a) Prepare only necessary correspondence and essential copies.

(b) Use form letters to the maximum extent possible following the standards, guides, and principles set forth in the GSA Records Management Handbook, Form Letters.

(c) Employ guide letters and paragraphs where practical, following the standards, guides, and principles set forth in the GSA Records Management Handbook, Guide Letters.

(d) Originate letters that are carefully planned, easily read and understood, and responsive to the needs of the recipient by applying the standards, guides, and principles set forth in the GSA Records Management Handbook, Plain Letters.

(e) Prepare correspondence that is consistent in style and format, neat and attractive in appearance, and editorially correct by applying the standards, guides, and principles set forth in the U.S. Government Correspondence Manual.

(f) Develop and implement procedures that expedite the clearance and handling of correspondence.

(g) Provide for periodic spotchecks of agency correspondence to determine compliance with standards.

**§ 101–11.207 Reports—agency program responsibilities.**

**§ 101–11.207–1 The reports management function.**

The primary objectives of reports management are to provide agency management officials with needed information at times and places, and in the format most useful to them, and to furnish this information as economically and efficiently as possible. The reports management function is also concerned with the review, approval, and clearance with the Bureau of the Budget of reporting plans and forms, as required by the Federal Reports Act (Bureau of the Budget Circular No. A–40, Revised, May 25, 1962).

**§ 101–11.207–2 Reports defined.**

(a) A report is data or information, generally summarized, transmitted for use in determining policy; planning, controlling, and evaluating operations and performance; and preparing other reports. The data or information may be in narrative, statistical, graphic, or other form.

(b) Most reports of an agency can be classified as belonging to one of several well defined families or groups of reports. Each group of related reports is generally the product of an information system serving a specific administrative or operational area, such as personnel, budget, or procurement. Consequently, the analysis of reports on a systems basis provides the best means of establishing reports relationships and evaluating information need and adequacy.

(c) Certain categories of reports normally are exempted from review and clearance in an agency reports management program. These usually include: inspection and audit reports; security classified documents; copies of operating documents such as individual supply and procurement transactions; and information presentations such as research findings, technical summaries, special studies, and surveys. Reports to be exempted should be determined by an analysis of agency information requirements.

(d) Reports to and from other agencies, as well as those for internal management, are included in agency review and clearance procedures.

**§ 101–11.207–3 Program requirements.**

(a) Each Federal agency, in providing for effective controls over the creation of records, is expected to establish an appropriate program for the management of agency reports (§ 101–11.201–1). The program will:

(1) Establish and implement standards and procedures for the identification of management information needed for planning and control.

(2) Establish and implement standards and procedures for the design of management information systems.

(3) Establish and implement standards and procedures for the initiation, identification, review, approval, preparation, and distribution of agency reports.

(4) Provide essential management information concerning the number and types of reports in use and, for reports which require a significant amount of manpower, the estimated cost of obtaining, using, and maintaining them.

(5) Provide for the periodic review of approved reports for need, adequacy, design, and economy of preparation and use.

(b) Standards, guides, and instructions developed for the reports management program are to be published, designed for easy reference and revision. They should be readily available to reports originators and users.

**§ 101–11.207–4 Program implementation.**

The following actions are generally basic to a reports management program:

(a) Establish and maintain an inventory of reports for each agency management information system.

(b) Determine, from the inventory of agency reports, whether information available is adequate for management purposes.

(c) Determine the kinds of management information systems that best serve management.

(d) Analyze all reports inventoried and all reports submitted for approval in the future to determine that:

(1) The information is adequate, necessary, meaningful, and useful.

(2) The information is obtained from the best available source and in the simplest manner.

(3) The estimated cost of gathering the information does not exceed its management value.

(e) Require that each request for a new or revised report explain how the report will be used.

(f) Require that each report be supported by a directive setting forth instructions for preparation and submission.

**§ 101–11.208 Forms—agency program responsibilities.**

**§ 101–11.208–1 The forms management function.**

The objectives of forms management are to increase the usefulness of forms through proper design and accurate using procedures; to reduce costs incident to filling in, using, and filing forms; and to achieve savings in designing, printing, storing, and distributing forms.

**§ 101–11.208–2 Forms defined.**

A form is any document, including letters, post cards, and memorandums, printed or otherwise reproduced with space for filling in information, descriptive material, or addresses. Certain printed items without fill-in space, such as contract provisions, instruction sheets, notices, tags, labels, and posters, may be considered as forms when it is advantageous to identify and control them as forms for purposes of reference, printing, stocking, distribution, and use with other forms.

**§ 101–11.208–3 Program requirements.**

(a) Each Federal agency, in providing for effective controls over the creation of records, is expected to establish an appropriate program for the management of agency forms (§ 101–11.201–1). The program will:

(1) Establish and implement standards and procedures for the submission, review, approval, and identification of agency forms.

(2) Implement the forms analysis and design standards set forth in pertinent GSA Records Management Handbooks.

(3) Establish and implement standards for the reproduction, stocking, and distribution of approved blank forms.

(4) Provide essential management information concerning the number, types, and the reproduction and stocking costs of forms in use.

(5) Provide for the periodic review of all approved forms for need and design, and for possible economies in reproduction, stocking, and distribution.

(b) Standards, guides, procedures, and instructions developed for the forms management program are to be in published form, designed for easy reference and review. They should be readily available to those who initiate, design, and approve forms.

**§ 101–11.208–4 Program implementation.**

The following actions are generally basic to a forms management program:

(a) Establish and maintain an inventory of all agency forms.

(b) Analyze all forms inventoried and all forms submitted for approval in the future in accordance with standards, guides, and principles set forth in the GSA Records Management Handbook, Forms Analysis.

(c) Review all forms inventoried and all forms prepared in the future for adequacy of design, maintaining the standards, guides, and principles set forth in the GSA Records Management Handbook, Forms Design.

(d) Assign a form number and edition date to each approved form.

(e) Review all requests for new forms and reprints of approved forms to determine that the forms are produced and made available quickly and cheaply. Specifically determine that:

(1) The most effective and economical methods of printing and distributing the form are employed, commensurate with required quality and intended use of the form.

(2) Proper and adequate inventory level standards have been established.

(3) The quantity of the form requested is compatible with procedural and inventory requirements.

(4) An acceptable distribution plan exists for making the form available when and where needed.

(f) Require that each form be supported by a directive setting forth instructions for preparing, submitting, and using. (Not applicable to self-explanatory forms used by a single organizational element such as an office, division, or region.)

(g) Require that each request for a new form justify the form's essentiality.

**§ 101–11.209 Directives—agency program responsibilities.**

**§ 101–11.209–1 The directives management function.**

The objectives of directives management are to facilitate agency administration and operations by providing the right employee with the right instructions; by producing instructions that are complete, easily understood, readily accessible, and revisable; and by developing and distributing instructions promptly and economically.

**§ 101–11.209–2 Directives defined.**

(a) A directive is a written communication which initiates or governs action, conduct, or procedure. Directives are usually printed as circulars, notices, regulations, orders, and handbooks, and include material for insertion in policy, administrative, and operations manuals.

(b) Certain materials normally are exempted from agency directives management programs. These include public information materials such as professional publications, news releases and announcements of programs, catalogs, and pricelists.

(c) Both internal and external directives are included in a directives management program.

**§ 101–11.209–3 Program requirements.**

(a) Each Federal agency, in providing for effective controls over the creation of records, is expected to establish an appropriate program for the management of agency directives (§ 101–11.201–1). The program will:

(1) Establish and maintain a system for the classification, codification, and supplementation of agency directives.

(2) Establish and implement standards and procedures for the initiation, preparation, review, approval, reproduction, and distribution of proposed agency directives.

(3) Establish and implement standards for the format and editorial style of agency directives.

(4) Review periodically the directives in the system for need and currency and to identify subject voids that should be filled by the origination of new directives.

(5) Review, on a continuing basis, the directives system to find opportunities for design and operational improvements.

(6) Maintain a collection of significant directives which document the organization, functions, policies, decisions, and procedures of the agency. This collection will be an integral part of agency documentation deserving permanent preservation. (See §§ 101–11.202(c) and 101–11.403.)

(b) Standards, guides, and instructions developed for the directives management program are to be in published form, designed for easy reference and revision. They should be readily available to those responsible for originating and approving directives.

**§ 101–11.209–4 Program implementation.**

The following actions are generally basic to a directives management program:

(a) Standardize the format, typography, organization, assembly, and distribution of agency directives. Specifically:

(1) Use 8" x 10½" page size as a norm.

(2) Use looseleaf pages for easy revision.

(3) Print on both sides of paper.

(4) Number and letter directives for easy page revision and supplementation.

(5) Identify temporary and permanent material by a feature that will readily distinguish one from another.

(6) Prepunch all pages—3-hole punch, ⅜" recommended.

(7) Restrict use of pen and ink changes.

(8) Distribute on a need-to-know and need-to-act basis.

(b) Analyze all directives proposed for inclusion in the system to determine that:

(1) The directive is necessary.

(2) No duplication, overlap, or conflict with other directives exists.

(3) The directive conforms with pertinent laws, Executive orders, regulations, and agency policy.

(4) Appropriate coordination and clearances have been completed.

(5) The proposed distribution includes appropriate using sources, but is limited to those who "need to know."

(c) Review all directives proposed for inclusion in the system for conformance with agency style, format, and editorial criteria.

No. 238——6

## *Subpart 101–11.3—Organization, Maintenance, and Use of Current Records*

**§ 101–11.301 General provisions.**

**§ 101–11.301–1 Authority.**

Section 506(b) of the Federal Records Act of 1950 (44 U.S.C. 396(b)) requires that the head of each Federal agency "shall establish and maintain an active continuing program for the economical and efficient management of the records of the agency. Such program shall, among other things, provide for (1) effective controls over the * * * maintenance and use of records in the conduct of current business; * * *".

**§ 101–11.301–2 Agency action.**

Each Federal agency is expected to:

(a) Assign to an office(s) of the agency the responsibility for the development and implementation of agencywide management programs for mail, files, and records equipment and supplies. When organization arrangement, size, or complexity requires, actual control may be established at bureau, service, or office level. Programs at these control points will operate within the framework of the overall agency plan.

(b) Issue a directive(s) establishing program objectives, responsibilities, and authorities. A copy of each directive (and subsequent amendments or supplements) should be readily available for inspection by the National Archives and Records Service, GSA.

**§ 101–11.302 [Reserved]**

**§ 101–11.303 [Reserved]**

**§ 101–11.304 Mail—agency program responsibilities.**

**§ 101–11.304–1 The mail management function.**

The objective of mail management is to provide rapid handling and accurate delivery of mail throughout the agency at minimum cost. To do this processing steps are kept to a necessary minimum; sound principles of work flow are applied; modern equipment, supplies, and devices are used; and, in general, operations are kept as simple as possible, so as to increase efficiency.

**§ 101–11.304–2 Mail defined.**

Mail consists of letters, telecommunications, memorandums, post cards, documents, packages, publications, and other communications received for distribution or dispatch.

**§ 101–11.304–3 Program requirements.**

(a) Each Federal agency, in providing for effective controls over the creation of records, is expected to establish an appropriate program for the management of agency mail (§ 101–11.301–2). The program will:

(1) Establish and implement standards and procedures for the receipt, delivery, collection, and dispatch of mail.

(2) Implement the mail management standards set forth in the GSA Records Management Handbook, Agency Mail Operations.

(3) Provide essential management information concerning the volume and types of mail processed and time requirements for internal delivery and mailing.

(4) Review, on a continuing basis, agency mail practices and procedures to find opportunities for improvement and simplification.

(b) Standards, guides, and instructions developed for the agency mail management program are to be in published form, designed for easy reference and revision. They should be readily available to those concerned with mail and messenger operations. In addition, pertinent information for users of mail and messenger services should be given the widest possible dissemination.

**§ 101–11.304–4 Program implementation.**

The following actions are generally basic to a mail management program:

(a) Deliver mail to the action office within shortest possible time after receipt. (Objective should be 4- to 6-hour delivery.)

(b) Establish realistic time limits for replying to White House and Congressional mail, and to public correspondence. Limit preparing letters of a purely acknowledgment nature to cases in which a considerable time may be needed for a substantive reply.

(c) Limit mail followup control to security mail or mail important because of its source or content.

(d) Make maximum and proper use of Post Office Department services and facilities.

(e) Develop and install procedures that expedite and limit mail clearance, reviews, and signing.

(f) Provide central control with established schedules for messenger services.

**§ 101–11.305 Files—agency program responsibilities.**

**§ 101–11.305–1 The files management function.**

The objectives of files management are to organize agency files so that needed records can be found rapidly, complete records are ensured, the selection and retention of records of archival value are facilitated, and the disposition of noncurrent records is accomplished promptly. All services are to be performed with maximum economy in personnel, equipment, and supplies.

**§ 101–11.305–2 Files defined.**

A file is basically a paper or folder of papers, but the term is used to denote papers, photographs, photographic copies, maps, or other recorded information regardless of physical form or characteristics, accumulated or maintained in filing equipment, boxes, or on shelves, and occupying office or storage space. Stocks of publications and blank forms are excluded.

**§ 101–11.305–3 Program requirements.**

(a) Each Federal agency, in providing for effective controls over the creation of records, is expected to establish an appropriate program for the management of agency files (§ 101–11.301–2). The program will:

(1) Establish and implement standards and procedures for:

(i) Classifying, indexing, and filing records.

(ii) Providing reference services to filed records.

(iii) Locating active files to facilitate agency use of records.

(2) Implement the files classification, operations, and placement standards set forth in pertinent GSA Records Management Handbooks.

(3) Review the program periodically to determine the adequacy of the system and its effectiveness in meeting requests.

(b) Standards, guides, and instructions developed for the files management program are to be in published form, designed for easy reference and revision. They should be readily available to all employees concerned with files operations. In addition, pertinent information for users of files and reference services should be given the widest possible dissemination.

**§ 101–11.305–4 Program implementation.**

The following actions are generally basic to a files management program:

(a) Standardize classification and filing schemes to:

(1) Achieve maximum uniformity and ease in maintaining and using agency records.

(2) Facilitate disposal of records in accordance with applicable records disposal schedules.

(3) Facilitate possible later consolidation of identical type files presently maintained at different locations.

(b) Formally authorize official file locations. Prohibit the maintenance of files at other than authorized locations.

(c) Standardize reference service procedures to facilitate the finding, chargeout, and refiling of agency records.

(d) File accumulations of papers received at file locations on a daily basis.

(e) Standardize, to the maximum extent possible, the equipment and supplies used in filing and reference service operations. Use standard items stocked by the Federal Supply Service.

(f) Audit periodically a representative sample of the files for duplication, misclassification, or misfiles.

**§ 101–11.306 Records equipment and supplies—agency program responsibilities.**

**§ 101–11.306–1 Managing records equipment and supplies.**

The objectives of a records equipment and supplies management program are to ensure that equipment and supplies necessary and suitable to agency records operations, procedurally and economically, are available and are put to proper use. Modern equipment and supplies are now manufactured in a wide variety of types which, in most instances, are designed for special uses. Competent advice should be continuously available

to assure that the correct item is obtained for a given purpose.

**§ 101–11.306–2 Records equipment and supplies defined.**

Equipment and supplies include file cabinets, shelf files, visible files, mechanized files, file guides, folders, jackets, wallets, and similar items used in the creation and maintenance of records and in mail handling. A program for managing equipment and supplies may also cover desk-top office machines, dictating and recording equipment, and data recording equipment.

**§ 101–11.306–3 Program requirements.**

(a) Each Federal agency, in providing for effective controls over the creation of records, is expected to establish an appropriate program for the management of agency records equipment and supplies (§ 101–301–2). The program will:

(1) Establish and implement standards and procedures for:

(i) Standardization of records equipment and supplies used by the agency.

(ii) Submission, review, and approval of requests for the purchase of records equipment and supplies.

(iii) Proper utilization of presently owned records equipment.

(2) Review, on a continuing basis, the utilization of records equipment to ensure adequate and proper application.

(3) Provide for a continuing review of new developments in the field of records equipment and supplies and their possible application to agency records systems.

(b) Standards, guides, and instructions for managing records equipment and supplies are to be in published form, designed for easy reference and revision. They should be readily available to program officials responsible for operations using records equipment and supplies.

**§ 101–11.306–4 Program implementation.**

The following actions are generally basic to a records equipment and supplies management program:

(a) Minimize equipment and supplies needs by providing for prompt disposition of records. Reduce or eliminate the need for additional equipment by freeing equipment on hand for reuse.

(b) Use, to the maximum extent possible, standard items listed in GSA Stores Stock Catalog and Federal Supply Schedules. Prohibit the purchase of nonstandard items unless justification for exception is submitted and approved.

(c) Review requests for purchase of equipment and supplies to determine essentiality and usability.

(d) Review use of currently owned and rented equipment to determine that it is essential, suitable, properly utilized and maintained, and updated as required.

(e) Analyze record keeping procedures and techniques to determine if requirements for equipment and supplies are realistic and if requirements can be reduced or eliminated through improved or changed procedures or techniques.

## Subpart 101–11.4—Disposition of Federal Records

**§ 101–11.401 Records control schedules.**

**§ 101–11.401–1 Records scheduling programs.**

A records scheduling program is essential to promote a prompt and orderly reduction in the quantity of records in each Federal agency in accordance with the provisions of section 505(a) and 506 (b) of the Federal Records Act of 1950 (44 U.S.C. 395(a), 396(b)) and the Records Disposal Act (44 U.S.C. 366).

**§ 101–11.401–2 Basic elements in records scheduling programs.**

Three basic elements are present in a records scheduling program:

(a) The taking of a complete inventory of the records in the custody of the agency.

(b) The formulation of policy as to the disposition of each type or series of records and its statement in the form of a records control schedule.

(c) The application of the records control schedule to effect the elimination or removal of records.

**§ 101–11.401–3 Formulation of records control schedules.**

The following steps shall be taken in the development of records control schedules:

(a) Each Federal agency shall compile a records control schedule for all major groups of records in its custody having importance in terms of content, bulk, or space and equipment occupied. For all Federal agencies in existence on June 30, 1964 (other than the judiciary, for which special arrangements will be made), such records control schedules shall be completed by June 30, 1965. For all Federal agencies created after June 30, 1964, such schedules shall be completed within one year after the creation of the agency.

(b) Schedules shall clearly identify and describe the series of records covered, and shall contain instructions that, when approved, can be readily applied. Schedules must be readily adaptable to use along organizational lines, so that each office will have standing instructions for the disposition of records in its custody.

(c) All schedules shall take into account the actual filing arrangements in existence, so that disposition of records can be physically accomplished in the largest blocks possible.

(d) Nonrecord materials, such as extra copies of documents preserved for convenience of reference, stocks of processed documents, preliminary worksheets, and similar papers that need not be made a matter of record, shall not be incorporated in the official files of the agency. To the maximum extent possible, material not required for record purposes shall be disposed of; it should not be sent to file. In cases where transitory files of such materials are established and maintained in filing equipment, such files shall be controlled by means of instructions in the records control schedule.

(e) Schedules shall be reviewed at least once annually to effect changes necessary to maintain their current status.

**§ 101–11.401–4 Provisions of records control schedules.**

Records control schedules shall provide for:

(a) The disposal after minimum retention periods of those records not having sufficient value to justify their further retention. Procedures for obtaining disposal authorization are prescribed in §§ 101–11.404 and 101–11.406.

(b) The removal to a Federal Records Center (or to an agency records center approved under the provisions of § 101–11.412) of those records which cannot be disposed of immediately but which need not be maintained in office space and equipment. Such records will be maintained by the records center pending their transfer or disposal.

(c) The retention as current records in office space and equipment of the minimum volume of records consistent with efficient operation.

**§ 101–11.401–5 Application of records control schedules.**

The head of each Federal agency shall take necessary action to obtain the application of records control schedules to provide for the maximum economy of space, equipment, and personnel. Two copies of each directive or other issuance (including the text of schedules as

issued) affecting the agency's records disposition program at the division or higher organizational level shall be transmitted to the National Archives and Records Service upon its promulgation.

**§ 101–11.402 [Reserved]**

**§ 101–11.403 Standards for the selective retention of records.**

**§ 101–11.403–1 Authority.**

Section 506(a) of the Federal Records Act of 1950 (44 U.S.C. 396(a)) requires the head of each Federal agency to have "made and preserved records containing adequate and proper documentation of the organization, functions, policies, decisions, procedures, and essential transactions of the agency." Section 505(b) of this Act (44 U.S.C. 395(b)) directs the Administrator to establish standards for the selective retention of those records having continuing value, and to "assist Federal agencies in applying such standards to records in their custody."

**§ 101–11.403–2 Records retention and disposal standards.**

The following standards govern the retention and disposal of agency records:

(a) *Records control schedules.* These disposition schedules, developed by each Federal agency for all records in its custody as provided by § 101–11.401, designate classes of records of continuing value identified in the records retention plans. The schedules also specify retention periods for records not of continuing value. Formulation and application of these schedules, to provide for the orderly retirement and reduction of records in each agency, is mandatory as provided by § 101–11.401–3.

(b) *General records schedules.* The schedules, issued by the Administrator, govern the retention and disposal of certain types of records common to all agencies. The schedules are permissive as provided by § 101–11.404.

(c) *Records retention plans.* A separate plan for each agency or subdivision thereof governs the selective retention of records of continuing value. The plans, which are developed by the National Archives and Records Service in cooperation with the agency, are integral parts of agency programs for records retention and disposal as provided for by § 101–11.403–3.

**§ 101–11.403–3 Permanently valuable records retention program.**

In an agency program to select permanently valuable records, the following four basic elements are present:

(a) The taking of a complete inventory of records in the custody of the agency as provided by § 101–11.401.

(b) The development by the National Archives and Records Service in cooperation with the agency, of a records retention plan designating the permanently valuable classes of records arising from agency functions.

(c) The identification by the agency of the specific records or segments of files allocated to the classes specified for retention by the plan developed by the National Archives and Records Service.

(d) The orderly maintenance and segregation by the agency of the records identified under paragraph (c) of this section.

**§ 101–11.403–4 Application of records retention plans.**

Pursuant to the authority cited in § 101–11.403–1:

(a) The National Archives and Records Service will furnish agencies with records retention plans as rapidly as they are developed.

(b) Within 6 months after receipt of a plan, an agency will revise its records control schedules in accordance with the provisions of the plan to assure that all records designated in the plan are retained and periodically transferred to the National Archives or to a Federal Records Center, as appropriate.

(c) Until such time as an agency's records retention plan is prepared, existing records control schedules remain in effect.

(d) Records retention plans are to be reviewed annually by the agency, in order to recommend necessary changes to the National Archives and Records Service.

(e) The National Archives and Records Service will conduct periodic inspections to assure that the provisions of § 101–11.403–3(d) are being carried out (§ 101–11.103).

**§ 101–11.404 General retention and disposal schedules.**

**§ 101–11.404–1 Authority.**

(a) Section 505(b) of the Federal Records Act of 1950 (44 U.S.C. 395(b)) directs the Administrator of General Services to establish standards for the selective retention of records of continuing value.

(b) Section 15 of the Records Disposal Act (44 U.S.C. 380) prescribes that no records of the United States Government shall be alienated or destroyed except in accordance with the provisions of the Act.

(c) Section 4 of the Records Disposal Act (44 U.S.C. 369) authorizes the Administrator of General Services to submit to the Congress schedules proposing the disposal, after the lapse of specified periods of time, of records of a specified form or character common to several or all agencies that either have accumulated or may accumulate in such agencies and that apparently will not, after the lapse of the periods specified, have sufficient administrative, legal, research, or other value to warrant their further preservation by the United States Government. (For other schedules for submission to the Congress, see § 101–11.406.)

(d) These General Records Schedules, when reported upon favorably by the Joint Committee on Disposition of Executive Papers, constitute authority to dispose of the records included therein. Agencies may apply this authority subject to approval of the Comptroller General of the United States when required by section 9 of the Records Disposal Act (44 U.S.C. 374). Such common records disposal authority is permissive and not mandatory. Provisions of the General Records Schedules may be applied to records in the custody of the Archivist of the United States at his discretion. Agencies desiring authority to dispose of records covered by such schedules after different periods of time than the periods set forth in the General Records Schedules shall make request therefor in the manner prescribed by § 101–11.406. In addition, since the staff agencies involved have approved the standards embodied in these schedules, such requests shall be supported by an explanation of the basis for the shorter retention period proposed.

**§ 101–11.404–2 Approved general records schedules.**

The General Records Schedules governing the retention and disposal of the following types of records common to several or all agencies, and instructions for using the schedules, are available at the Office of Federal Records Centers, National Archives and Records Service, GSA. All new schedules, as they are prepared, will be distributed by GSA Bulletins issued and signed by the Archivist of the United States.

(a) Schedule 1, Civilian Personnel Records.

(b) Schedule 2, Payrolling and Pay Administration Records.

(c) Schedule 3, Procurement and Supply Records.

(d) Schedule 4, Property Disposal Records.

(e) Schedule 5, Budget Preparation, Presentation, and Apportionment Records.

(f) Schedule 6, Accountable Officers' Accounts.

(g) Schedule 7, Expenditure Accounting Records.

(h) Schedule 8, Stores, Plant and Cost Accounting Records.

(i) Schedule 9, Travel and Transportation Records.

(j) Schedule 10, Motor Vehicle Maintenance and Operation Records.

(k) Schedule 11, Space and Maintenance Records.

(l) Schedule 12, Communications Records.

(m) Schedule 13, Printing, Binding, Duplication and Distribution Records.

(n) Schedule 14, Informational Services Records.

(o) Schedule 15, Housing Records.

(p) Schedule 16, Administrative Management Records.

(q) Schedule 17, Cartographic, Photogrammetric, and Related Records.

(r) Schedule 18, Security and Protective Service Records.

(s) Schedule 19, Research and Development Records.

**§ 101–11.405 [Reserved]**

**§ 101–11.406 Agency disposal authority.**

**§ 101–11.406–1 Authority.**

Section 15 of the Records Disposal Act (44 U.S.C. 380) prescribes that no

records of the United States Government shall be alienated or destroyed except in accordance with the provisions of the Act. It further requires the Administrator of General Services to establish procedures to be followed by Federal agencies in compiling and submitting lists and schedules of records proposed for disposal.

**§ 101–11.406–2 Submission of disposal requests.**

Requests for authorization to dispose of records shall be initiated by Federal agencies by submitting records disposal lists or schedules to the National Archives and Records Service on Standard Forms 115 and 115a, Continuation Sheet, as revised (§§ 101–11.4902 through 101–11.4904). Standard Form 115 may be used for submitting either a list or schedule, by checking either A or B, respectively, under entry 6. Authority contained in an approved list is limited to records already in existence and should be used only when records of the types described are no longer accumulating. A schedule gives continuing authorization, and will be used in all cases where the types of records described in the request will continue to accumulate.

**§ 101–11.406–3 Certification.**

The signing of Standard Form 115 by a properly authorized agency representative shall constitute certification that the records described do not have, or will not have after the expiration of the retention period indicated, sufficient administrative, legal, or fiscal value to the agency itself to warrant further retention. Appraisal by the National Archives and Records Service will be limited to review for possible value to other agencies of the Government, and for research or historical value.

**§ 101–11.406–4 General Accounting Office clearance.**

Each Federal agency shall obtain the approval of the Comptroller General of the United States, as required by section 9 of the Records Disposal Act (44 U.S.C. 374), for the disposal of certain classes of records relating to claims and demands by or against the Government or to accounts in which the Government is concerned. Such approval shall be obtained either prior to or concurrently with the submission of the disposal request to the National Archives and Records Service.

**§ 101–11.406–5 Approval of requests for disposal authority.**

After review by the National Archives and Records Service, the request, with the Archivist's recommendation, is transmitted to the Congress as required by the Records Disposal Act. If the Joint Committee on Disposition of Executive Papers makes a favorable report on the request, the Archivist shall notify the agency thereof by returning one copy of completed Standard Form 115. This constitutes the disposal authorization, which is mandatory. (For extension of retention periods or withdrawal of disposal authority, see §§ 101–11.406–7, 101–11.406–8.) Such authorized disposal shall be accomplished as prescribed in § 101–11.408.

**§ 101–11.406–6 Mutilation and destruction of records.**

(a) Sections 505(b) and 506(f) of the Federal Records Act of 1950 (44 U.S.C. 395(b), 396(f)) impose upon the Administrator of General Services and the heads of Federal agencies responsibilities for preventing the unlawful removal, defacing, alteration, or destruction of records.

(b) The penalties for the willful and unlawful destruction, damage, or alienation of Federal records are contained in the U.S. Criminal Code (18 U.S.C. 2071).

(c) Private files are not governed by these provisions.

**§ 101–11.406–7 Extension of retention periods.**

Pursuant to section 505(f) of the Federal Records Act of 1950 (44 U.S.C. 395(f)), in cases of emergency or when it is in the interest of economy, the head of a Federal agency may retain records authorized by Congress for disposal after the specified retention period. When records are so retained, a copy of the directive directing such retention shall be furnished to the Administrator and such records shall be disposed of as soon as is administratively practicable.

**§ 101–11.406–8 Withdrawal of disposal authority.**

In cases of emergency or when it is in the interest of efficiency of Government operations, GSA pursuant to section 505(f) of the Federal Records Act of 1950 (44 U.S.C. 395(f)), will withdraw disposal authorizations contained in disposal schedules approved by the Congress. Such withdrawal may apply to particular items on schedules submitted by agencies, or may apply to all existing authorizations for the disposal of a specified type of record obtained by any or all agencies of the Government. If the withdrawal is applicable to only one agency, that agency will be notified of such action by letter signed by the Archivist of the United States; if applicable to more than one agency, notification may be by GSA Bulletin issued and signed by the Archivist of the United States.

**§ 101–11.406–9 Supersession of disposal authority.**

Disposal authorizations contained in disposal schedules approved by the Congress are automatically superseded by Congressional approval of a later schedule applicable to the same records, unless the later schedule specifically provides that both the earlier and later schedules shall be applicable, at the agency's discretion.

**§ 101–11.407 Emergency authorization for the disposal of records.**

**§ 101–11.407–1 General provisions.**

Under certain conditions, records may be disposed of without regard to the provisions of § 101–11.406.

**§ 101–11.407–2 Menaces to human health or life or to property.**

(a) Section 10 of the Records Disposal Act (44 U.S.C. 375) authorizes disposal whenever it is determined that records constitute a continuing menace to human health or life or to property. Whenever the head of an agency has determined that records constitute such a menace, he shall notify the National Archives and Records Service, specifying the nature of the records, their location and quantity, and the nature of the menace. If the National Archives and Records Service concurs in the determination, the immediate removal of the menace by the destruction of the records or by other appropriate means will be directed. However, if the determination is with respect to still or motion picture film on nitrocellulose base that has deteriorated to the extent described in paragraph (b) of this section, the head of the agency may follow the procedures therein provided.

(b) Whenever any radar scope, aerial, or other still or motion picture film on nitrocellulose base has deteriorated to the extent that it is soft, is emitting a noxious odor, contains gas bubbles, or has retrograded into an acrid powder, and the head of the agency having custody of it determines that it constitutes a menace to human health or life or to property, he may cause such menace to be eliminated immediately by—

(1) Arranging for its destruction in a manner that will salvage its silver content;

(2) Burning, in the event the quantity is not sufficiently large to justify the salvaging of its silver content; or

(3) Other appropriate methods in the event that the methods provided in subparagraph (1) or (2) of this paragraph are not feasible.

(c) Such films should be removed from inhabited buildings as soon as possible.

(d) Those to be burned should be submerged in water-filled drums and conveyed to a remote spot, approved by fire authorities, for burning. Preferably, only one reel should be burned at a time, but in no event should more than 25 pounds be burned at the same time. The rapid production of gases by burning film makes it extremely dangerous, particularly if burned in a furnace or other confined space. Within thirty days after the destruction of the film as provided in this section, the head of the agency who directed its destruction shall submit a written statement to the National Archives and Records Service describing the film and showing when, where, and in what manner the destruction was accomplished.

**§ 101–11.407–3 State of war or threatened war.**

(a) Section 11 of the Records Disposal Act (44 U.S.C. 376) authorizes the destruction of records outside the territorial limits of the continental United States whenever, during the existence of a state of war between the United States and any other nation or when hostile action by a foreign power appears immi-

nent, the head of the agency that has custody of the records determines that their retention would be prejudicial to the interests of the United States, or that they occupy space urgently needed for military purposes and are without sufficient value to warrant continued preservation.

(b) Within 6 months after the disposal of any records under this authorization, a written statement describing the character of the records and showing when and where the disposal was accomplished shall be submitted to the National Archives and Records Service by the agency official who directed the disposal.

**§ 101–11.408 Methods of disposal.**

**§ 101–11.408–1 Authority.**

Under the provisions of section 15 of the Records Disposal Act (44 U.S.C. 380), Federal agencies are required to follow regulations issued by the Administrator of General Services governing the methods for use in disposing of records. Only the methods set forth in this § 101–11.408 shall be used.

**§ 101–11.408–2 Sale or salvage.**

Paper records to be disposed of shall normally be sold as wastepaper. If the records are security classified, their disposal is governed by the provisions of Executive Order 10501 of November 5, 1953 (3 CFR) as amended. If the records are privileged, that is, if laws or regulations forbid their use by the public, the wastepaper contractor shall be required to pulp, macerate, or shred them. The contracting officer shall name a Federal employee to witness the disposal. For all other records the contract for sale shall prohibit their resale or use as records or documents. Records other than paper records (film, plastic recordings, etc.) may be salvaged or sold in the same manner and under the same conditions as paper records. All sales shall be in accordance with the established procedures for the sale of surplus personal property.

**§ 101–11.408–3 Donation for preservation and use.**

(a) Whenever the public interest will be served thereby, a Federal agency may, at its discretion, transfer records authorized for disposal to an eligible government (including a foreign government), organization, institution, corporation, or person that has made application for them, provided, (1) the applicant agrees not to sell the records as records or documents, (2) the transfer is made without cost to the U.S. Government, (3) no transfer shall be approved if the records contain information the revelation of which is prohibited by law or would be contrary to the public interest, (4) no transfer to a foreign government shall be approved unless such government has an official interest in the records, and (5) no transfer to a person or commercial business shall be approved unless the records are directly pertinent to the custody or operation of properties acquired from the Government.

(b) Each donation of records under this authority shall be reported to GSA, National Archives and Records Service, Washington, D.C. 20408. This report shall contain:

(1) The name of the department or agency and the name of the major and minor subdivision thereof concerned.

(2) The name and address of the recipient of the records.

(3) A list of the records containing (i) an identification by series of the records transferred; (ii) the inclusive dates of each series; and (iii) the National Archives and Records Service job and item numbers of the disposal authorizations as indicated on Standard Form 115, Request for Authority to Dispose of Records (§ 101–11.4902), or other disposal authority.

**§ 101–11.408–4 Destruction.**

If the records cannot advantageously be sold or otherwise salvaged, the records may be destroyed by burning or pulping.

**§ 101–11.409 Transfer of records from the custody of one executive agency to another.**

**§ 101–11.409–1 Authority.**

Section 505(e) of the Federal Records Act of 1950 (44 U.S.C. 395(e)) provides that, subject to applicable provisions of law, the Administrator of General Services shall issue regulations governing the transfer of records from the custody of one executive agency to that of another.

**§ 101–11.409–2 Approval.**

No records shall be transferred from one executive agency to the custody of another without the prior written approval of the National Archives and Records Service except as provided in § 101–11.409–9.

**§ 101–11.409–3 Agency request.**

The head of any executive agency may request the transfer of records to or from his agency. Approval shall be requested by letter addressed to the National Archives and Records Service, in which are included:

(a) A concise description of the records to be transferred, including the volume in cubic feet.

(b) A statement of the restrictions imposed on the use of records.

(c) A statement of the number of reference requests per month made on the records, with information as to the agencies and persons using the records and the purpose of such use.

(d) A statement of the number of persons, if any, assigned to the administration of the records.

(e) A statement of the current and proposed physical and organizational locations of the records.

(f) Information as to why the proposed transfer is in the best interests of the Government.

(g) A justification for the transfer of records more than 5 years old.

**§ 101–11.409–4 Agency concurrences.**

Copies of the concurrence or nonconcurrence in the transfer by the heads of any agencies concerned shall be attached to the agency request.

**§ 101–11.409–5 Records of terminated agencies.**

Transfers of records of executive agencies whose functions are terminated or are in process of liquidation are expressly subject to this Subpart 101–11.4 and no such transfers shall be made except in accordance with its provisions.

**§ 101–11.409–6 Equipment.**

Records storage equipment shall be transferred with the records contained therein in accordance with arrangements previously agreed to by the agencies concerned.

**§ 101–11.409–7 Costs of transfers.**

Approved transfers shall be made without reimbursement to the agency of original custody for any cost involved, except when such reimbursement is previously agreed to by the agencies concerned.

**§ 101–11.409–8 Restrictions on use of records.**

Whenever any records that are transferred are subject to restrictions upon their use, imposed pursuant to statute, Executive order, or agency determination, such restrictions shall continue in effect after the transfer. Restrictions imposed by agency determination may be removed by agreement between the agencies concerned.

**§ 101–11.409–9 Exceptions.**

Prior written approval of the National Archives and Records Service is not required:

(a) When records are transferred to the Federal Records Centers or the National Archives in accordance with §§ 101–11.410 and 101–11.411.

(b) When records are loaned for official use.

(c) When the transfer of records or functions or both is required by statute, Executive order, or Presidential reorganization plan, or by specific determinations made thereunder.

**§ 101–11.410 Transfer of records to Federal Records Centers.**

**§ 101–11.410–1 Authority.**

Section 505(d) of the Federal Records Act of 1950 (44 U.S.C. 395(d)) authorizes the Administrator of General Services to establish, maintain, and operate records centers for the storage, processing, and servicing of records for Federal agencies. Such centers are known as Federal Records Centers. A list of their locations and the areas served is set forth in this § 101–11.410–1. In addition, a Military Personnel Records Center is maintained for designated records of the Department of Defense.

GSA FEDERAL RECORDS CENTERS

NOTE: Certain records are transferred to designated centers for the convenience of administration and reference. The records to be centralized are listed in the agencies' directives for transfer to the designated center.

**§ 101–11.410–2 Procedures for transfers to regional Federal Records Centers.**

Procedures governing the transfer of records to Federal Records Centers are set forth in this § 101–11.410. They also appear in detail in the Administration's Records Management Handbook, "Federal Records Centers."

(a) Regional Federal Records Centers will accept for transfer any records offered by Federal agencies, subject to the following conditions:

(1) That the records are not authorized for immediate disposal and that transportation costs are not in excess of the resulting savings, and

(2) That facilities for storing and providing reference service on the records are available.

(b) Priority will be given to the removal of records from office space, from space convertible to office use, from leased space, and from filing equipment which can be reused.

(c) Transfers may be initiated by either oral or written request to the manager of the Federal Records Center in GSA region in which the records are located. Requests shall specify the nature and quantity of the records proposed for transfer.

(d) Transfers of records on an agency-wide basis may be initiated by central or headquarters offices of agencies by either oral or written request to the National Archives and Records Service, Office of Federal Records Centers, National Archives Building, Washington, D.C. 20408. Requests shall specify the nature and quantity of the records proposed for transfer.

(e) Transfers to the Federal Records Center in Alexandria, Va., shall be accompanied by Standard Form 135, Records Transmittal and Receipt (§ 101–11.4907), and Standard Form 135A continuation sheet (§ 101–11.4908), in quadruplicate. Transfers to all other regional Federal Records Centers shall be accompanied by these forms in triplicate. When feasible, records should be transferred in standard corrugated boxes used by the Centers.

(f) Regional Federal Records Centers will furnish agencies with a receipt acknowledging the transfer of records by returning to the transferring agency a signed copy of the standard form required by paragraph (e) of this section. The returned copy will serve as a future aid in requesting reference service, as it will be annotated with the numbers of the Federal Records Center containers in which the records are stored.

**§ 101–11.410–3 Procedures for transfer to the Federal Records Center, St. Louis.**

General Records Schedules 1 and 2 specify that certain civilian personnel and pay records shall be centralized at the Federal Records Center at St. Louis, Mo.

(a) The following three types of records are so specified:

(1) Official personnel folders of separated employees;

(2) Service record cards of separated or transferred employees; and

(3) Audited individual earnings and service cards and comprehensive payrolls.

(b) Official personnel folders should be transferred to the Center by transmittal letter specifying the number of folders and the month and year of separation of employees. Receipts will not be furnished for official personnel folders or loose papers intended for inclusion in such folders.

(c) Loose papers being prepared for transfer for inclusion in official personnel folders previously sent to the Center shall be screened of temporary material, as defined in the Federal Personnel Manual, and only the papers prescribed as permanent and essential for inclusion in each individual's folder shall be forwarded. A separate copy of Standard Form 127, Request for Official Personnel Folder (Separated Employee) (§ 101–11.4906), shall be used to transmit the papers for each individual. In preparing the copy of Standard Form 127, the entries shall be completed in blocks, 2, 4, 5, and 6c, and the date of separation shall be entered in block 5 thereof.

(d) Transfer of fiscal records shall be accompanied by Standard Form 135, Records Transmittal and Receipt (§ 101–11.4907), in triplicate. When feasible, records shall be transferred in standard corrugated boxes used by the Federal Records Centers.

(e) Standard Form 127, Request for Official Personnel Folder (Separated Employee) (§ 101–11.4906) shall be used by agencies in requesting transmission of personnel records of separated employees from the Center. Use of this form insures prompt transmission of the desired folders. It should be submitted to the Center in duplicate. A memorandum in lieu of Standard Form 127 should be used to request information from the folders.

**§ 101–11.410–4 Vital operating records.**

The Administration has established a single, centrally located depository suitable for the storage and protection of records described in Subpart 101–11.7. The depository is accessible to rail, motor, and air transportation. It has temperature and humidity controls allowing the safe storage of both paper records and film. Agencies may make arrangements through GSA, National Archives and Records Service, Office of Federal Records Centers, The National Archives Building, Washington, D.C. 20408, for the transfer of indispensable records to this depository and for their use.

**§ 101–11.410–5 Surveys of records available for transfer.**

The GSA regional National Archives and Records Service will conduct surveys of the records accumulations of field offices of those agencies not operating approved records centers for the purpose of recommending records for transfer to Federal Records Centers. Such recommendations will be submitted to the field office concerned and to the National Archives and Records Service, Central Office, for coordination with the appropriate agency headquarters. Surveys of records of agency headquarters normally will be made by the National Archives and Records Service, Central Office.

**§ 101–11.410–6 Release of equipment.**

File equipment received with the transfer of records to a Federal Records Center will normally be disposed of in accordance with applicable excess personal property regulations. An agency desiring return of the equipment should make such request prior to transfer of the records to Federal Records Centers.

**§ 101–11.410–7 Use of records transferred to Federal Records Centers.**

Restrictions lawfully imposed on the use of transferred records will be observed and enforced by all Federal Records Centers, subject to the provisions of section 507(b) of the Federal Records Act of 1950 (44 U.S.C. 397(b)). The regulations in this Part 101–11, insofar as they concern the use of records in the Federal Records Centers, apply to official use of the records by Federal agencies as well as to the public. Subject to any restrictions on their use, such records may be borrowed by Federal agencies and the Congress for official use outside the Federal Records Centers. Although no special form is needed to make written requests for Center reference service, agencies wishing to do so may use Optional Form No. 11, Reference Request—Federal Records Centers (§ 101–11.4910).

**§ 101–11.410–8 Disposal clearances.**

Records at the St. Louis Federal Records Center, authorized for disposal by General Records Schedules Numbers 1 and 2, will be destroyed in accordance with these schedules without further agency clearance. No other records of a Federal agency still in existence will be disposed of by any Federal Records Center except with the concurrence of the agency concerned. Agency approval will be requested for each disposal action by use of GSA Form 439, Report of Disposition of Records (§ 101–11.4909), or its authorized equivalent, unless prior written concurrence has been given by the agency concerned.

**§ 101–11.411 Transfer of records to the National Archives.**

**§ 101–11.411–1 Authority.**

The Administrator of General Services is authorized by section 507(a) of the Federal Records Act of 1950 (44 U.S.C. 397(a)) to accept for deposit with the National Archives of the United States the records of any Federal agency or of the Congress of the United States that are determined by the Archivist to have sufficient historical or other value to warrant their continued preservation by the United States Government.

**§ 101–11.411–2 Transfers via Records Centers.**

Records will normally be transferred to the National Archives from a Federal Records Center or an approved agency records center. When such transfers are made, the agencies concerned will be furnished an inventory of the records transferred.

**§ 101–11.411–3 Direct transfers.**

The classes of Federal records listed in this § 101–11.411–3 may be offered for direct transfer to the National Archives. Such transfers shall be initiated by Federal agencies by written request to the National Archives and Records Service, specifying the nature and quantity of the records proposed for transfer. Existing arrangements for the transfer of records of the Congress of the United States will be continued.

(a) Records of the Executive Office of the President and of Presidential boards, commissions and committees.

(b) Records of the Congress of the United States.

(c) Records of the Supreme Court of the United States.

(d) Audiovisual records (motion pictures, still photographs, sound recordings, etc.).

(e) Cartographic records (maps, charts, etc.).

(f) Series of records of unquestionable value that are not susceptible to screening or other processing (such as microfilming) to reduce their bulk.

(g) Records that have been in existence 25 or more years and that are considered to have enduring value.

**§ 101–11.411–4 Release of equipment.**

Equipment received with the transfer of records to the National Archives will, when emptied and if needed, be returned on request to the agency from which the records were received. If the return of such equipment is not required, it will be disposed of in accordance with applicable excess property regulations.

**§ 101–11.411–5 Use of records transferred to the National Archives.**

(a) Restrictions lawfully imposed on the use of transferred records will be observed and enforced by the National Archives and Records Service, subject to the provisions of section 507(b) of the Federal Records Act of 1950 (44 U.S.C. 397(b)). The regulations in this Part 101–11, insofar as they concern the use of records in the search rooms of the National Archives Building, apply to official use of the records by Federal agencies as well as to the public.

(b) In cases of demonstrated need and subject to any restrictions on their use records deposited with the National Archives may be borrowed for official use outside the National Archives Building by Federal agencies and the Congress, provided:

(1) Documents of exceptionally intrinsic value shall not be removed from the National Archives Building except with the written approval of the Archivist.

(2) Records in fragile condition, or otherwise deteriorated to an extent that further handling will endanger them, will not be loaned.

(3) Each official who borrows records shall provide a receipt for them at the time they are delivered, and that he shall assume responsibility for their prompt return upon the expiration of the time for which they are borrowed.

**§ 101–11.411–6 Disposal clearances.**

No records of a Federal agency still in existence shall be disposed of by the National Archives and Records Service except with the concurrence of the agency concerned.

**§ 101–11.411–7 Transfer of audiovisual records.**

The following policies shall govern the transfer of audiovisual records to the National Archives:

(a) *Motion pictures.* Government-owned motion picture records on nitrocellulose film normally will not be accepted for deposit with the National Archives. Federal agencies having nitrate motion pictures, deemed to have sufficient value to warrant transfer to the National Archives for permanent preservation, will obtain from the National Archives and Records Service agreement to accession the motion pictures prior to converting the nitrate film to safety acetate film. Normally, the following shall be considered the minimum number of copies of motion picture film necessary for security, duplication, and use by the National Archives: The negative (original or duplicate) that most nearly represents the action originally photographed in pictures of actual events, or that best represents the edited production of a picture for which action is staged, with a master positive print and one "use" or projection print. In most cases these will be the negative after laboratory cutting is done, or the composite negative of sound film, the master fine-grain positive print, and one other print.

(b) *Still photographs.* A negative and a captioned print (whether on film, glass, paper, or other medium) of each still photographic image are necessary for security, duplication, and use by the National Archives, and such copies, when available, shall be included in collections of still photographs offered for transfer.

(c) *Sound recordings.* The following copies, when available, shall be included in collections of sound recordings offered for transfer to the National Archives:

(1) For conventional disc recordings, the matrix or stamper of each sound recording unit or the original instantaneous recording if no matrix or stamper is made, and a pressing or dubbing of the recording, if one has been made.

(2) For magnetic sound recordings on wire or tape, for scribed or embossed recordings on tape, or for recordings photographically reproduced on sensitized film, a "dubbing" if one has been made; otherwise the original magnetic embossed or photographed recording.

(d) *Finding aids.* Copies of existing finding aids (such as data sheets, continuities, review sheets, scripts, or indexes) that are necessary or helpful in the proper identification and the use of audiovisual records shall be transferred with these materials.

**§ 101–11.411–8 Transfer of cartographic records.**

The following classes of cartographic records when no longer needed for purposes of current administration will be offered for appraisal and, if accepted, for direct transfer to the National Archives.

(a) Manuscript maps; printed and processed maps on which manuscript changes, additions, or annotations have been made for record purposes, or which bear manuscript signatures to indicate official approval; single printed or processed maps that have been attached to or interfiled with other documents of a record character or in any way made an integral part of a record.

(b) Master sets of printed or processed maps in the custody of the agency by which they were issued. Such master sets should be kept segregated from the stock of maps held for distribution and from maps received from other agencies. A master set should include one copy of each edition of a printed or processed map issued.

(c) Index maps, card indexes, lists, catalogs, or other finding aids that may be helpful in using the cartographic records transferred.

(d) Preliminary or intermediate materials such as manuscript field notebooks of surveys, triangulation and other computations, "fair drawings" for individual color plates, and aerial photographs for mapping purposes.

(e) Related records that bear on the preparation, compilation, editing, or printing of maps, such as projects folders containing specifications to be followed and appraisals of source materials to be used.

**§ 101–11.412 Agency records centers; establishment.**

**§ 101–11.412–1 Authority.**

Section 506(c) of the Federal Records Act of 1950 (44 U.S.C. 396(c)) authorizes Federal agencies to maintain and operate records centers for the storage, processing, and servicing of records that are appropriate therefor, when such centers are approved by the Administrator of General Services. Such centers operated by Federal agencies are referred to in this § 101–11.412 as "agency records centers."

**§ 101–11.412–2 Existing records centers.**

Agency records centers in operation as of the date of this Part 101–11 are provisionally approved, pending their inspection by GSA.

**§ 101–11.412–3 Requests for authority to establish or relocate records centers.**

No agency records center shall be established or relocated from one city to another without the prior written approval of GSA.

(a) *Exclusions.* For purposes of this § 101–11.412 the term "agency records center" excludes:

(1) Staging areas containing less than 5,000 square feet of space used by agencies for the temporary storage of materials preparatory to their transfer to a records center or other disposition; provided that no records are held in the staging area in excess of 5 years.

(2) Areas of less than 5,000 square feet used solely for the storage of records to which occasional reference is made but on which no processing activity (screening, microfilming, etc.) is performed.

(b) *Content of requests.* Requests for authority to establish or relocate an agency records center shall be submitted in writing to the Administrator of General Services. Such requests shall specify:

(1) Proposed location of the agency records center.

(2) Space to be occupied in gross square feet.

(3) Nature and quantity of records to be stored.

(4) Total personnel to be employed.

(5) Justification of the proposed center.

(c) *Approval of requests.* Requests for the establishment or relocation of an agency records center will be approved by the Administrator of General Services when greater economy or efficiency can be achieved through its operation than by use of a Federal Records Center operated by GSA.

**§ 101–11.412–4 Annual agency records center report.**

Each Federal agency operating one or more agency records centers shall submit to the National Archives and Records Service, within 60 days after the close of each fiscal year, a report on Standard Form 137 (§ 101–11.4905), for each center.

## Subpart 101–11.5 [Reserved]

## Subpart 101–11.6—Records Equipment and Supplies

**§ 101–11.601 [Reserved]**

**§ 101–11.602 [Reserved]**

**§ 101–11.603 Stationery standards.**

**§ 101–11.603–1 General provisions.**

This § 101–11.603 prescribes the standards for the specifications and use of blank and printed papers and mailing envelopes used by executive agencies for official Government correspondence. Standards are also prescribed for the United States Government Memorandum, Messenger Envelope, and Memorandum of Call. The standards are mandatory unless approval for exception is obtained from GSA. Nothing in these standards shall be construed as superseding in any manner the provisions of "Government Paper Specification Standards" issued by the Joint Committee on Printing.

**§ 101–11.603–2 Standard specifications.**

A Table of Standard Specifications prescribes the color, size, and quality of paper and color of ink for stationery used for Government correspondence, as follows:

TABLE OF STANDARD SPECIFICATIONS

| Item | Color | | Size | Qualities of paper shall not exceed | |
|---|---|---|---|---|---|
| | Paper | Printing | | Grade | Substance [1] |
| STATIONERY | | | | | |
| Letterhead stationery | White | Black or blue | 8″ x 10½″<br>or<br>8″ x 7″<br>8″ x 5¼″ | 50 percent rag<br>or<br>25 percent rag | 32<br>40 |
| Continuation sheets | White | None | 8″ x 10½″ | 50 percent rag<br>or<br>25 percent rag | 32<br>40 |
| Manifold (tissue) sheets containing letterhead. | White | Black or blue | 8″ x 10½″ | 25 percent rag | 18 |
| Memorandum stationery | White or blue | Black | 8″ x 10½″<br>or<br>8″ x 7″<br>8″ x 5¼″ | CW (writing)<br>or<br>25 percent rag | 40<br>32 |
| Continuation sheets | White or blue | None | 8″ x 10½″ | CW (writing)<br>or<br>25 percent rag | 40<br>32 |
| Manifold (tissue) sheets not containing letterhead. | White [2] | None | 8″ x 10½″ | 25 percent rag | 18 |
| FORMS | | | | | |
| United States Government Memorandum (Optional Form 10). | White | Black | 8″ x 10½″<br>8″ x 5¼″ | CW (writing) | 40 |
| Memorandum of call (S.F. 63 (pads)). | At discretion of GPO | | 4″ x 5¼″ | At discretion of GPO | |
| Messenger envelope (S.F. 65) | Brown | Dark brown | 9½″ x 12″<br>12″ x 16″ | Kraft | 100 |

[1] Substance weight is pounds per 1000 sheets, 17″ x 22″.
[2] Other colors may be used pursuant to par. 3(d) but quality shall not exceed 25 percent rag—Sub. 18.

**§ 101–11.603–3 Letterhead stationery.**

Letterhead stationery is used in formal correspondence where a quality paper identifying the agency is needed. The style and format for letterhead stationery may be selected by the ordering agency provided they meet the standard specifications in § 101–11.603–2 and the printing requirements of the Government Printing and Binding Regulations.

**§ 101–11.603–4 Memorandum stationery.**

Memorandum stationery is on paper of less expensive quality and easily distinguishable from letterhead stationery. It is to be used, when suitable, for informal intra-agency and interagency communications, including agency-numbered forms and form letters. It is also used for correspondence with State and local government agencies in the administration of cooperative programs, and for other informal correspondence. It will be used where Optional Form 10, United States Government Memorandum (§ 101–11.4912), will not adequately serve agency needs. (See § 101–11.603–11.) Memorandum stationery shall contain the masthead "United States Government Memorandum" at the top left half of the sheet (§ 101–11.4911). Printing of the agency name is optional; when included, the name shall be in the space indicated at the top right. If needed, multiple-address communications and designated fill-in spaces may be arranged and printed on memorandum stationery for transmittal and reference. The form may be designed for multiple-address communications and use in window envelopes.

**§ 101–11.603–5 Continuation sheets.**

Continuation sheets, for use with either letterhead or memorandum stationery, shall bear no printing.

**§ 101–11.603–6 Manifold (tissue) sheets.**

Manifold sheets, commonly called tissues, are for use in making carbon copies. Tissues containing printed letterheads are for use in making carbon copies that are sent outside the agency when identification of the agency is necessary. The printing shall be in the same format and ink color as used on letterheads. Tissues used for internal copies of correspondence, including continuation sheets, shall contain no printing. Distinctive colors may be used for internal reference file purposes.

**§ 101–11.603–7 [Reserved]**

**§ 101–11.603–8 Envelopes (printing).**

Agency identification or address, the penalty or postage and fees paid clause, and the designation "official business" shall be printed in either black or blue ink.

**§ 101–11.603–9 Envelopes; borders, markings, etc.**

Borders, markings, slogans, or designs shall not be printed on mailing envelopes except when specifically approved by GSA and in conformity with postal laws and regulations. As a general policy, both to reduce costs and to prevent undue publicizing of some activities of the Government in contrast to others, the use of borders, markings, slogans, or designs to support an agency or its program shall not be authorized in any form, whether printed, stamped, or otherwise affixed.

**§ 101–11.603–10 Procurement forms.**

The optional and standard forms prescribed in §§ 101–11.603–11—101–11.603–14 shall be procured from the Federal Supply Service, GSA. Existing stocks of old Standard Forms 63, 64, and 65 and Optional Form 10 shall be used until supplies are exhausted.

**§ 101–11.603–11 Optional Form 10, United States Government Memorandum, May 1962.**

This form is designed to facilitate informal intra- or interagency correspondence, including correspondence with State and local government agencies in the administration of cooperative programs. It provides designated spaces for the insertion of names or identification of addressee and sender along with description of subject matter and date, following the format of discontinued Standard Form 64. Optional Form 10 is printed without agency name. It is intended for use by those agencies whose needs are met by a simple format and whose requirements, if any, for the agency name or special fill-in data on memorandum stationery do not justify a special printing. (See § 101–11.4912.)

**§ 101–11.603–12 Standard Form 63, Memorandum of Call, Nov. 1961.**

This form serves as notification of an incoming telephone call or of a visitor when the person called or visited is not available. It also is used in referring a visitor to an appropriate person. (See § 101–11.4913.)

**§ 101–11.603–13 Standard Form 65, U.S. Government Messenger Envelope, Nov. 1961.**

This form is for repetitive use in transmitting communications and printed matter between offices within the same city. Consecutive spaces are provided for inserting the name and address for the current transmittal. The "Stop" number space is used primarily in the Washington, D.C., area but may be used elsewhere, if appropriate. (See § 101–11.4914.)

§ 101–11.603–14 Optional Form 27, United States Government 2-Way Memo.

This form is a 3-part snap-out set with interleaved carbon for informal communications. The message and reply are placed on the same page in brief informal language. It can be sent and returned in a window envelope, if an envelope is necessary. Each packet of 100 forms is accompanied by "Guides to Simplified Informal Correspondence." (See §§ 101–11.4915 and 101–11.4916.)

## Subpart 101–11.7—Vital Records: Records During an Emergency

§ 101–11.701 Emergency preparedness program; vital records protection status report.

§ 101–11.701–1 Purpose.

This § 101–11.701 provides for reporting the status of Federal agency emergency preparedness programs for the selection and protection of vital operating records.

§ 101–11.701–2 Authority.

Executive Order No. 11093 of February 26, 1963 (28 F.R. 1851; 3 CFR 1959–1963 Comp.), assigns certain emergency preparedness functions to the Administrator of General Services, including the providing of instructions on the appraisal, selection, and preservation of essential records. The Office of Emergency Planning, in accordance with that agency's responsibilities prescribed in Executive Order No. 11051 of September 27, 1962 (27 F.R. 9683; 3 CFR 1959–1963 Comp.), has reviewed and approved the requirements set forth in this Subpart 101–11.7.

§ 101–11.701–3 Background.

(a) *Reporting requirements.* The original reporting requirements for vital operating records protection programs were set forth in Bureau of the Budget Bulletins No. 51–14, May 22, 1951, and No. 52–5, September 6, 1951. These bulletins were rescinded on March 23, 1954, when they were replaced by the Office of Defense Mobilization's non-Military Defense Program Memorandum VI–2. Program Memorandum X–1, issued by ODM on December 23, 1954, further defined the reporting requirements originally set forth in non-Military Defense Program Memorandum VI–2. Memorandum X–1 rescinded by the Office of Emergency Planning on June 25, 1964, was the basis for the semiannual agency reports on vital records programs since 1954.

(b) *Protection criteria and guides.* The GSA Records Management Handbook, Protecting Vital Operating Records, presents the basic assumptions and mechanics for protecting vital records.

§ 101–11.701–4 Forms.

The report is in two parts. Part I will be prepared on GSA Form 2034, Vital Records Protection Status Report (Part I—Emergency Operating Records) and Part II will be prepared on GSA Form 2035,Vital Records Protection Status Report (Part II—Rights and Interests Records). (See §§ 101–11.4917 and 101–11.4918.)

§ 101–11.701–5 Definitions.

(a) The following definitions are pertinent to preparation of the report:

(1) Emergency operating records are records vital to the essential functions of the Federal Government for the duration of an emergency if the country is attacked. Such records include those necessary to the military effort; the mobilization and protection of material and manpower resources, of services, and of systems; the maintenance of public health, safety, and order; and the conduct of essential civil defense activities. These records must be available as needed at or in the vicinity of emergency operating centers.

(2) Rights and interests records are records essential to the preservation of the legal rights and interests of individual citizens and their Government. These records include such groups as Social Security records, retirement records, payroll records, insurance records, and valuable research records. These records require protection, but storage points do not have to be at or in the vicinity of emergency operating centers. The determination as to whether a given type of record is vital and which category it fits is often a difficult decision to make.

(b) GSA Records Management Handbook entitled "Protecting Vital Operating Records" provides further clarification of the two categories of records.

§ 101–11.701–6 Preparing offices and coverage.

(a) All departments and agencies will submit both Parts I and II of the report.

(b) A report is required for each individual vital records program. Generally, this means that each bureau, service, or office of a department or large agency will prepare a report. Where separate and distinct programs exist for regional or field offices, reports will be submitted for these programs as well as for headquarters programs. If the department or agency operates a centralized program covering all organizational elements, only one report is required.

(c) Each report will be complete in itself and will supersede the previous report.

(d) The description of records called for on both parts of the report should adequately portray the type of records involved. The description should be more definitive than a merely broad category such as "Administrative." It should not, on the other hand, list every individual record or form. Generally, the entry will be a file or series having a similarity in arrangement, physical type, or substantive relationship to subject or activity.

(e) A department or agency may consider that a particular type of record falls into both the emergency operating and the rights and interests categories. These records should be listed on both Parts I and II of the report and be cross-referenced.

(f) All reports for a department or agency will be transmitted as a package together. No overall summary will be prepared for the agency.

§ 101–11.701–7 Security.

A detailed description of the records and their locations are considered a security matter; hence, the reports should be classified "Confidential" unless the information referred to warrants a higher classification.

§ 101–11.701–8 Reporting periods and due dates.

(a) Reports will be submitted annually, as of June 30, and will be due 10 workdays thereafter.

(b) A special advisory report also will be prepared and submitted whenever there is a change in the location of the records or whenever a significant change occurs in the status of the program or in the type of records protected. These reports will be submitted as soon as possible after such changes occur. Only that portion of the report form applicable to the change need be filled out.

§ 101–11.701–9 Copies and distribution.

All reports will be submitted in duplicate to the:

General Services Administration,
National Archives and Records Service,
Office of Federal Records Centers,
Washington, D.C. 20408.

§ 101–11.701–10 Availability of forms.

The reporting forms illustrated in (§§ 101–11.4917 and 101–11.4918) are available from GSA Region 3, Office of Regional Manpower and Administration, ORFA, Printing and Publications Division, Washington, D.C. 20407.

## Subpart 101–11.49—Forms and Reports

§ 101–11.4900 Scope of subpart.

This Subpart 101–11.49 contains forms and reports used in connection with the regulations on records management prescribed in this Part 101–11.

NOTE: Forms in §§ 101–11.4901—101–11.4919 filed as part of the original document. Copies may be obtained from Central Office, GSA.

§ 101–11.4901 Standard Form 136: Biennial Summary of Records Holdings.

§ 101–11.4902 Standard Form 115: Request for Authority to Dispose of Records.

§ 101–11.4903 Standard Form 115a: Request for Authority to Dispose of Records—Continuation Sheet.

§ 101–11.4904 Instructions for Preparing Standard Forms 115 and 115a.

§ 101–11.4905 Standard Form 137: Agency Records Center Annual Report.

§ 101–11.4906 Standard Form 127: Request for Official Personnel Folder (Separated Employee).

§ 101–11.4907 Standard Form 135: Records Transmittal and Receipt.

§ 101–11.4908 Standard Form 135a: Records Transmittal and Receipt—(Continuation).

§ 101–11.4909 GSA Form 439: Report of Disposition of Records.

§ 101–11.4910 Optional Form 11: Reference Request—Federal Records Centers.

§ 101–11.4911 GSA Form 10: United States Government Memorandum.

§ 101–11.4912 Optional Form 10: United States Government Memorandum.

§ 101–11.4913 Standard Form 63: Memorandum of Call.

§ 101–11.4914 Standard Form 65: U.S. Government Messenger Envelope.

§ 101–11.4915 Optional Form 27: United States Government 2-Way Memo.

§ 101–11.4916 "Guides to Simplified Informal Correspondence".

§ 101–11.4917 GSA Form 2034: Vital Records Protection Status Report (Part I—Emergency Operating Records).

§ 101–11.4918 GSA Form 2035: Vital Records Protection Status Report (Part II—Rights and Interests Records).

§ 101–11.4919 Instructions for preparing GSA Forms 2034 and 2035.

wise directed by the Administrator, respectfully decline to produce such records on the ground that he is without authority under this Part 101-12 to do so.

(d) The General Counsel and, with respect to records in a GSA regional office, the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

## PART 101-13 [RESERVED]

*Effective date.* These regulations are effective December 22, 1964.

Dated: November 30, 1964.

LAWSON B. KNOTT, JR.,
*Acting Administrator of General Services.*

[F.R. Doc. 64-12413; Filed, Dec. 7, 1964; 8:45 a.m.]

## PART 101-12—CURRENT RECORDS OF THE GENERAL SERVICES ADMINISTRATION

Subpart 101-12.1—Availability of Current Records of the General Services Administration

Sec.
101-12.100 Scope of subpart.
101-12.101 General provisions.
101-12.101-1 Definitions.
101-12.101-2 Legal custody.
101-12.101-3 Policy.
101-12.101-4 Requests.
101-12.101-5 Authentication and attestation of copies; costs.
101-12.101-6 Service of subpoena or other legal demand; compliance.

AUTHORITY: The provisions of this Part 101-12 issued under sec. 205(c), 63 Stat. 390, 40 U.S.C. 486(c).

### Subpart 101-12.1—Availability of Current Records of the General Services Administration

**§ 101-12.100 Scope of subpart.**

The provisions of this subpart apply to records of GSA located in the operational offices of GSA which are needed to transact the current business of GSA.

**§ 101-12.101 General provisions.**

**§ 101-12.101-1 Definitions.**

As used in this subpart, unless the context otherwise requires:

(a) The term "current records" means records as defined in section 1 of the Records Disposal Act (44 U.S.C. 366) which are located in the operational offices of GSA and are needed to transact the current business of GSA. This does not include GSA records stored in Federal record centers or the National Archives.

**§ 101-12.101-2 Legal custody.**

The Administrator of General Services has legal custody of all current records located in the operational offices of GSA.

**§ 101-12.101-3 Policy.**

Current records of GSA will be made available to persons properly and directly concerned, except records relating solely to internal management or otherwise requiring nondisclosure in the public interest.

**§ 101-12.101-4 Requests.**

(a) Requests for access to such records shall be addressed in writing to the head of the service or staff office whose records are involved, or his superiors, or if the records are in a GSA regional office, to the head of the regional service or staff office concerned, or his superiors.

(b) The request shall (1) explain why the applicant believes he is properly and directly concerned and (2) identify as exactly as may be the particular documents desired.

(c) Such official or the Administrator of General Services will judge each request on its specific merits, taking into account the applicant's concern, the records sought, and the public interest.

(d) If a request is denied, a brief statement of reasons will be furnished the applicant.

**§ 101-12.101-5 Authentication and attestation of copies; costs.**

The head of the service or staff office whose records are involved, or his superiors, or if the records are in a GSA regional office, the head of the regional service or staff office concerned, or his superiors, are authorized to authenticate and attest, for and in the name of the Administrator of General Services, copies or reproductions of GSA current records. Such copies or reproductions will be furnished in appropriate cases upon payment of costs.

**§ 101-12.101-6 Service of subpoena or other legal demand; compliance.**

(a) A subpoena duces tecum or other legal demand for the production of current records of GSA may be served on the Administrator of General Services or the head of the service or staff office whose records are involved, or if such records are in a GSA regional office, on the Regional Administrator or the head of the regional service or staff office concerned.

(b) Such served official will, so far as legally practicable, comply with the subpoena or demand by submitting authenticated copies of the records, or the original records if necessary, unless he or the Administrator of General Services determines that disclosure of the information contained therein is contrary to law, Executive order, or other governing restriction or would prejudice the national interest or security.

(c) When such subpoena or demand is served on any other officer or employee of GSA, except the General Counsel or Regional Counsel, he will, unless otherwise directed by the Administrator, respectfully decline to produce such records on the ground that he is without authority under this Part 101-12 to do so.

(d) The General Counsel and, with respect to records in a GSA regional office, the Regional Counsel are authorized to accept service of a subpoena duces tecum or other legal demand on behalf of the officials designated in paragraph (a) of this section.

# Title 13—BUSINESS CREDIT AND ASSISTANCE

## Chapter I—Small Business Administration

[Amdt. 11 (Rev. 2)]

## PART 107—SMALL BUSINESS INVESTMENT COMPANIES

### Miscellaneous Amendments

Pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, Public Law 85-699, 72 Stat. 694, as amended, there is amended, as set forth below, Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, as revised in 27 F.R. 9743-9754, and amended in 28 F.R. 681, 1627, 3021, 10868, 12250 and 29 F.R. 5223, 7144, 10499, 12109, and 29 F.R. 14221, by amending §§ 107.704 and 107.713 and adding a new § 107.650.

*Information and effective date.* On October 17, 1964, notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 14369) concerning (1) the amendment of §§ 107.704 and 107.713 to authorize two or more Licensees whose paid-in capital and paid-in surplus (excluding organizational expenses) do not in the aggregate exceed $800,000 to employ, with prior SBA approval, common general managers, and (2) the addition of a new § 107.650 dealing with commitments.

After due and careful consideration of the comments and expression of views received with respect to these proposals, the Administration has determined to adopt the formal amendments, set forth below, as being in furtherance of the best interest of the SBIC program.

Because of the necessity of promptly applying these amendments to the program authorized under the Small Business Investment Act of 1958, they shall become effective upon publication in the FEDERAL REGISTER.

The Regulations Governing Small Business Investment Companies are hereby amended as follows:

1. By deleting paragraph (c)(5) of § 107.704, *Activities of Licensee*, in its entirety, and substituting a new paragraph (c)(5). As amended, § 107.704 (c)(5) reads as follows:

**§ 107.704 Activities of Licensee.**

* * * * * * *

(c) * * *

(5) Without the prior written consent of SBA, a Licensee shall not have an officer or a director who at the same time is either an officer or director of any other Licensee, nor shall 10 or more percent of the stock of any Licensee be owned or controlled, directly or indirectly, by an officer or director of, or by any party owning or controlling, directly or indirectly, 10 or more percent of the stock of another Licensee, with the following exceptions:

(i) *Attorneys.* An attorney performing legal services for Licensees may serve as secretary or clerk for more than one Licensee; and

(ii) *Common Managers.* Subject to prior SBA approval, two or more Licensees, may employ an individual or a non-Licensee concern to serve as their common general manager. The aggregate paid-in capital and paid-in surplus from private sources of such Licensees shall not exceed $800,000, unless it is demonstrated to the satisfaction of SBA that a greater amount will better serve the interests of the SBIC program. An individual serving as manager shall be deemed an officer of each Licensee for all purposes of SBA Regulations. Notwithstanding the provisions of § 107.708 (b), at least 50 percent of the total amount of joint financing participated in by Licensees under common management during any fiscal year shall consist of loans or equity investments of $150,000 or less.

The revision of §§ 107.704 and 107.713, as finalized in the formal amendments published herewith, incorporates the text of the proposal published on October 17, 1964, with regard to employment of common general managers, except for the following changes: (1) The first sentence of subdivision (ii) of § 107.704(c)(5), which would have restricted applicability of the amendment to two or more Licensees "having paid-in capital and paid-in surplus from private sources aggregating not more than $800,000 (exclusive of organization expense)", has been revised so that the reference to aggregate capitalization has been deleted and, in lieu thereof, a new second sentence has been added: "The aggregate paid-in capital and paid-in surplus from private sources of such Licensees shall not exceed $800,000, unless it is demonstrated to the satisfaction of SBA that a greater amount will better serve the interests of the SBIC program"; and (2) the statement in subdivision (ii) that an individual serving as common manager shall be deemed an officer of each Licensee "for the purposes of these Regulations" has been revised to read, "for all purposes of SBA Regulations".

In several instances, textual changes were necessarily made in proposed § 107.650 and were incorporated as part of the formal amendment, set forth below, regulating commitments; for example, the words "in accordance with the conditions of the commitment" have been added to paragraph (b) of § 107.650 immediately following the phrase "* * * disbursement of the whole or any part thereof to be made on the request of such concern." Paragraph (c) dealing with stock options and warrants issued by a small concern to a Licensee entering into a commitment to provide it with financing, has been revised so that the Licensee's privilege of acquiring options or warrants up to 25 percent of the undisbursed portion of the commitment-obligation is no longer limited to 5-year commitments: "Where a Licensee enters into a commitment to provide financing to a small business concern, and the financing agreement calls for the issuance of stock options or warrants, it shall be lawful for the Licensee to acquire such stock options or warrants on or after the date of the commitment (1) up to the full amount of any funds disbursed and (2) up to 25 percent of the undisbursed portion of any commitment obligation. Such 25 percent amount shall, for the purposes of § 107.501(k), be deemed to constitute equity capital provided by the Licensee."

The proposed employment agreement submitted for SBA approval shall set forth relevant particulars pertaining to the identity and qualifications of the manager, the basis of compensation, effective period of employment, and such other factors bearing on the transaction as may assist SBA in determining whether approval would be consonant with the purposes of the Act. The agreement shall include adequate provision requiring the manager to refer each potential loan or investment to all Licensees of the group and afford them equal opportunity to participate in or otherwise provide the necessary financing.

2. By adding a new § 107.650 reading as follows:

**§ 107.650 Commitments.**

(a) *General.* A Licensee is authorized to enter into a loan commitment or a commitment to furnish equity financing to a small business concern. A reasonable commitment fee may be charged.

(b) *Repayment period as to funds advanced pursuant to 5-year commitment.* Where a Licensee enters into a 5-year commitment to finance an eligible small business concern up to a stipulated maximum amount, disbursement of the whole or any part thereof to be made on the request of such concern in accordance with the conditions of the commitment, it shall be lawful (notwithstanding the maturity provisions of §§ 107.501 and 107.601) to provide for repayment as follows:

(1) Any funds advanced during the first two years may have a common maturity date coinciding with the termination date of the commitment; and

(2) Any funds subsequently advanced during the commitment period may be for a period of three years from respective dates of disbursement.

Repayment of each advance made shall not be required at an annual average rate in excess of the principal amount thereof divided by the number of years of the applicable repayment period.

(c) *Stock options and warrants.* Where a Licensee enters into a commitment to provide financing to a small business concern, and the financing agreement calls for the issuance of stock options or warrants, it shall be lawful for the Licensee to acquire such stock options or warrants on or after the date of the commitment: (1) Up to the full amount of any funds disbursed and (2) up to 25 percent of the undisbursed portion of any commitment obligation. Such 25 percent amount shall, for the purposes of § 107.501(k), be deemed to constitute equity capital provided by the Licensee.

3. By deleting § 107.713 in its entirety and substituting a new § 107.713. As amended, § 107.713 reads as follows:

§ 107.713 **Common Tenancy.**

(a) **A Licensee shall not establish or maintain an office or place of doing business which is located in the same physical premises or place of business of any other Licensee. A Licensee shall not have a common private entrance or a private connecting door or entrance with any other Licensee. Nothing contained herein shall prevent two or more Licensees from occupying space in the same office building.**

(b) **Licensees employing a common general manager pursuant to § 107.704 (c) (5) may apply to SBA for an exemption from the provisions of this section.**

Dated: December 4, 1964.

EUGENE P. FOLEY,
*Administrator.*

# Title 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

[Docket No. C-859]

## PART 13—PROHIBITED TRADE PRACTICES

### American Education Society, Inc., and Noel N. Marder

Subpart—Advertising falsely or misleadingly: § *13.15 Business status, advantages, or connections:* 13.15–125 Individual being corporation: 13.15–125(m) Educational or research institution; 13.15–235 Producer status of dealer: 13.15–235 (p) Publisher, printer, etc. Subpart—Misrepresenting oneself and goods—Business Status, Advantages or Connections: § *13.1450 Individual or private business as educational, religious;* § *13.1530 Producer status of dealer:* Misrepresenting oneself and goods—Goods: § *13.1663 Individual's special selection or situation;* § *13.1740 Scientific or other relevant facts:* § *13.1747 Special or limited offers;* § *13.1757 Surveys.* Misrepresenting oneself and goods—Prices: § *13.1825 Usual as reduced or to be increased.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, American Education Society, Inc., et al., Yonkers, N.Y., Docket C-859, Nov. 19, 1964]

Consent order requiring Yonkers, N.Y., sellers of books including the "Universal World Reference Encyclopedia" through door-to-door salesmen whom they supplied with printed sales presentations for use in soliciting purchase of their books by church members whose names were obtained under their "Church Lead" program, to cease making to such prospects, through their said sales representatives such false claims as that the salesmen were calling at the suggestion of the pastor or other church representative or organization, that they were conducting a survey, that prospects were specially selected, that prices at which books were offered were special introductory or reduced, that college scholarships were available to purchasers of books, that they donated monies to the establishment of such scholarships, and that they were publishers of the books they offered; and to cease representing falsely by use of their corporate name or otherwise, that they were a society of educators.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

*It is ordered,* That respondent American Education Society, Inc., a corporation, and its officers, and respondent Noel N. Marder, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of encyclopedias or other books or publications, or any other articles of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That the respondents' sales representatives are calling on prospective customers at the suggestion, recommendation, instructions or under other sponsorship of the prospective customer's pastor or any other person or organization, other than respondents unless respondents establish that such is the fact, and, in immediate conjunction with any representation respecting pastoral or other ascribed suggestion, recommendation, instruction, sponsorship, a full, truthful and nondeceptive disclosure is made to prospective purchasers of the amount and type of any consideration theretofore and thereafter to be accorded for such suggestion, recommendation, instruction or sponsorship.

2. That respondents' sales representatives or sales agents or employees are engaged in conducting a survey or research or that the purpose of the call or interview by respondents' sales representatives or sales agents relates to other than the sale of books, merchandise or services; or that any other of respondents' representatives or agents are engaged in conducting a survey or research unless respondents establish that such is the fact.

3. That respondents are publishers of the Universal World Reference Encyclopedia; or representing, directly or by implication, that respondents are publishers of, or have compiled or prepared, any other book or publication offered for sale by them unless respondents establish that such is the fact.

4. That prospective purchasers of respondents' merchandise have been specially selected: *Provided, however,* That nothing herein shall prohibit respondents from making a full truthful and nondeceptive statement of the reasons why such prospect is being solicited and stating when such is the case, that a prospect's name was obtained from a designated person or organization and that respondents' sales solicitation has been inspired by information respecting the prospect's race and his financial ability to purchase respondents' merchandise.

5. That any price at which respondents' books are offered for sale is a special introductory price or a reduced price, unless respondents establish that it is less than the price to which the respondents in good faith expected to increase the price at a later date; or that the price at which the books are offered for sale is a price which is lower than the genuine former price at which the said books were actually sold; or is lower than the bona fide price at which the said books were offered to the public on a regular basis for a substantial period of time.

6. That respondents or respondents' agents, representatives or employees are representatives of, or are sent to call on prospective customers by, or are offering respondents' books pursuant to the suggestion of, the "Council of Christian Education".

7. That scholarship funds and scholarship programs have been established in the churches of prospective customers, or that by purchasing respondents' books, the children of the prospect or other children will be able to secure a college education, unless respondents establish that such is the fact.

8. That respondents donate to scholarship funds and scholarship programs the monies which they would otherwise expend in advertising and promoting their books; and

*It is further ordered,* That respondent American Education Society, Inc., a corporation, and its officers, and respondent Noel N. Marder, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of encyclopedias or other books or publications, or any other articles of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Using the corporate name "American Education Society, Inc." or any other name of similar import to designate or refer to respondents' business, or otherwise representing that their business is a society of educators.

*It is further ordered,* That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: November 19, 1964.

By the Commission.

[SEAL] JOSEPH W. SHEA,
*Secretary.*

### MONTANA

### Restoring Land to Tribal Ownership of Confederated Salish and Kootenai Tribes of the Flathead Indian Reservation

Whereas, pursuant to authority contained in the Act of June 21, 1906 (34 Stat. 354), certain townsites and villa sites were established within the Flathead Indian Reservation, Montana, and

Whereas, the records show that no disposition has been made of Lot 3, Block 19, Townsite of Camas, and

Whereas, the Tribal Council and the Commissioner of Indian Affairs have recommended restoration of the land to tribal ownership,

Now, therefore, by virtue of the authority vested in the Secretary of the Interior by sections 3 and 7 of the Act of June 18, 1934 (48 Stat. 984), I hereby find that restoration to tribal ownership of the above-described townsite lot will be in the public interest and the said lot is hereby restored to tribal ownership for the use and benefit of the Confederated Salish and Kootenai Tribes of the Flathead Indian Reservation, Montana, and is added to and made a part of the existing reservation, subject to any valid existing rights.

### IDAHO

### Partial Revocation of Reclamation Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. The departmental order of June 22, 1915, withdrawing lands for the Boise Project, is hereby revoked so far as it affects the following-described land:

BOISE MERIDIAN

T. 2 N., R. 3 W.,
Sec. 17, SE¼NW¼SE¼ and NE¼SW¼SE¼.

The area described contains 20 acres.

2. The land is situated about 4 miles south of Deer Flat Reservoir (Lake Powell). It is steep and rough, with a minor area more gentle in relief composed of stream bed alluvium. The tract is about 1½ miles above the Mora Canal.

3. Until 10 a.m. on June 3, 1965, the State of Idaho shall have a preferred right of application to select the land as provided by R.S. 2276, as amended (43 U.S.C. 852). On and after that date and hour the land shall become subject to application, petition and selection generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications except preference right applications from the State received at or prior to 10 a.m. on June 3, 1965, shall be considered as simultaneously filed at that time. Rights under such applications and selections filed after that hour will be governed by the time of filing.

4. The land has been open to applications and offers under the mineral leasing laws. It will be open to location under the United States mining laws at 10 a.m. on June 3, 1965.

Inquiries should be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

JOHN A. CARVER, JR.
*Assistant Secretary of the Interior.*

### CALIFORNIA

### Withdrawal for National Forest Recreation Sites

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

Subject to valid existing rights, the following-described national forest lands in the Toiyabe National Forest are hereby withdrawn from appropriation under the United States mining laws (Chap. 2, Title 30 U.S.C.), in aid of programs of the Department of Agriculture:

MOUNT DIABLO MERIDIAN

GREEN CREEK RECREATION AREA

T. 3 N., R. 24 E.,
Sec. 12, S½SE¼SE¼.

BUCKEYE CAMPGROUND

T. 4 N., R. 24 E.,
Sec. 4, S½ lot 2, SW¼NE¼;
Sec. 5, S½ lot 1, S½ lot 2, SE¼NE¼.

ROBINSON CREEK—TWIN LAKES RECREATION AREA

T. 4 N., R. 24 E.,
Sec. 15, S½NW¼NW¼, N½SW¼NW¼, SW¼SW¼NW¼, NW¼SE¼NW¼, W½NW¼SW¼;
Sec. 21, E½E½E½;
Sec. 22, NW¼NW¼, W½SW¼NW¼, W½NW¼SW¼;
Sec. 28, E½E½NE¼, NE¼SE¼.

VIRGINIA CREEK RECREATION AREA

T. 2 N., R. 25 E.,
Sec. 4, lot 2, lot 3, SW¼NW¼, N½SE¼NW¼, N½NW¼SW¼, SW¼NW¼SW¼;
Sec. 5, NE¼NE¼SW¼, S½NE¼SW¼, SE¼SW¼, N½SE¼, N½S½SE¼;
Sec. 7, NE¼SE¼NW¼.
T. 3 N., R. 25 E.,
Sec. 33, S½SW¼SE¼, SE¼SE¼.

The areas described total 908.98 acres.

The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws.

### COLORADO

### Withdrawal for Reclamation Uses; Colorado-Big Thompson Project; Partly Revoking Public Land Order No. 3359

By virtue of the authority contained in section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands are hereby withdrawn in the first form from all forms of appropriation under the public land laws including the mining laws, and reserved for use by the Bureau of Reclamation in connection with the Green Mountain afterbay and dam of the Colorado-Big Thompson Project:

SIXTH PRINCIPAL MERIDIAN

T. 2 S., R. 80 W.
Sec. 3, W½SW¼.

Containing 80 acres.

2. The lands shall be administered by the Bureau of Land Management until such time as they or any portion thereof are needed for project works or irrigation purposes.

3. Public Land Order No. 3359 of April 2, 1964, withdrawing lands for subject project is hereby revoked so far as it affects the following-described lands:

SIXTH PRINCIPAL MERIDIAN

T. 2 S., R. 80 W.
Sec. 3, E½SW¼.

Containing 80 acres.

4. The land described in paragraph 3 is withdrawn for water power purposes. At 10:00 a.m. on January 7, 1965 it will be subject to location under the Mining Laws, subject to provisions of the Act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621).

5. Neither this order nor Public Land Order No. 3359 affects the leasability of the lands under the mineral leasing laws.

## NORTH DAKOTA

### Partly Revoking Certain Reclamation Withdrawals (Lower Yellowstone Project)

By virtue of the authority vested in the Secretary of the Interior by section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. The Departmental orders of August 24, 1903, and July 27, 1908, which withdrew lands for reclamation purposes are hereby revoked so far as they affect the following-described lands:

FIFTH PRINCIPAL MERIDIAN

T. 152 N., R. 104 W.
Sec. 27, lot 5, SE¼NW¼, NE¼SW¼ and NW¼SE¼.

Containing 155.30 acres.

The lands are included in an allowed homestead entry.

### Withdrawal for National Forest Administrative Sites and Recreation Areas

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following-described national forest lands are hereby withdrawn from appropriation under the United States mining laws (Chap. 2, Title 30 U.S.C.), in aid of programs of the Department of Agriculture:

UINTAH NATIONAL FOREST

SALT LAKE MERIDIAN

*Balsam Campground*

T. 7 S., R. 5 E. (Unsurveyed),
A tract of land containing 11.82 acres which when surveyed will probably be Sec. 20, SW¼NE¼, S½NW¼, and NW¼SE¼.

*Birch Campground*

T. 7 S., R. 4 E.,
Sec. 26, N½SW¼NW¼, and SW¼SW¼NW¼;
Sec. 27, SE¼SE¼NE¼.

*Cherry Picnic Area*

T. 7 S., R. 4 E.,
Sec. 34, E½E½SW¼NW¼, and all of lot 3 except S½.

*Hobble Creek Administrative Site*

T. 7 S., R. 4 E.,
Sec. 34, E½SW¼SW¼NW¼ and W½SE¼SW¼NW¼.

*Mill Hollow Administrative Site*

T. 4 S., R. 8 E.,
Sec. 6, SW¼NE¼SE¼SW¼, S½NW¼SE¼SW¼, SW¼SE¼SW¼, and NW¼SE¼SE¼SW¼.

*Sulphur Campground*

T. 7 S., R. 4 E.,
Sec. 27, SW¼SE¼NE¼ and SE¼SW¼NE¼ (part of lot 1).

ASHLEY NATIONAL FOREST

UINTAH SPECIAL MERIDIAN

SOUTH FORK RECREATION AREA

T. 2 N., R. 7 W.,
Sec. 20, S½NE¼SE¼, NE¼SW¼SE¼, and SE¼SE¼;
Sec. 21, SW¼NW¼SW¼ and W½SW¼SW¼.

The areas described total approximately 230 acres.

2. The withdrawal for the South Fork Recreation Area made by this order shall be subject to the condition that in the event the land is required for reclamation purposes any improvements or structures placed thereon which shall be found to interfere with such purposes shall be removed or relocated at no cost to the Department of the Interior.

3. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws.

## WYOMING

### Revoking Addition to Stock Driveway Withdrawal No. 78

By virtue of the authority vested in the Secretary of the Interior by section 10 of the Act of December 29, 1916 (39 Stat. 865; 43 U.S.C. 300), as amended, it is ordered as follows:

1. The Departmental Order of March 29, 1948, which withdrew the following-described land for addition to Stock Driveway Withdrawal No. 78, Wyoming No. 11, is hereby revoked:

SIXTH PRINCIPAL MERIDIAN

T. 12 N., R. 117 W.,
Sec. 8.

Containing 640 acres.

2. The land is situated in the south-central portion of Uinta County, western Wyoming. Topography ranges from steep and broken at the lower elevations, to rugged and mountainous at the higher elevations. Vegetative cover is characterized by big sagebrush-grassland associations at the lower levels, and aspen-lodgepole associations in the higher areas.

3. Until 10:00 a.m., on June 3, 1965, the State of Wyoming shall have a preferred right of application to select the land as provided by section 2276(c) of the Revised Statutes as amended by section 2 of the Act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 852(c)). On and after that date and hour the land shall become subject to application, petition, and selection generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirement of applicable law. All valid applications except preference right applications from the State received at or prior to 10 a.m. on June 3, 1965, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. The land has been open to applications and offers under the mineral leasing laws, and to location under the United States mining laws subject to the regulations in 43 CFR 2400.3 (formerly 43 CFR 185.35).

5. Persons claiming preference rights based upon valid settlement, statutory preference or equitable claims must enclose properly corroborated statements in support of their application setting forth all facts relevant to their claims.

Inquiries concerning the land should be addressed to the Manager, Land Office, Bureau of Land Management, Cheyenne, Wyo.

### Withdrawal for National Forest Roadside Zone

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following-described national forest lands in the Tahoe National Forest, are hereby withdrawn from appropriation under the United States mining laws (Chap. 2, Title 30 U.S.C.), in aid of programs of the Department of Agriculture:

MOUNT DIABLO MERIDIAN

A strip of land 200 feet on each side of the centerline of California Highway 49 through the following legal subdivisions:

T. 18 N., R. 8 E.,
Sec. 2, SE¼NW¼;
Sec. 11, N½NW¼, SW¼NW¼, and NW¼SW¼;
Sec. 15, E½NW¼;
Sec. 22, E½ lot 1, lots 15 and 16;
Sec. 28, NE¼NE¼, SW¼NE¼, N½SE¼NE¼, N½SW¼SE¼NE¼, SE¼SW¼SE¼NE¼, SE¼SE¼NE¼, W½NW¼SE¼, N½SW¼SE¼, and SE¼SW¼SE¼.
T. 19 N., R. 8 E.,
Sec. 24, SE¼SW¼SW¼;
Sec. 25, NW¼NW¼ and SW¼SW¼;
Sec. 26, NE¼NE¼;
Sec. 35, SE¼NE¼ and E½SE¼.

The areas described aggregate approximately 210 acres.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws.

### Powersite Restoration No. 605; Powersite Cancellation No. 193; Partial Revocation of Powersite Reserve No. 329, and Powersite Classification No. 295 (Projects No. 32 and 2079)

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), and by virtue of the authority contained in the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and in section 24 of the Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818), as amended, and pursuant to the determination of the Federal Power Commission docketed as DA-1015-California, it is ordered as follows:

1. The Executive Order of December 31, 1912, and the Departmental Order of May 29, 1936, establishing Powersite Reserve No. 329 and Powersite Classification No. 295, respectively, are hereby revoked so far as they affect the following-described lands:

MOUNT DIABLO MERIDIAN

T. 11 N., R. 12 E.,
Sec. 12, SW¼SE¼;
Sec. 14, SE¼NE¼, E½SW¼, and W½SE¼.
T. 11 N., R. 13 E.,
Sec. 4, lots 11 and 12;
Sec. 5, lots 10, 11, 14, 15, and E½SE¼;
Sec. 7, lots 5, 6, 10, 11, and 12.
T. 12 N., R. 13 E.,
Sec. 25, NE¼SE¼ and S½SE¼;
Sec. 28, NW¼SW¼, NW¼SE¼, and SE¼SE¼;
Sec. 29, NE¼SE¼;
Sec. 32, SE¼SE¼;
Sec. 34, N½ and N½S½;
Sec. 35, N½.
T. 11 N., R. 14 E.,
Sec. 1, E½SW¼ and S½SE¼;
Sec. 2, E½W½, NW¼NW¼, and SW¼SW¼;
Sec. 11, NW¼NE¼.
T. 12 N., R. 14 E.,
Sec. 27, NE¼SW¼, S½SE¼, and NW¼SE¼;
Sec. 34, NE¼NE¼;
Sec. 35, SW¼SW¼.
T. 11 N., R. 15 E.,
Sec. 6, SE¼SW¼.

The areas described, including both nonpublic and national forest lands in the Eldorado National Forest aggregate 2,856.69 acres, of which the S½SE¼, sec.

25, T. 12 N., R. 13 E.; the E½SW¼ and S½SE¼, sec. 1, T. 11 N., R. 14 E., and the SE¼SW¼, sec. 6, T. 11 N., R. 15 E., are the nonpublic lands.

2. At 10 a.m. on January 7, 1965, the national forest lands shall be open to such forms of disposition as may by law be made of such lands.

In DA–1015–California, the Federal Power Commission vacated the withdrawals created pursuant to the filing of applications for preliminary permits for Projects Nos. 32 and 2079, so far as they affect the lands described in paragraph 1 above.

## ALASKA

### Partly Revoking Executive Order of March 4, 1930

By virtue of the authority contained in the Act of May 31, 1938 (52 Stat. 593; 48 U.S.C. 353a), it is ordered as follows:

1. Executive Order No. 5289 of March 4, 1930, withdrawing lands in Alaska for educational purposes, is hereby revoked so far as it affects the following-described lands:

KOKRINES

U.S. SURVEY 2033

Containing 4.6 acres.

PILOT STATION

U.S. SURVEY 2041

Containing 3.64 acres.

2. Until 10:00 a.m. on March 4, 1965, the State of Alaska shall have a preferred right to select the land as provided by the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46–3b), and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339), and the regulations in 43 CFR 2222.9.

3. This order shall not otherwise become effective to change the status of the land until after 10:00 a.m. on March 4, 1965. After that time the land shall be open to the operation of the public land laws generally, including the mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications, except preference rights applications from the State, received at or prior to 10:00 a.m. on March 4, 1965, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Inquiries should be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

JOHN A. CARVER, Jr.,
*Assistant Secretary of the Interior.*

### Partly Revoking Reclamation Withdrawal, American River Investigations

By virtue of the authority contained in section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. The Departmental order of September 14, 1942, withdrawing lands for reclamation purposes in connection with American River Investigations, is hereby revoked so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 11 N., R. 10 E.,
Sec. 22, NW¼SE¼ and SW¼;
Sec. 25, SW¼.

The areas described aggregate approximately 360 acres.

All of the lands described in sec. 22 are withdrawn for power purposes. Some of the lands in sec. 25 are patented and the remainder were restored from power withdrawals subject to section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818), as amended.

The SW¼ of sec. 22 is included in a project operating under a license issued under the Federal Power Act and is therefore affected by the third proviso to section 2 of the Act of August 11, 1955 (69 Stat. 681; 30 U.S.C. 621), as amended.

2. Until 10:00 a.m. on June 3, 1965, the State of California shall have a preferred right of application to select the public lands in sec. 25 described in paragraph 1 of this order, as provided by Rev. Stat. 2276, as amended (43 U.S.C. 852). On and after that date and hour the lands shall become subject to application, petition, and selection generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications, except preference right applications from the State, received at or prior to 10:00 a.m. on June 3, 1965, shall be considered as simultaneously filed at that time. Those filed thereafter shall be considered in the order of filing.

3. The public lands have been open to applications and offers under the mineral leasing laws. The pubic lands in sec. 25 and NW¼SE¼ of sec. 22 will be open to location under the United States mining laws at 10:00 a.m. on June 3, 1965.

4. Any disposal of the lands described in paragraph 1 of this order shall be subject to the provisions of section 24 of the Federal Power Act, supra.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Sacramento, Calif.

JOHN A. CARVER, Jr.
*Assistant Secretary of the Interior.*

[Idaho 014845]

## IDAHO

### Entirely Revoking Air Navigation Site Withdrawals No. 106 and No. 214

By virtue of the authority contained in section 4 of the Act of May 24, 1928 (45 Stat. 729; 49 U.S.C. 214), it is ordered as follows:

1. The Departmental order of July 29, 1936, establishing Air Navigation Site Withdrawal No. 106, to the extent it was not revoked by Public Land Order No. 29 of August 14, 1942, and the Departmental order of December 30, 1943, establishing Air Navigation Site Withdrawal No. 214, are hereby revoked. The lands affected are described as follows:

BOISE MERIDIAN

Air Navigation Site No. 106:
T. 5 S., R. 9 E.,
Sec. 26, SW¼SE¼SE¼NW¼ and SE¼SW¼SE¼NW¼.
Air Navigation Site No. 214:
T. 4 S., R. 4 E.,
Sec. 11, W½NW¼NE¼.
T. 4 S., R. 5 E.,
Sec. 19, NE¼NE¼SE¼.

The areas described aggregate approximately 35 acres, of which the W½NW¼NE¼, sec. 11, T. 4 S., R. 4 E., containing 20 acres, remains withdrawn for reclamation purposes in connection with the Mountain Home Project.

2. Until 10:00 a.m. on June 3, 1965, the State of Idaho shall have a preferred right of application to select the above-described lands which are not withdrawn for reclamation purposes, as provided by R.S. 2276, as amended (43 U.S.C. 852). On and after that date and hour such non-reclamation lands shall become subject to application, petition, and selection generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications except preference-right applications from the State received at or prior to 10:00 a.m. on June 3, 1965, shall be considered as simultaneously filed at that time.

3. All the above-described lands have been open to applications and offers under the mineral leasing laws. The nonreclamation lands will be open to location under the United States mining laws at 10:00 a.m. on June 3, 1965.

Inquiries concerning the land should be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

# Title 10—ATOMIC ENERGY

## Chapter I—Atomic Energy Commission

## PART 2—RULES OF PRACTICE

### Review of Initial Decisions in Facility Licensing Cases

*Statement of considerations.* On October 21, 1964, the Atomic Energy Commission published for public comment (29 F.R. 14442) a proposed amendment of 10 CFR Part 2, Rules of Practice, to extend from the present period of thirty days to a period of forty-five days the time within which the Commission may review on its own motion initial decisions in facility licensing cases, including decisions which grant or amend construction permits or operating licenses under 10 CFR Part 50 and construction or operating authorizations under 10 CFR Part 115. The Commission has directed that the amendments be made effective.

The following rule is published as a document subject to codification, to be effective 30 days after publication in the FEDERAL REGISTER.

1. 10 CFR § 2.760(a) is amended to read as follows:

**§ 2.760 Initial decision and its effect.**

(a) After hearing, the presiding officer will render an initial decision which will constitute the final action of the Commission forty-five days after its date when it authorizes the issuance or amendment of a license for a facility, or thirty days after its date in any other case, unless a timely petition for review is filed or the Commission directs that the record be certified to it for final decision.

* * * * *

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Md., this 2d day of December 1964.

For the Atomic Energy Commission.

W. B. MCCOOL,
*Secretary to the Commission.*

## Chapter VII—Office of the Administrator, Housing and Home Finance Agency (Community Facilities)

### NONDISCRIMINATION IN CERTAIN FEDERALLY ASSISTED PROGRAMS AND ACTIVITIES

CROSS REFERENCE: For Housing and Home Finance Administrator's regulations relating to nondiscrimination in certain Federally assisted programs and activities administered within the Housing and Home Finance Agency, to effectuate title VI of the Civil Rights Act of 1964, see 24 CFR, Subtitle A, Part 1 (29 F.R. 16280, December 4, 1964).

# Proposed Rule Making

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

[ 7 CFR Part 971 ]

### LETTUCE GROWN IN LOWER RIO GRANDE VALLEY IN SOUTH TEXAS

### Notice of Proposed Expenses and Rate of Assessment

Notice is hereby given that the Secretary of Agriculture is considering the approval of the expenses and rate of assessment for the fiscal period ending July 31, 1965, and the amended expenses for the fiscal period ending July 31, 1964, hereinafter set forth, which were recommended by the South Texas Lettuce Committee, established pursuant to Marketing Agreement No. 144 and Marketing Order No. 971 (7 CFR Part 971), herein referred to collectively as the order. The order regulates the handling of lettuce grown in the Lower Rio Grande Valley in South Texas, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C., 20250, not later than the 15th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

§ 971.205 **Expenses and rate of assessment.**

(a) The reasonable expenses that are likely to be incurred during the fiscal period August 1, 1964, through July 31, 1965, by the South Texas Lettuce Committee for its maintenance and functioning and for such purposes as the Secretary determines to be appropriate, will amount to $16,975.00.

(b) The rate of assessment to be paid by each handler in accordance with the marketing agreement and this part shall be one cent ($0.01) per carton of lettuce handled by him as the first handler thereof during said fiscal period.

§ 971.204 **Expenses amended.**

(a) The reasonable expenses incurred by the South Texas Lettuce Committee enabling such committee to perform its functions during the fiscal period ended July 31, 1964, amounted to $16,869.82. The budget for such fiscal period shall be and is hereby amended, pursuant to § 971.42(c), and the recommendations of the committee, to approve expenses for $16,869.82. No change in the rate of assessment is necessary.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601 et seq.)

Dated: December 3, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 64–12546; Filed, Dec. 7, 1964; 8:49 a.m.]

## FEDERAL AVIATION AGENCY

[ 14 CFR Part 71 [New] ]

[Airspace Docket No. 63–SW–57]

### CONTROL ZONE, TRANSITION AREA, AND CONTROL AREA EXTENSION

### Proposed Alteration, Designation, and Revocation

The Federal Aviation Agency is considering amendments to Part 71 [New] of the Federal Aviation Regulations which would alter the controlled airspace in the Big Spring, Tex., terminal area.

The following controlled airspace is presently designated in the Big Spring, Tex., terminal area:

1. The Big Spring, Tex., control zone is designated as that airspace within a 5-mile radius of Webb AFB, Big Spring, Tex. (latitude 32°12′53″ N., longitude 101°31′25″ W.); within 2 miles either side of the 251° bearing from the Big Spring RBN extending from the 5-mile radius zone to 10 miles W of the RBN, and within 2 miles either side of the Big Spring VOR 191° radial extending from the 5-mile radius zone to the VOR.

2. The Big Spring, Tex., control area extension is designated as that airspace within a 35-mile radius of the Big Spring VOR; the airspace NW of Big Spring bounded on the NE by V–76 N and on the W by V–81 and V–76; including the airspace N of Big Spring within 12 miles W and 12 miles E of the Webb AFB TACAN 014° radial extending from the 35-mile radius area to 61 miles N of the TACAN. The portion of this control area extension which coincides with R–6309 shall be used only after obtaining prior approval from the appropriate authority.

3. The Abilene, Tex., control area extension is designated as that airspace within a 35-mile radius of the Abilene VOR, the airspace N of Abilene bounded on the E by V–77, on the N by V–278 E of Guthrie, Tex., VOR and V–102 W of Guthrie VOR, on the SW by a line 5 miles NE of the Lubbock VOR 101° and the Abilene VOR 327° radials; the airspace NW of Abilene within 8 miles W of the Abilene VOR 344° radial extending from the VOR to 46 miles NW, the airspace SE, S and SW of Abilene bounded on the N by V–94, on the E by V–163, on the S by V–76 N and on the SW by V–76, excluding the portion that coincides with the arc of a 35-mile radius circle centered on the San Angelo, Tex., VOR and on the NW by V–66, and including the airspace W of Abilene within 8 miles N and 12 miles S of the Abilene VOR 266° radial extending from the VOR to the arc of a 35-mile radius circle centered on the Big Spring, Tex., VOR.

The Federal Aviation Agency having completed a comprehensive review of the terminal airspace structure requirements in the Big Spring, Tex., terminal area, including studies attendant to the implementation of the provisions of CAR Amendments 60–21/60–29, proposes the following airspace actions:

1. Redesignate the Big Spring control zone as that airspace within a 5-mile radius of Webb AFB, Big Spring, Tex. (latitude 32°12′50″ N., longitude 101°31′25″ W.), within a 5-mile radius of Howard County Airport, Big Spring, Tex. (latitude 32°18′05″ N., longitude 101°26′20″ W.), within 2 miles each side of the Big Spring VOR 191° radial, extending from the 5-mile radius zone to 1 mile S of the VOR, within 2 miles each side of the Big Spring VOR 155° radial, extending from the 3-mile radius zone to the VOR, within 2 miles each side of the Webb TACAN 355° radial, extending from the 5-mile radius zone to 7.5 miles north of the TACAN, and within 2 miles each side of the Webb TACAN 190° radial extending from the 5-mile radius zone to 7.5 miles south of the TACAN.

2. Revoke the Big Spring control area extension.

3. Designate the Big Spring, Tex., transition area as that airspace extending upward from 700 feet above the surface within a 23-mile radius of latitude 32°12′55″ N., longitude 101°31′06″ W.; that airspace extending upward from 1,200 feet above the surface within the area bounded by a line beginning at latitude 33°11′00″ N., longitude 101°07′00″ W.; thence to latitude 33°12′00″ N., longitude 100°35′00″ W.; to latitude 31°-59′30″ N., longitude 100°13′20″ W.; to latitude 31°40′00″ N., longitude 100°-39′30″ W.; to latitude 31°50′00″ N., longitude 101°22′00″ W.; to latitude 31°-39′00″ N., longitude 101°27′20″ W.; to latitude 31°28′40″ N., longitude 100°-59′40″ W.; to latitude 31°28′40″ N., longitude 102°00′00″ W.; thence N via longitude 102°00′00″ W. to and counterclockwise along the arc of a 30-mile radius circle centered on the Midland, Tex., VOR to latitude 31°40′00″ N., longitude 101°52′30″ W.; thence to latitude 31°36′35″ N., longitude 101°47′20″ W.; to latitude 31°37′25″ N., longitude 101°35′15″ W.; to latitude 31°55′00″ N., longitude 101°29′40″ W.; to latitude 32°-36′30″ N., longitude 102°07′20″ W.; to latitude 32°59′00″ N., longitude 102°-43′30″ W., to point of beginning; and that airspace extending upward from 7,500 feet MSL within the area bounded on the N by latitude 31°28′40″ N., on the E by longitude 101°00′00″ W., on the S by latitude 31°00′00″ N., and on the

W by longitude 102°00'00" W.; excluding the portion of the transition area with a floor of 7,500 feet MSL that lies within federal airways.

The proposed alteration of the Big Spring control zone would provide protection for aircraft executing prescribed instrument approach and departure procedures at Webb AFB and Howard County Airport.

The proposed 23-mile radius 700-foot floor portion of the Big Spring transition area would provide protection for aircraft executing prescribed instrument approach and departure procedures, including radar procedures, below 1500 feet above the surface outside the proposed control zone. The proposed designation of the 1,200 foot floor portion of the transition area and the revocation of the Big Spring control area extension would raise the floor of controlled airspace from 700 to 1200 feet above the surface beyond the 23-mile radius area, yet would provide adequate protection for aircraft executing prescribed instrument holding, arrival and departure procedures at or above 1500 feet above the surface within the Big Spring terminal area. The portion of the transition area proposed with a floor of 7,500 feet MSL would provide protection for aircraft executing the higher altitude portion of instrument arrival and departure procedures prescribed for Webb AFB.

The floors of the airways and the portion of the Abilene control area extension that would traverse the transition area proposed herein would automatically coincide with the floors of the transition area with the exception of those airways within the 7,500 foot MSL portion. The revocation of the Abilene control area extension will be accomplished at a later date as a part of the CAR Amendments 60–21/60–29 program proposed for the terminal areas which adjoin the Big Spring terminal area.

Certain minor revisions to prescribed instrument procedures would be effected in conjunction with the actions proposed herein, but operational complexity would not be increased nor would aircraft performance characteristics or established landing minimums be adversely affected.

Specific details of the changes to procedures and minimum instrument flight rules altitudes that would be required may be examined by contacting the Chief, Air Traffic Division, Southwest Region, Federal Aviation Agency, Fort Worth, Texas.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Agency, Post Office Box 1689, Fort Worth, Tex., 76101. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Air Traffic Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Agency, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

These amendments are proposed under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Fort Worth, Tex., on November 25, 1964.

PHILLIP M. SWATEK,
*Acting Director,*
*Southwest Region.*

[F.R. Doc. 64–12494; Filed, Dec. 7, 1964; 8:45 a.m.]

---

## [ 14 CFR Part 71 [New] ]

[Airspace Docket No. 63–SW–68]

## CONTROL ZONE, TRANSITION AREAS, AND CONTROL AREA EXTENSION

### Proposed Alteration, Designation, and Revocation

The Federal Aviation Agency is considering an amendment to Part 71 [New] of the Federal Aviation Regulations, which would alter the controlled airspace in the Baton Rouge, La., terminal area.

The following controlled airspace is presently designated in the Baton Rouge, La., terminal area:

1. The Baton Rouge, La., control zone is designated as that airspace within a 5-mile radius of Ryan Airport, Baton Rouge, La. (latitude 30°31'53" N., longitude 91°09'00" W.); within a 3-mile radius of Downtown Airport, Baton Rouge, La. (latitude 30°26'45" N., longitude 91°06'25" W.); within 2 miles either side of the 313° and 133° bearings from the Baton Rouge LOM extending from the Ryan Airport 5-mile radius zone to 10 miles NW and 19 miles SE of the LOM, and within 2 miles either side of the Baton Rouge VOR 071° and 251° radials extending from the Ryan Airport 5-mile radius zone to 10 miles SW of the VOR.

2. The Lafayette, La., control area extension is designated as that airspace bounded on the NE by V–114, on the S by V–20, on the SW by V–20 N and on the NW by V–222.

3. The Woodville, La., transition area is designated as that airspace extending upward from 1,200 feet above the surface within 12 miles NW and 8 miles SE of the McComb, Miss., VOR 251° radial, extending from 48 miles to 80 miles SW of the VOR.

The Federal Aviation Agency, having completed a comprehensive review of the terminal airspace structure requirements in the Baton Rouge, La., terminal area, including studies attendant to the implementation of the provisions of CAR Amendments 60–21/60–29, proposes the following airspace actions:

1. Redesignate the Baton Rouge, La., control zone as that airspace within a 5-mile radius of Ryan Airport, Baton Rouge, La. (latitude 30°31'55" N., longitude 91°09'00" W.); within a 2-mile radius of Downtown Airport, Baton Rouge, La. (latitude 30°26'45" N., longitude 91°06'25" W.); within 2 miles each side of the Baton Rouge ILS localizer SE course extending from the 5-mile radius zone to 6.5 miles SE of Ryan Airport, and within 2 miles each side of the Baton Rouge VORTAC 071° radial extending from the 5-mile radius zone to 1 mile E of the VORTAC.

2. Revoke the Woodville, La., transition area.

3. Revoke the Lafayette, La., control area extension.

4. Designate the Baton Rouge, La., transition area as that airspace extending upward from 700 feet above the surface within a 7-mile radius of Ryan Airport, Baton Rouge, La. (latitude 30°31'55" N., longitude 91°09'00" W.); within 2 miles each side of the Baton Rouge ILS localizer SE course extending from the 7-mile radius area to 7.5 miles SE of Ryan Airport, within 5 miles NE and 8 miles SW of the Baton Rouge ILS localizer NW course extending from the OM to 12 miles NW and within 2 miles each side of the Baton Rouge VORTAC 071° radial extending from the 7-mile radius area to the VORTAC; and that airspace extending upward from 1,200 feet above the surface within an area bounded by a line beginning at latitude 30°07'40" N., longitude 91°36'45" W.; to latitude 30°46'20" N., longitude 91°50'40" W.; to latitude 30°53'40" N., longitude 91°29'10" W.; to latitude 31°04'00" N., longitude 91°29'20" W.; to latitude 31°04'40" N., longitude 91°14'20" W.; to latitude 30°38'00" N., longitude 90°48'00" W.; to latitude 30°17'00" N., longitude 90°45'00" W.; to latitude 30°13'00" N., longitude 90°57'00" W.; to point of beginning, excluding the portion within the McComb, Miss., transition area.

The floors of the airways that would traverse the transition area proposed herein would automatically coincide with the floor of the transition area.

The proposed alteration to the Baton Rouge control zone would provide protection for aircraft executing prescribed instrument approach and departure procedures at Ryan Airport. Due to the proximity of the Downtown Airport to the AL–40–ILS–RWY 31 final approach course for Ryan Airport, the proposed control zone would include a 2-mile radius area of the Downtown airport.

The proposed designation of the 1,200 foot floor portion of the Baton Rouge transition area and the revocation of the Lafayette, La., control area extension would raise the floor of controlled airspace from 700 to 1,200 feet above the surface beyond the immediate vicinity of the Ryan and Downtown Airports, yet sufficient controlled airspace would be retained to provide protection for aircraft executing prescribed instrument holding, arrival and departure procedures within the Baton Rouge terminal area.

Certain minor revisions to prescribed instrument procedures would be effected in conjunction with the actions proposed herein, but operational complexity would not be increased nor would aircraft performance characteristics or established landing minimums be adversely affected.

Specific details of the changes to procedures and minimum instrument flight rules altitudes that would be required may be examined by contacting the Chief, Air Traffic Division, Southwest Region, Federal Aviation Agency, Fort Worth, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Agency, Post Office Box 1689, Fort Worth, Tex., 76101. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Air Traffic Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Agency, Fort Worth, Tex. An informal Docket will also be available for examination at the Office of the Chief, Air Traffic Division.

This amendment is proposed under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Fort Worth, Tex., on November 25, 1964.

PHILLIP M. SWATEK,
*Acting Director,*
*Southwest Region.*

## [ 14 CFR Part 71 [New] ]

[Airspace Docket No. 63–SW–114]

## CONTROL ZONE, TRANSITION AREAS, AND CONTROL AREA EXTENSION

### Proposed Alteration, Designation, and Revocation

The Federal Aviation Agency is considering an amendment to Part 71 [New] of the Federal Aviation Regulations which would alter the controlled airspace in the Texarkana, Ark., terminal area.

The following controlled airspace is presently designated in the Texarkana, Ark., terminal area:

1. The Texarkana, Ark., control zone is designated as that airspace within a 5-mile radius of Texarkana Municipal Airport (latitude 33°27'20" N., longitude 93°59'15" W.), and within 2 miles either side of the Texarkana VORTAC 129° and 309° radials extending from the 5-mile radius zone to 10 miles NW of the VORTAC.

2. The Texarkana, Ark., control area extension is designated as that airspace within 5 miles either side of the Texarkana VORTAC 309° radial, extending from the VORTAC to 15 miles NW.

3. The Tyler, Tex., control area extension is designated as that airspace within a 25-mile radius of the Tyler RBN; the airspace N of Tyler bounded on the N by V–16, on the SE and E by V–289, on the S by a line 13 miles S of and parallel to the centerline of V–94 and on the W by the Dallas, Tex., control area extension; and within 10 miles NE and 7 miles SW of the Tyler ILS localizer SE course extending from the Tyler 25-mile radius area to 34 miles SE of the localizer.

4. The Shreveport, La., control area extension is designated as that airspace bounded by a line beginning on the S boundary of V–278 at longitude 93°29'30" W., thence SE to the S boundary of V–18 at longitude 92°33'00" W., thence E along the S boundary of V–18 to the INT thereof with a line 5 miles SE of and parallel to the Monroe, La., VORTAC 237° radial, thence SW via this line to the INT thereof with V–114, thence NW along V–114 to the INT thereof with V–289, thence N along V–289 to the INT thereof with V–278, thence E along V–278 to the point of beginning.

5. The Dierks, Ark., transition area is designated as that airspace extending upward from 1,200 feet above the surface within 12 miles E and 8 miles W of the Texarkana, Ark., VORTAC 355° radial, extending from 10 miles N to 22 miles S of the INT of the Page, Okla., VOR 144° and the Texarkana VORTAC 355° radials.

6. The Pike, Ark., transition area is designated as that airspace extending upward from 1,200 feet above the surface within 12 miles, SE and 8 miles NW of the Texarkana, Ark., VORTAC 033° radial, extending from 10 miles NE to 22 miles SW of the INT of the Texarkana VORTAC 033° and the El Dorado, Ark., VORTAC 317° radials.

The Federal Aviation Agency, having completed a comprehensive review of the terminal airspace structure requirements in the Texarkana, Ark., terminal area, including studies attendant to the implementation of the provisions of CAR Amendments 60–21/60–29, proposes the following airspace actions:

1. Redesignate the Texarkana, Ark., control zone as that airspace within a 5-mile radius of the Texarkana, Ark., Municipal Airport (latitude 33°27'20" N., longitude 93°59'15" W.); and within 2 miles each side of the 129° radial of the Texarkana VORTAC extending from the 5-mile radius zone to .5 mile southeast of the VORTAC.

2. Revoke the Texarkana, Ark., control area extension.

3. Revoke the Dierks, Ark., transition area.

4. Revoke the Pike, Ark., transition area.

5. Designate the Texarkana, Ark., transition area as that airspace extending upward from 700 feet above the surface within 2 miles each side of the Texarkana VORTAC 129° and 309° radials extending from .5 mile southeast to 8 miles NW of the VORTAC; and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 34°25'00" N., longitude 94°39'30" W.; to latitude 33°49'00" N., longitude 95°18'00" W.; to latitude 33°08'00" N., longitude 95°18'00" W.; to latitude 33°07'00" N., longitude 95°-41'00" W.; to latitude 33°09'00" N., longitude 95°54'00" W.; to latitude 33°-00'00" N., longitude 95°45'00" W.; to latitude 32°43'00" N., longitude 95°39'00" W.; to latitude 32°41'10" N., longitude 95°00'00" W.; to latitude 33°14'00" N., longitude 94°11'00" W.; to latitude 33°-30'00" N., longitude 93°36'00" W.; to latitude 33°22'50" N., longitude 93°02'-30" W.; to latitude 34°17'00" N., longitude 93°26'00" W.; to latitude 34°26'00" N., longitude 93°31'00" W.; to latitude 34°25'00" N., longitude 94°00'00" W.; to point of beginning.

6. Designate the Lone Star, Tex., transition area as that airspace extending upward from 700 feet above the surface within a 5-mile radius of the Lone Star Airport (latitude 32°55'40" N., longitude 94°44'50" W.); and within 2 miles each side of the 316° bearing from the Lone Star RBN, extending from the 5-mile radius area to 8 miles NW of the RBN.

The floors of the airways and the portions of the Tyler, Tex., and Shreveport, La., control area extensions that would traverse the transition areas proposed herein would automatically coincide with the floor of the transition areas.

The proposed control zone for Texarkana, Ark., would provide protection for aircraft executing prescribed instrument approach and departure procedures at the Texarkana Municipal Airport.

The proposed designation of the 1,200 foot floor portion of the Texarkana transition area and the revocation of the Texarkana control area extension would raise the floor of the controlled airspace beyond the immediate vicinity of the Texarkana Municipal and Lone Star Airports from 700 to 1,200 feet above the surface, yet the transition areas proposed would provide protection for aircraft executing prescribed instrument holding, arrival and departure procedures and enroute radar vectoring within the Texarkana terminal area.

The revocation of the Tyler, Tex., and Shreveport, La., control area extensions will be accomplished at a later date as a part of the CAR Amendments 60–21/60–29 program proposed for the terminal areas which adjoin the Texarkana terminal area.

Certain minor revisions to prescribed instrument procedures would be effected in conjunction with the actions proposed herein, but operational complexity would not be increased nor would aircraft performance characteristics or established landing minimums be adversely affected.

Specific details of the changes to procedures and minimum instrument flight rules altitudes that would be required

may be examined by contacting the Chief, Air Traffic Division, Southwest Region, Federal Aviation Agency, Fort Worth, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Agency, Post Office Box 1689, Fort Worth, Tex., 76101. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Air Traffic Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Agency, Fort Worth, Tex. An informal Docket will also be available for examination at the Office of the Chief, Air Traffic Division.

This amendment is proposed under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Fort Worth, Tex., on November 25, 1964.

PHILLIP M. SWATEK,
*Acting Director,*
*Southwest Region.*

## [ 14 CFR Part 73 [New] ]

[Airspace Docket No. 64-SO-53]

## RESTRICTED AREA

### Reopening of Comment Period

On October 8, 1964, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (29 F.R. 13906) stating that the Federal Aviation Agency was considering a proposal submitted by the United States Air Force which would establish a restricted area southwest of Nashville, Tenn. to encompass a joint U.S. Air Force-U.S. Army exercise referred to as GOLD FIRE II.

The Director, Tennessee Aeronautics Commission, has requested that the comment period associated with the notice be reopened since a number of interested persons became aware of the problems raised by the proposal only after the close of such comment period. Because of the size of the proposed area and the effects it would have on civil aviation, good cause exists for granting the request. Further, a special informal airspace meeting to discuss the joint military exercise will be held December 10, 1964 at Nashville. Reopening of the comment period will provide the attendees with the opportunity to submit comments for the official docket after the meeting. Therefore, the time period for the submission of comments on the notice in Airspace Docket No. 64-SO-53 is reopened from the date of publication of this document in the FEDERAL REGISTER until December 18, 1964.

Comments should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, Post Office Box 20636, Atlanta, Ga., 30320. All comments received will be available for examination by interested persons, before and after the closing date for comments, in an official docket at the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Issued in Washington, D.C., on December 4, 1964.

DANIEL E. BARROW,
*Chief, Airspace Regulations and Procedures Division.*

## [ 14 CFR Part 75 [New] ]

[Airspace Docket No. 64-WA-71]

## JET ROUTES

### Proposed Designation

The Federal Aviation Agency is considering amendments to Part 75 [New] of the Federal Aviation Regulations which would establish jet routes from within the Northeastern United States to the U.S.-Canadian border.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket; 800 Independence Avenue SW., Washington, D.C., 20553. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered by the Administrator before taking action on the proposed amendment. The proposal contained in the notice may be changed in the light of comments received. All comments submitted will be available in the Rules Docket for examination by interested persons, both before and after the closing date for comments.

The proposed jet routes would be designated as follows:

1. From the Millinocket, Maine, VOR via the intersection of the Millinocket VOR 114° and the St. John, N.B., VOR 267° True radials; thence via the St. John VOR 267° True radial to the U.S.-Canadian border.

2. From the Massena, N.Y., VOR to the U.S.-Canadian border via the direct radials between the Massena and Stirling, Ont., VORs.

3. From the Massena VOR to the U.S.-Canadian border via the direct radials between the Massena and St. Johns, Quebec, VORs.

4. From the intersection of the Massena VOR 163° and the St. Eustache, Quebec, VOR 200° True radials via the St. Eustache VOR 200° True radial to the U.S.-Canadian border.

Sufficient air traffic exists on each of these four routes to justify their designation as jet routes. The proposed jet routes from Millinocket and Massena to the U.S.-Canadian border are presently in use as regularly scheduled off-airway air carrier routes.

These amendments are proposed under section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Washington, D.C., on November 27, 1964.

H. B. HELSTROM,
*Acting Chief, Airspace Regulations and Procedures Division.*

## [ 14 CFR Part 135 [New] ]

[Docket No. 6368; Notice 64-52]

## STAR ROUTE MAIL CARRYING OPERATIONS

### Notice of Proposed Rule Making

The Federal Aviation Agency is considering amending § 135.1 of Part 135—Air Taxi Operators and Commercial Operators of Small Aircraft [New] of the Federal Aviation Regulations. The purpose of this amendment is to include within the applicability of Part 135 the "star route" mail carrying operations presently covered by Special Civil Air Regulation 402.

Interested persons are invited to participate in the making of the proposed rules by submitting such written data, views, or arguments as they desire. Communications should identify the notice or docket number and be submitted in duplicate to the Federal Aviation Agency, Office of the General Counsel: Attention Rules Docket, 800 Independence Avenue SW., Washington, D.C., 20553. All communications received on or before 30 days after the date of this notice will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comment, in the Rules Docket for examination by interested persons.

In the preamble to Part 135 [New], the Agency expressed ts intention to issue a notice of proposed rule making to amend Special Civil Air Regulation 402 to require "star route" carriers using small aircraft to conduct their operations under Part 135 [New]. The Agency now believes that rather than amending the SR a better approach would be to include the subject operations specifically within the applicability of Part 135.

SR 402 presently requires that "Persons engaged in * * * 'star route' * * * operations, be certificated in accordance with and comply with the provisions of Part 42 of the Civil Air Regulations." At the time SR 402 was adopted Part 42 contained the rules applicable to air taxi operations. Subsequently, revised Part 42 was issued effective November 11, 1963. Since revised Part 42 did not cover operations with small aircraft, and pending the adoption of Part 135 [New], SR 395B was issued preserving temporarily the provisions of former Part 42 applicable to operations with small aircraft by commercial operators and air taxi operators. SR 395B was rescinded when Part 135 was adopted.

Accordingly, the reference in SR 402 to Part 42 no longer accomplishes the desired result since most "star route" operations are conducted with small aircraft and present Part 42 does not cover such operations.

The Agency believes that by including "star route" operations within the applicability of Part 135 the original intent of SR 402 will be retained. The Agency understands that star route operations are generally carried out with small aircraft and therefore Part 135 is the appropriate part for such operations. However, in the event that a large aircraft is used in such an operation, the Administrator may pursuant to § 135.13 (b)(2) amend the operator's operations specifications to require that the large aircraft operations be conducted under those requirements of revised Part 42 considered necessary for safety.

In consideration of the foregoing, it is proposed to amend § 135.1 of Part 135 [New], by deleting the "and" at the end of subparagraph (1); by renumbering subparagraph (2) of paragraph (a) as subparagraph (3); and by adding a new subparagraph (2) reading as follows:

§ 135.1 **Applicability.**

(a) * * *

(2) The transportation of mail by aircraft conducted under a "star route" contract awarded purusant to section 6303 of Title 39, United States Code; and,)

* * * * *

This amendment is proposed under the authority of sections 313(a) and 601-610 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a) and 1421-1430).

Issued in Washington, D.C., on December 1, 1964.

G. S. MOORE,
*Director,*
*Flight Standards Service.*

# FEDERAL COMMUNICATIONS COMMISSION

## [ 47 CFR Part 73 ]

[Docket No. 15721; FCC 64-1108]

## RADIO BROADCAST SERVICES

### Contracts of Broadcast Licensees With Newswire Services; Notice of Inquiry

1. Notice is hereby given of inquiry and proposed rule making in the above-entitled matter.

2. The Commission has received a number of complaints from broadcast licensees concerning the newswire service contracts of the Associated Press (AP) and United Press International (UPI). It is alleged, among other things, that AP and UPI require five-year contracts which are not subject to cancellation by the broadcaster. Following these complaints, the Commission wrote AP and UPI requesting full information as to the length of their contract terms and provisions for renewal, termination and cancellation. Both AP and UPI replied by letter, enclosing sample copies of contracts.

3. From the information submitted by AP and UPI it appears that five-year contracts are encouraged by the newswire services, though not required. UPI states that its standard contract term is five years and that shorter terms are negotiated in exhange for a higher rate. AP indicates that approximately 1300 of its 2400 broadcast members have contracts with terms of five years and that an additional 1000 have contracts which continue until termination by the member on two-years' notice, with an adjusted (presumably lower) rate if such notice is not given prior to a specified date. Moreover, both the AP and UPI contracts contain provisions requiring the contracting broadcaster to guarantee, or cause any assignee of the broadcast license to agree in writing, that the assignee will fulfill the contract during its term.[1]

4. The encouragement of long-term contracts by the newswire services, the provisions binding assignees of the broadcast licensees, and the general acceptance of such contracts by the broadcasters are matters of concern to the Commission to the extent that these practices may affect the broadcast licensees' ability to operate in the public interest under the Communications Act. The newswire services are not within the direct regulatory jurisdiction of the Commission under the Communications Act and they do not hold any Commission-issued broadcast licenses. However, the Commission is properly concerned with a broadcaster's business or contractual relationship with third parties insofar as the licensee's ability to serve the public may be affected. National Broadcasting Company v. United States, 319 U.S. 190; Metropolitan Television Company v. Federal Communications Commission, 289 F. 2d 874 (C.A.D.C.).

5. The main thrust of our concern here goes to the impact long-term newswire service contracts (including the assignee provisions) may have on the licensee's freedom of action in news programming. A five-year contract term exceeds the maximum three-year period for which broadcast licenses may be granted under section 307(d) of the Communications Act. At the end of three years the licensee must account to the Commission for the past operation of the station and, in order to obtain a renewal of license, must demonstrate that he has met, and will meet, his obligation under the public interest standard. The "principal ingredient of such obligation" is the duty "to make a positive, diligent and continuing effort, in good faith, to determine the tastes, needs and desires of the public in his community and to provide programming to meet those needs and interests"—a duty "personal to the licensee" which "may not be avoided by delegation of the responsibility to others." Programming Policy Statement, FCC 60-970, Public Notice 91874 (July 29, 1960), 20 Pike & Fischer, R.R. 1901, 1912-1913. A contract with a particular news source which exceeds the statutory license period would not appear to be consistent with this obligation if the practical effect is to preclude the licensee from following his judgment as to what news programming would best meet community interests and needs in the renewal period, or, for that matter, within a major portion of the preceding license period.

6. Although the broadcasters may subscribe to a particular newswire service, there does not appear to be any contractual provision requiring them to broadcast any or all of the news they receive or precluding them from substituting, or supplementing with, news obtained from other sources, including a contract with the other newswire service. However, it would be unrealistic to assume that broadcasters can afford or will choose to pay for two newswire services, or that they will seek out other news sources rather than use a service for which they are contractually bound to pay. Moreover, since both the AP and UPI contracts contain provisions requiring the contracting broadcaster to guarantee, or cause any assignee of the broadcast license to agree in writing, that the assignee will fulfill the contract during its term, the long-term contracts may similarly operate to deprive such assignees of an initial choice of news sources for a substantial period of time. Thus, the long-term contracts may be unduly restrictive of licensee freedom of action in news programming and prevent full compliance with non-delegable licensee responsibilities under the Communications Act. See Programming

[1] The pertinent provisions of the sample contracts submitted by AP and UPI are filed as part of the original document.

Policy Statement, FCC 60-970, Public Notice 91874 (July 29, 1960), 20 Pike & Fischer, R.R. 1901, 1911, 1913.

7. In the Report on Chain Broadcasting (1941), which formed the basis for the chain broadcasting regulations sustained in National Broadcasting Co. v. United States, 319 U.S. 190, the Commission concluded that station licensees would best serve the public interest if they refrained from entering into five-year network affiliation contracts and held themselves free to negotiate with the networks at more frequent intervals. This was largely because the "station licensee is unable to follow his conception of the public interest until the end of the 5-year contract term", regardless of any changes in the community and despite any deterioration in network service (Report on Chain Broadcasting, p. 61). See also, National Broadcasting Co., v. United States, 319 U.S. at 201–202. Our conclusion that "a station is not operating in the public interest when it so limits its freedom of action" (Report, p. 62), may well apply with equal force here in light of the considerations set forth in par. 6, above.

8. While the probable impact on licensee freedom of action in news programming is the immediate reason for our concern with newswire contracts, we note that the two-year limitation on network affiliation contracts stems also from our conclusion that long-term contracts prevent any real competition between existing networks, as well as the establishment and development of new networks, thereby depriving the public of improved service it might otherwise obtain from competition in the network field. Report on Chain Broadcasting, pp. 61–62.[2] We cannot determine without further information whether long-term newswire contracts have a significant, similar effect. It may be that such arrangements have a tendency to lessen competition between the newswire services for broadcast customers and to discourage the development of other broadcast news sources. However, the fact that the newswire services have many customers other than broadcasters, such as newspapers, may have a crucial bearing on overall competition between them and the caliber of service provided. In short, additional information would be necessary to determine whether five-year newswire contracts deprive the listening public of improved news service which might otherwise derive from the possibility of enhancing competition in the newswire field for broadcast customers through shorter-term contracts. Since an inquiry is called for because of the considerations discussed in pars. 5–7, we believe that interested persons should also be afforded the opportunity to comment on this aspect also.

9. In the Chain Broadcasting Report, the Commission found no merit in a claim by the networks that long-term contracts were "indispensable to stable and efficient network operations" (Report, pp. 60–61). Although AP did not attempt to justify long-term contracts in its reply to the Commission's inquiry, UPI asserted that it must have the stability they allegedly afford in order to plan continued improvements and expansions of news service and to provide quality service at competitive rates; and further that these benefits to the broadcasters would be lost if the term were made shorter. The validity of this assertion cannot be appraised on the basis of the information presently available to the Commission concerning newswire service operations. This is therefore a further matter for investigation and comment by interested persons.

10. In sum, upon the basis of the complaints of the broadcasters and the information submitted by AP and UPI, a question exists as to whether station licensees would better serve the public interest embodied in the Communications Act if they refrained from entering into long-term newswire service contracts (including such long-term provisions binding license assignees), and held themselves free to negotiate with the newswire services at more frequent intervals. That question cannot be resolved without additional information, and its resolution is of sufficient importance to the Commission's responsibilities under the Communications Act to warrant further investigation.

11. Accordingly, there is instituted herewith, pursuant to the provisions of section 403 of the Communications Act, an inquiry into the following matters:

(1) The extent to which long-term newswire contracts may limit the broadcast licensees' exercise of their programming responsibilities in the news field (including the appropriateness under the Communications Act of such long-term contract provisions requiring any assignee of the license to fulfill the contract during its term);

(2) The extent to which each newswire service provides service to broadcasters under contract to the other or may refuse to provide service to broadcasters having unfulfilled contracts or contractual disputes with the other;

(3) The effect of long-term contracts with broadcasters on competition between the newswire services and the development of other news sources, and the nature of any resulting detriment to the public interest embodied in the Communications Act; and

(4) The extent, if any, to which short-term contracts with broadcasters might inhibit effective newswire service operations and result in a deterioration of newswire service to the licensees.

It is not our intention to limit the responses of interested persons to the specified areas of inquiry; any background material which would assist the Commission in making a determination as to the over-all public interest in this matter may also be submitted. However, responses should be documented with specific factual data and should not be in the form of unsupported general assertions of opinion.

12. In the absence of the requested information, we do not have a sound and reasonable basis for making a specific rule-making proposal. However, in order to be in a position to take any rule-making action found warranted at the conclusion of this proceeding, the Commission is inviting comments on the desirability of adopting rules, similar to the network affiliation rules (§§ 73.133, 73.233, and 73.658(c) of the Commission's rules, 47 CFR 73.133, 73.233, and 73.658(c)), to the effect that no station shall have a contract with a newswire service for a period longer than (for example) two years. While it is not contemplated that any such rules would permit a contract term of longer than three years, comments are requested on what time period within this range would be appropriate.

13. Authority for the rule amendments proposed herein is contained in sections 4(i), 303, 307, 308, 309 and 310 of the Communications Act of 1934, as amended.

14. All interested persons are invited to respond in writing to the inquiry herein and to file written comments on the proposed rules on or before January 25, 1965. Replies to such responses and comments may be filed on or before February 10, 1965. In reaching its decision in this matter, the Commission may also take into account any other relevant information before it, in addition to the comments invited by this Notice.

15. In accordance with the provisions of § 1.419 of the rules and regulations, an original and 14 copies of all comments, replies, pleadings, briefs, or other documents filed in this proceeding shall be furnished the Commission.

Adopted: December 2, 1964.

Released: December 3, 1964.

FEDERAL COMMUNICATIONS COMMISSION,[3]

### IDAHO

### Order Providing for Opening of Public Lands

NOVEMBER 30, 1964.

1. In exchanges of lands made under the provisions of section 8 of the Act of June 28, 1964 (48 Stat. 1272; 43 U.S.C. 315g) as amended, the following described lands have been conveyed to the United States:

BOISE MERIDIAN, IDAHO

PARCEL 1

T. 3 N., R. 18 E.,
Sec. 10, lots 1 and 2;
Sec. 11, S½NW¼ and NW¼SW¼.

PARCEL 2

T. 13 N., R. 23 E.,
Sec. 6, lot 7;
Sec. 7, E½E½, NW¼NE¼ and SW¼SE¼;
Sec. 8, S½N½ and S½;
Sec. 17, N½N½;
Sec. 18, SW¼NE¼, SE¼SW¼ and W½SE¼;
Sec. 24;
Sec. 25, N½NW¼ and SW¼NW¼;
Sec. 26, NE¼NE¼.
T. 13 N., R. 24 E.,
Sec. 19, lots 1, 2, 3, 4 and E½SW¼;
Sec. 30 lot 1 and NE¼NW¼.

PARCEL 3

T. 1 N., R. 34 E.,
Sec. 4, lots 3, 4 and S½NW¼.
T. 2 N., R. 34 E.,
Sec. 33, SW¼.

PARCEL 4

T. 58 N., R. 2 W.,
Sec. 29, SW¼NW¼, N½SW¼.

The areas described aggregate 2835.08 acres.

2. Parcel 1 is located in Blaine County about 7 miles north of Hailey in the Ohio Gulch drainage. The topography is fairly steep. Soils are shallow, gravelly loam. Vegetative cover is a sagebrush-grass type. No potential for agriculture. Ohio Gulch road provides access across the land.

3. Parcel 2 is located in Custer County about 5 miles south of Patterson in the Pahsimeroi River Valley. The topography is fairly level, gently sloping to the west. Vegetative cover varies from a sagebrush-grass type to salt resistant species of saltbrush, shadscale and budsage. Goldberg Creek, a perennial stream, crosses the land in Sec. 18. Generally the land lacks suitability for farming.

4. Parcel 3 is located in Bonneville County approximately 22 miles west of Idaho Falls on the west side of a large expanse of lava rock. The land is quite remote. Access is poor by means of an unimproved range road. The topography is undulating to gently rolling. Soil is a light colored silt loam overlaying lava. Because of the depth to underground water agricultural development is very questionable. Vegetative cover is a sagebrush-grass type.

5. Parcel 4 is located in Bonner County approximately 6 miles northwest of Sandpoint. The land is rough and mountainous at an elevation from 4,500 feet to 5,300 feet above sea level. Soil is gravelly and stony. No potential for agricultural development. Approximately 75 percent is covered by timber species. The lands are valuable for timber production and watershed management.

6. The land in Parcel 1 has been subject to the operation of the mining and mineral leasing laws at all times.

7. Pursuant to the authority delegated to me by Bureau Order No. 701, § 2.5, dated July 23, 1964, of the Associate Director, the lands described in paragraph 1 hereof shall become subject to application, petition and selection generally, but excepting applications under the Small Tract Act, subject to valid existing rights, the provisions of existing withdrawals and the requirements of applicable law, effective 10:00 a.m. on January 5, 1965. All valid applications received at or prior to 10:00 a.m. on January 5, 1965, shall be considered as simultaneously filed at that time.

8. The lands described in Parcels 2, 3 and 4 shall be open to mineral leasing and to location under the United States mining laws at 10:00 a.m. on January 5, 1965. Any offers received at or prior to this time and date will be considered as simultaneously filed.

9. Inquiries should be addressed to the Manager, Land Office, Bureau of Land Management, Post Office Box 2237, Boise, Idaho, 83701.

ORVAL G. HADLEY,
*Manager, Land Office.*

[F.R. Doc. 64-12523; Filed, Dec. 7, 1964; 8:48 a.m.]

## DEPARTMENT OF AGRICULTURE

### Office of the Secretary

### FARMERS HOME ADMINISTRATION

### Assignment and Reservation of Functions

Pursuant to the authority contained in R.S. 161 (5 U.S.C. 22) and Reorganization Plan No. 2 of 1953 (5 U.S.C. 133z-15), sections 145 and 146 of the Secretary's Order dated November 27, 1964 (29 F.R. 16210), are amended to assign additional functions and revised to read as follows:

Section 145 *Assignment of functions.* Subject to the reservations in section 146, there are hereby assigned and transferred to the Farmers Home Administration all of the functions, powers, duties, and assets under or with respect to:

(a) The Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1921), except those contained in section 342 of said Act (7 U.S.C. 1013a). These assigned functions, powers, duties, and assets pertain to programs authorized under said Act as well as to prior programs and authorities of the Farmers Home Administration and its predecessor agencies, the Farm Security Administration, the Emergency Crop and Feed Loan Offices of the Farm Credit Administration, the Resettlement Administration, and the Regional Agricultural Credit Corporation of Washington, D.C.

(b) Title V of the Housing Act of 1949 (42 U.S.C. 1471), except those pertaining to research.

(c) The Rural Rehabilitation Corporation Trust Liquidation Act (40 U.S.C. 440), and under the trust, liquidation and other agreements entered into pursuant thereto.

(d) Section 8, and those with respect to repayment of the obligations under section 4, of the Watershed Protection and Flood Prevention Act (16 U.S.C. 1006a, 1004).

(e) Rural Areas Development Program activities consisting of (1) furnishing technical information and services in initiating and implementing projects, (2) certifying individual overall economic development programs in rural areas as being consistent with the general objectives of the economic development of rural areas of the United States, and (3) certifying industrial and commercial water facility projects and community facility projects as being consistent with approved overall economic development programs for the areas involved. The foregoing are part of the functions, powers, and duties under the Area Redevelopment Act (42 U.S.C. 2501), delegated by the Secretary of Commerce to the Secretary of Agriculture (26 F.R. 9933).

(f) Rural Renewal Program activities consisting of making loans, making advances for technical assistance, coordination, direction, and supervision of Rural Renewal Projects, and assistance in planning, developing and carrying out such projects under section 32(e) of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1011(e)).

(g) Section 51(a) of the Alaska Omnibus Act (Note preceding 48 U.S.C. 21).

(h) Loan programs under Part A of Title III and the necessarily related functions in Title VI of the Economic Opportunity Act of 1964 (42 U.S.C. 2841-2854, 2942, 2946) delegated by the Director of the Office of Economic Opportunity to the Secretary of Agriculture (29 F.R. 14764).

(i) Servicing, collection, settlement, and liquidation of:

(1) Deferred land purchase obligations of individuals under the Wheeler-Case Act of August 11, 1939, as amended (16 U.S.C. 590y), and under the item, "Water Conservation and Utilization Projects" in the Department of the Interior Appropriation Act, 1940 (53 Stat. 719), as amended.

(2) Puerto Rican Hurricane Relief loans under the Act of July 11, 1956 (70 Stat. 525).

(j) Disposal of surplus property under the jurisdiction of the Farmers Home Administration which the Secretary of Agriculture is authorized to dispose of by the Administrator of the General Services Administration (40 U.S.C. 486).

Section 146 *Reservations.* (a) Making and issuing notes to the Secretary of the Treasury for the purposes of the Agricultural Credit Insurance Fund as authorized by the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1929), and Title V of the Housing Act of 1949 (42 U.S.C. 1484, 1485(b)), and requesting advances of funds evidenced by said notes and any similar notes executed under prior authorities (including 7 U.S.C. 1005b(j), 1005c(b), 1006e(a), 16 U.S.C. 590x-3(d)); where such notes or requests for advances thereunder would cause the aggregate outstanding unpaid principal balances thereon to exceed $135,000,000, or to exceed $25,000,000 thereof for domestic farm labor housing, or $10,000,000 thereof for rental housing for elderly persons and families.

(b) With respect to the functions assigned in section 145(h):

(1) Prescribing rules and regulations jointly with the Director of the Office of Economic Opportunity.

(2) Requesting the Director of the Office of Economic Opportunity to make advances to the revolving fund established pursuant to Section 606 of the Economic Opportunity Act of 1964.

(3) Requesting reimbursements from the Director of the Office of Economic Opportunity for the performance of such assigned functions.

(c) Designation of areas in which Emergency loans may be made (7 U.S.C. 1961).

Done at Washington, D.C., this 3d day of December 1964.

ORVILLE L. FREEMAN,
*Secretary.*

## ATOMIC ENERGY COMMISSION

[Docket No. 50-27]

### WASHINGTON STATE UNIVERSITY

### Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued, effective as of the date of issuance, Amendment No. 2, set forth below, to Facility License No. R-76. The license authorizes Washington State University (the licensee) to operate its pool-type nuclear reactor located on its campus in Pullman, Washington. The amendment authorizes the licensee (1) to modify the reactor scram circuitry in order to reduce scram delay times, in accordance with the procedures described in the application for license amendment dated August 12, 1964, and (2) to make certain revisions in the operating procedures as described in the application.

The Commission has found that:

1. The application for amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter 1, CFR;

2. Prior public notice of proposed issuance of this amendment is not required since the amendment does not involve significant hazards considerations different from those previously evaluated;

3. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. A request for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's rules of practice, 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the application for license amendment, and (2) a related hazards analysis prepared by the Research & Power Reactor Safety Branch of the Division of Reactor Licensing, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (2) above may be obtained at the Commission's Public Document Room, or upon request addressed to the Atomic Energy Commission, Washington, D.C., 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 30th day of November 1964.

For the Atomic Energy Commission.

ROGER S. BOYD,
*Chief, Research and Power Reactor Safety Branch, Division of Reactor Licensing.*

WASHINGTON STATE UNIVERSITY

[Docket No. 50-27]

FACILITY LICENSE AMENDMENT

License No. R-76
Amendment No. 2

1. Pursuant to the application for license amendment dated August 12, 1964, Facility License No. R-76, as amended, which authorizes Washington State University to operate its pool-type nuclear reactor located on its campus in Pullman, Wash., is further amended as follows:

A. Washington State University is authorized to modify the reactor scram circuitry to reduce scram delay times, in accordance with the procedures described in the application dated August 12, 1964.

B. The second paragraph a. of section 3 of Washington State University's report dated February 2, 1961; which is incorporated in the license, is revised to read:

"No experiment shall have a reactivity worth of more than 66 cents (0.005). In the fuel bearing portion of the reactor, that is, the region bounded by the inside surface of the graphite reflector elements on the sides and by water above and below the 24-inch vertical dimension of the fuel elements containing the uranium fuel, experiments shall be inserted and removed only when the reactor is subcritical as indicated in section 1, second paragraph b, above. In locations outside the above designated region, experiments having a reactivity worth of 10 cents or less may be inserted or removed while the reactor is critical provided that (1) the unknown worth of the sample has been determined in a fixed experiment at the position in question, or (2) the reactivity worth of a cadmium absorber having at least as great a surface area as the sample has been determined to have a worth of 10 cents or less by a fixed experiment at the position in question. Experiments having a reactivity worth of more than 10 cents shall be inserted or removed only during shutdown as in section 1, second paragraph b, above."

C. Paragraph 1. of section 1 of Washington State University's report dated February 2, 1961, is revised to read:

"No control blade shall be raised manually while fuel is in the core. No one shall be present on the reactor bridge when the magnets are disengaged from the control blades and separated from them by a distance of more than 4 inches."

D. Section 4.2.2, first paragraph, second sentence of Safeguard Report (GEAP-3100), dated February 16, 1959, and section 4.1.3, Item 2, second sentence of Safeguard Report supplement dated March 1959, which are incorporated in the license, are deleted and the following substituted therefor:

"Improper functioning of any component shall be reported immediately to the Senior Operator who shall decide what action to take. The reactor shall not be operated with any significant known defects in fuel elements, control rods or control circuitry."

E. Section 4.2.2, Item 4, first sentence of Safeguard Report dated February 16, 1959, is deleted and the following substituted therefor:

"When the proper indicators, as outlined above, approach the set power level, the servo control system may be activated by the operator. If desired, the reactor may be operated under manual control at all power levels."

2. This amendment is effective as of the date of issuance.

Date of issuance: November 30, 1964.

For the Atomic Energy Commission.

ROGER S. BOYD,
*Chief, Research and Power Reactor Safety Branch, Division of Reactor Licensing.*

# FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 15714, 15715; FCC 64R-1214]

## TRINITY BROADCASTING CO. AND WARNER BROS. PICTURES, INC.

### Order Continuing Prehearing Conference

In re applications of Trinity Broadcasting Company, Fort Worth, Texas, Docket No. 15714, File No. BPCT-3172; Warner Bros. Pictures, Inc., Fort Worth, Texas, Docket No. 15715, File No. BPCT-3272; for construction permit for new television broadcast station (Channel 20).

The Hearing Examiner having for consideration the Chief Hearing Examiner's order herein of November 30, 1964, wherein the presiding officer was appointed and a prehearing conference was scheduled for December 3, 1964;

It appearing, that certain of the issues in this proceeding are identical to those designated in the Commission's order released November 20, 1964 in Kaiser Industries Corporation, Docket No. 15667, et al. (FCC 64-1076, Mimeo. 59333), and that a more expeditious and economical disposition of such issues may be accomplished through the consolidation of hearing procedures insofar as hearing is to be conducted on the common issues:

*It is ordered*, This 1st day of December 1964, on the Hearing Examiner's own motion, that the prehearing conference now scheduled to commence on December 3, 1964, is continued to December 11, 1964, commencing at 9:00 a.m. in the offices of the Commission at Washington, D.C., and that, insofar as this proceeding involves issues in common with Kaiser Industries Corporation et al., the said prehearing conference will be consolidated with a prehearing conference to be held in Kaiser Industries Corporation.

Released: December 2, 1964.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
*Secretary.*

# CIVIL SERVICE COMMISSION

## POSITIONS FOR WHICH THERE IS DETERMINED TO BE MANPOWER SHORTAGE

### Notice of Listing

Under the provisions of Public Law 86-587, the Civil Service Commission has determined that there is a manpower shortage for the following:

| Series and grade | Positions | Location | Effective date |
|---|---|---|---|
| GS-1965-12 | Supervisory Materials Treatment Processes Quality Control Specialist (Nondestructive Testing). | Portsmouth Naval Shipyard, Portsmouth, N.H. | July 9, 1964 |
| GS-230-15 | Chief, Employee-Management Cooperation Staff, a position requiring experience in negotiations with unions and in management of a company program at headquarters level. | Federal Aviation Agency, Washington, D.C. | July 13, 1964 |
| GS-1530-17 | Assistant Commissioner for Educational Statistics. | Department of Health, Education, and Welfare, Washington, D.C. | Aug. 5, 1964 |
| GS-331-9/12 | Digital Computer Programer | Washington, D.C., Metropolitan Area and Ft. Meade, Md. | Aug. 28, 1964 |
| GS-334-9/12 | Digital Computer Systems Analyst | do | Do. |

If comparable positions exist which are not subject to the Classification Act, they are covered.

Travel and transportation expenses may be paid for appointees to their duty stations for the positions as listed above. Any such payments as a result of this determination must be made in accordance with travel regulations issued by the Bureau of the Budget.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
*Executive Assistant to the Commissioners.*

# FEDERAL POWER COMMISSION

[Docket No. RI65-332 etc.]

## AMERADA PETROLEUM CORP. ET AL.

### Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

NOVEMBER 30, 1964.

The Respondents named herein have filed proposed changes in rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

*The Commission finds.* It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

*The Commission orders.*

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however,* That the supplements to the rate schedules filed by Respondents, as set forth herein, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order Respondents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 20, 1965.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
*Secretary.*

[1] Does not consolidate for hearing or dispose of the several matters herein.

APPENDIX A

| Docket No. | Respondent | Rate schedule No. | Supplement No. | Purchaser and producing area | Amount of annual increase | Date filing tendered | Effective date unless suspended | Date suspended until | Cents per Mcf: Rate in effect | Cents per Mcf: Proposed increased rate | Rate in effect subject to refund in docket Nos. |
|---|---|---|---|---|---|---|---|---|---|---|---|

| | do | 76 | 5 | El Paso Natural Gas Co. (Bisti Area, San Juan County, N. Mex.) (San Juan Basin Area). | 7,602 | 11-4-64 | 12-5-64 [2] | 12-6-64 [3] | [7] 13.2486 | [4] [5] [7] 14.2678 | RI64-58. |
| | do | 99 | 2 | El Paso Natural Gas Co. (Ignacio Field, LaPlata County, Colo.). | 67 | 11-4-64 | 12-5-64 [2] | 12-6-64 [3] | [8] [9] 13.0 | [8] [9] 14.0 | |
| RI65-333 | Vierson & Cochran, Post Office Box 290, Okmulgee, Okla. | 3 | 1 | Cities Service Gas Co. (Grant County, Okla.) (Oklahoma "Other" Area). | 720 | 10-30-64 | 1-1-65 [6] | 1-2-65 [3] | [11] [12] 13.0 | [4] [10] [11] [12] 14.0 | |

[1] The stated effective date is the first day after expiration of the required statutory notice.
[2] The suspension period is limited to one day.
[3] Periodic rate increase.
[4] Pressure base is 15.025 p.s.i.a.
[5] Includes 1.0 cent per Mcf added to reflect minimum guarantee for liquids.
[7] Includes partial reimbursement for full 2.55 percent New Mexico Emergency School Tax.
[8] Settlement rate was 12.0 cents per Mcf, inclusive of 1.0 cent per Mcf minimum guarantee for liquids.
[9] The stated effective date is the effective date requested by Respondent.
[10] Pressure base 14.65 p.s.i.a.
[11] Subject to a downward B.t.u. adjustment.
[12] Subject to 0.75 cent per M.c.f. deduction by buyer for dehydration and 1.75 cents per Mcf deduction by buyer for compression.

Amerada Petroleum Corporation (Amerada) requests an effective date of November 1, 1964, for its proposed rate increases. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for Amerada's rate filings and such request is denied.

Supplements Nos. 5, 6 and 5 to Amerada's FPC Gas Rate Schedules Nos. 2, 49 and 76, respectively, include partial reimbursement for the full 2.55 percent New Mexico Emergency School Tax and a 1.0 cent per Mcf minimum guarantee for liquids. Amerada previously filed for this tax and the buyer, El Paso Natural Gas Company (El Paso) protested the filings in accordance with its policy of protesting all New Mexico Emergency School Tax reimbursement in excess of 0.55 percent. A similar protest was filed by El Paso on November 13, 1964, in connection with the present filings. While El Paso concedes that the New Mexico tax legislation effected a higher rate of at least 0.55 percent, it claims there is controversy as to whether or not the new legislation effected an increased tax rate in excess of 0.55 percent. Under the circumstances, we shall provide that the hearing provided for herein for Amerada's rate increases shall concern itself with the contractual basis as well as the statutory lawfulness thereof. The proposed rates for these three sales, which are in the San Juan Basin Area, exceed the 13.0 cents per Mcf ceiling applicable to such area by the amount of the tax reimbursement and the 1.0 cent per Mcf minimum guarantee for liquids. Since the proposed increases reflect tax reimbursement, the suspension period for each may be shortened to one day from December 5, 1964, the date of expiration of the statutory notice.

Amerada's proposed rate increase for a sale in Colorado and contained in Supplement No. 2 to Amerada's FPC Gas Rate Schedule No. 99, did not include as part of its proposed rate the contractually provided for 1.0 cent per Mcf minimum guarantee for liquids. The addition of this minimum guarantee of 1.0 cent per Mcf to the base rate results in a total rate in excess of the 13.0 cents per Mcf ceiling price for the area involved by the 1.0 cent per Mcf liquid guarantee and should be suspended for one day from December 5, 1964, the date of expiration of the statutory notice. Amerada's contract relating to this sale was executed after September 28, 1960, the date of issuance of the Commission's Statement of General Policy No. 61-1, as amended, and the proposed rate of 14.0 cents per Mcf is less than the 15.0 cents per Mcf initial service ceiling for Colorado, and for this reason, the rate is also suspended for one day.

Vierson & Cochran's related contract was executed subsequent to September 28, 1960, the date of issuance of the Commission's Statement of General Policy No. 61-1, as amended, and the proposed rate is above the applicable area ceiling for increased rates but does not exceed applicable ceiling price for initial rates in the area involved. We believe, in this situation, that Vierson & Cochran's proposed rate increase should be suspended for one day from January 1, 1965, the proposed effective date.

All of the proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, Ch. I, Part 2, § 2.56).

[F.R. Doc. 64-12468; Filed, Dec. 7, 1964; 8:45 a.m.]

[Docket No. RI65-334 etc.]

## AMERADA PETROLEUM CORP. ET AL.

### Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

NOVEMBER 30, 1964.

The Respondents named herein have filed proposed increased rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

*The Commission finds.* It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

*The Commission orders.*

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column, and thereafter

[1] Does not consolidate for hearing or dispose of the several matters herein.

until made effective as prescribed by the Natural Gas Act.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate scehdules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37 (f)) on or before January 20, 1965.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[2] The stated effective date is the first day after expiration of the required statutory notice.
[3] Periodic rate increase.
[4] Pressure base is 15.025 p.s.i.a.
[5] Covers 1.0 cent per Mcf periodic increase contractually due January 1, 1964, but not filed for due to settlement approved in Docket No. G-9385, et al., Amerada Petroleum Corp.
[6] Pressure base is 14.65 p.s.i.a.
[7] Subject to a downward B.t.u. adjustment.
[8] Rate before and after acceptance of offer of settlement by Commission Order issued February 1, 1963, in Docket No. G-9385, et al. Settlement order imposed a moratorium on rate increases which exceed the area ceiling until November 1, 1964.
[9] Settlement rate.
[10] Settlement rate. Order approving settlement issued February 1, 1963, in Docket No. G-9385, et al.
[11] The stated effective date is the effective date requested by Respondent.
[12] Includes 0.75 cent per Mcf deducted by buyer for dehydration.
[13] Includes 0.75 cent per Mcf deducted by buyer for dehydration and 1.75 cents per Mcf deducted by buyer for compression.
[14] Renegotiated rate increase.
[15] Tidewater's companywide settlement proposal, accepted by Commission order issued June 15, 1962, in Docket Nos. G-13310, et al., permitted filing for rate increases not to exceed 1.0 cent per Mcf after June 30, 1964, plus applicable tax reimbursement.
[16] Settlement rate established by Commission's order issued June 15, 1962, in Docket Nos G-13310, et al., approving Tidewater's companywide settlement.
[17] Initial rate.
[18] Redetermined rate increase.
[19] Contract provides for 1.0 cent per Mcf periodic increase. Instant filing reflects only a portion of the contractual due increase.
[20] Contractually due rate is 18.24347 cents per Mcf. Opinion No. 422, issued March 23, 1964, in Docket No. CI62-704, provides a moratorium on filing for increased rates exceeding 18.0 cents per Mcf pending final decision on area rate proceeding in Docket No. AR64-2, or January 1, 1968, whichever is earlier. Such proposed 18.0 cents per Mcf rate is considered "fractured."
[21] Opinion No. 422, issued March 23, 1964, conditioned initial rate to not exceed 16.0 cents per Mcf. Order was stayed pending judicial review by Opinion No. 422-A, issued May 27, 1964, Docket No. CI62-704.

Amerada Petroleum Corporation and Amerada Petroleum Corporation (Operator), et al. (both referred to herein as Amerada), request an effective date of November 1, 1964, for their proposed rate increases. Jocelyn-Varn Oil Company (Operator), et al., request an effective date of December 2, 1964, for Supplement No. 1 to their FPC Gas Rate Schedule No. 5, and Humble Oil & Refining Company (Humble) request waiver of notice to make its proposed rate increase effective as of November 1, 1964. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit earlier effective dates for the aforementioned producers rate filings and such requests are denied.

Tidewater Oil Company's (Tidewater) proposed rate increases are filed pursuant to the terms of Tidewater's general rate settlement approved by the Commission's order issued June 15, 1962, in Docket Nos. G-13310, et al. The order allows Tidewater to place into effect after June 30, 1964, rate increases of not more than 1.0 cent per Mcf under the rate schedules involved, plus a proportionate increase in tax reimbursement. Since the proposed rates exceed the area increased ceiling of 14.0 cents per Mcf, such increases are suspended as hereinbefore ordered.

Humble's proposed rate filing contains a "fractured" rate increase to 18.0 cents per Mcf, which represents a portion of its contractually due periodic increase (this sale by Humble was excluded from Humble's company-wide rate settlement). Humble previously filed a periodic increase to 18.24347 cents per Mcf for this sale, which was rejected as being in conflict with Opinion No. 422, issued March 23, 1964, in the matter entitled Amerada Petroleum Corporation, et al., Docket Nos. CI62-1544, et al. The Opinion provides for a moratorium on the filing of rate increases in excess of 18.0 cents per Mcf, inclusive of tax reimbursement, pending the issuance of a final decision in the area rate proceeding in Docket No. AR64-2, or until January 1, 1968, whichever is earlier. The instant increase is acceptable for filing because it does not exceed the 18.0 cents per Mcf moratorium level. However, since the proposed rate exceeds the applicable rate increase ceiling of 14.0 cents per Mcf, it is suspended as hereinbefore ordered.

All of the proposd increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR, Ch. I, Part 2, § 2.56).

## SECURITIES AND EXCHANGE COMMISSION

[File No. 7-2412, etc.]

### ASSOCIATED OIL & GAS CO. ET AL.

### Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

DECEMBER 2, 1964.

In the matter of applications of the Detroit Stock Exchange for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

Associated Oil & Gas Co., File 7-2412, Communications Satellite Corporation, File 7-2413, G. D. Searle & Co., File 7-2414, Syntex Corporation, File 7-2415, Texaco, Inc., File 7-2416.

Upon receipt of a request, on or before December 18, 1964, from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission (pursuant to delegated authority).

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 812-1725]

### IMPERIAL FUND, INC., ET AL.

### Notice of Filing of Application for Order Exempting Transactions Between Affiliated Persons

DECEMBER 2, 1964.

In the matter of Imperial Fund, Inc., 10709 Wayzata Boulevard, Minnetonka

26, Minnesota; Gold Eagle Corporation, 4725 Highway 7, Minneapolis 16, Minnesota; and Frank A. Warner, 4725 Highway 7, Minneapolis 16, Minnesota; File No. 812-1725.

Notice is hereby given that Imperial Fund, Inc. ("Imperial"), a Minnesota corporation and a registered open-end, diversified investment company, Gold Eagle Corporation ("Gold Eagle"), a Minnesota corporation, and Frank A. Warner ("Warner"), chairman of the board of directors of Gold Eagle, have filed a joint application under section 17(b) of the Act for an order exempting from the provisions of section 17(a) of the Act the proposed sale by Imperial to Warner of 77,000 shares of the common stock of Gold Eagle at a cash price of 7½ cents per share, or an aggregate price of $5,775. All interested persons are referred to the application on file with the Commission for a complete statement of applicants' representations which are summarized below.

Imperial owns 77,000 (8.9 percent) of the outstanding shares of the common stock of Gold Eagle, and Warner owns of record and beneficially 63,861 (7.4 percent) of the outstanding shares of common stock of Gold Eagle. Warner also controls the Frank Warner Corporation which owns 79,653 (9.3 percent) of the outstanding shares of common stock of Gold Eagle. Accordingly, Warner is an affiliated person of an affiliated person (Gold Eagle) of Imperial.

Gold Eagle is engaged directly and through subsidiaries in the business of establishing and operating coin-operated laundry and dry-cleaning service centers. Imperial acquired its holdings of 77,000 shares of Gold Eagle common stock during the period September 17, 1960, through March 28, 1962, at an aggregate cost of $120,736.90.

At June 30, 1964, the consolidated book value of the common stock of Gold Eagle and its subsidiaries amounted to 66 cents per share. Gold Eagle and its subsidiaries have sustained consolidated net operating losses for the fiscal years ended August 31, 1961, 1962 and 1963, and for the 10 months ended June 30, 1964, in the amounts of $50,555, $38,146, $225,666 and $76,381.30 respectively. The application states that the statement of consolidated earnings of Gold Eagle and its subsidiaries for the fiscal year ended August 31, 1964, is not available; and that it is estimated that the company will incur a net loss of approximately $117,000 (approximately 12 cents a share).

The application also states that Gold Eagle common stock is not listed on any securities exchange, that it is traded inactively, and that on September 9, 1964, the market quotations on such stock were bid —5 cents, asked —10 cents. The proposed sale price of 7½ cents a share was determined by taking the average of such bid and asked prices. The application further states that Imperial received only two other offers for the purchase of its holdings of Gold Eagle common stock; one firm offered Imperial 2 cents a share for such stock in June 1964, and another firm offered Imperial 3 cents a share for the stock in August 1964.

The application states that Imperial desires to dispose of its holdings of Gold Eagle stock because Gold Eagle "has suffered severe financial reverses"; that Imperial's board of directors and investment adviser are of the opinion that "the proposed sale represents the best disposition of the Gold Eagle shares possible under the circumstances"; and that the proposed sale was approved by Imperial's board of directors at its meeting held on September 9, 1964.

Notice is further given that any interested person may, not later than December 21, 1964, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicants at the addresses stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

Upon receipt of a request, on or before December 18, 1964, from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington 25, D.C., not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission (pursuant to delegated authority).

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

# INTERSTATE COMMERCE COMMISSION

## ORGANIZATION

### Assignment of Duties to Individual Commissioners

NOVEMBER 25, 1964.

The Interstate Commerce Commission has amended its Organization Minutes, being assignment of work, business and functions pursuant to section 17 of the Interstate Commerce Act, as amended, issue of March 7, 1961, revised to May 1, 1961 (26 F.R. 4773, 5167, 8434, 10991 and 12789; 27 F.R. 1234, 1747, 2500, 3830 and 9997; 28 F.R. 198, 896 and 8185; and 29 F.R. 3027, 4935, 11401, 12503 and 14517) as follows:

Under the heading Assignment of Duties to Individual Commissioners, paragraph (c) of Item 6.2, assignments to Chairman, is amended to read as follows:

Approval for publication of all publicly issued documents by a bureau or office, except (1) publications authorized or adopted by the Commission, a division, or a single Commissioner which involve decisions and/or orders resulting from a formal proceeding; (2) decisions and/or orders, informal opinions of any bureau or office, or any recommended report and order of any hearing officer, and any matters directly related thereto; (3) documents prepared for court cases or for introduction into evidence in formal proceedings; (4) material of a transitory or personal nature, such as speeches, articles, etc.; (5) publications authorized and adopted by the entire Commission; and (6) reports made by the Director of Locomotive Inspection pursuant to section 7 of the Locomotive Inspection Act.

[Notice 7]

## FINANCE APPLICATIONS

DECEMBER 3, 1964.

The following publications are governed by the Interstate Commerce Commission's General Requirements governing notice of filing of applications under sections 20a except (12) and 214 of the Interstate Commerce Act. The Commission's order of May 20, 1964, providing for such publication of notice, was published in the FEDERAL REGISTER issue of July 31, 1964 (29 F.R. 11126) and became effective October 1, 1964.

All hearings and prehearing conferences, if any, will be called at 9:30 a.m., U.S. standard time unless otherwise specified.

F.D. No. 23400—By application filed November 27, 1964, Ringsby-Pacific Ltd. (formerly Fortier Transportation Company), 3201 Ringsby Court, Denver 5, Colo., seek authority to (1) issue a promissory note in the amount of $750,000 payable to Ringsby Truck Lines, Inc., (2) issue a promissory note in the amount of $3,275.83 payable to Donald J. Fortune, (3) issue a promissory note in the amount of $112,099.17 payable to Evelyn Margaret Bernard, as Trustee for Donald J. Fortune; and (4) assume the obligations of Interstate Freight Lines, Inc., as follows: a promissory note payable to the estate of Harold H. Mallory, with the face amount of $382,000, balance due as of May 31, 1964, $248,580. Applicant's attorney: Bruce R. Geernaert, Berol, Loughran & Geernaert, 100 Bush Street, San Francisco, Calif., 94104. Protests must be filed no later than 15 days from date of publication in the FEDERAL REGISTER.

NOTE: This application is directly related to MC-F-8856, Fortier Transportation Company—Purchase—Interstate Freight Lines, Inc., published in the FEDERAL REGISTER issue of August 26, 1964.

F.D. No. 23407—By application filed November 30, 1964, Eazor Express, Inc., Eazor Square, Allegheny County, Pittsburgh, Pa., 15201, seeks authority to issue 125,000 shares of common stock, $1.00 par value, as a stock dividend on a share for share basis. Applicant's attorney: Frank J. Pohl, Burgwin, Ruffin, Perry & Pohl, 2323 Grant Building, Pittsburgh, Pa., 15219. Protests must be filed no later than 15 days from date of publication in the FEDERAL REGISTER.

By the Commission.

[Notice 1088]

## MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 3, 1964.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

Finance Docket No. 23381. By order of November 27, 1964, The Transfer Board approved the transfer to The Callanan Marine Corporation, South Bethlehem, N.Y., of the operating rights in Second Amended Certificate and Order entered February 5, 1948, in No. W-103 (Joseph R. Hutton—Contract Carrier Application) embracing the water carrier operating rights of The Callanan Road Improvement Company, a corporation, South Bethlehem, N.Y., authorizing the transportation of commodities generally, by self-propelled and nonself-propelled vessels, serving New York Harbor and harbors contiguous thereto, as defined by the Commission in the proceeding Ex Parte No. 140, and points along the Hudson River below and including Waterford, N.Y. James E. Wilson, 716 Perpetual Building, 1111 E Street NW., Washington, D.C., attorney for applicants.

No. MC-FC 67158. By order of November 30, 1964, The Transfer Board approved the transfer to Maurice S. Ausley II, doing business as Ausley Motor Freight, El Reno, Okla., of portion of the operating rights claimed in No. MC 99088 Sub 1, under the "grandfather" clause of Section 206(a)(7)(B), Interstate Commerce Act by Stanley P. Carter, doing business as El Reno-Guthrie Motor Freight, Oklahoma City, Okla., and the substitution of transferee as applicant for a Certificate of Registration from this Commission, corresponding to the grant of intrastate authority to transferor issued originally by the Oklahoma Corporation Commission in No. A-888, now assigned No. A-1072. Roy L. Sullivan, McInnis and Sullivan, Liberty Bank Building, Oklahoma City, Okla., attorney for applicants.

No. MC-FC 67225. By order of November 25, 1964, The Transfer Board approved the transfer to Distributors Transit, Inc., Glassport, Pa., of a portion of Certificates in Nos. MC 52464 and MC 52464 Sub 2, issued June 4, 1958 and April 1, 1959, respectively, to Richards Transport, Inc., Glassport, Pa., authorizing the transportation of: Glassware, from Glassport, Pa., to points in New York, Ohio, West Virginia, and Maryland; and such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, between points in Pennsylvania within 50 miles of Greensburg, Pa., including Greensburg. Arthur J. Diskin, 302 Frick Building, Pittsburgh 19, Pa., attorney for applicants.

No. MC-FC 67241. By order of November 27, 1964, The Transfer Board approved the transfer to A. L. Harris and George Degrella, a partnership, doing business as Hobbs Distributing Company, Nashville, Tenn., of Certificate No. MC 117791, issued April 10, 1964, to R. E. Hobbs, doing business as Hobbs Distributing Company, Nashville, Tenn., authorizing the transportation of bananas, over irregular routes, from Mobile, Ala., New Orleans, La., Tampa and Miami, Fla., to Nashville, Tenn., with private carrier restrictions. Walter Harwood, 515 Nashville Bank & Trust Building, Nashville, Tenn., attorney for applicants.

No. MC-FC 67281. By order of November 27, 1964, The Transfer Board approved the transfer to Clyde B. Didlake, doing business as Clyde's Charter Bus Service, Glen Burnie, Md., of the operating rights in Certificate No. MC 36788, issued October 24, 1952, to James Milton Johnson, doing business as Johnson Motor Bus Service, Pasadena, Md., authorizing the transportation, over irregular routes, of: Passengers and their baggage, subject to certain restrictions, in charter operations, from points in Anne Arundel County, Md., to points in Maryland, the District of Columbia, Virginia, Pennsylvania, and Delaware, and return. S. Harrison Kahn, Investment Building, Washington, D.C., attorney for applicants.

No. MC-FC 67287. By order of November 30, 1964, The Transfer Board approved the transfer to Pines E. Dunn, doing business as Franklin's Moving & Storage, Medford, Oreg., of Certificate No. MC 112523, issued June 3, 1959, to Dave M. Franklin, doing business as Franklin's Moving & Storage, Grants Pass, Oreg., authorizing the transportation of household goods as defined by the Commission, over irregular routes, between points in Josephine County, Oreg. William B. Adams, 624 Pacific Building, Portland, Oreg., 97204, attorney for applicants.

No. MC–FC 67318. By order of November 27, 1964, The Transfer Board approved the transfer to Eugene J. Kane, 101–111 East Market Street, Scranton, Pa., of the operating rights in Certificate No. MC 48694, issued July 9, 1964, to Benjamin F. Rozelle, 1215 Pettibone Street, Scranton, Pa., authorizing the transportation, over irregular routes, of general commodities, excluding household goods, commodities in bulk, and other specified commodities, between Scranton, Pa., and points within eight miles of Scranton.

No. MC–FC 67340. By order of November 30, 1964, The Transfer Board approved the transfer to Ronald W. Nathan, doing business as Chandler's Auto Express, Chandler Street, Duxbury, Mass., of the operating rights in Certificate of Registration No. MC 120416 Sub 1, issued April 23, 1964, to Richard H. Marshall, doing business as Chandler's Auto Express, Bay Road, Duxbury, Mass., corresponding to the grant of intrastate authority to transferor, issued by the Massachusetts Department of Public Utilities in Regular Route Common Carrier Certificate No. 204, dated October 22, 1959.

No. MC–FC 67341. By order of November 27, 1964, The Transfer Board approved the transfer to Willard Borum, doing business as Appleton City Truck Line, Appleton City, Mo., of Certificate No. MC 59437, issued April 23, 1954, to James B. Tredway, doing business as Tredway Truck Line, Appleton City, Mo., authorizing the transportation of general commodities, excluding household goods and commodities in bulk, over regular routes, between Montrose, Mo., and Kansas City, Kans., serving the intermediate and off-route points of Butler, Kansas City, and Appleton City, Mo., and those within 12 miles of Appleton City; and household goods, over irregular routes, between Appleton City, Mo., and points within 12 miles thereof, on the one hand, and, on the other, points in Kansas and Iowa. Willard Borum, 105 East 4th Street, Appleton City, Mo., representative for applicants.

No. MC–FC 67344. By order of November 30, 1964, The Transfer Board approved the transfer to Vernon Roberts, doing business as Roberts Trucking Co., Poteau, Okla., of Certificate No. MC 32777, issued August 6, 1958, to Lofton H. Cline and William E. Cline, a partnership, doing business as Hester Motor Company, Poteau, Okla., authorizing the transportation of general commodities, excluding household goods and commodities in bulk, over regular route, between Heavener, Okla., and Fort Smith, Ark., serving the intermediate points of Spiro, Okla., and those south of Spiro, without restriction; and those north of Spiro restricted to northbound traffic. Max G. Morgan, 450 American National Building, Oklahoma City, Okla., representative for transferee and L. H. Cline, 111 North McKenna, Poteau, Okla., representative for transferor.

No. MC–FC 67357. By order of November 30, 1964, The Transfer Board approved the transfer to Edward Duff Murray, doing business as Quick Service Transfer Company, Chehalis, Wash., of the operating rights in Certificate No. MC 1405, issued March 14, 1942, to John C. Nowadnick and George W. Nowadnick, doing business as Quick Service Transfer Company, Chehalis, Wash., authorizing the transportation, over irregular routes, of: General commodities, with the usual exceptions, and authorizing the transportation of household goods, as defined by the Commission, in radial movements, between specified points in Washington, and points in Oregon. Robert F. Murray, Doneen Building, Wenatchee, Wash., attorney for applicants.

[SEAL] HAROLD D. McCOY, *Secretary.*

FEDERAL REGISTER

Area Code 202 Phone 963-3261

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Pages 16851–16903

### Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

SUBCHAPTER A—COMMODITY STANDARDS AND STANDARD CONTAINER REGULATIONS

### PART 29—TOBACCO INSPECTION

#### Subpart C—Standards

MISCELLANEOUS AMENDMENTS

A notice of proposed rule making covering amendments to the Official Standard Grades for Pennsylvania Seedleaf Tobacco, U.S. Type 41, was published in the FEDERAL REGISTER of October 28, 1964 (29 F.R. 14668). Interested persons were given 30 days following publication of the notice in the FEDERAL REGISTER in which to submit written data, views, or arguments with respect to the proposed amendments. No data, views, or arguments were received.

After consideration of all relevant matters concerning the proposal, the proposed amendments, as so published, are adopted without change.

*Effective date.* In accordance with section 4 of the Administrative Procedure Act (5 U.S.C. 1003), these amendments shall become effective 30 days following the date of publication in the FEDERAL REGISTER.

The amendments are set forth below.

Done at Washington, D.C., this 3d day of December, 1964.

G. R. GRANGE,
*Deputy Administrator,*
*Marketing Services.*

1. The parenthetical references in §§ 29.4257, 29.4259, and 29.4286 are revoked.

2. The following sentence is added at the end of § 29.4269: "Throwout leaves not meeting C-group grade specifications will be included in the X and Y groups.".

3. Section 29.4277 is revoked.

4. In the second sentence of § 29.4301, the words "frozen or" are deleted from item (b).

5. In § 29.4302 the second sentence is revoked.

6. Section 29.4335 is revoked.

7. In the last sentence of § 29.4336 the word "graded" is substituted for the word "designated."

8. Section 29.4346 is deleted and the following is substituted therefor:

**§ 29.4346 Rule 15.**

Frozen or frostbitten tobacco shall be included only in N1 or N2.

9. In § 29.4347 the word "designated" is deleted and the word "graded" is substituted therefor; and the last two words "any group" are deleted and "the C, X, and Y groups" are substituted therefor.

10. In § 29.4362 the tolerances for grade X3 are amended to read: "Tolerances: less than 20 percent crude and 30 percent waste.".

11. In § 29.4363 the heading and first sentence are deleted and the following is substituted therefor:

**§ 29.4363 Farm Filler (Y Group).**

This group consists of tied tobacco and normally is tobacco from the lower portion of the stalk.

12. The text of § 29.4364 is deleted and the following is substituted therefor:

**§ 29.4364 Nondescript (N Group).**

Frozen or frostbitten tobacco or tobacco which does not meet the minimum specifications or exceeds either tolerance of the lowest grade of any other group.

| *U.S. Grades* | *Grade Names and Specifications* |
|---|---|
| N1 | Field frozen or frostbitten tobacco in safe-keeping order or case. |
| N2 | Frozen or frostbitten tobacco which is wet or in doubtful-keeping order or case. |
| No-G | Tobacco which contains chicken dust, stone dust, or other foreign matter; is hail-cut or wasted in excess of the tolerances for X3 or Y2; is damaged, dirty, nested, offtype, semicured, wet, shingled or otherwise improperly packed; has an odor foreign to the type; contains 20 percent or more crude; or does not meet the minimum specifications of the lowest grade of the C, X, or Y groups. |

13. In § 29.4386 delete:

*1 Grade of Nondescript*
N

and substitute therefor:

*3 Grades of Nondescript*
N1
N2
No-G

14. The sentence "Tobacco not covered by standard grades is designated 'No-G.'" is also deleted from § 29.4386.

(49 Stat. 734; 7 U.S.C. 511m)

[F.R. Doc. 64-12575; Filed, Dec. 8, 1964; 8:46 a.m.]

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

### PART 917—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

#### Expenses and Rates of Assessment for 1964–65 Season

Pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the proposals submitted by the Control Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that the expenses for the maintenance and functioning of such committee and the respective commodity committees, established pursuant to the provisions of the aforesaid amended marketing agreement and order, are as follows:

(1) • • •;
(2) Early varieties of plums, $24,000;
(3) Late varieties of plums, $24,000; and
(4) • • •.

*It is therefore, ordered,* That paragraph (a) of § 917.203 *Expenses and rates of assessment for the 1964–65 season* (29 F.R. 7452) is hereby amended by deleting therefrom in subparagraphs (2) the amount $20,939.23 and (3) the amount $20,939.22 and substituting in lieu thereof the amount $24,000. As amended paragraph (a) of § 917.203 reads as follows:

**§ 917.203 Expenses and rates of assessment for the 1964–65 season.**

(a) *Expenses.* The expenses likely to be incurred by the Control Committee during the 1964–65 season beginning March 1, 1964, and ending February 28, 1965, both dates inclusive, for the maintenance and functioning of such committee and the respective commodity committees, established pursuant to the provisions of the aforesaid amended marketing agreement and order, are as follows:

(1) Bartlett pears, $19,477.97;
(2) Early varieties of plums, $24,000;
(3) Late varieties of plums, $24,000; and
(4) Elberta peaches, $13,481.58.

• • • • • •

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in rule making procedure, and postpone the effective date of this amendatory order until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that: (1) The increase in the budget set forth above does not involve an increase in the rates of assessment heretofore established by the Secretary (29 F.R. 7452); and (2) the said committee in the performance of its duties and functions has incurred obligations in excess of the expenses previously thought likely to be incurred. Therefore, it is essential that this amendatory action be issued immediately so that said committee can meet its obligations.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 4, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 64-12576; Filed, Dec. 8, 1964; 8:46 a.m.]

### Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 5]

### PART 1005—MILK IN TRI-STATE MARKETING AREA

#### Order Amending Order

**§ 1005.0 Findings and determinations.**

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Tri-State marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order, as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* (1) It is necessary in the public interest to make this order amending the order effective on the date of its publication in the FEDERAL REGISTER. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

(2) The provisions of the said order are known to handlers. The decision of the Assistant Secretary containing all amendment provisions of this order was issued December 1, 1964. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective on the date of its publication in the FEDERAL REGISTER, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 4(c), Administrative Procedure Act, 5 U.S.C. 1001–1011).

(c) *Determinations.*—It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least three-fourths of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

*Order relative to handling.—It is therefore ordered,* That on and after the effective date hereof, the handling of milk in the Tri-State marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

In § 1005.51(a), the introductory text preceding the table therein is revised to read as follows:

**§ 1005.51 Class I milk prices.**

• • • • • •

(a) Add the following amounts for the months indicated, plus 20 cents from the effective date of this provision through December 1964, and plus 10 cents for January and February 1965.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: Date of publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on December 4, 1964.

GEORGE L. MEHREN,
*Assistant Secretary.*

[F.R. Doc. 64-12612; Filed, Dec. 8, 1964; 8:49 a.m.]

## Title 12—BANKS AND BANKING

### Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

### PART 224—DISCOUNT RATES

#### Changes in Rates

Pursuant to section 14(d) of the Federal Reserve Act (12 U.S.C. 357), and for the purpose of adjusting discount rates with a view to accommodating commerce and business in accordance with other related rates and the general credit situation of the country, Part 224 is amended as set forth below:

1. Section 224.2 is amended to read as follows:

**§ 224.2 Advances and discounts for member banks under sections 13 and 13a.**

The rates for all advances and discounts under sections 13 and 13a of the Federal Reserve Act (except advances under the last paragraph of such section 13 to individuals, partnerships, or corporations other than member banks) are:

| | Rate | Effective |
|---|---|---|
| Federal Reserve Bank of: | | |
| Boston | 4 | Nov. 24, 1964 |
| New York | 4 | Do. |
| Philadelphia | 4 | Do. |
| Cleveland | 4 | Nov. 27, 1964 |
| Richmond | 4 | Do. |
| Atlanta | 4 | Nov. 25, 1964 |
| Chicago | 4 | Nov. 24, 1964 |
| St. Louis | 4 | Do. |
| Minneapolis | 4 | Nov. 30, 1964 |
| Kansas City | 4 | Do. |
| Dallas | 4 | Nov. 27, 1964 |
| San Francisco | 4 | Do. |

2. Section 224.3 is amended to read as follows:

**§ 224.3 Advances to member banks under section 10(b).**

The rates for advances to member banks under section 10(b) of the Federal Reserve Act are:

| | Rate | Effective |
|---|---|---|
| Federal Reserve Bank of: | | |
| Boston | 4½ | Nov. 24, 1964 |
| New York | 4½ | Do. |
| Philadelphia | 4½ | Do. |
| Cleveland | 4½ | Nov. 27, 1964 |
| Richmond | 4½ | Do. |
| Atlanta | 4½ | Nov. 25, 1964 |
| Chicago | 4½ | Nov. 24, 1964 |
| St. Louis | 4½ | Do. |
| Minneapolis | 4½ | Nov. 30, 1964 |
| Kansas City | 4½ | Do. |
| Dallas | 4½ | Nov. 27, 1964 |
| San Francisco | 4½ | Do. |

3. Section 224.4 is amended to read as follows:

**§ 224.4 Advances to persons other than member banks.**

The rates for advances to individuals, partnerships, or corporations other than member banks secured by direct obligations of the United States under the last paragraph of section 13 of the Federal Reserve Act are:

| | Rate | Effective |
|---|---|---|
| Federal Reserve Bank of: | | |
| Boston | 5½ | Nov. 24, 1964 |
| New York | 5 | Do. |
| Philadelphia | 5 | Do. |
| Cleveland | 5½ | Nov. 27, 1964 |
| Richmond | 5 | Do. |
| Atlanta | 6 | Nov. 25, 1964 |
| Chicago | 5 | Nov. 24, 1964 |
| St. Louis | 5 | Do. |
| Minneapolis | 5 | Nov. 30, 1964 |
| Kansas City | 5 | Do. |
| Dallas | 5 | Nov. 27, 1964 |
| San Francisco | 5 | Do. |

For the reasons and good cause found as stated in § 224.7, there is no notice, public participation, or deferred effective date in connection with this action.

(12 U.S.C. 248(i). Interprets or applies 12 U.S.C. 357)

Dated at Washington, D.C., this 30th day of November 1964.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.
[SEAL] MERRITT SHERMAN, *Secretary.*

[F.R. Doc. 64-12490; Filed, Dec. 8, 1964; 8:45 a.m.]

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 18,634]

## PART 545—OPERATIONS

### Educational Loans

DECEMBER 3, 1964.

Resolved that, notice and public procedure having been duly afforded (29 F.R. 13834) and all relevant material presented or available having been considered by it, the Federal Home Loan Bank Board, upon the basis of such consideration and of determination by it of the advisability of amendment of Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545) to implement section 910 of the Housing Act of 1964 and to authorize Federal savings and loan associations to invest in loans for the payment of expenses of college or university education, and for the purpose of effecting such amendment, hereby amends said Part 545 as hereinafter set forth, effective December 9, 1964.

Part 545 is hereby amended by adding after § 545.8 a new section as follows:

**§ 545.8–1 Educational loans.**

Any Federal association is authorized to invest in loans, obligations, and advances of credit (all of which are hereinafter referred to in this section as "loans") made for the payment of expenses of college or university education, but no Federal association shall make any investment in loans under this section if the principal amount of its investment in such loans, exclusive of any investment which is or which at the time of its making was otherwise authorized, would thereupon exceed 5 percent of its assets. Such loans may be secured, partly secured, or unsecured, and the association may require a comaker or comakers, insurance, guaranty under a governmental student loan guarantee plan, or other protection against contingencies. The borrower shall certify to the association that the proceeds of the loan are to be used by a full-time student solely for the payment of expenses of college or university education. For the purpose of this section, the term "college or university education" means education at an institution which provides an educational program for which it awards a bachelor's degree, or provides not less than a two-year program which is acceptable for full credit toward such a degree.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp)

Resolved further that, inasmuch as the foregoing amendment relieves restriction, the Board hereby finds that postponement of the effective date under the provisions of § 508.14 of the general regulations of the Federal Home Loan Bank Board and section 4(c) of the Administrative Procedure Act is not required and the Board hereby provides that the said amendment shall become effective as hereinbefore set forth.

By the Federal Home Loan Bank Board.

[SEAL] HARRY W. CAULSEN, *Secretary.*

[F.R. Doc. 64-12604; Filed, Dec. 8, 1964; 8:49 a.m.]

# Title 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

[Docket No. C-860]

## PART 13—PROHIBITED TRADE PRACTICES

### Wayne Golf Ball Co. et al.

Subpart—Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1880 *Old, used, or reclaimed as unused or new.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Wayne Golf Ball Company et al., Docket C-860, Nov. 25, 1964.]

*In the Matter of Wayne Golf Ball Company, a corporation, and Raymond S. Zack, and Albert Asselin, individually and as officers of said corporation*

Consent order requiring a Roseville, Mich., corporation engaged in rebuilding used golf balls, to cease selling or distributing such golf balls without conspicuously disclosing that they are previously used golf balls which have been rebuilt or reconstructed.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

*It is ordered,* That respondents Wayne Golf Ball Co., a corporation, and its officers, and Raymond S. Zack and Albert Asselin, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of used, rebuilt, reconstructed or re-covered golf balls in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Failing to clearly and conspicuously disclose on the boxes or bags in which the respondents' rebuilt or reconstructed golf balls are packaged, on the wrapper and on said golf balls themselves, that they are previously used balls which have been rebuilt or reconstructed. Provided, however, that disclosure need not be made on the golf balls themselves if respondents establish that the disclosure on the boxes, bags and/or wrappers is such that retail customers, at the point of sale, are informed that the golf balls are previously used and have been rebuilt, reconstructed or re-covered.

2. Placing any means or instrumentalities in the hands of others whereby they may mislead the public as to the prior use and rebuilt or re-covered nature and construction of their golf balls.

*It is further ordered,* That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: November 25, 1964.

By the Commission.

[SEAL] JOSEPH W. SHEA, *Secretary.*

[F.R. Doc. 64-12550; Filed, Dec. 8, 1964; 8:45 a.m.]

# Title 17—COMMODITY AND SECURITIES EXCHANGES

## Chapter II—Securities and Exchange Commission

[Release No. 33-4733, 34-7467]

## PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

## PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

### Miscellaneous Amendments

The Securities and Exchange Commission has adopted amendments to Form S-8 under the Securities Act of 1933 (Securities Act) (set forth in full as 17 CFR 239.16b) and to Rule 10b-6 and Rule 16b-3 under the Securities Exchange Act of 1934 (Exchange Act) (17 CFR 240.10b-6 and 240.16b-3). The purpose of the amendments is to revise Form S-8 to authorize that form for registration of stock to be offered pursuant to options which meet the conditions set forth in section 424(b) of the Internal Revenue Code for "restricted stock options" except for the fact that the options are granted after January 1, 1964, and to extend the exemptive provisions of Rule 16b-3 and paragraph (e) of Rule 10b-6 to such options.

Form S-8 may be used for the registration under the Securities Act of 1933 of securities offered pursuant to certain unincorporated stock purchase, savings or similar plans and interests in such plans. Previously, however, it could be used for the registration of stock to be offered pursuant to a stock option plan only if the options were "qualified," "restricted" or "employee stock purchase plan" stock options as those terms are defined in sections 422 through 424 of the Internal Revenue Code of 1954 as amended.

Rule 10b-6 was adopted pursuant to section 10(b) of the Exchange Act which makes it unlawful for any person by use of the mails, any instrumentality of interstate commerce, or any facility of a national securities exchange, in connection with the purchase or sale of any security, to use any manipulative or deceptive device or contrivance "in contravention of such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors." Rule 10b-6 makes it unlawful for participants in a distribution of securities, including the issuer of the securities, to purchase any such security, or any security of the same class or series, until completion of their participation in the distribution, subject to specified exceptions. Paragraph (e) of Rule 10b-6 provides that the prohibitions of the rule do not apply, inter alia, to any distribution of securities by an issuer to its employees, or to employees of its subsidiaries, or to a trustee or other person acquiring securities for the account of such employees, pursuant to a stock option plan involving only "qualified stock options" or "restricted stock options" or qualifying as an "employee stock purchase plan." Previously these terms were defined only by reference to sections 422 through 424 of the Internal Revenue Code of 1954, as amended.

Rule 16b-3 was adopted pursuant to section 16(b) of the Exchange Act, which was enacted for the purpose of preventing the unfair use of information in short-term trading by persons owing beneficially more than 10% of any class of equity security which is registered pursuant to section 12 of the Exchange Act and by directors and officers of the issuer of such security. Section 16(b) provides that profits realized by such persons from the purchase and sale, or the sale and purchase, of any equity security of the company, within a period of less than six months, inure to and are recoverable by or on behalf of the company. Rule 16b-3 provides an exemption from section 16(b) for shares of stock (other than stock acquired upon the exercise of an option, warrant, or right) acquired by an officer or director pursuant to a stock bonus, profit sharing, retirement, incentive, thrift, savings or similar plan meeting specified conditions. The rule also exempts the acquisition of a "qualified" or a "restricted" stock option pursuant to a qualified or a restricted stock option plan, or a stock option pursuant to an "employee stock purchase plan." The terms "qualified stock option," "restricted stock option" and "employee stock purchase plan" previously were defined only by reference to sections 422 through 424 of the Internal Revenue Code, as amended.

Before August 27, 1964 Form S-8 was available for registration of stock to be offered pursuant to "restricted stock options" as defined in former section 421 of the Internal Revenue Code, and the aforementioned exemptive provisions of Rules 10b-6 and 16b-3 applied to such options. On August 27, 1964 the Commission adopted certain amendments to various of its forms, including Form S-8, and to Rules 10b-6 and 16b-3 with respect to stock options which are eligible for special tax benefits (Securities Act Release No. 4718, Securities Exchange Act Release No. 7403, 29 F.R. 12676). These amendments were adopted to make the Commission's forms and rules consistent with the Internal Revenue Code, as amended by the Revenue Act of 1964, i.e., to provide for all tax-favored options the same exemptive or other favorable treatment as had been extended to the previous tax-favored options.

It has now been brought to the attention of the Commission that certain companies desire to continue to grant options which meet the former requirements for "restricted stock options" but which are not eligible for special tax benefits as the result of the amendments to the Internal Revenue Code. The effect of the amendments on Form S-8 and Rules 10b-6 and 16b-3 is to make the Form S-8 available for registration of stock offered pursuant to these "restricted stock options" and to make the exemptive provisions of Rule 16b-3 and paragraph (e) of Rule 10b-6 applicable to such options if they meet the requirements of section 424(b) for "restricted stock options" except for the fact such options are granted after January 1, 1964.

*Commission action.* The Securities and Exchange Commission hereby amends §§ 239.16b, 240.10b-6 and 240.16b-3 as follows:

**§ 239.16b Form S-8, for registration under the Securities Act of 1933 of securities to be offered to employees pursuant to certain plans.**

(a) *General instructions*—(1) *Rule as to use of Form S-8.* Any issuer which at the time of filing a registration statement on this form is required to file reports pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 may use this form for registration under the Securities Act of 1933 of the following securities:

* * * * * * *

(iii) Stock to be offered pursuant to "qualified," or "employee stock purchase plan" stock options as those terms are defined in sections 422 and 423 of the Internal Revenue Code of 1954, as amended, or "restricted stock options" as defined in section 424(b) thereof, provided however, that for the purposes of this paragraph an option which meets all of the conditions of that section other than the date of issuance shall be deemed to be "restricted stock options."

* * * * * * *

(d) *Information required in the prospectus.* * * *

* * * * * * *

NOTE. Items 1 to 11, inclusive, apply only to plans other than qualified or restricted stock option plans and need not be answered if the plan is a qualified or restricted stock option plan as defined in subsection (1)(iii) of the General Instructions.

* * * * * * *

NOTE. Items 12 to 18, inclusive, apply only to qualified or restricted stock option plans and need not be answered if the plan is not a qualified or restricted stock option plan as defined in subsection (1)(iii) of the General Instructions.

* * * * * * *

**§ 240.10b–6 Prohibition against trading by persons interested in a distribution.**

* * * * * * *

(e) The provisions of this rule shall not apply to any distribution of securities by an issuer to its employees, or to employees of its subsidiaries, or to a trustee or other person acquiring such securities for the account of such employees, pursuant to (1) a stock option plan involving only "qualified stock options," or qualifying as an "employee stock purchase plan" as those terms are defined in sections 422 and 423 of the Internal Revenue Code of 1954, as amended or "restricted stock options" as defined in section 424(b) of the Internal Revenue Code of 1954, as amended, provided however, that for the purposes of this paragraph an option which meets all of the conditions of that section other than the date of issuance shall be deemed to be "restricted stock options"; or (2) a savings, investment, or stock purchase plan providing for both (i) periodic payments (or payroll deductions) for acquisition of securities by participating employees and (ii) periodic purchases of the securities by participating employees, or the person acquiring them for the account of such employees.

* * * * * * *

**§ 240.16b–3 Exemption from section 16(b) of acquisitions of shares of stock and stock options under certain stock bonus, stock option or similar plans.**

Any acquisition of shares of stock (other than stock acquired upon the exercise of an option, warrant or right) pursuant to a stock bonus, profit sharing, retirement, incentive, thrift, savings or similar plan, or any acquisition of a qualified or a restricted stock option pursuant to a qualified or a restricted stock option plan, or of a stock option pursuant to an employee stock purchase plan, by a director or officer of the issuer of such stock or stock option shall be exempt from the operation of section 16(b) of the Act if the plan meets the following conditions:

* * * * * * *

(c) As to each participant or as to all participants the plan effectively limits the aggregate dollar amount or the aggregate number of shares of stock which may be allocated, or which may be subject to qualified, restricted, or employee stock purchase plan stock options granted, pursuant to the plan. The limitations may be established on an annual basis, or for the duration of the plan, whether or not the plan has a fixed termination date; and may be determined either by fixed or maximum dollar

amounts or fixed or maximum numbers of shares or by formulas based upon earnings of the issuer, dividends paid, compensation received by participants, option prices, market value of shares, outstanding from time to time, or similar factors which will result in an effective and determinable limitation. Such limitations may be subject to any provisions for adjustment of the plan or of stock allocable or options outstanding thereunder to prevent dilution or enlargement of rights.

(d) Unless the context otherwise requires, all terms used in this rule shall have the same meaning as in the Act or elsewhere in the general rules and regulations thereunder. In addition, the following definitions apply:

(1) The term "plan" includes all plans, whether or not set forth in any formal written document or documents and whether or not approved in its entirety at one time.

(2) The definition of the terms "qualified stock option" and "employee stock purchase plan" that are set forth in sections 422 and 423 of the Internal Revenue Code of 1954, as amended, are to be applied to those terms where used in the rule. The term "restricted stock option" as defined in section 424(b) of the Internal Revenue Code of 1954, as amended, shall be applied to that term as used in this rule, provided however, that for the purposes of this rule an option which meets all of the conditions of that section other than the date of issuance shall be deemed to be a "restricted stock option."

(Secs. 6, 7, 10 and 19, 48 Stat. 78, 81 and 85, as amended, 15 U.S.C. 77f, 77g, 77j and 77s; secs. 3, 10, 16 and 23, 48 Stat. 882, 891, 896 and 901, 15 U.S.C. 78c, 78j, 78p and 78w)

The Commission deems that the foregoing amendments to the rules and form are necessary and appropriate and are not inconsistent with the public interest or the protection of investors. Accordingly, the Commission finds that notice and procedure pursuant to the Administrative Procedure Act with respect thereto is not necessary in the public interest or for the protection of investors, that such action has the effect of granting exemption or relieving restrictions, and that such amended rules and form should be made effective immediately. However, the Commission will consider all views and comments submitted with respect to the rules and form by interested persons and will make such changes, if any, as it may deem necessary or appropriate in the light of such views and comments. In view of the foregoing, the rules and amended form shall become effective November 20, 1964.

By the Commission.

[SEAL] NELLYE A. THORSEN,
*Assistant Secretary.*

NOVEMBER 20, 1964.

# Title 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

### PART 16—MACARONI AND NOODLE PRODUCTS

### Concentrated Glyceryl Monostearate as Optional Ingredient; Confirmation of Effective Date of Amendment

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), notice is given that no objections were filed to the order of October 13, 1964 (29 F.R. 14074), permitting the use of up to 2 percent of concentrated glyceryl monostearate to improve the cooking properties of macaroni and noodle products. Accordingly, the amendment promulgated by that order will become effective December 12, 1964.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

[F.R. Doc. 64-12613; Filed, Dec. 8, 1964; 8:49 a.m.]

### PART 121—FOOD ADDITIVES

### Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

POLYETHYLENE TEREPHTHALATE FILM

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 1381) filed by E. I. du Pont de Nemours & Company, Inc., 1007 Market Street, Wilmington 98, Delaware, and other relevant material, has concluded that the food additive regulations (21 CFR 121.2524) should be amended to provide for the use of certain additional substances, hereinafter specified, in the production of the base sheet of polyethylene terephthalate film used as an article or component of articles that contact food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), § 121.2524(d)(4) is amended by inserting alphabetically in the list in subdivision (i) a new item, as follows:

§ 121.2524 Polyethylene terephthalate film.

* * * * * *

(d) * * *
(4) * * *

(i) Base sheet:

Ethylene terephthalate copolymers: Prepared by the copolymerization of dimethyl terephthalate or terephthalic acid with ethylene glycol, modified with one or more of the following: Azelaic acid, dimethyl azelate, dimethyl sebacate, sebacic acid.

* * * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

# Title 39—POSTAL SERVICE

## Chapter I—Post Office Department

### PART 57—SPECIAL HANDLING

### PART 112—RATES AND CONDITIONS FOR SPECIFIC CLASSES

### PART 168—DIRECTORY OF INTERNATIONAL MAIL

### Miscellaneous Amendments

The following amendments are made to Chapter I of Title 39:

§ 57.2 [Amended]

In § 57.2 *Special-handling fees*, amend the language "Not more than 2 pounds", which appears under Weight, to read "One pound but not more than 2 pounds".

NOTE: The corresponding Postal Manual section is 167.2.

(R.S. 161, as amended; 39 U.S.C. 501, 507, 6008)

§ 112.4 [Amended]

In § 112.4 *Printed matter*, amend the table in paragraph (b)(1) so as to change the printed matter weight limitation for Paraguay from 11 pounds to 33 pounds.

NOTE: The corresponding Postal Manual section is 222.421.

§ 168.5 [Amended]

In § 168.5 *Individual country regulations*, make the following amendment under China: Respecting the Republic of China, under Postal Union Mail change "Small packets. Not accepted" to read "Small packets. Accepted".

(R.S. 161, as amended; 5 U.S.C. 22, 39 U.S.C. 501, 505)

LOUIS J. DOYLE,
*General Counsel.*

# Title 33—NAVIGATION AND NAVIGABLE WATERS

## Chapter II—Corps of Engineers, Department of the Army

### PART 202—ANCHORAGE REGULATIONS

### San Juan Harbor, P.R.

*Correction*

In F.R. Doc. 64-11965, appearing at page 15757 of the issue for Tuesday, November 24, 1964, the following correction is made in § 202.240: The fourth line of paragraph (a)(3) should read "thence along a line 269°00'', 550 yards;" instead of "thence along a line 29°00'', 550 yards;".

# Title 43—PUBLIC LANDS: INTERIOR

## Chapter II—Bureau of Land Management, Department of the Interior

### APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 3493]

[Washington 05048]

### WASHINGTON

### Power Site Restoration No. 612; Power Site Cancellation No. 202; Revoking Certain Power Withdrawals; Opening Lands Under Section 24 of the Federal Power Act

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, and by virtue of the authority contained in the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and in Section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818), as amended, and pursuant to the determination of the Federal Power Commission docketed as DA-173-Washington, it is ordered as follows:

1. The Executive order of March 31, 1911, establishing Power Site Reserve No. 179, the Departmental order of June 19, 1920, creating Power Site Classification No. 149, and the order of the Geological Survey, dated March 29, 1950, creating Power Site Classification No. 407, are hereby revoked so far as they affect the following described lands:

WILLAMETTE MERIDIAN

T. 38 N., R. 25 E.,
Sec. 12, lot 1 and SW¼NE¼.
T. 40 N., R. 26 E.,
Sec. 4, lots 5 and 7 (now lot 6);
Sec. 8, lots 2 and 4;
Sec. 10, lots 7 and 8;
Sec. 11, lots 5, 6, 7, 8 (now lot 11);
Sec. 13, NE¼NE¼ and SW¼SE¼;
Sec. 24, NW¼NE¼.
T. 40 N., R. 27 E.,
Sec. 19, lot 6 and SE¼NE¼.
T. 38 N., R. 40 E.,
Sec. 1, SE¼SW¼.
T. 39 N., R. 40 E.,
Sec. 13, SW¼SE¼;
Sec. 23, SW¼ and W½SE¼;
Sec. 24, NE¼NE¼, W½E½ and E½SW¼;
Sec. 25, NE¼NW¼;
Sec. 26, N½NW¼, SE¼NW¼ and NE¼SW¼;
Sec. 35, SW¼NW¼, NE¼SW¼ and NE¼SE¼.
T. 38 N., R. 41 E.,
Sec. 9, SW¼SW¼;
Sec. 20, SE¼NE¼ and SW¼SW¼;
Sec. 29, NW¼NW¼ and SE¼SW¼.
T. 39 N., R. 41 E.,
Sec. 23, SE¼NW¼ and SE¼SW¼;
Sec. 27, lot 9;
Sec. 34, NW¼NW¼.

The areas described, including the public, nonpublic, and national forest lands aggregate approximately 1,901 acres.

2. In DA-173-Washington, the Federal Power Commission vacated the withdrawal created pursuant to the filing of an application for license for Project No. 2062, for the following-described lands:

WILLAMETTE MERIDIAN

T. 40 N., R. 26 E.,
Sec. 4, lots 5, and 7 (now lot 6);
Sec. 8, lots 2 and 4;
Sec. 10, lots 7 and 8;
Sec. 11, lots 5, 6, 7, and 8 (now lot 11);
Sec. 13, SW¼SE¼;
Sec. 24, NW¼NE¼.
T. 40 N., R. 27 E.,
Sec. 19, lot 6 and SE¼NE¼.

The areas described aggregate 538.33 acres. The lands are patented.

3. In DA-173-Washington, the Federal Power Commission determined that the power value of the following-described lands will not be injured or destroyed by restoration to location, entry or selection under appropriate public land laws, subject to the provisions of Section 24 of the Federal Power Act:

WILLAMETTE MERIDIAN

T. 40 N., R. 25 E.,
Sec. 27, SW¼SW¼;
Sec. 34, W½SE¼.
T. 39 N., R. 26 E.,
Sec. 19, lot 1.
T. 40 N., R. 26 E.,
Sec. 8, NE¼NE¼.
T. 40 N., R. 27 E.,
Sec. 19, lot 13.

The areas described aggregate 190.29 acres.

4. The lands lie generally along the Similkameen River from the international boundary between the United States and Canada to a point near Oroville, Washington.

5. Until 10:00 a.m. on June 3, 1965, the State of Washington shall have a preferred right of application to select the restored public lands for school indemnity purposes, as provided by section 2276 of the Revised Statutes as amended by the Act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852). The State of Washington also has a more limited preferred right of application for the restored lands for highway easement or for highway material site purposes, as provided by Section 24 of the Federal Power Act of June 10, 1920, as amended May 28, 1948 (62 Stat. 275; 16 U.S.C. 818).

6. At 10:00 a.m. on June 3, 1965, the public lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals and the requirements of applicable law. All valid applications except preference right applications from the State received at or prior to 10:00 a.m. on June 3, 1965, will be considered as simultaneously filed at that time. Those filed thereafter will be considered in the order of filing.

7. The national forest lands shall be open to such forms of disposition as may by law be made of such lands at 10:00 a.m. on January 7, 1965.

8. The lands have been open to applications and offers under the mineral leasing laws, and to location under the United States mining laws subject to the provisions of the Act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621).

9. Any disposals of the lands described in paragraph 3 of this order shall be subject to the provisions of Section 24 of the Federal Power Act, supra, as specified by the Federal Power Commission in its determination.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Spokane, Wash.

JOHN A. CARVER, JR.,

### NEW MEXICO

### Withdrawal for National Forest Scenic and Recreation Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the United States mining laws (Ch. 2, Title 30 U.S.C.), in aid of programs of the Department of Agriculture:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

CIBOLA NATIONAL FOREST

*Sandia Crest Scenic Area*

T. 11 N., R. 5 E. (Unsurveyed),
Sec. 6, W½NW¼NE¼NW¼, SW¼NE¼NW¼, E½NW¼NW¼, NW¼NW¼NW¼, E½SW¼NW¼NW¼, E½SW¼NW¼, NE¼NW¼SW¼NW¼, W½SE¼NW¼, S½SE¼SE¼NW¼, NE¼SW¼, E½NE¼NW¼SW¼, NE¼SE¼NW¼SW¼, E½NE¼SW¼, E½NW¼SE¼SW¼, W½NW¼SE¼, W½SW¼SE¼, SE¼SW¼SE¼, SW¼NE¼SW¼SE¼, and S½SW¼SE¼SE¼;
Sec. 7, N½NE¼, NE¼SW¼NE¼, E½SE¼NE¼, NW¼SE¼NE¼, NE¼SW¼SE¼NE¼, and E½NE¼NE¼NW¼;
Sec. 8, S½SW¼NW¼NW¼, W½NE¼SW¼NW¼, W½SW¼NW¼, W½SE¼SW¼NW¼, SE¼SE¼SW¼NW¼, E½NW¼SW¼, NW¼NW¼SW¼, N½SE¼SW¼, NW¼NW¼NE¼SW¼, S½NW¼NE¼SW¼, S½NE¼SW¼, S½SW¼NW¼SE¼, SW¼SE¼, NW¼NW¼SE¼SE¼, S½NW¼SE¼SE¼, SW¼SE¼SE¼, NW¼SE¼SE¼SE¼, and S½SE¼SE¼SE¼;
Sec. 16, W½NW¼NW¼NW¼, SW¼NW¼NW¼, W½SE¼NW¼NW¼, N½SW¼NW¼, NE¼SE¼SW¼NW¼, W½NE¼SE¼NW¼, NW¼SE¼NW¼, N½SW¼SE¼NW¼, and NW¼SE¼SE¼NW¼;
Sec. 17, N½NE¼NE¼, N½NE¼NW¼NE¼, SE¼NE¼NE¼, and NE¼SW¼NE¼NE¼.
T. 12 N., R. 5 E.,
Sec. 30, S½N½SW¼, S½SW¼, SW¼NW¼SE¼, and NW¼SW¼SE¼;
Sec. 31, W½W½W½NE¼, NW¼, SW¼, W½W½SE¼.

The areas described aggregate 1,142.5 acres.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws.

### Revoking Departmental Order of November 27, 1908

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. The Departmental Order of November 27, 1908, which withdrew the following-described national forest lands in the Rogue River National Forest for use of the Forest Service is hereby revoked:

MOUNT DIABLO MERIDIAN

PERCHES PASTURE ADMINISTRATIVE SITE

T. 48 N., R. 10 W.,
Sec. 24, W½NW¼.

The area described contains approximately 80 acres.

2. Public Land Order No. 3150 of July 30, 1963, withdrew the NW¼NW¼, sec. 24 from prospecting, entry, and purchase under the mining laws for use as the Perks Pasture Guard Station.

3. At 10:00 a.m. on January 7, 1965, the lands not otherwise withdrawn shall be open to such forms of disposition as may by law be made of national forest lands.

## UTAH

### Addition of Land to Wasatch and Uinta National Forests

By virtue of the authority vested in the President by section 24 of the Act of March 3, 1891 (26 Stat. 1103; 16 U.S.C. 471), and section 1 of the Act of June 4, 1897 (30 Stat. 34; 16 U.S.C. 475), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The following-described public lands are hereby added to and made a part of the national forests indicated, subject to existing valid rights, and hereafter shall be subject to all laws and regulations applicable to such national forests, and the boundaries of the said forests are adjusted accordingly:

SALT LAKE MERIDIAN

UINTA NATIONAL FOREST

T. 4 S., R. 1 E.,
Sec. 1, that portion within Utah County.

WASATCH NATIONAL FOREST

T. 1 N., R. 1 E.,
Sec. 10, lots 9, 10, 11, and 12;
Sec. 14, S½SW¼;
Sec. 20, S½SE¼;
Sec. 22, N½, N½S½ and SE¼SE¼;
Sec. 28, S½NW¼, NE¼NW¼ and NW¼NE¼.
T. 2 S., R. 1 E.,
Sec. 36, NE¼ and E½SE¼.
T. 3 S., R. 1 E.,
Sec. 12, lots 1, 2, 3, 4, 5, S½SE¼, SE¼SW¼, and N½S½N½SE¼;
Sec. 13, S½NE¼ and SE¼;
Sec. 23, SE¼NE¼, N½SE¼ and SE¼SE¼;
Sec. 24, S½NW¼, NE¼ and S½;
Sec. 25, NE¼NW¼, NE¼ and S½;
Sec. 26, W½NE¼, SE¼NE¼ and NE¼SE¼;
Sec. 33, NE¼SE¼;
Sec. 34, lots 1, 2, 6, 7, 8, 9, 10, S½NE¼, and SE¼;
Sec. 35, S½ and S½N½.
T. 4 S., R. 1 E.,
Sec. 1, that portion within Salt Lake County;
Sec. 3, lots 3, 5, 6, 7, 8, and S½NE¼.
T. 1 S., R. 2 E.,
Sec. 17, SE¼NW¼.
T. 1 S., R. 6 E.,
Sec. 22, S½NE¼ and E½SE¼.
T. 2 S., R. 6 E.,
Sec. 10, NE¼SE¼;
Sec. 25, N½NW¼ and W½NE¼.

The area described in the Uinta National Forest contains approximately 524 acres. The areas described in the Wasatch National Forest aggregate approximately 4,920 acres.

2. The boundaries of the Wasatch National Forest are hereby extended to the extent necessary to include the following-described nonpublic lands:

T. 3 S., R. 1 E.,
Sec. 12, lots 6, 7, N½SE¼NE¼, S½S½NE¼, and N½N½SE¼;
Sec. 12, mining claims, metes and bounds survey;
Sec. 13, N½NE¼;
Sec. 23, SW¼SE¼;
Sec. 25, NW¼NW¼ and S½NW¼;
Sec. 26, NE¼NE¼, NW¼SE¼ and S½SE¼;
Sec. 35, N½N½;
Sec. 36.
T. 4 S., R. 1 E.,
Sec. 3, lot 4.
T. 2 S., R. 6 E.,
Sec. 25, E½NE¼.

The areas described aggregate approximately 1,481 acres.

JOHN A. CARVER, Jr.,
*Assistant Secretary of the Interior.*

### Withdrawal for the Proposed Moapa Valley Pumping Project

By virtue of the authority contained in section 3 of the Act of June 17, 1902 (32 Stat. 338; 43 U.S.C. 416), as amended and supplemented, it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, but not from leasing under the mineral leasing laws, and reserved for the proposed Moapa Valley Pumping Project:

MOUNT DIABLO MERIDIAN

T. 14 S., R. 65 E.,
Sec. 13, NE¼, E½NW¼, NW¼NW¼, N½SE¼, and SE¼SE¼;
Sec. 15, N½NE¼;

Sec. 22, SE¼NE¼;
Sec. 24, E½NE¼, SW¼NE¼, SE¼SW¼, and SE¼;
Sec. 25, NE¼SE¼;
Sec. 35, W½NW¼;
Sec. 36, lots 6 and 7.
T. 13 S., R. 66 E.,
Sec. 32, S½;
Sec. 33, S½.
T. 14 S., R. 66 E.,
Secs. 4 and 5;
Sec. 8, E½;
Sec. 9;
Sec. 10, W½;
Secs. 15 and 16;
Sec. 17, E½;
Sec. 18, lots 1, 2, 3, 4, and E½W½;
Sec. 19;
Sec. 20, N½ and N½S½;
Sec. 21, N½ and SE¼;
Sec. 22, E½;
Sec. 23, W½NW¼, SW¼, and SW¼SE¼;
Sec. 25, SW¼SW¼;
Sec. 26, W½NE¼, E½NW¼, NW¼NW¼, SW¼SW¼, E½SW¼, and SE¼;
Sec. 27, S½NW¼, SW¼, and S½SE¼;
Sec. 28, N½NE¼ and SE¼NE¼;
Sec. 31, lot 2, SE¼NW¼, NE¼SW¼, W½SE¼, and SE¼SE¼;
Sec. 34, N½, SW¼, and W½SE¼;
Sec. 35, N½ and NE¼SW¼;
Sec. 36, W½ and SW¼SE¼.
T. 15 S., R. 66 E.,
Sec. 1, lot 2, SW¼NE¼, SE¼NW¼, NW¼SE¼, and SE¼SE¼;
Sec. 3, lots 3, 4, and S½NW¼;
Sec. 4, lots 1, 2, 3, 4, S½N½, N½ SW¼, and SW¼SW¼;
Sec. 5, lots 1, 2, 3, 4, S½NE¼, SW¼NW¼, and N½SE¼;
Sec. 6, lots 1 and 7;
Sec. 8, S½NE¼ and NW¼NW¼;
Sec. 9, S½NE¼.
T. 15 S., R. 67 E.,
Sec. 7, lot 1, SE¼NE¼, SW¼SE¼, and NE¼SE¼;
Sec. 8, SW¼NW¼, NW¼SW¼, and E½SW¼;
Sec. 14, W½;
Sec. 15, NE¼ and N½NW¼;
Sec. 16, SW¼SE¼ and NE¼SE¼;
Sec. 17, N½NW¼, SW¼NW¼, NW¼SW¼, and SE¼SW¼;
Sec. 20, N½NE¼;
Sec. 21, N½NW¼ and W½E½;
Sec. 23, SE¼NW¼;
Sec. 26, N½NW¼ and SE¼NW¼;
Sec. 28, E½E½;
Sec. 34, SW¼NW¼ and W½SW¼;
Sec. 35, NE¼SE¼;
Sec. 36, NW¼SE¼ and SE¼SE¼.
T. 16 S., R. 67 E.,

T. 16 S., R. 68 E.,
Sec. 6, lots 3 to 7 inclusive, SE¼NW¼, and E½SW¼;
Sec. 7, lots 1, 2, and E½NW¼.

The areas described aggregate approximately 15,176 acres.

2. The use and administration of the lands affected by this order will become subject to the provisions of the reclamation laws (Act of June 17, 1902, supra, as amended and supplemented), including the use of the lands under lease, license, or permit, at such time as the Moapa Valley Project is authorized by the Congress.

3. Pending authorization of the Moapa Valley Pumping Project, the withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit or the disposal of their mineral and vegetative resources, other than under the mining laws, subject to the condition that such use or disposition will not be inconsistent with the reclamation laws and the purposes for which the lands are withdrawn.

## OREGON

### Withdrawing National Forest Lands for Use of Forest Service

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following-described national forest lands in the Deschutes, Umpqua, and Willamette National Forests, Oregon, are hereby withdrawn from appropriation under the United States mining laws (Chap. 2, 30 U.S.C.), in aid of programs of the Department of Agriculture:

[Oregon 02851]

WILLAMETTE MERIDIAN

DESCHUTES NATIONAL FOREST

*Sisters Administrative Site*

T. 15 S., R. 10 E.,
Sec. 5, SE¼SE¼, and SE¼NE¼SE¼.

UMPQUA NATIONAL FOREST

*South Umpqua Experimental Forest*

T. 29 S., R. 1 E.,
Sec. 15;
Sec. 16, S½ and S½S½N½;
Sec. 20, E½SE¼;
Sec. 21;
Sec. 22, S½, NW¼, and SW¼NE¼;
Sec. 23, SW¼SW¼;
Sec. 26, W½W½;
Secs. 27 and 28;
Sec. 29, E½, and E½SW¼;
Sec. 32, NE¼NW¼, and NE¼;
Sec. 33, N½N½;
Sec. 34, NW¼NE¼, and N½NW¼.

WILLAMETTE NATIONAL FOREST

Little North Fork Road Zone (Forest Road No. 580). A strip of land 200 feet on each side of the center line of the existing road through the following-described legal subdivisions:

T. 8 S., R. 4 E.,
Sec. 23, S½SE¼;
Sec. 24, SW¼, W½SE¼, and SE¼SE¼;
Sec. 26, N½N½, SW¼NW¼, and NW¼SW¼;
Sec. 27, SW¼SW¼, SW¼SE¼, and E½SE¼;
Sec. 28, lots 1, 2, 3, and S½SE¼;
Sec. 32, E½NE¼;
Sec. 33, lots 1, 2, and N½NE¼;
Sec. 34, NW¼NW¼, E½NW¼, and W½NE¼.

T. 8 S., R. 5 E.,
Sec. 19, lots 10, 11, 12, and SE¼SW¼;
Sec. 26, W½NW¼, SE¼NW¼, E½SW¼, and W½SE¼;
Sec. 27, S½NW¼, NW¼SW¼, and NE¼;
Sec. 28, SW¼, and N½SE¼;
Sec. 29, N½S½, SE¼SW¼ except Patented Mineral Survey 887, and SW¼SE¼;
Sec. 30, lots 1, 2, NE¼NW¼, NE¼SE¼, and NE¼;
Sec. 35, NE¼NW¼, W½E½, and E½SE¼

Fall Creek Road Zone (Forest Road No. 181). A strip of land 200 feet on each side of the center line of the existing road through the following-described legal subdivision:

T. 18 S., R. 3 E.,
Sec. 24, SE¼NE¼, and S½.

The areas aggregate approximately 5,885 acres.

[Oregon 013403]

WILLAMETTE MERIDIAN

## ALASKA

### Revoking Withdrawal of July 22, 1957 and Withdrawing Lands for School Purposes

By virtue of the authority contained in the Act of May 31, 1938 (52 Stat. 593; 48 U.S.C. 353 a); it is ordered as follows:

1. The order of the Bureau of Land Management of July 22, 1957, withdrawing by metes and bounds an area of 2.10 acres as the Chevak School Reserve is hereby revoked.

2. Subject to existing valid rights, the following described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the Mining Laws but not from leasing under the Mineral Leasing Laws and reserved for school purposes:

CHEVAK

U.S. SURVEY NO. 4034 (UNAPPROVED)

Lots 1 and 2.

Containing 3.774 acres.

A portion of its lands released from withdrawal by paragraph 1 of this order is included in that withdrawal made by paragraph 2.

3. Until 10:00 a.m. on March 4, 1965, the State of Alaska shall have a preferred right to select the restored lands as provided by the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b); Section 6g of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339), and the regulations in 43 CFR 2222.9 (formerly 43 CFR part 76).

4. This order shall not otherwise become effective to change the status of the restored lands until 10:00 a.m. on March 4, 1965. At that time they shall be open to the operation of the public land laws generally, including the Mining Laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications except preference rights applications from the State received at or prior to 10:00 a.m. on March 4, 1965, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The lands have been open to applications and offers under the Mineral Leasing Laws.

Inquiries concerning the lands should be addressed to the Manager Land Office, Bureau of Land Management, Fairbanks, Alaska.

JOHN A. CARVER, JR.,
*Assistant Secretary of the Interior.*

## OREGON

### Partial Revocation of Reclamation Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. The Departmental Order of March 25, 1924, withdrawing lands for reclamation purposes is hereby revoked so far as it affects the following-described land:

WILLAMETTE MERIDIAN

T. 39 S., R. 12 E.,
Sec. 17, SE¼NW¼.

The area described contains 40 acres.

2. The land is grazing land, accessible over paved State, county, and country roads, and located near the town of Bonanza. Soils are a shallow, silty clay loam mixed with rock and gravel of basaltic origin. Vegetation generally consists of mixed sagebrush and associated species of bluebunch wheatgrass, Sandberg's bluegrass, along with other native grasses, shrubs, and forbs.

3. At 10:00 a.m. on January 7, 1965, the land shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10:00 a.m. on January 7, 1965, shall be considered as simultaneously filed at that time. Those filed thereafter shall be considered in the order of filing.

4. The land has been open to applications and offers under the mineral leasing laws. It will be open to location under the United States mining laws at 10:00 a.m. on January 7, 1965.

The State of Oregon has waived the preference right of application granted to certain States by R.S. 2276, as amended (43 U.S.C. 852).

Inquiries concerning the land should be addressed to the Manager, Land Office, Bureau of Land Management, Portland, Oregon.

### Modifying Stock Driveway Withdrawal To Permit Grant of Right-of-Way

By virtue of the authority vested in the Secretary of the Interior by Section 10 of the Act of December 29, 1916 (39 Stat. 865; 43 U.S.C. 300), as amended, it is ordered as follows:

The Departmental order of February 4, 1919, creating Stock Driveway Withdrawal No. 56, Arizona No. 2, as modified and defined by the Departmental order of August 19, 1941, is hereby further modified to the extent necessary to permit the grant of a highway right-of-way under Section 2477, U.S. Revised Statutes (43 U.S.C. 932), to the County of Yavapai, Arizona, over the following-described land, as delineated on a map on file with the Bureau of Land Management in Arizona 033459, entitled "Map of Greyhound Lane":

GILA AND SALT RIVER MERIDIAN

T. 9 N., R. 2 E.,
Sec. 27, SW¼NE¼SW¼.

Containing 10 acres.

### Partial Revocation of Withdrawal for Forest Service Administrative Site

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

The Departmental Order of November 23, 1933, so far as it withdrew the following-described national forest lands in the Mount Hood National Forest as a lookout station, is hereby revoked:

WILLAMETTE MERIDIAN

LOOKOUT ADMINISTRATIVE SITE

T. 4 S., R. 5 E.,
Sec. 15, W½E½NE¼SW¼, NE¼NE¼NE¼SW¼, SE¼SE¼NE¼SW¼, E½W½NW¼SE¼, NW¼NW¼NW¼SE¼ and SW¼SW¼NW¼SE¼.

The areas described aggregate approximately 30 acres.

At 10 a.m. on January 7, 1965, the lands shall be open to such forms of disposition as may by law be made of national forest lands.

JOHN A. CARVER, JR.,
*Assistant Secretary of the Interior.*

### Withdrawal for National Forest Recreation Area

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following-described national forest lands are hereby withdrawn from appropriation under the United States mining laws (Chap. 2, Title 30 U.S.C.), in aid of programs of the Department of Agriculture:

MOUNT DIABLO MERIDIAN

TOIYABE NATIONAL FOREST

*Alum Creek Campground and Picnic Area*

T. 6 N., R. 30 E.,
Sec. 6, N¼ of lot 3, and SW¼ of lot 3.

Containing 30.17 acres.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws.

## NEW MEXICO

### Powersite Restoration No. 618; Powersite Cancellation No. 208; Partly Revoking Powersite Reserves Nos. 548 and 740 and Water Power Designation No. 1

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), and by virtue of the authority contained in the act of June 20, 1910 (36 Stat. 557, 564, 575), and consistent with the determination of the Federal Power Commission in DA-53-New Mexico, it is ordered as follows:

1. The departmental order of August 7, 1916, creating Water Power Designation No. 1, the Executive Order of September 30, 1916, creating Powersite Reserve No. 548, and the Executive Order of May 21, 1920, creating Powersite Reserve No. 740, are hereby revoked so far as they affect the following-described lands:

NEW MEXICO PRINCIPAL MERIDIAN

T. 28 N., R. 12 E.,
Sec. 1, lots 5, 6, 7, 8, 9, 10 and S½S½;
Sec. 2, lots 1, 2, 3, 4, S½N½ and S½;
Sec. 3, lots 1, 2, 3, 4, 6, 9, 10 and S½N½;
Sec. 4, lots 1, 2, S½NE¼, SE¼NW¼, S½;
Sec. 9;
Sec. 10;
Sec. 11, N½, N½SW¼, SW¼SW¼, NW¼SE¼;
Sec. 12, N½;
Sec. 15, NW¼NE¼, W½;
Sec. 16;
Sec. 17, NE¼SE¼, S½SE¼;
Sec. 20, E½, E½W½, SW¼SW¼;
Sec. 21, N½, SW¼, NW¼SE¼;
Sec. 22, NW¼NW¼.

T. 29 N., R. 12 E.,
Sec. 33, E½SE¼;
Sec. 34, NE¼NE¼, S½N½, S½;
Sec. 35.

T. 28 N., R. 13 E.,
Sec. 5, lots 1, 2, 3, 4, 5, SW¼NE¼, S½NW¼, N½SW¼;
Sec. 6, lots 8, 9, 10, 11, 12, 14, SE¼SW¼, N½SE¼, SW¼SE¼;

And all unsurveyed lands of the United States which when surveyed will lie within ½ mile of Red River or its tributary, Columbine Creek (by protraction, probably in Secs. 2, 3, 4, 10, W½; Sec. 11, E½; Sec. 12, E½; Sec. 13, W½; Sec. 14, W½ and SE¼; Sec. 23, E½ and SW¼; Sec. 24; Secs. 25, 26, 27, 34 and 35).

T. 29 N., R. 13 E.,
Sec. 13, S½S½;
Sec. 21, S½;
Sec. 22, S½;
Sec. 23, S½NE¼, SE¼NW¼, S½;
Sec. 24;
Sec. 28, N½;
Sec. 29, lots 2, 3, 4, 5, NE¼SE¼, S½SE¼;
Sec. 31, lots 2, 4, 5, 6, 7, 8, 9 and 10;
Sec. 32, lots 1, 2, 3, 4, 5, 6, 7, 8, NW¼NE¼;
Sec. 33, lot 1;

And all unsurveyed lands of the United States which when surveyed will lie within ½ mile of Red River (by protraction, probably in Secs. 32, 33 and 34).

T. 28 N., R. 14 E.,
All unsurveyed lands of the United States which when surveyed will lie within ½ mile of Red River (by protraction probably Secs. 1, 4, E½ and SW¼; Sec. 5, S½; Sec. 6, Secs. 24, 25 and 36).

T. 29 N., R. 14 E.,
Sec. 25, lot 1;
Sec. 34, lots 1, 2, 3, 4, NW¼ and S½;
Sec. 35, lots 1, 2, 3, 4, 5, 6, 7, 8, 9, N½SW¼, SW¼SW¼, SE¼;
Sec. 36, lots 1, 2, 3, 4, 5, 6, 7, W½NE¼, SE¼NE¼, N½NW¼, SW¼SW¼, E½SE¼;

And all unsurveyed lands of the United States which when surveyed will lie within ½ mile of Red River or Cabresto Creek (by protraction probably Secs. 1, 9, 10, 11, 12, 15, 16, 17, 19, 20, 21, 25, 26, 27, 28, 30 and N½; Sec. 31).

The areas described, including public and nonpublic lands aggregate 40,344 acres, more or less, most of which are in the Carson National Forest.

The lands are located adjacent to the Red River, beginning at the point where it empties into the Rio Grande, and reaching to a point about 23 miles upstream just above the town of Red River. Much of the land is rough and mountainous. Vegetative cover is composed of pine, spruce, fir, and other trees, with a fair cover of native perennial grasses and shrubs.

2. Until 10 a.m. on June 3, 1965, the State of New Mexico shall have the preferred right of application to select the lands outside the Carson National Forest as provided by section 2276(c) of the Revised Statutes as amended by the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

3. At 10 a.m. on June 3, 1965, the public lands outside of the Carson National Forest shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable laws. All valid applications, except preference right applications from the State, received at or prior to 10 a.m. on June 3, 1965, shall be considered as simultaneously filed at that time. Those filed thereafter shall be considered in the order of filing.

4. At 10 a.m. January 7, 1965 the national forest lands shall be open to such forms of disposition as may by law be made of such lands.

All of the public lands have been open to applications and offers under the mineral leasing laws and to location under the United States mining laws.

Inquiries concerning the lands should be addressed to Manager, Land Office, Bureau of Land Management, Santa Fe, N. Mex.

JOHN A. CARVER, JR.,
*Assistant Secretary of the Interior.*

## NEVADA

### Partly Revoking Reclamation Withdrawal; Newlands Project

By virtue of the authority contained in section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), as amended and supplemented, it is ordered as follows:

1. The departmental order of July 2, 1902, withdrawing lands for reclamation purposes is hereby revoked so far as it affects the following-described lands:

MT. DIABLO MERIDIAN

T. 16 N., R. 24 E.,
Secs. 7 and 8;
Secs. 11 to 36 incl.

The areas described aggregate 17,953.41 acres, of which 320 acres are nonpublic.

The lands are located about 30 miles southeast of Reno. Predominant vegetation is sagebrush.

2. Subject to valid existing rights and to the provisions of existing withdrawals and procedures, the lands shall, at 10 a.m. on January 7, 1965, become subject to disposition under the public land laws, including locations under the United States mining laws. All valid applications received at or prior to 10 a.m. on January 7, 1965, shall be considered as simultaneously filed at that time. Those filed thereafter shall be considered in the order of filing.

Inquiries concerning the lands should be directed to the Manager, Land Office, Bureau of Land Management, Reno, Nev.

JOHN A. CARVER, JR.,
*Assistant Secretary of the Interior.*

# Title 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

[Docket No. 15599; FCC 64-1111]

## PART 87—AVIATION SERVICES

### Transmitters Used at Aircraft Survival Stations

In the matter of amendment of Part 87 of the Commission's rules to exempt transmitters used at aircraft survival stations from type acceptance procedures; Docket No. 15599, RM-479.

*Report and order.* 1. The Commission on August 3, 1964 adopted a notice of proposed rule making in the above-entitled matter (FCC 64-776) which made provision for the filing of comments and was duly published in the FEDERAL REGISTER on August 7, 1964 (29 F.R. 11423).

2. The notice, issued in response to a petition (RM-479) from Aeronautical Radio Inc. (ARINC) and the Air Transport Association of America (ATA), proposed to amend the type acceptance requirements in Part 87—Aviation Services to allow types of non-type accepted equipment used in survival craft stations prior to January 1, 1965 to continue to be used without being type accepted.

3. Comments were filed by Alaska Aeronautical Radio Inc., Garrett Manufacturing Co., National Pilots Association, the State of Minnesota and the petitioners (ARINC/ATA). In general, the comments support the exemption from type acceptance for types of equipment in use prior to January 1, 1965. The National Pilots Association (NPA), however, asks that the Commission "eliminate the requirement for type acceptance for survival equipment in use after January 1, 1965". This request is based on the allegation that survival equipment is very seldom used and the need to protect others from harmful interference would be quite remote. Further, the larger objective to develop equipment of high reliability, and at a cost which would make it acceptable to many general aviation owners, should take precedence over detailed requirements for type acceptance.

4. With respect to the NPA comment, the Commission does not propose to require all survival craft transmitters to be type accepted after January 1, 1965. This type acceptance requirement only applies to types of equipment not in use prior to January 1, 1965. There is nothing to indicate that the type acceptance requirement will have a substantial effect on the price of survival craft transmitters and it should give greater assurance of reliability. The feasibility and practicability of having this type of equipment type accepted is supported by the fact that a manufacturer of survival craft equipment has applied for and received type acceptance of its survival craft transmitter.

5. For the purpose of establishing a list of licenseable non-type accepted equipment, it has been determined from information submitted and the Commission's records that the following equipment has been in use prior to January 1, 1965.

Garrett Corporation: Model RESCU/1.
Granger Associates: Model 117.
Philharmonic Radio & Television Corp.: AN/URC 11, AN/URC 14.
Telephonic: PRC-17.
Military: AN/CRT-3 (also designated: SRC-578 (A, B, or C) BC 778 (A, B, or C), and Gibson Girl).

Any request for use of a non-type accepted transmitter in a survival craft station after January 1, 1965, other than those listed above, must be accompanied by a showing sufficient to establish that the transmitter was in use prior to January 1, 1965.

In view of the foregoing: *It is ordered,* Pursuant to the authority contained in section 303 (e), (f) and (r) of the Communications Act of 1934, as amended, that effective December 31, 1964, Part 87 of the Commission's rules is amended as set forth below.

*It is further ordered,* That this proceeding is hereby terminated.

(Sec. 4, 48 Stat. 1066 as amended; 47 U.S.C. 154. Interprets or applies sec. 303 48 Stat. 1082 as amended; 47 U.S.C. 303)

Adopted: December 2, 1964.

Released: December 7, 1964.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
*Secretary.*

1. Section 87.73(a) is amended to read as follows:

[1] Commissioners Hyde, Bartley, and Loevinger absent.

**§ 87.73 Modulation requirements.**

(a) When double sideband full carrier amplitude modulation is used for telephony, the modulation percentage shall be sufficient to provide efficient communication and shall normally be maintained above 70 percent on peaks but shall not exceed 100 percent: *Provided, however,* That this requirement does not apply to transmitters carried aboard aircraft in such a manner as to be available for use only under emergency and distress conditions for survival purposes.

• • • • • •

2. Section 87.77(b) is amended and a new paragraph (d) is added to read as follows:

**§ 87.77 Acceptability of transmitters for licensing.**

• • • • • •

(b) Except as provided in paragraph (d) of this section, each transmitter used in the Aviation Services must be of a type which has been type accepted by the Commission for use in these services: *Provided, however,* That until January 1, 1965, types of equipment in use by a licensee prior to July 1, 1959 may continue to be used by the same licensee, his successors or assigns provided that such types of HF transmitting equipment in excess of 1,000 watts power in the aeronautical mobile and aeronautical fixed services at international gateway stations and stations in Alaska may continue to be used in these stations until January 1, 1970.

• • • • • •

(d) The following exceptions to the provisions of paragraph (b) of this section are provided on the express condition that the operation of stations using transmitting equipment not type accepted by the Commission shall not result in harmful interference due to the failure of such equipment to comply with the current technical standards of Subpart A of this part.

(1) Type accepted equipment is not required at developmental stations.

(2) Type accepted equipment is not required at Civil Air Patrol stations.

(3) Equipment which has not been type accepted may be used at flight test stations for limited periods where justified on the basis of good cause shown.

(4) Equipment which is to be used exclusively under emergency and distress conditions for survival purposes and which is carried aboard aircraft in such a manner as to only be available under these conditions need not be type accepted by the Commission if it is a type which was in use prior to January 1, 1965.

# Proposed Rule Making

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

[ 7 CFR Part 1131 ]

[Docket No. AO 271-A8]

### MILK IN CENTRAL ARIZONA MARKETING AREA

### Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at Ramada Inn, 3801 East Van Buren, Phoenix, Ariz., beginning at 9:30 a.m., local time, on December 17, 1964, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Central Arizona marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by United Dairymen of Arizona, Federated Producers Association, and Co-op Dairy, Inc.:

*Proposal No. 1.* Delete the provisions of § 1131.51(a) and substitute therefore the following:

(a) The price for Class I milk shall be the basic formula price for the preceding month plus $2.40 and shall be increased or decreased by a supply-demand adjustment of not more than 25 cents computed as follows:

*Proposal No. 2.* Delete the provisions of § 1131.51(a) (1) through (3) and substitute therefor the following:

(1) Compute an average Class I utilization percentage by:

(i) Dividing the total volume of Class I milk (excluding interhandler transfers that otherwise would result in the same milk being accounted for a second time as Class I milk) for the immediately preceding month by total receipts of producer milk for the same month and multiplying the result by two;

(ii) Adding an amount computed by dividing the total Class I milk (excluding interhandler transfers that otherwise would result in the same milk being accounted for a second time as Class I milk) for the twelve-month period ending with the immediately preceding month by the total receipts of producer milk for the same months; and

(iii) Dividing by three and rounding to the nearest whole number.

(2) For each percentage by which the Class I utilization percentage calculated pursuant to subparagraph (1) of this paragraph exceeds 82, add to, or for each percentage by which it is less than 78, deduct from the Class I price two cents per hundredweight, provided, the adjustment is four cents or less per hundredweight the amount of the adjustor shall be zero.

*Proposal No. 3.* Renumber § 1131.71 (e) as (g), (f) as (h), and add the following:

(e) Subtract for each of the months of March through June 1965 an amount computed by multiplying the total hundredweight of producer milk included in these computations by 10 cents per hundredweight and for the months of December 1965 through June 1966, and for the same period each year thereafter, subtract an amount computed by multiplying the total hundredweight of producer milk included in these computations by seven cents per hundredweight to be set aside by the market administrator in a special fund;

(f) For the month of August add an amount representing 30 percent of the monies withheld pursuant to paragraph (e) of this section, for September an amount representing 40 percent of the monies withheld pursuant to paragraph (e) of this section, and for October the balance of the monies withheld pursuant to paragraph (e) of this section.

*Proposal No. 4.* Delete from § 1131.22 (k)(1) the number "6" and substitute therefor the number "12".

*Proposal No. 5.* Amend § 1131.46(4) (b)(ii) to include equivalent use classification in cases where classification differs between orders.

*Proposal No. 6.* Provision should be made to authorize the market administrator to set up a special fund for the monies involved in carrying out the terms of proposal number three and such other conforming changes made as are necessary to effectuate the provisions of proposal number three.

Proposed by Dairy Division, Agricultural Marketing Service:

*Proposal No. 7.* Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, Wilson M. Haverfield, 2617 North 24th Street, Phoenix, Ariz., or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C., 20250, or may be there inspected.

Signed at Washington, D.C., on December 4, 1964.

CLARENCE H. GIRARD,
*Deputy Administrator,*
*Regulatory Programs.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

[ 21 CFR Parts 27, 31 ]

### DILUTED FRUIT JUICE BEVERAGES; FRUIT-FLAVORED NONCARBONATED BEVERAGES; CANNED FRUIT NECTARS; CANNED PINEAPPLE-GRAPEFRUIT JUICE DRINK

### Notice of Extension of Time for Filing Comments on Proposed Definitions and Standards of Identity

There was published in the FEDERAL REGISTER of August 13, 1964 (29 F.R. 11621), proposals by Sunkist Growers, Inc., and the Commissioner of Food and Drugs to adopt definitions and standards of identity for diluted fruit juice beverages. There was also published in that same issue of the FEDERAL REGISTER (29 F.R. 11627) a proposal to adopt definitions and standards of identity for fruit-flavored noncarbonated beverages.

There was published in the FEDERAL REGISTER of October 1, 1964 (29 F.R. 13535), a proposal of the National Canners Association for definitions and standards of identity for canned fruit nectars, and a republication of a proposal made by the California Packing Company, et al., for a definition and standard of identity for canned pineapple-grapefruit juice drink (29 F.R. 13536). A period of 60 days from the date of publication was provided for comment on the two proposals published October 1, 1964, and the time for filing comments on the diluted fruit juice beverages proposal was extended for 60 days to coincide with that of the other proposals.

There was published in the FEDERAL REGISTER of October 14, 1964 (29 F.R. 14126), in response to a request, a notice of an extension of time for filing comments on the proposal for a definition and standard of identity for fruit-flavored noncarbonated beverages to December 1, 1964, to coincide with that of the other related proposals.

The Commissioner has now received a request from the Association of Fruit Juice Beverage and Base Producers for a 60-day extension of the time for filing comments on the diluted fruit juice beverages and the fruit-flavored noncarbonated beverages on the grounds that it is conducting a survey by questionnaires to obtain detailed comments on the proposals and that the time required to receive and collate the information will not permit the filing of the results within the allotted time.

The Food and Drug Administration is conducting investigations that will require more time to complete than anticipated. In view of this and the request of the Association of Fruit Juice Beverage and Base Producers, the Commissioner of Food and Drugs concludes that it is in the public interest to extend the time for filing comments on the proposals for definitions and standards of identity for diluted fruit juice beverages and fruit-flavored noncarbonated beverages and the related proposals for canned fruit nectars and canned pineapple-grapefruit juice drinks to February 1, 1965.

This action is taken pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended; 21 U.S.C. 341, 371) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471).

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner*
*of Food and Drugs.*

[F.R. Doc. 64-12615; Filed, Dec. 8, 1964; 8:49 a.m.]

## CIVIL AERONAUTICS BOARD

[ 14 CFR Part 221 ]

[Docket No. 15657]

### CONSTRUCTION, PUBLICATION, FILING AND POSTING OF TARIFFS OF AIR CARRIERS AND FOREIGN AIR CARRIERS

### Supplemental Notice of Proposed Rule Making

DECEMBER 4, 1964.

The Board in 29 F.R. 15174 and by circulation of a Notice of Proposed Rule Making, EDR-73, dated November 2, 1964, gave notice that it had under consideration proposed amendments of Part 221 of the Board's Economic Regulations as set out in the Proposed Rule. Interested persons were invited to participate in this rule making proceeding by the submission of ten (10) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C., 20428, on or before December 7, 1964.

A request has been received from a number of air carriers and foreign air carriers asking that the time for filing such data, views, or arguments be extended to February 1, 1965. It appears to the undersigned that good cause has been shown for extending the filing date. The undersigned finds that it is in the public interest to extend the date for the filing of comments as requested.

Accordingly, pursuant to authority delegated under section 7.3C of Public Notice PN-15, dated July 3, 1961, the undersigned hereby extends the date for submitting comments on the subject proposals until February 1, 1965. All relevant matter in communications received on or before such date will be considered by the Board before taking action on this proposal. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., upon receipt thereof.

(Secs. 204(a) and 1001 of the Federal Aviation Act of 1958; 72 Stat. 743, 788; 49 U.S.C. 1324 and 1481)

By the Civil Aeronautics Board.

[SEAL] ARTHUR H. SIMMS,
*Associate General Counsel,*
*Rules and Special Counsel Division.*

# Notices

## DEPARTMENT OF THE TREASURY

### Office of the Secretary

[AA 643.3–G]

### BEEF STEAKS FROM CANADA

### Fair Value Determination

DECEMBER 2, 1964.

A complaint was received that beef steaks packed 12 packs to a carton or case, each pack weighing 18 ounces net, from Canada, produced by Holiday Farms Ltd., Chippawa, Ontario, Canada, were being sold in the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that beef steaks packed 12 packs to a carton or case, each pack weighing 18 ounces net, from Canada, produced by Holiday Farms Ltd., Chippawa, Ontario, Canada, are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

*Statement of reasons.* The information developed revealed that the relationship existing between the exporter and importers was no more than that of buyer and seller. Purchase price, accordingly, applies with respect to the sales for exportation to the United States. Identical merchandise was not sold in the home market. A type similar to the export types was, however, produced and sold by this manufacturer in Canada. No sales were made to countries other than the United States and Canada. The home market price of the similar type was, therefore, after adjustments as noted below, compared for fair value purposes with the purchase price of the types sold for exportation to the United States.

Purchase price was based on the import duty paid, delivered selling price of each export type, less included charges for freight and United States import duty.

Home market price was computed by deducting the included freight costs from the delivered selling price of the home market type. In addition, adjustments were made for differences in included commission and packing costs. In the comparison between the purchase price of each export type and the adjusted home market price of the similar product, an appropriate adjustment was also made to allow for differences in production costs, due to differences in ingredients used.

The comparison disclosed that in no case was the purchase price less than the adjusted home market price.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

### DOW CHEMICAL CO.

### Notice of Filing of Petitions Regarding Pesticides

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346(d)(1)), notice is given that two petitions (PP 5F0426, 5F0427) have been filed by Dow Chemical Co., Post Office Box 512, Midland, Mich., 48641, proposing the establishment of tolerances for residues of inorganic bromides (calculated as Br) in or on raw agricultural commodities grown in soil fumigated with combinations of chloropicrin, propargyl bromide, and methyl bromide. No tolerances are requested for chloropicrin on the basis of a showing that no residues of this chemical carry over to crops from the treated soil.

The proposed tolerances from the use of propargyl bromide are:

20 parts per million in or on eggplants.
15 parts per million in or on cauliflower, tomatoes.
5 parts per million in or on broccoli, muskmelons, peppers, pineapples, strawberries.

The proposed tolerances from the use of methyl bromide are:

40 parts per million in or on eggplants.
25 parts per million in or on cauliflower, tomatoes.
15 parts per million in or on broccoli, muskmelons, peppers, pineapples, strawberries.

The analytical method proposed in these petitions for determining residues of inorganic bromides is the method of Shrader, Beshgetoor, and Stenger, Industrial and Engineering Chemistry, Analytical Edition, Volume 14, page 1 (1942).

The method proposed for propargyl bromide is a gas chromatographic system with an electron capture detector. Total bromide may be measured by an X-ray fluorescence method.

Dated: December 2, 1964.

### MARGARINE DEVIATING FROM IDENTITY STANDARD

### Notice of Extension of Temporary Permit for Market Testing

Pursuant to § 10.5(j) of Title 21, Code of Federal Regulations, concerning temporary permits to facilitate market testing of foods deviating from the requirements of standards of identity promulgated pursuant to section 401 of the Federal Food, Drug, and Cosmetic Act, notice is given that the temporary permit held by Lever Brothers Co., 390 Park Avenue, New York, N.Y., has been extended. This permit covers interstate shipments of margarine for market testing with added delta-decalactone and delta-dodecalactone. These ingredients are artificial flavoring substances which are not listed as optional ingredients in the standard for the product (21 CFR 45.1). The margarine containing these ingredients is labeled to show that it is "artificially flavored."

This permit is extended until the effective date of an order that is to be issued ruling on a proposed amendment to include the delta-lactones among the optional flavoring ingredients of margarine, or until February 1, 1965, whichever occurs first.

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

### MARGARINE DEVIATING FROM IDENTITY STANDARD

### Notice of Issuance of Temporary Permit for Market Testing

Pursuant to § 10.5(j) of Title 21 of the Code of Federal Regulations, concerning temporary permits to facilitate market testing of foods varying from the requirements of the standards of identity promulgated pursuant to section 401 of the Federal Food, Drug, and Cosmetic Act, notice is given that a temporary permit has been issued to Corn Products Company, 717 Fifth Avenue, New York, N.Y. The margarine covered by this permit deviates from the requirements of the standard of identity (21 CFR 45.1) in two respects. First, under the standard margarine contains either a milk or cream ingredient or a suspension of finely ground soybeans. The margarine to be market tested will not contain any milk, cream, or ground soybeans. Second, the standard lists the artificial flavoring substances which are recognized as optional ingredients of margarine. The margarine to be market tested will contain safe artificial flavorings in addition to those listed in the standard. The labels will show that the margarine contains no milk, cream, or ground soybeans, and that it is artificially flavored.

This permit expires November 1, 1965.

Dated: December 2, 1964.

## CIVIL AERONAUTICS BOARD

[Docket No. 15728; Order E–21556]

### EASTERN AIR LINES, INC.

### Order of Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of December 1964.

Group tour-basing fare between New York/Newark and San Juan proposed by Eastern Air Lines, Inc., Docket No. 15728.

By tariff revisions[1] marked to become effective December 7, 1964, Eastern Air Lines, Inc. (Eastern), proposes to establish a group tour-basing fare applicable at all times between New York/Newark and San Juan in thrift-class service in jet aircraft. The proposed round-trip fare of $104.00 is applicable to each passenger for groups of 50 or more passengers traveling together on the outbound flight when tickets are purchased as part of an "Advertised Air Tour."[2] The proposed fare is equal to an existing group (50 persons) fare offered by Eastern and Pan American without the ground tie-in feature[3] and represents a 14.4 percent reduction from individually ticketed standard thrift-class service. Neither the proposed group tour-basing fare nor the existing group fares are restricted as to days of travel or length of stay.

Complaints requesting investigation and suspension of the Eastern proposal have been filed by Pan American World Airways, Inc. (Pan American), and Trans Caribbean Airways, Inc. (Trans Caribbean). In support of its complaint, Pan American alleges that the inclusion of the tour-basing aspect in the proposal makes it unjustly discriminatory. It maintains that the Board has consistently held that benefit to a particular area does not justify discriminatory rates, and that no reasons have been advanced for departure from the public utility concept embraced in the "rule of equality." Pan American notes that there is currently pending before the Board in Docket 14901, an investigation of Trans Caribbean's group tour-basing fares between New York and San Juan,[4] and that the orderly promotion of air transportation requires that the instant filing be suspended pending a determination of the legal principles involved in that proceeding. In addition, Pan American notes that Eastern's contention (that its proposal would tend to shift traffic from peak week-end periods) would not necessarily obtain, in view of the lack of restriction in the tariff as to days of applicability.

In its complaint, Trans Caribbean states that it is a supporter of the tour-basing fare principle, but that it is opposed to Eastern's proposal because the provisions governing the proposed fare do not exclude peak week-end travel times. It maintains that the failure to make this exclusion will result in substantial dilution of revenues and will defeat one of the primary purposes of tour-basing fares, that is, the generation of new traffic to fill empty seats. In contrast, Trans Caribbean claims that its group tour-basing fare in this market[5] is designed to avoid dilution, to prevent self-diversion, and to develop additional tour traffic to Puerto Rico.

In support of its filing Eastern claims its proposal will be of significant advantage to travelers in the market, to the economy of the Commonwealth of Puerto Rico, and to Eastern itself. It notes that the only modifications to its present group travel tariff in this market are (1) the requirement that $60.00 of other than air transportation services be purchased, and (2) that travel as a group is liberalized so as to require group travel in the outbound direction only. Eastern maintains that the liberalization of the travel-together rule provides greater flexibility for the traveler and that the lack of restriction on length of stay would tend to shift some traffic from peak week-end periods to less heavily-traveled days.

Eastern's instant proposal presents essentially the same issues of justness and reasonableness, discrimination, and preference and prejudice, that the Board noted in regard to other group tour-basing fares which have been ordered investigated.[6] Accordingly, the instant proposal shall also be investigated. The Board will not suspend the effectiveness of the proposed fare for its does not appear prima facie unreasonably low, is equal to existing group fares now offered in the market involved without the

[1] Eastern Air Lines, Inc., C.A.B. No. 144.

[2] An "Advertised Air Tour" is defined in Eastern's tariff as a fully-prepaid complete vacation package consisting of round-trip air transportation plus lodgings, transfers, sightseeing, or car rental. The total price of the tour for each passenger must not be less than the fare of $104.00, plus at least $60.00 of ground accommodation expenses.

[3] Eastern is also proposing to cancel its existing round-trip group fare of $104.00, but is retaining its one-way group fare of $52.00 in the New York/Newark-San Juan market.

[4] Briefs to the Examiner are now due on December 18, 1964.

[5] Trans Caribbean Airways, Inc., C.A.B. No. 26, provides for a round-trip air fare of $95.00, and to it is tied the purchase of a minimum of $45.00 of hotel accommodations, ground transportation, and other elements of a tour package. The fare involves a minimum group of 100 passengers, must be sold by tour agents, is restricted as to days on which transportation can be performed, provides for a minimum stay of five days, and allows passengers to return individually no later than 30 days after date of departure from point of origin.

[6] E.g., Orders E–18790, September 17, 1962; E–18838, September 28, 1962; E–19584, May 15, 1963; E–20276, December 18, 1963; and E–20410, January 29, 1964. See also Orders E–20998, June 26, 1964 and E–21148, August 5, 1964.

ground tie-in feature and without restriction as to days of travel or length of stay, and is higher than the more restricted round-trip group tour-basing fare currently in effect in the New York-San Juan market. This action is consistent with the Board's decisions in the more recent past to permit to become effective fares in which similar issues of discrimination are present.

Accordingly, pursuant to the provisions of the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

*It is ordered*, That:

1. An investigation be instituted to determine whether the provisions of Rule 6(A)(2) on 1st Revised Page 15 and 2d Revised Page 16 and the fares and provisions in Part A–3 on 2nd Revised Page 39 of Eastern Air Lines, Inc., C.A.B. No. 144 (including subsequent revisions and reissues of such fares and provisions) and the rules, regulations or practices affecting such fares and provisions are, or will be, unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful to determine and prescribe the lawful fares and provisions and the rules, regulations or practices affecting such fares and provisions;

2. Except to the extent granted herein, the complaints of Trans Caribbean Airways, Inc., in Docket 15705, and Pan American World Airways, Inc., in Docket 15708, are dismissed;

3. This investigation be set for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

4. A copy of this order be filed with the aforesaid tariff and be served upon Eastern Air Lines, Inc., Pan American World Airways, Inc., and Trans Caribbean Airways, Inc., which are made parties to the investigation ordered herein.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
*Secretary.*

[F.R. Doc. 64–12622; Filed, Dec. 8, 1964; 8:50 a.m.]

[Order E–21559]

## FALCON AIR FREIGHT, INC.

### Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 4th day of December 1964.

Falcon Air Freight, Inc. (Falcon), holds Air Freight Forwarder Operating Authorization No. 75, issued July 31, 1962. In recent months the Board has received several complaints alleging that Falcon has gone out of business without fulfilling commitments to shippers or satisfying the claims of its creditors. As further indication that Falcon has discontinued air freight forwarder operations, our records show that Falcon has failed to file periodic reports for the first six months of 1964, and that Falcon's automobile liability insurance has expired. In addition, the Board has been notified by the Aetna Insurance Company that Falcon's cargo liability insurance has been canceled.

A member of the Board's staff visited the last known address of Falcon to determine if the company had gone out of business, and learned that the terminal facilities formerly occupied by Falcon are now occupied by another air freight forwarder.

By letter of September 28, 1964, Falcon was requested to advise within thirty days whether it intended to continue air freight forwarder operations. Falcon was also requested to tender its operating authorization for cancellation, without prejudice to a subsequent application for authority, in the event it has discontinued operations. Falcon has not responded to this letter. As further evidence that Falcon's operating authorization is dormant, a Receiver has been appointed by the Superior Court of New Jersey for the protection of Falcon's creditors pursuant to a bankruptcy proceeding.

It is the Board's policy, as reflected in § 296.49 of the Economic Regulations, to revoke dormant air freight forwarder operating authorizations. Although Falcon's discontinuance of operations does not fall precisely within the scope of § 296.49, the fact that Falcon has ceased operations as an air freight forwarder and has not continued the insurance protection required by the Economic Regulations, indicates that Falcon's operating authorization is dormant. Thus, a continuation of Falcon's present situation would be inconsistent with the Board's policy and the public interest. In view of these considerations, we tentatively find that Falcon has discontinued its air freight forwarder activities and that it is in the public interest to revoke Falcon's air freight forwarder authorization.

Therefore, we shall direct Falcon to show cause why the Board should not issue an order making final the above tentative findings and conclusions and revoke its Air Freight Forwarder Operating Authorization No. 75. All interested persons who desire to be heard in connection with this matter may file objections to the tentative findings and conclusions within fifteen days of the date of this order.

*Accordingly, it is ordered:*

1. That Falcon Air Freight, Inc., and any other interested persons be and they hereby are directed to show cause within 15 days of the date of this order why the Board should not make final the above tentative findings and conclusions and revoke Falcon's Air Freight Forwarder Operating Authorization No. 75; [1]

2. That if no objections are filed, further procedural steps shall be deemed waived and the matter shall stand submitted to the Board for issuance of a final order;

3. That if timely objections are filed, further consideration will be accorded any matters or issues raised by the objections before further action is taken by the Board; and

4. That a copy of this order be served upon Falcon and the Receiver in Bankruptcy of Falcon and be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
*Secretary.*

[F.R. Doc. 64–12623; Filed, Dec. 8, 1964; 8:50 a.m.]

[1] Since our action provides for the filing of objections, we will not entertain petitions for reconsideration.

[Docket 15381, etc.; Order E–21553]

## PAN AMERICAN WORLD AIRWAYS, INC.

### Order Establishing Temporary International Service Mail Rate

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of December 1964.

The Board, on September 10, 1964, adopted Order E–21267 directing all interested parties, and particularly Delta Air Lines, Inc., Pan American World Airways, Inc., and the Postmaster General to show cause why the Board should not adopt the proposed findings and conclusions and fix, determine and publish the temporary rates proposed therein for the mail transportation described.

No timely notice of objection to the order was filed. TWA, however, filed a telegraphic notice of objection on September 22, 1964, and on September 28, 1964, filed a supporting answer. The objection of TWA concerned Atlanta-London, Los Angeles-London, New Orleans-London, and San Francisco-London routes, but it did not object to the Board's proposal concerning a Houston-Mexico City adjustment.

On November 19, 1964, the Board issued Order E–21514 (Docket 15176, et al.) establishing a new service mail rate formula for transatlantic and transpacific routes. The rate formula proposed therein provides the relief sought by Pan American in Docket 15282, with the exception of the Houston-Mexico City market. Thus, Order E–21514 dismissed as moot the petition of Pan American in Docket 15282, except as it related to Pan American's service mail rate between Houston and Mexico City.[1]

Since no person has objected to the equalization proposed in the Houston-Mexico City market, all parties have waived the right to a hearing and all other procedural steps before a final decision of the Board and we will, therefore, establish the temporary service mail rate proposed by Order E–21267 as stated herein.

The Board, upon consideration of the record, hereby reaffirms and makes final the findings set forth in Order E–21267, but only insofar as they pertain to the priority service mail rate for the Houston-Mexico City market.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof,

*It is ordered*, That:

1. The fair and reasonable temporary rate of compensation to be paid to Pan American World Airways, Inc., on and after the date of this order, for the transportation of priority mail by aircraft, the facilities used and useful therefor, and the services connected therewith between Houston, Texas, and Mexico City, Mexico, is 17.65075 cents per pound.

2. Such temporary service mail rate shall be paid in its entirety by the Postmaster General pursuant to section 406(c) of the Federal Aviation Act of 1958, and no part of such amount shall be paid by the Board.

3. This proceeding shall remain open pending entry of an order fixing final rates, retroactive to such date as the Board may determine, which final rates may be lower or higher than or equal to the temporary rate fixed herein.

4. This order shall be served upon the Postmaster General, American Airlines, Inc., Braniff Airways, Inc., and Pan American World Airways, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
*Secretary.*

[F.R. Doc. 64–12624; Filed, Dec. 8, 1964; 8:50 a.m.]

[1] Insofar as it relates to the Houston-Mexico City market, Docket 15282 has been consolidated into Docket 15381, et al. (Petition of Postmaster General reopening Latin American service mail rates).

[Docket No. 13377]

### Bureau of International Commerce

[File No. 24-63]

## MOENS & CO. AND MARCEL MOENS

### Order Extending Temporary Denial of Export Privileges

In the matter of Moens & Company, Marcel Moens, 141 Tourhoutsebaan, Schilde, Antwerp, Belgium, File No. 24-63; respondents.

An order temporarily denying export privileges for a period of sixty days was issued in the above matter on October 12, 1964 (29 F.R. 14371). Said order was issued in connection with an investigation by the Investigations Division, Office of Export Control, Bureau of International Commerce, which had presented evidence on the basis of which there were reasonable grounds to believe that respondents were engaged in activities in violation of the U.S. Export Control Act and regulations thereunder. On the evidence presented there were reasonable grounds to believe that a number of items of U.S.-origin agricultural equipment, some of advanced design, had been exported from Canada to Antwerp, consigned to Moens & Company; that additional items of U.S.-origin of a similar nature were scheduled to be exported in the near future from Canada to said Moens & Company; that said commodities were ultimately intended to be delivered to a Soviet bloc destination in contravention of the U.S. Export Control Act and regulations thereunder; and that respondents were knowingly participating in a scheme to reexport said commodities whereby said illegal purpose would be accomplished.

The Director of said Investigations Division has applied under § 382.11 of the export regulations for an extension of the temporary denial order. On the basis of evidence presented as to developments subsequent to the issuance of the temporary denial order there are reasonable grounds to believe that respondents are continuing their activities in violation of the U.S. Export Control Act and regulations thereunder, and that they are persisting in their efforts to effect reexportation of said commodities to an unauthorized destination.

The application for extension of the temporary denial order has been considered by the Compliance Commissioner and he has reported his recommendation to me that the present temporary denial order be extended until the completion of administrative compliance proceedings. He has found that such extension is reasonably necessary to protect the public interest pending final disposition of the proceedings and is necessary for the effective enforcement of the law. I confirm these findings.

*Accordingly, it is hereby Ordered,*

I. The provisions and restrictions of the temporary denial order issued on October 12, 1964 (29 F.R. 14371) are hereby continued in full force and effect.

II. The respondents, their successors or assigns, partners, directors, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States in whole or in part, or to be exported, or which are otherwise subject to the Export Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the U.S. or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents, but also to their agents and employees and to any successor and to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. This order continues in full force and effect the provisions and restrictions of the temporary denial order of October 12, 1964 and shall remain in effect until the completion of administrative compliance proceedings unless it is hereafter amended, modified, or vacated in accordance with the provisions of the United States Export Regulations.

V. No person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondents or any related party, or whereby the respondents or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served upon the respondents.

VII. In accordance with the provisions of § 382.11(c) of the Export Regulations, the respondents may move at any time to vacate or modify this temporary denial order by filing an appropriate motion therefor, supported by evidence, with the Compliance Commissioner and may request an oral hearing thereon which, if requested, shall be held before the Compliance Commissioner in Washington, D.C. at the earliest convenient date.

This order extends the temporary denial order which was entered on October 12, 1964.

Dated: December 2, 1964.

WILSON E. SWEENEY,
*Acting Director,*
*Office of Export Control.*

### Maritime Administration

[Report No. 46]

## LIST OF FREE WORLD AND POLISH FLAG VESSELS ARRIVING IN CUBA SINCE JANUARY 1, 1963

SECTION 1. The Maritime Administration is making available to the appropriate Departments the following list of vessels which have arrived in Cuba since January 1, 1963, based on information received through November 30, 1964, exclusive of those vessels that called at Cuba on United States Government-approved noncommercial voyages and those listed in section 2. Pursuant to established United States Government policy, the listed vessels are ineligible to carry United States Government-financed cargoes from the United States.

SEC. 2. In accordance with approved procedures, the vessels listed below which called at Cuba after January 1, 1963, have reacquired eligibility to carry United States Government-financed cargoes from the United States by virtue of the persons who control the vessel having given satisfactory certification and assurance:

(a) That such vessels will not, thenceforth, be employed in the Cuba trade so long as it remains the policy of the United States Government to discourage such trade; and

(b) That no other vessels under their control will thenceforth be employed in the Cuba trade, except as provided in paragraph (c); and

(c) That vessels under their control which are covered by contractual obligations, including charters, entered into prior to December 16, 1963, requiring their employment in the Cuba trade shall be withdrawn from such trade at the earliest opportunity consistent with such contractual obligations.

## KAISER INDUSTRIES CORP. ET AL.

### Order Continuing Prehearing Conference

In re applications of Kaiser Industries Corporation, Chicago, Illinois, Docket No. 15667, File No. BPCT-3092; Frederick B. Livingston and Thomas L. Davis, d/b as Chicagoland TV Company, Chicago, Illinois, Docket No. 15668, File No. BPCT-3116; Warner Bros. Pictures, Inc., Chicago, Illinois, Docket No. 15669, File No. BPCT-3271; Chicago Federation of Labor and Industrial Union Council, Chicago, Illinois, Docket No. 15708, File No. BPCT-3439; for construction permit for new television broadcast station (Channel 38).

The Hearing Examiner having for consideration the Chief Hearing Examiner's orders herein of November 27, and December 1, 1964, wherein a prehearing conference was scheduled for December 3, 1964, and the present Hearing Examiner was appointed to serve as presiding officer;

It appearing, that certain of the issues in this proceeding are identical to those designated in the Commission's order released December 1, 1964 in Trinity Broadcasting Company, Docket No. 15714, et al. (FCC 64-1091, Mimeo. 59453), and that a more expeditious and economical disposition of such issues may be accomplished through the consolidation of hearing procedures insofar as hearing is to be conducted on the common issues;

*It is ordered*, This 1st day of December 1964, on the Hearing Examiner's own motion, that the prehearing conference now scheduled to commence on December 3, 1964 is continued to December 11, 1964, commencing at 9:00 a.m. in the offices of the Commission at Washington, D.C., and that, insofar as this proceeding involves issues in common with Trinity Broadcasting Company, et al., the said prehearing conference will be consolidated with a prehearing conference to be held in Trinity Broadcasting Company, et al.

Released: December 2, 1964.

## TRIAD STATIONS, INC., AND MARSHALL BROADCASTING CO.

### Memorandum of Ruling

In re applications of Triad Stations, Inc., Marshall, Mich., Docket No. 15548, File No. BPH-4131; Marshall Broadcasting Co., Marshall, Mich., Docket No. 15614, File No. BPH-4327; for construction permits.

This will formalize rulings made at the December 2, 1964, further prehearing conference, the transcript of which is incorporated herein by reference, as follows:

1. Joint motion to postpone date of exchange of exhibits and date of hearing, filed by applicants on November 27, 1964, is granted to the extent indicated hereinafter and is denied in all other respects;

2. Marshall Broadcasting Co. shall file a petition for leave to amend its application (necessitated by the Review Board's enlargement of issues through addition of a financial qualifications issue—see Memorandum Opinion and Order released November 27, 1964 (FCC 64R-540)) not later than by December 8, 1964; and

3. The following changes in procedure are effected:

a. Date of final exchange of all exhibits is continued to January 12, 1965;

b. Date of notification of witnesses, if desired, is continued to January 19, 1965; and

c. Date of commencement of hearing is continued from December 14, 1964 to 10:00 a.m., February 1, 1965.

Dated: December 2, 1964.

Released: December 3, 1964.

# FEDERAL MARITIME COMMISSION

[Docket No. 1188]

## ALASKA LOWER YUKON RIVER AREA

### Increased Freight Rates; Amendment of Notice of Investigation and Suspension

This proceeding was instituted by Commission Notice of Investigation and Suspension served June 16, 1964. The order of investigation embraces all rates, charges, rules, regulations, classifications and practices published in nine tariffs filed with the Commission by respondent Northern Commercial Co. River Lines. The Commission's order also suspended four items in respondent's Local Freight Tariff No. 2-K, FMC-F No. 53.

An examination of the nine tariffs of the respondent indicates that only four of them may apply to traffic moving between the State of Alaska and the other states. Under the Alaska Statehood Act (72 Stat. 339), and the subsequent enactment of the Alaska Omnibus Act (73 Stat. 141), it is clear that the Federal Maritime Commission has no jurisdiction over purely intra-Alaska commerce.

*Therefore, it is ordered*, That the Notice of Investigation and Suspension served June 16, 1964, is hereby amended by deleting the first two pages and modifying the first paragraph of page 3 to read as follows:

*It is ordered*, That an investigation be, and it hereby is instituted into and concerning the lawfulness of all rates, charges, rules, regulations, classifications and practices published in the following tariffs of Northern Commercial Co. River Lines including subsequent reissues thereof or amendments thereto: USMC No. F-6; FMC-F Nos. 45, 49 and 50.

By the Commission.

[SEAL] THOMAS LISI,
*Secretary.*

[F.R. Doc. 64-12600; Filed, Dec. 8, 1964; 8:48 a.m.]

## STATE OF CONNECTICUT AND CONNECTICUT TERMINAL CO., INC.

### Notice of Agreement Filed for Approval

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., Room 301; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

John Cunningham
Attorney for Connecticut Terminal Co., Inc.
Tower Building
1400 K Street NW.
Washington, D.C.

Agreement No. T-1721, between the State of Connecticut Commissioners of Steamship Terminals (Authority) and

Connecticut Terminal Co. (Company), provides for Company's five-year lease of New London State Pier No. 1 to be operated as a public marine terminal. Company may issue tariffs and enter into agreements covering rates and charges to be assessed at the pier. These are subject to regulation and change by the Authority.

Company will collect all revenue from the operation of the pier for the account of the Authority. From this income Authority will pay Company's expenses including salaries, repairs and certain rentals as provided in the agreement. If after payment of the operating costs specified in the agreement there remains a profit, Company will receive a certain percentage of such profit, and additional sums as specified.

Dated: December 4, 1964.

By order of the Federal Maritime Commission.

THOMAS LISI,
*Secretary.*

[F.R. Doc. 64-12601; Filed, Dec. 8, 1964; 8:48 a.m.]

[Docket No. 1215]

## TRANSCARLOADING CORP.

### Rate Changes on General Commodities in South Atlantic/Puerto Rico Trade; Notice of Investigation and Suspension

It appearing, that there have been filed with the Federal Maritime Commission by Transcarloading Corp. tariff schedules naming northbound and southbound amended rates on general commodities in the South Atlantic/Puerto Rico trade to become effective November 28, 1964, designated as follows:

TRANSCARLOADING CORP.

LOCAL FREIGHT TARIFF NO. 1, FMC-F NO. 1

Fourth Revised Page 20.
Third Revised Page 21.
Third Revised Page 23.
Third Revised Page 25.
Third Revised Page 26.
Third Revised Page 27.
Third Revised Page 28.
Third Revised Page 29.
Third Revised Page 30.
Third Revised Page 31.
Second Revised Page 32.

It further appearing, that upon consideration of the said schedules there is reason to believe that the amended "northbound" reduced rates if permitted to become effective, may have a damaging effect upon the competitive status of all carriers in the trade with possible detrimental effect on shipper interests;

It further appearing, that, the Commission is of the opinion that these tariff revisions should be made the subject of a public investigation and hearing to determine whether they are unjust, unreasonable, or otherwise unlawful under the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933, and that the effective date of the northbound reduced rates should be suspended pending such investigation;

It further appearing, that the Commission also is of the opinion that the investigation should include all tariff revisions, reductions and increases, northbound and southbound filed by Transcarloading Corp. to become effective November 28, 1964;

*Now therefore it is ordered*, That, an investigation be, and it is hereby, instituted into and concerning the aforementioned tariff revisions with a view to making such findings and orders in the premises as the facts and circumstances shall warrant;

*It is further ordered*, That all tariff matter prefixed with the "teardrop" symbol on Third Revised Pages 28, 29, 30 and 31; and on Second Revised Page 32 be, and it is hereby suspended and that the use thereof be deferred to and including March 27, 1965, unless otherwise authorized by the Commission; and that the rates, fares, charges, rules, regulations and/or practices heretofore in effect and which were to be changed by the suspended matter shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until the period of suspension has expired or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission;[1]

*It is further ordered*, That all subsequent revisions of the matter hereby placed under investigation shall be included in this investigation.

*It is further ordered*, That there shall be filed immediately with the Commission by Transcarloading Corp., a consecutively numbered supplement to the aforesaid tariff, which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described, and shall state that the aforesaid rates are suspended and may not be used until the 28th day of March 1965, unless otherwise authorized by the Commission; and that the matter heretofore in effect, and which was to be changed by the suspended matter shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension may be changed until the period of suspension has expired, or until this investigation and suspension proceeding has been disposed of, whichever first occurs, unless otherwise authorized by the Commission;

*It is further ordered*, That copies of this order shall be filed with the said tariff schedules in the Bureau of Domestic Regulation of the Federal Maritime Commission;

*It is further ordered*, That (I) the investigation herein ordered be assigned for public hearing by the Chief Examiner, before an examiner of the Commission's Office of Hearing Examiners at a date and place to be announced; (II) Transcarloading Corp. be, and it is hereby made respondent in this proceeding; (III) a copy of this order shall forthwith be served upon said respondent; (IV) the said respondent be duly notified of the time and place of the hearing herein ordered; and (V) this order and notice of the said hearing be published in the FEDERAL REGISTER.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(n) (46 CFR 502.73).

By the Commission, November 24, 1964.

[SEAL] THOMAS LISI,
*Secretary.*

[F.R. Doc. 64-12602; Filed, Dec. 8, 1964; 8:48 a.m.]

[1] Matter continued in effect as a result of this suspension is on Original Pages 28, 29, and 31. This order in no way affects the cancellation of Second Revised Pages 28, 29, 30, 31 and First Revised Page 32.

[Docket No. 1199]

## WEST COAST FREIGHT TARIFF BUREAU INC.

### Application for Freight Forwarding License; Discontinuance of Proceeding

By order dated August 24, 1964, the Commission, pursuant to a request by West Coast Freight Tariff Bureau Inc., an applicant for an independent ocean freight forwarder's license, instituted a proceeding to determine whether applicant is fit, willing and able properly to carry on the business of forwarding under section 44(b) of the Shipping Act, 1916 (46 U.S.C. 1245).

By letter of October 30, 1964, applicant requested a cancellation of its application for a license.

*Now therefore it is ordered*, That the proceeding is hereby discontinued.

*It is further ordered*, That the application of West Coast Freight Tariff Bureau Inc. for a license is hereby dismissed without prejudice to the filing of a new application on the basis of changed facts.

*It is further ordered*, That a copy of this order shall be served upon the respondent herein, and that this order be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] THOMAS LISI,
*Secretary.*

[F.R. Doc. 64-12603; Filed, Dec. 8, 1964; 8:49 a.m.]

# FEDERAL POWER COMMISSION

[Project 2203]

## ALABAMA POWER CO.

### Second Notice of Application for License

DECEMBER 1, 1964.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Alabama Power Co., of Birmingham, Ala., for license for proposed water-power Project No. 2203 to be located on Black Warrior River contiguous to the proposed redeveloped U.S. Government Lock and Dam No. 13, approximately five miles upstream from the City of Tuscaloosa in Tuscaloosa County, Ala., affecting navigable waters of the United States, the U.S. Government Lock and Dam No. 13, and lands acquired by the Corps of Engineers, Department of the Army. The proposed project will consist of an intake structure, penstocks, powerhouse containing two 27,667 h.p. turbines connected to 20,000 kw generators, tailrace, and substation.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is January 11, 1965. The application is on file with the Commission for public inspection.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12581; Filed, Dec. 8, 1964; 8:47 a.m.]

[Docket No. E-7192]

## DUKE POWER CO. AND CAROLINA POWER & LIGHT CO.

### Notice of Application

DECEMBER 1, 1964.

Take notice that on November 23, 1964, a joint application was filed with the Federal Power Commission pursuant to section 203 of the Federal Power Act by the Carolina Power & Light Co. (Carolina) and the Duke Power Co. (Duke), seeking an order authorizing Carolina to sell and Duke to acquire certain electric distribution facilities.

Carolina is a corporation organized under the laws of North Carolina and qualified to do business within the States of North Carolina and South Carolina with its principal business office in Raleigh, North Carolina. Carolina is engaged in the generation, transmission, distribution and sale to the public of electricity as a public service company or public utility in 55 counties in North Carolina and 13 counties in the State of South Carolina.

Duke is engaged in the generation, transmission, distribution and sale of electric energy in the States of North Carolina and South Carolina. Its service area embraces all or parts of 37 counties in North Carolina and 15 counties in South Carolina. It owns and operates local transportation systems in Greensboro and Durham, N.C. and in Spartanburg, S.C., and operates water supply systems in Rutherfordton and Spindale, N.C. and in Anderson, S.C.

Duke requests authority to acquire by purchase from Carolina and Carolina requests authority to sell to Duke,

(a) The substation equipment and facilities of Carolina including the substation lot at Greenville, S.C. and;

(b) The purchase of Carolina electric transmission line which extends northwardly from the substation at Greenville, S.C. to Duke's Davidson River substation, near Brevard, N.C. These facilities have been and are being used for the interchange of electricity between the systems of Carolina and Duke, and for the transmission of electricity by Duke within its own system.

According to the application, Duke has agreed to pay Carolina a cash consideration of $435,006.88. The proposed sale results from the exercise by Duke of its option which is contained in Article 11 of the interconnection agreement between Carolina and Duke dated June 1, 1961, and filed with the Federal Power Commission as Duke Power Co. Rate Schedule FPC No. 10, the same being also designated in the records of the Commission as Carolina Power & Light Co. Rate Schedule FPC No. 45. The Applicants represent that the amount of the cash consideration was arrived at through negotiations between the parties, but the provisions of Article 11 of the above-mentioned agreement contain the basis for the negotiations.

The Applicants further represent that the facilities described are wholly within the service territory of Duke, and it is anticipated that when they are integrated with Duke's other facilities they can be maintained and operated more efficiently and effectively for the transmission of electricity within Duke's own system and for the transmission of electric energy between the systems of Duke and Carolina. By reason of the sale of the facilities to Duke, Carolina will be relieved of substantial annual expenses in the operation and maintenance thereof. Except for the transfer to Duke of obligations incident to the operation and maintenance of the facilities described above, the proposed transaction will have no effect upon any contract for the purchase, sale, or interchange of electric energy.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 28, 1964, file with the Federal Power Commission, Washington, D.C., 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12582; Filed, Dec. 8, 1964; 8:47 a.m.]

[Docket No. CP65-135]

## EL PASO NATURAL GAS CO.

### Notice of Application

DECEMBER 1, 1964.

Take notice that on November 12, 1964, El Paso Natural Gas Co. (Applicant), El Paso, Tex., filed in Docket No. CP65-135 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities in Crockett County, Tex., all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant proposes to construct and operate approximately 17.9 miles of 8⅝-inch O.D. pipeline and necessary measuring and regulating facilities, for the purpose of receiving residue gas at the outlet of Shell Oil Co.'s proposed hydrocarbon extraction plant, to be situated near Ozona, Tex.

Applicant and Shell have entered into a Residue Gas Purchase Agreement, dated September 1, 1964, under which Shell proposes to sell and deliver to Applicant approximately 20,000 Mcf of residue gas daily.

The estimated cost of the proposed facilities is $574,000, and will be financed out of current working funds, supplemented, as necessary, by short-term bank loans.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 18, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12583; Filed, Dec. 8, 1964; 8:47 a.m.]

[Docket Nos. CP61-92, CP61-139]

## EL PASO NATURAL GAS CO. AND NORTHERN NATURAL GAS CO.

### Notice of Applications

DECEMBER 1, 1964.

Take notice that on September 26, 1960, as amended on May 22, 1961 and September 14, 1961, El Paso Natural Gas Co. (El Paso), Post Office Box 1492, El Paso, Tex., filed in Docket No. CP61-92 and on November 3, 1960, as amended on June 1, 1961 and September 15, 1961, Northern Natural Gas Co. (Northern), 2223 Dodge Street, Omaha, Nebr., filed in Docket No. CP61-139 their respective applications pursuant to section 7(c) of the Natural Gas Act for certificates of convenience and necessity authorizing the construction and operation of facilities for the acquisition, exchange and transportation of certain volumes of natural gas at several points on Northern's system in Ochiltree County, Tex., as a portion of the 50,000 Mcf of gas ultimately authorized to be exchanged at the Beaver County exchange point, as well as additional delivery points in

Ochiltree County, Tex., all as more fully set forth in the applications on file with the Commission and open to public inspection.

The applications as amended reflect that, El Paso and Northern, being parties to an agreement covering the exchange up to 475,000 Mcf per day of gas that El Paso is presently delivering to Northern on an exchange basis, seek authority to construct and operate facilities for the transportation, delivery and receiving in Ochiltree County, Tex., of a portion of the gas now being delivered in Beaver County, Okla. El Paso proposes to construct and operate necessary pipelines of 3½–4½-inch diameters and the necessary appurtenances and Northern proposes to construct and operate the necessary taps and valves to receive such gas in its system. The estimated cost to El Paso is about $276,300 and to Northern about $5,200, which will be financed from funds on hand.

These matters are ones that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate these applications for formal hearing before an examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on these applications provided no protest or petition to intervene is filed within the time required herein. Where a protest or petition to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1964.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64–12564; Filed, Dec. 8, 1964; 8:47 a.m.]

[Docket No. CP65–124]

## FLORIDA GAS TRANSMISSION CO. AND TEXAS EASTERN TRANSMISSION CORP.

### Notice of Application

DECEMBER 1, 1964.

Take notice that on November 5, 1964, Florida Gas Transmission Co. (Florida Gas), Winter Park, Fla., and Texas Eastern Transmission Corp. (Texas Eastern), Houston, Tex., filed in Docket No. CP65–124 a joint application pursuant to sections 7(b) and 7(c) of the Natural Gas Act for permission and approval to abandon certain facilities and for a certificate of public convenience and necessity authorizing the operation of certain facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Florida Gas and Texas Eastern seek authorization to operate an emergency interconnection between the pipeline systems of the two companies, and in the event of an emergency to exchange natural gas. The facilities proposed to be so operated are presently in existence, located in Matagorda County, Tex.

By order of the Commission issued June 21, 1963, in Docket No. CP61–302, authorization was granted for the operation of said facilities, and for metering and regulating facilities located in South Alvin Field, Brazoria County, Tex., for the sale and delivery of natural gas by Florida Gas to Texas Eastern up to a maximum of 13,292,573 Mcf until June 30, 1963, when such authorization terminated.

Florida Gas and Texas Eastern now propose to maintain and operate the interconnection of their facilities in Matagorda County, for the exchange of natural gas, and to remove the interconnecting facilities in Brazoria County.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

[Docket No. CP65–149]

## MANUFACTURERS LIGHT AND HEAT CO.

### Notice of Application

DECEMBER 1, 1964.

Take notice that on November 20, 1964, The Manufacturers Light and Heat Co. (Applicant), 800 Union Trust Building, Pittsburgh, Pa., filed in Docket No. CP65–149 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities in Gilmer, Doddridge and Wetzel Counties, West Virginia, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to construct and operate approximately 11.23 miles of 24-inch and approximately 0.15 mile of 16-inch gas transmission pipeline looping its existing composite 16- and 20-inch Line No. 1740, from a point in Gilmer County, Northerly to a point in Doddridge County, West Virginia.

Applicant seeks further authorization to construct and operate an additional 800 horsepower at its existing 2,200 horsepower Smithfield Compressor Station in Wetzel County, West Virginia.

The estimated total cost of the proposed facilities is $1,380,000 and $100,000 respectively, which Applicant proposes to finance through the issuance and sale of promissory notes or common stock to Applicant's parent company, The Columbia Gas System, Inc.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

## ASSISTANT ADMINISTRATOR (TRANSPORTATION)

### Delegation of Authority With Respect to Urban Mass Transportation

1. The Assistant Administrator (Transportation) is hereby authorized to execute the powers and functions vested in the Housing and Home Finance Administrator under:

(a) The Urban Mass Transportation Act of 1964 (78 Stat. 302–308, 49 U.S.C. 1601–1611) (including the authority under section 6 of the Act to execute contracts for mass transportation research, development, and demonstration projects);

(b) Section 202 of the Housing Amendments of 1955, as amended (42 U.S.C. 1492), with respect to undisbursed loan commitments for mass transportation made on or before July 8, 1964;

(c) Section 103(b) of the Housing Act of 1949, as amended (42 U.S.C. 1453(b)), with respect to the balance of funds obligated for mass transportation demonstration grants on or before July 8, 1964;

Except the power to:

(1) Authorize loans and grants;

(2) Determine the rate of interest on loans;

(3) Approve the undertaking of mass transportation research, development, and demonstration projects.

(4) Determine that there exists adequate comprehensive and transportation planning pursuant to sections 3(c), 4(a), and 5 of the Urban Mass Transportation Act of 1964.

2. The Assistant Administrator (Transportation) is further authorized to redelegate to one or more employees under his jurisdiction any of the authority herein delegated.

3. This delegation supersedes the delegation effective November 20, 1962 (27 F.R. 11441, November 20, 1962).

(62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U.S.C. 1701c)

Effective as of the 9th day of December 1964.

# SECURITIES AND EXCHANGE COMMISSION

[File No. 70–4244]

## EASTERN UTILITIES ASSOCIATES ET AL.

### Notice of Filing Regarding Issue and Sale of Promissory Notes by Subsidiary Companies to Banks and/or to Holding Company

DECEMBER 3, 1964.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") by Eastern Utilities Associates ("EUA"), a registered holding company, and two of its electric utility subsidiary companies, Blackstone Valley Gas & Electric Co. ("Blackstone") and Brockton Edison Co. ("Brockton"), 49 Federal Street, Boston, Mass., 02107. Applicants-declarants have designated sections 6(a), 7, 9(a), 10, 12(b), 12(c) and 12(f) of the act and Rules 42, 43(a), 45(b)(1) and 50(a)(2)(3) and (4) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the joint application-declaration on file at the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Blackstone and Brockton propose to issue and sell to banks (and/or in Blackstone's case to EUA) from time to time during the period ending December 23, 1965, short-term, unsecured, promissory notes, in the maximum aggregate amounts to be outstanding at any one time, as shown below:

| | Blackstone | Brockton |
|---|---|---|
| The Industrial National Bank of Rhode Island, Providence, R.I. | $900,000 | |
| Rhode Island Hospital Trust Co., Providence, R.I. | 900,000 | |
| The First National Bank of Boston, Boston, Mass. | | $813,000 |
| State Street Bank and Trust Co., Boston, Mass. | | 812,000 |
| The Plymouth-Home National Bank of Brockton, Brockton, Mass. | | 300,000 |
| National Bank of Plymouth County, Brockton, Mass. | | 175,000 |
| EUA and/or the above designated Rhode Island banks | 1,000,000 | |
| Total | 2,800,000 | 2,100,000 |

The notes will be dated as of the date of issuance, will bear interest at not to exceed the prime rate on the date of issuance (presently 4½ percent per annum) and will be prepayable in whole or in part without penalty. Notes issued prior to April 1, 1965 will mature April 1, 1965; notes issued on or after April 1, 1965 and prior to July 1, 1965 will mature July 1, 1965; notes issued on or after July 1, 1965 and prior to October 1, 1965 will mature October 1, 1965; and notes issued on or after October 1, 1965 will mature December 23, 1965.

Blackstone will have outstanding, at December 24, 1964, an estimated $2,000,000 principal amount of short-term notes, including a $1,000,000 note to EUA, and Brockton will have outstanding an estimated $1,500,000 of notes. The proceeds from the sale of the proposed notes will be used in part by the respective companies to pay such outstanding notes, and the balance to finance construction expenditures. Aggregate construction expenditures in 1965 for both companies are estimated at $3,000,000.

Blackstone may prepay its notes to banks, in whole or in part, by the use of proceeds of notes issued to EUA or vice versa. Any note issued to EUA for such purpose will bear interest, for the unexpired term of the prepaid note, at the lower of the prime rate or the rate borne by the prepaid note; and at the prime rate thereafter. If the interest rate on a note issued to a bank for the purpose of obtaining funds to prepay a note held by EUA shall exceed the rate of the note being prepaid, EUA shall reimburse or credit the borrowing company for the added interest requirement for the unexpired term of such prepaid note.

In the event of any permanent financing by Blackstone or Brockton, the proceeds therefrom will be applied to the payment of its short-term note indebtedness outstanding and the maximum amount of short-term note indebtedness to be outstanding at any one time, as proposed herein, will be reduced by the amount of the proceeds of such permanent financing.

The joint application-declaration states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions; and that the aggregate fees and expenses to be incurred in connection with the proposed transactions are estimated at $985.

Notice is further given that any interested person may, not later than December 22, 1964, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the joint application-declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing in respect thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing)

upon applicants-declarants at the above noted address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed contemporaneously with the request. At any time after said date, the joint application-declaration as filed or as it may be amended, may be granted and permitted to become effective, as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof, or take such other action as it may deem appropriate.

For the Commission (pursuant to delegated authority).

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

## REALSITE, INC.

### Order Canceling Hearing and Making Suspension Permanent

DECEMBER 3, 1964.

The Commission, by order dated March 8, 1963, having temporarily suspended the Regulation A exemption of Realsite, Inc., 3121 NW. 43d Avenue, Lauderdale Lakes, Florida, pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, and the company and counsel for the selling stockholders having requested a hearing upon the allegations set forth in the aforementioned order, and the Commission by order dated April 9, 1963, having ordered a hearing in the above-entitled matter but postponed indefinitely the setting of a date therefor, and

The company and counsel for the selling stockholders having now requested a withdrawal of their requests for a hearing, and the Division of Corporation Finance and the Atlanta Regional Office not objecting thereto:

*It is ordered,* That the requests for hearing be, and they hereby are, deemed withdrawn.

*It is further ordered,* That the hearing in this matter, now postponed indefinitely be, and it hereby is, canceled.

Pursuant to the provisions of Rule 261(b) of Regulation A, the suspension of the Regulation A exemption from registration under the Securities Act of 1933, as amended, with respect to the proposed public offering of Securities by the company becomes permanent.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

## TILECAST CORP.

### Notice and Order for Hearing

DECEMBER 3, 1964.

I. Tilecast Corp. (issuer), Bayamon, Puerto Rico, (business address), Two Penn Center Plaza, Suite 1616, Philadelphia 2, Pennsylvania (principal office address), a Pennsylvania corporation, filed with the Commission on December 2, 1963, a notification, offering circular and other exhibits relating to a proposed offering of 43,000 shares of its $.01 par value common stock at $4.00 per share for an aggregate of $172,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder. The offering commenced on February 4, 1964, the issuer filed an amended offering circular on June 29, 1964, and a report on Form 2-A on September 8, 1964.

II. The Commission, on November 5, 1964, issued an order pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending the issuer's exemption under Regulation A, and affording to any person having any interest in the matter an opportunity to request a hearing. A written request for a hearing has been received by the Commission.

The Commission deems it necessary and appropriate that a hearing be held for the purpose of determining whether it should vacate the temporary suspension or enter an order of permanent suspension in this matter.

*It is hereby ordered,* Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that a hearing be held at 10:00 a.m., e.s.t., on January 6, 1965, at the Atlanta Regional Office, Suite 138, 1371 Peachtree Street NE., Atlanta, Georgia, with respect to the matters set forth in section II of the Commission's order dated November 5, 1964, which temporarily suspended the Regulation A exemption of Tilecast Corporation, without prejudice, however, to the specification of additional issues which may be presented in these proceedings.

III. *It is further ordered,* That Sidney Ullman, or any officer or officers of the Commission designated by it for that purpose, shall preside at the hearing; that any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the powers granted to the Commission under sections 19(b), 21 and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

*It is further ordered,* That the Secretary of the Commission shall serve a copy of this order by registered mail on Tilecast Corporation, that notice of the entering of this order shall be given to all other persons by a general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard, or otherwise wishes to participate in the hearing, shall file with the Secretary of the Commission on or before January 4, 1965, a written request relative thereto as provided in Rule 9(c) of the Commission's rules of practice.

*It is further ordered,* That Tilecast Corporation, pursuant to Rule 7 of the rules of practice of the Commission (17 CFR 201.7), shall file an answer to the allegations set forth in section II of the Commission's order dated November 5, 1964. Such answer shall be filed in the manner, form and within the time prescribed by 17 CFR 201.7 and shall specifically admit, deny, or state that Tilecast Corporation does not have, and is unable to obtain, sufficient information to admit or deny each of the allegations set forth in section II of the Commission's order dated November 5, 1964.

Notice is hereby given that if Tilecast Corp. fails to file an answer pursuant to 17 CFR 201.7 within fifteen days after service upon it of this notice and order for hearing, the proceedings may be determined against Tilecast Corp. by the Commission upon consideration of this notice and order for hearing, and the allegations in section II of the Commission's order dated November 5, 1964, may be deemed to be true.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

I. • • •

K. The following authority is hereby redelegated to the Branch Managers at Birmingham, Alabama; Jackson, Mississippi; Louisville, Kentucky; Nashville, Tennessee; Jacksonville and Miami, Florida.

• • • • • •

Effective date: December 1, 1964.

JAMES F. HOLLINGSWORTH, *Regional Director, Atlanta Regional Office.*

[F.R. Doc. 64-12607; Filed, Dec. 8, 1964; 8:49 a.m.]

[Delegation of Authority 30-IV, Revision 1]

## RICHMOND REGIONAL AREA

### Delegation of Authority To Conduct Program Activities

I. Pursuant to the authority delegated to the Regional Director by Delegation of Authority No. 30 (Revision 9), 29 F.R. 11777, as amended, 29 F.R. 12570, 13354 and 14093, the following authority is hereby redelegated to the specific positions as indicated herein:

A. *Size determinations* (Delegated to the positions as indicated below). To make initial size determinations in all cases within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions for financial assistance purposes only. Product classification decisions for procurement purposes are made by contracting officers.

B. *Eligibility determinations* (Delegated to positions as indicated below). To determine eligibility of applicants for assistance under any program of the Agency in accordance with Small Business Administration standards and policies.

C. *Chief, Financial Assistance Division* (and Assistant Chief, if assigned). 1. Item I.A. (Size Determinations for Financial Assistance only)

2. Item I.B. (Eligibility Determinations for Financial Assistance only)

3. To approve the following:

a. Business Loans

(1) Direct not exceeding $350,000.

(2) Participation not exceeding $350,000.

b. Disaster Loans

(1) Direct not exceeding $350,000.

(2) Participation not exceeding $350,000.

4. To decline business and disaster loans of any amount.

5. To disburse unsecured disaster loans.

6. To enter into business loan and disaster loan participation agreements with banks.

7. To execute loan authorizations for Washington approved loans and for loans approved under delegated authority, said execution to read as follows:

(Name), Administrator

By ----------
(Name)
(Title of person signing)

8. To cancel, reinstate, modify and amend authorizations for business or disaster loans.

9. To extend the disbursement period on all loan authorizations or undisbursed portions of loans.

10. To approve, when requested, in advance of disbursement, conformed copies of notes and other closing documents; and certify to the participating bank that such documents are in compliance with the participation authorization.

11. To approve service charges by participating bank not to exceed 2 percent per annum on the outstanding balance on construction loans and loans involving accounts receivable and inventory financing.

12. To take all necessary actions in connection with the administration, servicing, collection and liquidation of all loans and other obligations or assets, including collateral purchased; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including, without limiting, the generality of the foregoing:

a. The assignment, endorsement, transfer and delivery (but in all cases without representation, recourse or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator;

b. The execution and delivery of contracts of sale or of lease or sublease, quit-claim, bargain and sale or special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or in part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing.

c. The approval of bank applications for use of liquidity privilege under the loan guaranty plan.

D. *Chief, Loan Administration Section.* 1. To approve amendments and modifications of loan conditions for loans that have been fully disbursed.

2. Item I.C.12—only the authority for servicing, administration and collection, including subitems a. and b.

E. *Chief, Loan Liquidation Section.* Item I.C.12—only the authority for liquidation, including collateral purchased, and subitems a. and b.

F. *Chief, Loan Processing Section.* 1. Item I.C.3.

2. To decline business and disaster loans of any amount.

3. Items I.C.6. through 10.

4. Item I.A. (Size Determinations for Financial Assistance only).

5. Item I.B. (Eligibility Determinations for Financial Assistance only).

C. *Chief, Investment Division.* 1. To extend the disbursement period of section 502 loan authorizations or undisbursed portions of section 502 loans.

2. To cancel wholly or in part undisbursed balances of partially disbursed section 502 loans.

3. To do and to perform all and every act and thing requisite, necessary and proper to be done for the purpose of effecting the servicing and administration of section 502 loans.

4. To substitute, add, or change the collateral requirements of any loan authorization where such change will not adversely affect the credit aspects of the loan. (Section 502 loans only.)

5. Item I.A. (Size Determinations for section 502 loans only).

6. Item I.B. (Eligibility Determinations for section 502 loans only).

H. *Chief, Procurement Assistance.* 1. Item I.A. (Size Determinations on PA activities only).

2. Item I.B. (Eligibility Determinations on PA activities only).

I. *Regional Counsel and Branch Counsel.* To disburse approved loans.

J. *Administrative Officer.* 1. To (a) purchase all office supplies and expendable equipment, including all desk-top items and rent regular office equipment; (b) contract for repair and maintenance of equipment and furnishings in an amount not to exceed $50 in any one instance; (c) contract for services required in setting up and dismantling, and moving SBA exhibits.

2. In connection with the establishment of Disaster Loan offices, to (a) obligate Small Business Administration to reimburse General Services Administration for rental of office space; (b) rent office equipment; (c) rent motor vehicles commercially when not available from General Services Administration; (d) procure (without dollar limitation) emergency supplies and materials.

3. To rent motor vehicles from the General Services Administration and to rent garage space for the storage of such vehicles when not furnished by this Administration.

K. The following authority is hereby redelegated to the Branch Managers at Baltimore, Md; Charlotte, N.C.; Clarksburg, W. Va.; Cleveland, Ohio; Columbia, S.C.; Columbus, Ohio, and Washington,

1. To approve the following:

a. Direct loans not exceeding $100,000.

b. Participation loans not exceeding $250,000.

c. Simplified Bank Participation loans not exceeding $350,000.

d. Simplified Early Maturities Participation loans not exceeding $350,000.

e. Direct disaster loans not exceeding $350,000.

f. Participating disaster loans not exceeding $350,000.

2. To decline as follows:

a. Business loans not exceeding $250,000.

b. Disaster loans in any amount.

3. To disburse approved loans.

4. Items I.C. 6. through 11.

5. Item I.C.12—Only the authority for servicing, administration and collection, including subitems a., b., and c.

6. Items I.G. 1. through 4.

7. To (a) make emergency purchases chargeable to the administrative expense fund, not in excess of $25 in any one object class in any one instance but not more than $50 in any one month for total purchases in all object classes; (b) make purchases not in excess of $10 in any one instance for "one-time use items" not carried in stock subject to the total limitations set forth in (a) of this paragraph; (c) contract for the repair and maintenance of equipment and furnishings in an amount not to exceed $25 in any one instance; and (d) purchase printing from the General Services Administration where centralized reproduction facilities have been established by GSA.

8. Items I.J. 2. and 3.

9. Item I.A. (Size Determinations for Financial Assistance Only).

10. Item I.B. (Eligibility Determinations for Financial Assistance Only).

11. Item I.C.12.—Only the authority for servicing, administration, and collection, including subitems a. and b., but not c., is hereby delegated to the Chief, Financial Assistance Section of each of the above branch offices.

12. *Special for Washington Branch Manager:* (For loans under 6 x 6 program only). a. Item I.C. 12.

13. Item I.C.12.—Branch Manager and Chief, Financial Assistance Section (Cleveland only).

14. Item I.J.—Branch Manager and Administrative Assistant (Cleveland only).

I. The following authority is hereby redelegated to the Branch Manager at Charleston, West Virginia:

1. Items I.K. 1. and 2.
2. Items I.C. 6. through 11.
3. Item I.K.7.
4. Items I.J. 2. and 3.
5. Item I.A. (Size Determinations for Financial Assistance only).
6. Item I.B. (Eligibility Determinations for Financial Assistance only).
7. To disburse unsecured disaster loans only).

II. The authority delegated herein cannot be redelegated.

III. The authority delegated herein to a specific position may be exercised by any SBA employee designated as Acting in that position.

IV. All authority previously delegated by the Regional Director and other officials in this region is hereby rescinded without prejudice to actions taken under such delegations prior to the date hereof.

Effective date: December 1, 1964.

CLARENCE P. MOORE,
*Regional Director,*
*Richmond Regional Office.*

# INTERSTATE COMMERCE COMMISSION

[Section 5a Application No. 4; Amdt. 6]

## MOVERS' & WAREHOUSEMEN'S ASSOCIATION OF AMERICA, INC.

### Application for Approval of Amendments to Agreement

DECEMBER 4, 1964.

The Commission is in receipt of an application in the above-entitled and numbered proceeding for approval of amendments to the agreement therein approved under the provisions of section 5a of the Interstate Commerce Act.

Filed November 20, 1964, amended November 25, 1964, by Zelby & Burstein, 160 Broadway, New York, N.Y., 10038.

Amendments involved: Change the by-laws so as to (1) limit the number of directors comprising the board of directors, (2) revise the qualifications for such directors, officers of the Association, and the members of the Executive Committee, and (3) provide for the creation of an Inter-Related Rate and Tariff Committee with specified authority. The last change is covered by Amendment No. 5 to the subject proceeding presently pending before the Commission.

The application may be inspected at the office of the Commission in Washington, D.C.

Any interested persons desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the general rules of practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

By the Commission, division 2.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

[F.R. Doc. 64-12591; Filed, Dec. 8, 1964; 8:47 a.m.]

[Notice No. 331]

## MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

DECEMBER 4, 1964.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1 (c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 1124 (Deviation No. 17), HERRIN TRANSPORTATION COMPANY, 2301 McKinney Avenue, Post Office Box 1440, Houston, Tex., 77003, filed November 13, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: between Houston, Tex., and Galveston, Tex., over Interstate Highway 45, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: between Houston and Galveston, over Texas Highway 3.

No. MC 1124 (Deviation No. 18), HERRIN TRANSPORTATION COMPANY, 2301 McKinney Avenue, Houston, Tex., 77003, filed November 13, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, transporting *general commodities*, with certain exceptions, over a deviation route as follows: Between Opelousas, La., and junction U.S. Highway 167 and Louisiana Highway 182 near Sunset, La., over U.S. Highway 167, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Opelousas over Louisiana Highway 182 to Sunset, La., and return over the same route.

No. MC 2962 (Deviation No. 3), A & H TRUCK LINE, INC., 1277 Maxwell Avenue, Evansville, Ind., 47727, filed November 27, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, transporting *general commodities*, with certain exceptions, over a deviation route as follows: From Louisville, Ky., over Kentucky Turnpike to junction Western Kentucky Parkway south of Elizabethtown, Ky., thence over Western Kentucky Parkway to Nortonville, Ky., interchange, thence over U.S. Highway 41 to Hopkinsville, Ky., and thence over Alternate U.S. Highway 41 to junction U.S. Highway 79, thence over U.S. Highway 79 to Memphis, Tenn., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Tell City over Indiana Highway 37 to Sulphur, Ind. (also from Tell City over Indiana Highway 66 to Sulphur, Ind.), thence over Indiana Highway 62 via New Albany, Ind., to Jeffersonville, Ind., and thence across the Ohio River to Louisville, Ky.; from Tell City over Indiana Highway 66 to junction Indiana Highway 70, thence over Indiana Highway 70 to junction Indiana Highway 45, thence over Indiana Highway 45 to junction Indiana Highway 62, thence over Indiana Highway 62 to Evansville; from Tell City over Indiana Highway 66 to Evansville; from Memphis, Tenn., over U.S. Highway 51 to Fulton, Ky., thence over U.S. Highway 45 to Paducah, Ky., thence over U.S. Highway 60 to Henderson, Ky., and thence over U.S. Highway 41 to Evansville, and return over the same routes.

No. MC 6894 (Deviation No. 9), MELVIN TRUCKING COMPANY, Bridge Street and Schuylkill Road, Spring City, Pa., filed November 17, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction Illinois Highway 121 and Illinois Highway 10 (at Lincoln, Ill.), over Illinois Highway 10 to junction U.S. Highway 136, thence over U.S. Highway 136 through Havana, Ill., to junction Illinois Highways 78 and 97, thence over Illinois Highways 78 and 97 to junction U.S. Highway 24, thence over U.S. Highway 24 to junction Illinois Highway 78, thence over Illinois Highway 78 to Canton, Ill., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: from Lincoln, Ill., over Illinois Highway 121 to Morton, Ill., thence over U.S. Highway 150 to Peoria, Ill., thence over U.S. Highway 24 to Banner, Ill., thence over Illinois Highway 9 to Canton, Ill., and return over the same route.

No. MC 6894 (Deviation No. 10), MELVIN TRUCKING COMPANY, Bridge Street and Schuylkill Road, Spring City, Pa., filed November 19, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities* with certain exceptions, over a deviation route as follows: From Galesburg, Ill., over U.S. Highway 34 to junction Illinois Highway 88, thence over Illinois Highway 88 to junction Interstate Highway 80, thence over Interstate Highway 80, east, to the Illinois-Indiana State line, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Galesburg, over U.S. Highway 150 to junction Illinois Highway 8, thence over Illinois Highway 8 to Peoria, Ill., thence over Illinois Highway 116 to junction U.S. Highway 66, thence over U.S. Highway 66 to junction Alternate U.S. Highway 66, thence over Alternate U.S. Highway 66 to junction U.S. Highway 30 at Joliet, Ill., thence east over U.S. Highway 30 to the Illinois-Indiana State line, and return over the same route.

No. MC 22214 (Deviation No. 3), ACCELERATED TRANSPORT-PONY EXPRESS, INC., 23 and 61 West Lee Street, Hagerstown, Md., filed November 16, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: Between Hagerstown, Md., and Harrisburg, Pa., over Interstate Highway 81, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Hagerstown over Maryland Highway 60 to the Maryland-Pennsylvania State line, thence over Pennsylvania Highway 316 to Waynesboro, Pa., thence over Pennsylvania Highway 16 to Zora, Pa., thence over Pennsylvania Highway 116 to Gettysburg, Pa., thence over U.S. Highway 15 to Harrisburg, and return over the same route.

No. MC 24379 (Deviation No. 1), LONG TRANSPORTATION COMPANY, 3755 Central Avenue, Detroit 10, Mich. Carrier's attorney: Rex Eames, 1800 Buhl Building, Detroit, Mich., 48226, filed November 22, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Chicago, Ill., over city streets to junction U.S. Highway 30, thence over U.S. Highway 30 to Canton, Ohio; (2) from Lansing, Mich. over Interstate Highway 96 to Detroit, Mich., thence over Interstate Highway 75 to Toledo, Ohio; (3) from Detroit, over Interstate Highway 94 to New Buffalo, Mich.; and (4) from Chicago, Ill., over city streets to the Indiana Toll Road, thence over the Indiana Toll Road to the Ohio Turnpike, thence over the Ohio Turnpike to the Pennsylvania Turnpike, thence over the Pennsylvania Turnpike to the Pennsylvania-New Jersey State line, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Chicago over city streets to junction U.S. Highway 6, thence over U.S. Highway 6 to Sandusky, Ohio, thence over U.S. Highway 250 to Norwalk, Ohio, thence over Ohio Highway 18 to Akron, Ohio, thence over Ohio Highway 8 to Canton, Ohio; from Lansing over U.S. Highway 16 to Detroit, Mich., thence over U.S. Highway 25 to Toledo, from Chicago over U.S. Highway 12 to Detroit; and from Chicago, Ill., over city streets to junction U.S. Highway 6, thence over U.S. Highway 6 to Fremont, Ohio, thence over U.S. Highway 20 and Ohio Highway 18 to Akron, Ohio, thence over U.S. Highway 224 to Liverpool, Ohio, thence over U.S. Highway 30 to Pittsburgh, Pa., thence over U.S. Highway 22 to the New Jersey State line (U.S. Highway 22 to Newark, N.J.), and return over the same routes.

No. MC 24379 (Deviation No. 2) LONG TRANSPORTATION COMPANY, 3755 Central Avenue, Detroit 10, Mich., Carrier's attorney: Rex Eames, 1800 Buhl Building, Detroit, Mich., 48226, filed November 25, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Detroit, Mich., over Interstate Highway 94 to Port Huron, Mich., and return over the same route, for operating convenience only, restricted to traffic that has moved or will move to or from points outside of Michigan on applicant's line. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Detroit over Michigan Highway 17 to Ann Arbor; between Flint and Ann Arbor over U.S. Highway 23; and from Coldwater, Mich., over U.S. Highway 27 to junction Michigan Highway 21 thence over Michigan Highway 21 to Port Huron and return over the same route.

No. MC 29555 (Deviation No. 8), BRIGGS TRANSPORTATION CO., 2360 West County Road C, St. Paul, Minn., 55113, filed November 27, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, transporting *general commodities*, with certain exceptions over a deviation route as follows: From Chicago, Ill., over Interstate Highway 55 (Southwest Expressway) to junction Interstate Highway 80 (approximately 5 miles west of Joliet, Ill., thence over Interstate Highway 80 to Omaha, Nebr., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Omaha, Nebr., over U.S. Highway 6 to junction Illinois Highway 92, thence over Illinois Highway 92 via Silvis, Ill., to junction U.S. Highway 34, thence over U.S. Highway 34 to Chicago, and return over the same route.

No. MC 43654 (Deviation No. 9), DIXIE OHIO EXPRESS, INC., Post Office Box 750, Akron, Ohio, 44309, filed November 20, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, transporting *general commodities*, with certain exceptions, over a deviation route as follows: From Columbus, Ohio, over Interstate Highway 71 to junction Interstate Highway 275, thence over Interstate Highway 275 to junction Interstate Highway 75 thence over Interstate Highway 75 to Cincinnati, Ohio, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Columbus, Ohio, over U.S. Highway 62 to Washington Court House, Ohio, thence over U.S. Highway 22 to Cincinnati; from Columbus, Ohio over U.S. Highway 23 to Delaware, Ohio, thence over U.S. Highway 42 to Cincinnati; and from Columbus, over U.S. Highway 23 to Delaware, Ohio, thence over U.S. Highway 42 to junction U.S. Highway 42 and U.S. Highway 40, thence over U.S. Highway 40 to Springfield, Ohio, thence over Ohio Highway 4 to junction U.S. Highway 127, thence over U.S. Highway 127 to Cincinnati, and return over the same routes.

No. MC 44605 (Deviation No. 5), MILNE TRUCK LINES, INC., 2200 South Third West, Salt Lake City, Utah, 84115, filed November 9, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Elberta, Utah, over U.S. Highways 6 and 50 to Hinkley, Utah, thence over Utah Highway 257 to Minersville, Utah, thence over unnumbered highway to Enoch, Utah, approximately 5 miles north of Cedar City, Utah, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Salt Lake City over U.S. Highway 91 to St. George, Utah, and return over the same route.

No. MC 51255 (Deviation No. 7), HAECKL'S EXPRESS, INCORPORATED, doing business as HAECKL, Post Office Box 2057, Terre Haute, Ind., filed November 19, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Chicago, Ill., over Interstate Highway 55 to junction Interstate Highway 80 (approximately 5 miles west of Joliet, Ill.), and thence over Interstate Highway 80 to Lincoln, Nebr., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Chicago over Alternate U.S. Highway 30 to junction unnumbered highway at a point approximately two and one-half miles southeast of Emerson, Ill., thence over unnumbered highway via Emerson to junction U.S. Highway 30 at a point approximately three miles southwest of Emerson, thence over U.S. Highway 30 to junction Iowa Highway 131, thence over Iowa Highway 131 to junction Iowa Highway 212, thence over Iowa Highway 212 to junction U.S. Highway 30, thence over U.S. Highway 30 to Missouri Valley, Iowa, thence over U.S. Highway 75 to Council Bluffs, Iowa, thence over city streets to Omaha, Nebr., thence over Nebraska Highway 38 to junction Nebraska Highway 50, thence over Nebraska Highway 50 to Millard, Nebr., thence over Nebraska Highway 31 to junction U.S. Highway 6, thence over U.S. Highway 6, to Lincoln, and return over the same route.

No. MC 59852 (Deviation No. 3), ALL STATES FREIGHT, INC., 1250 Kelly

Avenue, Post Office Box 7036, Akron 6, Ohio, filed November 13, 1964. Applicant's representative: Walter M. F. Neugebauer, same address as applicant. Carrier proposes to operate as a *common carrier*, by motor vehicle, transporting *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of Indiana Highway 9 and U.S. Highway 35 south of Marion, Ind., over U.S. Highway 35 to junction U.S. Highway 31, thence over U.S. Highway 31 to Peru, Ind., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From the junction of Indiana Highway 9 and U.S. Highway 35 south of Marion, over Indiana Highway 9 to Marion, thence over Indiana Highway 15 to Wabash, Ind., thence over U.S. Highway 24 to Peru, and return over the same route.

No. MC 59957 (Deviation No. 1), MOTOR FREIGHT EXPRESS, INC., York, Pa., 17405, mailing address, Monument and Dean Streets, Baltimore 5, Md., filed November 17, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: (1) From Petersburg, Va., over Interstate Highway 95, to New York, N.Y., (2) from junction U.S. Highway 350 and Interstate Highway 495, over Interstate Highway 495 to junction Interstate Highway 295, thence over Interstate Highway 295 to junction U.S. Highway 50, and (3) from junction U.S. Highway 350 and Interstate Highway 495, over Interstate Highway 495 to junction U.S. Highway 50, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From Petersburg, over U.S. Highway 1 to Baltimore, Md., thence over U.S. Highway 40 via Aberdeen, Md., to State Road, Del., thence over U.S. Highway 13 to Philadelphia, Pa., thence over U.S. Highway 1 to New York, (2) from Petersburg, over U.S. Highway 1 to Bel Air, Md., thence over Maryland Highway 22 to Aberdeen, thence over U.S. Highway 40 to State Road, Del., thence over U.S. Highway 13 to Philadelphia, Pa., thence over U.S. Highway 1 to New York, and (3) from Petersburg over U.S. Highway 1 to Baltimore, thence over U.S. Highway 40 to Pennsville, N.J., thence over U.S. Highway 130 to junction U.S. Highway 1, thence over U.S. Highway 1 to New York, and return over the same routes.

No. MC 66788 (Deviation No. 3), RAYMOND MOTOR TRANSPORTATION, INC., 1912 Broadway NE., Minneapolis 13, Minn., filed November 13, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From junction Interstate Highway 90 and U.S. Highway 12 at Wisconsin Dells, Wis., over Interstate Highway 90 to junction U.S. Highways 12, 18, 51, and Interstate Highway 90, just south of Madison, Wis., over Interstate Highway 90 to junction U.S. Highway 14 near Janesville, Wis., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From junction Interstate Highway 90 and U.S. Highway 12 at Wisconsin Dells, over U.S. Highway 12, to Tomah, and (2) from junction U.S. Highways 12 and 14, just south of Madison, over U.S. Highway 14 to junction U.S. Highway 51 near Janesville, and return over the same routes.

No. MC 71460 (Deviation No. 6), SOUTHERN FORWARDING COMPANY, 728 Austin Avenue, Memphis, Tenn. Carrier's attorney: James N. Clay, III, 340 Sterick Building, Memphis, Tenn., filed November 16, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Louisville, Ky., over the Kentucky Turnpike to its intersection with the Western Kentucky Parkway south of Elizabethtown, Ky., thence over the Western Kentucky Parkway to the Nortonville interchange, thence over U.S. Highway 41 to Hopkinsville, Ky., and thence over Alternate U.S. Highway 41 to the intersection of U.S. Highway 79, thence over U.S. Highway 79 to Memphis, Tenn., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Memphis over U.S. Highway 70 to Dickson, Tenn., thence over Tennessee Highway 46 to junction Tennessee Highway 47, thence over Tennessee Highway 47 to junction U.S. Highway 70, thence over U.S. Highway 70 to Nashville, Tenn., and thence over U.S. Highway 31–W to Louisville; from Memphis over U.S. Highway 70 to Brownsville, Tenn., thence over Alternate U.S. Highway 70 via Atwood, Tenn., to Huntingdon, Tenn., thence over U.S. Highway 70 to Dickson, Tenn., thence over Tennessee Highway 46 to junction Tennessee Highway 47, thence over Tennessee Highway 47 to junction U.S. Highway 70, thence over U.S. Highway 70 to Nashville, Tenn., thence over U.S. Highway 31–W to junction Kentucky Highway 80, thence over Kentucky Highway 80 to Glasgow, Ky., thence over U.S. Highway 31–E to Hodgenville, Ky., thence over Kentucky Highway 61 to Elizabethtown, Ky., and thence over U.S. Highway 31–W to Louisville; and from Bowling Green over U.S. Highway 31–W to Nashville, Tenn., thence over U.S. Highway 70 to Huntingdon, Tenn., thence over Alternate U.S. Highway 70 via Atwood, Tenn., to Brownsville, Tenn., and thence over U.S. Highway 70 to Memphis, and return over the same routes.

No. MC 76032 (Deviation No. 10), NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, Colo., 80223. Carrier's attorney: O. Russell Jones, 207 Bokum Building, 142 West Palace Avenue, Santa Fe, N. Mex., 87501, filed November 24, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Amarillo, Tex., over Interstate Highway 40 and U.S. Highway 66 to Oklahoma City, Okla., thence over Interstate Highway 44 (Turner Turnpike) to Tulsa, Okla., thence over Interstate Highway 44 (Will Rogers Turnpike) to Joplin, Mo., thence over U.S. Highway 66 to Springfield, Mo., thence over Interstate Highway 44 and U.S. Highway 66 to St. Louis, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Amarillo over U.S. Highway 287 to Stratford, Tex., thence over U.S. Highway 54 to Hooker, Okla., thence over U.S. Highway 54 to Liberal, Kans., thence over Kansas Highway 96 to Hutchinson, Kans., thence over U.S. Highway 50 (formerly U.S. Highway 50S) to junction U.S. Highway 56 (formerly U.S. Highway 50N) near Worden, Kans., thence over U.S. Highway 50 to junction Kansas Highway 10 at or near Merriam, Kans., thence over Kansas Highway 10 to Kansas City, Kans., thence over city streets to Kansas City, Mo., thence over U.S. Highway 40 to St. Louis, Mo., and return over the same route.

No. MC 77404 (Deviation No. 4) MOHAWK MOTOR, INC., 40 Harrison St., Tiffin, Ohio. Carrier's attorney: Taylor C. Burneson, 3430 Leveque-Lincoln Tower, 50 West Broad Street, Columbus, Ohio, 43215, filed November 27, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cincinnati, Ohio, over Interstate Highway 75 to Detroit, Mich., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cincinnati, Ohio, over U.S. Highway 42 to Lebanon, Ohio, thence over Ohio Highway 48 to Dayton, Ohio, thence over U.S. Highway 25 to Findlay, Ohio, thence over Ohio Highway 12 to Fostoria, Ohio, thence over U.S. Highway 23 to Toledo, Ohio, thence over U.S. Highway 25 to Detroit, Mich. and return over the same route.

No. MC 103435 (Deviation No. 10) UNITED BUCKINGHAM FREIGHT LINES, Post Office Box 1631, Rapid City, S. Dak. Applicant's representative: J. Maurice Andren, Post Office Box 1631, Rapid City, S. Dak., filed November 23, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, transporting *general commodities*, with certain exceptions, over a deviation route as follows: From the United States-Canadian border at Sweetgrass, Mont., over Interstate Highway 15 to Butte, Mont., thence over Interstate Highway 90 to Buffalo, Wyo., thence over Interstate Highway 25 to Denver, Colo., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Shelby, Mont., over U.S. Highway 91 (also designated as Interstate Highway 15) to the port of entry on the United States-Canada boundary line, at Sweetgrass, Mont.; from Great Falls, Mont., over U.S. Highway 91 to Shelby, Mont.; from Great Falls, Mont., over U.S. Highway 91 to Helena, Mont.; from Butte, Mont., over U.S. Highway 91 to Helena, Mont.; from Billings, Mont., over unnumbered highway via Acton and Broadview, Mont., to junction U.S. Highway 12 (portion formerly Montana Highway 6 and U.S. Highway 10N), thence over U.S. Highway 12 via Townsend, Mont., to Helena, Mont.; from Broadus, Mont., over U.S. Highway 212 to junction Montana Highway 8 thence over Montana Highway 8 to Crow Agency, Mont., thence over U.S. Highway 87 to Billings, Mont.; from Sheridan, Wyo., over U.S. Highway 87 to Acme, Wyo., thence over unnumbered highway to the Wyoming-Montana State line, and thence over unnumbered highways via Decker, Mont., to Birney, Mont.; from Newcastle, Wyo., over U.S. Highway 16 to Ucross, Wyo., thence over U.S. Highway 14 to Sheridan, Wyo.; and from Deadwood, S. Dak., over U.S. Highway 85 to Denver, Colo., and return over the same routes.

No. MC 106117 (Deviation No. 1), RUMPF TRUCK LINE, INC., 424 South Maumee Street, Tecumseh, Mich., filed November 25, 1964. Applicant's attorney: Rex Eames, 18000 Buhl Building, Detroit, Mich., 48226. Carrier proposes to operate as a *common carrier*, by motor vehicle, transporting *general commodities*, with certain exceptions, over deviation routes as follows: (A) From Ann Arbor, Mich., over U.S. Highway 23 to Toledo, Ohio; (B) from Tecumseh, Mich., over Michigan Highway 50 to junction U.S. Highway 23, thence over U.S. Highway 23 to Toledo, Ohio, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: from Ann Arbor, Mich., over Michigan Highway 17 to Ypsilanti, Mich., thence over U.S. Highway 112 to Clinton, Mich., thence over unnumbered highway via Macon, Mich., to Britton, Mich., thence over unnumbered highway to Holloway, Mich., thence over unnumbered highway to Deerfield, Mich., thence over unnumbered highway to Petersburg, Mich., thence over unnumbered highway to junction U.S. Highway 223, thence over U.S. Highway 223 to Toledo, Ohio; from Tecumseh, Mich., over Michigan Highway 50 to Britton, Mich., thence over unnumbered highway via Deerfield, and Petersburg, Mich., to junction U.S. Highway 223, thence over U.S. Highway 223 to Toledo, Ohio, and return over the same routes.

MOTOR CARRIERS OF PASSENGERS

No. MC 1515 (Deviation No. 207) GREYHOUND LINES, INC. (WESTERN GREYHOUND LINES DIVISION), 371 Market Street, San Francisco, Calif., 94106, filed November 13, 1964. Carrier attorney: W. T. Meinhold (same address as carrier). Carrier proposes to operate as a *common carrier*, by motor vehicle of *passengers and their baggage*, and *express, newspapers*, and *mail*, in the same vehicle with passengers, over deviation routes as follows: (1) From junction unnumbered highway and U.S. Highway 50 (West Placerville Junction), over U.S. Highway 50 to junction unnumbered highway (El Dorado Fairgrounds Overcrossing), and (2) from junction unnumbered highway and U.S. Highway 50 (West Folsom Junction), over U.S. Highway 50 to junction unnumbered highway (Citrus Junction), and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and their baggage and the above-specified property over a pertinent service route as follows: From the point where U.S. Highway 50 intersects the Nevada-California State line over U.S. Highway 50 to junction unnumbered highway southeast of Folsom (East Folsom Junction), thence over unnumbered highway via Folsom and Nimbus to junction U.S. Highway 50 southwest of Nimbus (West Folsom Junction), thence over U.S. Highway 50 to Sacramento, Calif., and return over the same route.

No. MC 1515 (Deviation No. 208), GREYHOUND LINES, INC. (Eastern Greyhound Lines), 1400 West Third Street, Cleveland, Ohio, 44113, filed November 16, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers* and their *baggage*, and *express, newspapers*, and *mail*, in the same vehicle with passengers, over deviation routes as follows: (1) From junction New Jersey Highway 73 and Interstate Highway 295 just west of Exit 4 of the New Jersey Turnpike over Interstate Highway 295 to its junction with U.S. Highway 40 at the approach of the Delaware Memorial Bridge and return over the same route, and over the following access routes between points on present certificated service route and Interstate Highway 295, (2) from Camden, N.J., over New Jersey Highway 38 to junction New Jersey Highway 70, thence over New Jersey Highway 70 to junction Interstate Highway 295 east of Ellisburg, N.J., (3) from Camden over U.S. Highway 30 to junction Interstate Highway 295 east of Barrington, N.J., (4) from Camden over New Jersey Highway 168 to junction Interstate Highway 295 south of Mount Ephraim, N.J., (5) from Philadelphia, Pa., over the Schuylkill Expressway, Interstate Highway 676, and the Walt Whitman Bridge to New Jersey Highway 42, thence over New Jersey Highway 42 to junction Interstate Highway 295 in Bellmawr, N.J., and (6) from Philadelphia over the Schuylkill Expressway, Interstate Highway 676, and the Walt Whitman Bridge to New Jersey Highway 168, thence over New Jersey Highway 168 to junction Interstate Highway 295 south of Mount Ephraim, and return over the same routes. The notice indicates that the carrier is presently authorized to transport passengers and the above-specified property over pertinent service routes as follows:

From New York over U.S. Highway 1 via Newark and Trenton, N.J., to Philadelphia (also from Newark over New Jersey Highway 27 to Princeton, N.J., thence over U.S. Highway 206 (formerly New Jersey Highway 27) to Trenton, thence as specified above to Philadelphia), from Philadelphia over unnumbered highway to Darby, Pa., thence over U.S. Highway 13 to the Maryland-Virginia State line; from State Road, Del. over U.S. Highway 40 via Aberdeen, Md., to Baltimore, Md., thence over U.S. Highway 1 to Washington; from Baltimore over U.S. Highway 1 to Lansdowne, Pa., thence over unnumbered highway to Philadelphia, Pa., thence over U.S. Highway 611 via East Stroudsburg and Stroudsburg, Pa., to Daleville, Pa.; from junction U.S. Highway 130 (formerly New Jersey Highway 44) and Bridge Approach Road, over Bridge Approach Road to the Delaware River Memorial Bridge, thence over the Delaware River Memorial Bridge to junction Delaware Bridge Approach Road, and thence over Delaware Bridge Approach Road to junction U.S. Highway 13; from Lincoln Tunnel Interchange over the New Jersey Turnpike to the Delaware Memorial Bridge Interchange; from Trenton over New Jersey Highway 33 via Heightstown-Trenton Interchange to the New Jersey Turnpike; from Trenton over U.S. Highway 206 via Bordentown-Trenton Interchange to the New Jersey Turnpike; from Chester across the Delaware River, thence over U.S. Highway 322 via Swedesboro-Chester Interchange to the New Jersey Turnpike; from Philadelphia over city streets and the Taconny-Palmyra Delaware River Bridge to junction New Jersey Highway 73, thence over New Jersey Highway 73 to junction New Jersey Highway 38; from Philadelphia over Pennsylvania Highway 291 to Chester; from Philadelphia over city streets and the Delaware River Bridge to Camden, thence over New Jersey Highway 38 to junction New Jersey Highway 73 (formerly New Jersey Highway S 41), thence over New Jersey Highway 73, via the Camden-Philadelphia Interchange, to the New Jersey Turnpike, and from Philadelphia to Camden, as specified above, thence over New Jersey Highway 168 (formerly known as New Jersey Highway 42), via the Woodbury-South Camden Interchange, to the New Jersey Turnpike, and return over the same routes.

No. MC 1515 (Deviation No. 209) (Cancels Deviation No. 122), GREYHOUND LINES, INC. (SOUTHERN GREYHOUND LINES DIVISION), 219 East Short Street, Lexington, Ky., 40507, filed November 23, 1964. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express and newspapers*, in the same vehicle with passengers, over deviation routes as follows: (1) From junction U.S. Highway 11 and Interstate Highway 81 at the Tennessee-Virginia State line (Bristol, Va.), over Interstate Highway 81 to junction U.S. Highway 11 and the beginning of the Wytheville By-pass just west of Wytheville, Va., (2) from junction U.S. Highway 52 and Interstate Highway 81 at Fort Chiswell, Va., over Interstate Highway 81 to junction Virginia Highway 100 at Newbern, Va., (3) from junction U.S. Highway 11 and In-

terstate Highway 81 at Dixie Caverns, Va., west of Salem, Va., over Interstate Highway 81 to Fancy Hill, Va., approximately five miles south of Lexington, Va., and (4) from junction Interstate Highway 81 and U.S. Highway 11, approximately four miles south of Harrisonburg, Va., over Interstate Highway 81 to junction U.S. Highway 11, approximately four miles north of Harrisonburg, Va., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over pertinent service routes as follows: (1) From Winchester, Va., over U.S. Highway 11 to Lexington, and (2) from Knoxville, Tenn., over U.S. Highway 11–W to Bristol, Virginia-Tennessee, thence over U.S. Highway 11 to junction Virginia Highway 90, thence over Virginia Highway 90 to Rural Retreat, Va., thence return over U.S. Highway 11 via Wytheville, Fort Chiswell, Pulaski, Salem, and Roanoke, Va., to Lexington (also from junction U.S. Highway 11 and Virginia Highway 101, southwest of Pulaski, over Virginia Highway 101 to junction Virginia Highway 100, thence over Virginia Highway 100 via Draper, Va., to junction Virginia Highway 99, thence over Virginia Highway 99 to Pulaski, and return over the same routes.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

## MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

DECEMBER 4, 1964.

The following publications are governed by the new Special Rule 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

### APPLICATIONS ASSIGNED FOR ORAL HEARING

No. MC 92983 (Sub-No. 454), filed November 23, 1964. Applicant: ELDON MILLER, INC., Post Office Drawer 617, Kansas City, Mo., 64141. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal fats and animal oils*, in bulk, in tank vehicles, restricted to Wilson & Company, Inc., traffic originating at the plant site of Wilson & Company, Inc., located at or near Cherokee, Iowa to points in Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin.

*HEARING:* December 16, 1964, at the Midland Hotel, 172 West Adams Street, Chicago, Ill., before Examiner Richard A. White.

No. MC 22179 (Sub-No. 6) (REPUBLICATION), filed April 6, 1964, published FEDERAL REGISTER, issues of April 29, 1964, June 17, 1964, and July 8, 1964, and republished this issue. Applicant: DUDLEY E. FREEMAN, doing business as FREEMAN TRUCK LINE, Jackson, Miss. Applicant's attorney: James W. Wrape, 2111 Sterick Building, Memphis, Tenn. By application filed April 6, 1964, applicant seeks authority in interstate or foreign commerce, as a common carrier, by motor vehicle, over specified regular routes, to transport general commodities, between Grenada, Miss., and Louisville, Miss., and between Ackerman, Miss., and Kosciusko, Miss. By order dated October 28, 1964, served November 9, 1964, Operating Rights Board No. 1, finds that the present and future public convenience and necessity require operation by applicant in interstate or foreign commerce, as a common carrier by motor vehicle, of *general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Grenada, Miss., and Louisville, Miss., from Grenada over U.S. Highway 51 to Vaiden, Miss., thence over Mississippi Highway 35 to junction Mississippi Highway 14, thence over Mississippi Highway 14 to Louisville, and return over the same route, serving the intermediate point of Kosciusko, Miss., (2) between Louisville, Miss., and Winona, Miss., from Louisville over Mississippi Highway 15 to Mathiston, Miss., thence over U.S. Highway 82 to Winona, and return over the same route, serving the intermediate point of Ackerman, Miss., and (3) between Ackerman, Miss., and Kosciusko, Miss., over Mississippi Highway 12, and return over the same route, serving no intermediate points, with operations over all three routes restricted against the interchange of traffic by applicant, except at Memphis, Tenn.; and that upon compliance with certain requirements, applicant be issued a certificate, subject to prior publication of a notice in the FEDERAL REGISTER, and issuance of a certificate will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate protest or other pleading.

No. MC 124657 (Sub-No. 2) (REPUBLICATION), filed June 28, 1963, published FEDERAL REGISTER, issue of August 21, 1963, and republished this issue. Applicant: MINNESOTA TRUCKING, INC., 3441 New Brighton Road, St. Paul, Minn. Applicant's representative: Robert E. Swanson, Griggs Midway Building, 1821 University Avenue, St. Paul, Minn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Farm implements and attachments*, other than farm tractors and self-propelled farm machinery, from Hopkins, Minn., to points in North Dakota, South Dakota, Nebraska, Montana, and Kansas.

NOTE: Applicant states that the proposed operation will be for the account of Farmhand Division, Daffin Corporation. A Report of the Commission, Division 1, decided October 29, 1964, served November 12, 1964, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of *farm implements, parts and attachments*, other than farm tractors and self-propelled farm machinery, from Hopkins, Minn., to points in Kansas, Montana, Nebraska, North Dakota, and South Dakota, limited to a transportation service performed under a continuing contract with the Daffin Corporation, of Hopkins, Minn., will be consistent with the public interest and the national transportation policy. At the hearing, applicant amended its request for authority to include the transportation of "parts." While the amendment broadened somewhat the application, opposing carriers who were present at the hearing do not appear to have been prejudiced. Other members of the public who relied upon the notice as published, however, may have an interest which has been prejudiced by lack of proper notice. Accordingly, the authority actually requested will be republished in the FEDERAL REGISTER, and issuance of a permit will be held until the elapse of 30 days from the date of republication, during which period any proper party in interest may file a protest and petition for further hearing.

No. MC 126199 (REPUBLICATION), filed April 15, 1964 published FEDERAL REGISTER, issue of May 6, 1964, and republished this issue. Applicant: SKYLINE DIESEL SALES & SERVICE, INC,, Post Office Box 868, Klamath Falls, Oreg. Applicant's attorney: Norman E. Sutherland, 1200 Jackson Tower, Portland, Oreg. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Wrecked and disabled motor vehicles, requiring the use of wrecker equipment, between points in Klamath, Lake, Jackson, and Deschutes Counties, Oreg., on the one hand, and, on the other, points in Modoc, Shasta, Del Norte, Humboldt, Lassen, and Siskiyou Counties, Calif. A Report of the Commission, Operating Rights Board Number 1, decided November 17, 1964, served November 24, 1964, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier, by motor vehicle, over irregular routes, of *wrecked, disabled, and repossessed motor vehicles*, by use of wrecker equipment only, between points in Klamath, Lake, Jackson, and Deschutes Counties, Oreg., on the one hand, and, on the other, points in Modoc, Shasta, Del Norte, Humboldt, Lassen, and Siskiyou Counties, Calif.; and that a certificate authorizing such operation should be granted, subject to prior publication in the FEDERAL REGISTER of a notice of the authority granted, because other parties, relying upon the notice of the application as previously published in the FEDERAL REGISTER, may have an interest in and would be prejudiced by the lack of proper notice of the authority actually granted, and issuance of the certificate will be withheld for a period of 30 days from the date of such publication during which period any properly interested person may file an appropriate pleading.

### APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 1.240 TO THE EXTENT APPLICABLE

No. MC 4941 (Sub-No. 15), filed November 25, 1964. Applicant: QUINN FREIGHT LINES, INC., 1093 North Montello Street, Brockton, Mass. Applicant's attorney: Mary E. Kelley, 10 Tremont Street, Boston, Mass.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, and except Classes A and B explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), between points in Rhode Island.

NOTE: Applicant states duplication of authority to be eliminated. This application is directly related to MC–F8950, published FEDERAL REGISTER issue of December 2, 1964.

No. MC 99680 (Sub-No. 141), filed November 25, 1964. Applicant: STRICKLAND TRANSPORTATION CO., INC., Post Office Box 5689, 3011 Gulden Lane, Dallas, Tex. Applicant's attorney: W. T. Brunson, 419 Northwest Sixth Street, Oklahoma City, Okla., 73102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the site of the terminal of Strickland Motor Freight Lines, Inc., located at the junction of Brush Road and Massilon Road, approximately one mile north of Richfield, Ohio, as an off-route point in connection with applicant's regular route operations to and from Cleveland, Ohio, restricted to interchange with other carriers.

NOTE: Applicant states that it seeks to eliminate the qualifying phrase "restricted to interchange with other carriers" and substitute therefor the phrase "restricted to interchange with other carriers and further movement to other authorized points." This application is related to the separate but simultaneously filed application of Strickland Transportation Co., Inc. and Tracy Trucking Company, Akron, Ohio, in which authority is sought for purchase from Tracy Trucking Company by applicant of Certificate of Public Convenience and Necessity No. MC 66852 which authorizes the latter named carrier to operate between applicant's Richfield terminal and Akron, Ohio and points within two miles thereof. The purpose of this application is to seek change, or amendment of the restriction to permit applicant to continue performing the service which the two carriers have been performing under appropriate authority in interline or interchange service. This application was filed concurrently with MC–F8949 which was published in the FEDERAL REGISTER issue of December 2, 1964.

No. MC 99641 (Sub-No. 4), filed November 30, 1964. Applicant: GRIFFIN TRANSFER CO., INC., 1226 Head Street, Columbia, S.C. Applicant's attorney: Guy H. Postell, Suite 693, 1375 Peachtree Street NE., Atlanta 9, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer*, between points in Charleston, Lexington, and Richland Counties, S.C., and points in South Carolina, (2) *brick and clay and shale products*, between points in Fairfield, Lexington, and Richland Counties, S.C., and points in South Carolina, (3) *general commodities* (except petroleum products in bulk, in tank vehicles, Classes A and B explosives and other dangerous commodities, household goods as defined by the Commission, meat, packinghouse products, poultry, dairy products, frozen foods, and commodities requiring refrigeration), between points in Richland County, S.C., and points in South Carolina, (4) *meat, packinghouse products, poultry, dairy products, frozen foods*, and *commodities requiring refrigeration*, (a) between points in Aiken, Charleston, Florence, Orangeburg, Richland, and Sumter Counties, S.C., (b) between points in the counties specified in (a), and points in South Carolina, and (c) between points in Lexington County, S.C., and points in South Carolina.

NOTE: This is a matter directly related to MC–F8954.

No. MC 110098 (Sub-No. 48), filed November 23, 1964. Applicant: ZERO REFRIGERATED LINES, INC., Box 7249, Station "A," San Antonio 7, Tex. Applicant's attorney: Lester M. Bridgeman, 1027 Woodward Building, Washington, D.C., 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods, including fruits, vegetables, meats, sea foods, fowl, eggs, dairy products* and *ice cream*, in mechanically refrigerated vehicles, between points in Texas, (2) *meat*, requiring refrigeration in transit, between points in Harris County, Tex., on the one hand, and, on the other, points in Texas within a three hundred (300) mile airline radius of Houston, Tex., (3) *fresh sweet milk, fresh cream, concentrated skim milk, concentrated whole milk, whole milk, sweetened and unsweetened condensed milk, buttermilk, chocolate milk*, and *ice cream mix*, in commercial containers, from Mt. Pleasant, Marshall, Tyler, Longview, and Texarkana, Tex., to Houston, Tex., and *rejected shipments* and *empty containers*, on return, and (4) *fresh milk*, in liquid and *empty milk containers*, between points within a three hundred (300) mile radius of Houston, Tex.

NOTE: This application is directly related to MC–F–8948, published in the FEDERAL REGISTER, issue of December 2, 1964.

### APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240.)

### MOTOR CARRIERS OF PROPERTY

No. MC–F–8951. Authority sought for purchase by MICHIGAN EXPRESS, INC., 1122 Freeman Avenue SW., Grand Rapids 2, Mich., of the operating rights and certain property of ROCK ISLAND TRANSFER AND STORAGE COMPANY, 101 17th Street, Rock Island, Ill., and for acquisition by FRED G. TIMMER, JR., 1016 Chester Road, Lansing, Mich., GERALD W. RYKSE, 1122 Freeman Avenue SW., Grand Rapids, Mich., and CONRAD E. THORNQUIST, 300 Michigan Trust Building, Grand Rapids, Mich. (Trustees for FRED G. TIMMER VOTING TRUST), of control of such rights and property through the purchase. Applicants' attorneys: Axelrod, Goodman & Steiner, 39 South La Salle Street, Chicago, Ill., 60603, and J. M. Neath, Jr., Michigan Trust Building, Grand Rapids, Mich. Operating rights sought to be transferred: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier*, over regular routes, between Rock Island, Ill., and Chicago, Ill., serving all intermediate and certain off-route points, between Dixon, Ill., and La Salle, Ill., serving all intermediate points, and the off-route point of Peru, Ill., between Aurora, Ill., and the junction of U.S. Highways 52 and 30, serving no intermediate points, numerous alternate routes for operating convenience only; *general commodities*, with exceptions as specified above, over irregular routes, between points in the above-specified CHICAGO, ILL., COMMERCIAL ZONE, and between Rock Island, Milan, Moline, East Moline, Silvis, and Carbon Cliff, Ill., and Davenport and Bettendorf, Iowa. Vendee is authorized to operate as a *common carrier* in all States in the United States and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–8952. Authority sought for purchase by GUIGNARD FREIGHT LINES, INC., 646 Atando Avenue, Charlotte, N.C., 28206, of a portion of the operating rights of NILSON MOTOR EXPRESS, Post Office Box 3616, Charleston, S.C., 29407, and for acquisition by LEWIS B. GUIGNARD, BETTY B. GUIGNARD, both of 7208 Marley Circle, Charlotte, N.C., and JOHN L. BROWN, 1013 Anderson Street, Charlotte, N.C., of control of such rights through the purchase. Applicants' attorney: Frank A. Graham, Jr., 707 Security Federal Building, Columbia, S.C., 29201. Operating rights sought to be transferred: *Glassware*, and *caps, lids and empty paper boxes*, when moving in connection with shipments of glassware, as a *common carrier*, over irregular routes, from points in West Virginia within four miles of Huntington, W. Va. (but not including Huntington), to points in Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee, and certain points in Virginia. Vendee is authorized to operate as a *common carrier* in North Carolina, South Carolina, Virginia, Illinois, Maryland, Pennsylvania, Ohio, New York, Michigan, Tennessee, Kentucky, West Virginia, Georgia, Alabama, Florida, Indiana, New Jersey, and the

District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-8953. Authority sought for control by COMMERCIAL CARRIER CORPORATION, 502 Bridgers Avenue, Auburndale, Fla., of CLAY HYDER TRUCKING LINES, INC., U.S. Highway 301 North, Dade City, Fla., and for acquisition by GUY BOSTICK, also of Auburndale, Fla., of control of CLAY HYDER TRUCKING LINES, INC., through the acquisition by COMMERCIAL CARRIER CORPORATION. Applicants' attorney: M. Craig Massey, 223 South Florida Avenue, Lakeland, Fla. Operating rights sought to be controlled: *Dairy products* as defined by the Commission, as a *common carrier*, over irregular routes, from Lexington, N.C., to points in Florida, with restriction; *sugar*, from Port Wentworth, Ga., to Hendersonville, N.C., and points in North Carolina within 100 miles thereof; *lard, shortening compound*, and *canned goods*, from Savannah, Ga., to Hendersonville, N.C., and points in North Carolina within 100 miles thereof; *animal feed, cottonseed meal, cottonseed hulls* and *fertilizer*, from points in South Carolina and Georgia, to Hendersonville, N.C., and points in North Carolina, within 100 miles thereof; *paper* and *paper products*, from Canton, N.C., to Macon, Ga., points in Florida, and points in Georgia, on and south of U.S. Highway 80; *canned goods*, from Charleston, S.C., Wilmington, N.C., and points in Florida, to Asheville, N.C.; *fresh vegetables*, from points in Henderson County, N.C., to points in Florida; *flour* and *animal feed*, from Hendersonville, N.C., to points in North Carolina within 30 miles thereof; *fruit and fruit juices* (fresh, canned, or processed), from Winter Haven, Fla., and points within 75 miles thereof, to points in North Carolina on and west of U.S. Highway 52; *food products*, from Port Wentworth, Ga., and Charleston, S.C., to points in North Carolina on and west of U.S. Highway 52; *frozen foods in containers*, in vehicles equipped for temperature control, from Hendersonville, N.C., to points in Tennessee, Kentucky, South Carolina, Georgia, Indiana, Ohio, Illinois, West Virginia, Virginia, Maryland, Delaware, New Jersey, Pennsylvania, New York, Rhode Island, Connecticut, Massachusetts, and the District of Columbia; *strawberries in containers*, in vehicles equipped for temperature control, from points in Tennessee, to Hendersonville, N.C.; *frozen citrus products*, from Winter Haven, Fla., and points within 75 miles thereof, to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia; *fresh fruits and fresh vegetables, frozen foods*, and *dairy products*, as defined in *Modification of Permits—Packinghouse Products*, 46 M.C.C. 23, between points in North Carolina, and South Carolina, on the one hand, and on the other, points in Illinois, Indiana, Kentucky, Michigan, Minnesota, Missouri, Ohio, West Virginia, and Wisconsin.

*Fertilizer, unmanufactured agricultural and horticultural commodities, cottonseed meal*, and *cottonseed hulls*, between points in that part of North Carolina on and west of U.S. Highway 52, on the one hand, and, on the other, points in Georgia, and South Carolina; *vegetables*, and *empty vegetables containers*, between points in Henderson County, N.C., on the one hand, and, on the other, points in Florida; with restriction; *citrus products*, not canned and not frozen, from Winter Haven, Fla., and points in Florida within 75 miles thereof, to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia, from points in Florida, to points in Texas, from Orlando, Fla., to points in South Carolina, from points in Cameron, Hidalgo, and Willacy Counties, Tex. (except citrus juices in bulk, in tank vehicles, from Weslaco, Tex.), to points in Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, Montana, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania (except Pittsburgh, Pa., on truckload shipments), Rhode Island, South Dakota, Vermont, Washington, West Virginia, Wyoming, and the District of Columbia; *frozen citrus products* and *citrus products*, not canned and not frozen, from Winter Haven, Fla., and points in Florida within 75 miles thereof, to points in Illinois, Indiana, Kentucky, Michigan, Minnesota, Missouri, Ohio, Tennessee, West Virginia, Wisconsin, and that part of North Carolina on and west of U.S. Highway 52, from points in Florida except Winter Haven, Fla., and points within 75 miles thereof) to points in Connecticut, Massachusetts, Rhode Island, Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, Minnesota, Missouri, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, Wisconsin, that part of North Carolina, on and west of U.S. Highway 52, and the District of Columbia; *meats, meat products and meat byproducts*, as described in section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from St. Louis, Mo., to points in Alabama, Mississippi, and Tennessee, from St. Joseph, Mo., to points in Tennessee, from Sandusky, Cleveland, Toledo, and Columbus, Ohio, to points in Arkansas; *margarine, mayonnaise*, and *salad dressings*, from Cincinnati, Ohio, to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virginia, with restriction; *frozen foods*, from Marshall, Macon, St. Joseph, Moberly, Carrollton, and Milan, Mo., to points in Virginia, with restrictions, from Saint Joseph, Marshall, Macon, Carrollton, Milan, and Moberly, Mo., to points in Kentucky, Tennessee (except Memphis), West Virginia, Georgia, Alabama, and Florida.

*Frozen malt mix*, from Auburndale, Leesburg, Plymouth, and Frostproof, Fla., to points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia; *frozen fruits, frozen vegetables, frozen fruit juices*, and *frozen citrus juice concentrate*, from points in Florida, to points in Texas; *frozen shrimp* and *frozen vegetables*, from points in Texas, to points in Florida and Georgia; *meats, meat products and meat byproducts, dairy products and articles distributed by meat-packing houses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from South St. Paul, Minn., to points in Virginia, with restriction; *frozen seafoods*, when transported in mixed shipments with frozen citrus products, from Brunswick and St. Simons Island, Ga., and Ocala and Jacksonville, Fla., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, West Virginia, and the District of Columbia; *frozen vegetable juice concentrates*, with additives, in mixed shipments with frozen citrus products, from Auburndale, Leesburg, and Plymouth, Fla., to points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia; *chocolate, chocolate syrup, chocolate coating compounds* and *chocolate liquor*, in bulk, in tank vehicles, from Newark, N.J., to points in South Carolina, Georgia, Florida, Alabama, Louisiana, Mississippi, Tennessee, Texas, and Kentucky, with restriction; *liquid sugar, invert sugar, syrups*, and *blends and mixtures of corn syrup and liquid sugar and also invert sugar*, in bulk, in tank vehicles, from New York, N.Y., and points in the New York, N.Y., Commercial Zone, as defined by the Commission, to points in Georgia, Florida, Alabama, Louisiana, Mississippi, Tennessee, Texas, and Kentucky; *wine*, in bulk, in tank vehicles, from New York, N.Y., to points in Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, Missouri, New Jersey, North Carolina, Ohio, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wisconsin, from New York, N.Y., to points in Minnesota.

[Notice 709]

## MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

DECEMBER 4, 1964.

The following applications are governed by Special Rule 1.247[1] of the Commission's general rules of practice (49 CFR 1.247), published in the FEDERAL REGISTER, issue of December 3, 1963, effective January 1, 1964. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with § 1.40 of the general rules of practice which requires that it set forth specifically the grounds upon which it is made and specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and six (6) copies of the protests shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of § 1.247(d)(4) of the special rule. Subsequent assignment of these proceedings for oral hearing, if any, will be by Commission order which will be served on each party of record.

[1] Copies of Special Rule 1.247 can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C., 20423.

No. MC 151 (Sub-No. 27), filed November 23, 1964. Applicant: LOVELACE TRUCK SERVICE, INC., 425 North Second Street, Terre Haute, Ind. Applicant's attorney: Ferdinand Born, 1017-19 Chamber of Commerce Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acids and chemicals*, in bulk, from The Tri-City Regional Port District Complex located in Madison County, Ill., to points in Arkansas, Indiana, Illinois, Iowa, Kansas, Kentucky, Missouri, Nebraska, and Tennessee.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or St. Louis, Mo.

No. MC 1641 (Sub-No. 60) (AMENDMENT), filed October 29, 1964, published FEDERAL REGISTER issue November 11, 1964, amended November 27, 1964, and republished as amended this issue. Applicant: PEAKE TRANSPORT SERVICE, INC., Chester, Nebr. Applicant's attorney: Einar Viren, 904 City National Bank Building, Omaha, Nebr., 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia and fertilizer solutions*, in bulk, in tank vehicles, and *dry fertilizer*, in bulk or in bags, from the plant site of Cominco Products, Inc., at or near Hoag, Nebr., to points in Iowa, Kansas, Minnesota, Missouri, South Dakota, and Illinois.

NOTE: The purpose of this republication is to add dry fertilizer, in bulk or in bags, to the commodity description and to add several states as destination states. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 2392 (Sub-No. 34) (AMENDMENT), filed October 19, 1964, published FEDERAL REGISTER issue November 4, 1964, amended November 27, 1964, and republished as amended this issue. Applicant: WHEELER TRANSPORT SERVICE, INC., Box 432, Genoa, Nebr. Applicant's attorney: R. E. Powell, 1005-06 Terminal Building, Lincoln, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, and *fertilizer solutions*, in bulk, in tank vehicles, and *dry fertilizers*, in bulk and in bags (not restricted as to kind or type of equipment), from the plant site of Cominco Products, Inc., located at or near Hoag, Nebr., to points in Iowa, Illinois, Kansas, Minnesota, Missouri, and South Dakota, and *damaged and rejected shipments* of the commodities specified above, on return.

NOTE: The purpose of this republication is to (1) add dry fertilizers, in bulk and in bags to the commodity description; (2) include Illinois in the destination territory and (3) reflect applicant's attorney. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 2974 (Sub-No. 25), filed November 25, 1964. Applicant: O. I. M. TRANSIT CORPORATION, Commerce Drive, Fort Wayne, Ind. Applicant's attorney: Ferdinand Born, 1017-19 Chamber of Commerce Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving the plant site of the Bethlehem Steel Company's Burns Harbor, Indiana plant, located in Porter County, Ind., as an off-route point in connection with applicant's authorized regular route operations to and from points in Illinois, Indiana, Michigan, and Ohio.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 10207 (Sub-No. 11), filed November 20, 1964. Applicant: McCLAIN DRAY LINE, INC., 404 Railroad Avenue, Marion, Ind. Applicant's attorney: Ferdinand Born, 1017-19 Chamber of Commerce Building, Indianapolis, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), serving Sharpsville, Ind., as an off-route point in connection with applicant's regular route operations, from and to points in Indiana, Illinois, Ohio, and Kentucky.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 11207 (Sub-No. 228), filed November 23 1964 Applicant: DEATON TRUCK LINE, INC., 3409 10th Avenue N., Birmingham, Ala. Applicant's attorney: A. Alvis Layne, Pennsylvania Building, Washington, D.C., 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition building boards*, and *parts, materials*, and *accessories* incidental to the transportation and installation thereof from Greenville, Miss. to Louisville and Bowling Green, Ky.; Memphis, Nashville, and Chattanooga, Tenn.; Cincinnati, Ohio, Clarksville, Evansville, Jeffersonville and New Albany, Ind.; Huntsville, Florence and Sheffield, Ala. and points in that part of Alabama bounded by a line beginning at the Alabama-Tennessee State line and extending along U.S. Highway 43 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 278 at Haleyville, thence east along U.S. Highway 278 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Tennessee-Alabama State line, and thence along the Tennessee-Alabama State line to point of beginning.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 11207 (Sub-No. 229), filed November 24, 1964. Applicant: DEATON TRUCK LINE, INC., 3409 10th Avenue, N. Birmingham 1, Ala. Applicant's attorney: A. Alvis Layne, Pennsylvania Building, Washington, D.C., 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic fibre, synthetic fibre yarn and tire cord yarn*, from Decatur, Ala. to points in Georgia, Louisiana, Mississippi, and Tennessee and *bobbins, beams*, and *shipping containers*, on return.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 29566 (Sub-No. 94), filed November 23, 1964. Applicant: SOUTHWEST FREIGHT LINES, INC., 1400 Kansas Avenue, Kansas City, Kans. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products* and *articles distributed by meat packinghouses* as described in Sections A and C, Appendix I, in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766 (except hides and commodities in bulk in tank vehicles), from Wichita, Kans., to Austin, Minneapolis, and St. Paul, Minn. and Madison and Milwaukee, Wis., and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodities, on return.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 31600 (Sub-No. 576), filed November 18, 1964. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass. Applicant's attorney: Harry C. Ames, Jr., Transportation Building, Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, in bulk, in tank or hopper type vehicles from Lee, Mass. to Rumford, Maine.

NOTE: Applicant does not specify place of hearing, if one is deemed necessary.

No. MC 41849 (Sub-No. 20), filed November 23, 1964. Applicant: KEIGHTLEY BROS., INC., 1616 South 39th Street, St. Louis, Mo. Applicant's attorney: Ernest A. Brooks II, 1301-02 Ambassador Building, St. Louis, Mo., 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, having prior movement by water or rail, between points in Arkansas, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Oklahoma, Tennessee, and Wisconsin.

NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 42487 (Sub-No. 610), filed November 16, 1964. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. Applicant's attorney: Robert C. Stetson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acids and chemicals, plastics, resins, cleaning compounds, lubricating oils* (other than petroleum), in bulk, in tank vehicles, from points in West Virginia, and Marietta, Ohio, to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Wyoming, and Washington.

NOTE: Common control may be involved. Applicant states it holds a portion of the authority sought herein, but does not seek duplicate authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 42963 (Sub-No. 25), filed November 23, 1964. Applicant: DANIEL HAMM DRAYAGE COMPANY, a corporation, Second and Tyler Streets, St. Louis, Mo. Applicant's attorney: Ernest A. Brooks II, 1301-02 Ambassador Building, St. Louis, Mo., 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, having prior movement by water or rail, between points in Arkansas, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Oklahoma, Tennessee, and Wisconsin.

NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 50493 (Sub-No. 23), filed November 23, 1964. Applicant: P. C. M. TRUCKING, INC., 1063 Main Street, Orefield, Pa. Applicant's attorney: Frank A. Doocey, 506 Hamilton Street, Allentown, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer and fertilizer material*, in bulk and in bags, from points in Lehigh and Northampton Counties, Pa., to points in New York and Connecticut, (2) *fertilizer and fertilizer material*, in bulk (dry), and in bags from Dayton, N.J., to points in New York, Connecticut, Massachusetts, Vermont, and New Hampshire, and (3) *dry bulk material used in the manufacture of fertilizer*, from points in Philadelphia, Bucks and

Montgomery Counties, Pa., to Dayton, N.J.

NOTE: Applicant is also authorized to conduct operations as a contract carrier in Permit No. MC 115859 and sub thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 51104 (Sub-No. 2), filed November 27, 1964. Applicant: G. F. KIESEL (GEORGE F. KIESEL, JR. AND ROBERT S. KIESEL, ADMINISTRATORS) doing business as PARAMOUNT HAULING, 1936 South Vandeventer, St. Louis 10, Mo. Applicant's attorney: Ernest A. Brooks, II, 1301–02 Ambassador Building, St. Louis, Mo., 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, having prior movement by water or rail, between points in Arkansas, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Oklahoma, Tennessee, and Wisconsin.

NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 55236 (Sub-No. 99), filed November 20, 1964. Applicant: OLSON TRANSPORTATION COMPANY, a corporation, 1970 South Broadway, Green Bay, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles from Junction City, Wis., and points within 15 miles thereof to points in the upper peninsula of Michigan.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 55847 (Sub-No. 9), filed November 19, 1964. Applicant: BURRIS FOOD DISTRIBUTORS, INC., Rehobeth Boulevard, Milford, Del. Applicant's attorney: V. Baker Smith, 2107 Fidelity-Philadelphia Trust Building, Philadelphia, Pa., 19109. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, chain grocery stores and food business houses, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between the warehouses and other facilities of Acme Markets, Inc., in Philadelphia, Pa., on the one hand, and, on the other, points in Delaware, Maryland, Virginia, West Virginia, and the District of Columbia.

NOTE: Applicant states that the operations will be restricted to a transportation service to be performed, under a continuing contract, or contracts, with Acme Markets, Inc. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 55896 (Sub-No. 20), filed November 25, 1964. Applicant: R. W. EXPRESS, INC., 4840 Wyoming Avenue, Dearborn, Mich. Applicant's attorney: Rex Eames, 1800 Buhl Building, Detroit, Mich., 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, and except Classes A and B explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between the plant site of the Bethlehem Steel Company, Burns Harbor, Porter County, Ind., on the one hand, and, on the other, points in Illinois, Indiana, Michigan, Ohio, and St. Louis, Mo.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 61403 (Sub-No. 114), filed November 19, 1964. Applicant: THE MASON AND DIXON TANK LINES, INC., Eastman Road, Kingsport, Tenn. Applicant's attorney: W. C. Mitchell, 140 Cedar Street, New York 6, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nitrogen solution, ammoniating solution, aqua ammonia*, and *anhydrous ammonia*, in bulk, in tank vehicles from the plant site of Southern Nitrogen, Inc., located at or near Finney, Ohio, to points in Illinois, Indiana, and the lower peninsula of Michigan.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 79658 (Sub-No. 9), filed November 13, 1964. Applicant: ATLAS VAN-LINES, INC., 1212 St. George Road, Evansville, Ind. Applicant's attorney: Herbert Burstein, 160 Broadway, New York 38, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Arizona, California, New Mexico, Nevada, Utah, Oregon, and Washington, on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, without operating through that part of Texas within the area bounded by a line beginning at Del Rio, Tex., and extending along U.S. Highway 90 to Sanderson, Tex., thence along U.S. Highway 285 to the Texas-New Mexico State line, thence easterly and northerly along the Texas-New Mexico State line to the Texas-Oklahoma State line, thence along the Texas-Oklahoma State line to U.S. Highway 83, thence southerly along U.S. Highway 83 to Ballinger, Tex., thence along U.S. Highway 67 to San Angelo, Tex., and thence along U.S. Highway 277 to Del Rio, including points on the indicated portions of the specified highways.

NOTE: Applicant states that it presently holds authority to operate directly to the Western States under other portions of its certificate, and the intent of this application is to eliminate the above-described area in Texas as a gateway for providing service to the States listed above. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 83539 (Sub-No. 127), filed November 23, 1964. Applicant: C & H TRANSPORTATION CO., INC., 1935 West Commerce Street, Post Office Box 5976, Dallas, Tex., 75222. Applicant's attorney: W. T. Brunson, 419 Northwest Sixth Street, Oklahoma City, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Conduit or pipe, including couplings, rings, or fittings* when moving in connection therewith, from the plant site of Johns-Manville Products Corporation at or near Denison, Tex., to points in South Dakota.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Dallas, Tex.

No. MC 94350 (Sub-No. 43), filed November 16, 1964. Applicant: TRANSIT HOMES, INC., 210 West McBee Avenue, Box 1628, Greenville, S.C. Applicant's attorney: Henry P. Willimon, Box 1075, Greenville, S.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* and *special purpose trailers* designed to be drawn by passenger automobiles, in initial movements from points in Clark County, Ark. to points in the United States including Alaska, but excluding Hawaii, and *damaged or rejected shipments*, on return.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Gurdon, Ark.

No. MC 94350 (Sub-No. 44), filed November 16, 1964. Applicant: TRANSIT HOMES, INC., 210 West McBee Avenue, Post Office Box 1628, Greenville, S.C. Applicant's attorney: Henry P. Willimon, Box 1075, Greenville, S.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers and special purpose trailers* designed to be drawn by passenger automobiles, in initial movements, from points in Pittsylvania County, Va., to points in Louisiana, and points in States east of the Mississippi River, namely, Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Michigan, Massachusetts, Mississippi, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, New Hampshire, and the District of Columbia, and *damaged or rejected shipments*, on return.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Danville, Va.

No. MC 94350 (Sub-No. 45), filed November 16, 1964. Applicant: TRANSIT HOMES, INC., 210 West McBee Avenue, Post Office Box 1628, Greenville, S.C. Applicant's attorney: Henry P. Willimon, Box 1075, Greenville, S.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers and special purpose trailers* designed to be drawn by passenger automobiles, in initial movements, from points in Nash County, N.C., to points in Louisiana, and points in States east of the Mississippi River, namely, Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maryland, Michigan, Massachusetts, Mississippi, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, and *damaged or rejected shipments*, on return.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Nashville, N.C.

No. MC 94350 (Sub-No. 46), filed November 18, 1964. Applicant: TRANSIT HOMES, INC., 210 West McBee Avenue, Post Office Box 1628, Greenville, S.C. Applicant's attorney: Henry P. Willimon, Box 1075, Greenville, S.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers and special purpose trailers* designed to be drawn by passenger automobiles, in initial movements from points in Tulare County, Calif., to points in the United States (excluding Alaska and Hawaii), and *damaged or rejected shipments* on return.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Lindsay, Calif.

No. MC 95084 (Sub-No. 43), filed November 18, 1964. Applicant: HOVE TRUCK LINE, a corporation, Stanhope, Iowa. Applicant's representative: Kenneth F. Dudley, 901 South Madison Avenue, Post Office Box 279, Ottumwa, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (experimental and show display), and *machinery, and equipment* (farm and industrial), which at the time of movement are being transported for purposes of display and experiment, and not for sale, *incidental paraphernalia*, moving in the same vehicle and at the same time, and *rejected shipments* of the commodities specified, between points in the United States (except points in Alaska, and Hawaii).

NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 95336 (Sub-No. 6), filed November 16, 1964. Applicant: J. B. WILLIAMS EXPRESS, INC., 239 Norman Avenue, Brooklyn, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), (1) serving Bergenfield, N.J., as an off-route point in connection with applicant's regular-route operations between Bristol, Conn., and New York, N.Y.; (2) serving points in Nassau County, N.Y., as off-route points in connection with applicant's regular-route operations between Bristol, Conn., and New York, N.Y.; and (3) between Bristol, Conn. and New York, N.Y.: from Bristol over Connecticut Highway 72 to Plainville, Conn., thence over Connecticut Highway 10 to New Haven, Conn., thence over Connecticut Turnpike (Interstate Highway 95) to junction New England Thruway (Interstate Highway 95), thence over New England Thruway to New York, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular-route operations.

NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 95540 (Sub-No. 613), filed November 23, 1964. Applicant: WATKINS MOTOR LINES, INC., Albany Highway, Thomasville, Ga. Applicant's representative: Jack M. Holloway, Director of Operating Rights, Watkins Motor Lines, Inc., Albany Highway, Thomasville, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foods, food preparations*, and *foodstuffs*, in vehicles equipped with mechanical refrigeration, from Doraville, Ga., to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 99792 (Sub-No. 2), filed November 18, 1964. Applicant: WOONSOCKET PICKUP & DELIVERY SERVINC INC., 743 North Main Street, Woonsocket, R.I. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), *and empty containers or other such incidental facilities* used in transporting the above commodities between Seekonk, Mass., Providence, R.I., and points in the commercial zone of Providence, on the one hand, and, on the other, points in Rhode Island.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Providence, R.I.

No. MC 103051 (Sub-No. 181), filed November 19, 1964. Applicant: FLEET TRANSPORT COMPANY, INC., 340 Armour Drive NE., Atlanta, Ga., 30324. Applicant's attorney: R. J. Reynolds, Jr., Suite 403–11 Healey Building, Atlanta, Ga., 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn syrup, liquid sugar*, and *blends of corn syrup and liquid sugar*, in bulk, in tank vehicles, from Nashville, Tenn. to points in Alabama, Georgia, and Kentucky.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 103051 (Sub-No. 182), filed November 20, 1964. Applicant: FLEET TRANSPORT COMPANY, INC., 340 Armour Drive NE., Atlanta, Ga., 30324. Applicant's attorney: R. J. Reynolds, Jr., Suite 403-11 Healey Building, Atlanta, Ga., 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from points in Russell County, Ala. to points in Alabama and Georgia.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 103051 (Sub-No. 183), filed November 27, 1964. Applicant: FLEET TRANSPORT COMPANY, INC., 340 Armour Drive NE., Atlanta, Ga., 30324. Applicant's attorney: R. J. Reynolds, Jr., Suite 403–11 Healey Building, Atlanta, Ga., 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oil and animal fats, and blends thereof*, in bulk, in tank vehicles, from points in Mecklenburg County, N.C., to points in West Virginia.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 107002 (Sub-No. 231), filed November 20, 1964. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123 (Highway 80 West), Jackson, Miss., 39205. Applicant's attorneys: Harry C. Ames, Jr., 529 Transportation Building, Washington, D.C., 20006, and Harold D. Miller, Jr., Post Office Box 1250, Jackson, Miss., 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood preservative, coal tar and coal tar products* in bulk from Point Comfort, Tex. and points within 5 miles thereof to points in Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Louisiana, Missouri, Mississippi, New Mexico, Oklahoma, Tennessee, and Texas.

NOTE: If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 107002 (Sub-No. 232), filed November 23, 1964. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123 (Highway 80 West), Jackson, Miss., 39205. Applicant's attorneys: Harry C. Ames, Jr., 529 Transportation Building, Washington, D.C., and H. D. Miller, Jr., Post Office Box 1250, Jackson, Miss., 39205. Authority sought to operate as *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk from Gramercy, La. and points within five miles thereof to points in the United States (except Alaska, Connecticut, Hawaii, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont).

NOTE: If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 107002 (Sub-No. 233), filed November 24, 1964. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123 (Highway 80 West), Jackson, Miss., 39205. Applicant's attorney: E. Stephen Heisley, 529 Trans-

portation Building, Washington, D.C., 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid sugar*, in bulk, in tank vehicles, between points in Louisiana.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Baton Rouge, La.

No. MC 107002 (Sub-No. 234), filed November 24, 1964. Applicant: HEARIN-MILLER TRANSPORTERS, INC., Post Office Box 1123 (Highway 80 West), Jackson, Miss., 39205. Applicant's attorney: E. Stephen Heisley, 529 Transportation Building, Washington, D.C., 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dimethyl sulfoxide*, from Bogalusa, La. to McIntosh, Ala.

NOTE: If a hearing is deemed necessary, applicant does not specify location.

No. MC 107107 (Sub-No. 321) (AMENDMENT), filed September 25, 1964, published FEDERAL REGISTER issue of October 14, 1964, amended November 23, 1964, and republished, as amended, this issue. Applicant: ALTERMAN TRANSPORT LINES, INC., Post Office Box 65, Allapattah Station, Miami, Fla., 33142. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foods, food ingredients* and *food materials and related advertising and promotional materials*, from points in Dade, Broward and Palm Beach Counties, Fla., to points in Alabama, Arkansas, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE: Applicant states no duplicating authority is sought. The purpose of this republication is to add the origin county of Palm Beach, Fla. If a hearing is deemed necessary, applicant requests it be held at Miami, Fla.

No. MC 107403 (Sub-No. 587) (AMENDMENT), filed November 12, 1964, published in FEDERAL REGISTER issued December 2, 1964, and republished as amended this issue. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aplite*, dry, in bulk, in tank vehicles, from points in Hanover County, Va., to Baltimore, Md.

NOTE: The purpose of this republication is to show the broadened scope of origin territory. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 107496 (Sub-No. 336) (AMENDMENT), filed October 21, 1964, published in FEDERAL REGISTER issue November 4, 1964, amended November 30, 1964, and republished as amended this issue. Applicant: RUAN TRANSPORT CORPORATION, 303 Keosauqua Way, Des Moines, Iowa, 50309. Applicant's attorney: H. L. Fabritz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients*, in bulk and in bags, including, but not limited to *anhydrous ammonia and nitrogen fertilizer solutions*, from the plant-site of Cominco Products, Inc., at or near Hoag, Nebr., to points in Colorado, Illinois, Iowa, Kansas, Minnesota, Missouri, South Dakota, and Wyoming.

NOTE: The purpose of this republication is to broaden the commodity description and to add Illinois as a destination state. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 107496 (Sub-No. 341), filed November 23, 1964. Applicant: RUAN TRANSPORT CORPORATION, 303 Keosauqua Way, Des Moines, Iowa. Applicant's attorney: H. L. Fabritz, Post Office Box 855, Des Moines, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, and *chemicals*, in bulk, in tank vehicles, from the plant site of American Oil Co. located at or near Whiting, Ind., to points in Iowa.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 107727 (Sub-No. 16), filed November 23, 1964. Applicant: ALAMO EXPRESS, INC., Post Office Box 10280, Hackberry Station, 51 Essex Street, San Antonio, Tex. Applicant's attorney: Dan Felts, Suite 204, 904 Lavaca Street, Post Office Box 1117, Austin, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods, as defined by the Commission and commodities in bulk), between Galveston, Tex., and the causeway or bridge over San Luis Pass, Tex.; from Galveston over Stewart Road to the point where it joins with San Luis Pass County Road, thence over San Luis Pass County Road to the causeway or bridge over San Luis Pass, and return over the same route, and coordinating the service with existing service, serving all intermediate points.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 108207 (Sub-No. 147), filed November 23, 1964. Applicant: FROZEN FOOD EXPRESS, a corporation, 318 Cadiz Street, Dallas, Tex. Applicant's attorney: Leroy Hallman, First National Bank Building, Dallas 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foods, food preparations, foodstuffs, candy and confectionery products*, from points in California to points in Arizona, New Mexico, and Texas.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 110525 (Sub-No. 689), filed November 27, 1964. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. Applicant's attorneys: Leonard A. Jaskiewicz, 1155 15th Street, Madison Building, Washington, D.C., and Edwin H. van Deusen (same as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank or hopper-type vehicles, from Cincinnati, Ohio, to points in Delaware, Maryland, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Virginia, and West Virginia.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110525 (Sub-No. 690), filed November 27, 1964. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. Applicant's attorneys: Leonard A. Jaskiewicz, 1155 15th Street, Madison Building, Washington, D.C., and Edwin H. van Deusen (same as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulfuric acid*, in bulk, in tank vehicles, from Front Royal, Va., to Middleway, W. Va.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110698 (Sub-No. 290), filed November 19, 1964. Applicant: RYDER TANK LINE, INC., Winston-Salem Road (Post Office Box 8418), Greensboro, N.C. Applicant's attorney: Reagan Sayers, Century Life Building, Fort Worth, Tex., 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous hydrogen chloride*, in shipper-owned trailers, from Fort Worth, Tex., to Nitro, W. Va., and Emmaus, Pa.

NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 111729 (Sub-No. 31), filed November 23, 1964. Applicant: ARMORED CARRIER CORPORATION, 222-17 Northern Boulevard, Bayside, N.Y. Applicant's attorney: Russell S. Bernhard, 1625 K Street NW., Washington, D.C., 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Sales audit media*, consisting of *punchcards, redemption coupons, stamp books* and *accompanying documents*, between points in Essex County, N.J., on the one hand, and, on the other, points in Bronx, Kings, Queens, New York, Richmond, Westchester, Nassau, and Suffolk Counties, N.Y., (2) *audit and accounting media of all kinds*, excluding plant removals, between points in Essex County, N.J., on the one hand, and, on the other, New York, N.Y., and (3) *business papers and records and audit and accounting media of all kinds*, except plant removals between Great Neck, N.Y., on the one hand, and, on the other, points in Bergen, Essex, Hudson, Mercer, Passaic, and Union Counties, N.J.

NOTE: Applicant states "no service shall be performed under the authority granted herein for any bank or banking institution, namely, any national bank, State bank, Federal Reserve bank, savings and loan association, or savings bank." Applicant is also authorized to conduct operations as a contract carrier in Permit No. MC 112750, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111729 (Sub-No. 33), filed November 27, 1964. Applicant: ARMORED CARRIER CORPORATION, 222-17 Northern Boulevard, Bayside, N.Y. Applicant's attorney: Claude J. Jasper, Suite 301, 111 South Fairchild Street, Madison, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Exposed and processed film and prints, complimentary replacement film, incidental dealer handling supplies consisting of labels, envelopes and packaging materials, and advertising literature moved therewith* (except motion picture film used primarily for commercial theater and television exhibition), (1) between Rockford, Ill., on the one hand, and, on the other, Dubuque, Iowa, and (2) between Omaha, Nebr., on the one hand, and, on the other, points in Iowa.

NOTE: Applicant states "no service shall be performed under the authority granted herein for any bank or banking institution, namely, any national bank, State bank, Federal Reserve bank, savings and loan association, or savings bank." Applicant is also authorized to conduct operations as a contract carrier in Permit No. MC 112750, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 111812 (Sub-No. 269), filed November 16, 1964. Applicant: MIDWEST COAST TRANSPORT, INC., Wilson Terminal Building, Post Office Box 747, Sioux Falls, S. Dak., 57101. Applicant's attorney: Donald L. Stern, 924 City National Bank Building, Omaha, Nebr., 68102, and applicant's representative: William J. Walsh (address same as applicant's). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen, prepared* and *cooked poultry*, from Moorefield, W. Va., to points in Illinois, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin.

NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Pittsburgh, Pa.

No. MC 111956 (Sub-No. 10), filed November 23, 1964. Applicant: SUWAK TRUCKING COMPANY, a corporation, 1105 Fayette Street, Washington, Pa. Applicant's attorney: Samuel P. Delisi, 1515 Park Building, Pittsburgh, Pa., 15222. ## NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

DECEMBER 4, 1964.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

State Docket No. MC 4286 (Sub-No. 1) (AMENDMENT), filed November 5, 1964, published in FEDERAL REGISTER issue of November 18, 1964, amended and republished this issue. Applicant: WEST TENNESSEE MOTOR EXPRESS, INC., Faydur Court, Nashville, Tenn. Applicant's attorney: Robert H. Cowan, 434 Stahlman Building, Nashville, Tenn. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities* (except household goods and commodities requiring special equipment), (1) from Humboldt, Tenn., to Bells, Tenn., over Tennessee Highway 76, and (2) between Trenton, Tenn. and Alamo, Tenn., over Tennessee Highway 54, both routes to be used for operating convenience only, serving no points, except Alamo as now authorized, and to be used in connection with applicant's previously existing authority.

NOTE: The purpose of this republication is to more clearly set forth the authority sought.

*HEARING:* Remains as assigned: December 14, 1964, at 9:30 a.m., at the Commission's Court Room, C-1 Cordell Hull Building, Nashville, Tenn.

Requests for procedural information, including the time for filing protests concerning this application should be addressed to the Tennessee Public Service Commission, Cordell Hull Building, Nashville, Tenn., 37219, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

## MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 4, 1964.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 67342. By order of November 30, 1964, the Transfer Board approved the transfer to Donald E. Eitleman, doing business as Echo Transportation Co., Worcester, Mass., applicant in No. MC 85648 Sub. 1, BOR-99 filed in the name of Edward F. Kender, doing business as Echo Transportation Co., for certificate of registration to operate in interstate or foreign commerce authorizing operations under the former second proviso of section 206(a)(1) of the Act, supported by Massachusetts Certificate No. 1411, authorizing the transportation of commodities in general, anywhere in the Commonwealth of Massachusetts. Arthur A. Wentzell, 539 Hartford Turnpike, Shrewsbury, Mass., representative for applicants.

No. MC-FC 67349. By order of November 30, 1964, the Transfer Board approved the transfer to Mary E. Pisel, doing business as Daze Transfer, 1004 West Fourth Street, Winslow, Ariz., of the operating rights in Certificate of Registration No. MC 99874 Sub 1, issued September 4, 1964, to Lee O. Pisel, Mary E. Pisel, Executrix, doing business as Daze Transfer, 1004 West Fourth Street, Winslow, Ariz., corresponding to the grant of intrastate authority to transferor, pursuant to Certificate of Convenience and Necessity No. 3117 dated October 8, 1956, and as renewed December 29, 1959, as issued by the Arizona Corporation Commission, authorizing the transportation of freight and baggage in Winslow and vicinity and to include on call service through Payson and Pine, Ariz.

No. MC-FC 67353. By order of November 30, 1964, the Transfer Board approved the transfer to Economy Movers, Inc., North Platte, Nebr., of the operating rights issued by the Commission July 12, 1950, under Certificate No. MC 5227 to Clayton LeRoy Andrews, doing business as Economy Movers, North Platte, Nebr., authorizing the transportation, over irregular routes, of household goods, emigrant movables and contractors' equipment, machinery and supplies, between points in Nebraska, on the one hand, and, on the other, points in Colorado, Kansas, and Iowa. J. Max Harding and Donald E. Leonard, Nelson, Harding & Acklie, 605 South 14th, Box 2028, Lincoln, Nebr., attorneys for applicants.

No. MC-FC 67354. By order of November 30, 1964, the Transfer Board approved the transfer to Larry's Express, Inc., Albany, N.Y., of Certificate No. MC 50120, issued May 25, 1950, to Lawrence F. Selig, doing business as Larry's Express, New York, N.Y., authorizing the transportation of general commodities, in less-than-truckloads, over regular routes, between Scotia, N.Y., and Rensselaer, N.Y.; between Schenectady, N.Y., and Albany, N.Y., with service authorized to and from all intermediate points on the above-specified routes. John J. Brady, Jr., 75 State Street, Albany, N.Y., representative for applicants.

No. MC-FC 67359. By order of November 30, 1964, the Transfer Board approved the transfer to Marion M. Armentrout, doing business as Armentrout Coal & Trucking Service, Salisbury, Mo., of the operating rights in Certificate No. MC 95711, issued December 10, 1956, to Ray N. Freeman, doing business as S. P. Freeman & Son, Salisbury, Mo., authorizing the transportation, over regular routes, of a variety of specifically named commodities, between designated points in Missouri and Kansas, over specified routes. Joseph R. Nacy, 117 West High Street, Post Office Box 352, Jefferson City, Mo., attorney for applicants.

No. MC-FC 67368. By order of November 30, 1964, the Transfer Board approved the transfer to O. G. Goldston, doing business as Roswell-Carrizozo Stage Lines, 306 North Kansas, Roswell, N. Mex., 88201, of Certificate No. MC 107135, issued October 27, 1949, to W. R. Goldston, doing business as Roswell-Carrizozo Stage Lines, 306 North Kansas, Roswell, N. Mex., authorizing the transportation of passengers and their baggage, and express, mail, and newspapers, in the same vehicle with passengers, over regular routes, between Roswell, N. Mex., and Socorro, N. Mex.; and between Fort Stanton, N. Mex., and junction U.S. Highway 380 and unnumbered highway, with service authorized to and from all intermediate points.

No. MC-FC 67382. By order of November 30, 1964, the Transfer Board approved the transfer to Robert E. Haugen and Orville Clouse, a partnership, doing business as Evergreen Freight Lines, Spokane, Wash., of Certificate No. MC 112526, issued June 24, 1963, to Althea May Goodrich, doing business as Republic Motor Freight, Spokane, Wash., and MC 112526 Sub 2, BOR-99, filed in the name of Althea M. Goodrich, doing business as Republic Auto Freight, Spokane, Wash., for certificate of registration to operate in interstate or foreign commerce authorizing operations under the former second proviso of Section 206(a)(1) of the Act, supported by Washington Utilities and Transportation Commission Permit No. M.V. 69831, P-34123, and general commodities, excluding household goods and commodities in bulk, over irregular routes, between Spokane, Wash., on the one hand, and, on the other, points in Ferry County, Wash. Joseph L. Thomas, 711 Old National Bank Building, Spokane, Wash., representative for applicants.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F.R. Doc. 64-12596; Filed, Dec. 8, 1964; 8:48 a.m.]

[Notice 1089-A]

## MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 4, 1964.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 67451. By order of December 4, 1964, the Transfer Board approved the transfer to Walkup Drayage & Warehouse Company, a corporation, San Francisco, Calif., of the operating rights in Certificate No. MC 99388 Sub 4 issued October 8, 1957, and the "claimed grandfather-proviso" rights for which a Certificate of Registration is sought in the filing No. MC 99388 (Sub No. 9) both in the name of Merchants Express of California, a corporation, San Francisco, Calif., covering the transportation of general commodities, with certain exceptions, between points in California. Bruce R. Geernaert, 100 Bush Street, San Francisco, Calif., attorney for applicants.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F.R. Doc. 64-12640; Filed, Dec. 8, 1964; 8:45 a.m.]

## FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 4, 1964.

Protests to the granting of an application must be prepared in accordance with Rule 1.40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 39431: *Substituted service—SP for Brown Express.* Filed by J. D. Hughett, agent (No. 62), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Dallas, Tex., on the one hand, and Austin, Corpus Christi, Houston, and San Antonio, Tex., on the other, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motortruck competition.

Tariff: Supplement 8 to J. D. Hughett, agent, tariff MF-I.C.C. No. 375.

FSA No. 39432: *Stone and gravel to points in southwestern territory.* Filed by Southwestern Freight Bureau, agent (No. B-8647), for interested rail carriers. Rates on chatt, chatt sand, chatts (mine gravel), granite, marble, natural stone or limestone, in carloads, from Parkdale, Salida, and Texas Creek, Colo., to points in southwestern territory.

Grounds for relief: Market competition.

Tariff: Supplement 46 to Southwestern Freight Bureau, agent, tariff I.C.C. 4561.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

**UNITED STATES STATUTES AT LARGE**

**[88th Cong., 1st Sess.]**

Contains laws and concurrent resolutions enacted by the Congress during 1963, reorganization plan, and Presidential proclamations. Included is a numerical listing of bills enacted into public and private law, and a guide to the legislative history of bills enacted into public law.

**Price: $7.50**

Published by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402

**FEDERAL REGISTER**

Area Code 202 Phone 963-3261

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

## Title 7—AGRICULTURE

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Navel Orange Reg. 63]

### PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

**§ 907.363 Navel Orange Regulation 63.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 3, 1964.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., December 13, 1964, and ending at 12:01 a.m., P.s.t., October 31, 1965, no handler shall handle any Navel oranges, grown in District 2, which are of a size smaller than 2.20 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided,* That not to exceed 5 percent, by count, of the oranges contained in any type of container may measure smaller than 2.20 inches in diameter.

(2) As used in this section, "handle," "handler," and "District 2" shall have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 4, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 64-12644; Filed, Dec. 9, 1964; 8:46 a.m.]

## Title 9—ANIMALS AND ANIMAL PRODUCTS

### Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS AND ANIMAL PRODUCTS

### PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AND AFRICAN SWINE FEVER: PROHIBITED AND RESTRICTED IMPORTATIONS

#### Designation of Guadeloupe as Country Where Foot-and-Mouth Disease Exists

Pursuant to the provisions of section 306 of the Act of June 17, 1930, as amended (19 U.S.C. 1306), section 2 of the Act of February 2, 1903, as amended (21 U.S.C. 111), and the Act of July 2, 1962 (21 U.S.C. 134 et seq.), it has been determined, and the Secretary of the Treasury has been notified, that foot-and-mouth disease now exists in Guadeloupe; therefore § 94.1(a) of Part 94, as amended, Title 9, Code of Federal Regulations, is hereby further amended by changing the period to a semicolon after the word "Cuba" in subparagraph (5) and then adding a new subparagraph (6) to read as follows:

**§ 94.1 Designation of countries where rinderpest or foot-and-mouth disease exists; importations prohibited.**

(a) • • •

(6) Guadeloupe.

• • • • • •

(Sec. 306, 46 Stat. 689, as amended, sec. 2, 32 Stat. 792, as amended, sec. 2, 76 Stat. 129, secs. 3, 4, 76 Stat. 130, sec. 11, 76 Stat. 132; 19 U.S.C. 1306, 21 U.S.C. 111, 134a, 134b, 134c, 134f; 19 F.R. 74, as amended)

The effect of this amendment is to prohibit the importation into the United States from Guadeloupe of certain animals and meats, and to restrict such importations of certain other animals, animal products, hay, straw, and similar materials, as specified in 9 CFR Parts 94 and 95.

The protection of the livestock of the United States demands that this amendment be made effective as soon as possible. Accordingly, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure concerning this amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

*Effective date.* This amendment shall become effective upon issuance.

Done at Washington, D.C., this 7th day of December 1964.

B. T. SHAW,
*Administrator, Agricultural Research Service.*

[F.R. Doc. 64-12672; Filed, Dec. 9, 1964; 8:49 a.m.]

## Title 14—AERONAUTICS AND SPACE

### Chapter II—Civil Aeronautics Board

SUBCHAPTER E—ORGANIZATION REGULATIONS

[Reg. OR-12]

### PART 389—FEES AND CHARGES FOR SPECIAL SERVICES

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of December 1964.

Congress has expressed the policy that any service, publication, report, or similar thing of value provided by any Federal agency to or for any person shall be self-sustaining to the full extent possible (Title V of the Act of August 31, 1951; 5 U.S.C. 140). In implementation of this policy, Bureau of the Budget Circular Number A-25, dated September 23, 1959,

provides that a reasonable charge should be made to each identifiable recipient for a measurable unit or amount of Government service or property from which he derives a special benefit above and beyond benefits accruing to the public at large.

The Board has therefore decided to establish reasonable fees and charges for certain special services, such as copying, certifying and searching Board records, and for providing Board publications on an annual subscription basis. These fees and charges are designed to reflect the actual costs incurred by the Board in providing the particular service or subscription.

The charges for such services as copying, certifying and searching Board records are set forth with particularity in the regulation. It is not considered practical, however, to incorporate in the regulation a list of all Board publications available on a subscription basis since such items, as well as the price thereof, are subject to revision at least annually. The Board currently publishes and makes available, free of charge, a pamphlet entitled "List of Publications." This "List of Publications" is currently being revised to include the charges for subscriptions. For general information purposes, a representative list of publications, together with the subscription price for each, is attached hereto as Appendix A.

Since this regulation is a rule of agency organization and practice, the Board finds that notice and public procedure hereon are unnecessary. The Board further finds that the regulation should be made effective as of January 1, 1965 so that subscriptions to publications can be entered for a full calendar year as provided in the regulation.

Accordingly, the Board hereby adopts new Part 389 of the Organization Regulations (14 CFR Part 389), effective January 1, 1965, to read as follows:

APPENDIX A

CAB PUBLICATIONS AVAILABLE ON SUBSCRIPTION

| Description | Price |
|---|---|
| Notices of proposed rule making | $8.00 |
| Weekly summary of orders and regulations | 10.00 |
| Economic opinions | 24.00 |
| All economic orders and opinions | 55.00 |
| Prehearing conference reports | 15.00 |
| Examiners' recommended or initial decisions | 25.00 |
| Safety enforcement opinions and orders | 10.00 |
| Weekly digest of applications filed and/or amendments thereto | 13.00 |
| Weekly calendar of prehearing conferences, hearings and arguments | 5.00 |
| Weekly list of agreements filed under section 412(a) of the Federal Aviation Act | 6.00 |
| Route maps (set of seven) | .50 |
| Monthly report of air carrier traffic statistics | 10.00 |
| Quarterly report of air carrier financial statistics | 5.00 |
| Air carrier analytical charts and summaries | 3.00 |
| Subsidy for U.S. certificated carriers (annual report) | No charge |
| Local service air carrier unit costs (semiannual) | 1.30 |
| Quarterly letter to mayors | 1.40 |
| Historical Review of trunkline suspensions and deletions at points served by local service carriers, 1949–63 [1] | |
| Before-and-after traffic and service supplement to Historical Review of trunkline suspensions and deletions at points served by local service carriers, 1949–63 [1] | |
| Aircraft accident reports | 5.00 |
| Summary reports of accidents, U.S. civil aviation (semimonthly) | 9.00 |
| Briefs of accidents, U.S. general aviation | 10.00 |
| General aviation accidents, a statistical review | 1.00 |
| Statistical review of air carrier accidents | 1.00 |
| Aircraft accident prevention publications and technical bulletins | No charge |
| List of publications | No charge |
| List of U.S. air carriers | No charge |
| Press releases | No charge |
| Speeches by Members of the Board | No charge |
| Local service air carriers; selected flight load data by city pair, frequency grouping, aircraft type [2] | |

Sec.
389.1 Policy and scope.
389.2 Services available.
389.3 Payment of fees and charges.
389.4 Fees for services.
389.5 Copying records or documents.
389.6 Certification of copies of documents.
389.7 Board publications.
389.8 Transcripts of hearings.

AUTHORITY: The provisions of this Part 389 issued under sec. 204(a), Federal Aviation Act of 1958, 72 Stat. 743; 49 U.S.C. 1324; Title V of Act of Aug. 31, 1951, 65 Stat. 268; 5 U.S.C. 140; sec. 3 of Administrative Procedure Act, 60 Stat. 238; 5 U.S.C. 1002.

### § 389.1 Policy and scope.

Pursuant to policies established by the Congress, the Government's costs for special services furnished to individuals or firms who request such services are to be recovered by the payment of fees (Title V of Independent Offices Appropriation Act of 1952; 5 U.S.C. 140). This regulation sets forth the special services made available by the Board and the fees therefor.

### § 389.2 Services available.

Upon request and payment of fees as provided in subsequent sections, there are available, with respect to documents subject to inspection, services as follows:

(a) Copying records and documents.

(b) Certification of copies of documents under seal of the Board.

(c) Subscriptions to publications of the Board.

(d) Transcripts of hearings.

### § 389.3 Payment of fees and charges.

The fees charged for special services may be paid by check, draft, or postal money order, payable to the Civil Aeronautics Board, except for charges for copying documents and reporting services which are performed under competitive bid contracts with non-Government firms. Fees for the latter are payable to the firms providing the services.

[1] These studies are expected to be updated from time to time.

[2] This report is expected to be issued annually.

### § 389.4 Fees for services.

The basic fees set forth below provide for documents to be mailed with ordinary first class postage prepaid. If copy is to be transmitted by registered, certified, air, or special delivery mail, postal fees therefor will be added to the basic fee. Also, if special handling or packaging is required, costs therefore will be added to the basic fee.

### § 389.5 Copying records or documents.

Copies of public records and documents on file with the Civil Aeronautics Board, as is may be practicable to furnish, will be provided on the following basis:

(a) Copies of documents are made by non-Government contractors, on request to the Board. The contractor will bill directly those who request such copies.

(b) To the extent that time can be made available, services involved in searching the records and files of the Board for documents to be copied and preparing such materials for copying will be charged for as follows:

(1) Tariffs and Form 41 schedules filed with the Board, at the rate of ten cents per page. With reference to tariffs filed with the Board, this charge applies only to identifying, removing from the files for copying, and returning to files designated pages of tariffs; no substantive research as to contents of tariffs will be undertaken.

(2) All other materials, at the rate of $4.00 per hour.

(3) A minimum charge of $1.00 will be made for these services.

### § 389.6 Certification of copies of documents.

The Secretary of the Board will provide, on request, certification or validation (with the Civil Aeronautics Board seal) of documents filed with or issued by the Board. Copies of tariffs filed with the Board will be certified only when such copies have been made under the Board's supervision upon request of the applicant. Charges for this service are as follows:

(a) Certification of the Secretary, $1.00.

(b) Additional services involved in checking the authenticity of records to be certified, the clerical work, etc., incidental thereto, at the rate of $4.00 per hour. A minimum charge of $1.00 will be made for this service.

(c) If copying of the documents to be certified is required, the copying charge provided for in § 389.5(a) will be in addition to the charges specified in this section.

### § 389.7 Board publications.

(a) *Charges for subscriptions.* Charges are established for subscriptions to Board publications for which there are regular mailing lists. Publications available, and charges therefor, are described in the "List of Publications" available on request to the Board's Publications Section, B–22, Washington, D.C., 20428. This list and the charges therein are subject to revision at least annually and without prior notice. Subscriptions to publications will be entered as of the first day of each year for a one-year term, and for calendar year terms thereafter. Subscriptions to weekly or monthly publications for periods of less than a full calendar year will be prorated on a monthly basis. Quarterly publications will be prorated on a quarterly basis. No provision is made for refund upon cancellation of subscription by a purchaser.

(b) *Free services.* No charge will be made by the Board for notices, decisions, orders, etc., required by law to be served on a party to any proceeding or matter before the Board. No charge will be made for mailing list service with respect to a particular proceeding. No charge will be made for single copies of Board publications individually requested, in person or by mail. In addition, subscriptions to Board publications will be entered without charge when one of the following conditions is present:

(1) The furnishing of the service without charge is an appropriate courtesy to a foreign country or international organization;

(2) The recipient is engaged in a nonprofit activity designed for the public safety, health and welfare;

(3) The recipient is another government agency, federal, state or local, concerned with aeronautics or having a legitimate interest in the proceedings and activities of the Board;

(4) The recipient is a college or university;

(5) The recipient does not fall into any of the foregoing categories, but free service is determined by the Board to be appropriate in the interest of the Board's program.

(c) *Reciprocal services.* Arrangements may be made for furnishing publications to a foreign country on a reciprocal basis.

### § 389.8 Transcripts of hearings.

Transcripts of testimony and oral argument are furnished by a non-Government contractor, and may be purchased directly from the reporting firm.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
*Secretary.*

[F.R. Doc. 64–12665; Filed, Dec. 9, 1964; 8:49 a.m.]

# Title 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

## PART 121—FOOD ADDITIVES

### Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

DIAMMONIUM PHOSPHATE

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 4C1274) filed by International Minerals Corporation, Old Orchard Road, Skokie, Illinois, and other relevant material, has concluded that the following regulation should issue to provide for the safe use of diammonium phosphate in ruminant feeds as a source of nonprotein nitrogen and phosphorus. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c), 72 Stat. 1786; 21 U.S.C. 348(c)), Part 121 is amended by adding to Subpart C the following new section:

### § 121.265 Diammonium phosphate.

The food additive diammonium phosphate may be safely used in ruminant feed in accordance with the following prescribed conditions:

(a) The food additive is the product resulting from the neutralization of feeding-phosphoric-acid or defluorinated wet-process phosphoric acid with anhydrous ammonia. It contains not less than 106.25 percent equivalent crude protein (nitrogen X 6.25) and 20.0 percent phosphorus. It contains not more than the following:

1 part fluorine to 100 parts phosphorus.
75 parts per million of arsenic (as As).
30 parts per million of heavy metals, as lead (Pb).

(b) It is used in ruminant feeds as a source of phosphorus and nitrogen in an amount that supplies not more than 2 percent of equivalent crude protein in the total daily ration.

(c) To assure safe use of the additive, the label and labeling of the additive and that of any feed additive supplement, feed additive concentrate, feed additive premix, or complete feed prepared therefrom shall contain, in addition to other information required by the act, the following:

(1) The name of the additive.

(2) The maximum percentage of equivalent crude protein from the nonprotein nitrogen.

(3) If the feed additive premix, concentrate, or supplement contains more than 1.5 percent of diammonium phosphate, adequate directions for use and a prominent statement, "Warning—This feed should be used only in accordance with directions furnished on the label."

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c), 72 Stat. 1786; 21 U.S.C. 348(c))

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

[F.R. Doc. 64–12647; Filed, Dec. 9, 1964; 8:46 a.m.]

## PART 121—FOOD ADDITIVES

### Subpart D—Food Additives Permitted in Food for Human Consumption

### Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ISOBUTYLENE POLYMERS

The Commissioner of Food and Drugs has evaluated the data submitted in a petition (FAP 983) filed by Esso Research and Engineering Company, Post Office Box 172, Linden, N.J., proposing the issuance of a regulation to provide for the use of isobutylene polymers as components of articles intended for use in contact with food. Additionally, the data in the petition show that in § 121.1059 *Chewing gum base* a maximum molecular-weight specification is not required for the use of polyisobutylene as a synthetic masticatory substance and that the present minimum molecular weight (Staudinger) specification in § 121.1059 for such use of polyisobutylene is equivalent to and should, in the interest of uniformity, be changed to read "Minimum molecular weight 37,000 (Flory)." The Commissioner has also evaluated objections to the provision in paragraph (b) of § 121.2511 *Plasticizers in polymeric substances* which limits to 0.5 weight percent the amount of polyisobutylene (minimum molecular weight 300) permitted to be added to polyethylene complying with § 121.2510.

On the basis of the evaluation of the petition, the objections to § 121.2511, and other relevant material, the Commissioner has concluded that the food additive regulation should be amended as set forth below, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409, 72 Stat. 1785 as amended; 21 U.S.C. 348) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471).

1. Section 121.1059(a) is amended by changing the item "Polyisobutylene (isobutylene resin) * * *" to read as follows:

### § 121.1059 Chewing gum base.

(a) * * *

MASTICATORY SUBSTANCES

| Synthetic | Specifications |
|---|---|
| Polyisobutylene | Minimum molecular weight 37,000 (Flory). |

2. Section 121.2507(c) is amended by changing the item "Polyisobutylene (minimum molecular weight 750,000)" to read as follows:

§ 121.2507 **Cellophane.**

* * * * *

(c) * * *

| | |
|---|---|
| | Limitations (residue and limits of addition expressed as percent by weight of finished packaging cellophane) |
| * * * | * * * |
| Polyisobutylene complying with § 121.2590 | |
| * * * | * * * |

* * * * *

3. Section 121.2511(b) is amended by changing the item "Polyisobutylene * * *" to read as set forth below and by adding thereto a new item, as follows:

§ 121.2511 **Plasticizers in polymeric substances.**

* * * * *

(b) * * *

| | |
|---|---|
| | Limitations |
| * * * | * * * |
| Polyisobutylene (mol. wt. 300–5,000). | For use in polyethylene complying with § 121.2510, provided that the polyisobutylene is added in an amount not exceeding 0.5 percent by weight of the polyethylene, and further provided that such plasticized polyethylene shall not be used as a component of articles intended for packing or holding food during cooking. |
| Polyisobutylene complying with § 121.2590. | |
| * * * | * * * |

* * * * *

4. Section 121.2531(c) is amended by changing the item "Polyisobutylene" to read as follows:

§ 121.2531 **Surface lubricants used in the manufacture of metallic articles.**

* * * * *

(c) * * *

Polyisobutylene (minimum molecular weight 300).

* * * * *

5. Section 121.2550(b)(5) is amended by inserting alphabetically in Table 1 the following items:

§ 121.2550 **Closures with sealing gaskets for food containers.**

* * * * *

(b) * * *

(5) * * *

TABLE I

| List of substances | Limitations (expressed as percent by weight of closure-sealing gasket composition) |
|---|---|
| * * * | * * * |
| Chlorinated isobutylene-isoprene copolymers complying with § 121.2590. | |
| * * * | * * * |
| Isobutylene-isoprene copolymers complying with § 121.2590. | |
| * * * | * * * |
| Polyisobutylene complying with § 121.2590. | |
| * * * | * * * |

* * * * *

6. Part 121 is amended by adding to Subpart F the following new section:

§ 121.2590 **Isobutylene polymers.**

Isobutylene polymers may be safely used as components of articles intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food, in accordance with the following prescribed conditions:

(a) For the purpose of this section, isobutylene polymers are those produced as follows:

(1) Polyisobutylene produced by the homopolymerization of isobutylene such that the finished polymers have a molecular weight of 750,000 (Flory) or higher.

(2) Isobutylene-isoprene copolymers produced by the copolymerization of isobutylene with not more than 3.0 molar percent of isoprene such that the finished polymers have a molecular weight of 300,000 (Flory) or higher.

(3) Chlorinated isobutylene-isoprene copolymers produced when isobutylene-isoprene copolymers (molecular weight 300,000 (Flory) or higher) are modified by chlorination with not more than 1.3 weight-percent of chlorine.

(b) The polymers identified in paragraph (a) of this section may contain optional adjuvant substances required in the production of the polymers. The optional adjuvant substances required in the production of the polymers may include substances generally recognized as safe in food, substances used in accordance with a prior sanction or approval, and the following:

| List of substances | Limitations |
|---|---|
| Aluminum chloride | |
| Polysorbate 80 | |

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409, 72 Stat. 1785 as amended; 21 U.S.C. 348)

Dated: November 30, 1964.

GEO. P. LARRICK,
*Commissioner of Food and Drugs.*

[F.R. Doc. 64-12648; Filed, Dec. 9, 1964; 8:46 a.m.]

## PART 121—FOOD ADDITIVES

### Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

CELLOPHANE

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 5B1590) filed by Nopco Chemical Company, 60 Park Place, Newark, N.J., 07101, and other relevant material, has concluded that the food additive regulations (21 CFR 121.2507; 29 F.R. 6775, 12871) should be amended to provide for the use of additional substances as optional components of food-packaging cellophane. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), § 121.2507(c) is amended by inserting alphabetically in the list of substances a new item, as follows:

§ 121.2507 **Cellophane.**

* * * * *

(c) * * *

| | |
|---|---|
| | Limitations (residue and limits of addition expressed as percent by weight of finished packaging cellophane) |
| * * * | * * * |
| Coconut oil fatty acid ($C_{12}$–$C_{18}$) diethanolamide, coconut oil fatty acid ($C_{12}$–$C_{18}$) diethanolamine soap, and diethanolamine mixture having total alkali (calculated as potassium hydroxide) of 16–18% and having an acid number of 25–35. | For use only as an adjuvant employed during the processing of cellulose pulp used in the manufacture of cellophane base sheet. |
| * * * | * * * |

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

[F.R. Doc. 64-12649; Filed, Dec. 9, 1964; 8:46 a.m.]

## PART 121—FOOD ADDITIVES

### Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

EMULSIFIERS AND/OR SURFACE-ACTIVE AGENTS

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 5B1517) filed by Rohm and Haas Company, 222 West Washington Square, Philadelphia 5, Pa., and other relevant material, has concluded that the food additive regulations should be amended to provide for the use of an additional substance as an emulsifier and/or surface-active agent in the manufacture of articles that contact food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), §121.2541(c) is amended by inserting alphabetically in the list of substances the following new item:

§ 121.2541 **Emulsifiers and/or surface-active agents.**

* * * * *

(c) * * *

*p-tert*-Octylphenoxypolyethoxyethanol (40 moles) with a hydroxyl number not to exceed 37; if a blend of products is used, hydroxyl number not to exceed 37 for any product that is a component of the blend.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

[F.R. Doc. 64-12650; Filed, Dec. 9, 1964; 8:47 a.m.]

## PART 121—FOOD ADDITIVES

### Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

RUBBER ARTICLES INTENDED FOR REPEATED USE

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition (FAP 5B1577) filed by American Cyanamid Company, Wayne, N.J., 07470, and other relevant material, has concluded that the food additive regulations should be amended to provide for the use of cyanoguanidine as a retarder in the manufacture of rubber articles intended for repeated use in contact with food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), § 121.2562(c)(4) is amended by inserting alphabetically in the list in subdivision (ii) (c) a new item, as follows:

§ 121.2562 **Rubber articles intended for repeated use.**

(c) * * *

(4) * * *

(ii) * * *

(c) * * *

Cyanoguanidine.

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: December 2, 1964.

SUBCHAPTER C—DRUGS

## PART 145—ANTIBIOTIC DRUGS; DEFINITIONS AND INTERPRETATIVE REGULATIONS

## PART 148u—DACTINOMYCIN

### Dactinomycin, Dactinomycin for Injection; Final Order

No comments or objections were filed with reference to the proposal of the Commissioner of Food and Drugs to issue regulations for tests and methods of assay and certification of antibiotic drugs dactinomycin and dactinomycin for injection published in the FEDERAL REGISTER of October 10, 1964 (29 F.R. 14032). Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507(f), 59 Stat. 463 as amended; U.S.C. 357(f)), and under the authority delegated to him by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), the proposed regulations are adopted without change, except in amendatory language, necessitated by recodification published November 21, 1964, and as promulgated herewith.

*Effective date.* This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 507(f), 59 Stat. 463 as amended; 21 U.S.C. 357(f))

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

1. Section 145.2 *Definitions of antibiotic substances* is amended by adding to paragraph (a) the following new subparagraph:

(29) Dactinomycin is a specific kind of actinomycin produced by the growth of *Streptomyces parvullus* or the same antibiotic produced by any other means.

2. Section 145.3 *Definitions of master and working standards* is amended in the following respects:

a. By adding to paragraph (a) the following new subparagraph:

(31) The term "dactinomycin master standard" means a specific lot of dactinomycin designated by the Commissioner as the standard of comparison in determining the potency of the dactinomycin working standard.

b. By adding to paragraph (b) the following new subparagraph:

(31) The term "dactinomycin working standard" means a specific lot of a homogenous preparation of dactinomycin.

3. Section 145.4 *Definitions of the terms* * * * is amended by adding to paragraph (b) the following new subparagraph:

(32) The term "microgram" applied to dactinomycin means the dactinomycin activity (potency) contained in 1.000 microgram of the dactinomycin master standard when dried for 3 hours at 60° C. and a pressure of 5 millimeters or less.

4. Title 21 is amended by adding thereto the following new part:

## PART 148u—DACTINOMYCIN

Sec.
148u.1 Dactinomycin.
148u.2 Dactinomycin for injection.

AUTHORITY: The provisions of this Part 148u issued under sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357.

### § 148u.1 Dactinomycin.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Dactinomycin is a bright-red crystalline compound that is so purified and dried that:

(i) Its potency is not less than 900 micrograms of dactinomycin per milligram, calculated on an anhydrous basis.

(ii) It is sterile.

(iii) It is pyrogen-free.

(iv) Its $LD_{50}$ in mice is not less than 0.65 and not more than 1.23 milligrams of dactinomycin per kilogram of body weight.

(v) Its moisture content is not more than 15 percent.

(vi) Its absorptivity at 445 m$\mu$ is not less than 0.95 and not more than 1.03 times that of the dactinomycin working standard at the same wavelength. Its absorbance at 240 m$\mu$ is not less than 1.3 and not more than 1.5 times its absorbance at 445 m$\mu$.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3(b) of this chapter, and in addition each package shall bear on its label the statement "Protect from light and excessive heat." Its expiration date is 12 months.

(3) *Request for certification; samples.* In addition to the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, sterility, pyrogens, $LD_{50}$, moisture, absorptivity, and crystallinity.

(ii) Samples required:

(*a*) For all tests except sterility: 10 packages, each containing approximately 40 milligrams.

(*b*) For sterility testing: 20 packages, each containing approximately 40 milligrams.

(4) *Fees.* $5.00 for each container in the sample submitted in accordance with subparagraph (3)(ii)(*a*) of this paragraph; $12.00 for all containers in the sample submitted for the initial sterility test, and $24.00 for all containers in the sample submitted for any repeat sterility test, in accordance with subparagraph (3)(ii)(*b*) of this paragraph.

(b) *Tests and methods of assay.* Dactinomycin is toxic and corrosive. It must be handled with care in the laboratory. Transfer all dry powders in a suitable hood, while wearing rubber gloves. Avoid inhaling fine particles of the powder. Do not pipette by mouth. If any of the substance contacts the skin, wash copiously with soap and water. Dispose of all waste material by dilution with larger volumes of trisodium phosphate solution.

1. *Potency*—(i) *Cylinders.* Use cylinders described in § 141a.1(a) of this chapter.

(ii) *Culture media.* Use ingredients that conform to the standards of the U.S.P. or the N.F.

(a) Make nutrient agar for carrying the test organism as follows:

| | |
|---|---|
| Peptone | 6.0 gm. |
| Pancreas digest of casein | 4.0 gm. |
| Yeast extract | 3.0 gm. |
| Beef extract | 1.5 gm. |
| $MnSO_4 \cdot H_2O$ | 300 mg. |
| Dextrose | 1.0 gm. |
| Agar | 15.0 gm. |
| Distilled water q.s. | 1,000.0 ml. |

pH 6.5–6.6 after sterilization.

(b) Make nutrient agar for the seed and base layers as follows:

| | |
|---|---|
| Beef extract | 1.5 gm. |
| Yeast extract | 3.0 gm. |
| Peptone | 6.0 gm. |
| Agar | 15.0 gm. |
| Distilled water q.s. | 1,000 ml. |

pH 7.8–8.0 after sterilization.

In lieu of preparing the media from the individual ingredients specified in this subdivision, they may be made from a dehydrated mixture which, when reconstituted with distilled water, has the same composition as such media. Minor modifications of the individual ingredients specified in this subdivision are permissible if the resulting media possess growth-promoting properties at least equal to the media described.

(iii) *Working standard.* Dry a portion of the working standard for 3 hours at 60° C. and a pressure of 5 millimeters or less. Determine the dry weight and dissolve in sufficient methyl alcohol to give a concentration of 10 milligrams of dactinomycin per milliliter; add sufficient 0.1*M* potassium phosphate buffer, pH 8.0, to give a stock solution containing 1,000 micrograms of dactinomycin per milliliter.

(iv) *Preparation of sample.* Dissolve a portion of the sample to be tested in sufficient methyl alcohol to give a concentration of 10 milligrams of dactinomycin per milliliter; add sufficient 0.1*M* potassium phosphate buffer, pH 8.0, to give a stock solution containing 1,000 micrograms of dactinomycin per milliliter. Further dilute the sample stock solution in 0.1*M* potassium phosphate buffer, pH 8.0, to the reference concentration of 1.0 microgram of dactinomycin per milliliter (estimated).

(v) *Preparation of test organism (spore suspension).* The test organism is *Bacillus subtilis* (ATCC 6633). Maintain the test organism on nutrient agar prepared as described in subdivision (ii)(*a*) of this subparagraph. Prepare a spore suspension by the following method: Grow the organism for 5 days at 37° C. in a Roux bottle of the nutrient agar prepared as described in subdivision (ii)(*a*) of this subparagraph. Harvest the growth with the aid of sterile distilled water and glass beads. Suspend the growth in 50 milliliters of sterile distilled water, centrifuge and decant the supernatant liquid. Suspend the sediment with sterile distilled water and heat-shock for 30 minutes at 70° C. Maintain the spore suspension at approximately 15° C. Determine by appropriate tests the quantity of spore suspension to be added to each 100 milliliters of agar for the seed layer that will give clear, sharp zones of inhibition.

(vi) *Preparation of the plates*—(*a*) *Base layer.* Add 21 milliliters of melted nutrient agar described in subdivision (ii)(*b*) of this subparagraph to each Petri dish (20 millimeters x 100 millimeters) and allow to harden on a level surface.

(*b*) *Seed layer.* Melt nutrient agar described in subdivision (ii)(*b*) of this subparagraph. Accurately measure a sufficient quantity of the melted nutrient agar, cool to 48° C. and add the appropriate quantity of the spore suspension prepared as described in subdivision (v) of this subparagraph. Swirl the inoculated nutrient agar to obtain a homogeneous suspension, and add 4 milliliters to each of the plates containing the 21 milliliters of uninoculated agar. Tilt the plates back and forth to spread the inoculated agar evenly and allow to harden on a level surface.

(vii) *Standard curve.* Using the stock solution described in subdivision (iii) of this subparagraph, prepare the standard curve in 0.1*M* potassium phosphate buffer, pH 8.0, to contain concentrations of 0.5, 0.71, 1.0, 1.41, and 2.0 micrograms of dactinomycin per milliliter. A total of 12 plates is used in the preparation of the standard curve, three plates for each solution except the 1.0 microgram per milliliter solution. The latter concentration is used as the reference point and is included on each plate. On each of three plates fill three cylinders with the 1.0 microgram per milliliter standard and the alternate three cylinders with the concentration under test. Thus, there will be thirty-six 1-microgram determinations and 9 determinations for each of the other points on the curve. After the plates have incubated, determine the diameters of the zones of inhibition. Average the diameters of the 1.0 microgram per milliliter concentration and the diameters of the concentration tested for each set of three plates, and average also all 36 readings of the 1.0 microgram per milliliter concentration. The average of the 36 readings of the 1.0 microgram per milliliter concentration is the correction point for the curve. Correct the average value obtained for each point to the figure it would be if the 1.0 microgram per milliliter reading for the set of three plates were the same as the correction point. Thus, if in correcting the 0.5 microgram concentration, the average of the 36 diameters of the 1.0 microgram per milliliter concentration is 16.5 millimeters and the average diameter of the 1.0 microgram per milliliter concentration of this set of three plates is 16.3 millimeters, the correction is +0.2 millimeter. If the average diameter of the 0.5 microgram per milliliter concentration of these same three plates is 15.9 millimeters, the corrected value is then 16.1 millimeters. Plot these corrected values, including the average diameter of the 1.0 microgram per milliliter concentration, on 2-cycle semilog paper, using the concentration in micrograms per milliliter as the ordinate (the logarithmic scale) and the diameter of the zone of inhibition as the abscissa. Draw the standard curve through these points, either by inspection or by use of the following equations:

$$L = \frac{3a + 2b + c - e}{5},$$

$$H = \frac{3e + 2d + c - a}{5},$$

where:

$L$ = Calculated zone diameter for the lowest concentration of the standard curve.

$H$ = Calculated zone diameter for the highest concentration of the standard curve.

$a, b, c, d, e$ = Corrected average values for the 0.5, 0.71, 1.0, 1.41, and 2.0 micrograms per milliliter standard solutions, respectively.

Plot the values obtained for $L$ and $H$ and connect with a straight line.

(viii) *Assay.* Place six cylinders on the inoculated agar surface so that they are at approximately 60° intervals on a 2.8-centimeter radius. Use three plates for each sample. Fill three cylinders on each plate with the 1.0 microgram per milliliter standard solution and three cylinders with the 1.0 microgram per milliliter (estimated) sample solution, alternating standard and sample. Incubate the plates for 16 to 18 hours at 37° C. and measure the diameter of each zone of inhibition.

(ix) *Estimation of potency.* Average the zone diameters of the standard and average the zone diameters of the sample on the three plates used. If the sample gives a larger average zone size than the average of the standard, add the difference between them to the 1.0-microgram zone size of the standard curve. If the average sample value is lower than the standard value, subtract the difference between them from the 1.0-microgram value on the curve. From the curve, read the potencies corresponding to these corrected values of zone sizes.

(2) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(1) of that section, except use 40 milligrams in lieu of 300 milligrams.

(3) *Pyrogens.* Proceed as directed in § 141a.3 of this chapter, except administer as a test dose 1 milliliter per kilogram of a pyrogen-free distilled water solution containing 0.2 milligram of dactinomycin per milliliter.

(4) *$LD_{50}$*[1]—(i) *Sample solution.* Prepare a solution containing 50 micrograms of dactinomycin per milliliter by dissolving an appropriate quantity of the sample in sufficient sterile distilled water. If the sample does not dissolve immediately, place it in an ice water bath or a refrigerator for 1 to 2 hours, and then allow to reach room temperature before use.

(ii) *Procedure.* Select 70 female mice weighing between 18 and 20 grams. Individually identify and weigh them to the nearest 0.1 gram. Use 10 mice at each of the following dose levels: 9.6, 11.52, 13.9, 16.7, 20.0, 24.0, and 28.8 milliliters of sample solution per kilogram of body weight. Calculate the volume of solution to be given to each mouse and administer the appropriate volume intravenously at the rate of 0.5 milliliter per minute. Observe the mice daily for 14 days and record any signs of drug toxicity and times of death. Estimate the $LD_{50}$ and its 95 percent confidence limits by the method of Carrol S. Weil, published in Biometrics, volume 8, pages 249–263 (1952).

(5) *Moisture.* Proceed as directed in § 141a.5(a) of this chapter.

(6) *Absorptivity*—(i) *Procedure.* Accurately weigh approximately 15 milligrams of the sample and 15 milligrams of the working standard. Transfer each weighing to separate 100-milliliter volumetric flasks. Dissolve the material and bring to volume with spectrophotometric-grade methyl alcohol. Mix well. Pipette 5.0 milliliters of each solution into separate 25-milliliter volumetric flasks, dilute to volume with spectrophotometric-grade methyl alcohol. Mix well. Using a suitable spectrophotometer and 1-centimeter absorption cells, determine the absorbance of the sample solution at the 240 m$\mu$ and at the 445 m$\mu$ absorption peaks (the exact position of the peaks should be determined for the particular instrument used). Determine the absorbance of the standard solution at the 445 m$\mu$ absorption peak.

(ii) *Calculations.*

$$\text{(a) Absorptivity at 445 m}\mu = \frac{(A_2)\,(\text{milligrams of standard})\,(1-0.01\ M_W)\,(\text{potency of the standard in micrograms per milligram})}{(A_3)\,(\text{milligrams of sample})\,(1-0.01\ M_S)\,(1{,}000)}$$

(b) Ratio for the absorbances of the sample at 240 m$\mu$ and 445 m$\mu$ = $\frac{A_1}{A_2}$.

Where:

$A_1$ = absorbance at 240 m$\mu$ for the sample.
$A_2$ = absorbance at 445 m$\mu$ for the sample.
$A_3$ = absorbance at 445 m$\mu$ for the standard.
$M_W$ = percent moisture in the working standard.
$M_S$ = percent moisture in the sample.

(7) *Crystallinity.* Mount a few particles of the sample in mineral oil and examine by means of a polarizing microscope. The particles reveal the phenomena of birefringence and extinction positions on revolving the microscope stage.

### § 148u.2 Dactinomycin for injection.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Dactinomycin for injection is a dry mixture of dactinomycin and mannitol. Each container contains 0.5 milligram of dactinomycin. It is sterile. It is nonpyrogenic. The $LD_{50}$ in mice is between 0.65 and 1.23 milligrams of dactinomycin per kilogram. Its moisture content is not more than 4.0 percent. Its pH is not less than 5.5 and not more than 7.0. The crystalline dactinomycin used conforms to the standards prescribed by § 148u.1(a)(1)(i), (v), and (vi). Each other ingredient used, if its name is recognized by the U.S.P. or N.F., conforms to the standards prescribed therefor by such official compendium.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this chapter, and in addition each package shall bear on its label or labeling, as hereinafter indicated, the following:

(i) On the outside wrapper or container the statement "Protect from light and excessive heat."

(ii) On the outside wrapper or container and the immediate container the statement "For hospitalized patients only."

Its expiration date is 12 months.

(3) *Request for certification; samples.* In addition to the requirements of § 148.4 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The dactinomycin used in making the batch: For potency, moisture, absorptivity, and crystallinity.

(*b*) The batch: For microbiological potency, spectrophotometric potency, sterility, pyrogens, $LD_{50}$, moisture, and pH.

(ii) Samples required:

(*a*) The dactinomycin used in making the batch: 10 containers each containing not less than 40 milligrams.

(*b*) The batch:

(*1*) For all tests except sterility: A minimum of 20 immediate containers.

(*2*) For sterility testing: 20 immediate containers.

(*c*) In case of an initial request for certification, each other ingredient used in making the batch: One container of each consisting of not less than 5 grams.

(4) *Fees.* $4.00 for each container in the samples submitted in accordance with subparagraph (3)(ii)(*a*), (*b*), and (*c*) of this paragraph; $12.00 for all containers in the sample submitted for the initial sterility test, and $24.00 for all containers in the sample submitted for the first repeat sterility test, in accordance with subparagraph (3)(ii)(*b*)(*2*) of this paragraph.

(b) *Tests and methods of assay.* Dactinomycin is toxic and corrosive. It must be handled with care in the laboratory. Transfer all dry powders in a suitable hood while wearing rubber gloves. Avoid inhaling fine particles of the powder. Do not pipette by mouth. If any of the substance contacts the skin, wash copiously with soap and water. Dispose of all waste material by dilution with large volumes of trisodium phosphate solution.

(1) *Potency*—(i) *Microbiological assay.* Reconstitute the sample as directed in the labeling. Using a suitable syringe, withdraw the entire contents and dilute in 0.1*M* potassium phosphate buffer, pH 8.0, to a concentration of 1.0 microgram of dactinomycin per milliliter (estimated). Proceed as directed in § 148u.1(b)(1).

(ii) *Spectrophotometric assay*—(*a*) *Preparation of standard solution.* Accurately weigh approximately 15 milligrams of the working standard and

[1] The term "$LD_{50}$" refers to the dosage of the drug that should be expected to kill 50 percent of the animals that receive the drug.

transfer to a 100-milliliter volumetric flask. Dissolve the standard and bring to volume with spectrophotometric-grade methyl alcohol. Mix well. Pipette 5.0 milliliters into a 25-milliliter volumetric flask and dilute to volume with spectrophotometric-grade methyl alcohol.

(b) *Preparation of sample solution.* Prepare a sample solution by washing the contents of a container into a 25-milliliter volumetric flask and diluting to volume with spectrophotometric-grade methyl alcohol. Obtain a clear solution by decanting or filtering off any undissolved mannitol.

(c) *Procedure.* Determine the absorbance of the sample and standard solution at the 445 mμ absorption peak as directed in § 148u.1(b)(6)(i).

(d) *Calculation.*

$$\text{Milligrams of dactinomycin per container} = \frac{(A_1)\,(\text{milligrams of standard weighed})\,(\text{potency of standard in micrograms per milligram})}{(A_2)\,(20)\,(1{,}000)}$$

where:

$A_1$ = absorbance of the sample solution at 445 mμ.

$A_2$ = absorbance of the standard solution at 445 mμ.

Its content of dactinomycin is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of milligrams of dactinomycin that it is represented to contain.

(2) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(1) of that section, except use the entire contents of each of the immediate containers tested.

(3) *Pyrogens.* Reconstitute as directed in the labeling, and proceed as directed in § 148u.1(b)(3).

(4) *$LD_{50}$.* Reconstitute five immediate containers as directed in the labeling, and pool the contents. Further dilute the solution with sterile distilled water to obtain a concentration of 50 micrograms of dactinomycin per milliliter, and proceed as directed in § 148u.1(b)(4).

(5) *Moisture.* Proceed as directed in § 141a.5(a) of this chapter.

(6) *pH.* Reconstitute as directed in the labeling and proceed as directed in § 141a.5(b) of this chapter.

[F.R. Doc. 64-12652; Filed, Dec. 9, 1964; 8:47 a.m.]

# Title 31—MONEY AND FINANCE: TREASURY

## Chapter II—Fiscal Service, Department of the Treasury

### SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

### PART 328—RESTRICTIVE ENDORSEMENTS OF BEARER SECURITIES

On September 20, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 13389) with respect to Department Circular No. 853 (31 CFR Part 328). After consideration of such relevant matter as was presented by interested parties, the revision of the regulations as proposed was adopted on December 4, 1964, except that §§ 328.1, 328.3, 328.5, and 328.8 were changed to permit the application of these regulations to United States bearer securities presented by or through banks for redemption at par in payment of Federal estate taxes. A minor editorial change was made in § 328.2.

As finally adopted, Part 328 reads as set forth below.

[SEAL] JOHN K. CARLOCK,
*Fiscal Assistant Secretary.*

Sec.

328.1 Scope of regulations.
328.2 Definitions.
328.3 Authorization for restrictive endorsements.
328.4 Effect of restrictive endorsements.
328.5 Forms of endorsement.
328.6 Requirements for endorsement.
328.7 Shipment of securities.
328.8 Loss, theft or destruction of securities bearing restrictive endorsements.
328.9 Miscellaneous.

AUTHORITY: The provisions of this Part 328 issued under R.S. 161, as amended (5 U.S.C. 22); Second Liberty Bond Act, as amended (31 U.S.C. 752, 753, 754, 754b).

SOURCE: Department Circular No. 853, dated October 5, 1949, is hereby amended and issued as Department Circular No. 853, Revised.

### § 328.1 Scope of regulations.

The regulations of this part are applicable only to United States bearer securities[1] presented (a) by or through banks for payment at or after their maturity or call date, or in exchange for any securities under any exchange offering, (b) by or through banks at any time prior to their maturity or call date for redemption at par and application of the proceeds in payment of Federal estate taxes, provided said securities by the terms of their issue are eligible for such redemption, and (c) by District Directors, Internal Revenue Service, for redemption, with the proceeds to be applied to payment of taxes (other than securities presented under (b) above). These regulations do not apply to bearer securities presented for any other transaction, or to registered securities assigned in blank, or to bearer, or so assigned as to become, in effect, payable to bearer.

### § 328.2 Definitions.

Certain words and terms, as used in these regulations, are defined as follows:

[1] These regulations may also apply to securities issued by certain agencies of the United States and the former government of Puerto Rico for which the Treasury Department of the United States acts as transfer agency, provided the issuing authorities for such securities have adopted by appropriate regulations the provisions of this circular.

(a) "Banks" refer to, and include, incorporated banks (i.e., banks doing a general commercial banking business), incorporated trust companies (i.e., trust companies doing either a general banking business or general trust business), and savings banks (whether or not mutual).

(b) "Bearer securities" or "securities" are those which are payable on their face to "bearer," the ownership of which is not recorded. They include "Treasury bonds," "Treasury notes," "Treasury certificates of indebtedness," and "Treasury bills."

### § 328.3 Authorization for restrictive endorsements.

(a) *By banks.* Banks are authorized, under the conditions and in the form hereinafter provided, to place restrictive endorsements upon the face of bearer securities owned by themselves or their customers for the purpose of presentation to Federal Reserve Banks or Branches, or to the Treasurer of the United States, as follows:

(1) For payment or redemption: At any time within one calendar month prior to their maturity date, or the date on which they become payable pursuant to a call for redemption, or at any time after their maturity or call date;

(2) For exchange: During any period for their presentation pursuant to an exchange offering; and

(3) For redemption at par in payment of Federal estate taxes (only eligible securities): At any time prior to their maturity or call redemption date.

(b) *By District Directors, Internal Revenue Service.* District Directors, Internal Revenue Service, are authorized, under the conditions and in the form hereinafter provided, to place restrictive endorsements upon the face of bearer securities for the purpose of presentation to Federal Reserve Banks or Branches, or to the Treasurer of the United States, for redemption and application of the proceeds in payment of taxes (other than securities presented for redemption at par and application of the proceeds in payment of Federal estate taxes).

(c) *Instructions from Federal Reserve Banks.* Federal Reserve Banks will inform eligible banks and District Directors of the Internal Revenue Service in their respective districts as to the procedure to be followed under the authority granted by these regulations. No bank or District Director should imprint restrictive endorsements on securities until such information is received from the Federal Reserve Banks.

### § 328.4 Effect of restrictive endorsements.

Bearer securities bearing restrictive endorsements as herein provided will thereafter be nonnegotiable and payment, redemption, or exchange will be made only as provided in such endorsements.

### § 328.5 Forms of endorsement.

(a) *When presented by banks—(1) For payment or exchange.* The endorsement placed on a bearer security presented for payment or exchange by a bank should be in the following form:

For presentation to the Federal Reserve Bank of _____, Fiscal Agent of the United States, for redemption or in exchange for securities of a new issue, in accordance with written instructions submitted by

_____
(Insert name of presenting bank)
ABA No. _____

(2) *For redemption at par.* The endorsement placed on a bearer security presented for redemption at par in payment of Federal estate taxes should be in the following form:

For presentation to the Federal Reserve Bank of _____, Fiscal Agent of the United States, for redemption at par in payment of Federal estate taxes, in accordance with written instructions submitted by

_____
(Insert name of presenting bank)
ABA No. _____

(b) *When presented by District Directors, Internal Revenue Service.* The endorsement placed on a bearer security by a District Director, Internal Revenue Service, should be in the following form:

For presentation to the Federal Reserve Bank of _____, Fiscal Agent of the United States, for redemption, the proceeds to be credited to the account of the District Director, Internal Revenue Service at _____, for credit on the Federal

_____
(Income, gift or other)
taxes due from _____
(Name and address)

### § 328.6 Requirements for endorsement.

(a) *On bearer securities.* The endorsement must be imprinted in the left-hand portion of the face of each security with the first line thereof parallel to the left edge of the security and in such manner as to be clearly legible and in such position that it will not obscure the serial number, series designation or other identifying data, and cover the smallest possible portion of the text on the face of the security. The dimensions of the endorsement should be approximately four inches in width and one and one-half inches in height, and must be imprinted by stamp or plate of such character, with a carbon pigment ink, and by such means, as will render the endorsement substantially ineradicable. In cases where the endorsement is being made by a bank, immediately below and as part of the endorsement the ABA code number of the presenting bank must be perforated in figures approximately one-fourth to one-half inch in height. The perforations should be placed as nearly as possible beneath the endorsement without obliterating any of the identifying data. The name of the Federal Reserve Bank of the district must appear on the plate or stamp used for the imprinting of the endorsement, and presentation to the appropriate branch of the Federal Reserve Bank named will be considered as presentation to the bank. When securities are to be presented to the Treasurer of the United States, the words "Treasurer of the United States" should be used in lieu of the words "Federal Reserve Bank of _____, Fiscal Agent of the United States." No subsequent endorsement will be permitted and no other form of endorsement may be made.

(b) *On coupons.* Unmatured coupons attached to restrictively endorsed securities should be cancelled by imprinting the prescribed endorsement in such manner that a substantial portion of the endorsement will appear on each such coupon. Where such endorsements are made by a bank, its ABA code number should not be perforated on the coupons. If any such coupons are missing, deduction of their face amount will be made in cases of redemption, and in cases of exchange, remittance equal to the face amount of the missing coupons must accompany the securities. All matured coupons, including coupons which will mature on or before the date of redemption or exchange (except as otherwise specifically provided in an announcement of an exchange offering), should be detached from securities upon which restrictive endorsements are to be imprinted.

### § 328.7 Shipment of securities.

Securities bearing restrictive endorsements may be shipped, at the risk and expense of the shipper, by registered mail, messenger, armored car service, or express to the Federal Reserve Bank of the district in which the presenting bank or District Director, Internal Revenue Service, is located, or to the appropriate branch of such Federal Reserve Bank. Shipments to the Treasurer of the United States, Washington, D.C., should be made by messenger or armored car.

### § 328.8 Loss, theft or destruction of securities bearing restrictive endorsements.

(a) *General.* Relief will be provided on account of securities bearing restrictive endorsements proved to have been lost, stolen, or destroyed, upon the owner's application, in the same manner as registered securities which have not been assigned. (See Subpart N of the current revision of Department Circular No. 300, the general regulations with respect to United States securities.) Except for bearer securities submitted for redemption at par in payment of Federal estate taxes, a bank will be considered the owner of securities handled on behalf of customers unless it otherwise requests. The application for relief (Form PD 2211) and instructions will be furnished by the Federal Reserve Banks.

(b) *Bond of indemnity.* Where securities bearing restrictive endorsements shipped by a bank have been lost, stolen, or destroyed, a bond of indemnity with surety satisfactory to the Secretary of the Treasury will be required from the owner. If such bond is executed by a bank or other corporation, the execution must be authorized by general or special resolution of the board of directors, or other body exercising similar functions under its bylaws. Ordinarily, no surety will be required on a bond executed by a presenting bank. The Secretary of the Treasury reserves the right, however, to require a surety in any case in which he considers such action necessary for the protection of the United States.

### § 328.9 Miscellaneous.

The provisions of this circular are subject to the current revision of Department Circular No. 300. The Secretary of the Treasury reserves the right at any time to amend, supplement, or withdraw any or all of the provisions of these regulations.

[SEAL] JOHN K. CARLOCK,
*Fiscal Assistant Secretary.*

# Title 42—PUBLIC HEALTH

## Chapter I—Public Health Service, Department of Health, Education, and Welfare

### SUBCHAPTER D—GRANTS

### PART 51—GRANTS TO STATES FOR PUBLIC HEALTH SERVICES

### PART 55—GRANTS FOR WATER POLLUTION CONTROL

### Payments to States and Cooperating and Interstate Agencies

Notice of proposed rule making, public rule making procedures and delay in effective date have been omitted as unnecessary in the issuance of the following amendments to Part 51 and to Part 55 which relate solely to grants.

Pursuant to section 314(j) of the Public Health Service Act, as amended (58 Stat. 695, 42 U.S.C. 246(j)), the amendment of Part 51 is made after consultation with, and with the agreement of, a conference of the State health authorities and, with respect to grants for mental health, the State mental health authorities.

The purpose of the amendments is to provide for payments to States and cooperating agencies pursuant to section 314 of the Public Health Service Act, as amended, and to States and interstate agencies pursuant to section 5 of the Federal Water Pollution Control Act, as amended (70 Stat. 499, 33 U.S.C. 466d), on a periodic rather than a quarterly basis.

Effective July 1, 1964:

1. Paragraph (d) of § 51.8 is amended to read as follows:

### § 51.8 Payments to States; to cooperating agencies.

* * * * *

(d) Subject to the foregoing limitations, payments shall be made as follows:

(1) Payments shall be made periodically and shall be based upon an application for funds showing the estimated requirements or actual expenditures for the period covered by the application for funds and the estimated or actual unencumbered balance of the respective fund in the State's Treasury (or, with respect to the heart disease control program, in the Treasury of the cooperating agency) at the beginning of the period for which payment is to be made.

(2) Payment for the first six months of the fiscal year for each grant pro-

gram shall not be more than the allotment for the six-month period less the unencumbered balance of program funds in the State (or cooperating agency) treasury at the end of the prior fiscal year.

(3) Payments from allotments shall not be certified unless an application for payment and all required reports and documents have been received.

(4) Supplemental payment in any payment period may be certified upon submission of an application therefor accompanied by satisfactory justification.

(Sec. 215, 58 Stat. 690, as amended; 42 U.S.C. 216. Interpret or apply sec. 314, 58 Stat. 693, as amended; 42 U.S.C. 246)

2. Paragraph (b) of § 55.6 is amended to read as follows:

§ 55.6 Payments to States and interstate agencies.

* * * * *

(b) Subject to the foregoing limitations, payments to States and interstate agencies shall be made as follows:

(1) Payments shall be made periodically and shall be based upon an application for funds showing the estimated requirements for the period covered by the application for funds. Such payments shall be decreased or increased by the amount that prior payments exceed or are less than the Federal share of the total expenditures for the program.

(2) Payments shall not be certified unless an application for payments and all plans, reports, and documents required by this part have been received.

(3) Supplemental payment in any payment period may be certified upon submission of an application therefor accompanied by satisfactory justification.

(Sec. 10, 70 Stat. 506; 33 U.S.C. 466l. Interpret or apply sec. 5, 70 Stat. 500; 33 U.S.C. 466d)

Dated: November 18, 1964.

[SEAL] LUTHER L. TERRY,
*Surgeon General.*

Approved: December 3, 1964.

ANTHONY J. CELEBREZZE,
*Secretary.*

# Title 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

[Docket No. 15256; FCC 64-1116]

## PART 73—RADIO BROADCAST SERVICES

### FM Broadcast Stations, Table of Assignments

In the matter of amendment of § 73.202, Table of Assignments, FM Broadcast Stations (San Diego, Calif.; Jamestown, N.Y.; Newton and Franklin, N.J.; Colorado Springs, Colo.; Toccoa, Ga., and Easley, S.C.; Menomonee Falls, Green Bay, Neenah-Menasha, Milwaukee, and New Berlin, Wis.; St. Louis Park and Minneapolis, Minn.; Radford and Blacksburg, Va.; Fairhope and Mobile, Ala.; Berkeley Springs, W. Va., and Frostburg, Md.; Nantucket, Mass.; Wallace, Idaho; Crestview, Fla.; Missoula, Mont.; Spencer, Iowa; Sanford, Winter Park, and Windermere, Fla.; Houston and Senatobia, Miss.; Jacksonville, Fla.; Huntington, W. Va.); Docket No. 15256, RM-484, RM-521, RM-488, RM-523, RM-491, RM-526, RM-492, RM-527, RM-500, RM-528, RM-501, RM-529, RM-503, RM-531, RM-507, RM-536, RM-508, RM-537, RM-513, RM-541.

*Memorandum Opinion and Order.* 1. In the Report and Order in this proceeding (FCC 64-515, released June 8, 1964) the Commission adopted its proposal to substitute a wide-area Class C channel, 231, for Channel 228A at Houston, Mississippi, and to make the concomitant substitution of Channel 224A for 232A at Senatobia, Mississippi required by this move. This proposal (RM-536) was originally advanced by WCPC Broadcasting Company, licensee of an AM station at Houston. In arriving at this decision, we rejected two counterproposals advanced by Pickens County Broadcasting Company, Inc. (Pickens) licensee of AM Station WRAG, Carrollton, Alabama, which would have substituted Class C channels for Class A channels both at Houston and at Carrollton, by making other changes in FM assignments in the area. In a petition timely filed Pickens asks reconsideration of our decision and adoption of one or the other of its alternative counterproposals. WCPC Broadcasting Company opposes the petition unless it can be assured that a Class C assignment will be available at Houston and a Class A at Senatobia. Pickens' alternatives are as follows:

ALTERNATIVE 1

| City | Add | Delete |
|---|---|---|
| Houston, Miss. | 227 | 228A |
| Corinth, Miss. | 237A | 228A |
| Carrollton, Ala. | 231 | 292A |
| Butler, Ala. | 228A | 232A |

ALTERNATIVE 2

| | | |
|---|---|---|
| Houston, Miss. | 231 | 228A |
| Senatobia, Miss. | 224A | 232A |
| Carrollton, Ala. | 300 | 292A |
| Birmingham, Ala. | | 299 |

*Consideration of alternative 2.* 2. Pickens' second alternative would involve deletion of one of Birmingham's Class C channels, as we pointed out in the Report and Order, leaving it with only two unoccupied frequencies. Pickens implies that we erred in failing to note the assignment of seven channels to the city—two more than the minimum number which we set forth in our 1962 criteria for cities of Birmingham's size—and five operating FM stations. Its contention must be rejected. The Commission is of the view that it is not in the public interest to delete one of Birmingham's seven wide-coverage channels, considering that city's size (340,887, 1960 U.S. Census) and importance, in order to provide Carrollton, a community of 894 persons, with a wide-coverage channel rather than a Class A channel. We adhere to our previous decision.

*Consideration of alternative 1.* 3. Pickens' first alternative would provide a Class C channel for Carrollton by assigning a different Class C channel (227) to Houston, and substituting Class A's for other Class A's at Corinth, Miss. and Butler, Ala. (None of present or proposed channels is occupied or applied for.) In asking us to reconsider our denial of this proposal, Pickens urges several points:

(a) The shift in Class A channels at Senatobia (224A for 232A), which we made to accommodate the Houston Class C assignment, is inefficient, since if 224A were not assigned to Senatobia it could be used at two other places in this general area, Holly Springs, Miss. and Marianna, Ark., both without assignments and both with between 5,000 and 6,000 persons, larger than Senatobia.

(b) With respect to use of Channel 237A as a Class A replacement at Corinth (part of the Pickens plant), we stated in the Report and Order that this would preclude its use to meet the future needs of other communities in the area, "such as Holly Springs * * *". Pickens points out that if not used at Corinth Channel 237A could be used only in a relatively small area, containing four communities of which only two, Holly Springs and Selmer, Tenn. (population 1,897) have more than 500 persons. It is pointed out that other channels could be assigned to both of these places if needed. Other similar matters are mentioned below in paragraph 3.

(c) While with 894 persons Carrollton is smaller than Houston (2,577), where we made a Class C assignment, its county (Pickens) is larger than that of Houston (about 22,000 compared to 17,000), and some 8 miles from the proposed site is the larger community of Aliceville (3,194).[1]

(d) In making the Class C assignment to Houston, we noted that that community is far from any metropolitan area or large city. Pickens asserts that Carrollton is similarly situated. The facts as to approximate distance from sizable cities and wide-area FM assignments are as follows: Houston is 30 miles from Tupelo (17,000, one Class C assignment), 45 miles from Columbus (25,000, one Class A assignment), 95 miles from Tuscaloosa, Alabama (63,000, one Class C and one Class A assignment), and about 100 miles from Meridian (49,000, two Class C assignments) and from Memphis (498,000 six Class C assignments). Carrollton is 25 miles from Columbus, 30 miles from Tuscaloosa, 70 miles from Meridian, and 75 miles from Birmingham (344,000, seven Class C assignments).

[1] All population figures herein are 1960 Census figures. Both Carrollton and Houston are county seats, and in each case the daytime-only AM station in the community, owned by the party seeking the Class C FM assignment, is the only broadcast facility in the county. The FM channel assigned is also the only one in each county. The only newspaper in Pickens County is published at Carrollton.

(e) We mentioned in the Report and Order that because of the wide adjacent channel spacings in this area, an FM station on a Class A channel at Carrollton would have a service area wide enough to serve its community and surrounding area adequately. Pickens asserts that there is no assurance that future FM channel shifts will not limit it to its 1 mv/m contour.

(f) Pickens again refers to the "white area" it would cover with a Class C as compared to a Class A assignment—it is asserted that an additional 26,674 persons and 1,205 square miles would receive a first aural service nighttime, many of whom receive no daytime FM service. However, this showing is based on use of 1 mv/m contours, whereas, particularly in rural areas such as those involved here, our rules state that 50 uv/m signals may provide service.[2]

3. In connection with our review of Pickens' engineering showing on petition for reconsideration we have also examined its earlier showing (in reply comments) purporting to show the slight restrictions which assignment of Channel 231 at Carrollton would place on other use of it and adjacent channels in this general area, beyond that now existing. Use of 231 at Carrollton would preclude use elsewhere in the area except under the "25 mile rule." The four adjacent Class C channels would not be affected since their use in this region is already precluded, either by assignments in other communities not mentioned here or (in the case of Channel 230) by such other assignments plus any assignment which has been made or proposed for Houston (228A, 231, or 227). As to the adjacent Class A channels (228A and 232A) the situation is as follows:

(a) Channel 228A presently could be used in a small area in western Alabama containing (as the only community of any size therein) York, population 2,932, with no present assignment. Use of 231 at Carrollton would preclude this, both directly and by requiring use of 228A as a replacement at Butler.

(b) Channel 232A is now assigned to Butler, and any further use in the area is precluded by this and by the Houston 231 assignment. Assignment of 231 to Carrollton would preclude use of 232A in the area, including Butler, and therefore Pickens proposes substitution of 228A there.

4. We have mentioned before our general principle of reserving the assignment of wide-coverage Class B and Class C FM channels for the larger communities, with smaller places to have more limited Class A assignments. In making the Houston assignment now under reconsideration we noted one exception—where the community in question is relatively far removed from any metropolitan area or large city. We found that to be the case with Houston. This is also true in the case of Carrollton since the nearest city with a Class C assignment is Tuscaloosa, about 30 miles distant.

5. On reconsideration we are convinced that Carrollton merits the assignment of a Class C channel since such an assignment would serve a large rural area and a sparsely settled population. While Carrollton itself is a rather small community, it is the county seat and location of the county's newspaper. Moreover, within the county and nearby there is a community, (Aliceville), population 3,194, where the channel could be used under the "25-mile rule." In addition, the assignment of Channel 231 to Carrollton, with the other required changes needed to make this assignment feasible and without depriving Houston of a Class C assignment, would have additional merit in that it would make more efficient use of the assignments in question.

6. Authority for the rule amendments adopted herein is contained in sections 4(i), 303(r) and 307(b) of the Communications Act of 1934, as amended.

7. In view of the foregoing: *It is ordered*, That effective January 11, 1965, the Table of Assignments contained in § 73.202 of the Commission's rules and regulations is amended, with respect to the communities named, to read as follows:

| City: | Channel no. |
|---|---|
| Butler, Alabama | 228A |
| Carrollton, Alabama | 231 |
| Corinth, Mississippi | 237A |
| Houston, Mississippi | 227 |
| Senatobia, Mississippi | 232A |

8. *It is further ordered*, That this proceeding is terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083; 47 U.S.C. 303, 307)

Adopted: December 2, 1964.

Released: December 7, 1964.

FEDERAL COMMUNICATIONS COMMISSION,[3]

[SEAL] BEN F. WAPLE,
*Secretary.*

[F.R. Doc. 64-12668; Filed, Dec. 9, 1964; 8:49 a.m.]

[2] Pickens seeks a wide-coverage channel so that it may serve the extensive rural area which, it says, it must have to obtain sufficient economic support. Its AM station has such coverage because of its low frequency (590 kc/s), giving it a radius of about 40 miles out to its 0.5-mv/m contour. It is about 25 miles from Carrollton to the furthest points in Pickens County.

[3] Commissioners Hyde, Bartley, and Loevinger absent.

# Title 50—WILDLIFE AND FISHERIES

## Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

## PART 33—SPORT FISHING

### National Wildlife Refuges, Certain States

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

IMPERIAL NATIONAL WILDLIFE REFUGE

Sport fishing on the Imperial National Wildlife Refuge, Arizona and California, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 8,100 acres, are delineated on maps available at refuge headquarters, Yuma, Arizona, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex., 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following special condition:

(1) The open season for sport fishing on the refuge extends from January 1 through December 31, 1965, inclusive, except an area of approximately 165 acres in Martinez Lake as posted be closed from January 1 through February 28, 1965, inclusive, and from October 1 through December 31, 1965, inclusive.

The provisions of this special regulations supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1965.

NEW MEXICO

BITTER LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Bitter Lake National Wildlife Refuge, New Mexico, is permitted from April 1 through October 15, 1965, inclusive, only on the areas designated by signs as open to fishing. These open areas, comprising 945 acres, are delineated on maps available at refuge headquarters, 13 miles northeast of Roswell, N. Mex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex., 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following special condition:

(1) The use of boats or floating devices is prohibited.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through October 15, 1965.

OKLAHOMA

SALT PLAINS NATIONAL WILDLIFE REFUGE

Sport fishing on the Salt Plains National Wildlife Refuge, Oklahoma, is permitted only on areas designated by signs as open to fishing. These open areas, comprising 7,800 acres, are delineated on maps available at refuge headquarters, Jet, Oklahoma, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex., 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following condition:

(1) The open season for sport fishing on the refuge extends from April 15

through October 15, 1965, inclusive, in Great Salt Plains Lake as posted; and from February 1 through October 15, 1965, inclusive, in Sand Creek, the three main channels of Salt Fork River, and the right-of-way of Oklahoma State Highway 11 as posted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through October 15, 1965.

TEXAS

HAGERMAN NATIONAL WILDLIFE REFUGE

Sport fishing, including frogging, on the Hagerman National Wildlife Refuge, Texas, is permitted from April 1 through September 30, 1965, inclusive, only on the areas designated by signs as open to fishing. These open areas, comprising 2,900 acres, are delineated on maps available at refuge headquarters, Sherman, Tex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex., 87103. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through September 30, 1965.

WYOMING

PATHFINDER NATIONAL WILDLIFE REFUGE

Sport fishing on the Pathfinder National Wildlife Refuge, Wyoming, is permitted from January 1 through December 31, 1965, inclusive, on all areas not designated by signs as closed to fishing. These open areas, comprising 16,500 acres, are delineated on maps available at refuge headquarters, Post Office Box 759, Laramie, Wyo., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, N. Mex., 87103. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1965.

WILLIAM T. KRUMMES,
*Acting Regional Director,*
*Albuquerque, New Mexico.*

DECEMBER 3, 1964.

[F.R. Doc. 64-12642; Filed, Dec. 9, 1964; 8:45 a.m.]

## PART 33—SPORT FISHING

### Muleshoe National Wildlife Refuge, Texas

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

**§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.**

TEXAS

MULESHOE NATIONAL WILDLIFE REFUGE

Sport fishing on the Muleshoe National Wildlife Refuge, Muleshoe, Tex., is suspended for the 1965 season. A prolonged drought has resulted in a shortage of water on the public fishing area.

WILLIAM T. KRUMMES,
*Acting Regional Director,*
*Albuquerque, New Mexico.*

DECEMBER 3, 1964.

[F.R. Doc. 64-12643; Filed, Dec. 9, 1964; 8:46 a.m.]

## PART 33—SPORT FISHING

### National Wildlife Refuges, North Dakota

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

**§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.**

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Sport fishing on the Arrowwood National Wildlife Refuge, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas comprising 1,270 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn., 55408. Sport fishing shall be in accordance with all applicable state regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from December 15, 1964, through March 21, 1965, daylight hours only.

(2) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 21, 1965.

LAKE ILO NATIONAL WILDLIFE REFUGE

Sport fishing on the Lake Ilo National Wildlife Refuge, North Dakota, is permitted only on the area designated by signs as open to fishing. This open area comprising 1,300 acres is delineated on maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn., 55408. Sport fishing shall be in accordance with all applicable state regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from December 15, 1964 through March 21, 1965, daylight hours only.

(2) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally are set forth in Title 50, Part 33, and are effective through March 21, 1965.

LONG LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Long Lake National Wildlife Refuge, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas comprising 10,000 acres are delineated on maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn., 55408. Sport fishing shall be in accordance with all applicable state regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from December 15, 1964 through March 21, 1965, daylight hours only.

(2) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 21, 1965.

LOWER SOURIS NATIONAL WILDLIFE REFUGE

Sport fishing on the Lower Souris National Wildlife Refuge, North Dakota, is permitted only on the area designated by signs as open to fishing. This open area comprising 11,430 acres is delineated on maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn., 55408. Sport fishing shall be in accordance with all applicable state regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from December 15, 1964 through March 21, 1965, daylight hours only.

(2) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 21, 1965.

TEWAUKON NATIONAL WILDLIFE REFUGE

Sport fishing on the Tewaukon National Wildlife Refuge, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas comprising 1,400 acres are delineated on maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn., 55408. Sport fishing shall be in accordance with all applicable state regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from January 1, 1965, through March 21, 1965, daylight hours only.

(2) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 21, 1965.

UPPER SOURIS NATIONAL WILDLIFE REFUGE

Sport fishing on the Upper Souris National Wildlife Refuge, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas comprising 6,000 acres are delineated on maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 1006 West Lake Street, Minneapolis, Minn., 55408. Sport fishing shall be in accordance with all applicable state regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from December 15, 1964, through March 21, 1965, daylight hours only.

(2) The use of minnows or any other fish or part thereof for bait is prohibited in all waters which lie north of the Lake Darling Dam. Minnows may be used in areas which are south of the Lake Darling Dam.

(3) The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 21, 1965.

W. P. SCHAEFER,
*Acting Regional Director,*
*Bureau of Sport Fisheries and Wildlife.*

# Proposed Rule Making

## DEPARTMENT OF AGRICULTURE

**Agricultural Marketing Service**

**[ 7 CFR Part 1065 ]**

[Docket No. AO–86–A16]

### MILK IN NEBRASKA-WESTERN IOWA MARKETING AREA

**Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order**

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Nebraska-Western Iowa marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., 20250, by the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

*Preliminary statement.* The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Omaha, Nebr., on August 10 and 11, 1964, pursuant to notice thereof which was issued July 15, 1964 (29 F.R. 9802).

The material issues on the record of the hearing relate to:

1. Extension of the marketing area to include several counties in western Nebraska;
2. The definition of other source milk;
3. Changes in diversion provisions;
4. Treatment of milk which is dumped;
5. The classification and pricing of milk used in manufactured products other than fluid milk products;
6. The level of the Class I price;
7. Location adjustments;
8. The method of making payments to cooperative associations; and
9. Administrative and miscellaneous changes.

*Findings and conclusions.* The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Expansion of the marketing area.* The marketing area should be expanded to include the entire Nebraska panhandle. This consists of the eleven counties of Banner, Box Butte, Cheyenne, Dawes, Deuel, Garden, Kimball, Morrill, Scotts Bluff, Sheridan, and Sioux.

These counties consist almost entirely of sparsely populated range lands. Comprising almost 14,000 square miles, the total population of the eleven counties according to the 1960 census is less than 105,000 persons. In the entire area there are only four communities having a population as great as 5,000. The largest of these, Scottsbluff, had a population of 13,377 in 1960.

There are located within the proposed area at the present time five unregulated plants which would become fully regulated if the marketing area were expanded as recommended. There is also an unregulated plant at Lusk, Wyo., which has some distribution within the area. The percentage of milk which it distributes in Nebraska, however, is not sufficient for the plant to meet the pool plant requirements of the order. Thus it would be a partially regulated plant under the expanded order.

There are two additional plants in the area, one at Gering and the other at Bridgeport, which are producer-handler operations. If they maintain their producer-handler status they would be exempt from all but the reporting provisions of the order.

In addition to the unregulated plants above mentioned, milk is disposed of throughout the entire area by plants which are presently regulated under both the Nebraska-Western Iowa order and the Eastern Colorado order.

The five plants which would become subject to full regulation receive milk from 40 producers, three of whom are located in Wyoming, and the remainder of whom reside in the panhandle counties. These are the only Grade A producers in the entire area. The three Wyoming producers and 31 of the 37 Nebraska producers are members of the Nebraska-Iowa Nonstock Cooperative Milk Association, the major cooperative supplying milk to regulated handlers under the present order. This association is the proponent of the proposal to expand the marketing area to include the counties in the western part of the State.

The handling of milk in the eleven panhandle counties is in the current of, or burdens, obstructs, or affects interstate commerce. As noted above, three of the 40 producers who regularly supply handlers located therein reside in Wyoming. In addition milk from a Wyoming plant is regularly disposed of in portions of the area under consideration. At least one of the unregulated handlers located in western Nebraska operates routes in the State of Wyoming.

Approximately one-half of the milk disposed of in the eleven-county area at the present time originates in plants regulated under the Nebraska-Western Iowa marketing order or under the Eastern Colorado marketing area. Between 25 and 35 percent of the regulated distribution in the area originates at plants located in the State of Colorado which are regulated by the Eastern Colorado marketing order.

Milk from the regulated plants, particularly those regulated under the Nebraska-Western Iowa order, is distributed throughout the entire eleven-county area. Two of the five plants in the proposed area are affiliated with plants regulated under the present order. They procure from the affiliated plants all of the cottage cheese and byproducts and some of the milk in special types or sizes of containers which are distributed on their routes. Other plants in the area also rely on regulated plants for specialty items.

All five plants rely on the Nebraska-Iowa Nonstock Cooperative Milk Association to furnish supplemental milk when it is needed. This milk originates at plants which are regulated under the present order.

At times surplus milk has been transferred to a manufacturing plant at Johnstown, Colorado. Some of the five plants now rely on the cooperative association to handle seasonal surpluses of milk which may occur. At times milk has been moved from the farms of the three Wyoming producers mentioned above to the receiving station operated by the cooperative at Grand Island, a pool plant under the order.

In support of its proposal to add the panhandle counties to the marketing area the cooperative stated that the move would create greater stability in the market and make it easier for it to fulfill its commitments to handlers, both those now regulated and those unregulated handlers whom they service. At the present time three of the five handlers purchase their full supply from the Nebraska-Iowa Nonstock Cooperative Milk Association. Generally this milk is delivered directly to plants from the farms of the producers located in that area. The cooperative also occasionally supplies supplemental milk to plants which do not regularly purchase milk from its members. When supplemental supplies are needed the milk could either be moved from the supply plant of the cooperative at Grand Island, Nebraska, or producers could be transferred from regulated plants at the extreme western part of the present marketing area to the unregulated plants. In the latter instance milk must be moved from Grand Island to the plants from which the producers were transferred since these plants would normally be in relatively short supply at the same time as panhandle plants.

The milk which the cooperative association disposes of to presently unregulated plants is classified and priced by

agreement according to the provisions of the present order. It was stated that the cooperative association had been given assurance that it would be permitted to audit the records of the handlers to verify the utilization of its milk. It appears that this privilege has never been exercised.

The producers residing in Nebraska are paid prices comparable to those received by other members of the association who are producers as defined in the present order. The three Wyoming producers, however, are paid prices which are fixed by a Wyoming State regulation. These prices are somewhat higher than the prices received by Nebraska-Western Iowa producers.

Those plants which buy milk from nonmember producers purchase such milk at prices comparable to those paid for milk purchased from the cooperative association.

Inclusion of the panhandle counties in a marketing area would tend to stabilize marketing conditions, remove inequities that may now exist between panhandle dairy farmers and member producers under the order, and facilitate the task of the cooperative association in performing its marketing functions.

At the present time the reserve supplies for plants in the eleven-county area are carried by the producers whose milk is regulated under the present order. The plants in the panhandle area are predominately bottling plants engaged primarily in bottling fluid milk. They have no surplus disposal facilities. They tend to receive from producers only sufficient milk to take care of their bottling requirements. Therefore, the seasonal surplus associated with the supplemental milk needed for bottling in the short season by these plants is identified with the marketing order.

The small seasonal surpluses which may occur in the panhandle plants are transferred to the order pool. Whenever the milk of the farmers in the panhandle is received at regulated plants, they become producers under the order and this milk shares in the market pool. Since this milk is surplus to the needs of the market, it places on the order pool the burden of the seasonal surplus of the panhandle farms.

When milk is needed in the panhandle counties it would be more economical for the cooperative association to shift producers to that area from the western-most plants now regulated and move milk from Grand Island to the plant from which the milk was taken than to haul milk from the receiving station at Grand Island to plants at Scottsbluff or Chadron.

However, because the panhandle plants are not now regulated if the producers are transferred to the panhandle plants such producers lose their status as producers while the milk is off the market and the milk ceases to be subject to regulation under the order. If the producers were considered as diverted, their milk would be subject to a location differential which at Scottsbluff would result in a price 25.5 cents lower than the uniform price paid at pool plants.

Similarly, when surpluses occur in the western part of the State it would be more economic to move excess supplies to presently regulated plants which could use it for Class I and direct to the Norfolk manufacturing plant of the cooperative nearby supplies of milk which otherwise would go to bottling plants. When this occurs the dairy farmers whose milk is received at regulated plants become producers under the order any day that their milk is received at a regulated plant. Thus, this transfer adds to the milk in the pool only the excess milk from the panhandle plants thereby increasing the percentage of Class II milk in the pool and reducing the uniform price accordingly. On the other hand, if the milk were first received at panhandle plants and then transferred to the Norfolk plant it would be other source milk and would not affect the pool, but the expenses involved in such transportation would be extremely uneconomical. If the entire area were under one order the cooperative would be in a position to move milk in the most economical manner without affecting the pool in any way. Thus the marketing area recommended herein is practicable in view of these marketing conditions.

At the present time handlers in the panhandle area are buying milk at lower prices and have a competitive advantage over handlers regulated under the Eastern Colorado order where the Class I price is substantially higher than the price which they are presently paying for milk. Because the price they presently pay does not reflect the cost of transportation to the panhandle they likewise enjoy a substantial competitive advantage over handlers regulated under the Nebraska-Western Iowa order who dispose of milk in the panhandle counties. As noted above sales by handlers regulated under these orders are approximately one-half of the total sales in the area and of this amount between 65 and 75 percent originates at plants regulated under the Nebraska-Western Iowa order.

Presently regulated handlers, with the exception of the two which are affiliated with plants in the panhandle area, favor the expansion of the marketing area. One of the handlers operating both a regulated and an unregulated plant did not oppose expansion of the marketing area but was opposed to any increase in the level of the Class I price in the panhandle counties. The question of class pricing will be discussed below.

It is necessary that all producer milk be fully regulated under the order regardless of whether it is disposed of within or without the marketing area. Otherwise, the effect of the order would be nullified and the orderly marketing process would be jeopardized.

If only a pool handler's "in-area" milk is subject to classification, pricing and pooling, a handler with sales outside the marketing area could assign any value he chose to such sales and thereby reduce the average cost of his Class I milk below that of other regulated handlers having all, or substantially all, of their Class I sales within the marketing area. In short unless all milk of such a handler is fully regulated he would not in fact be subject to effective price regulation at all. The absence of effective classification, pricing and pooling of such milk would disrupt orderly marketing conditions within the regulated marketing area and lead to a complete breakdown of the order.

As noted in the decision of June 19, 1964 (29 F.R. 9214) on amendments to several orders, including the Nebraska-Western Iowa order, there is no way to treat unregulated milk equally with regulated milk other than to regulate it fully. In the case of plants having insufficient association with the market to meet pool plant requirements, it was concluded that the inequalities resulting from pricing only the small percentage of the milk at such plants which was disposed of in the marketing area would not be serious enough to jeopardize the marketing conditions within the regulated marketing area.

However, in the case of plants which have sufficient association with the market to meet the pool plant requirements, permitting them to dispose of a portion of their receipts outside the marketing area completely free of regulation would, because of the volume of milk they dispose of in the marketing area, disrupt orderly marketing processes within the regulated market and render ineffective the classification and pricing provisions of the order. With a handler free to value a portion of his milk at any price he chose (zero if he desired) it would be impossible to enforce uniform prices to all regulated handlers or a uniform basis of payments to the producers who supply the market.

It is absolutely essential, therefore, that the order price all the producer milk received at a pool plant regardless of the point of disposition.

2. *Limitation of diversions.* The present diversion provision of the order should be amended to provide that up to 50 percent of the production of any producer may be diverted to a nonpool plant during the months of July through February. The present order provides that milk of a producer may be diverted for not more than 16 days during each of these months. It is more appropriate to base the amount of milk which may be diverted on the producer's total production during the month rather than on a specific number of days. Under the present order a dairy farmer might be a producer on the market for only 17 days and yet have his milk diverted on 16 of those days. Under the proposal recommended, half of the producer's milk may be diverted regardless of the number of days that he was a producer during the month. Any milk diverted in excess of 50 percent should be nonproducer milk for that month and should be excluded from pooling under the order. The cooperative association proposed that, if a producer's milk were overdiverted, all of the milk produced by him during the month should be considered other source milk. It does not appear reasonable to adopt such a proposal since producers as individuals often have no control over the diversion of their milk.

This is at the discretion of either the cooperative association or the proprietary handler who receives their milk.

The order now provides for unlimited diversion of producer milk during the months of March through June. The cooperative proposed that the month of March be added to the period of limited diversion. They stated that March was not a month of high production. Therefore, there would be no need to divert milk other than on weekends during March. A review of the market statistics, however, indicates that daily average production during the month of March is very nearly as great as during the month of April and in two of the past three years has been greater than production during the month of June. Under these circumstances, it is evident that March from a production standpoint corresponds more closely to the surplus production months of April, May and June than to the other months of the year. The order should continue to provide that milk may be diverted in unlimited quantities during the month of March.

The cooperative also proposed that milk of a producer not be permitted to be diverted during the flush production months unless he had been a producer during the entire month preceding the period of unlimited diversion. It was their contention that, otherwise, the order provisions would be subject to abuse since it would be possible for a plant operator to take on additional producers just before the period of unlimited diversion and then divert the milk to a manufacturing plant during the entire period. In effect this could result in his being reimbursed from the marketwide pool for a supply of milk which was intended only for manufacturing uses.

There is no evidence that any such situations have ever developed nor that one is likely to occur in the future. Too, producers who might not have been on the market during the entire month preceding would be scattered through the milkshed. Their milk would be picked up on trucks which carried the milk of other producers who had been on the market. Since milk may be diverted only in truck loads, any such producer whose milk was on a route which was diverted to the manufacturing plant would lose his status as a producer for the month. The proposal of the cooperative association in this regard should not be adopted.

3. *Definition of other source milk.* The definition of other source milk provided in the order should be revised to include any disappearance of nonfluid milk products not otherwise accounted for.

The order now includes in the definition of other source milk only those nonfluid products which have been reprocessed or converted to another product in the plant during the month. It can be argued that the handler is not required under the present order to account to the market administrator for such products which have disappeared but which are not shown to have been reprocessed or used in the manufacture of other products. Proper administration of the order requires that the handler account for the disposition of such products. Otherwise, the door is left open for circumvention of the order provisions.

If a handler were to purchase 100 bags of nonfat dry milk solids and report only 90 bags used in fortified products, or otherwise disposed of, and yet have no nonfat dry milk solids remaining on hand, under the terms of the present order there is a question as to whether, technically, the ten bags of powder not accounted for would be other source milk. It is considered other source milk and thus is subject to class pricing under the order, only as the market administrator assumes that the disappearance of the powder and the handler's inability to account for it constitutes evidence that the nonfat solids in question had been used in the production of fluid milk products.

By adding to the definition of other source milk, "any disappearance of nonfluid products not otherwise accounted for," there will be no doubt of the market administrator's authority to consider as used for fluid purposes nonfat solids for which the handler was unable or unwilling to account otherwise.

Handlers opposed the change on the ground that they would thereby be accountable for products which might have been stolen by employees or destroyed accidentally in the plant operations. This is no different from their being accountable for cream or milk which might be stolen by employees, or which might be lost in the plant through accident or carelessness on the part of the employees.

In order to verify the actual utilization of milk received from producers, it is necessary that the market administrator be in a position to reconcile all receipts of milk and dairy products with the disposition records of the plant. If such records cannot be reconciled, the handler must be held responsible for the shrinkage or the overrun which occurs, as a result of the discrepancy between the records of receipts and disposition. Otherwise, the handler with improper records would be in a position to gain an advantage over his competitors who properly accounted for all milk and dairy products received at the plant. It is equally necessary that the handler be required to account for all nonfluid dairy products which are in a form in which they can be converted into Class I products. Otherwise, a handler, by failing to keep records of nonfat dry milk products and similar products which he reconstituted into skim milk or other Class I items, could gain a competitive advantage over other handlers in the market.

A change should also be made in the manner of prorating shrinkage between milk which is pooled and other source milk. The present order prorates shrinkage over all receipts of other source milk, regardless of the form in which received. Thus the handler is permitted shrinkage on receipts of manufactured dairy products which may merely pass through the plant. In many cases repackaging is the only process performed in the plant. The handler, however, is permitted shrinkage up to two percent of the milk equivalent of such products, just as though he had received the milk and processed it in his plant. This results in excess shrinkage incurred in handling pool milk.

To rectify this matter actual shrinkage should be prorated between pool milk and other source milk received in the form of fluid milk products.

4. *Classification of skim milk which is dumped.* The order should be amended to provide Class III classification for any fluid milk product or cottage cheese which is dumped. Such classification should only apply in those cases where the market administrator has received prior notification of the dumping and been given the opportunity of verification should he deem it necessary. This limitation will prevent any handler from employing this provision to circumvent the shrinkage limitations of the order.

In many cases handlers have small amounts of skim milk remaining after their fluid requirements have been met. The cost of transporting such small quantities to manufacturing plants is often prohibitive. In addition, handlers have the problem of disposing of milk which is found to contain foreign materials. Providing for Class III classification of milk which is dumped will accommodate these and similar situations.

Producers objected to any dumping provision on the basis that adequate outlets are available for the sale of skim milk and also that the market administrator would have difficulty verifying such dumping because of the large marketing area.

In the eleven-county area proposed to be added to the marketing area in this decision there are a number of small handlers who will become fully regulated under the order. The only outlets for surplus skim milk available to many of these handlers are located at considerable distances from their processing plants. Although this area is relatively distant from the office of the market administrator, his employees will be in the general area on a more or less continuous basis in the performance of their duties. Thus, it should be possible for the market administrator to verify dumping without undue difficulty or expense.

5. *Classification and pricing of milk used in manufactured products.* The order should be amended to provide that skim milk and butterfat used to produce cottage cheese be classified as Class II and priced at the basic formula price plus 15 cents. A new Class III should be defined to include the skim milk and butterfat used to produce manufactured products other than cottage cheese. The Class III price should be the basic formula price which is the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the Department.

The Class II price under the present order is computed from a butter-powder formula. For the period from July 1963 through June 1964, the most recent twelve months for which statistics were available, the order Class II price averaged $3.03 while the average Minnesota-Wisconsin price was $3.13.

The Nebraska-Iowa Nonstock Cooperative Milk Association proposed the Class II classification for cottage cheese and ice cream and the new Class III classification for other manufactured products presently classified as Class II. They proposed that the Class II price be the basic formula price plus 25 cents and that the Class III price be the basic formula price. Related proposals submitted by the association provided for a Class II butterfat differential priced midway between the present Class I and Class II differentials and amendment of the transfer provisions to provide for Class II classification of transfers or diversions to nonpool plants producing both Class II and Class III products.

At the hearing proponents modified their Class II proposals by deleting ice cream and ice cream mix from the Class II classification and combining the Class II and Class III butterfat differentials at the level of the present Class II differential. Since no further testimony concerning the proposals to include ice cream in Class II and to provide for a separate Class II butterfat differential was presented by any interested parties, they are not considered in this decision.

Regulated handlers generally objected to the proposed increases in the price of milk used for cottage cheese and other manufactured products. A number of handlers testified that since October 1963 they had been paying the cooperative 15 cents over the present Class II price for milk used in cottage cheese and the order should reflect only this premium. One large handler, however, with pool plants located at Lincoln and Omaha, Nebraska, and who produces cottage cheese and distributes it over a wide area, in large measure, supported the position of the cooperative association.

It was the position of this handler that the manufactured milk price should be raised to the level of the Minnesota-Wisconsin pay price. This handler also favored the establishment of a separate Class II classification for cottage cheese but stated that the competitive situation would not justify a Class II price more than 15 cents over the basic formula price.

The Nebraska-Iowa Nonstock Cooperative Milk Association has assumed the responsibility for supplying the regulated handlers in this market with their needs for fluid milk and cottage cheese. Testimony indicates that it has been the practice in this market for handlers to utilize local supplies of fluid milk to manufacture cottage cheese. In a few cases when supplies were short certain handlers have paid Class I prices to obtain fluid milk for use in cottage cheese.

Cottage cheese is the principal manufactured dairy product made by proprietary handlers in the Nebraska-Western Iowa market. During the period from July 1963 through June 1964, an average of 4.6 million pounds of milk per month, which amounts to 10 percent of total receipts, was used to produce cottage cheese. Thus, this is an important outlet for local supplies of skim milk.

If local skim milk is priced too low relative to the cost of alternative supplies of cottage cheese or dairy products for making cottage cheese, producers do not receive the full market value for their milk. However, if milk used in cottage cheese is priced higher than the alternative product cost, use of skim milk in cottage cheese might be discouraged.

Nebraska health regulations require that cottage cheese produced or sold within the State be made from Grade A milk. Although some cottage cheese not bearing a Grade A label is being sold within the Nebraska portion of the marketing area, there is no evidence to show that such cottage cheese is not being produced from Grade A milk. Council Bluffs, the major population center in the Iowa portion of the marketing area, also requires that Grade A milk be used for cottage cheese.

The proposed Class II price for cottage cheese (basic formula plus 15 cents) would have averaged $3.28 per hundredweight for milk containing 3.5 percent butterfat during the period from July 1963 through June 1964. The applicable butterfat differential for the same period would have resulted in an average value for butterfat of 67 cents per pound. Deducting this butterfat value, the proposed Class II price for skim milk would have been approximately 86.5 cents per hundredweight. Assuming a yield factor of 13 pounds of curd per hundred pounds of skim, the product cost of curd would have averaged about 6.7 cents per pound. When production costs are added to this, the resulting price would still be less than the cost of curd from any other source.

A potential alternative source of Grade A cottage cheese curd is the Twin City Milk Producers Association, St. Paul, Minnesota. They quote a delivered price of 14 5 cents per pound of curd when transportation costs are less than one cent per pound.

Nonfat dry milk is also an alternative to fluid skim milk for the manufacture of cottage cheese. The lowest price quoted for Grade A nonfat dry milk was 16.25 cents per pound delivered to Nebraska plants in truckload lots. This is the cooperative's price for powder produced at its Norfolk plant. At the rate of 8.5 pounds of nonfat solids per hundredweight of skim milk, the price per hundredweight of the skim milk equivalent would be $1.38.

One handler who objected to the higher price for milk used in making cottage cheese cited comparable prices for milk used in cottage cheese under other Federal orders. However, there are now no movements of cottage cheese into the marketing area from plants regulated under other Federal orders. Opponents presented no testimony indicating other available sources of Grade A cottage cheese or what it might cost to transport cottage cheese from other Federal order markets to this market.

The price of 15 cents per hundredweight over the Minnesota-Wisconsin price series should encourage the continued use of local supplies of Grade A skim milk in the production of cottage cheese. It is not so high that it could lead to cottage cheese being imported from other areas at times when local supplies are available for such use. This is the identical price provided under the Eastern Colorado order and, therefore, would tend to promote better pricing alignment between that marketing area and the Nebraska-Western Iowa marketing area.

The proposal to provide that milk moved to a nonpool plant engaged in the production of cottage cheese be classified as Class II at the transferor plant to the extent such assignment is possible at the nonpool plant should not be adopted. At the present time no milk is transfered or diverted by regulated handlers to nonpool plants qualified to produce Grade A cottage cheese. At the present time there are no such outlets available for the disposal of surplus fluid milk. Should any of the present outlets for surplus milk begin the production of cottage cheese, it is possible that such a provision would interfere with the orderly disposition of the market's reserves.

The Class III price under the order should be the basic formula price which is the Minnesota-Wisconsin price series. During the period from July 1963 through June 1964, this series averaged ten cents per hundredweight more than the present butter-powder formula Class II price.

The Minnesota-Wisconsin price series reflects the prices paid for manufacturing grade milk by plants located in the two states. A substantial portion of the total manufacturing grade milk sold off farms in the United States is produced in these two states. Since this series measures the competitive value of ungraded milk used in a variety of products, it better reflects the overall value of milk used for manufacturing purposes than does the present formula which is tied to butter and powder prices.

Fluid milk markets must have a supply of milk which includes a reserve over fluid sales to accommodate daily and seasonal variations in demand. When this reserve is not used for fluid purposes it must be disposed of in manufactured products. The price for such reserve milk, in excess of that used to produce cottage cheese, should be established at a level low enough to permit its orderly disposition for manufacturing but not so low as to encourage additional supplies to be used only for manufacturing.

The proponent cooperative association has assumed the responsibility for marketing the surplus in this market. It operates a butter-powder plant at Norfolk, Nebraska, where it handles most of the market's Grade A surplus. In addition this plant receives milk from approximately 800 manufacturing milk producers on a regular basis. The pay price at this plant for both surplus Grade A milk and manufacturing milk is the Minnesota-Wisconsin series.

The reported paying prices per hundredweight for ungraded milk containing 3.5 percent butterfat at nearby manufacturing plants during the first six months of 1964 ranged from $3.25 at Sioux Falls, South Dakota, and Sibley, Iowa, to $3.15 at Sebetha, Kansas. Manufacturing plants located within the marketing area were reported to be pay-

ing on the basis of the Minnesota-Wisconsin series for their supplies. Since this price series appears to be in line with the prices which have been, and are being paid by the majority of manufacturing plants in the area, it would be improper to provide a lower price for producer milk used in the manufacture of the same products.

Some handlers supported a proposal to establish a special price for butterfat disposed of to butter plants. It was their contention that at times they had excess cream which could be disposed of only through such outlets and that the price received for such cream was less than the Class II price now fixed in the order.

The order cannot be expected to guarantee that a handler will make a profit, or even break even, on every business transaction. There will always be some sales that will be consummated at a loss just as there will be others which will prove highly profitable. The Class III price recommended herein is an appropriate price for milk used in the manufacture of butter.

6. *Class I price.* The Class I differential should be maintained at its current level at plants in the eastern portion of the present marketing area. At plants in the western portion of the present marketing area, however, the Class I differential should be increased 15 cents to $1.55 per hundredweight, while in the extreme western portion of Nebraska the differential should be fixed at $1.80 per hundredweight.

Specifically the differential of $1.55 should apply at plants located in Dawson, Furnas, Frontier, Gosper, Keith, Lincoln, and Red Willow Counties, Nebraska. These counties have been designated as the Central zone. The differential of $1.80 would be applicable in the panhandle counties of Banner, Box Butte, Cheyenne, Dawes, Deuel, Garden, Kimball, Morrill, Sheridan, Sioux and Scotts Bluff. These counties have been designated as the Western zone. At plants located outside the marketing area (all plants which would be regulated under the order at the present time are located in the marketing area) the Class I price would be that applicable at the nearest pricing zone in the marketing area, subject to a location differential.

The addition to the marketing area of the eleven counties in the Nebraska panhandle points out and intensifies the need for a reconsideration of the pricing pattern in the Nebraska-Western Iowa marketing area. At the present time the Class I price is identical throughout the marketing area. The price in the western portion of the area does not reflect the cost of moving milk from the areas where supplemental supplies must be obtained. Neither does it reflect a proper alignment with other markets in the vicinity.

During the months of short supply supplemental milk is needed by the plants located in the Central and Western zones. The cost of moving milk from the Grand Island receiving station in the Eastern zone to plants in the Central zone is approximately 15 cents per hundredweight, while the cost of moving milk from Grand Island to plants in the Western zone is approximately 40 cents per hundredweight.

Approximately the same differences would be reflected in the transportation cost of milk moved from the surplus producing areas of Minnesota and Wisconsin. In the past, milk has been procured from these areas when local producer receipts were insufficient to meet the Class I requirements of the market.

The maintenance of proper price alignment between competing markets is also an important consideration in establishing Class I prices under an order. The marketing area as defined herein abuts both the Eastern Colorado and the Black Hills marketing areas.

Although there is presently no milk being sold by handlers located in the Chadron-Scottsbluff area into the Eastern Colorado or Black Hills marketing areas, there is no reason to assume this will continue to be the case when these handlers become fully regulated. The uncertainty regarding the status of partially regulated handlers which existed until August 1, 1964, undoubtedly had an inhibiting effect on the expansion of sales by unregulated handlers into regulated markets.

However, as noted above, Eastern Colorado handlers distribute substantial quantities of milk in the western part of Nebraska. There is a great deal of competition in this area between presently unregulated handlers, and handlers regulated under both the existing Nebraska-Western Iowa order and the Eastern Colorado order. In addition at least one handler regulated under the Nebraska-Western Iowa order distributes milk into the Eastern Colorado order from its plant at North Platte which is in the proposed Central pricing zone.

The receiving station of the Nebraska-Iowa Nonstock Cooperative Association at Grand Island qualified as a pool supply plant under the Eastern Colorado order through shipments from that plant during the fall of 1963. (Official notice is taken of the market administrator's 1963 bulletins for Federal Order No. 137.) During this same period a number of the cooperative's members located in western Nebraska shipped their milk directly to Eastern Colorado pool plants and thereby qualified as producers under that order.

It is evident, therefore, that there must be proper alignment of prices between handlers located in western Nebraska and those regulated under the Eastern Colorado order. If the Nebraska prices are too low relative to those in Eastern Colorado, Order 137 handlers would be at a competitive disadvantage for sales within their own marketing area. Also dairy farmers who constitute the local supply for western Nebraska handlers would be encouraged to become associated with the Eastern Colorado pool to take advantage of the higher prices.

A differential of $1.80 over the basic formula at Scottsbluff would result in a Class I price at an Order 65 pool plant at that location almost identical to the Class I which would be applicable at such plant if it were fully regulated under the Eastern Colorado order. The proposed differential of $1.55 at North Platte would result in handlers in this area being on an approximately equal competitive basis with Scottsbluff handlers in the cost of milk delivered to Scottsbluff. At the same time handlers in this $1.55 zone will not be at a disadvantage with Grand Island distributors because these handlers will have incurred additional transportation costs in delivering milk to North Platte.

The distribution from the plant at North Platte is greater in the areas where an increase in the Class I price is proposed than its eastward distribution. The handler operating this plant also operates a pool plant at Lincoln so that he may minimize any competitive disadvantage with respect to eastward sales from his North Platte plant.

The supply of milk at North Platte has not been adequate to fulfill Class I needs plus a reasonable reserve. The cooperative has found it necessary to transfer milk from its Grand Island receiving station to the plant at North Platte. A realignment of prices at this location is thus necessary. The proposed increase should tend to attract an adequate supply of milk in this area.

Handlers in the western part of the State opposed the proposed increase in the Class I price. When North Platte and Grand Island were regulated under the Platte Valley marketing order before its merger with the Omaha-Council Bluffs-Lincoln order the price was 10 cents higher than the price at Omaha. Subsequently such price was reduced to the same level as the Class I price in Omaha.

Decisions issued in 1958 (23 F.R. 948) and 1961 (26 F.R. 9717) denied proposals that the Class I price at North Platte be higher than the Omaha Class I price. The reason given for the 1958 denial was that North Platte plants had substantial eastward distribution and they would, therefore, be at a competitive disadvantage with respect to such sales. In 1961 it was concluded that no increase was appropriate since prices equal to those in Omaha had attracted an adequate supply of milk.

There have been a number of significant changes since the evidence on which these decisions were based was received. The Eastern Colorado milk order is now in effect. The Class I price under this order is $.70 higher than the Class I price applicable at North Platte. This higher price has resulted in producers located in western Nebraska shipping their milk to Eastern Colorado pool plants. The association has found it economical to transfer milk from its Grand Island plant to Denver handlers at the Order No. 137 Class I price, while at the same time paying the Nebraska-Western Iowa Class I price for milk imported from Minnesota to supply handlers in the Omaha-Lincoln area. Also packaged products are being distributed in the Eastern Colorado marketing area from a plant located at North Platte.

A representative of the Denver Milk Producers, Inc., a cooperative representing a majority of the producers in the Eastern Colorado market, proposed a

differential of $1.715 at North Platte. He stated that this price would be necessary to bring about Class I price alignment between North Platte and Denver. The competition for sales in the North Platte zone is mainly between local handlers and those in the Grand Island area, while the volume of sales by the North Platte handler into the Eastern Colorado marketing area is comparatively small. Adoption of a differential higher than $1.55 in the North Platte zone would place these handlers at a serious disadvantage with their major competitors and is therefore not appropriate.

As noted above the proposed differentials at North Platte, Chadron and Scottsbluff recognize the additional transportation cost which would be necessary to deliver supplemental milk to these points rather than to Omaha from the usual sources of such milk. During certain months of 1963 and 1964 the major cooperative found it necessary to import supplemental milk. This milk was obtained from sources in Iowa, Minnesota and Wisconsin and supplied to handlers in Omaha and Lincoln, Nebraska. At times when milk is in short supply, the cooperative has redirected bulk tank routes normally received at its Grand Island receiving station for transfer to plants in the Omaha and Lincoln areas to plants in the western part of the State. Otherwise it might have been necessary to import milk to supply these plants. It is obviously more economical to have supplemental milk from Minnesota received at Omaha or Lincoln instead of North Platte.

The proposed Class I differentials would result in substantial equity among all handlers competing for sales in the major population centers in the marketing area. The proposed conforming change in uniform prices to producers would also tend to assure handlers that an adequate supply of milk will continue to be available locally.

7. *Location adjustments.* The present order provides that Class I and uniform prices at pool plants located more than 80 miles from certain specified points in the marketing area shall be reduced 12 cents plus an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 90 miles.

This provision should be continued. Because of the expansion of the marketing area and the establishment of pricing zones within the marketing area, it is necessary that additional basing points be established and that the prices effective at the affected plant be those which are applicable at the nearest basing point subject to the appropriate adjustment.

Chadron and Scottsbluff should be added as basing points in the Western zone, and Norfolk should be substituted for Columbus as a basing point in the Eastern zone.

At the present time there are no plants located outside the defined zones which would qualify as pool plants under the order.

Scottsbluff is the major population center in the Western zone. Chadron is the largest city in the northern portion of this zone. Use of these two cities will establish a better balance in the pricing pattern than would the use of a single basing point in the Western zone.

For the same reason Norfolk has been substituted for Columbus as one of the basing points in the Eastern zone. There are no pool plants in Columbus, which is located in the same general area as Grand Island, Lincoln and Omaha. Norfolk is directly north of Columbus. It contains two pool plants as well as the surplus disposal plant operated by the cooperative association. Using it as a basing point will give more balance since it will distribute the basing points more uniformly throughout the marketing area. Its use will not affect prices at any pool plant nor at either of the two plants in Iowa which are presently subject to partial regulation under the order.

8. *Payments to cooperative associations.* The order should be amended to provide that handlers pay a cooperative association at the class prices rather than at the uniform price for milk received from the cooperative association in its capacity as the handler for its members' milk.

From the inception of the original Omaha-Council Bluffs order in April 1939 until November 1961, a cooperative association was the handler for all its member milk. Handlers paid the cooperative association at the class prices and the cooperative association settled with the market administrator through the producer-settlement fund. Since November 1961, handlers have settled directly with the market administrator and the cooperative associations have received the uniform price for their member milk.

The major cooperative association, after three years experience under the present procedure, feels that its marketing efficiency has been impaired. When handlers purchase milk at class prices rather than at the uniform price the association is much better informed as to the fluid needs of the handlers in the market. It is thus in a better position to distribute available supplies among handlers to meet their individual requirements. Since this association represents approximately 95 percent of the producers on the present market, and 85 percent of the producers in the area proposed to be added to the market, the ability of the cooperative association to shift its member milk to the best advantage is of extreme importance to the economy and efficiency of the entire market.

Adoption of this provision will in no way affect handlers' costs for milk. It will result only in their paying the entire cost of their milk to the cooperative association, rather than paying part to the cooperative association and part to the producer-settlement fund in the case of high utilization handlers, or in the case of low utilization handlers, paying the cooperative association more than the use of value of their milk and being reimbursed from the producer-settlement fund.

9. *Conforming changes.* Because of the extensive nature of the amendments discussed above it has been necessary to revise other sections of the order to make them conform to the recommended amendments. Such changes, however, are not substantial and will not affect the order as it applies to handlers and producers.

Addition of the eleven counties to the marketing area would require a conforming change in the basing points provided in the transfer provisions. The order presently requires skim milk and butterfat in the form of bulk fluid milk products be Class I if transferred or diverted to a nonpool plant located more than 200 miles from the nearer of Omaha or North Platte. In the past surplus milk from the Scottsbluff area has been moved to Johnstown, Colorado, for manufacturing purposes. To accommodate the orderly disposition of surplus milk in this portion of the marketing area, Scottsbluff should be added as a basing point for determining the nonpool plants at which transfers or diversions may be accounted for at less than Class I.

It is further concluded that the order as modified by the amendments above recommended is a proper instrument for regulation of the marketing of milk in the eleven counties to be added to the marketing area.

*Rulings on proposed findings and conclusions.* Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

*General findings.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

*Recommended marketing agreement and order amending the order.* The following order amending the order as amended regulating the handling of milk in the Nebraska-Western Iowa marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

AUTHORITY: The provisions of this Part 1065 issued under secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

DEFINITIONS

**§ 1065.1 Act.**

"Act" means Public Act No. 10, 73d Congress, as amended, and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

**§ 1065.2 Secretary.**

"Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

**§ 1065.3 Department.**

"Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

**§ 1065.4 Person.**

"Person" means any individual, partnership, corporation, association, or any other business unit.

**§ 1065.5 Cooperative association.**

"Cooperative association" means any cooperative marketing association which the Secretary determines, after application of the association:

(a) Is qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) Has full authority in the sale of milk of its members and is engaged in making collective sales of, or marketing, milk or its products for its members;

(c) Has its entire activities under the control of its members.

**§ 1065.6 Nebraska-Western Iowa marketing area.**

The Nebraska-Western Iowa marketing area, hereinafter called "marketing area" means all the territory within the counties and townships enumerated below, together with all territory within the boundaries so designated which is occupied by Government (municipal, State or Federal) reservations, installations, institutions or other establishments:

(a) *Eastern zone.* The counties of Harrison and Mills and the townships of Boomer, Crescent, Garner, Hardin, Hazel Dell, Kane, Keg Creek, Lake, Lewis, Minden, Neola, Norwalk, Rockford, Silver Creek, Washington and York in Pottawattamie County, all in the State of Iowa, and the counties of Adams, Boone, Buffalo, Burt, Butler, Cass, Clay, Colfax, Cuming, Custer, Dodge, Douglas, Fillmore, Franklin, Gage, Greeley, Hall, Hamilton, Harlan, Howard, Jefferson, Johnson, Kearney, Lancaster, Madison, Merrick, Nance, Nemaha, Nuckolls, Phelps, Otoe, Platte, Polk, Saline, Sarpy, Saunders, Seward, Sherman, Stanton, Thayer, Washington, Wayne, Webster, Valley, and York, all in the State of Nebraska;

(b) *Central zone.* The counties of Dawson, Frontier, Furnas, Gosper, Keith, Lincoln and Red Willow, all in the State of Nebraska;

(c) *Western zone.* The counties of Banner, Box Butte, Cheyenne, Dawes, Deuel, Garden, Kimball, Morrill, Scotts Bluff, Sheridan, and Sioux, all in the State of Nebraska.

**§ 1065.7 Producer.**

"Producer" means any person, other than a producer-handler as defined in any order (including this part) issued pursuant to the Act, who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority and whose milk is (a) received at a pool plant, or (b) diverted as producer milk pursuant to § 1065.14.

**§ 1065.8 Handler.**

"Handler" means:

(a) Any person who operates a pool plant. In case a corporation with recognized divisions which are operated as separate business units operates two or more pool plants, each such division shall be the handler with respect to the pool plant(s) it operates;

(b) Any person who operates a partially regulated distributing plant;

(c) Any cooperative association with respect to milk of its member producers which is diverted from a pool plant to a nonpool plant for the account of such association;

(d) A cooperative association with respect to milk of its member producers which is delivered from the farm to the pool plant of another handler in a tank truck owned and operated by, or under contract to, such cooperative association if the cooperative association notifies the market administrator and the handler to whom the milk is delivered, in writing prior to the first day of the month in which the milk is delivered, that it wishes to be the handler for the milk. In this case, the milk is received from producers by the cooperative association at the location of the plant to which it is delivered; and

(e) A producer-handler, or any person who operates an other order plant described in § 1065.61.

**§ 1065.9 Producer-handler.**

"Producer-handler" means any person who is both a dairy farmer and the operator of a distributing plant, and who

meets the qualifications specified in paragraphs (a) and (b) of this section;

(a) Receipts of fluid milk products at his plant are solely milk of his own production and from pool plants of other handlers; and

(b) The maintenance, care and management of the dairy animals and other resources necessary to produce the milk and the processing, packaging and distribution of the milk are the personal enterprise and the personal risk of such person.

**§ 1065.10 Distributing plant.**

"Distributing plant" means a plant which is approved by an appropriate health authority for the processing or packaging of Grade A milk and from which any fluid milk product is disposed of during the month on routes in the marketing area.

**§ 1065.11 Supply plant.**

"Supply plant" means a plant from which milk, skim milk, or cream, acceptable to an appropriate health authority for distribution in the marketing area under a Grade A label, is shipped during the month to a pool plant qualified pursuant to § 1065.12.

**§ 1065.12 Pool plant.**

"Pool plant" means a plant, other than that of a producer-handler or a handler partially exempt pursuant to § 1065.61, described in paragraph (a) or (b) of this section. If a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(a) A distributing plant from which a volume of Class I milk equal to not less than 50 percent of the Grade A milk received at such plant from dairy farmers, supply plants (exclusive of plants qualifying as pool plants pursuant to this paragraph), and cooperative associations pursuant to § 1065.8(d), is disposed of during the month on routes and not less than 15 percent of such receipts are so disposed of in the marketing area; and

(b) A supply plant from which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 50 percent of the Grade A milk received at such plant from dairy farmers and cooperative associations pursuant to § 1065.8(d) during such month. A supply plant that qualifies as a pool plant in each of the immediately preceding months of August through December shall be a pool plant for the succeeding months of January through July, unless the plant operator requests the market administrator, in writing, that such plant not be a pool plant, such nonpool plant status to be effective the first month following such notice and thereafter until the plant again qualifies as a pool plant on the basis of shipments.

**§ 1065.13 Nonpool plant.**

"Nonpool plant" means any milk receiving, manufacturing or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products labeled Grade A in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is a supply plant and is neither an other order plant nor a producer-handler plant.

**§ 1065.14 Producer milk.**

"Producer milk" of each handler means all skim milk and butterfat produced by producers:

(a) With respect to receipts at a pool plant:

(1) Received directly from such producers; and

(2) Diverted from such pool plant to a nonpool plant for the account of the operator of the pool plant, subject to the limitations and conditions of paragraph (c) of this section;

(b) With respect to receipts of a cooperative association:

(1) For which such cooperative association is the handler pursuant to § 1065.8(c), subject to the limitations and conditions of paragraph (c) of this section; and

(2) For which the cooperative association is the handler pursuant to § 1065.8(d);

(c) With respect to diversions to nonpool plants pursuant to paragraphs (a)(2) and (b)(1) of this section:

(1) Such diversions may be without limit during the months of March through June, but may not be more than 50 percent of the total production of any producer during any other month and milk diverted in excess of this limit shall not be producer milk; and

(2) For the purpose of location adjustments pursuant to §§ 1065.53 and 1065.73, milk so diverted shall be priced at the location of the plant to which diverted.

**§ 1065.15 Other source milk.**

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts during the month in the form of fluid milk products, except (1) fluid milk products received from pool plants, (2) producer milk, or (3) inventory at the beginning of the month; and

(b) Products other than fluid milk products (except cottage cheese from pool plants) from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month, and any disappearance of products other than fluid milk products capable of being converted into fluid milk products and not otherwise accounted for pursuant to § 1065.33.

**§ 1065.16 Fluid milk product.**

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk, yogurt, milk drinks (plain or flavored), concentrated milk (frozen or fresh), cream, cultured or sour cream or any mixture in fluid form of milk or skim milk and cream (except frozen cream, aerated cream products, ice cream mix, frozen dessert mixes, eggnog, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers).

**§ 1065.17 Route.**

"Route" means any delivery (including delivery by a vendor or through a distribution point, or sale from a plant store) of a fluid milk product to retail or wholesale outlets other than a delivery (a) in bulk to a milk plant, or (b) to a food processing plant pursuant to § 1065.41(c)(4).

**§ 1065.18 Butter price.**

"Butter price" means the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month.

MARKET ADMINISTRATOR

**§ 1065.20 Designation.**

The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

**§ 1065.21 Powers.**

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

**§ 1065.22 Duties.**

The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with satisfactory surety

thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 1065.86 the cost of his bond and the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 1065.85, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such person as the Secretary may designate;

(f) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports or payments required by this part;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Prepare and disseminate publicly such statistics and information as he deems advisable and as do not reveal confidential information;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records and facilities of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends;

(j) On or before the 12th day after the end of the month, report to each cooperative association, which so requests, the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class;

(k) Publicly announce and notify each handler in writing on or before: (1) The 10th day of each month, the Class I milk price pursuant to § 1065.51(a) and the Class I butterfat differential pursuant to § 1065.52(a) for the current month, and the Class II and Class III prices pursuant to § 1065.51 (b) and (c) and the Class II and Class III butterfat differential pursuant to § 1065.52(b) for the preceding month; and (2) the 12th day after the end of each month, the uniform price pursuant to § 1065.71, and the butterfat differential to be paid pursuant to § 1065.72;

(l) Whenever required for purpose of allocating receipts from other order plants pursuant to § 1065.46(a)(8) and the corresponding step of § 1065.46(b), the market administrator shall estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose;

(m) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products from an other order plant, the classification to which such receipts are allocated pursuant to § 1065.46 pursuant to such report, and thereafter any change in such allocation required to correct errors disclosed in verification of such report; and

(n) Furnish to each handler operating a pool plant who has shipped fluid milk products to an other order plant, the classification to which the skim milk and butterfat in such fluid milk products were allocated by the market administrator of the other order on the basis of the report of the receiving handler; and, as necessary, any changes in such classification arising in the verification of such report.

REPORTS, RECORDS AND FACILITIES

**§ 1065.30 Reports of receipts and utilization.**

On or before the 7th day, excluding holidays, after the end of each month each handler shall report to the market administrator for such month in the detail and on forms prescribed by the market administrator as follows:

(a) Each handler operating pool plants shall report the quantities of skim milk or butterfat in:

(1) Receipts at each such plant in:

(i) Producer milk;

(ii) Milk received from cooperative associations pursuant to § 1065.8(d);

(iii) Fluid milk products received from other pool plants; and

(iv) Other source milk;

(2) Opening inventories of fluid milk products;

(3) The utilization in each class of the quantities required to be reported; and

(4) Such other information with respect to receipts and utilization as the market administrator may request;

(b) Each handler specified in § 1065.8(b) who operates a partially regulated distributing plant shall report as required in paragraph (a) of this section, except that receipts in Grade A milk shall be reported in lieu of those in producer milk; such report shall include a separate statement showing the respective amounts of skim milk and butterfat disposed of on routes (other than to pool plants) in the marketing area as Class I milk;

(c) Each cooperative association shall report with respect to milk for which it is a handler pursuant to § 1065.8 (c) or (d) as follows:

(1) Receipts of skim milk and butterfat in producer milk;

(2) Utilization of milk for which it is the handler pursuant to § 1065.8(c);

(3) The quantities delivered to each pool plant of another handler pursuant to § 1065.8(d); and

(4) Such other information as the market administrator may require.

**§ 1065.31 Payroll reports.**

On or before the 20th day of each month, each handler except one exempt pursuant to § 1065.61 or one making payments pursuant to § 1065.62(b), shall submit to the market administrator his producer payroll (or in the case of a handler making payments pursuant to § 1065.62(a), his payroll for dairy farmers delivering Grade A milk) which shall show for each producer:

(a) The name and address of the producer, dairy farmer or cooperative association;

(b) The total pounds of milk received and the average butterfat content thereof;

(c) The location at which received and, for each producer whose milk was diverted to a nonpool plant, the total pounds of milk diverted and the location of the nonpool plant; and

(d) The price, amount and date of payment with the nature and amount of any deductions.

**§ 1065.32 Other reports.**

Each producer-handler and each handler exempt from regulation pursuant to §§ 1065.61 and 1065.62(b) shall make reports to the market administrator at such time and in such manner as the market administrator may request.

**§ 1065.33 Records and facilities.**

Each handler shall maintain and make available to the market administrator, or his representative, during the usual hours of business, such accounts and records of his operations, including those of any other person upon whose utilization the classification of milk depends and such facilities as, in the opinion of the market administrator, are necessary to verify or to establish the correct data with respect to:

(a) The receipts and utilization in whatever form of all skim milk and butterfat required to be reported pursuant to § 1065.30;

(b) The weights and tests for butterfat and other contents of all milk and milk products received or utilized; and

(c) Payments to producers or cooperative associations.

**§ 1065.34 Retention of records.**

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period the market administrator notifies the handler in writing that the retention of such records or of specific books and records is necessary in connection with the proceedings under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such books and records or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

**§ 1065.40 Skim milk and butterfat to be classified.**

The skim milk and butterfat which are required to be reported pursuant to § 1065.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 1065.41 through 1065.46. If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk used or disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

**§ 1065.41 Classes of utilization.**

Subject to the conditions set forth in §§ 1065.43 through 1065.46 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product (including those reconstituted) except:

(i) Any product fortified with added solids shall be Class I in an amount equal only to the weight of an equal volume of a like unmodified product of the same butterfat content; and

(ii) As classified pursuant to paragraph (c) (2), (3) and (4) of this section; or

(2) Not specifically accounted for as Class II or as Class III.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat used to produce cottage cheese except as classified pursuant to paragraph (c)(2) and (3) of this section.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product or a Class II product;

(2) In fluid milk products or cottage cheese disposed of in bulk form for livestock feed;

(3) In fluid milk products or cottage cheese dumped after prior notification to and opportunity for verification by the market administrator;

(4) Disposed of in fluid milk products in bulk form to a commercial food processing establishment for use in food products prepared for consumption off the premises;

(5) Used to produce frozen cream;

(6) Contained in inventory of fluid milk products on hand at the end of the month;

(7) The weight of skim milk in fluid milk products which is excepted from Class I milk pursuant to paragraph (a)(1)(i) of this section;

(8) In shrinkage of skim milk and butterfat, respectively, assigned pursuant to § 1065.42(b)(1), but not to exceed the following:

(i) Two percent of milk received directly from producers; plus

(ii) One and one-half percent of milk received in bulk tank lots from pool plants of other handler; plus

(iii) One and one-half percent of milk received from a cooperative association which is the handler for such milk pursuant to § 1065.8(d), except that if the handler operating the pool plant files notice with the market administrator that he is purchasing such milk on the basis of farm weights, the applicable percentage shall be two percent; plus

(iv) One and one-half percent of receipts of fluid milk products in bulk from an other order plant, exclusive of the quantity for which Class II utilization was requested by the operator of such plant and the handler; plus

(v) One and one-half percent of receipts of fluid milk products in bulk from unregulated supply plants, exclusive of the quantity for which Class II utilization was requested by the handler; less

(vi) One and one-half percent of milk disposed of in bulk tank lots to plants of other handlers (except that in the case of a cooperative association which is a handler pursuant to § 1065.8(d) when the exception specified in subdivision (iii) of this subparagraph applies, the applicable percentage shall be two percent) and to nonpool plants; and

(9) In shrinkage of skim milk and butterfat, respectively, assigned pursuant to § 1065.42(b)(2).

**§ 1065.42 Shrinkage.**

The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Prorate the resulting amount between: (1) Skim milk and butterfat in amounts respectively equal to 50 times the maximum amount that may be computed pursuant to § 1065.41(c)(8); and (2) skim milk and butterfat in other source milk received in the form of fluid milk products, exclusive of that specified in § 1065.41(c)(8).

**§ 1065.43 Responsibility of handlers and reclassification of milk.**

(a) All skim milk and butterfat shall be Class I milk unless the handler who received such skim milk or butterfat from producers or cooperative associations can establish to the satisfaction of the market administrator that such skim milk or butterfat should be classified otherwise; and

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

**§ 1065.44 Transfers.**

Skim milk or butterfat in the form of a fluid milk product shall be classified:

(a) At the utilization indicated by the operators of both plants, otherwise as Class I milk, if transferred from a pool plant to the pool plant of another handler, subject to the following conditions:

(1) The skim milk or butterfat so assigned to any class shall be limited to the amount thereof remaining in such class in the plant(s) of the transferee handler after computations pursuant to § 1065.46(a)(8) and the corresponding step of § 1065.46(b);

(2) If the transferor handler received during the month other source milk to be allocated pursuant to § 1065.46(a)(3) and the corresponding step of § 1065.46(b), the skim milk and butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor handler received during the month other source milk to be allocated pursuant to § 1065.46(a)(7) or (8) and the corresponding steps of § 1065.46(b), the skim milk and butterfat so transferred up to the total of such receipts shall not be classified as Class I milk to a greater extent than would be applicable to a like quantity of such other source milk received at the transferee plant;

(b) As Class I milk, if transferred from a pool plant to a producer-handler;

(c) As Class I milk, if transferred or diverted to a nonpool plant that is neither an other order plant nor a producer-handler plant, located more than 200 miles by the shortest highway distance as determined by the market administrator, from the nearest of the City Halls of Omaha, North Platte, or Scottsbluff, Nebraska, and more than 50 miles from the pool plant from which transferred or diverted, except that cream so transferred may be classified as Class III if notice is given to the market administrator at least 24 hours prior to shipment, each container is labeled by the transferor as "ungraded cream for manufacturing only", and such shipment is so invoiced;

(d) As Class I milk, if transferred or diverted in bulk to a nonpool plant that is neither an other order plant nor a producer-handler plant, located not more than 200 miles, by the shortest highway distance as determined by the market administrator, from the nearest of the City Halls of Omaha, North Platte, or Scottsbluff, Nebraska, or within 50 miles of the pool plant from which transferred or diverted, unless the requirements of subparagraphs (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

(1) The transferring or diverting handler claims classification pursuant to the assignment set forth in subparagraph (3) of this paragraph in his report submitted to the market administrator pursuant to § 1065.30 for the month within which such transaction occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat so transferred shall be classified on the basis of the following assignment of utilization at such nonpool plant in excess of receipts of packaged fluid milk products from all pool plants and other order plants:

(i) Any Class I utilization disposed of on routes in the marketing area shall be first assigned to the skim milk and butterfat in the fluid milk products so transferred or diverted from pool plants, next pro rata to receipts from other order plants and thereafter to receipts from dairy farmers who the market administrator determines constitute regular

sources of supply of Grade A milk for such nonpool plant;

(ii) Any Class I utilization disposed of on routes in the marketing area of another order issued pursuant to the Act shall be first assigned to receipts from plants fully regulated by such order, next pro rata to receipts from pool plants and other order plants not regulated by such order and thereafter to receipts from dairy farmers who the market administrator determines constitute regular sources of supply for such nonpool plant;

(iii) Class I utilization in excess of that assigned pursuant to subdivisions (i) and (ii) of this subparagraph shall be assigned first to remaining receipts from dairy farmers who the market administrator determines constitute the regular source of supply for such nonpool plant and Class I utilization in excess of such receipts shall be assigned pro rata to unassigned receipts at such nonpool plant from all pool and other order plants; and

(iv) To the extent that Class I utilization is not so assigned to it, the skim milk and butterfat so transferred shall be classified as Class III milk;

(e) Skim milk and butterfat transferred to the pool plant of another handler by a cooperative association which is the handler of such milk pursuant to § 1065.8(d) shall be classified pro rata to the respective amounts thereof remaining in each class for such month in the pool plant of the receiving handler after the computation pursuant to § 1065.46(a)(9) and the corresponding step of § 1065.46(b); and

(f) As follows, if transferred to an other order plant in excess of receipts from such plant in the same category as described in subparagraph (1), (2) or (3) of this paragraph;

(1) If transferred in packaged form, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in classes to which allocated as a fluid milk product under the other order (including allocation under the conditions set forth in subparagraph (3) of this paragraph);

(3) If the operators of both the transferor and transferee plants so request in the reports of receipts and utilization filed with their respective market administrators, transfers in bulk form shall be classified as Class III to the extent of the Class III utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the transferee order;

(4) If information concerning the classification to which allocated under the other order is not available to the market administrator for purposes of establishing classification pursuant to this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For the purposes of this paragraph if the transferee order provides for only two classes of utilization, milk allocated to a class consisting primarily of fluid milk products shall be classified as Class I, and milk allocated to Class II under the other order shall be classified as Class III; and

(6) If the form in which any fluid milk product is transferred to an other order plant is not defined as a fluid milk product under such other order, classification shall be in accordance with the provisions of § 1065.41.

### § 1065.45 Computation of skim milk and butterfat in each class.

For each month the market administrator shall correct for mathematical and other obvious errors the reports submitted by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in each class for such handler.

### § 1065.46 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 1065.45, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III pursuant to § 1065.41(c)(8);

(2) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants as follows:

(i) From Class III milk, the lesser of the pounds remaining or two percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(3) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III the pounds of skim milk in each of the following:

(i) Other source milk in a form other than that of a fluid milk product;

(ii) Receipts of fluid milk products for which Grade A certification is not established, or which are from unidentified sources; and

(iii) Receipts of fluid milk products from a producer-handler, as defined under this or any other Federal order;

(4) Subtract, in the order specified below, in sequence beginning with Class III from the pounds of skim milk remaining in Classes II and III, but not in excess of such quantity:

(i) Receipts of fluid milk products from an unregulated supply plant:

(*a*) For which the handler requests Class II or Class III utilization; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants;

(ii) Receipts of fluid milk products in bulk from an other order plant in excess of similar transfers to such a plant, if Class II or Class III utilization was requested by the operator of such plant and the handler;

(5) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(6) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants which were not subtracted pursuant to subparagraph (4)(i) of this paragraph;

(8) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant(s), in excess in each case of similar transfers to the same plant, which were not subtracted pursuant to subparagraph (4)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1065.22(1) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from pool plants of other handlers according to the classification assigned pursuant to § 1065.44(a);

(10) Subtract pro rata from the pounds of skim milk remaining in each class the pounds of skim milk received in fluid milk products from a cooperative association in its capacity as a handler pursuant to § 1065.8(d); and

(11) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) Combine the amounts of skim milk and butterfat determined pursuant to paragraphs (a) and (b) of this section into one total for each class and determine the weighted average butterfat content of producer milk in each class.

## MINIMUM PRICES

### § 1065.50 Basic formula price.

The basic formula price shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Wisconsin and Minnesota, as reported by the Department for the month. Such price shall be adjusted to a 3.5 percent butterfat basis by a butterfat differential rounded to the nearest one-tenth cent computed at 0.12 times the Chicago butter price for the month. The basic formula price shall be rounded to the nearest full cent.

### § 1065.51 Class prices.

Subject to the provisions of §§ 1065.52 and 1065.53 the class prices per hundredweight shall be as follows:

(a) *Class I milk.* The basic formula price for the preceding month plus $1.40 for pool plants located in the Eastern zone; plus $1.55 in the Central zone; and plus $1.80 in the Western zone.

(b) *Class II milk.* The basic formula price for the month plus 15 cents.

(c) *Class III milk.* The basic formula price for the month.

### § 1065.52 Butterfat differentials to handlers.

For milk containing more or less than 3.5 percent butterfat, the class prices pursuant to § 1065.51 shall be increased or decreased, respectively, for each one-tenth of one percent of butterfat by the appropriate rate, rounded in each case to the nearest one-tenth cent, determined as follows:

(a) *Class I milk.* Multiply the butter price for the preceding month by 0.125; and

(b) *Class II and Class III milk.* Multiply the butter price for the current month by 0.115.

### § 1065.53 Location adjustment to handlers.

(a) For milk received from producers at a pool plant (or diverted to a nonpool plant) located outside the marketing area and disposed of as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section, and for other source milk for which a location adjustment is applicable, the Class I price shall be that effective pursuant to § 1065.51(a) at the nearest of the cities specified below, subject to a reduction of 12 cents if such plant is more than 80 miles from the city hall in such city, plus an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 90 miles: Chadron, Grand Island, Lincoln, Norfolk, North Platte, Omaha and Scottsbluff, all in the State of Nebraska.

(b) For purposes of calculating such adjustment transfers between pool plants shall be assigned Class I disposition at the transferee plant, in excess of the sum of receipts at such plant from producers and cooperative associations pursuant to § 1065.8(d), and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least adjustment would apply.

### § 1065.54 Use of equivalent prices.

If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

## APPLICATION OF PROVISIONS

### § 1065.60 Producer-handler.

Sections 1065.40 through 1065.46, 1065.50 through 1065.53, 1065.70 through 1065.73, and 1065.80 through 1065.87 shall not apply to a producer-handler.

### § 1065.61 Plants subject to other Federal orders.

Except for §§ 1065.32 through 1065.34 the provisions of this part shall not apply to a handler with respect to the operation of plants described as follows:

(a) A plant qualified pursuant to § 1065.12(a) from which a lesser volume of fluid milk products is disposed of in the Nebraska-Western Iowa marketing area than in the marketing area of another marketing agreement or order issued pursuant to the Act and which is fully subject to the classification and pricing provisions of such other agreement or order; and

(b) Any plant qualified pursuant to § 1065.12(b) for any portion of the period of January through July, inclusive, that producer milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act.

### § 1065.62 Obligations of handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1065.30(b) and 1065.31 the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1065.70 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class III milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk. There shall be included in the obligation so computed a charge in the amount specified in § 1065.70(e) and a credit in the amount specified in §1065.82(b)(2) with respect to receipts from an unregulated supply plant, unless an obligation with respect to such plant is computed as specified in subdivision (ii) of this subparagraph;

(ii) If the operator of the partially regulated distributing plant so requests, and provides with his reports pursuant to §§ 1065.30(b) and 1065.31 similar reports with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1065.12(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant;

(2) From this obligation there will be deducted the sum of:

(i) The gross payments made by such handler for Grade A milk received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph; and

(ii) Any payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as Class I milk on routes (other than to pool plants) in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received as Class I milk at the partially regulated distributing plant from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act;

(3) Combine the amounts of skim milk and butterfat remaining into one total and determine the weighted average butterfat content; and

(4) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location (not to be less than the Class III price).

## DETERMINATION OF PRICES TO PRODUCERS

### § 1065.70 Computation of the net pool obligation of each pool handler.

The net pool obligation of each pool handler during each month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class, as computed pursuant to § 1065.46(c), by the applicable class prices (adjusted pursuant to §§ 1065.52 and 1065.53).

(b) Add the amount obtained from multiplying the pounds of overage deducted from each class pursuant to § 1065.46(a)(11) and the corresponding step of § 1065.46(b) by the applicable class prices;

(c) Add the following:

(1) The amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1065.46(a)(5) and the corresponding step of § 1065.46(b); and

(2) The amount obtained from multiplying the difference between the Class III price for the preceding month and the Class II price for the current month by the lesser of:

(i) The pounds of skim milk and butterfat subtracted from Class II pursuant to § 1065.46(a)(5) and the corresponding step of § 1065.46(b) for the current month; or

(ii) The pounds of skim milk and butterfat remaining in Class III milk after the calculations pursuant to § 1065.46 (a)(8) and the corresponding step of § 1065.46(b) for the preceding month, less the pounds used in computation pursuant to subparagraph (1) of this paragraph;

(d) Add an amount equal to the difference between the value at the Class I price applicable at the pool plant and the value at the Class III price, with respect to skim milk and butterfat in other source milk subtracted from Class I pursuant to § 1065.46(a)(3) and the corresponding step of § 1065.46(b); and

(e) Add an amount equal to the value at the Class I price, adjusted for location of the nearest nonpool plant(s) from which an equivalent volume was received, with respect to skim milk and butterfat subtracted from Class I pursuant to § 1065.46(a)(7) and the corresponding step of § 1065.46(b).

**§ 1065.71 Computation of uniform prices.**

For each month the market administrator shall compute the uniform price per hundredweight of milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1065.70 for all handlers who filed the reports prescribed by § 1065.30 for the month and who made the payments pursuant to §§ 1065.80 and 1065.82 for the preceding month;

(b) Subtract an amount equal to the total value of the plus location differentials computed pursuant to § 1065.73 (a) and (b);

(c) Add an amount equal to the total value of the minus location differentials computed pursuant to § 1065.73(b);

(d) Subtract, if the average butterfat content of the milk specified in paragraph (f) of this section is more than 3.5 percent, or add, if such butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 1065.72 and multiplying the result by the total hundredweight of such milk;

(e) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(f) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk;

(2) The total hundredweight for which a value is computed pursuant to § 1065.70(e);

(g) Subtract not less than four cents nor more than five cents per hundredweight. The result shall be the "weighted average price," and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(h) For the months specified in paragraphs (i) and (j) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (e) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (f)(2) of this section by the weighted average price;

(i) Subtract during each of the months of April, May and June, an amount equal to eight percent of the remainder;

(j) Add during each of the months of September, October and November, one-third of the total amount subtracted pursuant to paragraph (i) of this section;

(k) Divide the resulting sum by the total hundredweight of producer milk included in these computations; and

(l) Subtract not less than four cents nor more than five cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

**§ 1065.72 Butterfat differential to producers.**

The uniform price for producer milk shall be increased or decreased for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 percent, respectively, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 1065.52, weighted by the pounds of butterfat in producer milk in each class, the result being rounded to the nearest tenth of a cent.

**§ 1065.73 Location differentials to producers and on nonpool milk.**

(a) The uniform price computed pursuant to § 1065.71 shall be increased 15 cents per hundredweight for producer milk received at a pool plant in the Central zone and shall be increased 40 cents per hundredweight at pool plants in the Western zone.

(b) For producer milk received at a pool plant or diverted to a nonpool plant located outside the marketing area and more than 80 miles from the nearest city listed below the uniform price otherwise applicable at such city shall be reduced at the rates set forth in § 1065.53: Chadron, Grand Island, Lincoln, Norfolk, North Platte, Omaha and Scottsbluff, all in the State of Nebraska.

(c) For purposes of computations pursuant to §§ 1065.82 and 1065.83 the weighted average price shall be adjusted at the rates set forth in § 1065.53 applicable at the location of the nonpool plant from which the milk was received.

**§ 1065.74 Notification of handlers.**

On or before the 12th day of each month the market administrator shall notify each handler of:

(a) The amount and value of his milk in each class computed pursuant to §§ 1065.46 and 1065.70;

(b) The uniform price computed pursuant to § 1065.71;

(c) The amount, if any, due such handler from the producer-settlement fund; and

(d) The total amounts to be paid by such handler pursuant to §§ 1065.82, 1065.85 and 1065.86.

PAYMENTS

**§ 1065.80 Time and method of payment.**

Each handler shall make payment as follows:

(a) On or before the 15th day after the end of each month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) or (d) of this section, at not less than the applicable uniform price pursuant to §§ 1065.71, 1065.72, and 1065.73 and less the following amounts:

(1) The payments made pursuant to paragraph (b) of this section;

(2) Marketing service deductions pursuant to § 1065.85; and

(3) Any proper deductions authorized by the producer: *Provided*, That, if by such date such handler has not received full payment for such month pursuant to § 1065.83, he may reduce his total payment to all producers uniformly by not more than the amount of reduction in payment from the market administrator; the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipt of the balance from the market administrator;

(b) On or before the 27th day of each month to each producer:

(1) For whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) or (d) of this section; and

(2) Who had not discontinued shipping milk to such handler, an advance payment with respect to milk received from such producer during the first 15 days of the month an amount per hundredweight not to be less than the uniform price for the preceding month;

(c) To a cooperative association which has filed a written request for such payment with such handler and with respect to producers for whose milk the market administrator determines such cooperative association is authorized to collect payment as follows:

(1) On or before the 26th day of the month, an amount not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (b) of this section, less any deductions authorized in writing by such cooperative association;

(2) On or before the 14th day after the end of each month an amount not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (a) of this section, less proper deductions authorized in writing by such cooperative association;

(d) To a cooperative association with respect to receipts of milk for which such cooperative association is the handler pursuant to § 1065.8(d) as follows:

(1) On or before the 26th day of the month, for milk received during the first 15 days of the month an amount per hundredweight equal to not less than the weighted average price for the preceding month; and

(2) On or before the 14th day after the end of each month not less than the value of such milk at the applicable class prices, less payment made pursuant to subparagraph (1) of this paragraph;

(e) In making payments to producers pursuant to paragraphs (a) and (c) of this section, each handler shall furnish each producer or cooperative association with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The month and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 1065.71, 1065.72 and 1065.73;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and § 1065.85 together with a description of the respective deductions; and

(6) The net amount of payment to the producer; and

(f) Nothing in this section shall abrogate the right of a cooperative association to make payments to its member producers in accordance with the payment plan of such cooperative association.

**§ 1065.81 Producer-settlement fund.**

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1065.62 (a) and (b), 1065.82 and 1065.84 and out of which he shall make all payments to handlers pursuant to §§ 1065.83 and 1065.84.

**§ 1065.82 Payments to the producer-settlement fund.**

On or before the 13th day after the end of the month each handler shall pay to the market administrator the amount, if any, by which the total amounts specified in paragraph (a) of this section exceed the amounts specified in paragraph (b) of this section:

(a) The total of the net pool obligation computed pursuant to § 1065.70 for such handler;

(b) The sum of:

(1) The value of such handler's producer milk at the applicable uniform prices specified in § 1065.80; and

(2) The value at the weighted average price(s) applicable at the location of the plant(s), from which received (not to be less than the value at the Class III price) with respect to other source milk for which a value is computed pursuant to § 1065.70(e).

**§ 1065.83 Payments out of the producer-settlement fund.**

On or before the 14th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1065.82(b) exceeds the amount computed pursuant to § 1065.82(a). The market administrator shall offset any payment due any handler against payments due from such handler.

**§ 1065.84 Adjustment of accounts.**

Adjustments of accounts shall be made as follows:

(a) Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to or from the producer-settlement fund pursuant to §§ 1065.82 and 1065.83, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within five days, make payment to the market administrator of the account so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within five days, make such payment to such handler; and

(b) Whenever verification by the market administrator of the payments by a handler to any producer or cooperative association, discloses payments of less than is required by § 1065.80, the handler shall make up such payment to the producer or cooperative association not later than the time of making payments next following such disclosure.

**§ 1065.85 Marketing services.**

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1065.80 shall deduct six cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to producer milk received by such handler (except such handler's own farm production) during the month and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such service shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him; and

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

**§ 1065.86 Expense of administration.**

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 14th day after the end of the month three cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to (a) producer milk (including that classified pursuant to § 1065.44(e)) and such handler's own production, (b) other source milk allocated to Class I pursuant to § 1065.46(a)(3) and (7) and the corresponding steps of § 1065.46(b), and (c) Class I milk disposed of from a partially regulated distributing plant on routes in the marketing area that exceeds Class I milk received during the month at such plant from pool plants and other order plants.

**§ 1065.87 Termination of obligations.**

The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service if such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists was received or handled; and

(3) If the obligation is payable to one or more producer(s) or association of producers, the names of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(b) If a handler fails or refuses with respect to any obligation under this part, to make available to the market administrator or his representative all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies the handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, or the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received

if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

**§ 1065.90 Effective time.**

The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 1065.91.

**§ 1065.91 Suspension or termination.**

The Secretary may suspend or terminate this part or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the Act. This part shall terminate in any event whenever the provisions of the Act authorizing it cease to be in effect.

**§ 1065.92 Continuing obligations.**

If, upon suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person (including the market administrator) such further acts shall be performed notwithstanding such suspension or termination.

**§ 1065.93 Liquidation.**

Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

**§ 1065.94 Agents.**

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

**§ 1065.95 Separability of provisions.**

If any provision of this part, or its application to any person or circumstances is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Signed at Washington, D.C., on December 4, 1964.

CLARENCE H. GIRARD,
*Deputy Administrator,*
*Regulatory Programs.*

# ATOMIC ENERGY COMMISSION

**[ 10 CFR Part 2 ]**

## EXPORT LICENSES FOR FACILITIES

### Proposed Notice Requirements

The Commission's rules of practice, 10 CFR Part 2, presently require publication in the FEDERAL REGISTER of notice of the following matters concerning a license, including an export license, for a production or utilization facility, such as a reactor:

1. Notice of receipt of an application for a license, § 2.101(b);

2. Notice of proposed action with respect to an application, § 2.105(a)(1); and

3. Notice of the issuance of a license or an amendment of a license, § 2.106(a)(1) and (2).

Issuance of a license solely to authorize the export of a facility involves only the question of whether the license is within the scope of and consistent with the terms of an "agreement for cooperation" with a nation to whom the facility is to be exported. An "agreement for cooperation" with a nation or group of nations requires a prior determination by the President that performance of the proposed agreement will promote and will not constitute an unreasonable risk to the common defence and security.

In view of these considerations, no useful purpose would appear to be served by the notice requirements of 10 CFR Part 2 with respect to facility licenses authorizing export only. The proposed amendments set forth below would delete such requirements.

Notice is hereby given that adoption of the following amendments to 10 CFR Part 2 is contemplated. All interested persons who desire to submit written comments and suggestions for consideration in connection with the proposed amendments should send them in triplicate to the Secretary, U.S. Atomic Energy Commission, Washington, D.C., 20545, within 30 days after publication of this notice in the FEDERAL REGISTER. Comments received after that period will be considered if it is practicable to do so, but assurance of consideration cannot be given except as to comments filed within the period specified.

**§ 2.101 [Amended]**

1. Paragraph (b) of § 2.101 is amended by adding the following sentence at the end thereof: "The requirements of this paragraph do not apply to an application for a license solely to authorize the export of a facility."

2. Subparagraph (1) of § 2.105(a) is amended to read as follows:

**§ 2.105 Notice of proposed action.**

(a) • • •

(1) A license for a facility, except a license authorizing export only;

• • • • • •

3. Paragraph (a) of § 2.106 is amended to read as follows:

**§ 2.106 Notice of issuance.**

(a) • • •

• • • • • •

(2) An amendment of a license for a facility, except an amendment of a license authorizing export only, whether or not a notice of proposed action has been previously published;

(3) An amendment of a license to receive waste radioactive material from other persons for the purpose of packaging, storage or disposal, whether or not a notice of proposed action has been previously published;

(4) Any other license or amendment as to which the Commission or the Director of Regulation determines that an opportunity for a public hearing should be afforded.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Md., this 19th day of November 1964.

For the Atomic Energy Commission.

W. B. MCCOOL,
*Secretary to the Commission.*

## TOMATO PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY; AND FILL OF CONTAINER

### Tomato Catsup; Proposed Deletion of Restriction on Use of Corn Sirup and Glucose Sirup as Sweetening Ingredients

Notice is given that Corn Industries Research Foundation, Inc., 1001 Connecticut Avenue NW., Washington, D.C., on its own behalf and on behalf of its members, has filed a petition proposing that the standard of identity for catsup (21 CFR 53.10) be amended to remove the provision limiting the proportion of corn sirup and glucose sirup permitted to be added as ingredients for sweetening catsup. The petitioners did not include in their proposal a provision for label declaration of the sweetener or sweeteners used. The standard as presently worded, in addition to providing that catusp may be sweetened with sugar, or dextrose and sugar, also provides that it may be sweetened with mixtures of one or the other of the foregoing with corn and/or glucose sirup (including the dried forms of such sirups), subject to the limitation that in any such mixture the proportion of corn sirup and glucose sirup may not exceed one-third of the mixture as calculated on a solids basis. The petition proposes that § 53.10(a) be amended by deleting the next to the last sentence and substituting therefor a new subparagraph (4) reading as follows:

**§ 53.10 Catsup, ketchup, catchup; identity; label statement of optional ingredients.**

(a) • • •

(4) It is concentrated and seasoned with:

(i) Salt.

(ii) A vinegar or vinegars.

(iii) Spices or flavorings or both.

(iv) Onions or garlic or both.

(v) Sugar, dextrose, corn sirup, corn sirup solids, glucose sirup, glucose sirup solids, or any mixture of two or more of these.

• • • • •

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended, 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471), all interested persons are invited to submit their views in writing (preferably in quintuplicate) regarding the proposal published herein. Such views and comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, within 30 days following the date of publication of this notice in the FEDERAL REGISTER.

Dated: December 2, 1964.

## TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

### Inorganic Bromides; Notice of Proposal To Establish Tolerances Resulting From Fumigation With Methyl Bromide

The U.S. Department of Agriculture has requested (PP 5F0428) that action be taken to permit the use of methyl bromide as a fumigant on soybeans to prevent the spread of adult white-fringed beetles and cereal leaf beetles from infested to uninfested areas mechanically through the movement of soybeans. In this program it is proposed to use methyl bromide as a fumigant on soybeans under supervision of representatives of the U.S. Department of Agriculture. That Department states that residues of inorganic bromide resulting from the treatment in the fumigation program do not exceed 200 parts per million. These residues on soybeans will not constitute a hazard to man or to livestock.

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 2.90; 29 F.R. 471), it is proposed by the Commissioner, on his own initiative, that the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR 120.123) be amended by inserting immediately following the item "200 parts per million in or on almonds • • •," a new item reading as follows:

**§ 120.123 Inorganic bromides resulting from fumigation with methyl bromide; tolerances for residues.**

• • • • • •

200 parts per million in or on soybeans from use in accordance with the Plant Pest Control Program of the U.S. Department of Agriculture.

• • • • • •

Any person who has registered or who has submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed in this document may request, within 30 days from publication of this proposal in the FEDERAL REGISTER, that the proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Any interested person may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written comments on the proposal, preferably in quintuplicate. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner*
*of Food and Drugs.*

## FOOD ADDITIVES

### Cross-Linked Polyester Resins

The Commissioner of Food and Drugs received petitions from American Cyanamid Co., Berdan Avenue, Wayne, N.J., 07470 (FAP 4B1303; 29 F.R. 11856), and The Glastic Corp., 4321 Glenridge Road, Cleveland, Ohio, 44121 (FAP 5B1511; 29 F.R. 14649), proposing that the food additive regulations (21 CFR 121.2576) be amended to provide for the use of additional substances in the production of cross-linked polyester resins used as articles or components of articles intended for repeated use in contact with food.

On the basis of the information submitted in the petitions, and other relevant material, and under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 409, 72 Stat 1785 et seq.; 21 U.S.C. 348) and delegated by him to the Commissioner (21 CFR 2.90; 29 F.R. 471), it is proposed to revise § 121.2576 to change the section heading, to provide for the use of additional substances in the production of the cross-linked polyester resins, and to prescribe extractives limits for the finished resins. Revised as proposed, § 121.2576 would read as follows:

**§ 121.2576 Cross-linked polyester resins.**

Cross-linked polyester resins may be safely used as articles or components of articles intended for repeated use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food, in accordance with the following prescribed conditions:

(a) The cross-linked polyester resins are produced by the condensation of one or more of the acids listed in subparagraph (1) of this paragraph with one or more of the alcohols listed in subparagraph (2) of this paragraph, followed by copolymerization with one or more of the cross-linking agents listed in subparagraph (3) of this paragraph:

(1) Polybasic acids:

Adipic.
Fatty acids, and dimers thereof, from natural sources.
Fumaric.
Isophthalic.
Maleic.
Orthophthalic.
Sebacic.
Terephthalic.
Trimellitic.

(2) Polyhydric alcohols:

Butylene glycol.
Diethylene glycol.
Dipropylene glycol.
Ethylene glycol.
Glycerol.
1,1'-Isopropylidenebis (*p*-phenylene-oxy)-di-2-propanol.
Mannitol.
α-Methyl glucoside.
Pentaerythritol.
Propylene glycol.
Sorbitol.
Trimethylol ethane.
Trimethylol propane.

(3) Cross-linking agents:

Butyl acrylate.
Butyl methacrylate.
Ethyl acrylate.
Ethylhexyl acrylate.
Methyl acrylate.
Methyl methacrylate.
Styrene.
Vinyl toluene.

(b) Optional adjuvant substances employed to facilitate the production of the resins or added thereto to impart desired technical or physical properties include the following, provided that the quantity used does not exceed that reasonably required to accomplish the intended physical or technical effect and does not exceed any limitations prescribed in this section:

| List of substances | Limitations (limits of addition expressed as percent by weight of finished resin) |
|---|---|
| 1. Inhibitors: | |
| Benzoquinone | Total not to exceed 0.08 percent. |
| *tert*-Butyl catechol | 0.01 percent. |
| *tert*-Butyl hydroquinone | |
| Di-*tert*-butyl hydroquinone | |
| Hydroquinone | |
| 2. Accelerators: | Total not to exceed 1.5 percent. |
| Benzyl trimethyl ammonium chloride | 0.05 percent. |
| Calcium naphthenate | |
| Cobalt naphthenate | |
| Copper naphthenate | |
| *N, N*-Diethylaniline | 0.4 percent. |
| *N, N*-Dimethylaniline | 0.4 percent. |
| Ethylene guanidine hydrochloride | 0.05 percent. |
| 3. Catalysts: | Total not to exceed 1.5 percent. |
| Benzoyl peroxide | |
| *tert*-Butyl perbenzoate | |
| Chlorbenzoyl peroxide | |
| Cumene hydroperoxide | |
| Dicumyl peroxide | |
| Lauroyl peroxide | |
| *p*-Menthane hydroperoxide | |
| Methyl ethyl ketone peroxide | |
| 4. Solvents for inhibitors, accelerators, and catalysts: | |
| Dibutyl phthalate | As a solvent for benzyl trimethyl ammonium chloride or ethylene guanidine hydrochloride only. |
| Diethylene glycol | |
| Dimethyl phthalate | |
| Styrene | |
| Triphenyl phosphate | |
| 5. Reinforcements: | |
| Asbestos | |
| Glass fiber | |
| Polyester fiber produced by the condensation of one or more of the acids listed in paragraph (a)(1) of this section with one or more of the alcohols listed in paragraph (a)(2) of this section. | |
| 6. Miscellaneous materials: | |
| Castor oil, hydrogenated | Complying with § 121.2566. |
| α-Methylstyrene | |
| Polyethylene glycol 6000 | |
| Silicon dioxide | |
| Wax, petroleum | |

(c) The cross-linked polyester resins, with or without the optional substances described in paragraph (b) of this section, and in the finished form in which they are to contact food, when extracted with the solvent or solvents characterizing the type of food and under the conditions of time and temperature characterizing the conditions of their intended use, as determined from tables 1 and 2 of § 121.2526(c), shall meet the following extractives limitations:

(1) Net chloroform-soluble extractives not to exceed 0.1 milligram per square inch of food-contact surface tested when the prescribed food-simulating solvent is water or 8 or 50 percent alcohol.

(2) Total nonvolatile extractives not to exceed 0.1 milligram per square inch of food-contact surface tested when the prescribed food-simulating solvent is heptane.

(d) In accordance with good manufacturing practice, finished articles containing the cross-linked polyester resins shall be thoroughly cleansed prior to their first use in contact with food.

All interested persons are invited to submit written views and comments on the proposal published herein. Such views and comments should be submitted, preferably in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, within 30 days following the date of publication of this notice in the FEDERAL REGISTER. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: December 2, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Indian Affairs

### MONSE UNIT, COLVILLE INDIAN IRRIGATION PROJECT, WASHINGTON

#### Notice of Establishment of Construction Cost

Notice of establishment of construction cost for the Monse Unit of the Colville Indian irrigation project, Washington.

Pursuant to section 3 of the Administrative Procedure Act of June 11, 1946, and the authority vested in the Secretary of the Interior by the Acts of August 1, 1914 (38 Stat. 583), February 14, 1920 (41 Stat. 409), and March 7, 1928 (45 Stat. 210), I hereby declare the Monse Unit of the Colville Indian irrigation project to be complete, that no additional construction funds are to be expended on the unit, and that the total outstanding reimbursable construction cost due the United States for the Monse Unit is established at $138,309.94, which based on 1083.1 acres represents a per acre cost of $127.69822.

The area benefited by the construction program on the Monse Unit has heretofore been established at 1083.1 acres and is set forth in § 217.1 of the Code of Federal Regulations, Title 25—Indians.

STEWART L. UDALL,
*Secretary of the Interior.*

### Bureau of Land Management

[Arizona 034428]

### ARIZONA

#### Notice of Proposed Withdrawal and Reservation of Lands

The Forest Service, United States Department of Agriculture has filed an application, Serial Number Arizona 034428 for the withdrawal of lands under the Act of July 9, 1962 (76 Stat. 140).

The applicant desires these public lands to be given national forest status and to be made a part of the Sitgreaves National Forest and to be subject to all the laws and regulations applicable to such national forest. These lands are located within the Lakeside Ranger District.

For a period of thirty days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal, may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 3022 Federal Building, Phoenix, Ariz., 85025.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER BASE MERIDIAN, ARIZONA

T. 9 N., R. 22 E.,
Sec. 2, SW¼;
Sec. 3, E½SW¼, N½SE¼, W½SW¼SE¼;
Sec. 11, E½NW¼, W½NE¼, W½SE¼NE¼, NE¼SE¼.

The area described above aggregates approximately 560.00 acres.

FRED J. WEILER,
*State Director.*

DECEMBER 3, 1964.

[F.R. Doc. 64-12637; Filed, Dec. 9, 1964; 8:45 a.m.]

[Serial No. R 05809]

### CALIFORNIA

#### Notice of Proposed Withdrawal and Reservation of Lands

DECEMBER 4, 1964.

The Corps of Engineers, U.S. Army Engineer District, Sacramento, Calif., has filed an application, serial number Riverside 05809, for the withdrawal of the lands described below from all forms of appropriation under the public land laws, except mineral leasing, subject to valid existing rights. The applicant desires the land for its use for an additional area of a relocated easement for the transmission of electric power.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 1414 Eighth Street, Post Office Box 723, Riverside, Calif., 92502.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for the purposes other than the applicant's, and to reach agreement on the concurrent management of the lands and their resources. He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the Corps of Engineers. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record. If the circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

A strip of land 12 feet wide located in the East half of Section 20 and in the South half of the Northwest quarter of Section 21, all in T. 26 S., R. 33 E., MDB&M., in the County of Kern, State of California, said strip lying 6 feet on each side of the following described centerline:

*Parcel one.* Beginning at a point on the South line of said Section 20 from which the South quarter corner thereof bears N. 89°15' W., 74.9 feet;

Thence, Northerly and Easterly in the E. ½ of Section 20 and in the S. ½ of the NW. ¼ of Section 21, the following courses:
(1) N. 35°21'27" E., 376.74 feet;
(2) N. 27°42'52" E., 719.47 feet;
(3) N. 5°07'40" W., 619.83 feet;
(4) N. 6°11'42" E., 438.69 feet;
(5) N. 27°29'45" E., 259.38 feet;
(6) N. 43°47'20" E., 240.19 feet;
(7) N. 56°25'29" E., 255.62 feet;
(8) N. 61°49'02" E., 1,675.00 feet;
(9) N. 59°53'52" E., 336.12 feet;
(10) N. 49°22'22" E., 464.10 feet to a point on the North line of the South half of the Northwest quarter of Section 21 from which the Northwest corner thereof bears N. 89°11' W., 555 feet.

Excepting therefrom any portion thereof lying North of the Southerly right of way line of State Highway VI-Kern-57.

The above described parcel contains 1.48 acres, more or less.

*Parcel two.* A strip of land 10 feet wide located in the SE. ¼ of said Section 20, and lying along the following described centerline:

Commencing, for reference, at a point on the South line of Section 20 from which the South quarter thereof bears N. 89°15' W., 74.9 feet; thence, N. 35°21'27" E., 376.14 feet to the true point of beginning;

Thence, S. 58°27'51" E., 28.0 feet to the point of termination of this parcel.

Excepting therefrom any portion thereof lying within the above described parcel one.

Parcel two contains 0.01 of an acre, more or less.

*Parcel three.* A strip of land 10 feet wide located in the SE¼ of said Section 20, and lying along the following described centerline:

Commencing, for reference, at a point on the South line of Section 20, from which the South quarter corner thereof bears N. 89°15' W., 74.9 feet; thence, N. 35°21'27" E., 376.14 feet; thence, N. 27°42'52" E., 719.47 feet to the true point of beginning;

Thence, S. 1°42'24" E., 21.6 feet to the point of termination of this parcel.

Excepting therefrom any portion thereof lying within the above described Parcel One.

Parcel Three contains 0.01 of an acre, more or less.

The areas described aggregate 1.5 acres.

GLENDON E. COLLINS,
*Acting Manager.*

## MONTANA

### Notice of Filing of Montana Protraction Diagram

DECEMBER 2, 1964.

Notice is hereby given that, effective with this publication, the following protraction diagram, revised, has been placed in the open files of the Montana Land Office, 1245 North 29th Street, Billings, Mont., 59101, and is available to the public as a matter of information only. In accordance with 43 CFR 3123.8, 3322, 3130, 3150, 3160, 3180, 3323, and 3210 formerly 192.42a, 188, 193, 195, 196, 198, 199, and 200 respectively, this protraction will become the basic record for the description of land in applications and offers for mineral leases and permits filed at and after 10:00 a.m. on the thirty-first day after publication of this notice. This protraction will also become the basic record for the description of lands in applications for all other authorized uses at the above specified time. This protraction diagram will replace protraction diagram sheet No. 25 officially filed in the Montana Land Office, September 20, 1960.

PRINCIPAL MERIDIAN, MONTANA

Sheet No. 25; Montana Protraction Diagram (Unsurveyed), approved October 20, 1964; Tp 16 N, Rs 7, 8, 9 W.

Copies of these diagrams are for sale at one dollar ($1.00) per sheet by the Cadastral Engineering Office, Bureau of Land Management, 1245 North 29th Street, Billings, Mont., 59101.

E. S. ROWLAND,
*State Director.*

## OREGON

### Notice of Termination of Proposed Withdrawal and Reservation of Land

DECEMBER 1, 1964.

Notice of an application, Serial No. Oregon 015240, for withdrawal and reservation of lands, was published as Federal Register Document No. 64-6059 on Page 7827 of the issue for June 19, 1964. The applicant agency, Forest Service, United States Department of Agriculture, has cancelled its application insofar as it involved the lands described below. Therefore, pursuant to the regulations contained in 43 CFR Part 2311 (formerly 295), such lands will be relieved of the segregative effect of the withdrawal application at 10:00 a.m. on December 15, 1964.

The lands involved in this notice of termination are:

OREGON

WILLAMETTE MERIDIAN

SISKIYOU NATIONAL FOREST

*Quosatana Geological Area*

T. 36 S., R. 13 W., Unsurveyed,
Sec. 27, S½SE¼SW¼;

### FRESH PEACHES GROWN IN GEORGIA

### Order Directing That a Referendum Be Conducted; Designation of Referendum Agent To Conduct Such Referendum; and Determination of Representative Period

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 918, as amended (7 CFR Part 918), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601-674), it is hereby directed that a referendum be conducted among the growers who, during the calendar year 1964 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in Georgia, in the production of peaches for market to determine whether such growers favor the termination of the said amended marketing agreement and order. M. F. Miller of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Post Office Box 9, Lakeland, Fla., 33802, is designated as the referendum agent to conduct said referendum.

The procedure for the conduct of the referendum shall be the procedure (28 F.R. 6409) for the conduct of referenda regarding marketing orders for fruits, vegetables, and tree nuts.

Dated: December 8, 1964.

### AMDAL CO.

### Notice of Filing of Petition for Food Additive Erythromycin Thiocyanate

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 5D1580) has been filed by Amdal Company, Agricultural Division, Abbott Laboratories, North Chicago, Ill., proposing the issuance of a regulation to provide for the safe use of erythromycin thiocyanate in the feed of chickens, turkeys, swine, and cattle as follows:

TABLE 1—ERYTHROMYCIN IN FEEDS FOR CHICKENS, TURKEYS, AND SWINE

| Principal ingredient | Grams per ton | Combined with— | Grams per ton | Limitations | Indication for use |
|---|---|---|---|---|---|
| 1. Erythromycin | 3.7-20 | | | For broiler chickens, replacement chickens, and turkeys; as erythromycin thiocyanate. | Growth promotion and feed efficiency. |
| | | | | For laying chickens; as erythromycin thiocyanate. | Maintaining or increasing egg production and improving feed efficiency. |
| | | | | For growing swine; as erythromycin thiocyanate. | Growth promotion and feed efficiency. |
| 2. Erythromycin | 92.5-100 | | | For chickens and turkeys; as erythromycin thiocyanate; feed for 2 days before stress and 3 to 6 days after stress. | As an aid in the prevention of respiratory diseases resulting from stress. |
| | | | | For chickens; as erythromycin thiocyanate; feed for 7 to 14 days, then, feed 18.5-20 grams erythromycin per ton of feed continuously to prevent further outbreaks. | Treatment and prevention of infectious coryza. |
| 3. Erythromycin | 185-200 | | | For chickens and turkeys; as erythromycin thiocyanate; feed for 5 to 8 days; do not use eggs produced during the treatment period for food purposes. | Treatment and prevention of chronic respiratory disease. |

TABLE 2—ERYTHROMYCIN IN FEEDS FOR CATTLE

| Principal ingredient | Milligrams per head per day | Combined with— | Milligrams per head per day | Limitations | Indications for use |
|---|---|---|---|---|---|
| Erythromycin | 37-80 | | | For growing cattle; as erythromycin thiocyanate. | Growth promotion and feed efficiency. |

Dated: December 2, 1964.

# ATOMIC ENERGY COMMISSION

[Docket No. 50-163]

## GENERAL DYNAMICS CORP.

### Notice of Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission has issued, effective as of the date of issuance, Amendment No. 12, set forth below, to Facility License No. R-67, as amended. The license, as amended, authorizes General Dynamics Corporation to operate its TRIGA Mark F nuclear reactor located at Torrey Pines Mesa, Calif. The amendment authorizes General Dynamics Corporation to operate the reactor with a fuel temperature limit of 800°C as described in the licensee's application amendment dated July 29, 1964, and supplemental letter dated October 5, 1964.

The Commission has found that:

(1) The application for amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter 1, CFR;

(2) The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public;

(3) Prior public notice of proposed issuance of this amendment is not required since the amendment does not involve significant hazard considerations different from those previously evaluated.

Within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the provisions of the Commission's rules of practice (10 CFR Part 2). If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the licensee's application for license amendment dated July 29, 1964, and supplemental letter dated October 5, 1964, and (2) the Hazards Analysis prepared by the Test and Power Reactor Safety Branch of the Division of Reactor Licensing, all of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington, D.C., 20545 Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 2d day of December 1964.

For the Atomic Energy Commission.

SAUL LEVINE,
*Chief, Test and Power Reactor Safety Branch, Division of Reactor Licensing.*

By: RICHARD E. IRELAND.

AMENDMENT TO FACILITY LICENSE

[License No. R-67 Amendment No. 12]

License No. R-67, as amended, issued to General Dynamics Corporation is hereby amended in the following respects:

In addition to the activities previously authorized by the Commission in License No. R-67, as amended, General Dynamics Corporation is authorized:

1. To operate the reactor in a pulsing mode subject to the previously authorized limitations except that the maximum fuel temperature limit is increased to 800°C from 700°C, as described in the application for license amendment dated July 29, 1964, and supplemental letter dated October 5, 1964.

This amendment is effective as of the date of issuance.

Date of issuance: December 2, 1964.

For the Atomic Energy Commission.

SAUL LEVINE,
*Chief, Test and Power Reactor Safety Branch, Division of Reactor Licensing.*

[F.R. Doc. 64-12629; Filed, Dec. 9, 1964; 8:45 a.m.]

# FEDERAL AVIATION AGENCY

## FLIGHT INFORMATION PUBLICATIONS

### Statement of General Policy

A pilot's inherent responsibility requires that he be alert at all times for and in anticipation of all circumstances, situations and conditions which affect the safe operation of his aircraft. For example, pilots may expect to find air traffic at any time or place. At or near both civil and military airports and in the vicinity of known training areas, pilots may expect concentrated air traffic although he should realize that concentrations of air traffic are not limited to these places only.

It is the general practice of the Agency to advertise by NOTAM or other flight information publications such information it may deem appropriate; information which the Agency may from time to time make available to pilots is solely for the purpose of assisting them in executing their regulatory responsibilities. Such information serves the aviation community as a whole and not pilots individually.

The fact that the Agency under one particular situation or another may or may not furnish information does not serve as a precedent of the Agency's responsibility to the aviation community; neither does it give assurance that other information of the same or similar nature will be advertised nor does it guarantee that any and all information known to the Agency will be advertised.

Consistent with the foregoing, it shall be the policy of the Federal Aviation Agency to furnish information only when, in the opinion of the Agency, a unique situation should be advertised and not to furnish routine information such as concentrations of air traffic, either civil or military. The Airman's Information Manual, which will replace the Airman's Guide, will not contain informative items concerning everyday circumstances that pilots should, either by good practice or regulation, expect to encounter or avoid.

(Sec. 311; 72 Stat. 751; 49 U.S.C. 1352)

Issued in Washington, D.C., on December 8, 1964.

N. E. HALABY,

## CAMELLIA CITY TELECASTERS

### Order Continuing Hearing

In re application of Charles L. Bowman, Foster A. Bullock, Jack F. Matranga and Irving J. Schwartz, D/B as Camellia City Telecasters, Sacramento, Calif., Docket No. 15211, File No. BPCT-3140; for construction permit for new television broadcast station.

The Hearing Examiner having under consideration a petition filed December 2, 1964, by the above-entitled applicant requesting that the further hearing now scheduled for December 4, 1964, be continued for a period of thirty days; and

It appearing that the reason for the requested continuance is the fact that the Federal Aviation Agency has not yet made a decision as to whether the proposed new site will constitute an air hazard and no constructive steps can be taken until a determination is made by the FAA; and

It further appearing that counsel for the Broadcast Bureau has no objections to the petition for continuance, and good cause for granting the petition having been shown;

*It is ordered*, This the 4th day of December 1964, that the petition for continuance is granted and the hearing in the above-entitled proceedings is continued from December 4, 1964, to January 4, 1965.

Released: December 7, 1964.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
*Secretary.*

[F.R. Doc. 64-12669; Filed, Dec. 9, 1964; 8:49 a.m.]

[Docket Nos. 15485, 15486; FCC 64M-1222]

## DIRIGO BROADCASTING, INC., AND DOWNEAST TELEVISION, INC.

### Order Continuing Hearing

In re applications of Dirigo Broadcasting, Inc., Bangor, Maine, Docket No. 15485, File No. BPCT-2911; Downeast Television, Inc., Bangor, Maine, Docket No. 15486, File No. BPCT-2952; for construction permits for new television broadcast stations (Channel 7).

The Hearing Examiner having under consideration (1) a request filed on November 23, 1964, for an indefinite extension of time for the exchange of exhibits in the above-entitled proceeding and (2) motion for indefinite continuance of hearing presently scheduled for December 7, 1964, filed on December 3, 1964, by Dirigo Broadcasting, Inc.; and

It appearing, that there is pending before the Review Board a petition requesting approval of an agreement between the applicants looking toward the dismissal of Dirigo's application and the grant without hearing of the application of Downeast Television, Inc.; and that, in the event of a grant of such petition, no useful purpose would be served by exchanging exhibits or holding the hearing as presently scheduled; and

It further appearing, that counsel for all parties to the proceeding have consented to the immediate consideration and grant of the motion, with the Broadcast Bureau consenting only to a 60-day continuance;

*It is, therefore, ordered*, This 4th day of December 1964, that the requests for change in procedural dates be and the same are hereby granted to the extent that the procedural dates are rescheduled as follows:

| | From | To |
|---|---|---|
| Exchange of exhibits | Nov. 23, 1964 | Jan. 22, 1965 |
| Hearing | Dec. 7, 1964 | Feb. 5, 1965 |

Released: December 4, 1964.

## RADIO STATION KVOL, INC. (KVOL)

### Order Scheduling Prehearing Conference

In re application of Radio Station KVOL, Inc. (KVOL), Lafayette, Louisiana, Docket No. 15625, File No. BP-14947; for construction permit.

The Hearing Examiner has under consideration a petition filed December 1, 1964, by the above-entitled applicant requesting that the date of the evidentiary hearing be extended from December 10, 1964, to January 14, 1965, and that the procedural dates be rescheduled in accordance with the change in date of the evidentiary hearing.

The Hearing Examiner has also received an informal request for a further prehearing conference to discuss the preparation of the engineering exhibits to be offered in evidence. This informal, oral, request of this date advised the Hearing Examiner of the existence of measurements which apparently had not previously been known by counsel.

*It is ordered*, This the 4th day of December 1964, that a further prehearing conference will be held on Tuesday, December 8, 1964, beginning at 9:00 a.m. in the offices of the Commission in Washington, D.C. Among the matters to be considered will be the use of measurements in the praparation of engineering exhibits and the rescheduling of the evidentiary hearing and procedural dates. This action renders moot the petition received December 1, 1964, for extension of time.

Released: December 7, 1964.

FEDERAL COMMUNICATIONS COMMISSION,

# FEDERAL POWER COMMISSION

[Docket Nos. CP61-265, CP61-299]

## EL PASO NATURAL GAS CO. AND TRANSWESTERN PIPELINE CO.

### Notice of Applications

DECEMBER 2, 1964.

Take notice that El Paso Natural Gas Co. (El Paso), Post Office Box 1492, El Paso, Tex., 79999, filed in Docket No. CP61-265 an application on April 11, 1961 and supplements thereto on December 13, 1961, May 28, 1963 and June 19, 1964, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities for the acquisition and transportation of gas jointly with Transwestern Pipeline Co. (Transwestern) and to provide for the exchange of gas in the Panhandle area of Oklahoma and Texas between them, all as more fully set forth in the application on file with the Commission and open to public inspection.

Transwestern Pipeline Co., Post Office Box 1502, Houston 1, Tex., filed in Docket No. CP61-299 an application on May 24, 1961 and supplements thereto on January 22, 1962, August 19, 1963 and July 6, 1964, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the joint construction and operation with El Paso of certain facilities for the acquisition and transportation of gas and the exchange of said gas between them, all as more fully set forth in the applications and supplements on file with the Commisison and open to public inspection.

El Paso and Transwestern propose to jointly construct and operate certain field lines along with necessary high pressure well ties, and measuring and regulating facilities extending to their existing field systems necessary to effectuate the acquisition and exchange of natural gas.

El Paso's cost related to Docket No. CP61-265 is estimated to be $404,081; Transwestern's cost related to Docket No. CP61-299 is estimated to be $178,691.

These matters are ones that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that preliminary staff analysis has indicated that there are no problems which would warrant a recommendation that the Commission designate these applications for formal hearing before an examiner and that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing may be held without further notice before the Commission on these applications provided no protest or petition to intervene is filed within the time required herein. Where a protest or petition for leave to intervene is timely filed, or where the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 22, 1964.

GORDON M. GRANT,
*Acting Secretary.*

[Docket No. RI65-162 [1]]

## HELMERICH & PAYNE, INC.

### Order Amending Order Providing for Hearings on and Suspension of Proposed Changes in Rates

DECEMBER 2, 1964.

On August 5, 1964, Helmerich & Payne, Inc. (Helmerich & Payne), filed with the Commission a proposed change in rate, from 11.0 cents to 12.0 cents per Mcf, designated as Supplement No. 1 to Helmerich & Payne's FPC Gas Rate Schedule No. 29, which pertains to its jurisdictional sales of natural gas from the Hugoton Field, Morton and Seward Counties, Kans., to Panhandle Eastern Pipe Line Co. The Commission by order issued September 2, 1964, suspended Helmerich & Payne's proposed rate increase and deferred the use thereof for five months until February 5, 1965, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

In support of its motion, Helmerich & Payne states that it has been advised by the buyer, Panhandle Eastern Pipe Line Co., that the correct effective date for such increase should have been February 26, 1965, five years from the date the subject rate schedule was allowed to become effective by the Commission and not from the date of the basic contract, September 1, 1959, and requests that the suspension order be amended to reflect the correct contractual effective date and that the proposed increased rate be suspended for five months from such corrected date.

The Commission finds. Good cause has been shown for amending the Commission's order issued September 2, 1964, so as to reflect the correct effective date for Helmerich & Payne's rate filing and for changing the termination date of the suspension period ordered therein.

The Commission orders:

(A) That the order providing for hearings on and suspension of proposed changes in rate issued September 2, 1964, in the proceeding entitled Helmerich & Payne, Inc., Docket No. RI65-162, is hereby amended by changing the proposed effective date for Helmerich & Payne's FPC Gas Rate Schedule No. 29, from September 5, 1964, to February 26, 1965, and by changing the termination date of the suspension period from February 5, 1965, to July 26, 1965, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) In all other respects, the order issued by the Commission on September 2, 1964, in Docket No. RI65-162, shall remain unchanged and in full force and effect.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
*Secretary.*

[F.R. Doc. 64-12632; Filed, Dec. 9, 1964; 8:45 a.m.]

[1] Docket No. RI65-162 also covers Helmerich & Payne's FPC Gas Rate Schedule No. 26 which is not involved herein.

[Docket No. CP65-115]

## IOWA SOUTHERN UTILITIES CO.

### Notice of Application

DECEMBER 2, 1964.

Take notice that on October 28, 1964, Iowa Southern Utilities Co. (Applicant), 300 Sheridan, Centerville, Iowa, filed in Docket No. CP65-115 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Michigan Wisconsin Pipe Line Co. (Michigan Wisconsin) to establish physical connection of its natural gas transmission facilities with the distribution facilities proposed to be constructed by Applicant, and to sell and deliver natural gas to Applicant for distribution and resale in the community of Mount Ayr, Iowa, all as more fully set forth in the application on file with the Commission and open to public inspection.

The estimated initial three year period of annual and peak day requirements are stated to be:

| | First year | Second year | Third year |
|---|---|---|---|
| Annual (Mcf) | 81,906 | 139,922 | 175,073 |
| Peak day (Mcf) | 792 | 1,357 | 1,699 |

The estimated cost of Applicant's proposed distribution system is $361,436, and will be financed with internally generated funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 23, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that an order is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

# GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs. (Temporary) F-2]

## SECRETARY OF DEFENSE

### Delegation of Authority Regarding Communications Regulatory Proceeding

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, authority is hereby delegated to the Secretary of Defense, in accordance with sections 201(a)(4) and 205 (d) and (e) thereof, to represent the interests of the executive agencies of the Federal Government, In the Matter of Investigation of American Telephone and Telegraph Company, Tariff FCC No. 135, 3rd Revised Page 23CC, before the Federal Communications Commission.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official, or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall further be exercised in cooperation with the responsible officers, officials, and employees of the General Services Administration.

4. This delegation of authority shall be effective November 5, 1964.

Dated: December 4, 1964.

LAWSON B. KNOTT, JR.,
*Acting Administrator of General Services.*

[F.R. Doc. 64-12664; Filed, Dec. 9, 1964; 8:48 a.m.]

# SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1737]

## SECOND EMPIRE FUND, INC.

### Notice of Application for Order of Exemption

DECEMBER 4, 1964.

Notice is hereby given that Second Empire Fund, Inc. ("applicant"), 44 School Street, Boston, Mass., 02108, an open-end, diversified registered investment company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting applicant from compliance with the provisions of section 14(a) of the Act. All interested persons are referred to the

application on file with the Commission for a full statement of the representations therein which are summarized below.

Applicant has filed a registration statement under the Securities Act of 1933 for 750,000 shares of common stock, $1 par value, to be offered to investors in exchange for securities of the character of those included in a list set forth in the prospectus. Applicant is intended as an investment vehicle for investors who wish to exchange securities they presently hold for shares of the applicant in a simultaneous exchange on a tax-free basis. A. G. Becker & Co., the dealer-manager, and a group of securities dealers which it will form and manage, intend to solicit deposits of securities, to be held by a depository in safekeeping for the separate account of each investor, pending consummation of the exchange. Deposits will be solicited for approximately sixty days after the effective date of the registration statement.

The minimum deposit to be accepted from any investor is to be securities having a market value of $20,000 and the exchange will not be consummated unless the aggregate market value of the deposited securities as at the effective date of the planned exchange is at least $10,000,000. In the event that such value is not then realized, the deposited securities will be returned to investors without charge to them. If such value is obtained upon the termination of the solicitation period, a report describing the deposited securities, including their current market value and their bases for Federal income taxation, will be mailed to all depositing investors within fifteen days thereafter. The depositing investor may withdraw his deposited securities in whole or in part without charge at any time prior to the mailing of such report and also during the fifteen days after such mailing date. Applicant will have the right to reject securities on deposit for a period of five days after the end of the period during which the depositor may withdraw. All of applicant's shares which are issued in exchange for securities will be issued simultaneously on the effective date of the exchange.

Notice is further given that any interested person may, not later than December 22, 1964, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant, in case of an attorney-at-law (by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F.R. Doc. 64–12630; Filed, Dec. 9, 1964; 8:45 a.m.]

# INTERSTATE COMMERCE COMMISSION

[Notice 1090]

## MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 7, 1964.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 66946. By order of December 1, 1964, the Transfer Board approved, on reconsideration, the transfer to Garden City Trucking Corp., Garden City, N.Y., of the operating rights in Permit No. MC 124515, issued May 2, 1963, to Federated Carriers, Inc., Garden City, N.Y., authorizing the transportation, over irregular routes, of Air-conditioning equipment, dryers, freezers, water heaters, ironers, high fidelity and stereo phonographs, radios, ranges, refrigerators, surface units (for ranges), washers, tape recorders and television sets, crated and uncrated, from points in Queens and Nassau Counties, N.Y., to retail stores and customers of Marta Cooperative, Inc., and Hampton Sales Co., in New Jersey; and shipments of the above-described commodities traded-in damaged or returned by such store or customer, from retail stores and customers of Marta Cooperative, Inc., and Hampton Sales Co., Inc., in New Jersey, to points in Queens and Nassau Counties, N.Y., as restricted. Seymour Georges Mackler, 450 Seventh Avenue, New York, N.Y., 10001, Attorney for applicants.

No. MC–FC 67362. By order of December 1, 1964, the Transfer Board approved the transfer to White Mountain Passenger Lines, Inc., Post Office Box 466, Show Low, Ariz., of the Certificate of Registration in No. MC 96678 Sub 1, issued May 20, 1964, to Floyd Butler, Taylor, Ariz., authorizing transportation in interstate and foreign commerce corresponding to the grant of authority in State certificate No. 6034, issued February 15, 1957, by the Arizona Corporation Commission.

[S.O. 947; Rev. Taylor's Car Distribution Order 12]

## TERMINAL RAILROAD ASSOCIATION OF ST. LOUIS AND CHICAGO, BURLINGTON & QUINCY RAILROAD CO.

### Shortage of Freight Cars

Pursuant to section 1 (15) and (17) of the Interstate Commerce Act and authority vested in me by paragraph (5) (b) of Interstate Commerce Commission Service Order No. 947 (28 F.R. 12127; 29 F.R. 6014, and 9670).

I find that there exists a shortage of freight cars in certain areas because of inequitable distribution and, because of such emergency, notice and public procedure on this order would be impracticable and contrary to the public interest, and this order shall be made effective upon less than 30 days' notice.

*Therefore, it is ordered,* That:

(a) The Terminal Railroad Association of St. Louis shall deliver to the Chicago, Burlington & Quincy Railroad Co. a daily average of 50 plain serviceable box cars inside length less than 44'8".

(b) Cars delivered under this order shall be carded to the Chicago, Burlington & Quincy Railroad Co. and each car shall be identified by the Terminal Railroad Association of St. Louis as moving under the provisions of this order.

(c) Effective date: This order shall become effective at 12:01 a.m., December 7, 1964.

(d) Expiration date: This order shall expire at 11:59 p.m., December 22, 1964, unless otherwise ordered.

*It is further ordered,* That this order shall be served upon the Association of American Railroads, Car Service Division, as Agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., December 4, 1964.

INTERSTATE COMMERCE COMMISSION, [SEAL] CHARLES W. TAYLOR, *Agent.*

[F.R. Doc. 64–12663; Filed, Dec. 9, 1964; 8:48 a.m.]

PART II

# FEDERAL REGISTER

VOLUME 29 NUMBER 240

Washington, Thursday, December 10, 1964

Small Business Administration

# Small Business Investment Companies

# Title 13—BUSINESS CREDIT AND ASSISTANCE

## Chapter I—Small Business Administration

[Rev. 3]

## PART 107—SMALL BUSINESS INVESTMENT COMPANIES

Pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, Public Law 85-699, 72 Stat. 694, as amended, there is revised Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations.

*Information and effective date.* This revision assembles Part 107 (Revision 2) as previously published in the FEDERAL REGISTER (27 F.R. 9743-9754), together with subsequently published amendments thereto (28 F.R. 681, 1627, 3021, 10868, 12250 and 29 F.R. 5223, 7144, 10499, 12109, 14221 and 16825).

The present revision renumbers §§ 107.403, 107.404, 107.501, 107.502, 107.601, 107.701, 107.702, 107.703, and 107.704, as follows;

| *Revision 2* | *Revision 3* |
|---|---|
| 403(a) Borrowing by SBIC | 402(d). |
| 404 | 403. |
| 501(a) Equity Capital | 501(a). |
| 501(b) | 501(b). |
| 501(c) | 502(a). |
| 501(d) | 502(b). |
| 501(e) | 503(a). |
| 501(f) | 503(b). |
| 501(g) | 504. |
| 501(h) | 503(c). |
| 501(i) | 505(a). |
| 501(j) | 505(b). |
| 501(k) | 505(c). |
| 501(l) | 505(d). |
| 501(m) | 506(a). |
| 501(n) | 506(b). |
| 501(o) | 507. |
| 501(p) | 508. |
| 502 | 510. |
| 601(a) Long Term Loans | 601. |

| 601(d) | 602(c). |
| 601(e) | 602(d). |
| 601(f) | 603. |
| 601(g) | 604. |
| 701 General Provisions | 701(a). |
| 702 | 701(b). |
| 703(a) | 701(c). |
| 703(b) | 701(d). |
| 704(a) | 701(e). |
| 704(b) | 701(f). |
| 704(c)(1) | 704(a). |
| 704(c)(2) | 704(b). |
| 704(c)(3) | 704(c). |
| 704(c)(4) | 704(d). |
| 704(c)(5) | 703(a). |
| 704(d) | 703(b). |
| 704(e) | 702(a). |
| 704(f) | 702(b). |
| 704(g) | 702(c). |

Minor textual changes have been made in several instances. The substance of former §§ 107.301(h) and 107.403(b) with regard to the prohibition against use of Government (i.e., section 302 and 303) funds in financing concerns selling alcoholic beverages, has been incorporated into a new § 107.715(h). The prohibition against financing agricultural projects, set forth in § 107.1003, has been carried over into new § 107.715(i). Section 107.1003 has been left unchanged. Sections 107.710 and 107.1005 dealing with "Idle Operating Funds," have been rewritten and the former text clarified, without change as to purpose or basic meaning. The footnotes formerly appearing at various places throughout Revision 2, making reference to SBA forms and noting that they were on file with the FEDERAL REGISTER, have been replaced by an explanatory statement in § 107.101 of the present Revision. Section 107.101 states that all SBA forms mentioned in the regulations are on file with the FEDERAL REGISTER and that copies may be obtained from SBA. Brief abstracts of interpretations set forth in §§ 107.1001 to 107.1015, inclusive, have been incorporated into the present Revision immediately following the particular section of the Regulations to which each relates. Accordingly, references to the interpretations in question have been made immediately following §§ 107.301; 107.501 and 107.601; 107.715; 107.602; 107.710; 107.715; 107.301 and 107.402; 107.301; 107.205; 107.708; 107.301 and 107.402; 107.503 and 107.602; and 107.715, respectively.

Sections 107.901 and 107.902 describing the enforcement actions which SBA may institute against violations of the Act or Regulations have been rewritten from the standpoint of improving textual clarity and accuracy. For example, reference is made to investigative proceedings under Section 310 of the Act and adjudicative proceedings pursuant to Section 309 of the Act.

The present Revision includes a new § 107.990, *Exemptions*. It provides, in material part, that any Licensee may file a written application with SBA to exempt a proposed transaction from one or more of the procedural or substantive requirements otherwise applicable to it under the Regulations. SBA may approve such application and grant an exemption, either conditionally or unconditionally, to the extent that the requirements in question are not prescribed by statute and exemption therefrom would not be contrary to the Act. Section 107.990 declares that favorable consideration will be given to an application where the supporting evidence demonstrates to SBA's satisfaction that (1) the terms of the proposed transaction are reasonable and fair, and (2) the exemption requested is reasonably calculated to advance the best interests of the SBIC program in a manner consonant with the policy objectives of the Act and Regulations.

Since this Revision incorporates previously published amendments, imposes no additional burdens or obligations upon Licensees or other parties concerned, authorizes applications for exemption which, upon SBA approval, would relax restrictions imposed by the Regulations, and because of the necessity of promptly applying the Revision to the program authorized by the Small Business Investment Act of 1958, it shall become effective upon publication in the FEDERAL REGISTER.

Insofar as Licensees or other interested parties may wish to comment on the rearrangement and minor textual changes incorporated into the Revision, they may do so by petition for amendment, modification or repeal of any regulatory provision as mentioned in Section 4(d) of the Administrative Procedure Act (5 U.S.C. 1003(d)). SBA's consideration of any petition submitted will be subject to Section 6(d) of that Act (5 U.S.C. 1005(d)).

Dated: December 4, 1964.

EUGENE P. FOLEY,
*Administrator.*

AUTHORITY: The provisions of this Part 107 issued under sec. 308, 72 Stat. 694; 15 U.S.C. 687.

REGULATIONS

### § 107.11 Scope of part.

(a) *The Act.* The Small Business Investment Act of 1958 became law August 21, 1958. Such Act has been amended by the Small Business Investment Act Amendments of 1960, which became effective June 11, 1960, the Small Business Investment Act Amendments of 1961, which became effective October 3, 1961, and the Small Business Investment Act Amendments of 1963, which became effective February 28, 1964.

(b) *Purpose of Act.* The purpose of the Act is to improve and stimulate the national economy in general and the small business segment thereof in particular.

(c) *Function of program.* This purpose is to be accomplished by the establishment of a program designed to stimulate and supplement the flow of private equity capital and long-term loan funds necessary for the sound financing of the business operations of small-business concerns and for their growth, expansion and modernization.

(d) *Nature of program.* Under the program:

(1) SBA will select and approve (license) private corporations (chartered under State law to conduct the activities described in subparagraph (2) of this paragraph) which shall thereupon become eligible for (i) financial assistance from SBA under the Act, (ii) discretionary exemptions under the Securities Act of 1933 and the Trust Indenture Act of 1939, as well as a specified exemption under the Investment Company Act of 1940, (iii) such further benefits and privileges as may ever be provided by Federal or State laws for corporations licensed by SBA under the Act, and (iv) tax benefits specified under the Technical Amendments Act of 1958, as amended in 1959. The stockholders of such corporations are eligible also for tax benefits specified under the Technical Amendments Act of 1958.

REFERENCES

1. Securities Act of 1933, 15 U.S.C.A. secs. 77a-77aa.
2. Trust Indenture Act of 1939, 15 U.S.C.A. secs. 77aaa-77bbbb.
3. Investment Company Act of 1940, 15 U.S.C.A. secs. 80a-1—80a-52.
4. Securities and Exchange Commission Regulations issued pursuant to the above Acts relating to small business investment companies.
5. Section 57, Technical Amendments Act of 1958, Public Law 85-866, as amended by Public Law 86-376, 73 Stat. 700.
6. Personal Holding Company Tax Section 541, Internal Revenue Code of 1954, 26 U.S.C.A. secs. 541-547.
7. Sections 1.541-1—1.547-7 of the Income Tax Regulations of the Treasury Department (26 CFR 1.541-1 to 1.547-7) as amended.
8. State incorporation laws.
9. Bank Holding Company Act of 1956, 12 U.S.C.A. secs. 1841-1848.
10. Regulations of the Federal Reserve Board under Bank Holding Company Act, 12 CFR 222.1-222.108, and in particular, Regulation 222.107.

(2) Private corporations are to be chartered under State law for the specific purpose of providing funds to small business concerns (as defined by SBA) through the purchase of Equity Securities (as defined in § 107.502) of such concerns and through the disbursement of long-term loans to such concerns. Such corporations will be authorized to provide consulting and advisory services to small business concerns on a fee basis for such services actually rendered. All of said activities will be subject to regulations prescribed by SBA. The corporations will be examined by SBA and will make reports as and when required by SBA.

(e) *Private participation.* The program will be administered in such a manner as to insure the maximum participation of private financing sources.

(f) *Unemployment.* Any financial assistance provided under the Act cannot result in a substantial increase of unemployment in any area of the country.

(g) *Investment Division.* The program will be administered by SBA through its Small Business Investment Division.

(h) *False statements.* The provisions of section 16 of the Small Business Act are extended specifically to the functions under the Small Business Investment Act of 1958. That section requires that whoever makes a statement knowing it to be false, or willfully overvalues any security, for the purpose of obtaining for himself or for any applicant any loan, or extension thereof by renewal, deferment of action, or otherwise, or the acceptance, release, or substitution of security therefor, or for the purpose of influencing in any way the action of SBA, or for the purpose of obtaining money, property, or anything of value, shall be punished by fine or imprisonment or both.

### § 107.12 Definitions.

*Act.* "Act" means the Small Business Investment Act of 1958, as amended.

*Administrator.* "Administrator" means the Administrator of the SBA.

*License.* "License" means the grant (evidenced by a certificate issued to the Licensee and registered in the Washington office of SBA) by SBA to a Proposed Operator, in consideration of the representations and offers contained in the License Application, of authority to conduct its business, in the territory described in the License, in accordance with and subject to the provisions and purpose of the Act and regulations of SBA prescribed thereunder; and includes the privilege of receiving financial assistance under the Act and qualifies such Licensee and its stockholders for any and all other rights, privileges and benefits available to a Licensee and its stockholders under the provisions of the Act or any other Federal or State laws.

*License Application.* "License Application" means the request to SBA for a License, by the Proposed Operator, executed and submitted on SBA Form No. 415, which shall incorporate by reference the Proposal as a part of said request.

*Licensee.* "Licensee" means a corporation which: Is enfranchised and chartered under State law, to conduct (in accordance with and subject to the provisions and purpose of the Act and in accordance with and subject to regulations prescribed by SBA under the Act) in the territory in which its operations are to be carried on, only the activities described under Title III of the Act; has executed and submitted a License Application; and, has been granted a License.

*Operating territory or area.* "Operating territory", "area in which operations are to be carried on", "areas in which Licensee operates", and similar terms, mean the territorial area or areas in which a Licensee is authorized by the terms of its License to purchase Equity Securities (as defined in § 107.502) from, to make loans to, and to provide consulting and advisory services to any small business concern (regardless of the residence, domicile, place of business, or location of the property of such small business concern) so long as such purchase, loan or service does not constitute or involve doing business in any State not included in said territorial area or areas so as to require the Licensee to register or otherwise comply with the laws of such State as a foreign corporation.

*Proponents.* "Proponents" means individuals or other entities which execute and submit a Proposal.

*Proposal.* "Proposal" means the information and representations contained in SBA Form No. 414, submitted by Proponents with the request that SBA consider the same and issue an approval for the Proponents to proceed with all action (including the incorporation of

the Proposed Operator) necessary to qualify the Proposed Operator for execution and submission of a License Application. A Proposal is in effect a preliminary License Application (see definition of "License Application").

*Proposed Operator.* "Proposed Operator" means the company identified and described in a particular Proposal and recommended therein as a prospective Licensee.

*SBA.* "SBA" means the Small Business Administration.

*SBID.* "SBID" means the Small Business Investment Division of SBA.

*Small business concern.* For the purpose of size, a "small business concern" is one which meet the applicable standards and criteria set forth under Part 121 of this chapter.

PROPOSAL

**§ 107.101 Information, instructions and forms.**

All SBA forms referred to throughout the regulations in this part have been filed with the Office of the Federal Register as part of the original document. Copies of any of these forms may be obtained from the Investment Division, Small Business Administration, Washington, D.C., 20416. Detailed printed information, instructions and forms covering the procedure and basic requirements in the grant of a license, may be obtained from SBID through the Washington or any Regional or Field Office of SBA.

**§ 107.102 Filing and processing of proposal.**

(a) *Forms.* A Proposal shall be submitted on SBA Form No. 414 to SBID through a Regional Office of SBA. The Proposal consists of three parts: Part I deals with the plans of operation; Part II deals with the experience of the Proposed Operators; and Part III is a financial statement of each proposed officer, director and ten or more percent stockholder. Part III shall be filed only in those instances where the Proposed Operator is requesting SBA funds pursuant to § 107.301(b)(1).

(b) *Other requirements.* Such Proposal shall include such further matters, in addition to those matters required by SBA Form 414, as SBA may require by regulation or otherwise or which may be submitted by the Proponents as part of the Proposal.

(c) *Need for SBIC.* In considering whether to issue a License to a Proposed Operator, due regard will be given, among other things, to the need for financing of small business concerns of the type intended to be assisted by the Proposed Operator, provided the License shall not grant to the Licensee any exclusive right in any area or areas set forth therein.

(d) *Opinion of counsel.* Counsel for the Proponents or Proposed Operator shall submit as a part of the Proposal his opinion that, among other things, the Proposed Operator is or can be chartered under State law to conduct (in the territory in which its operations are to be carried on) only the activities described under Title III of the Act, in accordance with and subject to the provisions and purpose of the Act and in accordance with and subject to regulations prescribed by SBA under the Act.

(e) *Proposal number.* Immediately upon receipt by SBID of each Proposal, SBID shall register, assign an identification number thereto, and acknowledge receipt of the same.

(f) *Investigation of proponents.* The submission of a Proposal shall constitute an authority to SBA to proceed with the consideration thereof and to conduct without liability to SBA or anyone acting for or on behalf of SBA, any investigations and inquiries with respect to any or all matters, individuals or other entities referred to in the Proposal, as may be determined by SBA.

(g) *Notice to proceed; notice of insufficiency.* After consideration of a Proposal SBA shall notify the Proponents, either:

(1) That the Proponents may proceed with all action necessary to qualify the Proposed Operator for execution and submission of a License Application; which action shall be completed and a License Application submitted by the Proposed Operator within 90 days from the date of said notice from SBA, unless such period is extended by SBA; or

(2) That such Proposal is insufficient.

(i) If, in the opinion of SBA, the sufficiency of such Proposal cannot be established through further information or action, SBA shall close the same and so notify the Proponents.

(ii) If, in the opinion of SBA, the sufficiency of such Proposal may be established through further information or action, SBA shall simultaneously with such notice allot a period of time within which the Proponents may endeavor to establish the sufficiency of such Proposal and resubmit the same.

(iii) A resubmitted Proposal which is again determined by SBA to be insufficient or a rejected Proposal which is not resubmitted within any such alloted period, shall be closed permanently by SBA and the Proponents so notified.

**§ 107.103 Organization of proposed operator.**

Unless and until SBA gives written notice to the Proponents that it does not object to the instruments and proceedings contemplated for use in the organization or qualification of the Proposed Operator as a Licensee, said Proponents should not take any final action to conclude any such organization and qualification.

**§ 107.104 Charter requirements.**

(a) The charter of a Licensee shall constitute a grant of being or continued existence as a corporate entity, by a State, in the form of a permit or certificate of incorporation or amendment or otherwise, with the specific and sole powers and authority recited below. Such powers and authority can be expressed and granted in any manner consistent with the laws of such State and requirements of the State officials charged with such responsibilities, provided that each such charter shall contain the following provision:

(b) This corporation is organized and chartered expressly for the purpose of operating under the Small Business Investment Act of 1958, as amended, and will operate in the manner and shall have the powers, responsibilities and be subject to the limitations provided by said Act and the regulations issued by the Small Business Administration thereunder.

(c) Said powers and authority shall be as follows:

(1) To act under a particular name;

(2) To issue a maximum number of shares of one or more types of its stock;

(3) To borrow money and issue its debenture bonds, promissory notes, or other obligations under such general conditions and subject to such limitations and regulations as SBA may prescribe;

(4) To provide equity capital to small business concerns (as defined by SBA) under the conditions authorized by section 304 of the Act and regulations with the right to sell or dispose of securities so acquired in such manner and under such terms and conditions as the Licensee shall determine;

(5) To make long-term loans (as defined by SBA) to small-business concerns (as defined by SBA) for the purposes and in the manner and subject to the conditions described in section 305 of the Act; with the right to sell or dispose of such loans in such manner and under such terms and conditions as the Licensee shall determine;

(6) To acquire and make commitments for obligations and securities of a single enterprise only within the limitations established by section 306 of the Act, unless such limitations are waived by SBA;

(7) To undertake its operations in cooperation with banks or other investors or lenders, incorporated or unincorporated, as contemplated under section 308(a) of the Act;

(8) To provide consulting and advisory services to small business concerns on a fee basis;

(9) To invest funds not reasonably needed for its current operations only in direct obligations of, or obligations guaranteed as to principal and interest by the United States;

(10) To conduct its operations in accordance with and subject to regulations prescribed by SBA;

(11) To submit to and pay for examinations made by direction of SBA by examiners selected, employed or approved by SBA;

(12) To make reports to SBA at such times and in such form as SBA may require;

(13) To conduct its operations in a specified area or areas, without limitation, however, as to the residence, domicile, or place of business of parties with which it transacts its business or otherwise deals;

(14) To regulate its business and conduct its affairs in a manner not inconsistent with the Act and regulations prescribed by SBA thereunder;

(15) To adopt and use a corporate seal;

(16) To have succession for a period of at least thirty years, subject to dissolution in accordance with State law; and subject to forfeiture of its License for violation of law or of regulation issued under the Act;

(17) To make contracts;

(18) To sue and be sued, complain and defend in any court of law or equity;

(19) By its board of directors, to appoint such officers and employees as may be deemed proper, define their authority and duties, fix their compensation, require bonds of such of them as it deems advisable and fix the penalty thereof, dismiss such officers or employees, or any thereof, at pleasure, and appoint others to fill their places;

(20) To adopt bylaws, regulating the manner in which its stock shall be transferred, its officers and employees appointed, its property transferred, and the privileges granted to it by law exercised and enjoyed;

(21) To maintain a principal office (which shall be designated in its Articles) and to establish branch offices or agencies within its operating territory, subject to the approval of SBA: *Provided, however,* That, whether to obtain a grant of power and authority from the State to establish branch offices or agencies shall be optional with the incorporators;

(22) To acquire, hold, operate, and dispose of any property (real, personal, or mixed) whenever necessary or appropriate to the carrying out of its lawful functions;

(23) To exercise such incidental powers as may reasonably be necessary to carry out the business for which the corporation is established.

**§ 107.105 Waiver of paragraph required by § 107.104**

In the event SBA, for cause satisfactory to SBA, waives the inclusion in a Licensee's State charter of that portion of the general provision (set forth in the second sentence of § 107.104(a)) which identifies the manner of operation, powers, responsibilities, and limitations of the Licensee by specific reference to the Act and regulations issued thereunder: The charter of such a Licensee, in lieu of such identification by reference, shall set forth specifically and in detail the manner of operation, powers, responsibilities, and limitations of the Licensee which are required of a Licensee as specified in and contemplated by the Act and regulations and to the extent and in a manner satisfactory to SBA. Further, any such Licensee shall, from time to time amends its charter in order to conform its charter purpose, manner of operation, powers, responsibilities, and limitations with those contained in and contemplated by the Act and the regulations issued by SBA thereunder from time to time.

**§ 107.106 Source of charter.**

(a) *State charter.* The charter of a Licensee shall be obtained from the State in which the Licensee operates or if the Licensee operates in more than one State said charter shall be obtained from any State within the entire area or areas in which the Licensee operates.

(b) *Operation in other States.* A Licensee conducting operations beyond the jurisdiction of the State from which it receives its charter, shall obtain authority or otherwise be entitled to conduct its activities in such other State or States in accordance with the provisions of its charter, the Act and regulations prescribed thereunder.

**§ 107.107 Directors and incorporators.**

A Proposed Operator shall conform to the laws of the State of its incorporation with respect to the number and qualification of incorporators and directors.

LICENSE

**§ 107.201 License application.**

(a) *Application.* A License Application may be submitted upon SBA Form No. 415 by the Proposed Operator only after issuance by SBA of the notice referred to under § 107.102(g)(1) and in accordance with instructions issued by SBA, including instructions contained in such notice. Such License Application shall be submitted within 90 days after issuance of said notice.

(b) *Action by SBA.* Within 180 days after submission of a License Application, SBA will give due regard, among other things, to the need for financing of small business concerns in the area in which the Proposed Operator intends to commence business, the general character of the proposed management of the Proposed Operator, and the number of existing Licensees and the volume of their operations, and after consideration of all relevant factors, will in its discretion either issue a License to the Proposed Operator or notify the Proposed Operator that after consideration of all relevant factors the SBA will not issue a License to the Proposed Operator.

**§ 107.202 Prerequisites for license.**

Prior to the issuance of a License, each Proposed Operator shall have:

(a) *License application.* Executed and submitted a License Application, including such additional information, statements and representations as may be otherwise required by SBA.

(b) *Charter.* Received a corporate charter or franchise under State laws to operate as a Licensee.

(c) *Capital.* Submitted evidence satisfactory to SBA that it has a paid-in capital and paid-in surplus equal to at least $300,000 in cash or eligible Government securities as provided in § 107.302(a) (exclusive of organizational expenses) on hand or in escrow contingent solely on the issuance of a License, as required by section 302(a) of the Act (including any commitment of SBA as described under § 107.301).

**§ 107.203 Need for and non-transferability of license.**

Only upon issuance by SBA of a License to a Proposed Operator, shall such corporation be authorized to operate under the Act. A License is not transferable in any manner.

**§ 107.204 Fees for license.**

A License fee of $100 shall be tendered to SBA by a Licensee, simultaneously with the filing of SBA Form 415.

**§ 107.205 License surrender.**

(a) *Prior approval of SBA.* A Licensee shall not surrender its license without prior written approval of SBA. Any request by a Licensee for approval of the surrender of a license shall be accompanied by a plan of dissolution. Such plan shall include provisions for the liquidation of assets, distribution thereof to shareholders, the surrender of the corporate charter, and the termination of the Licensee's existence as a corporate body. The plan shall provide for its consummation within a reasonable period of time and shall be subject to the approval of SBA. The surrender of the license shall become effective upon a determination by SBA that the provisions of the plan have been consummated.

(b) *Conditions of SBA approval.* SBA will not approve a plan of dissolution leading to surrender of a license of any Licensee having paid-in capital and paid-in surplus from private sources of as much as $300,000 (excluding organizational expenses) unless it can be demonstrated to the satisfaction of SBA that:

(1)(i) There has been no major change in the Board of Directors of the Licensee or in parties owning, holding or controlling, directly or indirectly, 10 or more percent of its stock within one year previous to the date of application for approval of the surrender and plan of dissolution; and

(ii) Substantial efforts have been made to operate the Licensee successfully but due to conditions peculiar to the Licensee, it has been unable to accomplish the purposes of the Act; and

(iii) A 20 percent reserve consisting of cash plus funds invested pursuant to § 107.710 is to be maintained against Licensee's outstanding equity investments and long-term loans for the purpose of meeting possible requirements for additional financing of existing portfolio concerns. Such reserve shall be in addition to 100 percent coverage of Licensee's outstanding commitments and other legal obligations; or

(2) It would be in the best interest of the SBIC program to allow the Licensee to dissolve and surrender its license.

*Interpretation.* Any understanding, express or implied, by which the stockholders of a dissolving SBIC will act in concert to exchange the assets of such SBIC for the securities of another corporation, is not permitted. See § 107.1009.

CAPITAL REQUIREMENTS

**§ 107.301 Subordinated debentures; minimum capital.**

(a) *Minimum use of Government funds.* In considering whether to issue a License to a Proposed Operator SBA will, in addition to all other requirements and criteria, give preference to those Proposals which contemplate the minimum use of Government funds. The management of a Proposed Operator or of a Licensee should plan and encourage the maximum investment of private funds.

(b) *Minimum capital; subordinated debentures.* A Proposed Operator must have a paid-in capital and paid-in surplus from private sources of at least $150,000 (exclusive of organizational expenses), in cash or eligible Government securities. To the extent that additional funds are not available to the Proposed

Operator from private sources on reasonable terms, it may request SBA, in the License Application, to agree to purchase Subordinated Debentures in the following amounts:

(1) In the amount required to meet the $300,000 statutory minimum, or

(2) In such greater amount, up to but not exceeding $700,000, as the Proposed Operator may match with paid-in capital and paid-in surplus from private sources.

(c) *Subordinated debentures issued after licensing.* On or before February 27, 1968, or four years after the issuance of its license, whichever is later, a Licensee may request SBA to agree to purchase its Subordinated Debentures in an amount which, when added to any Subordinated Debentures previously issued to SBA, will not exceed the lesser of:

(1) $700,000, or

(2) Its paid-in capital and paid-in surplus from private sources.

*Provided, however,* That a Licensee with paid-in capital and paid-in surplus from private sources in excess of $2,000,000 may request SBA to purchase its Subordinated Debentures in an aggregate amount of more than $400,000 only after it has borrowed the maximum amount of funds available to it pursuant to § 107.402.

(d) *Availability of private funds.* In connection with any request for such funds, the Licensee shall submit evidence satisfactory to SBA that such funds are not available on reasonable terms from private sources.

(e) *Commitment.* SBA may issue a commitment for such funds. Such commitment will expire one year from the date it is issued, but in no case later than February 27, 1969, or five years after the date of issuance of the license, whichever is later. The commitment, as well as the Subordinated Debenture itself, shall be treated as part of the paid-in capital and paid-in surplus of a Licensee for purposes of §§ 107.301, 107.402, and 107.708(a).

(f) *Terms of commitment.* A commitment fee shall be computed against the amount committed but not disbursed. Such fee will be at the rate of one-twelfth of one percent for each 30-day period or fraction thereof, beginning with the first day after the first thirty days following the date of the commitment. The fee shall be due and payable upon billing. The fee shall not apply to any amount for which disbursement is requested during the initial 30-day period following the date of the commitment. Thereafter, the fee will terminate, as to the amount requested to be disbursed, at the end of the 30-day period during which request for disbursement is made. The date which appears on the SBA form used to request the disbursement shall be deemed to be the date the disbursement is requested, but if ten days or more have elapsed between the date of the form and the date of its receipt in the Office of Investment Assistance, Investment Division, Small Business Administration, Washington 25, D.C., SBA may, in its discretion, consider that the request was made as of the date of such receipt. Disbursement of funds shall be subject to § 107.709 (a) and (b).

(g) *Terms of subordinated debentures.* Such Subordinated Debentures shall contain such terms and conditions, as shall be determined by SBA. Interest shall be at the rate of five percent per annum and maturities shall not exceed twenty years. The debentures may be prepaid at any time without penalty, subject, however, to the requirements of § 107.1001. Amortization of the debentures shall commence no later than the beginning of the second half of their term.

*Interpretations.* Repayment of subordinated debentures must not reduce capital below minimum. See § 107.1001.

Retained earnings may qualify as capital for purposes of borrowing from SBA. See § 107.1007.

Section 302 (of the Act) funds may temporarily exceed maximum in event of merger between SBICs. See § 107.1008.

Section 302 (of the Act) funds may be used to retire indebtedness to SBA under section 303 (of the Act). See § 107.1012.

### § 107.302 Licensee's stock.

(a) *Consideration.* A Licensee may issue any of its securities for (1) cash, (2) direct obligations of, or obligations guaranteed as to principal and interest by, the United States, (3) securities of which it is the issuer, in connection with a reclassification approved by SBA, (4) services previously rendered to the Licensee, (5) physical assets to be currently employed in the operation of the Licensee, (6) as a dividend, and (7) in connection with a statutory or other type of merger or consolidation with another Licensee or non-Licensee company approved by SBA pursuant to § 107.702(c): *Provided, however,* That any shares of stock issued as part of the initial minimum capital required by § 107.202(c) may be issued only in consideration of the simultaneous payment of cash or upon the simultaneous transfer to the Licensee of securities permitted by § 107.202(c). A Licensee may issue its stock for Equity Securities of a small business concern pursuant to the provisions of section 304(c) of the Act.

(b) *Options.* Options upon the stock of a Licensee may be granted to an individual only upon approval of at least a majority of such Licensee's stockholders and only in lieu of salary or in payment for services actually rendered such Licensee, and only if:

(1) At the time such option is granted the option price is at least 85 percent of the fair market value at such time of the stock subject to the option;

(2) Such option by its terms is not transferable by such individual otherwise than by will or the laws of descent and distribution, and is exercisable, during his lifetime, only by him;

(3) (i) Such individual, at the time the option is granted, does not own stock possessing more than 10 percent of the total combined voting power of all classes of stock of such Licensee. This subparagraph shall not apply if at the time such option is granted the option price is at least 110 percent of the fair market value of the stock subject to the option and such option by its terms is not exercisable after the expiration of five years from the date such option is granted.

(ii) For purposes of this subparagraph:

(*a*) Such individual shall be considered as owning the stock owned, directly or indirectly, by or for his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants; and

(*b*) Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust, shall be considered as being owned proportionately by or for its shareholders, partners, or beneficiaries; and

(c) Such option by its terms is not exercisable after the expiration of ten years from the date such option is granted.

### § 107.303 Capital impairment.

(a) *Prohibition.* Each Licensee shall maintain at all times an unimpaired capital.

(b) *Definition.* An impairment shall be deemed to exist when the retained earnings deficit exceeds fifty percent (50%) of the combined fully paid capital stock issued and outstanding and paid-in surplus. For the purpose of this determination, subordinated debentures issued to SBA pursuant to section 302(a) of the Act will not be considered a part of capital and surplus.

## Borrowing by SBIC

### § 107.401 Limits on licensee borrowing.

(a) *Debt limit.* Without the prior consent of SBA, the ratio of the total amount of outstanding indebtedness of a Licensee to the paid-in capital and paid-in surplus (including the unpaid balance due SBA under any debentures acquired under section 302(a) of the Act) of such Licensee shall not exceed four to one.

(b) *Borrowing plans.* The Proposal shall set forth in detail the policy, plans, and all other information with respect to prospective borrowings, if any, to be made by a Proposed Operator as a Licensee from any source other than SBA.

### § 107.402 Operating loans.

(a) *Maximum amount.* To the extent that a Licensee is unable to borrow or otherwise secure operating funds from private sources, on reasonable terms, SBA may lend or agree to lend to such Licensee funds for such purpose up to a total amount outstanding at any one time not in excess of fifty percent of the paid-in capital and paid-in surplus of such Licensee, including as a part of such capital and surplus any outstanding balance due SBA under subordinated debentures purchased by SBA under the provisions of section 302(a) of the Act, or $4,000,000, whichever is less.

(b) *Availability of private funds.* The funds applied for shall be deemed to be available from private sources on reasonable terms, unless it is satisfactorily demonstrated that: Proof of refusal of the required funds has been obtained from:

(1) The Licensee's bank of account, or

(2) If the amount of the loan applied for is in excess of the legal lending limit of the Licensee's bank or in excess of the amount that the bank normally lends to any one borrower, then a refusal from a correspondent bank or from any other lending institution whose lending capacity is adequate to cover the loan applied for, or

(3) Not less than two banks in cities where the population exceeds 200,000.

Proof of refusal must contain the date, amount, and terms requested, and the reasons for not granting the desired credit.

(c) *Terms.* Such loans may be prepaid at any time without penalty. Interest upon such loans shall be at the rate of 5 percent per annum and the maturity thereof shall be for a term of 6 years: *Provided, however,* That (1) SBA in its discretion may renew such loans for an additional period of 4 years and (2) in such event, the unpaid principal balance shall be repaid at a rate of 33⅓ percent per annum during each of the last three years of the extended term, i.e., during the eighth, ninth, and tenth years, respectively. Any such loan or loans made pursuant to this section shall contain such further terms and conditions as shall be determined by SBA.

(d) *Disbursement.* Disbursement of loans under section 303 of the Act will be subject to the execution and delivery of the certificate required by § 107.709.

*Interpretations.* Retained earnings may qualify as capital for purposes of borrowing from SBA. See § 107.1007.

Section 302 funds may be used to retire indebtedness to SBA under section 303. See § 107.1012.

### § 107.403 SBA sale of loans of licensee.

SBA may, in its discretion and upon such terms and conditions and for such consideration as shall be deemed to be reasonable, sell, assign, transfer, or otherwise dispose of any debenture, note, or other evidence of debt or security held in connection with any loan made under sections 302(a) and 303(b) of the Act and may accept reassignment, retransfer, and delivery thereof from any such purchaser, assignee, or transferee as may be agreed upon between SBA and such purchaser, assignee, or transferee.

## Equity Capital

### § 107.501 Equity capital.

(a) *Licensee as source of equity capital.* Each Licensee shall constitute a source of Equity Capital for incorporated small business concerns; which capital shall be supplied in a manner and under terms consistent with regulations of the Administration.

(b) *Definition.* "Equity Capital" means funds received by an incorporated small business concern from a Licensee as the consideration for the issuance of Equity Securities by such concern to such Licensee.

*Interpretation.* SBA cannot participate with an SBIC in financing a small business concern. See § 107.1002.

### § 107.502 Equity securities.

(a) *Definition.* "Equity Securities" means:

(1) Certificates of stock of any class; *Provided, however,* That whenever any such stock contains a right to convert to another class of stock or contains rights or privileges therein in the nature of stock warrants or options, no further stock purchase warrants, options or conversion rights shall be issued in connection therewith; and

(2) Instruments which evidence a debt and which provide a right or privilege to convert all or any portion of the debt instruments into stock of the small business concern, or provide nondetachable or detachable stock purchase warrants or options, or provide both a right or privilege to convert all or any part of the debt instruments into stock and also detachable stock purchase warrants or options: *Provided, however,* That no further stock purchase warrants, options or conversion rights shall be issued in connection therewith.

(b) *Collateral.* Equity Securities which evidence a debt may be secured by collateral.

### § 107.503 Maturity of equity securities.

(a) *Minimum maturity.* A Licensee shall not purchase or acquire any type of Equity Securities if the purpose of such purchase or acquisition is to furnish the small business concern with financing for a period of less than five years' duration. Equity Securities shall not require repayments during the first five years at a rate exceeding an average of twenty percent of principal per annum.

(b) *Call rights; due dates.* Equity Securities which evidence a debt shall have stated maturities of not less than five years and must be callable but on such terms as may be negotiated at the time of issuance of such Equity Securities, in whole or in part, by the issuer: *Provided,* That any right to convert the debt may be exercised prior to the effective date of such call. Such securities shall be acquired by a Licensee simultaneously with the disbursement of Equity Capital and shall evidence the total principal amount, and the interest rate, required to be paid by the small business concern in consideration for the amount of Equity Capital disbursed. Equity Securities which evidence a debt may comprise an instrument or instruments in such form and substance as may be negotiated between the Licensee and said concern consistent with the Act and regulations thereunder, provided that the maturity or maturities set forth in such instrument or instruments shall not require repayment of the total principal amount evidenced by such instrument or instruments during the first five years at a rate in excess of an average of twenty percent of the total principal thereof per annum. Whenever more than one instrument is employed, each instrument shall state on the face thereof the maturity date of the particular instrument and make reference to the maturity date(s) of the other instrument(s) involved in the disbursement.

(c) *Short term financing.* Equity Securities with maturities of less than five years may be purchased or acquired by a Licensee when necessary to protect the interests of the Licensee in previously issued long-term Equity Securities provided that similar conditions and privileges covering the long-term Equity Securities shall otherwise apply thereto. Equity Securities with maturities of less than five years' duration will not be construed "to protect the interests of the Licensee in previously issued Equity Securities" if the purpose of such short-term Equity Securities is to take care of normal short-term requirements of the small business concern.

*Interpretation.* For further definition of maximum rate of amortization see § 107.1013.

### § 107.504 Redemption provisions.

Any redemption provisions of certificates of stock shall be on such terms as may be negotiated at the time of issuance thereof, provided the redemption provisions are exercisable, in whole or in part, upon three months' notice, and provided further that any such stock which contains conversion rights may be converted prior to the effective date of such redemption.

### § 107.505 Conversions and exercise of options.

(a) *Conversion prices.* Equity Securities which are converted into stock shall be converted at a price or series of prices per share not less than the sound book value of such stock as determined at the time of the issuance of said securities: *Provided, however,* That the total purchase price of such stock which may be purchased at said price or series of prices per share shall not exceed the amount of Equity Capital provided by said securities plus the accrual of earned interest and charges on said Equity Capital to the date of conversion of said securities. "Sound book value," for the purposes hereof, shall be determined through consideration of all pertinent factors including the actual value of the assets of the small business concern and the relationship of the earnings of such concern to its invested capital.

(b) *Expiration of options.* Stock purchase warrants or options issued in connection with Equity Securities shall expire not later than two years after the stated maturity date of such Equity Securities but in no event more than ten years from the date of the issuance of such Equity Securities.

(c) *Prices under options.* The purchase price per share of shares available under warrants or options acquired in connection with the purchase of Equity Securities shall be at no less than the sound book value of such shares, as defined herein, at the time the warrant or option is issued, and the total cost of such shares shall not exceed the total amount of Equity Capital provided by the Licensee at the same time as the warrant or option was issued, except as the warrant or option may provide for successive increases in the price per share of optioned shares.

(d) *Stock prices.* The purchase price per share of shares available under certificates of stock acquired as Equity

securities shall be at no less than the sound book value of such shares, as defined herein, at the time the certificates of stock are issued.

**§ 107.506 Small business concern's indebtedness.**

(a) *Refinancing of indebtedness.* Wherever Equity Securities involve debt, any Licensee may require small business concerns to refinance any or all of its outstanding indebtedness so that the Licensee is the only holder of any indebtedness of such concern.

(b) *First refusal on new indebtedness.* Wherever Equity Securities involve debt, any Licensee may require a small business concern to agree not to incur any additional indebtedness without first securing the approval of the Licensee and giving the Licensee the first opportunity to finance such additional indebtedness; *Provided, however,* That the Licensee shall allow appropriate exceptions for open account or other short-term credit.

**§ 107.507 Small business concern's purchase of licensee's stock.**

Whenever a Licensee purchases or acquires Equity Securities of a small business concern, such concern shall have the right, exercisable in whole or in such part as such concern may elect, at the time of the issuance of such Equity Securities, to become a stockholder-proprietor by investing in the capital stock of the Licensee in an amount not more than five per centum of the Equity Securities purchased or acquired by the Licensee. The price of such stock sold by the Licensee to the small business concern under this section shall not be more than the higher of (a) the book value determined in conformity with generally accepted accounting principles, or (b) the fair market value. Factors which may be taken into consideration in determining fair market value may include, among others, market quotations, recent public or private sales, and the liquidating value, earnings, and dividend record of the Licensee's stock.

**§ 107.508 Cost of money.**

The maximum annual cost to the issuer of Equity Securities evidencing a debt charged by any Licensee for average outstanding unpaid net funds advanced shall not exceed the lesser of (a) such maximum annual cost to issuer as may be prescribed by applicable State or local law, or (b) such maximum annual cost to issuer as may be specified in the Licensee's Proposal and License Application. Cost to issuer includes all interest and discount, as well as all fees, commissions, charges, etc., against the issuer by the Licensee at the time the Equity Securities evidencing a debt are purchased and such fees, charges, etc., shall be treated as additional discount for this purpose.

**§ 107.510 Control of small business concerns.**

(a) *General.* The Act contemplates that Licensee shall finance small business concerns through equity investments and long-term loans. It does not contemplate that Licensees shall operate business enterprises or function as holding companies exercising control over such enterprises. Accordingly, a Licensee may not acquire equity securities of a small business concern primarily for the purpose of exercising indefinite control over it nor may indefinite control be exercised by one or more Licensees through management agreements, voting trusts, majority representation on the board of directors, or otherwise.

(b) *Presumption of control.* A Licensee will be deemed to control a small business concern when it owns, holds, or controls, directly or indirectly, voting securities equivalent to (1) more than 50 percent of the outstanding voting securities, if the voting securities of the small business are held by less than 50 shareholders, or (2) more than 25 percent of the outstanding voting securities, if the voting securities of the small business concern are held by 50 or more shareholders. This presumption may be rebutted by the submission of appropriate evidence satisfactory to SBA.

(c) *Control by two or more Licensees.* Where a small business concern has been financed by two or more Licensees, the aggregate amount of its voting securities which have been acquired and are held or controlled, directly or indirectly, by such Licensees acting in concert or as co-participants pursuant to an agreement shall constitute the basis for determining whether control exists pursuant to paragraph (b) of this section.

(d) *Temporary control permitted.* A Licensee may acquire temporary control over a small business concern from which it has acquired equity securities or to which it has made long-term loans only where (1) the financing is necessary to rehabilitate such concern which is threatened with insolvency or closure due to financial difficulty; or (2) the financing is provided to a small business concern which has been in existence for less than two years or to an established small business which has made substantial changes in its type of operations or products during the preceding two years, and the funds furnished by the Licensee constitute the major source of capital of the small business concern; or (3) assumption of control is reasonably necessary for the protection of Licensee's investment; or (4) SBA's prior approval has been obtained in exceptional circumstances warranting special treatment consonant with the purposes of the Act.

(e) *Plan to divest control.* Where control of a small business concern is assumed by a Licensee in accordance with paragraph (d), the Licensee must negotiate and enter into a plan providing for ultimate relinquishment of such control within a reasonable period of time. The plan may (1) provide that other existing stockholders of the small business concern shall have the right, through warrants, options or otherwise, to reacquire control from the Licensee or the right of first refusal to purchase controlling securities from it on terms and conditions negotiated at the time of the original financing; or (2) incorporate such other appropriate contractual arrangements assuring divestiture of control as may be negotiated, at or prior to assumption of actual control, upon a mutually satisfactory basis between the Licensee and other parties in interest: *Provided, however,* That such plan (1) shall not adversely affect or interfere with enforcement by the Licensee of its legal rights against a small business concern which has defaulted on its indebtedness or other obligations to the Licensee, and (ii) shall no longer continue in effect as a binding obligation on the part of the Licensee in the event of such enforcement action. If the Licensee acquires control of the small business concern as the result of the enforcement action taken, the Licensee must nevertheless relinquish control within a reasonable period of time. The Licensee shall be free to negotiate with any appropriate person or entity in connection with accomplishment such relinquishment of control.

### Long-Term Loans

**§ 107.601 Long-term loans.**

Each Licensee shall constitute also a source of funds for long-term loans for the sound financing of the operations, expansion and modernization of small business concerns. Such loans shall not provide any right in a Licensee to acquire any stock or other proprietary interest in the borrower, except through the medium of collateral security.

*Interpretation.* SBA cannot participate with an SBIC in financing a small business concern. See § 107.1002.

**§ 107.602 Maturity of long-term loans.**

(a) *Minimum maturity.* A Licensee shall not make any such loans if the purpose of such loan is to furnish the small business concern with financing for a period of less than five years' duration.

(b) *Due dates.* Any such loan shall have a stated maturity of not less than five years and all or any part of any such loan may be anticipated by the borrower on any interest payment date upon such terms as may be negotiated at the time of disbursement of the loan. The instrument of instruments evidencing any such loan shall be acquired by a Licensee simultaneously with the disbursement of the loan funds and shall evidence the total principal amount, and the interest rate, required to be paid by the small business concern, in consideration for the amount of loan funds disbursed. Any such loan may be evidenced by an instrument or instruments in such form and substance as may be negotiated between the Licensee and said concern consistent with the Act and regulations thereunder: *Provided,* That the maturity or maturities set forth in such instrument or instruments shall not require repayment of the total principal amount evidenced by such instrument or instruments during the first five years at a rate in excess of an average of twenty percent of the total pricipal thereof per annum. Whenever more than one instrument is employed, each instrument shall state on the face thereof the maturity date of the particular instrument and make reference to the maturity date(s) of the other instrument(s) involved in the disbursement.

(c) *Short-term financing.* Loans with maturities of less than five years may be made by a Licensee to a borrower when necessary to protect the interests of the Licensee in previously issued long-term loans or Equity Securities. Loans with maturities of less than five years' duration will not be construed "to protect the interests of the Licensee" if the purpose of such short-term loan is to take care of normal short-term requirements of the small business concern.

(d) *Maximum maturity.* Any such loan shall have a maturity of not exceeding twenty years; and such loans shall be of such sound value, or so secured, as reasonably to assure repayment. The Licensee may extend the maturity of or renew any such loan for additional periods, not exceeding ten years, if the Licensee finds that such extension or renewal will aid in the orderly liquidation of such loan.

*Interpretations.* An SBIC may not follow up purchase of Equity Securities from real estate developer with a construction loan of less than five years' maturity. See § 107.1004.

For further definition of maximum rate of amortization, see § 107.1013.

When a small business concern is in default, and is merging with another concern to avoid bankruptcy, a short-term loan to the survivor may be justified to protect an SBIC's investment. See § 107.1014.

**§ 107.603 Cost of money under long-term loans.**

The maximum annual cost to the borrower charged by any Licensee for average outstanding unpaid net funds advanced shall not exceed the lesser of (a) such maximum annual cost to borrower as may be prescribed by applicable State or local law, or (b) such maximum annual cost to borrower as may be specified in the Licensee's Proposal and License Application. Cost to borrower includes all interest and discount, as well as all fees, commissions, charges, etc., against the borrower by the Licensee at the time the loan is granted, and such fees, charges, etc., shall be treated as additional discount for this purpose.

**§ 107.604 Other terms.**

All loans shall be based upon negotiations between Licensees and small business concerns.

**§ 107.650 Commitments.**

(a) *General.* A Licensee is authorized to enter into a loan commitment or a commitment to furnish equity financing to a small business concern. A reasonable commitment fee may be charged.

(b) *Repayment period as to funds advanced pursuant to five-year commitment.* (1) Where a Licensee enters into a 5-year commitment to finance an eligible small business concern up to a stipulated maximum amount, disbursement of the whole or any part thereof to be made on the request of such concern in accordance with the conditions of the commitment, it shall be lawful (notwithstanding the maturity provisions of §§ 107.503 and 107.602) to provide for repayment as follows: (i) Any funds advanced during the first two years may have a common maturity date coinciding with the termination date of the commitment; and (ii) any funds subsequently advanced during the commitment period may be for a period of three years from respective dates of disbursement.

(2) Repayment of each advance made shall not be required at an annual average rate in excess of the principal amount thereof divided by the number of years of the applicable repayment period.

(c) *Stock options and warrants.* Where a Licensee enters into a commitment to provide financing to a small business concern, and the financing agreement calls for the issuance of stock options or warrants, it shall be lawful for the Licensee to acquire such stock options or warrants on or after the date of the commitment: (1) up to the full amount of any funds disbursed and (2) up to 25 percent of the undisbursed portion of any commitment obligation. Such 25 percent amount shall, for the purposes of § 107.505(c), be deemed to constitute equity capital provided by the Licensee.

### General Provisions

**§ 107.701 Lawful operations.**

(a) *Amendments to Act and regulations.* A Licensee shall be subject to all existing and future provisions of the Act and regulations issued thereunder.

(b) *Other laws.* Each Licensee shall comply with all applicable State or Federal law affecting its operation, including, but not limited to, any and all State or Federal law requiring Licensee to furnish its investors and shareholders with financial reports containing full and complete disclosure of all matters significant to their interest.

(c) *No Government liability.* Nothing in the Act or in any regulations issued thereunder or in any other provision of law shall be deemed to impose any obligation or liability on the United States Government or any agency thereof, including SBA, with respect to any obligations entered into, or stocks issued, or commitments made, by any Licensee, or with respect to any other matter involving a Licensee.

(d) *No Government sponsorship.* No Licensee, in issuing or selling any security shall represent or imply in any manner whatsoever that such security has been guaranteed, sponsored, recommended, or approved by the United States, or any agency or officer thereof, and a statement to such effect shall be included in any solicitations to investors.

(e) *Operations under Act.* A Licensee shall engage in and conduct only the activities set forth in and contemplated under the Act and shall not engage in or conduct any other activities.

(f) *Charter authority.* A Licensee shall not amend its franchise authority to permit the conduct of any activities other than as recited above.

**§ 107.702 Activities of licensee.**

(a) *Size status declaration.* No financing or consulting or advisory services may be provided by a Licensee to a business concern unless the Licensee and such concern have executed SBA Form 480, Size Status Declaration, and, based upon the information contained therein and otherwise, the Licensee has determined that the business concern is a small business within the meaning of the definition of "small business concern" set forth in § 107.12, or at the request of the Licensee or the concern, SBA has determined that the subject business concern is a small business concern within the meaning of § 107.12. In the event financing or services are approved by a Licensee for a small business concern, the Licensee shall retain the completed SBA Form 480, as a permanent part of the concern's record with the Licensee.

(b) *Purchase of securities from other Licensee.* A Licensee may exchange with or purchase for cash from another Licensee, without recourse against the seller (except for such liability as may result from the falsity of representations or warranties as to matters of fact), portfolio securities (or any interest therein) acquired from small business concerns, by such Licensee or any other Licensee: *Provided, however,* That a Licensee shall not have invested at any one time more than one-third of its total assets in such securities of small business concerns through such exchanges or purchases.

(c) *Mergers.* Subject to the prior approval of SBA, a Licensee may participate as a party to a statutory or other type of merger or consolidation with another Licensee or non-Licensee company where the resultant company will qualify as a Licensee. The proposed merger or consolidation must be approved by a two-thirds majority vote of the stockholders of each company. SBA will give consideration to such a transaction if the attendant circumstances indicate that it will augment funds available to or will otherwise benefit the SBIC program. Applications for approval of the plan of merger or consolidation will be subject to such terms and conditions as SBA, in its discretion, may impose to assure, among other things, that (1) the plan is fair, equitable and feasible; (2) adequate provision is made with regard to the rights of dissenting stockholders; and (3) the management and investment plans of the resultant Licensee company are in conformity with applicable provisions of the Act and regulations and its portfolio securities are in conformity therewith or can be conformed within a reasonable period of time.

**§ 107.703 Common management; investment advisory service.**

(a) *Common control.* Without the prior written consent of SBA, a Licensee shall not have an officer or a director who at the same time is either an officer or director of any other Licensee, nor shall 10 or more percent of the stock of any Licensee be owned or controlled, directly or indirectly, by an officer or director of, or by any party owning or controlling, directly or indirectly, 10 or more percent of the stock of another Licensee, with the following exceptions:

(1) *Attorneys.* An attorney performing legal services for Licensees may serve

as secretary or clerk for more than one Licensee; and

(2) *Common managers.* (i) Subject to prior SBA approval, two or more Licensees may employ an individual or a non-Licensee concern to serve as their common general manager. The aggregate paid-in capital and paid-in surplus from private sources of such Licensee shall not exceed $800,000, unless it is demonstrated to the satisfaction of SBA that a greater amount will better serve the interests of the SBIC program. An individual serving as manager shall be deemed an officer of each Licensee for all purposes of SBA Regulations. Notwithstanding the provisions of § 107.708 (b), at least 50 percent of the total amount of joint financing participated in by Licensees under common management during any fiscal year shall consist of loans or equity investments of $150,000 or less.

(ii) The proposed employment agreement submitted for SBA approval shall set forth relevant particulars pertaining to the identity and qualifications of the manager, the basis of compensation, effective period of employment, and such other factors bearing on the transaction as may assist SBA in determining whether approval would be consonant with the purposes of the Act. The agreement shall include adequate provision requiring the manager to refer each potential loan or investment to all Licensees of the group and afford them equal opportunity to participate in or otherwise provide the necessary financing.

(b) *Investment advisory services.* (1) Every Licensee which obtains investment advisory services or management services on a continuing basis, performed for, or supplied to such Licensee by any person or other entity other than the directors, officers, or employees in their capacities as such shall contract in writing for such services: *Provided, however,* That no Licensee may contract for such services with any person or other entity which renders the same or similar services to any other Licensee. The contract shall specifically:

(i) Describe such services;

(ii) Describe all compensation to be paid thereunder;

(iii) State the duration of the contract;

(iv) Provide for its termination by the Licensee, without penalty, on not more than 60 days written notice;

(v) Provide for its automatic termination in the event of its assignment by the person performing the service;

(vi) Provide for full disclosure to all interested parties whenever the person performing such services performs services for small business concerns doing business with the Licensee;

(vii) Be approved by a vote of a majority of the outstanding voting securities of the Licensee prior to such contract becoming effective; and

(viii) Be approved annually by a vote of a majority of the outstanding voting securities of the Licensee or by the vote of a majority of its Board of Directors, including the approval vote of a majority of those members of the Board of Directors who are not parties to, or do not have a pecuniary interest, direct or indirect, in such contract.

(2) Every Licensee shall furnish SBA, for informational and record purposes, with a copy of each contract to which the foregoing applies, on or before the effective date thereof. Contracts for appraisal, custodial, collection, bookkeeping, accounting and legal services shall not be considered advisory or management services for purposes of this part.

**§ 107.704 Capital changes; changes in plans, management and ownership.**

(a) *Capital reduction.* (1) A Licensee voluntarily may reduce its paid-in capital and paid-in surplus by an amount not exceeding one-third thereof at any time prior to August 1, 1966, and thereafter voluntarily may reduce its paid-in capital and paid-in surplus by an amount not exceeding one-third thereof at any time during each two-year period immediately subsequent thereto. The largest amount of Licensee's paid-in capital and paid-in surplus ever outstanding shall be used in computing and applying the one-third limitation hereunder.

(2) Any voluntary reduction in paid-in capital and paid-in surplus consummated prior to July 29, 1964, shall be subtracted from the one-third amount permitted during the first two years prior to August 1, 1966. The one-third limitation specified hereunder may be exceeded in order to redeem any outstanding preferred stock, or to qualify as a regulated investment company pursuant to section 851 of the Internal Revenue Code of 1954, as amended, or to consummate a quasi-reorganization approved by SBA, or to comply with any contractual arrangements between the Licensee and its stockholders approved by SBA prior to July 29, 1964. Any voluntary reduction in paid-in capital and paid-in surplus permissible within the limitations set forth herein may be accomplished only by a pro-rata distribution of such capital, except as permitted under subparagraph (3) of this paragraph or where prior SBA approval is obtained permitting such reduction to be carried out in special instances under other plans of distribution. Licensees voluntarily shall not reduce their paid-in capital and paid-in surplus below $300,000 except as may be allowed pursuant to plan of dissolution approved by SBA under § 107.205.

(3) A Licensee may purchase its own stock in an amount not exceeding two percent of its paid-in capital and paid-in surplus, as defined in subparagraph (1) of this paragraph, in any one fiscal year. Such stock purchase shall be subtracted from the maximum one-third reduction permitted under subparagraph (1) of this paragraph.

(4) Except to the extent that an exemption may be granted by SBA in special instances as being in furtherance of the purposes of the Act, a Licensee may not reduce its paid-in capital and paid-in surplus pursuant to this section if (i) there has been a major change in its Board of Directors or in parties owning, holding or controlling, directly or indirectly, 10 or more percent of its stock within one year period prior to the proposed reduction or (ii) shares of stock issued by the Licensee are selling in the open market at a price per share which is equivalent to or less than that portion of book value per share which is represented by cash plus funds invested pursuant to § 107.710 or (iii) the proposed reduction will reduce cash plus funds invested pursuant to § 107.710 to an amount which is less than 20 percent of the Licensee's equity investments and long-term loans plus 100 percent coverage of its commitments and other legal obligations. The foregoing provisions of this subparagraph (4) shall not be applicable to a Licensee having paid-in capital and paid-in surplus from private sources not exceeding $700,000.

(5) For a period of one year after accomplishing a reduction pursuant to this section, a Licensee will not be eligible for additional funds under §§ 107.301 and 107.402: *Provided, however,* That this restriction shall not apply if the reduction in paid-in capital and paid-in surplus has been no greater than the amount permitted under subparagraph (3) of this paragraph: *And provided, further,* That an exemption from this restriction may be granted by SBA if it determines that such exemption is in furtherance of the purposes of the Act.

(b) *Capital reduction with indebtedness to SBA.* Notwithstanding the provisions of paragraph (a) of this section, prior approval of SBA for voluntary reduction in paid-in capital and paid-in surplus in any amount must be obtained if a Licensee is indebted to SBA or to a financial institution to which SBA has assigned a note issued by such Licensee or if SBA has issued a commitment to loan funds to such Licensee under section 302 or 303 of the Act.

(c) *Capital increase.* A Licensee shall not increase its paid-in capital and paid-in surplus without prior written approval of SBA. A Licensee shall report to SBA within ten days any reduction in paid-in capital and paid-in surplus consummated pursuant to paragraph (a) of this section. Such report shall be in the form of a post-licensing amendment and shall set forth the date and amount of the reduction effected as well as the form and manner of distribution made to stockholders.

(d) *Changes in plans, management and ownership.* A Licensee shall not change its investment policy, plans to raise additional capital, borrowing or other plans previously submitted to SBA in its Proposal or in any other document at any other time, without the prior written consent of SBA. Any change in the officers, directors, or owners of ten or more percent of its stock, as set forth in its Proposal or otherwise previously submitted to SBA, shall be reported immediately to SBA. All changes shall be filed in the form of a post-licensing amendment and shall be subject to the approval of SBA as a condition for the continuance of the License of such Licensee. Any conditions imposed by SBA in connection with the latter shall be complied with by the Licensee. Any post-licensing amendment involving a change in the officers, directors, or owners of ten or more percent of the stock of a Licensee that has borrowed funds

outstanding from SBA, pursuant to § 107.301(b)(1) or to which SBA is committed to disburse funds pursuant to a Subordinated Debenture executed by such Licensee under such section of the regulations, shall include as a part thereof an executed Part III (Financial Statement) of SBA Form 414 for each such officer, director or stockholder: *Provided, however,* That such executed Part III shall not be required to be submitted where the Licensee's paid-in capital and paid-in surplus equals at least $300,000, exclusive of funds disbursed or committed by SBA pursuant to a Subordinated Debenture executed by such Licensee, or where the new officer, director, or stockholder is a person or entity which has previously been accepted by SBA as an officer, director, or stockholder of such Licensee.

**§ 107.705 Consulting and advisory services.**

(a) *Nature of services.* Consulting and advisory services shall consist only of advice with respect to the financial, management and operating activities of a small business concern; and shall not include performance by the Licensee of any financial, management or operating activity of the small business concern.

(b) *Concerns eligible for services.* Consulting and advisory services may be provided by a Licensee to only (1) those small business concerns which meet the eligibility requirements under the Act and the regulations thereunder; and (2) another Licensee in connection with the financing of a small business concern with which the latter Licensee proposes to negotiate forthwith or is then in process of negotiation for financing.

(c) *Source of income.* A Licensee may render consulting and advisory services to small business concerns for whom the Licensee does not provide financing: *Provided, however,* That such services shall not constitute a major source of the income of a Licensee (including as part of Licensee's income the net income, before Federal income taxes, of said Licensee's subsidiary corporation under § 107.706).

**§ 107.706 Subsidiary corporation for consulting and advisory services.**

(a) *Organization and capitalization of subsidiary.* A Licensee may organize and establish a corporation which shall become, and remain, chartered for the sole and express purpose of providing consulting and advisory services to small business concerns subject to the provisions of the Act and the regulations thereunder, including § 107.705, and including in addition thereto:

(1) All of the stock of the subsidiary corporation shall be owned and totally held by the individual Licensee that shall organize such subsidiary corporation; the parent-Licensee shall never sell, transfer or otherwise divest itself of any part of the stock of its subsidiary corporation, except that the parent-Licensee may transfer back part of the stock of its subsidiary corporation to the treasury of the subsidiary corporation and such stock shall be forthwith retired and cancelled. In the event of the liquidation of the subsidiary corporation, the charter of such corporation shall be surrendered and terminated.

(2) Each officer or director of the subsidiary corporation must be at the same time either an officer or a director of the parent-Licensee.

(3) The financial investment by the parent-Licensee in its subsidiary corporation shall not exceed one percent of the Licensee's paid-in capital and paid-in surplus. Advances and other receivables due the parent-Licensee by its subsidiary corporation shall not exceed one percent of the Licensee's paid-in capital and paid-in surplus.

(b) *Licensee's responsibility.* The parent-Licensee shall be responsible for compliance by its subsidiary corporation with the Act and the regulations. Reports submitted to SBA by the parent-Licensee shall reflect consolidated figures covering the activties of both the parent-Licensee and its subsidiary corporation, and the subsidiary corporation shall make such separate reports covering its activities to SBA as shall be required by SBA. The subsidiary corporation shall be subject to examinations by examiners selected or approved by SBA, and in the event of the failure by the subsidiary corporation to make reports or to submit to examinations as required by SBA, such failure by the subsidiary corporation may be acted upon by SBA as the failure of the parent-Licensee and shall subject the latter to any penalty provided in the Act or the regulations thereunder.

**§ 107.707 Services to banks or other investors or lenders.**

A Licensee may render services for and receive compensation from banks or other investors or lenders, incorporated or unincorporated, only in connection with the financing of, or the providing of consulting and advisory services to, a small business concern by the Licensee in participation or cooperation with such bank or other investors or lenders.

**§ 107.708 Investment and loan limits.**

(a) *Size of investments and loans.* Without the prior written approval of SBA, the aggregate amount of funds loaned to, or invested in Equity Securities of, any single small business concern, or for which commitments may be made, shall not exceed twenty percent of the combined paid-in capital and paid-in surplus of any Licensee (including in such Licensee's capital and surplus the outstanding amount of any SBA loans and commitments under § 107.301).

(b) *Participations.* Without the prior written approval of SBA, no more than five Licensees may, by participation or otherwise, provide Equity Capital or long-term loans to any single small business concern unless the total financing involved is $500,000 or less.

*Interpretations.* The 20 percent limit refers to the funds advanced by an SBIC, not to the face amount of a debt security. See § 107.1010.

For purposes of the 20 percent limit, concerns affiliated with each other are considered to be a single entity. See § 107.1011.

**§ 107.709 Disbursement of SBA funds.**

(a) *Disbursement request.* Prior to the disbursement of any funds to a Licensee under the authority of section 302(a) or section 303(b) of the Act, the Licensee, by and through its duly authorized officer, shall execute and deliver to SBA the written certification and statement on SBA Form No. 420.

(b) *Disbursement conditions.* Such certificate and statement may be qualified with such information, explanation, and data as the parties thereto may determine and establish as a part thereof: *Provided, however,* That upon the inclusion in any such certificate and statement of any such qualifying material SBA may withhold disbursement of all or any portion of the funds involved pending consideration thereof by SBA, and after such consideration SBA may thereupon or subsequently cancel any commitment or other obligation to disburse all or any portion of the funds involved. If SBA shall determine, by examination or otherwise, that there is an impairment of capital or that there has been a violation by the Licensee of any other provision of the regulations, SBA may withhold disbursement of all or any portion of the funds involved and may thereupon or subsequently cancel any commitment or obligation to disburse all or any part of the funds involved.

(c) *Loan application.* The loan application for SBA funds under section 302(a) of the Act shall be submitted as part II of SBA Form 415. The loan application for SBA funds under section 303(b) of the Act shall be submitted on SBA Form 416.

**§ 107.710 Idle funds.**

Funds of a Licensee not employed in accordance with the provisions of sections 304 and 305 of the Act and the regulations thereunder, and not invested in accordance with the last sentence of section 308(b) of the Act, shall, as soon as practicable after receipt thereof, be placed on demand deposit with a commercial bank (or banks) which is a member of the Federal Deposit Insurance Corporation, or placed on time deposit with such a bank, evidenced by a Time Certificate of Deposit, the maturity of which shall not be longer than one year from the date of such deposit: *Provided, however,* That a Licensee may establish and maintain an imprest petty cash fund in an amount not to exceed $500 at any one time.

*Interpretation.* See § 107.1005 for specifics on idle funds investments permitted by section 308(b) of the Act.

**§ 107.711 Fidelity insurance.**

(a) *Need for bond.* Each Licensee shall obtain and maintain a fidelity bond which must be executed by a surety holding a certificate of authority from the Secretary of the Treasury pursuant to sections 6–13 of Title 6 of the United States Code as an acceptable surety on Federal bonds. Each officer and employee who has control over or access to cash securities or other property of the Licensee, shall be covered by such fidelity bond. The form of bond must meet the provisions of paragraphs (b) and (f) of this section.

(b) *Type of bond.* Each Licensee shall be covered by a Brokers Blanket Bond, Standard Form No. 14. A Licensee may

be covered by Bankers Blanket Bond, Standard Form No. 24, if it meets the provisions of paragraph (c) of this section. In general, riders to such standard form bonds are unacceptable and should not be used unless they patently increase the benefits under the policy. SBA has held the following riders to be unacceptable:

SR 5307, Valuation Clause Rider;
SR 5568, Discovery Rider (Form 14);
SR 5506, Discovery Rider (Form 24);
SR 5571, Rider-Discovery Form, or
SR 5771, Rights after Termination or Cancellation;
SR 5301, Delete Misplacement Rider.

(c) *Banks.* A Licensee, the majority (more than 50 percent) of whose voting stock is owned by one or more commercial banks that are members of the Federal Deposit Insurance Corporation, or the majority of whose voting stock is owned by a single bank holding company whose subsidiary banks are members of the Federal Deposit Insurance Corporation, may be included as a joint insured under a Bankers Blanket Bond, Standard Form No. 24, which insures the parent commercial bank(s) or the parent bank holding company. In those instances and to the extent that coverage under Bankers Blanket Bond, Standard Form No. 24, has been restricted by the use of one or more deductible insuring clauses which would apply to the Licensee also, a Brokers Blanket Bond, Standard Form No. 14, must be employed to furnish coverage for the deductible amounts.

(d) *Approval of bank directors.* In order for the provisions of paragraph (c) of this section to be applicable, the board of directors of the commercial bank(s) or the bank holding company must approve extending the Bankers Blanket Bond, Standard Form No. 24, to include the Licensee as a joint insured. They also must approve any Brokers Blanket Bond, Standard Form No. 14, needed to furnish the coverage restricted by deductible insuring clauses as set forth in paragraph (c) of this section. A certified copy of the minutes of the meeting(s) of the board of directors of such parent organization(s) at which such bond or bonds were approved shall be retained in the permanent records of the Licensee.

(e) *Approval of Licensee's directors.* The board of directors of the Licensee must approve the fidelity bond or bonds of the Licensee. A certified copy of the minutes of the meeting(s) of the board of directors at which such approval was given must be retained in the permanent files of the Licensee. In addition, the Licensee must obtain from the issuer of such fidelity bond a statement in writing certifying that the bond or bonds, as provided, fulfill the requirements of this § 107.711.

(f) *Cancellations and claims.* Each Licensee, at least thirty days prior to making any request to the surety to terminate or cancel such bond, shall notify SBA in writing of its intent to terminate or cancel the bond. Each Licensee shall have as a part of its verified bond a rider or endorsement providing that the surety will notify SBA of its intent to cancel the fidelity bond at least thirty days in advance of the effective date of the cancellation. Each Licensee shall notify SBA immediately in writing of any claim for loss filed under the bond with the surety. Such notifications to SBA shall be by certified mail addressed to the Deputy Administrator, Investment Division, Small Business Administration, 811 Vermont Avenue NW., Washington, D.C., 20416.

(g) *Amounts.* The minimum amount of fidelity bond for each Licensee acceptable to SBA shall be based upon the total amount of the assets of the Licensee (including any undisbursed commitment, under § 107.301(b)(1)) plus the unpaid balance of loans and investments which the Licensee has contracted to service for others, as follows:

| Assets plus loans and investments serviced for others: | *Minimum coverage* |
|---|---|
| Up to $400,000 | $25,000 |
| $400,001 to $500,000 | 30,000 |
| $500,001 to $750,000 | 40,000 |
| $750,001 to $1,000,000 | 50,000 |
| $1,000,001 to $2,000,000 | 75,000 |
| $2,000,001 to $3,000,000 | 100,000 |
| $3,000,001 to $4,000,000 | 125,000 |
| $4,000,001 to $5,000,000 | 150,000 |
| $5,000,001 to $7,500,000 | 175,000 |
| $7,500,001 to $10,000,000 | 200,000 |
| $10,000,001 and over | (1) |

[1] $200,000 plus $10,000 for each $1,000,000 or fraction thereof over $10,000,000, except that no Licensee shall be required to provide and maintain a fidelity bond in an amount greater than $1,000,000.

(h) *Bank custodian.* Notwithstanding the provisions of paragraph (g) of this section, if a Licensee's portfolio securities are held by a commercial bank, which is a member of the Federal Deposit Insurance Corporation, as custodian under a custodianship agreement, such commercial bank's fidelity bond may be construed as furnishing the Licensee with adequate surety protection for securities and funds in its custody: *Provided,* That the amount of assets, as defined in paragraph (g) of this section, in the possession of the Licensee at any one time, or $400,000, whichever is greater, is covered by a Brokers Blanket Bond, Standard Form No. 14.

### § 107.712 Identification of Licensee.

(a) *Name.* The corporate name shall be such as not to misinform or mislead interested parties and the public of the purpose and function of said company. Such corporate name shall not include the words "United States", "National", "Federal", "Reserve" or "Government". The name shall not be so similar to that of another organization as to imply association with any other organization without prior approval from such organization.

(b) *Display of License.* Each Licensee shall display its original License in a prominent place in or about its principal office; and a copy thereof shall be displayed likewise in or about any branch office or agency. If the offices of the Licensee are within the offices of any other person, firm or entity, the name of the Licensee must appear on or at the entrance leading into such offices.

(c) *Company literature.* Advertisements, annual statements, display signs, solicitations to investors, any communication made by or at the behest of a Licensee intended as a public statement by said Licensee, or any printed matter, including stationery imprinted with the name of the Licensee, shall identify that Licensee as "a Federal Licensee under the Small Business Investment Act of 1958."

### § 107.713 Common tenancy.

(a) *Prohibition.* A Licensee shall not establish or maintain an office or place of doing business which is located in the same physical premises or place of business of any other Licensee. A Licensee shall not have a common private entrance or a private connecting door or entrance with any other Licensee. Nothing contained herein shall prevent two or more Licensees from occupying space in the same office building.

(b) *Exception.* Licensees employing a common general manager pursuant to § 107.703(a) may apply to SBA for an exemption from the provisions of this section.

### § 107.714 Branch offices and agencies.

A Licensee shall not establish any branches or agencies except with the prior approval of SBA. If the establishment of such branch or agency does not occur within 60 days of such approval, such approval will be withdrawn.

### § 107.715 Prohibited uses of funds.

No funds may be provided by a Licensee for:

(a) *Relending.* Relending by the small business concern; nor may funds be provided to a small business concern if the business activity of such concern involves the investing, lending, or other providing of funds to others in exchange for an equity interest or monetary obligation;

(b) *The Act.* Purposes not contemplated by the Act;

(c) *The public interest; gambling and monopoly.* Purposes contrary to the public interest, including but not limited to gambling enterprises and activities, and any purpose which would encourage monopoly or be inconsistent with accepted standards of free competitive enterprise; or

(d) *Foreign investment.* Use outside the States: *Provided, however,* That a Licensee may provide funds to a small business concern which is subject to State or Federal jurisdiction, (1) for use in the domestic production of products for distribution abroad, or to acquire abroad materials for such operation or (2) for use in its branch operations abroad or for transfer to its controlled foreign subsidiary in exchange for further equity interest in or the monetary obligation of such foreign subsidiary; so long as the major portion of the assets and activities of such concern, after funds are so employed, remains within the territorial jurisdiction of the States.

(e) *Land speculation.* Financing land speculations of small business concerns: *Provided, however,* That small business concerns may use funds for the acquisition and prompt development of land.

(f) *Passive businesses.* Any corporation, individual, partnership, or of any other entity, that is not engaged in a business operation conducted as a regular and continuous activity. The mere ownership of property, and the collection of rents, income or profits therefrom, shall not constitute a business operation unless the lessor is regularly and continuously engaged in performing services in connection with the operation or maintenance of such leased property.

(g) *Vendor's customers.* A small business concern which is a customer of a vendor, which vendor or any controlling person or group thereof controls the Licensee, if 50 percent or more of the funds (or funds of the small business concern released by such financing) are used by the small business concern to purchase items or services sold to the small business concern by such vendor. As used hereunder the term "controls" or "controlling" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a vendor or the Licensee, whether through the ownership of voting securities, by contract, or otherwise. Any person, corporation, or any other entity which owns beneficially, either directly or indirectly, 25 per centum or more of the voting securities of a vendor or Licensee shall be presumed to control such company.

(h) *Alcoholic beverages.* Enterprises which derive a substantial portion of their net sales from the sale of alcoholic beverages, where such funds represent proceeds of loans obtained from SBA under section 302(a) or 303(b) of the Act. Accordingly, within thirty days after the disbursement of any loan funds to Licensee under authority of section 302(a) or section 303(b) of the Act, and thereafter during the period in which any such loan, or any part thereof, remains unpaid, the Licensee shall maintain assets consisting of cash, eligible Government obligations, and portfolio investments and loans involving enterprises which do not derive a substantial portion of their net sales from the sale of alcoholic beverages (exclusive of all investments and loans already in the Licensee's portfolio at the time that the proceeds of such loans were disbursed), equal in face value to no less than the unpaid principal of such loan.

(i) *Agriculture.* Agricultural enterprises.

*Interpretations.* Financing of professional associations is prohibited by § 107.715(a). See § 107.1006.

Regarding § 107.715(c), SBIC investments in radio and television stations are not considered as contrary to the public interest. See § 107.1015.

Regarding § 107.715(i), see § 107.1003 for distinction between agriculture and business.

### § 107.716 Self-dealing limitation.

(a) *Prohibition.* Self-dealing to the prejudice of SBA or the Licensee's shareholders is prohibited.

(b) *Prior approval of SBA.* Without the prior written approval of SBA, a Licensee shall not purchase Equity Securities of, or make a loan to, an officer or a director of the Licensee, or any person owning or controlling, directly or indirectly ten or more percent of the stock of said Licensee, or any close relative of such officer, director, or stock owner or controller, nor shall the Licensee purchase Equity Securities of or make a loan to any company in which such officer or director or such owner or controller of the Licensee's stock, or his close relative is an officer or director or owns or controls ten or more percent of the stock of such company: *Provided, further,* That without the prior written approval of SBA a Licensee shall not make such purchase of such securities or make such loan within six months after the termination of such officership or directorship in the Licensee, or within six months after the termination of such ownership or control of ten or more percent of the Licensee's stock. Nothing herein contained is intended to preclude a Licensee from permitting an officer, employee or representative from serving as a director, officer, or in any other capacity in the management of a small business concern for the purpose of protecting its investment in or loan to such concern.

(c) *Borrowing from small business concern.* Without the prior written approval of SBA, no Licensee, nor any officer or director thereof, shall borrow money from a small business concern, or from any officer, director or owner thereof, which has sold Equity Securities as defined in § 107.502 to or has borrowed money from said Licensee.

### § 107.717 Internal control.

(a) *General.* Each Licensee shall adopt a plan of organization and coordinate methods and measures designed to safeguard its assets and check the accuracy and reliability of its financial data. Effective control arrangements shall be established and maintained covering the Licensee's personnel, portfolio of investment securities, funds, and equipment.

(b) *Dual control.* With the exception provided for hereinafter, each Licensee shall establish and maintain dual control over disbursement of funds and withdrawal of securities from safekeeping. Disbursements of funds from bank accounts of a Licensee shall be made only by means of checks requiring the signatures of two or more officers of the Licensee, covered by the Licensee's fidelity bond, as drawers of such checks: *Provided, however,* A Licensee may establish and maintain a separate imprest bank account to be drawn upon for the payment of operating expenses. Such imprest bank account shall have an aggregate balance not in excess of $25,000 or the amount of fidelity bond coverage carried by the Licensee, whichever is the lesser; such account shall be reimbursed periodically through deposit therein of a check requiring dual signatures and drawn on Licensee's general funds bank account, covering disbursements made from the imprest bank account which have had the post-approval of the two signers of the reimbursement check. Checks drawn upon such imprest bank account in amounts of $1,000 or less may be signed by any authorized bonded officer of the Licensee. Checks drawn on such account for amounts in excess of $1,000 or any check drawn upon any other account maintained by the Licensee shall require the signatures of two or more bonded officers of the Licensee as drawers thereof. Two or more bonded officers or one bonded officer and one bonded employee of the Licensee shall be required to open safe deposit boxes or withdraw securities from safekeeping. Each Licensee shall furnish to each of its depository banks, custodians, and entities providing safe deposit boxes a certified copy of the resolution adopted by its board of directors placing the foregoing control procedures in effect.

### § 107.718 Reporting litigation.

Every Licensee which is a party in any capacity to litigation or other proceedings, including any action by the Licensee or a security holder thereof in a derivative capacity against an officer, director, investment adviser or trustee of such Licensee for alleged breach of official duty, shall within 10 days of becoming a party thereto file a report with SBA describing the nature and status of the proceedings, the identity of and Licensee's relationship to other parties involved and, upon SBA's request, submit copies of the pleadings and other documents specified by it. In case such proceedings have been compromised or settled or final judgment has been entered on the merits, the Licensee shall furnish SBA with a statement of the terms of such settlement or compromise, or describing the final judgment entered.

### § 107.719 Retention of loans and investments.

(a) *General.* The Act requires each Licensee to assist small business concerns so as to encourage their growth, expansion, and modernization. In fulfilling this requirement, many small business concerns which have been assisted will grow large as a result of normal growth and will no longer qualify as small pursuant to §§ 107.12 and 121.3–11 of this chapter. In other instances, the securities of small business concerns will be exchanged for those of large businesses in connection with their merger or affiliation with such large businesses, or the disposition of portfolio securities in default situations.

(b) *Normal growth.* A Licensee may indefinitely retain the securities of a business which qualified as a small business concern at the time the Licensee acquired such securities, and which concern subsequently became large as a result of normal growth. Such concern will be considered to have experienced normal growth if it increased in size due to retained earnings, public sale of its securities, merger with other small business concerns, or as a result of other circumstances determined by SBA to constitute normal growth.

(c) *Merger or affiliation with large businesses; and default situations.* Securities of a large business received by a Licensee in connection with the merger or affiliation of a portfolio concern with such large business or the disposition of portfolio securities in default situations, may be retained as long as continued ownership does not interfere with the Licensee's ability to maintain on

hand funds in adequate supply for the financing of small business concerns: *Provided, however,* That the Licensee may in any event retain such securities until it has fully recovered the amount of its original investment plus a reasonable return thereon.

(d) *Additional investments.* When a small business has become large through normal growth, merger, or affiliation, a Licensee may make additional investments in the resultant large business concern (1) to the extent of honoring its commitment liability entered into while the business still qualified as a small business concern, and (2) if necessary to protect its original investment.

EXAMINATIONS AND REPORTS

**§ 107.801 Examinations.**

(a) *All Licensees.* Each Licensee shall be subject to examination by SBA.

(b) *Nature of examination.* Such examinations shall cover any and all matters as determined by SBA, and shall be conducted by SBA examiners or by any examiners selected or approved by SBA.

(c) *Cost of examination.* The cost of each examination made by other than SBA examiners shall be paid by the Licensee involved; and the cost of any examination made by SBA examiners, including the compensation of such examiners, may, in the discretion of SBA, be assessed against the company examined and when so assessed shall be paid by such company.

(d) *Time and manner of examination.* The time and manner of conducting any such examination shall be determined by SBA in each case.

(e) *Audits by independent accountants.* As such examinations, SBA may accept an audit and examination conducted by an independent certified public accountant; independent licensed public accountant, certified or licensed by a regulatory authority of a State or other political subdivision of the United States; or, in States or other political subdivisions of the United States which do not license public accountants, and independent public accountant of recognized standing with ten or more years of public accounting experience; selected or approved by SBA, and a report of such audit and examination containing such audit and examination containing the accountant's certificate required by § 107.802 with such additional information as may be requested by SBA.

**§ 107.802 Reports.**

(a) *Records.* Each Licensee shall keep current financial records in accordance with generally accepted accounting principles, including the maintenance of books of account in accordance with the System of Account Classifications prescribed by SBA as set forth in Part 111 of the Regulations. All such financial records and minutes of meetings of stockholders, directors, executive committees or other officials; and all files containing pertinent documents and supporting material employed by a Licensee with respect to any and all transactions of the Licensee shall be kept at its principal place of business: *Provided, however,* That there shall be excepted from the foregoing all portfolio items held by a custodian for Licensee pursuant to written custodian agreement. All finanical reports furnished to SBA by Licensees shall make full and complete disclosure of all matters relevant to the Act and Regulations.

(b) *Reports to stockholders.* At the time any financial report (including any prospectus) is furnished to investors and shareholders of a Licensee, such Licensee shall submit to the Investment Division; Small Business Administration, Washington, D.C., 20416, three (3) copies of such report.

(c) *Reports to SBA.* Each Licensee shall submit to SBA, at the end of the first six months period of each fiscal year, a report containing financial statements covering such six months period; at the end of each fiscal year a report containing financial statements for the fiscal year; and, when requested by SBA, interim financial reports. The fiscal year to which such reports shall relate shall be for SBA purposes the period beginning April 1 and ending March 31.

(1) The report as of the end of each fiscal year shall contain, or be accompanied by, an independent accountant's opinion on the financial statements for the fiscal year included therein, unless a different twelve-month period to be covered by the annual audit is expressly given prior approval in writing by SBA. Such opinion shall be based on an audit conducted in accordance with generally accepted auditing standards and shall be rendered by an independent certified public accountant; independent licensed public accountant, certified or licensed by a regulatory authority of a State or other political subdivision of the United States; or, in States or political subdivisions of the United States which do not license public accountants, and independent public accountant of recognized standing with ten or more years of public accounting experience; selected or approved by SBA.

(2) The accountant's certificate shall be dated, shall be signed manually, and shall identify without detailed enumeration the financial statements covered by the certificate. The accountant's certificate shall state whether the audit was made in accordance with generally accepted auditing standards; and shall designate any auditing procedures generally recognized as normal, or deemed necessary by the accountant under the circumstances of the particular case, which have been omitted, and the reasons for their omission. Nothing in this section shall be construed to imply authority for the omission of any procedure which independent accountants would ordinarily employ in the course of an audit made for the purpose of expressing the opinion required as stated hereinafter. The accountant's certificate shall state clearly: (i) The opinion of the accountant in respect of the accounting principles and practices reflected in the financial statements and as to the fairness with which the financial statements present the financial position of the Licensee at the audit date and the results of its operations for the period; (ii) the opinion of the accountant as to any material changes in accounting principles or practices or method of applying the accounting principles or practices, or adjustments of the accounts, which affect comparability of such financial statements with those of prior or future periods; and (iii) the nature of, and the opinion of the accountant as to, any material differences between the accounting principles and practices reflected in the financial statements and those reflected in the accounts after the entry of adjustments for the period under review. Any matters to which the accountant takes exception shall be clearly identified, the exception thereto specifically and clearly stated, and, to the extent practicable, the effect of each such exception on the related financial statements given.

(d) *Forms for Financial Reports.* The financial reports required by this section to be submitted to SBA by Licensees shall be on the prescribed form constituting the Financial Report, SBA Form 468, which is designed for submission in part or in its entirety. Part I requires statement of financial condition, statement of statutory capital and surplus, statement of income and expense, and statement of realized gain or loss on investments. Part II requires supporting Schedules 1 through 7, and Part III requires supporting Schedules 8 through 20. Part I, together with any schedule(s) of Parts II and III that may be specified, comprises the interim report required to be submitted, upon request by SBA, for any period of one month or more. Parts I and II comprise the report required to be submitted to SBA covering the first six months period of each fiscal year. Parts I, II, and III comprise the annual report required to be submitted to SBA covering the entire fiscal year. With the exception of the annual report, the Financial Report shall be submitted in triplicate to the Investment Division, Small Business Administration, Washington 25, D.C., on or before the last day of the month immediately following the close of the period covered by the report. Such annual report shall be submitted in triplicate to the Investment Division, Small Business Administration, Washington 25, D.C., on or before the last day of the third month following the close of the fiscal year to which such annual report relates. When the Licensee has one or more branch offices, the data contained in the basic financial statements and all supporting schedules shall comprise a consolidation of the figures for the principal office and all branches. All money amounts required to be shown in the financial statements and schedules may be expressed in even dollars, at the option of the Licensee. If the financial data are expressed in even dollars, appropriate adjustments of individual amounts shall be made for the fractional parts of a dollar so that the items will add to the totals shown. The Financial Report prepared by each Licensee shall present fairly the financial position of the Licensee as of the close of the period covered by the report and the results of the Licensee's operations for such period, and shall be prepared in accordance with the detailed instructions accompanying SBA Form 468.

(e) *Verification of reports.* The verification of the Financial Report shall bear the signature of the chief financial officer, or other officer authorized by the board of directors to sign in the event the chief financial officer is unavailable. The date on which the signature is affixed shall be shown. When only Part I of the Financial Report is submitted, with or without any specified schedule(s) from Parts II and III, the signature shall be affixed in the space provided therefor in Part I; when Parts I and II of the Financial Report are submitted, the signature shall be placed in the space provided therefor in Part II and need not be affixed in Part I; and when Parts I, II, and III of the Financial Report are submitted, the signature shall be entered in the space provided therefor in Part III and need not be affixed in either Part I or Part II. When Parts I, II, and III are submitted a secretarial officer of the Licensee shall attest by signature to the fact that the minutes of a meeting of the board of directors of the Licensee show that the Financial Report comprising Parts I, II, and III has been reviewed and approved by the board of directors. All three copies of the Financial Report to be furnished to the Small Business Administration shall bear the original signature(s) of the verifying officer(s) in ink.

(f) *Designations.* Whenever any assets are pledged as collateral or are earmarked for segregation under a negative pledge or similar agreement, the word "pledged" or the word "earmarked," as appropriate, together with the amount involved, shall be shown in parentheses immediately following the appropriate asset title in the statement of financial condition, and the identity of the assets pledged or earmarked shall be indicated in the supporting schedules. Whenever amounts are classified as "current" and "noncurrent," "current" shall refer to the amount maturing within one year and "noncurrent" shall refer to the amount maturing after one year. If, however, an amount will mature within one year but is not reasonably expected to be paid when due, it shall be classified as "noncurrent."

(g) *Obtaining forms for report.* Copies of the Financial Report, SBA Form 468, together with instructions, are available at the office of the Deputy Administrator, Investment Division, of the Small Business Administration, 811 Vermont Avenue NW., Washington 25, D.C., and all Regional Offices of the Small Business Administration, the addresses of which offices may be obtained from the office of the Deputy Administrator, Investment Division, of the Small Business Administration, 811 Vermont Avenue NW., Washington 25, D.C.

(h) *Form 468.* The Financial Report, SBA Form 468, required to be used by all Licensees in making financial reports to SBA is designed to furnish the companies and SBA with the information needed for their respective purposes. The Financial Report, SBA Form 468, and the instructions pertaining thereto are incorporated in and expressly made a part of this section.

(i) *Other reports.* In addition to the reports required elsewhere in this section each Licensee shall, upon request by SBA, submit to the Investment Division, Small Business Administration, Washington 25, D.C., such other reports at such times and in such forms as SBA shall require.

ENFORCEMENT

**§ 107.901 Investigations.**

The Administration may make such investigations under section 310 of the Act and the Rules Governing Investigations (Part 110 of this chapter) as it deems necessary to determine whether a Licensee or other person has engaged or is about to engage in any acts or practices which constitute or will constitute a violation of any provisions of the Act or any rule, regulation or order issued thereunder.

**§ 107.902 Enforcement actions.**

Whenever it appears from complaints, examinations, compliance reports, investigations or otherwise that there have been (a) willful or repeated violation or failure to observe any provision of the Act or of any rule or regulation issued thereunder, or any cease and desist order issued by the Administration, or false statements knowingly made in connection with obtaining the issuance of a license, SBA may institute adjudicative proceedings under section 309 of the Act in accordance with the Rules of Practice for Adjudicative Proceedings (Part 109 of the regulations) for the purpose of suspending the license of the Licensee; (b) non-compliance with or a violation of the Act or any regulation issued thereunder, SBA may initiate (i) adjudicative proceedings under said section 309 for the entry of a cease-and-desist order (coupled with suspension of the license pending compliance therewith), said order being reviewable by and enforceable in the appropriate United States Court of Appeals, or (ii) court action under section 308(d) of the Act for a judicial determination of the violation as the basis for revocation of the license by the Administration; or (c) where the Licensee or any other person has engaged or is about to engage in acts or practices contrary to the Act or any rule, regulation, or order issued thereunder, SBA may institute proceedings under section 311 of the Act before a Federal district court for injunctive relief or the entry of an order enforcing compliance and, wherever appropriate, appointment of a trustee or receiver to take over and administer the Licensee's assets under the direction and pursuant to the exclusive jurisdiction of the court.

**§ 107.990 Exemptions.**

Any Licensee may file an application in writing with SBA to have a proposed action, which is subject to procedural or substantive requirements specified under this part, exempted from applicable provisions thereof. SBA may approve such application and grant an exemption, conditionally or unconditionally, to the extent that such requirements are not prescribed by statute and exemption therefrom would not be contrary to the provisions of the Act. Favorable consideration will be given to such application where supporting evidence demonstrates to SBA's satisfaction that (a) the terms of the proposed action are fair and equitable; and (b) the exemption requested is reasonably calculated to advance the best interests of the SBIC program in a manner consonant with the policy objectives of the Act and regulations.

INTERPRETATIONS

**§ 107.1000 Capital structure of Licensees (interpreting section 302 of the Act).**

Whenever capitalization of Licensee is to consist of more than one class of stock the voting rights and other rights and remedies may not be inequitable or discriminatory, and may not unduly concentrate control or management of the Licensee through pyramiding, inequitable methods, or inequitable distribution. Full disclosure of all voting rights and other rights and remedies of all classes of stock must be made to all shareholders prior to their purchase of stock.

**§ 107.1001 Repayment of subordinated debentures (interpreting section 302(a) of the Act and relating to § 107.301).**

(a) *Minimum capital.* Repayment of subordinated debentures must be made in such manner as not to reduce paid-in capital and paid-in surplus below the statutory minimum. This minimum is set by section 302(a) of the Act at $300,000 and subordinated debentures are deemed to be a part of capital and surplus for the purpose (among other things) of providing this minimum.

(b) *Force of obligation.* At the same time, the obligation of a Licensee to repay a subordinated debenture is absolute and binding, and is not limited to the availability of particular funds. For example, although subordinated debentures may be repaid from borrowed funds, such repayment may not be made unless paid-in capital and paid-in surplus is simultaneously maintained at or above the $300,000 level.

(c) *Compliance.* Thus, Licensees should be aware of their obligations under the terms of the debenture, and these obligations should be provided for in a manner which will insure compliance with the minimum capital requirements imposed by section 302 of the Act.

**§ 107.1002 Participation by SBA with a Licensee (interpreting sections 302 and 303 of the Act and relating to §§ 107.501 and 107.601).**

Sections 302 and 303 of the Small Business Investment Act of 1958 limit the nature and degree of financial assistance which SBA is authorized to provide Licensees in conjunction with the financing which Licensees are empowered to render small business concerns. Under these limitations SBA cannot participate with a Licensee under section 7(a) of the Small Business

Act or otherwise in loans made by Licensee to small business concerns.

**§ 107.1003 Aid for agriculture (interpreting sections 304 and 305 of the Act).**

The program established by the Investment Act is to aid business concerns, and the assistance available through such program cannot provide financial or other assistance to concerns engaged in agricultural activities, namely, those involving the production of crops and livestock. In cooperation with the Department of Agriculture, SBA has established certain basic guidelines to aid in the determination whether an operation is a business or agricultural enterprise.

(a) *Business enterprises.* Concerns engaged solely or primarily in the purchase and resale of commodities, the manufacture, processing or marketing of commodities, or the sale of services to the public are considered to be engaged in a business enterprise. This includes the purchase of fruits, vegetables and flowers for resale, the packaging, freezing, or processing by other means, of meats, fruits, and vegetables, the slaughter of livestock and poultry, the operation of warehouses and cold storage plants, feed mills, and the operation of a feed yard for cattle where income is derived from the service operation of housing and feeding the animals.

(b) *Agricultural enterprises.* Concerns engaged solely or primarily in the production of agricultural commodities are considered to be engaged in an agricultural enterprise, which normally involves the cultivation of the land for the production of food and fiber. This would include concerns producing field crops, livestock, and nursery crops.

(c) *Combinations.* A concern which is engaged in an agricultural enterprise as well as a business enterprise will be classified according to the predominant part of its operations, considering the time devoted to agriculture and business and the income derived from each.

**§ 107.1004 Short-term loans (interpreting § 106.602(c)).**

The question has arisen as to whether a Licensee may purchase Equity Securities from a real estate developer-builder and follow up with a less than five-year maturity construction loan to such builder. Such a short-term loan would not be within the exception of § 107.602(c), permitting loans for terms of less than five years when necessary to protect the interest of a Licensee in an existing long-term loan, or Equity Securities. The exception for short-term loans is an emergency privilege which is available only if funds are otherwise unavailable and if necessary for the protection of a prior loan or investment.

**§ 107.1005 Eligible investments for idle funds (interpreting section 308(b) of the Act and relating to § 107.710).**

Under the provisions of section 308(b) of the Act a Licensee may invest funds not reasonably needed for current operations in U.S. Treasury bonds, notes, certificates, and bills; U.S. Savings bonds, Series E and Series H; Federal Housing Administration debentures; and in insured savings accounts (up to the amount of the insurance) in any institution the accounts of which are insured by the Federal Savings and Loan Insurance Corporation. Investment is not permitted in securities of the Federal Intermediate Credit Banks, Federal National Mortgage Association, Federal Home Loan Banks, Federal Land Banks, Banks for Cooperatives, or International Bank for Reconstruction and Development (World Bank).

**§ 107.1006 Funds for professional associations (interpreting § 107.715 (a)).**

(a) *The question.* The question has been raised as to whether Licensee may provide loans to concerns known as professional associations. Such associations would transfer the proceeds of loans from Licensee to institutions and professional people in exchange for interest-bearing time notes.

(b) *Financing not permitted.* Section 107.715(a) is interpreted to provide that funds supplied small business concerns by Licensee may not be invested, loaned, or otherwise transferred by such small business concerns for use by others in exchange for an equity interest or promise to repay. Therefore, the type of financing described above is not permitted. Similarly, such funds may not be used for financing factoring operations, or for the purchase of commercial paper.

**§ 107.1007 Qualification of retained earnings as capital for SBA loans under sections 302 and 303 of the act (interpreting §§ 107.301 and 107.402).**

(a) *Stock dividends.* A Licensee may increase its paid-in capital and paid-in surplus by capitalizing accumulated unappropriated retained earnings (i.e., up to but not exceeding retained earnings from operations and retained earnings from realized gains on investments) through the issuance of a stock dividend: *Provided, however,* That the stock dividend is issued in accordance with the following generally accepted principle, namely, the per share value of the stock dividend issued to capitalize accumulated unappropriated retained earnings shall be not less than the average paid-in capital per share existing at the time that the dividend is declared (par or stated value of capital stock issued plus paid-in surplus divided by the number of shares of capital stock issued).

(b) *Use as capital.* The amount by which paid-in capital and paid-in surplus is thus increased incident to the stock dividend may be properly included in the Licensee's total paid-in capital and paid-in surplus. Such total paid-in capital and paid-in surplus may be used for the purpose of determining the amount of subordinated debentures which SBA may purchase from such Licensee under § 107.301 and the aggregate amount of loan funds which SBA may advance to such Licensee under § 107.402.

**§ 107.1008 Excess 320 funds resulting from merger (interpreting §§ 107.301 and 107.302(a)(7)).**

(a) *Excess 302 funds.* Section 302(a) of the Small Business Investment Act of 1958 provides that SBA may purchase subordinated debentures from an SBIC "in an amount not to exceed the lesser of $700,000 or the amount of the paid-in capital and surplus of the company from other sources." A problem has arisen under this provision where Licensee parties to a merger, subject to SBA prior approval, in the aggregate have outstanding subordinated debentures in excess of the statutory maximum. If the merger is consummated without revision of the constituent capital accounts, the resultant SBIC will hold excessive 302 funds. Consequently, the capital position of the Licensee would not be in conformity with the statutory directive.

(b) *Repayment.* Accordingly, the excessive debenture amount must be repaid to SBA within a reasonable period of time. The Licensee will be accorded a full opportunity to demonstrate by appropriate evidence what should be considered a reasonable period in which to effect repayment under the particular circumstances involved. Pending repayment, the excessive debenture amount cannot be considered capital for any purposes of the Act.

(c) *Use of 303 funds.* In lieu of the foregoing procedure, the Licensee may apply to SBA for permission to convert the excessive debenture amount into a section 303 loan for which it may otherwise be eligible under § 107.402.

**§ 107.1009 Dissolution in connection with surrender of license (interpreting § 107.205).**

(a) *Plan of dissolution.* Under § 107.205, an SBIC desiring to surrender its license must first furnish a plan of dissolution to SBA. This plan must include provisions for the liquidation of the Licensees' assets and their pro rata distribution to the common stockholders after satisfaction of the prior claims of senior securities, if any. Section 107.205 requires the submission to SBA of all agreements and understandings, express or implied, relative to the plan of dissolution and surrender of the license. Failure to do so will render any previously granted SBA approval void on the ground that it was not obtained in conformity with the applicable regulatory provisions.

(b) *Exchange of Licensee's assets for other securities.* Section 107.205 contemplates the liquidation of the Licensee's assets and their distribution to its shareholders rather than their exchange for the securities of a corporation which is not, and does not propose to become, a licensed small business investment company. Consequently, any dissolution plan filed pursuant to § 107.205 that provides for the exchange of the Licensee's assets for the securities of such a corporation, either directly by the Licensee or indirectly by the Licensee's shareholders acting in concert will not be approved by SBA. If the exchange is made pursuant to a prearranged agreement to act in concert, entered into without the consent of SBA and not submitted as part of the plan of dissolution, the previously granted SBA approval of such plan shall be deemed void.

**§ 107.1010 Limit on size of investments and loans applicable to funds advanced (interpreting § 107.708).**

(a) *Purchase of note at discount.* A Licensee has advanced $60,000 to a small business concern against a note having a face value in excess of that amount. The difference between these figures constitutes interest and discount. The Licensee has paid-in capital and paid-in surplus of $300,000. Prior approval of the investment was not obtained from SBA.

(b) *Limit in § 107.708(a).* Under § 107.708(a) the investment which a Licensee may make in a single small business concern without prior SBA approval is limited to 20 percent of its combined paid-in capital and paid-in surplus.

(c) *Application of limit.* The limitations of § 107.708(a) refer to the amount of funds advanced by a Licensee and not to the face amount of the security involved. Thus, in the instant case, the advance of $60,000 against a note having a face value in excess of that amount does not come within the limitations of § 107.708(a) and consequently need not be submitted to SBA for prior approval.

**§ 107.1011 Affiliated concerns constitute single entity for purposes of limits on size of investments and loans (interpreting § 107.708).**

(a) *Example.* A corporation has 6 wholly owned subsidiaries; and the majority stockholder of this parent corporation owns more than 50 percent of the voting stock in each of 6 other corporations. Separately and collectively, these corporations fulfill the applicable criteria for small business concerns. The above described 13 corporations have applied to a Licensee for financing which in the aggregate exceeds $60,000. The investment limit of the Licensee pursuant to § 107.708 is $60,000.

(b) *Limit in § 107.708(a).* Under § 107.708 the investment which a Licensee may make in a single small business concern without prior SBA approval is limited to 20 percent of its combined paid-in capital and paid-in surplus. The question of whether the Licensee would exceed the investment limit involves a determination of "affiliation" under Part 121 of this chapter (Small Business Size Standards).

(c) *Affiliation.* In the instant case, each corporation conducts its activities in a different part of the United States and, with the exception of co-operative buying practices, acts independently of all the other corporations. The fact that the corporations are independently operated does not override for purposes of determining affiliation the existence of common ownership and control. It was therefore determined that the above described corporations were "affiliated" within the meaning of Part 121 of this chapter.

(d) *Single entity.* Accordingly, these 13 corporations must be considered as a single small business concern for the purposes of § 107.708 and the aggregate financing involved may not exceed the $60,000 maximum without prior SBA approval.

**§ 107.1012 Section 302 funds used for repayment of a section 303 loan (interpreting §§ 107.301 and 107.402).**

(a) *Example.* A Licensee which qualifies for section 302 funds has submitted an application under § 107.301 to sell subordinated debentures to SBA. It intends to use these funds to repay an outstanding section 303 loan previously made by SBA to the Licensee. The question presented is whether section 302 funds may be used to repay a section 303 indebtedness. SBA has no objection to this form of refinancing.

(b) *Benefits.* The refinancing would materially benefit the Licensee because of the consequent lengthening of its debt maturity to twenty years and the fact that section 302 funds (unlike section 303 funds) can be treated as paid-in capital in computing the 20 percent aggregate limitation under § 107.708 as well as the maximum loan funds available to it under § 107.402.

(c) *SBA approval.* In the context of the foregoing circumstances, SBA approval may be regarded as being in furtherance of the purposes of the Act. The refinancing should tend to "facilitate the • • • growth" of the Licensee, as stated in section 302(a) of the Act, as a result of the concrete benefits conferred. More specifically, the consequent lengthening of the maturity of its indebtedness to SBA would directly supplement the long-term funds of the Licensee available for the sound financing of small business concerns, as contemplated by section 102 of the Act.

**§ 107.1013 Maximum amortization (interpreting §§ 107.503(b) and 107.602(b)).**

(a) *Example.* A Licensee has provided financing with five-year maturities to various small business concerns. These financings will be amortized at the rate of 25 percent per year over the last four years of their terms. No amortization is required during the first year.

(b) *Interpretation.* Sections 107.503 (b) and 107.602(b) provide that SBIC financing must have a term of at least five years and may not be amortized at a rate in excess of an average of 20 percent per year. Although these provisions do not require that amortization must be scheduled at an equal annual rate over the term of the financing, they do require that amortization may not accumulate at a rate in excess of 20 percent per annum. In other words, at any point of time, the total amortization divided by the number of years elapsed may not exceed 20 percent of the principal. Thus, a Licensee may require amortization at a rate of 10 percent during the first year and 30 percent during the second year, but on the other hand, may not require amortization at a rate of 30 percent during the first year and 10 percent during the second year.

(c) *Application to example.* In the case presented, amortization at 25 percent per year over the final four years of a five-year financing would not result in accumulated amortization "in excess of an average of twenty percent of the total principal thereof per annum."

**§ 107.1014 Short term loans to protect Licensee's investment (interpreting § 107.602(c)).**

(a) *Small business concern in default merges with other small concern.* A long-term investment made by a group of SBICs to a small business concern is in default. In order to avoid formal reorganization or bankruptcy proceedings, a merger has been proposed with a second small business concern which is engaged in the same line of business. This arrangement would also involve a short-term loan by the Licensee group to the second concern for the purpose of reorganizing the debt structure of the first concern. This loan would initially be evidenced by demand notes of the second concern which subsequently would be replaced by its one-year debentures convertible into its common stock. The survivor of the merger would be the second small business concern.

(b) *Short-term loan to survivor of merger.* The question presented is whether a demand loan made by the Licensee group to the second concern would be authorized under § 107.602(c) as a loan "to protect the interests of the Licensee in previously issued long-term loans or Equity Securities" of the first concern.

(c) *Short-term loan to survivor permissible.* Since the short-term loan in this case would be to the survivor of the merger which will become the obligor of the presently outstanding indebtedness, it may be considered under § 107.602(c) as a loan to the original borrower for the purpose of protecting the Licensees' outstanding interests in this borrower.

(d) *Rationale.* In other words, since the essential element of the proposed transaction is the merger of the two small business concerns, they may be regarded for the purposes of the short-term loan in question as a single entity under § 107.602(c). Such an interpretation is dependent upon the indispensability of the merger within the overall reorganization and upon the fact that the surviving small business concern will be the obligor of the reconstituted interests substituted for the presently outstanding securities held by or pledged to the Licensees.

**§ 107.1015 SBIC financing for radio and TV stations (interpreting § 107.715(c)).**

(a) *SBA loans.* As a matter of policy, SBA does not make loans to radio or television stations under section 7(a) of the Small Business Act.

(b) *SBIC financing.* However, this policy is not applicable to the SBIC program. An SBIC is a privately-owned and privately-operated investment company. Loans and investments by such companies, unlike loans under section 7(a) of the Small Business Act, are not Government loans. Consequently, SBIC financing for radio and television stations would not be considered as "contrary to the public interest" under § 107.715(c).

**GUIDE TO RECORD RETENTION REQUIREMENTS**

**[Revised as of January 1, 1964]**

Compiled from U.S. Statutes, and from regulations issued by the various Federal agencies, the "Guide" contains 873 digests detailing the retention periods for the many types of records required to be kept under Federal laws and rules. It tells the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest also includes a reference to the full text of the basic law or regulation governing such retention.

**Price: 40 cents**

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, United States Government Printing Office, Washington, D.C., 20402

FEDERAL REGISTER

Area Code 202 Phone 963-3261

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

# Rules and Regulations

## Title 7—AGRICULTURE

### Subtitle A—Office of the Secretary of Agriculture

### PART 15—NONDISCRIMINATION

EDITORIAL NOTE: In Federal Register Document 64-12534, published at page 16274 in the issue of Friday, December 4, 1964, the following changes are made:

1. The heading for Part 15 is changed to read as set forth above.

2. A headnote is inserted immediately preceding § 15.1, reading as follows:

### Subpart A—Nondiscrimination in Federally-Assisted Programs of the Department of Agriculture—Effectuation of Title VI of the Civil Rights Act of 1964

### PART 15—NONDISCRIMINATION

### Subpart B—Nondiscrimination—Direct USDA Programs and Activities

Subpart B is added to Part 15 of Title 7, reading as follows:

**Subpart B—Nondiscrimination—Direct USDA Programs and Activities**

Sec.
15.50 Applicability.
15.51 Discrimination prohibited.

AUTHORITY: The provisions of this Subpart B of Part 15 issued under sec. 602, 78 Stat. 252.

**§ 15.50 Applicability.**

The regulations in this subpart complement Subpart A of this part and cover those programs and activities of the Department not subject thereto in which the Department or any agency thereof makes available any benefit directly to persons under such programs and activities.

**§ 15.51 Discrimination prohibited.**

(a) No agency, officer, or employee of the United States Department of Agriculture, shall exclude from participation in, deny the benefits of, or subject to discrimination any person in the United States on the ground of race, color, creed, or national origin under any program or activity administered by such agency, officer, or employee.

(b) No agency, officer, or employee of the Department shall on the ground of race, color, creed, or national origin deny to any person in the United States (1) equal access to buildings, facilities, structures, or lands under the control of any agency of this Department or (2) under any program or activity of the Department, equal opportunity for employment, for participation in meetings, demonstrations, training activities or programs, fairs, awards, field days, encampments, for receipt of information disseminated by publication, news, radio, and other media, for obtaining contracts, grants, loans, or other financial assistance or for selection to assist in the administration of programs or activities of this Department.

Done at Washington, D.C., this 7th day of December 1964.

ORVILLE L. FREEMAN,
*Secretary.*

[F.R. Doc. 64-12713; Filed, Dec. 10, 1964; 8:47 a.m.]

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

### PART 916—NECTARINES GROWN IN CALIFORNIA

### Determination Relative to Expenses and Fixing of Rate of Assessment for 1964-65 Fiscal Period and Carryover of Unexpended Funds

Pursuant to the marketing agreement and Order No. 916 (7 CFR Part 916) regulating the handling of nectarines grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), upon the basis of the proposals submitted by the Nectarine Administrative Committee (established pursuant to the marketing agreement and order), it is hereby found and determined that the expenses of said committee will amount to $165,000.

*It is, therefore ordered,* That paragraph (a) of § 916.203 *Expenses and rate of assessment for the 1964-65 fiscal period and carryover of unexpended funds* (29 F.R. 7590) is hereby amended by deleting therefrom the amount $157,670 and substituting in lieu thereof the amount $165,000. As amended paragraph (a) of § 916.203 reads as follows:

**§ 916.203 Expenses and rate of assessment for 1964-65 fiscal period and carryover of unexpended funds.**

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Nectarine Administrative Committee, established pursuant to the aforesaid marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning March 1, 1964, and ending February 28, 1965, will amount to $165,000.

* * * * *

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendatory order until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that: (1) the increase in the budget set forth does not involve an increase in the rate of assessment heretofore established by the Secretary (29 F.R. 7590); (2) the said committee in the performance of its duties and functions has incurred expenses in excess of those previously thought likely to be incurred; and (3) it is, therefore, essential that this amendatory action be issued immediately so that said committee can meet its obligations.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 7, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 64-12715; Filed, Dec. 10, 1964; 8:47 a.m.]

### Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Order 4]

### PART 1004—MILK IN DELAWARE VALLEY MARKETING AREA

### Order Suspending Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Delaware Valley marketing area (7 CFR Part 1004), it is hereby found and determined that:

(a) The following provisions of the order do not tend to effectuate the declared policy of the Act for the month of December 1964:

(1) Section 1004.22(j)(2), the provision "The 15th day of".

(2) Section 1004.22(j)(5), the provision "The 15th day of".

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension action removes, for the month of December, the requirement that the market administrator announce on the 15th day of the month the Class I price for the forthcoming quarter. The Department now has under consideration a request for suspension of certain provisions in the supply-demand adjustment mechanism of the Class I pricing formula to prevent a 20-cent Class I price increase for the January-March quarter which would otherwise result from action of the supply-demand adjustor. Because there is insufficient time prior to December 15 to complete the administrative processes required to consummate the requested action and no useful purpose would be served by announcement of a price which might subsequently be modified, more orderly marketing will be assured by deferment of the price announcement until a decision on the requested suspension has been rendered.

Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

*It is therefore ordered,* That the aforesaid provisions of the order are hereby suspended for the period from the effective date hereof through December 31, 1964.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: Upon publication in the FEDERAL REGISTER.

Signed at Washington, D.C., on December 8, 1964.

GEORGE L. MEHREN,
*Assistant Secretary.*

[F.R. Doc. 64-12765; Filed, Dec. 10, 1964; 8:50 a.m.]

## Title 13—BUSINESS CREDIT AND ASSISTANCE

### Chapter I—Small Business Administration

[Amdt. 11 (Rev. 2)]

### PART 107—SMALL BUSINESS INVESTMENT COMPANIES

### Miscellaneous Amendments

*Correction*

In F.R. Doc. 64-12626, appearing at page 16825 of the issue of Tuesday, December 8, 1964, a portion of the document was published out of order. The introductory paragraphs and Item 1 should read as set forth below:

Pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, Public Law 85-699, 72 Stat. 694, as amended, there is amended, as set forth below, Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, as revised in 27 F.R. 9743-9754, and amended in 28 F.R. 681, 1627, 3021, 10868, 12250, and 29 F.R. 5223, 7144, 10499, 12109, and 29 F.R. 14221, by amending §§ 107.704 and 107.713 and adding a new § 107.650.

*Information and effective date.* On October 17, 1964, notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 14369) concerning (1) the amendment of §§ 107.704 and 107.713 to authorize two or more Licensees whose paid-in capital and paid-in surplus (excluding organizational expenses) do not in the aggregate exceed $800,000 to employ, with prior SBA approval, common general managers, and (2) the addition of a new § 107.650 dealing with commitments.

After due and careful consideration of the comments and expression of views received with respect to these proposals, the Administration has determined to adopt the formal amendments, set forth below, as being in furtherance of the best interest of the SBIC program.

The revision of §§ 107.704 and 107.713, as finalized in the formal amendments published herewith, incorporates the text of the proposal published on October 17, 1964, with regard to employment of common general managers, except for the following changes: (1) The first sentence of subdivision (ii) of § 107.704(c)(5), which would have restricted applicability of the amendment to two or more Licensees "having paid-in capital and paid-in surplus from private sources aggregating not more than $800,000 (exclusive of organization expense)", has been revised so that the reference to aggregate capitalization has been deleted and, in lieu thereof, a new second sentence has been added: "The aggregate paid-in capital and paid-in surplus from private sources of such Licensees shall not exceed $800,000, unless it is demonstrated to the satisfaction of SBA that a greater amount will better serve the interests of the SBIC program"; and (2) the statement in subdivision (ii) that an individual serving as common manager shall be deemed an officer of each Licensee "for the purposes of these Regulations" has been revised to read, "for all purposes of SBA Regulations".

In several instances, textual changes were necessarily made in proposed § 107.650 and were incorporated as part of the formal amendment, set forth below, regulating commitments; for example, the words "in accordance with the conditions of the commitment" have been added to paragraph (b) of § 107.650 immediately following the phrase "* * * disbursement of the whole or any part thereof to be made on the request of such concern." Paragraph (c) dealing with stock options and warrants issued by a small concern to a Licensee entering into a commitment to provide it with financing, has been revised so that the Licensee's privilege of acquiring options or warrants up to 25 percent of the undisbursed portion of the commitment-obligation is no longer limited to 5-year commitments: "Where a Licensee enters into a commitment to provide financing to a small business concern, and the financing agreement calls for the issuance of stock options or warrants, it shall be lawful for the Licensee to acquire such stock options or warrants on or after the date of the commitment (1) up to the full amount of any funds disbursed and (2) up to 25 percent of the undisbursed portion of any commitment obligation. Such 25 percent amount shall, for the purposes of § 107.501(k), be deemed to constitute equity capital provided by the Licensee."

Because of the necessity of promptly applying these amendments to the program authorized under the Small Business Investment Act of 1958, they shall become effective upon publication in the FEDERAL REGISTER.

The Regulations Governing Small Business Investment Companies are hereby amended as follows:

1. By deleting paragraph (c)(5) of § 107.704, *Activities of Licensee,* in its entirety, and substituting a new paragraph (c)(5). As amended, § 107.704 (c)(5) reads as follows:

**§ 107.704 Activities of Licensee.**

* * * * * *

(c) * * *

(5) Without the prior written consent of SBA, a Licensee shall not have an officer or a director who at the same time is either an officer or director of any other Licensee, nor shall 10 or more percent of the stock of any Licensee be owned or controlled, directly or indirectly, by an officer or director of, or by any party owning or controlling, directly or indirectly, 10 or more percent of the stock of another Licensee, with the following exceptions:

(i) *Attorneys.* An attorney performing legal services for Licensees may serve as secretary or clerk for more than one Licensee; and

(ii) *Common Managers.* Subject to prior SBA approval, two or more Licensees, may employ an individual or a non-Licensee concern to serve as their common general manager. The aggregate paid-in capital and paid-in surplus from private sources of such Licensees shall not exceed $800,000, unless it is demonstrated to the satisfaction of SBA that a greater amount will better serve the interests of the SBIC program. An individual serving as manager shall be deemed an officer of each Licensee for all purposes of SBA Regulations. Notwithstanding the provisions of § 107.708 (b), at least 50 percent of the total amount of joint financing participated in by Licensees under common management during any fiscal year shall consist of loans or equity investments of $150,000 or less.

The proposed employment agreement submitted for SBA approval shall set forth relevant particulars pertaining to the identity and qualifications of the manager, the basis of compensation, effective period of employment, and such other factors bearing on the transaction as may assist SBA in determining whether approval would be consonant with the purposes of the Act. The agreement shall include adequate provision requiring the manager to refer each potential loan or investment to all Licensees of the group and afford them equal opportunity to participate in or otherwise provide the necessary financing.

## Title 14—AERONAUTICS AND SPACE

### Chapter I—Federal Aviation Agency

[Docket No. 6370; Amdt. 39-12]

### PART 39—AIRWORTHINESS DIRECTIVES [NEW]

### Hughes Models 269A, 269A-1 and 269B Helicopters

There has been an instance in which a main rotor blade separated in flight on a Hughes Model 269A helicopter. Investigation indicates that failure was attributable to excessive flapwise bending

caused by a binding or jammed flapping hinge bearing due to inadequate lubrication. To correct this condition, an airworthiness directive is being issued to require inspection of the main rotor blade flapping hinge bearings and replacement of any found worn or damaged, and to specify new lubricating procedures.

As a situation exists which demands immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 39.13 of Part 39 [New] (14 CFR Part 39 [New]), is hereby amended by adding the following new airworthiness directive:

HUGHES. Applies to Models 269A, 269A-1 and 269B helicopters.

Compliance required as indicated.

Due to inadequate lubrication of the main rotor blade flapping hinge bearings, binding has occurred, resulting in overstressing and failure of one main rotor blade. To prevent main rotor blade overstressing and failure, accomplish the following:

(a) For helicopters having less than 100 hours' time in service on the effective date of this AD inspect the main rotor blade flapping hinge bearings for the condition indicated in paragraph (d), prior to the accumulation of 110 hours' time in service, unless already accomplished, and thereafter at periods not to exceed 400 hours' time in service from the last inspection.

(b) For helicopters having 100 hours' or more time in service on the effective date of this AD inspect the main rotor blade flapping hinge bearings for the condition indicated in paragraph (d), within the next 10 hours' time in service, unless already accomplished within the last 390 hours' time in service, and thereafter at periods not to exceed 400 hours' time in service from the last inspection.

(c) Within 10 hours' time in service, after the effective date of this AD, unless already accomplished within the last 15 hours' time in service, and thereafter at periods not to exceed 25 hours' time in service, apply MIL-G-25537 grease through the grease fittings to all main rotor blade flapping hinge bearings and inspect to ascertain that a thorough purging of the bearings has been achieved. If new grease does not exude from all six bearings, inspect the bearings at the location where the grease does not exude, for the condition indicated in paragraph (d), before further flight.

(d) If bearings are found to be worn or damaged in excess of the limits specified in Hughes Service Information Notice No. 2A-39.1, 2A-1-06.1 or 2B-07.1, remove from service before further flight.

(e) If the inner race of any bearing is found to be brinelled or worn in excess of the 0.002 inch limit specified in Hughes Service Information Notice No. 2A-39.1, 2A-1-06.1 or 2B-07.1, remove the corresponding main rotor blade from service before further flight, and conspicuously mark it to prevent inadvertent return to service.

(f) If the inner race of any bearing is brinelled or worn, but not in excess of the 0.002 inch limit specified in Hughes Service Information Notice Nos. 2A-39.1, 2A-106.1 or 2B-07.1, inspect the corresponding main rotor blade for skin cracks in the exposed areas adjacent to the edges of the blade root fitting beside the outboard bolt. Inspect both upper and lower surfaces of the blade, using a 4- to 6-power magnifying glass. If any cracks are found remove the blade from service before further flight.

(g) Starting with the effective date of this AD, conduct initial and repetitive inspections of all main rotor blades in a manner and at periods specified in Hughes Service Information Notices No. 2A-38 dated September 9, 1964, No. 2A-1-05 dated September 14, 1964, and No. 2B-06 dated September 16, 1964, or later revisions approved by FAA Western Region Aircraft Engineering Division.

(Hughes Service Information Notices Nos. 2A-38, 2A-39.1, 2A-1-05, 2A-1-06.1, 2B-06 and 2B-07.1, cover this subject.)

This amendment shall become effective December 11, 1964.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on December 4, 1964.

C. W. WALKER,
*Acting Director,*
*Flight Standards Service.*

[Reg. Docket No. 4028; Amdt. 42-14]

## PART 42—AIRCRAFT CERTIFICATION AND OPERATION RULES FOR SUPPLEMENTAL AIR CARRIERS, COMMERCIAL OPERATORS USING LARGE AIRCRAFT, AND CERTIFICATED ROUTE AIR CARRIERS ENGAGING IN CHARTER FLIGHTS OR OTHER SPECIAL SERVICES

### Flight Time Limitations; Flight Crew of Three or More Pilots and Additional Airmen, as Required

The purpose of this amendment to Part 42 of the Civil Air Regulations is to extend the duty-time limitations and ground-rest requirements of § 42.322(c) to certificated route air carriers while operating under the rules of Part 42.

Amendment 42-4 (29 F.R. 2998) added to § 42.322 specific ground-rest periods and duty-time limitations for flight crews of three or more pilots and additional airmen, as required, of supplemental air carriers and commercial operators certificated under Part 42. These requirements include: a duty-time limitation of 30 continuous hours for each flight crewmember (under the rule a flight crewmember is considered as being on continuous duty from the time he reports for duty until such time as he is released from duty for a period of rest of 10 or more consecutive hours on the ground); a 16-hour ground rest period when the flight crewmember has been on continuous duty in excess of 24 hours, whether scheduled or not; and, if a crewmember is required to engage in "deadhead" transportation in excess of 4 hours before commencing flight duty, one-half of the time spent in "deadhead" transportation must be treated as duty time for the purpose of determining compliance with the prescribed duty-time limitations, unless the flight crewmember is given not less than 10 consecutive hours of ground rest before being assigned to flight duty. These requirements are considered by the Agency to be the minimum necessary for safety in the kind of operations for which they are designed, and still to give each operator a reasonable flexibility in the utilization of flight crewmembers. However, they are not applicable to certificated route air carriers in the conduct of off-route charter flights or special services under the operating rules of Part 42. Since the certificated route air carriers are subject to the same problems of crew scheduling and safety in the conduct of those operations, the Agency proposed in Notice 64-13 (29 F.R. 3012) also to make the same ground-rest and duty-time limitations prescribed by Amendment 42-4 applicable to certificated route air carriers when operating under Part 42.

Several comments were received in response to the notice. All but one were in favor of the proposal set forth therein.

The Air Transport Association (ATA) objected to the proposed amendment. ATA asserts that if the sole justification for the proposed duty-time limitations and the associated ground-rest requirements is, as stated in the preamble, "to preclude operations (by certificated route) carriers which could result in flight crewmembers performing their duties in an overly fatigued condition," the airlines feel that the proposed duty-time and ground-rest requirements are unnecessary and have not been justified with regard to them since it is their practice under their labor-management agreements to be at least as restrictive and, in some cases, more restrictive than the proposal. It is to be noted that the Association does not assert that the proposed duty-time limitations and ground-rest requirements are not required in the interests of safety, or that less stringent requirements could be safely permitted, but only that the Agency has not justified the prescription of such requirements for certificated route carriers because the scheduling practices of these carriers already meet or better these requirements. The Agency cannot agree with this position, since it cannot rely on labor-management agreements to effectuate its statutory safety regulations responsibility and, in any event, has no way of enforcing the provisions of these agreements.

ATA also commented on the "deadhead" transportation aspect of the proposed amendment (§ 42.322(c)(3)) stating that it does not take into consideration the fact that, in many cases, flight crewmembers have such ample off-duty time that they engage in business, social, avocational and other activities that are not conducive to rest during required rest periods. To prevent such activities the ATA recommends that the Agency adopt a rule that places the responsibility for off-duty rest on the flight crewmember himself, and that requires him not to engage in activities that prevent him from reporting to duty fully rested. A discussion of the merits of this comment would serve no useful purpose at this time since action thereon would not be within the limited scope of Notice 64-13. However, it will be considered within the framework of Notice 63-34, referred to below.

Finally, the ATA suggests that any changes in the "duty time—flight time limitations" applicable to the operations of scheduled air carriers should await completion of the Agency's overall study of the flight-time limitation regulations now being conducted, and as announced in Notice 63-34 (28 F.R. 9674), stating that interim measures will only cause confusion in the regulations. As stated in Notice 64-13, the adoption of these amendments cannot be delayed and must be accomplished in the interim, prior to the overall review of all flight-time rules announced in Notice 63-34, and completion of any final regulatory action based thereon. The addition of the daily duty-time concept is not alien to Part 42 and is appropriate to the types of operation to which § 42.322(c) will be applicable as a result of this amendment. Moreover, the Agency feels that, if anything, the amendment will minimize confusion since it will eliminate the unjustifiable situation of operations that are identical in all pertinent respects being conducted according to different rules.

The Flight Engineers International Association (FEIA) endorsed the proposed amendment, but raised the question as to why a similar crew operating under Part 41 should not be subject to duty-time limitations and required rest periods. While this comment is relevant, action on it would also be outside the limited scope of Notice 64-13. However, it will be considered in the overall review of the flight-time limitations announced in Notice 63-34.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matters presented.

In consideration of the foregoing, § 42.322(c)(1) of Part 42 of Chapter I, Title 14 of the Code of Federal Regulations is amended, effective January 25, 1965, by deleting the word "certificated" from the first sentence thereof and inserting in lieu thereof the word "operating".

(Secs. 313(a), 601, 604, and 607, Federal Aviation Act of 1958 (49 U.S.C. 1354, 1421, 1424, and 1427))

Issued in Washington, D.C., on December 3, 1964.

N. E. HALABY,
*Administrator.*

[Airspace Docket No. 64-SO-39]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Alteration of Control Zones and Transition Area and Designation of Transition Areas

On October 30, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 14794) stating that the Federal Aviation Agency proposed to alter the existing control zones and designate transition areas for Columbia Airport, North AF Auxiliary Field, McEntire ANGB, and Shaw AFB, South Carolina.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

A portion of the proposed Columbia, S.C., transition area including that airspace extending from 7000 feet above mean sea level within 5 miles each side of the Shaw AFB TACAN 008° radial extending from the N boundary of the 1200-foot transition area to 60 miles N of the TACAN was proposed in order to provide protection to aircraft executing standard instrument departure procedures (SIDs) from Shaw AFB. Subsequent to the issuance of the notice of proposed rule making it was revealed that the SIDs requiring this airspace had been canceled and there was no requirement for this portion of the transition area.

Since the deletion of this portion of the transition area imposes no additional burden on any person, an amended notice is unnecessary.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., February 4, 1965, as hereinafter set forth.

1. In § 71.171 (29 F.R. 1101) the Columbia, S.C., control zone is amended to read:

*Columbia, S.C.*

Within a 5-mile radius of the Columbia Airport (latitude 33°56'26" N., longitude 81°07'13" W.), within 2 miles each side of the Columbia VORTAC 329° radial extending from the 5-mile radius zone to one mile NW of the VORTAC and within 2 miles each side of the Columbia ILS localizer W course extending from the 5-mile radius zone to one half mile E of the OM.

2. In § 71.171 (29 F.R. 1101) the North, S.C., control zone is amended to read:

*North, S.C.*

Within a 5-mile radius of North AFAF (latitude 33°36'30" N., longitude 81°05'00" W.) and within 2 miles each side of the North AFAF TACAN 234° radial extending from the 5-mile radius zone to 8 miles SW of the TACAN. This control zone shall be effective only during specific dates and times established 30 days in advance by a Notice to Airmen and continuously published in the Airman's Guide.

3. In § 71.171 (29 F.R. 1101) the Eastover, S.C., control zone is amended to read:

*Eastover, S.C.*

Within a 5-mile radius of McEntire ANGB (latitude 33°55'26" N., longitude 80°48'14" W.) and within 2 miles each side of the McEntire VOR 139° radial extending from the 5-mile radius zone to 10.5 miles SE of the VOR.

4. In § 71.171 (29 F.R. 1101) the Sumter, S.C., control zone is amended to read:

*Sumter, S.C.*

Within a 5-mile radius of Shaw AFB (latitude 33°58'15" N., longitude 80°28'19" W.), within 2 miles each side of the Shaw VOR 010° and 235° radials extending from the 5-mile radius zone to 12 miles N and 10.5 miles SW of the VOR and within 2 miles each side of the Shaw TACAN 033° and 213° radials extending from the 5-mile radius zone to 8 miles N and 13 miles S of the TACAN. The portion within R-6002 shall be used only after obtaining approval from appropriate authority.

5. In § 71.181 (29 F.R. 1160) the Columbia, S.C., transition area is amended to read:

*Columbia, S.C.*

That airspace extending upward from 700 feet above the surface within a 9-mile radius of the Columbia Airport (latitude 33°56'26" N., longitude 81°07'13" W.) and within 5 miles N and 8 miles S of the Columbia ILS localizer W course extending from the 9-mile radius area to 12 miles W of the OM; that airspace extending upward from 1200 feet above the surface bounded by a line beginning at the point of intersection of a 60-mile arc centered on Shaw AFB (latitude 33°58'15" N., longitude 80°28'19" W.) and the W boundary of V-155, extending clockwise along this arc to the W boundary of V-3, thence S along the W boundary of V-3 and W along the N boundary of V-185 to the W boundary of V-37, thence to latitude 33°08'45" N., longitude 81°22'40" W., thence counterclockwise along the boundary of R-6004 to latitude 33°23'25" N., longitude 81°37'00" W., thence N to latitude 33°46'00" N., longitude 81°37'00" W., thence to the intersection of the N boundary of V-155 and longitude 81°41'30" W., thence NE along the N boundary of V-155 to its intersection with a line 10 miles SW and parallel to the centerline of V-53, thence NW along this line to its intersection with latitude 34°15'30" N., thence NE to latitude 34°30'00" N., longitude 81°02'00" W., thence NE to point of beginning. The portion within R-6001 and 6002 shall be used only after obtaining approval from appropriate authority.

6. In § 71.181 (29 F.R. 1160) the following transition area is added:

*North, S.C.*

That airspace extending upward from 700 feet above the surface within an 8-mile radius of North AFAF (latitude 33°36'30" N., longitude 81°05'00" W.). This transition area shall be effective only during the specific dates and times established at least 30 days in advance by a Notice to Airmen and continuously published thereafter in the Airman's Guide.

7. In § 71.181 (29 F.R. 1160) the following transition area is added:

*Sumter, S.C.*

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Shaw AFB (latitude 33°58'15" N., longitude 80°28'19" W.), within 5 miles SE and 8 miles NW of the Shaw VOR 234° radial extending from the Shaw 7-mile radius area to 12 miles SW of the VOR, within 2 miles each side of the Shaw ILS localizer SW course extending from the Shaw 7-mile radius area to 12 miles SW of the Shaw OM; within an 8-mile radius area of McEntire ANGB (latitude 32°55'26" N., longitude 80°48'14" W.), within 5 miles NE and 8 miles SW of the McEntire VOR 139° radial extending from the McEntire 8-mile radius area to 12 miles SE of the VOR; and within a 5-mile radius of Sumter Airport (latitude 33°59'39" N., longitude 80°21'45" W.). The portion within R-6001 and R-6002 shall be used only after obtaining approval from appropriate authority.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)))

Issued in East Point, Ga., on December 3, 1964.

PAUL H. BOATMAN,
*Acting Director, Southern Region.*

[F.R. Doc. 64-12678; Filed, Dec. 10, 1964; 8:45 a.m.]

[Airspace Docket No. 64-CE-43]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Designation of Control Zone and Alteration of Transition Area

On September 22, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 13143) stating that the Federal Aviation Agency proposed to designate a control zone and to alter the transition area at Liberal, Kansas.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

Since the date of the publication of the above-referred-to Notice, further evaluation of the runway course alignment by the Federal Aviation Agency has disclosed that revision of the Special TVOR approach procedure to Runway 17L is necessary. The final approach radial for this procedure is changed from the 022° radial of the Liberal VOR to the 025° radial of the Liberal VOR. Therefore, the description of the Liberal, Kansas, control zone requires revision so that it refers to the 025° radial rather than the 022° radial. Since this amendment is minor in nature and imposes no additional burden on any person, notice and public procedures hereon are unnecessary and this amendment may be made effective in the final rule.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., February 4, 1965, as hereinafter set forth.

1. In § 71.171 (29 F.R. 1101), the following is added:

*Liberal, Kans.*

Within a 5-mile radius of Liberal Municipal Airport (latitude 37°02'30" N., longitude 100°57'30" W.), and within 2 miles each side of the 328°, 025°, and 153° radials of the Liberal VOR extending from the 5-mile radius zone to a point 8 miles NW, N and SE, from the VOR; and within 2 miles each side of the 201° bearing from the airport extending from the 5-mile radius zone to a point 8 miles S of the airport, from 0700 to 2300 hours, local time daily.

2. In § 71.181 (29 F.R. 1160) the Liberal, Kans., transition area is amended to read:

*Liberal, Kans.*

That airspace extending upward from 700 feet above the surface within a 15-mile radius of the Liberal Municipal Airport.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued at Kansas City, Mo., on November 27, 1964.

HENRY L. NEWMAN,
*Acting Director, Central Region.*

[F.R. Doc. 64-12677; Filed, Dec. 10, 1964; 8:45 a.m.]

[Airspace Docket No. 63-SO-61]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Alteration of Control Zone and Designation of Transition Area

On October 23, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 14548) stating that the Federal Aviation Agency proposed to alter the control zone and designate a transition area at Florence, South Carolina.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. An objection was received and later withdrawn.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., February 4, 1965, as hereinafter set forth.

1. In § 71.171 (29 F.R. 1101) the following control zone is amended to read:

*Florence, S.C.*

Within a 5-mile radius of the Florence, S.C., Municipal Airport (latitude 34°11'17" N., longitude 79°43'28" W.); within 2 miles each side of the Florence VORTAC 052° and 232° radials extending from the 5-mile radius zone to 8 miles NE of the VORTAC.

2. In § 71.181 (29 F.R. 1160) the following transition area is added:

*Florence, S.C.*

That airspace extending upward from 1200 feet above the surface within 8 miles NW and 5 miles SE of the Florence, S.C., VORTAC 052° and 232° radials extending from 13 miles NE to 6 miles SW of the VORTAC and within 5 miles each side of the Florence VORTAC 221° radial extending from the VORTAC to 23 miles SW, excluding that portion W of the western boundary of V-3.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)))

Issued in East Point, Ga., on December 3, 1964.

PAUL H. BOATMAN,
*Acting Director, Southern Region.*

[Airspace Docket No. 64-CE-45]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Alteration of Controlled Airspace

On September 12, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 12880) stating that the Federal Aviation Agency proposed to alter the controlled airspace in the vicinity of Philip, S. Dak. The proposed alteration included rescission of that portion of the Rapid City, S. Dak., control area extension which provides controlled airspace in the Philip, S. Dak., terminal area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t. March 4, 1965, as hereinafter set forth.

1. In § 71.165 (29 F.R. 1073) the Rapid City, S. Dak. control area extension is amended to read:

*Rapid City, S. Dak.*

Within a 55-nmi radius of Ellsworth AFB, Rapid City, S. Dak. (latitude 44°08'40" N., longitude 103°06'10" W.); the airspace SW of Rapid City within 12 miles SE and 8 miles NW of the Rapid City VORTAC 251° radial extending from the 55-nmi radius area to 73 miles SW of the VORTAC.

2. In § 71.181 (29 F.R. 1160) the following transition area is added:

*Philip, S. Dak.*

That airspace extending upward from 700 feet above the surface within 5 miles N and 8 miles S of the Philip, S. Dak. VOR 102° and 282° radials extending from 14 miles W to 8 miles E of the VOR.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued in Kansas City, Mo., on November 25, 1964.

HENRY L. NEWMAN,
*Acting Director, Central Region.*

[Airspace Docket No. 64-AL-9]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Designation of Federal Airway Segment, Reporting Point and Alteration of Transition Area

On August 6, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 11383) stating that the Federal Aviation Agency proposed to designate a VOR Federal airway between the Annette Island, Alaska, VOR and the southwest course of the Petersburg, Alaska, radio range, to extend the Annette Island transition area, and to designate the Indian Point, Alaska, intersection as a reporting point.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. Due consideration was given to all relevant matter presented.

The Alaska Coastal-Ellis Airlines suggested a different radial alignment for the proposed transition area extension to provide a more direct route between Annette Island and Sitka, Alaska, than the one which presently exists via the Red Federal airway No. 1. Such a route presently is being considered by the FAA in a separate airspace docket, 64-AL-5. The transition area extension alignment proposed by the FAA is considered to be the best procedure to facilitate movement of northwest-bound departures from the Annette Island terminal area.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., February 4, 1965, as hereinafter set forth.

1. In § 71.125 (29 F.R. 1046), V-439 is added as follows:

V-439 Annette Island, Alaska; to INT Annette Island 330° radial and Petersburg, Alaska RR SW course.

2. In § 71.211 (29 F.R. 1228) add:

Indian Point INT: INT Annette Island, Alaska, 330° radial, SW course Petersburg, Alaska, RR.

3. In § 71.213 (29 F.R. 1229) add:

Indian Point INT: INT Annette Island, Alaska, 330° radial, SW course Petersburg, Alaska, RR.

4. In § 71.181 (29 F.R. 1160) the Annette Island, Alaska, transition area is amended by deleting "to the United States/Canadian border," and substituting therefor "to the United States/Canadian border, including that airspace within 5 miles of the Annette Island VOR 315° radial, extending from the VOR to 56 miles NW."

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued in Washington, D.C., on December 4, 1964.

DANIEL E. BARROW,
*Chief, Airspace Regulations and Procedures Division.*

[F.R. Doc. 64-12681; Filed, Dec. 10, 1964; 8:45 a.m.]

[Airspace Docket No. 64-WA-83]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Alteration of Federal Airway Segment

The purpose of this amendment to Part 71 [New] of the Federal Aviation Regulations is to alter the portion of VOR Federal airway No. 104 between Massena, N.Y., and Ottawa, Ontario, Canada, that is within the United States.

V-104 is presently designated in part from Ottawa, Ontario, Canada, via the intersection of the Ottawa 082° and the Massena, N.Y., 346° True radials; to Massena. The Canadian Department of Transport has advised this agency that the Ottawa VOR will be relocated to a new site (latitude 45°26'32" N., longitude 75°53'48" W.) on January 28, 1965. Accordingly, the Department of Transport has requested a realignment of the segment of V-104 within the United States via the 330° True radial of the Massena VOR. This realignment would facilitate the movement of air traffic from Massena to Ottawa via the Casselman, Ontario, radio beacon.

Since the segment of V-104 affected hereby is approximately five miles in length, an alteration of the radial by 16 degrees involves a minimum amount of airspace, and consequently the public is not particularly interested in this action. Therefore, the Administrator finds that compliance with the notice and public procedure provisions of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended effective 0001 e.s.t., January 28, 1965, as hereinafter set forth.

In § 71.123 (29 F.R. 1009) V-104 is amended to read:

V-104 From Ottawa, Ont., Canada, via INT Ottawa 095° and Massena, N.Y., 330° radials; Massena to Plattsburgh, N.Y. The portion within Canada is excluded.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued in Washington, D.C., on December 3, 1964.

DANIEL E. BARROW,
*Chief, Airspace Regulations and Procedures Division.*

[F.R. Doc. 64-12682; Filed, Dec. 10, 1964; 8:45 a.m.]

[Airspace Docket No. 64-CE-49]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Designation of Transition Area and Revocation of Transition Area

On October 3, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 13611) stating that the Federal Aviation Agency proposed to designate a transition area at Helena, Mont., and revoke the transition area at Garrison, Mont.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., February 4, 1965, as hereinafter set forth.

In § 71.181 (29 F.R. 1160) the following is added:

*Helena, Mont.*

That airspace extending upward from 700 feet above the surface within 6 miles N and 8 miles S of the Helena VOR 089° and 269° radials extending from 17 miles E to 7 miles W of the VOR; within 6 miles SW and 8 miles NE of the SE course of the Helena RR extending from the RR to 17 miles SE of the RR; and that airspace extending upward from 1,200 feet above the surface within 6 miles S and 9 miles N of the Helena VOR 089° and 272° radials extending from 12 miles E of the VOR to 45 miles W of the VOR and within 6 miles NW and 9 miles SE of the Great Falls, Montana, VOR 222° radial extending from 8 miles NE to 27 miles SW of the INT of the Great Falls VOR 222° and Helena VOR 352° radials.

In § 71.181 (29 F.R. 1160), the Garrison, Mont., transition area is revoked.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued at Kansas City, Mo., on December 1, 1964.

EDWARD C. MARSH,
*Director, Central Region.*

[F.R. Doc. 64-12683; Filed, Dec. 10, 1964; 8:45 a.m.]

[Airspace Docket No. 64-CE-79]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

### Designation of Transition Area

The purpose of this amendment to Part 71 [New] of the Federal Aviation Regulations is to modify the Fort Leonard Wood, Mo., transition area.

The Fort Leonard Wood transition area is presently designated as that airspace extending upward from 700 feet above the surface within a 6-mile radius of Forney AAF (latitude 37°44'00" N., longitude 92°09'00" W.), within 8 miles E and 5 miles W of the 148° bearing from the Forney AAF RBN, extending from the RBN to 12 miles SE, within 8 miles W and 5 miles E of the Forney AAF VOR 323° radial extending from the VOR to 12 miles NW; and that airspace extending upward from 1,200 feet above the surface, within 5 miles each side of the following direct radials: Maples, Mo., VOR to Forney AAF VOR; Maples, Mo., VOR to Forney RBN; Vichy, Mo., VORTAC to Forney VOR; Vichy VORTAC to Forney RBN, excluding that portion within the Vichy transition area.

On October 31, 1964, instrument approach procedure AL-5093-VOR-RWY 14 at Fort Leonard Wood was modified by changing the procedure turn from the south side of the 317° magnetic radial of the Forney AAF VOR to the north side of this radial. It is therefore necessary to modify the existing transition area in order to provide protection for aircraft executing instrument approach procedure AL-5093-VOR-RWY 14.

The required alteration of the Fort Leonard Wood transition area is considered to be minor in nature and its impact on the public will be minimal. Military aircraft and civil aircraft, with prior approval of the military, are already utilizing instrument approach procedure AL-5093-VOR-RWY 14. Any delay in making this amendment effective will jeopardize public safety. For this reason, the Administrator finds that a situation exists requiring immediate action in the interest of safety, that notice and public procedure hereon are impractical and good cause exists for making the amendment effectively immediately.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth:

In § 71.181 (29 F.R. 1160) the Fort Leonard Wood transition area is amended to read as follows:

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Forney AAF (latitude 37°44'00" N., longitude 92°09'00" W.), within 8 miles NE and 5 miles SW of the 148° bearing from Forney AAF RBN, extending from the RBN to 12 miles SE; within 8 miles NE and 5 miles SW

of the Forney AAF VOR 323° radial, extending from the VOR to 12 miles NW; and that airspace extending upward from 1200 feet above the surface, within 5 miles each side of the following direct radials: Maples, Mo., VOR to Forney AAF VOR; Maples VOR to Forney AAF RBN; Vichy, Mo., VORTAC to Forney AAF VOR; Vichy VORTAC to Forney AAF RBN, excluding that portion within the Vichy transition area.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued in Kansas City, Mo., on November 30, 1964.

EDWARD C. MARSH,
*Director, Central Region.*

[F.R. Doc. 64-12684; Filed, Dec. 10, 1964; 8:45 a.m.]

[Airspace Docket No. 64-SW-5]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, CONTROLLED AIRSPACE, AND REPORTING POINTS [NEW]

## PART 73—SPECIAL USE AIRSPACE [NEW]

### Miscellaneous Amendments

On November 24, 1964, Federal Register Document 64-11950 was published in the FEDERAL REGISTER (29 F.R. 15719) amending Parts 71 and 73 [New] of the Federal Aviation Regulations. These amendments were to be effective December 10, 1964. However, this effective date does not allow adequate time for charting agencies to update the amended restricted area R-6310 on pertinent charts. Therefore, action is taken herein to amend the effective date in order to allow time for R-6310 to be appropriately displayed on charts. Additionally, action is taken herein to change the altitudes, as expressed in the high altitude structure of R-6310, from the designated number of feet above mean sea level to the appropriate flight levels in order to provide continuity of language.

Since these amendments are partially editorial in nature and since the new effective date will avoid activation of R-6310, as amended, before it appears on appropriate charts, the Administrator has determined that notice and public procedure hereon are unnecessary and contrary to the public interest, and these amendments may be made effective immediately.

In consideration of the foregoing, effective immediately, Federal Register Document 64-11950 is amended as hereinafter set forth.

1. The effective date is changed from 0001 e.s.t., December 10, 1964 to 0001 e.s.t., January 7, 1965.

2. Item 1 is amended by altering the description of the designated altitudes to read as follows:

*Designated altitudes*

2,000 feet MSL to 14,000 feet MSL from the point of beginning to 1 nmi S.

2,000 feet MSL to 16,000 feet MSL from 1 to 2 nmi S of the point of beginning.

2,000 feet MSL to FL 190 from 2 to 3 nmi S of the point of beginning.

2,000 feet MSL to FL 210 from 3 to 4 nmi S of the point of beginning.

2,000 feet MSL to FL 230 from 4 to 6 nmi S of the point of beginning.

5,000 feet MSL to FL 230 from 6 to 10 nmi S of the point of beginning.

9,000 feet MSL to FL 230 from 10 to 13 nmi S of the point of beginning.

12,000 feet MSL to FL 230 from 13 to 19 nmi S of the point of beginning.

16,000 feet MSL to FL 230 from 19 to 25 nmi S of the point of beginning.

FL 200 to FL 230 from 25 to 30 nmi S of the point of beginning.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued in Washington, D.C., on December 2, 1964.

LEE E. WARREN,
*Director, Air Traffic Service.*

[F.R. Doc. 64-12685; Filed, Dec. 10, 1964; 8:45 a.m.]

[Airspace Docket No. 63-SO-96]

## PART 73—SPECIAL USE AIRSPACE [NEW]

### Alteration of Restricted Area

On September 11, 1964, a notice of proposed rule making was published in the FEDERAL REGISTER (29 F.R. 12847) stating that the Federal Aviation Agency proposed to alter the geographical boundaries and designated altitude of the Huntsville, Ala., Restricted Area R-2104.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 73 [New] of the Federal Aviation Regulations is amended, effective 0001 e.s.t., February 4, 1965, as hereinafter set forth.

In § 73.21 (29 F.R. 1233), the Huntsville, Ala., Restricted Area R-2104 is amended to read as follows:

1. R-2104A *Huntsville, Ala.*

*Boundaries.* Beginning at latitude 34°-39'30" N., longitude 86°37'40" W.; to latitude 34°33'58" N., longitude 86°37'50" W.; thence west along the Tennessee River to latitude 34°35'02" N., longitude 86°43'25" W.; to latitude 34°37'19" N., longitude 86°43'20" W.; to latitude 34°37'19" N., longitude 86°43'05" W.; to latitude 34°41'25" N., longitude 86°-42'57" W.; to latitude 34°42'00" N., longitude 86°41'35" W.; to latitude 34°39'30" N., longitude 86°41'10" W.; to the point of beginning.

*Designated altitudes.* Surface to 30,000 feet MSL.

*Time of designation.* Continuous.

*Controlling agency.* Federal Aviation Agency, Memphis ARTC Center.

*Using agency.* Commanding General, U.S. Army Missile Command, Redstone Arsenal, Ala.

2. R-2104B *Huntsville, Ala.*

*Boundaries.* Beginning at latitude 34°-39'30" N., longitude 86°37'40" W.; to latitude 34°39'25" N., longitude 86°36'10" W.; to latitude 34°37'55" N., longitude 86°36'10" W.; to latitude 34°37'55" N., longitude 86°-35'21" W.; to latitude 34°35'05" N., longitude 86°35'24" W.; thence west along the Tennessee River to latitude 34°33'58" N., longitude 86°37'50" W.; to the point of beginning.

*Designated altitudes.* Surface to 2,400 feet MSL.

*Time of designation.* Continuous.

*Controlling agency.* Federal Aviation Agency, Memphis ARTC Center.

*Using agency.* Commanding General, U.S. Army Missile Command, Redstone Arsenal, Ala.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348))

Issued in Washington, D.C., on December 3, 1964.

LEE E. WARREN,
*Director, Air Traffic Service.*

[F.R. Doc. 64-12686; Filed, Dec. 10, 1964; 8:45 a.m.]

## Chapter II—Civil Aeronautics Board

### SUBCHAPTER B—PROCEDURAL REGULATIONS

[Reg. No. PR-92]

## PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

### Subpart A—Rules of General Applicability

PETITIONS FOR RULEMAKING

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of December 1964.

Rule 38 of the Board's rules of practice (14 CFR 302.38), which sets forth the procedure for rule making proceedings, does not authorize the filing of petitions for reconsideration of an adopted rule. Nevertheless, in rule making proceedings the Board frequently receives documents styled "petitions for reconsideration" and on occasion the Board has accepted these documents and disposed of them on the merits.

The Board believes that petitions for reconsideration of an adopted rule are generally inappropriate and should not be permitted. The proper means of seeking relief is by an original petition for amendment, modification or repeal of a rule, pursuant to § 302.38(a). Accordingly, the following amendment imposes a prohibition on petitions for reconsideration of adopted rules, unless the Board expressly provides otherwise when it adopts the rule.

Since this amendment is a rule of practice and procedure, notice and public procedure thereon are not required, and the rule may become effective upon less than 30 days' notice.

In consideration of the foregoing, the Board hereby amends § 302.38 of Part 302 of the Procedural Regulations (14 CFR 302.38), effective December 11, 1964, by adding a new paragraph (d) to read as follows:

**§ 302.38 Petitions for rulemaking.**

* * * * * * *

(d) *Prohibition of petitions for reconsideration of adopted rules.* Unless the Board in adopting a rule expressly provides otherwise, the Board will not entertain petitions for reconsideration of an adopted rule. Nothing in this subsection shall be interpreted as precluding a petition for amendment, modification or repeal of an adopted rule prior to its effective date.

(Sec. 4, Administrative Procedure Act, 60 Stat. 238; 5 U.S.C. 1003; section 204(a) of the Federal Aviation Act of 1958, 72 Stat. 743; 49 U.S.C. 1324)

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
*Secretary.*

[F.R. Doc. 64-12768; Filed, Dec. 10, 1964; 8:50 a.m.]

# Title 15—COMMERCE AND FOREIGN TRADE

## Subtitle A—Office of the Secretary of Commerce

## PART 7—STANDARDS FOR SEAT BELTS FOR USE IN MOTOR VEHICLES

As required by Public Law 88-201, approved on December 13, 1963 (77 Stat. 361), and after giving adequate public notice and considering public comments received, I hereby prescribe and publish the following standards for seat belts for use in motor vehicles. The purpose of these standards, as stated in Public Law 88-201, is "to provide the public with safe seat belts so that passenger injuries in motor vehicle accidents can be kept to a minimum."

These standards are essentially the same as Society of Automotive Engineers Standard 54b, Motor Vehicle Seat Assemblies, approved November 19, 1964, and published by the Society of Automotive Engineers, 485 Lexington Avenue, New York, N.Y., 10017. Standards are prescribed for three types of seat belt assemblies; namely, a lap belt, a safety harness for adults and a safety harness for children. The lap belt provides restraint only on the pelvis and is recommended for use where movement of the upper part of the body is not likely to cause injury. The safety harness provides restraint both on the pelvis and the upper torso and is recommended for use where movement of the entire body must be restricted to avoid injury. The standards permit the safety harness for adults to be either an integral harness or a combination of lap and shoulder belts.

Prior to June 1, 1965, the Department of Commerce, in consultation with the Society of Automotive Engineeers, the industry, Government experts, and interested consumers, intends to add additional requirements to these standards including requirements for non-ferrous corrosion and cracking of hardware, and performance of retractors in a dusty environment. The proposed additions will be published in the FEDERAL REGISTER for public comment on or about April 1, 1965.

Done at Washington, D.C., this 2d day of December 1964.

LUTHER H. HODGES,
*Secretary of Commerce.*

Sec.
7.1 Definitions.
7.2 Scope and application.
7.3 General requirements.
7.4 Requirements for webbing.
7.5 Requirements for hardware.
7.6 Requirements for assembly performance.
7.7 Test procedures for webbing.
7.8 Test procedures for hardware.
7.9 Test procedures for assembly performance.
7.10 Provision for changes in the standards.
7.11 Effective date.

AUTHORITY: The provisions of this Part 7 issued under secs. 1-4, Public Law 88-201, approved Dec. 13, 1963 (77 Stat. 361).

**§ 7.1 Definitions.**

As used in these specifications:

(a) The term "act" means Public Law 88-201, 88th Congress, H.R. 134 (77 Stat. 361).

(b) The term "interstate commerce" means commerce between one State, Territory, possession, the District of Columbia, or the Commonwealth of Puerto Rico and another State, Territory, possession, the District of Columbia, or the Commonwealth of Puerto Rico.

(c) The term "motor vehicle" means any vehicle or machine propelled or drawn by mechanical power and used on the highways principally in the transportation of passengers other than those of carriers subject to safety regulations under Part II of the Interstate Commerce Act.

(d) The term "seat belt assembly" means any strap, webbing, or similar device designed to secure a person in a motor vehicle in order to mitigate the results of any accident, including all necessary buckles and other fasteners, and all hardware designed for installing such seat belt assembly in a motor vehicle.

(e) The term "pelvic restraint" means a seat belt assembly or portion thereof intended to restrain movement of the pelvis.

(f) The term "upper torso restraint" means a portion of a seat belt assembly intended to restrain movement of the chest and shoulder regions.

(g) The term "hardware" means any metal or rigid plastic part of a seat belt assembly.

(h) The term "buckle" means a quick release connector which fastens a person in a seat belt assembly.

(i) The term "attachment hardware" means any or all hardware designed for securing the webbing of a seat belt assembly to a motor vehicle.

(j) The term "adjustment hardware" means any or all hardware designed for adjusting the size of a seat belt assembly to fit the user, including such hardware that may be integral with a buckle, attachment hardware, or retractor.

(k) The term "retractor" means a device for storing part or all of the webbing in a seat belt assembly.

(l) The term "non-locking retractor" means a retractor from which the webbing is extended to essentially its full length by a small external force, which provides no adjustment for assembly length, and which may or may not be capable of sustaining restraint forces at maximum webbing extension.

(m) The term "automatic-locking retractor" means a retractor incorporating adjustment hardware by means of a positive self-locking mechanism which is capable when locked of withstanding restraint forces.

(n) The term "emergency-locking retractor" means a retractor incorporating adjustment hardware by means of a locking mechanism that is activated by vehicle acceleration, webbing movement relative to the vehicle, or other automatic action during an emergency and is capable when locked of withstanding restraint forces.

(o) The term "seat back retainer" means the portion of some seat belt assemblies designed to restrict forward movement of a seat back.

(p) The term "webbing" means a narrow fabric woven with continuous filling yarns and finished selvages.

(q) The term "strap" means a narrow non-woven material used in a seat belt assembly in place of webbing.

**§ 7.2 Scope and application.**

The standards prescribed herein shall apply to any seat belt for use in a motor vehicle, including the manufacture for sale, the sale, or the offering for sale, in interstate commerce, or the importation into the United States, or the introduction, delivery for introduction, transportation, or causing to be transported in, interstate commerce, or for the purpose of sale, or delivery after sale, in interstate commerce. Standards are prescribed for the following types of seat belt assembly:

(a) Type 1 seat belt assembly is a lap belt for pelvic restraint.

(b) Type 2 seat belt assembly is a combination of pelvic and upper torso restraints.

(c) Type 2-a shoulder belt is an upper torso restraint for use only in conjunction with a lap belt as a Type 2 seat belt assembly.

(d) Type 3 seat belt assembly is a combination pelvic and upper torso restraint for persons weighing not more than 50 pounds or 23 kilograms and capable of sitting upright by themselves, that is children in the approximate age range of 8 months to 6 years.

**§ 7.3 General requirements.**

(a) *Single occupancy.* A seat belt assembly shall be designed for use by one, and only one, person at any one time.

(b) *Pelvic restraint.* A seat belt assembly shall provide pelvic restraint whether or not upper torso restraint is provided, and the pelvic restraint shall be designed to remain on the pelvis under all conditions, including collision or rollover of the motor vehicle. Pelvic restraint of a Type 2 seat belt assembly that can be used without upper torso restraint shall comply with requirement for Type 1 seat belt assembly in §§ 7.3 to 7.6.

(c) *Upper torso restraint.* A Type 2 or Type 3 seat belt assembly shall provide upper torso restraint without shifting the pelvic restraint into the abdominal region. An upper torso restraint shall be designed to minimize vertical forces on the shoulders and spine. Hardware for upper torso restraint shall be so designed and located in the seat belt assembly that the possibility of injury to the occupant is minimized. A Type 2-a shoulder belt shall comply with applicable requirements for a Type 2 seat belt assembly in §§ 7.3 to 7.6 inclusive.

(d) *Hardware.* All hardware parts which contact under normal usage a per-

son, clothing, or webbing shall be free from burrs and sharp edges.

(e) *Release.* A Type 1 or Type 2 seat belt assembly shall be provided with a buckle or buckles readily accessible to the occupant to permit his easy and rapid removal from the assembly. A Type 3 seat belt assembly shall be provided with a quickly recognizable and easily operated release arrangement, readily accessible to an adult.

(f) *Attachment hardware.* A seat belt assembly shall include all hardware necessary for installation in a motor vehicle in accordance with SAE Information Report, Motor Vehicle Seat Belt Installations—SAE J800a, published by the Society of Automotive Engineers, 485 Lexington Avenue, New York, N.Y., 10017, except that seat belt assemblies designed for installation in motor vehicles equipped with seat belt anchorages shall not require underfloor hardware. The hardware shall be designed to prevent attaching bolts and other parts becoming disengaged from the vehicle in service. Reinforcing plates or washers furnished for universal floor installations shall be of steel, free from burrs and sharp edges on the peripheral edges adjacent to the vehicle, not less than 0.06 inch or 1.5 millimeters in thickness nor less than 4 square inches or 25 square centimeters in area. The distance between any edge of the plate and the edge of the bolt hole shall be at least 0.6 inch or 15 millimeters and any corner shall be rounded to a radius of not less than 0.25 inch or 6 millimeters, or cut at a 45-degree angle along an hypotenuse not less than 0.25 inch or 6 millimeters in length.

(g) *Adjustment.* A Type 1 or Type 2 seat belt assembly shall be capable of snug adjustment by the occupant by a means easily within his reach and easily operable without appreciable interference with the driving process, or shall be provided with an automatic-locking or emergency-locking retractor. A Type 3 seat belt assembly shall be capable of snug adjustment to fit any child capable of sitting upright and weighing not more than 50 pounds or 23 kilograms unless specifically labelled for use with a child in a smaller weight range.

(h) *Seat back retainer.* A Type 3 seat belt assembly designed for attachment to a seat back or for use in a seat with a hinged back shall include a seat back retainer unless such assembly is designed and labeled for use in specific models of motor vehicles in which the vehicle manufacturer has provided other adequate restraint for the seat back.

(i) *Webbing.* The ends of webbing in a seat belt assembly shall be protected or treated to prevent ravelling, and abrading or snagging of clothing with which the webbing ends may come in contact. The end of webbing in a seat belt assembly having a metal-to-metal buckle that is used by the occupant to adjust the size of the assembly shall not pull out of the adjustment hardware at maximum size adjustment. Provision shall be made for essentially unimpeded movement of webbing routed between a seat back and seat cushion and attached to a retractor located behind the seat.

(j) *Strap.* A strap used in a seat belt assembly to sustain restraint forces shall comply with the requirements for webbing in § 7.4, and if the strap is made from a rigid material, it shall comply with applicable requirements in §§ 7.4, 7.5 and 7.6.

(k) *Marking.* Each seat belt assembly shall be permanently and legibly marked or labeled with year of manufacture, model, and name or trademark of manufacturer or distributor, or of importer if manufactured outside the United States. A model shall consist of a single combination of webbing having a specific type of fiber, weave and construction, and hardware having a specific design. Webbings of various colors may be included under the same model, but webbing of each color shall comply with the requirements for webbing in § 7.4.

(l) *Installation instructions.* A seat belt assembly or retractor shall be accompanied by an instruction sheet providing sufficient information for installing the assembly in a motor vehicle except for a seat belt assembly installed in a motor vehicle by an automobile manufacturer. The installation instructions shall state whether the assembly is for universal installation or for installation only in specifically stated motor vehicles, and shall include at least those items in SAE Information Report, Motor Vehicle Seat Belt Installations—SAE J800a, published by the Society of Automotive Engineers.

(m) *Usage and maintenance instructions.* A seat belt assembly or retractor shall be accompanied by written instructions for the proper use of the assembly, stressing particularly the importance of wearing the assembly snugly and properly located on the body, and on the maintenance of the assembly and periodic inspection of all components. The instructions shall show the proper manner of threading webbing in the hardware of seat belt assemblies in which the webbing is not permanently fastened.

### § 7.4 Requirements for webbing.

(a) *Width.* The webbing in a seat belt assembly shall be not less in width than the following dimensions when measured under conditions prescribed in § 7.7(a): Type 1 seat belt assembly—1.8 inches or 46 millimeters; Type 2 seat belt assembly—1.8 inches or 46 millimeters; Type 3 seat belt assembly—0.9 inch or 23 millimeters.

(b) *Breaking strength.* The webbing in a seat belt assembly shall have not less than the following breaking strength when tested by the procedures specified in § 7.7(b): Type 1 seat belt assembly—6,000 pounds or 2,720 kilograms; Type 2 seat belt assembly—5,000 pounds or 2,270 kilograms for webbing in pelvic restraint and 4,000 pounds or 1,810 kilograms for webbing in upper torso restraint; Type 3 seat belt assembly—1,500 pounds or 680 kilograms for webbing in pelvic and upper torso restraints, 4,000 pounds or 1,810 kilograms for webbing in seat back retainer and for webbing connecting pelvic and upper torso restraints to attachment hardware when assembly has single webbing connection, or 3,000 pounds or 1,360 kilograms for webbing connecting pelvic and upper torso restraint to attachment hardware when assembly has two or more webbing connections.

(c) *Elongation.* The webbing in a seat belt assembly shall not extend to more than the following elongations when subjected to the specified forces in accordance with the procedure specified in § 7.7(c): Type 1 seat belt assembly—20 percent at 2,500 pounds or 1,130 kilograms; Type 2 seat belt assembly—30 percent at 2,500 pounds or 1,130 kilograms for webbing in pelvic restraint and 40 percent at 2,500 pounds or 1,130 kilograms for webbing in upper torso restraint; Type 3 seat belt assembly—20 percent at 700 pounds or 320 kilograms for webbing in pelvic and upper torso restraints, and 25 percent at 2,500 pounds or 1,130 kilograms for webbing in seat back retainer and for webbing connecting pelvic and upper torso restraints to attachment hardware when assembly has single webbing connection, or 25 percent at 1,800 pounds or 820 kilograms for webbing connecting pelvic and upper torso restraints to attachment hardware when assembly has two or more webbing connections.

(d) *Resistance to abrasion.* The webbing in a seat belt assembly after being subjected to abrasion as specified in § 7.7(d) shall have a breaking strength not less than 75 percent of the strength before abrasion when measured by the procedure specified in § 7.7(b).

(e) *Resistance to light.* The webbing in a seat belt assembly after exposure to the light of a carbon arc and tested by the procedure specified in § 7.7(e) shall have a breaking strength not less than 60 percent of the strength before exposure to the carbon arc and shall have a color retention not less than No. 3 on the Geometric Gray Scale published by the American Association of Textile Chemists and Colorists, Post Office Box 886, Durham, N.C.

(f) *Resistance to micro-organisms.* The webbing in a seat belt assembly after being subjected to micro-organisms and tested by the procedures specified in § 7.7(f) shall have a breaking strength not less than 85 percent of the strength before subjection to micro-organisms.

(g) *Colorfastness to crocking.* The webbing in a seat belt assembly shall not transfer color to a crock cloth either wet or dry to a greater degree than class 3 on the AATCC Chart for Measuring Transference of Color published by the American Association of Textile Chemists and Colorists, when tested by the procedure specified in § 7.7(g).

(h) *Colorfastness to staining.* The webbing in a seat belt assembly shall not stain to a greater degree than class 3 on the AATCC Chart for Measuring Transference of Color published by the American Association of Textile Chemists and Colorists, when tested by the procedure specified in § 7.7(h).

### § 7.5 Requirements for hardware.

(a) *Corrosion resistance.* All hardware parts of a seat belt assembly after being subjected to the conditions specified in § 7.8(a) shall be free of red rust except for permissible red rust at peripheral edges or edges of holes on underfloor reinforcing plates or washers, and buckles and retractors shall conform to applicable requirements in paragraphs (g) to (k) of this section inclusive.

(b) *Temperature resistance.* Plastic or other non-metallic hardware parts of a seat belt assembly when subjected to the conditions specified in § 7.8(b) shall not warp or otherwise deteriorate to cause the assembly to operate improperly or fail to comply with applicable requirements in this section and § 7.6.

(c) *Attachment hardware.* Eye bolts, shoulder bolts, or other bolts used to secure the pelvic restraint of a seat belt assembly to a motor vehicle shall withstand a force of 5,000 pounds or 2,270 kilograms when tested by the procedure specified in § 7.8(c)(1). A seat belt assembly having single attachment hooks of the quick-disconnect type for connecting webbing to an eye bolt shall be provided with a retaining-latch or keeper which shall not move more than 0.08 inch or 2 millimeters in either the vertical or horizontal direction when tested by the procedure specified in § 7.8(c)(2).

(d) *Buckle release force.* The buckle of a Type 1 or Type 2 seat belt assembly shall release when a force of not more than 30 pounds or 14 kilograms is applied, and the buckle of a Type 3 seat belt assembly shall release when a force of not more than 20 pounds or 9 kilograms is applied as prescribed in § 7.8(d).

(e) *Adjustment force.* The force required to decrease the size of a seat belt assembly shall not exceed 11 pounds or 5 kilograms when measured by the procedure specified in § 7.8(e).

(f) *Tilt-lock adjustment.* The buckle of a seat belt assembly having tilt-lock adjustment shall lock the webbing when tested by the procedure specified in § 7.8(f) at an angle of not less than 30 degrees between the base of the buckle and the anchor webbing.

(g) *Buckle latch.* The buckle latch of a seat belt assembly when tested by the procedure specified in § 7.8(g) shall not fail, nor gall or wear to an extent that normal latching and unlatching is impaired, and a metal-to-metal buckle shall separate when in any position of partial engagement by a force of not more than 5 pounds or 2.3 kilograms.

(h) *Non-locking retractor.* The webbing of a seat belt assembly shall extend from a non-locking retractor within 0.25 inch or 6 mm of maximum length when a tension of 3 pounds or 1.4 kilograms is applied as prescribed in § 7.8(h).

(i) *Automatic-locking retractor.* The webbing of a seat belt assembly equipped with an automatic-locking retractor shall not move more than 1 inch or 2.5 centimeters between locking positions of the retractor, and shall be retracted with a force of not less than 0.6 pound or 0.27 kilogram when measured by the procedure specified in § 7.8(i).

(j) *Emergency-locking retractor.* An emergency-locking retractor used on a Type 1 or Type 2 seat belt assembly shall lock before the webbing extends 1 inch or 2.5 centimeters when the retractor is subjected to an acceleration of 0.5 gravity or 5 meters per second per second, and shall exert a retraction force of not less than 1.5 pounds or 0.7 kilogram under zero acceleration when tested by the procedures specified in § 7.8(j).

(k) *Performance of retractor.* A retractor used on a seat belt assembly after subjection to the tests specified in § 7.8(k) shall comply with applicable requirements in paragraphs (h) to (j) of this section and § 7.6, except that the retraction force shall be not less than 50 percent of its original retraction force.

### § 7.6 Requirements for assembly performance.

(a) *Type 1 seat belt assembly.* The complete seat belt assembly including webbing, straps, buckles, adjustment and attachment hardware, and retractors shall comply with the following requirements when tested by the procedures specified in § 7.9(a):

(1) The assembly loop shall withstand a force of not less than 5,000 pounds or 2,270 kilograms; that is each structural component of the assembly shall withstand a force of not less than 2,500 pounds or 1,130 kilograms.

(2) The assembly loop shall extend not more than 7 inches or 18 centimeters when subjected to a force of 5,000 pounds or 2,270 kilograms; that is the length of the assembly between anchorages shall not increase more than 14 inches or 36 centimeters.

(3) Any webbing cut by the hardware during test shall have a breaking strength at the cut of not less than 4,200 pounds or 1,910 kilograms.

(b) *Type 2 seat belt assembly.* The components of a Type 2 seat belt assembly including webbing, straps, buckles, adjustment hardware, and retractors shall comply with the following requirements when tested by the procedure specified in § 7.9(b):

(1) The structural components in the pelvic restraint shall withstand a force of not less than 2,500 pounds or 1,130 kilograms.

(2) The structural components in the upper torso restraint shall withstand a force of not less than 1,500 pounds or 680 kilograms.

(3) The structural components in the assembly that are common to pelvic and upper torso restraints shall withstand a force of not less than 3,000 pounds or 1,360 kilograms.

(4) The length of the pelvic restraint between anchorages shall not increase more than 20 inches or 50 centimeters when subjected to a force of 2,500 pounds or 1,130 kilograms.

(5) The length of the upper torso restraint between anchorages shall not increase more than 20 inches or 50 centimeters when subjected to a force of 1,500 pounds or 680 kilograms.

(6) Any webbing cut by the hardware during test shall have a breaking strength of not less than 3,500 pounds or 1,590 kilograms at a cut in webbing of the pelvic restraint, or not less than 2,800 pounds or 1,270 kilograms at a cut in webbing of the upper torso restraint.

(c) *Type 3 seat belt assembly.* The complete seat belt assembly including webbing, straps, buckles, adjustment and attachment hardware, and retractors shall comply with the following requirements when tested by the procedures specified in § 7.9(c):

(1) The complete assembly shall withstand a force of 2,000 pounds or 900 kilograms.

(2) The complete assembly shall extend not more than 12 inches or 30 centimeters when subjected to a force of 2,000 pounds or 900 kilograms.

(3) Any webbing cut by the hardware during test shall have a breaking strength of not less than 1,050 pounds or 480 kilograms at a cut in webbing of pelvic or upper torso restraints, or not less than 2,800 pounds or 1,270 kilograms at a cut in webbing of seat back retainer or in webbing connecting pelvic and upper torso restraint at attachment hardware.

### § 7.7 Test procedures for webbing.

(a) *Width.* The width of webbing from three seat belt assemblies shall be measured after conditioning for at least 24 hours in an atmosphere having relative humidity between 48 and 67 percent and a temperature of 23±2 degrees Celsius or 73.4±3.6 degrees Fahrenheit. The tension during measurement of width shall be not more than 5 pounds or 2 kilograms on webbing from a Type 1 or Type 3 seat belt assembly, and 2,200±100 pounds or 1,000±50 kilograms on webbing from a Type 2 seat belt assembly. The width of webbing from a Type 2 seat belt assembly may be measured during the breaking strength test described in paragraph (b) of this section.

(b) *Breaking strength.* Webbing from three seat belt assemblies shall be conditioned in accordance with paragraph (a) of this section and tested for breaking strength in a testing machine of suitable capacity verified to have an error of not more than one percent in the range of the breaking strength of the webbing by the Tentative Methods of Verification of Testing Machines, ASTM Designation: E 4–64, published by the American Society for Testing and Materials, 1913 Race Street, Philadelphia, Pa., 19103. The machine shall be equipped with split drum grips illustrated in Figure 1, having a diameter between 2 and 4 inches or 5 and 10 centimeters. The rate of grip separation shall be between 2 and 4 inches per minute or 5 and 10 centimeters per minute. The distance between the centers of the grips at the start of the test shall be between 4 and 10 inches or 10 and 25 centimeters. After placing the specimen in the grips, the webbing shall be stretched continuously at a uniform rate to failure. Each value shall be not less than the applicable breaking strength requirement in § 7.4(b), but the median value shall be used for determining the retention of breaking strength in paragraphs (d), (e) and (f) of this section.

(c) *Elongation.* Elongation shall be measured during the breaking strength test described in paragraph (b) of this section by the following procedure: A preload between 44 and 55 pounds or 20 and 25 kilograms shall be placed on the webbing mounted in the grips of the testing machine and the needle points of an extensometer, in which the points remain parallel during test, are inserted in the center of the specimen. Initially the points shall be set at a known distance

apart between 4 and 8 inches or 10 and 20 centimeters. When the force on the webbing reaches the value specified in § 7.4(c), the increase in separation of the points of the extensometer shall be measured and the percent elongation shall be calculated to the nearest 0.5 percent. Each value shall be not more than the appropriate elongation requirement in § 7.4(c).

(d) *Resistance to abrasion.* The webbing from three seat belt assemblies shall be tested for resistance to abrasion by rubbing over the hexagon bar prescribed in Figure 2 in the following manner. The webbing shall be mounted in the apparatus shown schematically in Figure 2. One end of the webbing (A) shall be attached to a weight (B) which has a mass of 5.2±0.1 pounds or 2.35± 0.05 kilograms, except that a mass of 3.3±0.1 pounds or 1.50±0.05 kilograms shall be used for webbing in pelvic and upper torso restraint of Type 3 seat belt assembly. The webbing shall be passed over the two new abrading edges of the hexagon bar (C) and the other end attached to an oscillating drum (D) which has a stroke of 13 inches or 33 centimeters Suitable guides shall be used to prevent movement of the webbing along the axis of hexagonal bar C. Drum D shall be oscillated for 5,000 strokes or 2,500 cycles at a rate of 60±2 strokes per minute or 30±1 cycles per minute. The abraded webbing shall be conditioned as prescribed in paragraph (a) of this section and tested for breaking strength by the procedure described in paragraph (b) of this section. The median values for the breaking strengths determined on abraded and unabraded specimens shall be used to calculate the percentage of breaking strength retained.

(e) *Resistance to light.* Webbing at least 20 inches or 50 centimeters in length from three seat belt assemblies shall be suspended vertically on the inside of the specimen rack in a Type E carbon-arc light-exposure apparatus described in Recommended Practice for Operation of Light-and-Water-Exposure Apparatus (Carbon-Arc Type) for Artificial Weathering Test, ASTM Designation: E 42–64, published by the American Society for Testing and Materials. The apparatus shall be operated without water spray at an air temperature of 60±2 degrees Celsius or 140±3.6 degrees Fahrenheit measured at a point 1.0±0.2 inches or 2.5±0.5 centimeters outside the specimen rack and midway in height. The temperature sensing element shall be shielded from radiation. The specimens shall be exposed to the light from the carbon arc for 100 hours and then conditioned as prescribed in paragraph (a) of this section. The colorfastness of the exposed and conditioned specimens shall be determined on the Geometric Gray Scale issued by the American Association of Textile Chemists and Colorists. The breaking strength of the specimens shall be determined by the procedure prescribed in paragraph (b) of this section. The median values for the breaking strengths determined on exposed and unexposed specimens shall be used to calculate the percentage of breaking strength retained.

(f) *Resistance to micro-organisms.* Webbing at least 20 inches or 50 centimeters in length from these seat belt assemblies shall be subjected successively to the procedures prescribed in Section 1C1—Water Leaching, Section 1C2—Volatilization, and Section 1B3—Soil Burial Test of AATCC Tentative Test Method 30–1957T, Fungicides, Evaluation of Textiles; Mildew and Rot Resistance of Textiles, published by American Association of Textile Chemists and Colorists. After soil-burial for a period of 2 weeks, the specimen shall be washed in water, dried and conditioned as prescribed in paragraph (a) of this section. The breaking strengths of the specimens shall be determined by the procedure prescribed in paragraph (b) of this section. The median values for the breaking strengths determined on exposed and unexposed specimens shall be used to calculate the percentage of breaking strength retained.

NOTE: This test shall not be required on webbing made from material which is inherently resistant to micro-organisms.

(g) *Colorfastness to crocking.* Webbing from three seat belt assemblies shall be tested by the procedure specified in Standard Test Method 8–1961, Colorfastness to Crocking (Rubbing) published by the American Association of Textile Chemists and Colorists.

(h) *Colorfastness to staining.* Webbing from three seat belt assemblies shall be tested by the procedure specified in Standard Test Method 107–1962, Colorfastness to Water, published by the American Association of Textile Chemists and Colorists, with the following modifications: Distilled water shall be used, the drying time in paragraph 4 of procedures shall be 4 hours, and section entitled "Evaluation Method for Staining (3)" shall be used to determine colorfastness to staining on the AATCC Chart for Measuring Transference of Colors.

**§ 7.8 Test procedures for hardware.**

(a) *Corrosion resistance.* All hardware from three seat belt assemblies shall be tested by Standard Method of Salt Spray (Fog) Testing, ASTM Designation: B 117–64, published by the American Society for Testing and Materials. The period of test shall be 50 hours for all attachment hardware at or near the floor, consisting of two periods of 24 hours exposure to salt spray followed by 1 hour drying and 25 hours for all other hardware, consisting of one period of 24 hours exposure to salt spray followed by 1 hour drying. In the salt spray test chamber, the parts from the three assemblies shall be oriented differently, selecting those orientations most likely to develop corrosion on the larger areas. Retractors shall be tested for corrosion resistance after 5,000 cycles of operation as prescribed in paragraph (k) of this section.

(b) *Temperature resistance.* All hardware having plastic or non-metallic components from three seat belt assemblies shall be subjected to the conditions prescribed in Procedure IV of Standard Methods of Test for Resistance of Plastics to Accelerated Service Conditions published by the American Society for Testing and Materials, under designation D 756–56. The dimension and weight measurements shall be omitted. Buckles shall be unlatched and retractors shall be fully retracted during conditioning. The hardware parts after conditioning shall be used for all applicable tests in §§ 7.5 and 7.6.

(c) *Attachment hardware.* (1) Attachment bolts used to secure the pelvic restraint of a seat belt assembly to a motor vehicle shall be tested in the following manner: To one head of a testing machine described in § 7.7(b), two belt sections shall be attached. At the free end of each belt section, attachment hardware from the seat belt assembly (i.e., sister hooks, etc.) shall be attached. The attachment hardware shall be fastened by the bolt in a fixture on the other head of the testing machine as shown in Figure 3, which has a standard 7/16—20 UNF –2B threaded hole in a hardened steel plate at least 0.4 inch or 1 centimeter in thickness; the axis of this threaded hole forms a 45 degree angle with the line of pull of the belt sections. The bolt shall be 0.2 inch or 5 millimeters from its fully seated position with the attachment hardware from the two belt sections attached. A force of 5,000 pounds or 2,270 kilograms shall be applied. A bolt from each of three seat belt assemblies shall be tested.

(2) Single attachment hook for connecting webbing to an eye bolt shall be tested in the following manner: The hook shall be held rigidly so that the retainer latch or keeper, with cotter pin or other locking device in place, is in a horizontal position as shown in Figure 4. A force of 150±2 pounds or 68±1 kilograms shall be applied vertically as near as possible to the free end of the retainer latch, and the movement of the latch by this force at the point of application shall be measured. The vertical force shall be released, and a force of 150±2 pounds or 68±1 kilograms shall be applied horizontally as near as possible to the free end of the retainer latch. The movement of the latch by this force at the point of load application shall be measured. Alternatively, the hook may be held in other positions provided the forces are applied and the movements of the latch are measured at the points indicated in Figure 4.

(d) *Buckle release force.* Three seat belt assemblies shall be tested to determine compliance with the maximum buckle release force requirements, following the assembly test in § 7.9. After subjection to the force applicable for the assembly being tested, the force shall be reduced and maintained at 150±10 pounds or 68±4 kilograms on the assembly loop of a Type 1 seat belt assembly, 75±5 pounds or 34±2 kilograms on the components of a Type 2 seat belt assembly, or 45±5 pounds or 20±2 kilograms on a Type 3 seat belt assembly. The buckle release force shall be measured by applying a force on the buckle in a manner and direction typical of that which would be employed by a seat belt occupant. For lever release buckles, the force shall be applied on the centerline of the buckle lever or finger tab in such direction as to produce maximum releasing effect. A hole 0.1 inch or 2.5 millimeters in diameter may be drilled through the buckle tab or lever on the centerline of the lever between 0.12 and 0.13 inch or 3.0 and 3.3 millimeters from its edge, and a small loop of soft wire may be used as the connecting link between the buckle tab or lever and the force measuring device.

(e) *Adjustment force.* Three seat belt assemblies shall be tested for adjustment force on the webbing at the buckle, or other manual adjusting device normally used to adjust the size of the assembly. With no load on the anchor end, the webbing shall be drawn through the adjusting device at a rate of 20±2 inches per minute or 50±5 centimeters per minute and the maximum force shall be measured to the nearest 0.25 pound or 0.1 kilogram after the first 1.0 inch or 25 millimeters of webbing movement. The webbing shall be precycled 10 times prior to measurement.

(f) *Tilt-lock adjustment.* This test shall be made on buckles or other manual adjusting devices having tilt-lock adjustment normally used to adjust the size of the assembly. Three buckles or devices shall be tested. The base of the adjustment mechanism and the anchor end of the webbing shall be oriented in planes normal to each other. The webbing shall be drawn through the adjustment mechanism in a direction to increase belt length at a rate of 20±2 inches per minute or 50±5 centimeters per minute while the plane of the base is slowly rotated in a direction to lock the webbing. Rotation shall be stopped when the webbing locks, but the pull on the webbing shall be continued until there is a resistance of at least 20 pounds or 9 kilograms. The locking angle between the anchor end of the webbing and the base of the adjustment mechanism shall be measured to the nearest degree. The webbing shall be precycled 10 times prior to measurement.

(g) *Buckle latch.* The buckles from three seat belt assemblies shall be opened fully and closed at least 10 times. Then the buckles shall be clamped or firmly held against a flat surface so as to permit normal movement of buckle parts, but with the metal mating plate (metal-to-metal buckles) or webbing end (metal-to-webbing buckles) withdrawn from the buckle. The release mechanism shall be moved 200 times through the maximum possible travel against its stop with a force of 30±3 pounds or 14±1 kilograms at a rate not to exceed 30 cycles per minute. The buckle shall be examined to determine compliance with the performance requirements of § 7.5(g). A metal-to-metal buckle shall be examined to determine whether partial engagement is possible by means of any technique representative of actual use. If partial engagement is possible, the maximum force of separation when in such partial engagement shall be determined.

(h) *Non-locking retractor.* After the retractor is cycled 10 times by full extension and retraction of the webbing, the retractor and webbing shall be suspended vertically and a force of 4 pounds or 1.8 kilograms shall be applied to extend the webbing from the retractor. The force shall be reduced to 3 pounds or 1.4 kilograms. The residual extension of the webbing shall be measured by manual rotation of the retractor drum or by disengaging the retraction mechanism. Measurements shall be made on three retractors.

(i) *Automatic-locking retractor.* Three retractors shall be tested in a manner to permit the retraction force to be determined exclusive of any gravitational forces on hardware or webbing. The webbing shall be fully extended from the retractor and a line shall be marked at 75 percent extension. While the webbing is being retracted, the lowest force of retraction within plus or minus 2 inches or 5 centimeters of 75 percent extension (25 percent retraction) shall be determined and the webbing movement between adjacent locking segments shall be measured in the same region of extension.

(j) *Emergency-locking retractor.* Three retractors shall be tested in a manner to permit the retraction force to be determined exclusive of any gravitational forces on hardware or webbing. The webbing shall be fully extended from the retractor and a line shall be marked at 75 percent extension. While the webbing is being retracted, the lowest force of retraction within plus or minus 2 inches or 5 centimeters of 75 percent extension (25 percent retraction) shall be determined. The retractor shall be subjected to an acceleration of 0.5 gravity or 5 meters per second while the webbing is at 75 percent extension, and the webbing movement before locking shall be measured under the following conditions: For a retractor sensitive to webbing withdrawal, the retractor shall be accelerated in the direction of webbing withdrawal while oriented horizontally and at angles of 45, 90, 135 and 180 degrees to the horizontal plane. For a retractor sensitive to vehicle acceleration, the retractor shall be accelerated in three directions normal to each other while oriented horizontally and at angles of 45, 90, 135 and 180 degrees to the horizontal plane unless the retractor locks by gravitational force when tilted in any direction to an angle of 45 degrees or more.

(k) *Performance of retractor.* The retractor shall be mounted in an apparatus capable of extending the webbing fully, applying a force of 20 pounds or 9 kilograms at full extension, and allowing the webbing to retract freely and completely. The webbing shall be withdrawn from the retractor and allowed to retract repeatedly in this apparatus until 5,000 cycles are completed. The retractor and webbing shall then be subjected to the corrosion test prescribed in paragraph (a) of this section. The performance of the retractor after the corrosion test shall be determined by withdrawing the webbing manually and allowing the webbing to retract for 25 cycles. Non-locking and automatic-locking retractors shall be subjected to 5,000 additional cycles of webbing withdrawal and retraction, and emergency-locking retractors shall be subjected to 45,000 additional cycles of webbing withdrawal and retraction as previously described. The locking mechanism of an emergency-locking retractor shall be actuated about 10,000 times during the 50,000 cycles. At the end of test, compliance of the retractors with applicable requirements in §§ 7.5 (h), (i) and (j) shall be determined. Three retractors shall be tested for performance.

**§ 7.9 Test procedures for assembly performance.**

(a) *Type 1 seat belt assembly.* Three complete seat belt assemblies including webbing, straps, buckles, adjustment and attachment hardware, and retractors, arranged in the form of a loop as shown in Figure 5, shall be tested in the following manner:

(1) The testing machine shall conform to the requirements specified in § 7.7(b). A double-roller block shall be attached to one head of the testing machine. This block shall consist of 2 rollers 4 inches or 10 centimeters in diameter and sufficiently long so that no part of the seat belt assembly touches parts of the block other than the rollers during test. The rollers shall be mounted on antifriction bearings and spaced 12 inches or 30 centimeters between centers, and shall have sufficient capacity so that there is no brinelling, bending or other distortion of parts which may affect the results. An anchorage bar shall be fastened to the other head of the testing machine.

(2) The attachment hardware furnished with the seat belt assembly shall be attached to the anchorage bar. The anchor points shall be spaced so that the webbing is parallel in the two sides of the loop. The orientation of the attachment hardware shall produce no twist in the webbing. The attaching bolt shall be parallel to, or at an angle of 45 or 90 degrees to the webbing, whichever results in the greatest angle between webbing and attachment hardware except that eye bolts shall be vertical, and attaching bolts of a seat belt assembly designed for use in specific models of motor vehicles shall be installed to produce the maximum angle in use indicated by the installation instructions. Rigid adapters between anchorage bar and attachment hardware shall be used if necessary to locate and orient the adjustment hardware. The adapters shall have a flat support face perpendicular to the threaded hole for the attaching bolt and adequate in area to provide full support for the base of the attachment hardware connected to the webbing. If necessary, a washer shall be used under a swivel plate or other attachment hardware that would crush or damage the webbing as the attaching bolt is tightened.

(3) The length of the assembly loop from attaching bolt to attaching bolt shall be adjusted to about 51 inches or 130 centimeters, or as near thereto as possible. A force of 55 pounds or 25 kilograms shall be applied to the loop to remove any slack in webbing at hardware. The force shall be removed and the heads of the testing machine shall be adjusted for an assembly loop between 48 and 50 inches or 122 and 127 centimeters in length. The length of the assembly loop shall then be adjusted

by applying a force between 20 and 22 pounds or 9 and 10 kilograms to the free end of the webbing at the buckle, or by the retraction force of an automatic-locking or emergency-locking retractor. A seat belt assembly that cannot be adjusted to this length shall be adjusted as closely as possible. An emergency-locking retractor when included in a seat belt assembly shall be locked after the adjustment for length. The buckle shall be in a location so that it does not touch the rollers during test, but to facilitate making the buckle release test in § 7.8(d) the buckle should be between the rollers or near a roller in one leg.

(4) The heads of the testing machine shall be separated at a rate between 2 and 4 inches per minute or 5 and 10 centimeters per minute until a force of 5,000±50 pounds or 2,270±20 kilograms is applied to the assembly loop. The extension of the loop shall be determined from measurements of head separation before and after the force is applied. The force shall be decreased to 150±10 pounds or 68±4 kilograms and the buckle release force measured as prescribed in § 7.8(d).

(5) After the buckle is released, the webbing shall be examined for cutting by the hardware. If the yarns are partially or completely severed in a line for a distance of 10 percent or more of the webbing width, the cut webbing shall be tested for breaking strength as specified in § 7.7(b) locating the cut in the free length between grips. If there is insufficient webbing on either side of the cut to make such a test for breaking strength, the webbing shall be repositioned in the hardware using another seat belt assembly. A tensile force of 2,500±25 pounds or 1,135±10 kilograms shall be applied to the components or a force of 5,000±50 pounds or 2,270±20 kilograms shall be applied to an assembly loop. After the force is removed, the breaking strength of the cut webbing shall be determined as prescribed above.

(6) If a Type 1 seat belt assembly includes an automatic-locking retractor or an emergency-locking retractor, the webbing and retractor shall be subjected to a tensile force of 2,500±25 pounds or 1,135±10 kilograms with the webbing fully extended from the retractor.

(b) *Type 2 seat belt assembly.* Components of three seat belt assemblies shall be tested in the following manner:

(1) The pelvic restraint between anchorages shall be adjusted to a length between 48 and 50 inches or 122 and 127 centimeters, or as near this length as possible if the design of the pelvic restraint does not permit its adjustment to this length. An emergency-locking retractor when included in a seat belt assembly shall be locked after the adjustment for length. The attachment hardware shall be oriented to the webbing as specified in paragraph (a)(2) of this section and illustrated in Figure 5. A tensile force of 2,500±25 pounds or 1,135±10 kilograms shall be applied on the components in any convenient manner and the extension between anchorages under this force shall be measured. The force shall be reduced to 75±5 pounds or 34±2 kilograms and the buckle release force measured as prescribed in § 7.8(d).

(2) The components of the upper torso restraint shall be subjected to a tensile force of 1,500±15 pounds or 680 ±5 kilograms following the procedure prescribed above for testing pelvic restraint and the extension between anchorages under this force shall be measured. If the testing apparatus permits, the pelvic and upper torso restraints may be tested simultaneously. The force shall be reduced to 75±5 pounds or 34±2 kilograms and the buckle release force measured as prescribed in § 7.8(d).

(3) Any component of the seat belt assembly common to both pelvic and upper torso restraint shall be subjected to a tensile force of 3,000±30 pounds or 1,360±15 kilograms.

(4) After the buckle is released in tests of pelvic and upper torso restraints, the webbing shall be examined for cutting by the hardware. If the yarns are partially or completely severed in a line for a distance of 10 percent or more of the webbing width, the cut webbing shall be tested for breaking strength as specified in § 7.7(b) locating the cut in the free length between grips. If there is insufficient webbing on either side of the cut to make such a test for breaking strength, the webbing shall be repositioned in the hardware using another seat belt assembly. The force applied shall be 2,500±25 pounds, or 1,135±10 kilograms for components of pelvic restraint, and 1,500±15 pounds or 680±5 kilograms for components of upper torso restraint. After the force is removed, the breaking strength of the cut webbing shall be determined as prescribed above.

(5) If a Type 2 seat belt assembly includes an automatic-locking retractor or an emergency-locking retractor, the webbing and retractor shall be subjected to a tensile force of 2,500±25 pounds or 1,135±10 kilograms with the webbing fully extended from the retractor, or to a tensile force of 1,500±15 pounds or 680±5 kilograms with the webbing fully extended from the retractor if the design of the assembly permits only upper-torso restraint forces on the retractor.

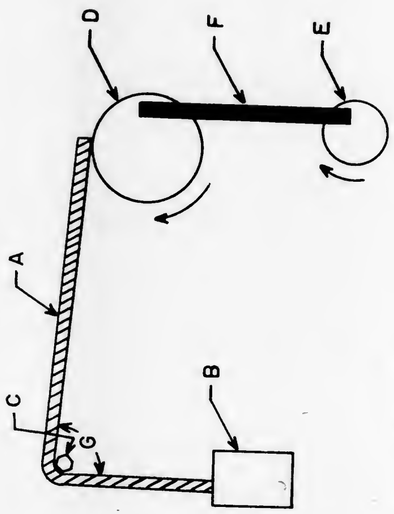
(c) *Type 3 seat belt assembly.* Three seat belt assemblies including webbing, straps, buckles, adjustment and attachment hardware and retractors shall be tested in the following manner:

(1) The testing machine shall conform to the requirements specified in § 7.7(b). A torso having the dimensions shown in Figure 6 shall be attached to one head of the testing machine through a universal joint which is guided in essentially a frictionless manner to minimize lateral forces on the testing machine. An anchorage and simulated seat back shall be attached to the other head as shown in Figure 7.

(2) The torso shall be positioned at a distance of 3 inches or 8 centimeters forward of the simulated seat back. The seat belt assembly shall be installed on the torso and anchored in accordance with installation instructions. The heads of the testing machine shall be separated at a rate of between 2 and 4 inches per minute or 5 and 10 centimeters per minute until a force of 2,000 pounds or 900 kilograms is applied. The extension of the seat belt assembly shall be determined from measurement of head separation in the testing machine before and after the force is applied. The force shall be reduced to 45±5 pounds or 20±2 kilograms and the buckle release force measured as prescribed in § 7.8(d). A seat back retainer not connected to pelvic or upper torso restraint shall be subjected separately to a force of 2,000 pounds or 900 kilograms.

(3) After the buckle is released, the webbing shall be examined for cutting by the hardware. If the yarns are partially or completely severed in a line for a distance of 10 percent or more of the webbing width, the cut webbing shall be tested for breaking strength as specified in § 7.7(b) locating the cut in the free length between grips. If there is insufficient webbing on either side of the cut to make such a test for breaking strength, the webbing shall be repositioned in the hardware using another seat belt assembly. A tensile force shall be applied to the components as follows: Webbing in pelvic or upper torso restraint—700 pounds or 320 kilograms; webbing in seat back retainer or webbing connecting pelvic and upper torso restraint to attachment hardware—1,500 pounds or 680 kilograms. After the force is removed, the breaking strength of the cut webbing shall be determined as prescribed above.

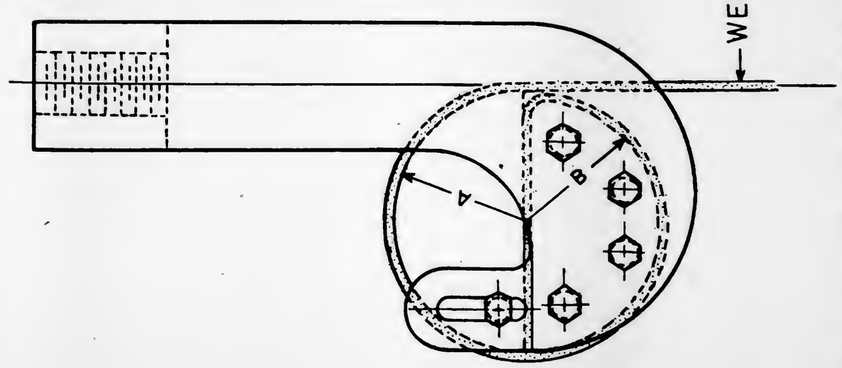
**§ 7.10 Provision for changes in the standards.**



Section 4 of the act provides for the possibility of changes in the standards first established pursuant to section 1 of this act. Any person, firm or organization wishing to propose a change in these standards shall submit the detailed proposal to the Director, National Bureau of Standards, U.S. Department of Commerce, Washington, D.C., 20234.

**§ 7.11 Effective date.**

The standards prescribed herein shall become effective upon publication in the FEDERAL REGISTER. Section 2 of the act shall take effect one year after the date of publication in the FEDERAL REGISTER.



LUTHER H. HODGES,
*Secretary of Commerce.*

# Title 17—COMMODITY AND SECURITIES EXCHANGES

## Chapter II—Securities and Exchange Commission

[Release 33–4744 etc.]

## PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

## PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

## PART 260—GENERAL RULES AND REGULATIONS, TRUST INDENTURE ACT OF 1939

## PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

## PART 275—RULES AND REGULATIONS, INVESTMENT ADVISERS ACT OF 1940

### Use of Certified Mail

The Securities and Exchange Commission has amended seventeen of its rules under the various statutes administered by the Commission to permit the use of certified mail in addition to registered mail in each of the instances covered by the rules in question.

The Commission's action is as follows:

1. Sections 230.172(c), 230.173(c), 230.262(b), 240.0–7(c), 240.15b–7(c), 260.0–9(c), 260.0–10(c), 270.0–6(c), 270.0–7(c), 275.01(c), and 275.02(c), the provisions of all of which are identical, are each amended by adding the words "or certified" following the word "registered". As so amended, each of these sections reads as follows:

Service of any process, pleadings or other papers on the Commission under this part shall be made by delivering the requisite number of copies thereof to the Secretary of the Commission or to such other person as the Commission may authorize to act in its behalf. Whenever any process, pleadings or other papers as aforesaid are served upon the Commission, it shall promptly forward a copy thereof by registered or certified mail to the appropriate defendants at their last address of record filed with the Commission. The Commission shall be furnished a sufficient number of copies for such purpose, and one copy for its file.

2. Sections 230.261(d) and 230.610(d), the provisions of both of which are identical, are each amended by adding the words "or certified" following the word "registered". As so amended, each of these sections reads as follows:

(d) All notices required by this part shall be given to the person or persons on whose behalf the notification was filed by personal service, registered or certified mail or confirmed telegraphic notice at the addresses of such persons given in the notification.

3. Section 230.340(d) is amended by adding the words "or certified" following the word "registered". As so amended, § 230.340(d) reads as follows:

(d) All notices required by this part shall be given to the person who filed the offering sheet, and shall be given either by personal service, or by registered or certified mail, or confirmed telegraphic notice, addressed to such person at the address given in the offering sheet.

4. Section 230.656(d) is amended by adding the words "or certified" following the word "registered". As so amended, § 230.656(d) reads as follows:

(d) All notices required by this part shall be given to the issuer by personal service, registered or certified mail or confirmed telegraphic notice at the address of the issuer given in the notification.

5. Section 240.24b–2(e) is amended by adding the words "or certified" following the word "registered". As so amended, § 240.24b–2(e) reads as follows:

(e) Prior to any determination overruling the objection, if a hearing shall have been requested in accordance with paragraph (b) of this section, at least 10 days' notice of the time and place of such hearing shall be given by registered or certified mail to the person or his agent for service. Failure of any person making an application pursuant to paragraph (b) of this section, to request a hearing, to appear at such hearing, or to offer evidence at the hearing in support of his application, shall be deemed a consent by such person to the submission of his objection for determination by the Commisson. In any case in which a hearing has been held, the Commission need consider only such grounds of objection as shall have been supported by evidence adduced at the hearing and the failure at the hearing to adduce evidence in support of any ground of objection may be deemed by the Commission a waiver thereof.

6. Section 240.24b–2(h) is amended by adding the words "or certified" following the word "registered". As so amended, § 240.24b–2(h) reads as follows:

(h) If such finding and determination are made with respect to the confidential portion of an application, report, or document filed pursuant to section 12 or 13 of the Act, the registration of the securities with respect to which the application, report, or document was filed may be withdrawn at any time within fifteen days of the dispatch of notice by registered or certified mail of such finding and determination. Such withdrawal shall be effected as follows:

(1) The issuer shall file with the Commission a written notification of withdrawal.

(2) Upon receipt of such notification, the Commission will send confirmed telegraphic notice thereof to each exchange on which the securities are registered.

(3) The registration shall continue in effect until, and shall termniate on, the close of business of the tenth day after the dispatch of such telegraphic notice to the exchange by the Commission.

(4) All applications, reports, or documents filed in connection with the registration shall be retained by the Commission and the exchange on which filed, and shall be plainly marked: "Registration withdrawn as of _____ (date of termination of registration)" except that all copies of the confidential portion will be returned to the issuer.

*Effective date.* The Commission finds that the foregoing actions relate to agency organization or procedure and that compliance with subsections 4 (a) and (b) of the Administrative Procedure Act is unnecessary. The Commission further finds that the foregoing amendments are not of a substantive nature and that compliance with subsection 4(c) of the Administrative Procedure Act is unnecessary. Accordingly, the foregoing action becomes effective immediately upon publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] NELLYE A. THORSEN,
*Assistant Secretary.*

DECEMBER 4, 1964.

[F.R. Doc. 64–12691; Filed, Dec. 10, 1964; 8:46 a.m.]

# Title 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

### SUBCHAPTER A—GENERAL

### PART 8—COLOR ADDITIVES

### PART 9—COLOR CERTIFICATION

### FD&C Red No. 4

Pursuant to the authority vested in the Secretary of Health, Education, and Welfare by Title II of the Color Additives Amendments of 1960 (Title II, Public Law 86–618; 74 Stat. 404 et seq.; 21 U.S.C., note under 376) and delegated to the Commissioner of Food and Drugs (21 CFR 2.90; 29 F.R. 471), the transitional color additive regulations and the color certification regulations are amended as set forth below:

§ 8.501 [Amended]

1. Section 8.501 *Provisional lists of color additives* is amended in the following respects:

a. In paragraph (a), the item "FD&C Red No. 4 (§9.63 of this chapter)" is deleted.

b. Paragraph (c) is amended by inserting a new item after "Ext. D&C Red No. 15 • • •", as follows:

| | Closing date | Restrictions |
|---|---|---|
| • • • | • • • | • • • |
| Ext. D&C Red No. 24 (§ 9.363 of this chapter). | July 1, 1965 | |
| • • • | • • • | • • • |

2. Section 8.502 is amended by adding thereto a new paragraph (d), as follows:

§ 8.502 **Termination of provisional listings of color additives.**

• • • • • •

(d) *FD&C Red No. 4.* Feeding tests of this color additive have been conducted with three species:

(1) Rats of the Osborne-Mendel and Sprague-Dawley strains were fed FD&C Red No. 4 for 2 years at levels of 5 percent, 2 percent, 1 percent, and 0.5 percent of the diet. No effect was found.

(2) Mice of the C3Hf and C57BL strains were fed FD&C Red No. 4 for 2 years at levels of 2 percent and 1 percent of the diet. No effect was found.

(3) Dogs were fed FD&C Red No. 4 at levels of 2 percent and 1 percent of the diet. Adverse effects were found at both levels in the urinary bladder and in the adrenals. Three dogs of five fed on the 2-percent level died after 6 months, 9 months, and 5½ years on the test. Two of the dogs on the 2-percent level and all five of the dogs on the 1-percent level survived to the completion of the 7 year study.

The Commissioner of Food and Drugs has concluded that the data available to him do not permit the establishment of a safe level of use of this color additive for a long period of time in food and in ingested drugs and cosmetics. In order to protect the public health, the Commissioner hereby terminates the provisional listing of FD&C Red No. 4 (§ 9.63 of this chapter) for use in food and in drugs and cosmetics that may be ingested. The Commissioner does not find that the facts now before him require a prohibition of the use of FD&C Red No. 4 in drugs and cosmetics which are not ingested and the provisional listing with respect to these uses remains in effect.

3. Section 8.510 is amended by adding thereto a new paragraph (c), as follows:

§ 8.510 **Cancellation of certificates.**

• • • • • •

(c) Certificates issued heretofore for the color additive designated FD&C Red No. 4 (§ 9.63 of this chapter) and of all mixtures containing this color additive are cancelled effective 180 days after the date of the publication of this order insofar as food and ingested drugs and cosmetics are concerned, and use of this color additive in the manufacture of food and ingested drugs and cosmetics after that date will result in adulteration. The certificates shall continue in effect for the use of this color additive in drugs and cosmetics which are not ingested. The Commissioner finds that no action needs to be taken to remove food and ingested drugs and cosmetics containing this color additive from the market on the basis of the scientific evidence before him, taking into account that the additive is not an acutely toxic substance and that it is used only in small amounts in food and ingested drugs and cosmetics.

4. Part 9 is amended by deleting § 9.63 *FD&C Red No. 4* from Subpart B and by adding to Subpart D the following new section:

§ 9.363 **External D&C Red No. 24.**

Disodium salt of 2-(5-sulfo-2,4-xylylazo)-1-naphthol-4-sulfonic acid.

Volatile matter (at 135° C.), not more than 10.0 percent.

Water-insoluble matter, not more than 0.3 percent.

Ether extracts, not more than 0.2 percent.

Chlorides and sulfates of sodium, not more than 5.0 percent.

Mixed oxides, not more than 1.0 percent.

Subsidiary dyes, not more than 5.0 percent.

Pure dye (as determined by titration with titanium trichloride), not less than 85.0 percent.

Notice and public procedure are not necessary prerequisites to the promulgation of this order because section 203(d)(2) of the Public Law 86–618 so provides.

*Effective date.* This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Title II, Public Law 86–618; 74 Stat. 404 et seq.; 21 U.S.C., note under 376)

Dated: December 7, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

[F.R. Doc. 64–12736; Filed, Dec. 10, 1964; 8:49 a.m.]

### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

### PART 42—EGGS AND EGG PRODUCTS

### Amendment of Identity Standards To Provide for Glucose Removal

In the matter of amending the standards of identity for dried whole eggs and dried egg yolks to provide for glucose removal:

Notices of proposed rule making in the above-identified matter were published in the FEDERAL REGISTER on March 28, 1964 (29 F.R. 4099) and May 28, 1964 (29 F.R. 7029). The first notice set forth a proposal by Fermco Laboratories, Inc., 4941 South Racine Avenue, Chicago, Ill., to amend the standards to provide for the optional use of an enzymatic method of removing glucose from liquid whole eggs and egg yolks before drying. The second notice set forth a proposal by Armour and Company, 401 North Wabash Avenue, Chicago, Ill., to amend the standards to give recognition to a yeast-fermentation method for glucose removal. Both proposals provided for label declaration when either of the two methods is used.

On the basis of the relevant information available, giving due consideration to comments filed, it is concluded that it will promote honesty and fair dealing in the interest of consumers to amend the standards for dried eggs and for dried egg yolks to permit glucose removal by the methods proposed. Therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919; 72 Stat. 948; 21 U.S.C. 341, 371) and delegated to the Commissioner of Food and Drugs (21 CFR 2.90; 29 F.R. 471): *It is ordered,* That the standards of identity for dried whole eggs and dried egg yolks be revised to read as follows:

§ 42.30 **Dried eggs, dried whole eggs; identity; label statement of optional ingredients.**

(a) Dried eggs, dried whole eggs are prepared by drying liquid eggs. They may be powdered. Before drying, the glucose content of the liquid eggs may be reduced by one of the optional procedures set out in paragraph (b) of this section. Sodium silicoaluminate may be added as an optional anticaking ingredient, but the amount used is less than 2 percent

by weight of the finished food. The moisture content of the finished food, if the optional anticaking ingredient is used, does not exceed 5 percent by weight; however, if the optional anticaking ingredient is not used the moisture content may exceed 5 percent, but it does not exceed 8 percent. The moisture content is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Ninth Edition, 1960, sections 16.002 and 16.003, under "Total Solids."

(b) The optional glucose-removing procedures are:

(1) *Enzyme procedure.* A glucose-oxidase-catalase preparation and hydrogen peroxide solution are added to the liquid eggs. The quantity used and the time of reaction are sufficient to substantially reduce the glucose content of the liquid eggs. The glucose-oxidase-catalase preparation used is one that is generally recognized as safe within the meaning of section 201(s) of the Federal Food, Drug, and Cosmetic Act. The hydrogen peroxide solution used shall comply with the specifications of the United States Pharmacopeia, except that it may exceed the concentration specified therein and it does not contain a preservative.

(2) *Yeast procedure.* The pH of the liquid eggs is adjusted to the range of 6.0 to 7.0, if necessary, by the addition of dilute, chemically pure hydrochloric acid, and controlled fermentation is maintained by adding food-grade baker's yeast (*Saccharomyces cerevisiae*). The quantity of yeast used and the time of reaction are sufficient to substantially reduce the glucose content of the liquid eggs.

(c) The name of the food for which a definition and standard of identity is prescribed by this section is "Dried eggs" or "Dried whole eggs," and if the glucose content was reduced, as provided in paragraph (b) of this section, the name shall be followed immediately by the statement "Glucose removed for stability" or "Stabilized, glucose removed."

(d) (1) When the optional anticaking ingredient sodium silicoaluminate is used, the label shall bear the statement "Less than 2 percent sodium silicoaluminate added as an anticaking agent."

(2) The name of any optional ingredient used, as provided in subparagraph (1) of this paragraph, shall be listed on the principal display panel or panels of the label with such prominence and conspicuousness as to render such statement likely to be read and understood by the ordinary individual under customary conditions of purchase.

**§ 42.60 Dried egg yolks, dried yolks; identity; label statement of optional ingredients.**

(a) Dried egg yolks, dried yolks is the food prepared by drying egg yolks. Before drying, the glucose content of the liquid egg yolk may be reduced by one of the optional procedures set out in paragraph (b) of this section. Sodium silicoaluminate may be added as an optional anticaking ingredient, but the amount used is less than 2 percent by weight of the finished food. The moisture content of the finished food, if the optional anticaking ingredient is used, does not exceed 3 percent by weight; however, if the optional anticaking ingredient is not used, the moisture content may exceed 3 percent but it does not exceed 5 percent. The moisture content is determined by the method prescribed in "Official Methods of Analysis of the Association of Official Agricultural Chemists," Ninth Edition, 1960, sections 16.002 and 16.003, under "Total Solids."

(b) The optional glucose-removing procedures are:

(1) *Enzyme procedure.* A glucose-oxidase-catalase preparation and hydrogen peroxide solution are added to the liquid yolks. The quantity used and the time of reaction are sufficient to substantially reduce the glucose content of the liquid egg yolks. The glucose-oxidase-catalase preparation used is one that is generally recognized as safe within the meaning of section 201(s) of the Federal Food, Drug, and Cosmetic Act. The hydrogen peroxide solution used shall comply with the specification of the United States Pharmacopeia, except that it may exceed the concentration specified therein and it does not contain a preservative.

(2) *Yeast procedure.* The pH of the liquid egg yolks is adjusted to the range of 6.0 to 7.0, if necessary, by the addition of dilute, chemically pure hydrochloric acid, and controlled fermentation is maintained by adding food-grade baker's yeast (*Saccharomyces cerevisiae*). The quantity of yeast used and the time of reaction are sufficient to substantially reduce the glucose content of the liquid egg yolks.

(c) The name of the food for which a definition and standard of identity is prescribed by this section is "Dried egg yolks," or "Dried yolks," and if the glucose content was reduced, as provided in paragraph (b) of this section, the name shall be followed immediately by the statement "Glucose removed for stability" or "Stabilized, glucose removed."

(d) (1) When the optional anticaking ingredient sodium silicoaluminate is used, the label shall bear the statetment "Less than 2 percent sodium silicoaluminate added as an anticaking agent."

(2) The name of any optional ingredient used, as provided in subparagraph (1) of this paragraph, shall be listed on the principal display panel or panels of the label with such prominence and conspicuousness as to render such statement likely to be read and understood by the ordinary individual under customary conditions of purchase.

Any person who will be adversely affected by the foregoing order may at any time within 30 days following the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C., 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing, and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

*Effective date.* This order shall become effective 60 days from the date of its publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be announced by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 948; 21 U.S.C. 341, 371)

Dated: December 4, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

SUBCHAPTER C—DRUGS

## PART 144—ANTIBIOTIC DRUGS; EXEMPTIONS FROM LABELING AND CERTIFICATION REQUIREMENTS

## PART 148c—COLISTIN

### Miscellaneous Amendments; Corrections

Because of the recodification of certain portions of the antibiotic regulations, the following corrections are necessary in the amendatory language in F.R. Doc. 64-11924, published in the FEDERAL REGISTER of November 21, 1964 (29 F.R. 15644).

In amendment 1, the reference to § 146.26(b) should read "§ 144.26(b)."

In amendment 3, the reference to § 148.4 should read "§ 146.2(c)."

(Sec. 507, 52 Stat. 463 as amended; 21 U.S.C. 357)

Dated: December 4, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

# Title 27—INTOXICATING LIQUORS

## Chapter I—Internal Revenue Service, Department of the Treasury

[T.D. 6776]

## PART 4—LABELING AND ADVERTISING OF WINE

### Labeling of Wine Containing Volatile Fruit-Flavor Concentrates

This Treasury decision amends the following provisions of the regulations in 27 CFR Part 4, Labeling and Advertising of Wine, to make them consistent with provisions of the Internal Revenue Code as amended by Public Law 88-653, 78 Stat. 1085, approved October 13, 1964.

PARAGRAPH 1. In order to recognize the use of volatile fruit-flavor concentrates in standard wines within the limitations prescribed by section 5382 of the Internal Revenue Code:

(A) Section 4.21(h)(1)(iii) is amended to read as follows:

**§ 4.21 The standards of identity.**

* * * * * * *

(h) *Class 8; imitation and substandard wine.* (1) * * *

(iii) Any class or type of wine the taste, aroma, color, or other characteristics of which have been acquired in whole or in part, by treatment with methods or materials of any kind (except as permitted in § 4.22(c)(6)), if the taste, aroma, color, or other characteristics of normal wines of such class or type are acquired without such treatment.

* * * * * * *

(B) Section 4.22(c) is amended by adding at the end thereof a new subparagraph (6) reading as follows:

**§ 4.22 Blends, cellar treatment, alteration of class or type.**

* * * * * * *

(c) * * *

(6) Treatment of any class or type of wine involving the use of volatile fruit-flavor concentrates in the manner provided in section 5382 of the Internal Revenue Code.

Public Law 88-653, which authorized the use of volatile fruit-flavor concentrate in wine, and the transfer of such concentrate from volatile fruit-flavor concentrate plants to bonded wine cellars, was approved October 13, 1964, and becomes effective December 1, 1964. Treasury Decision 6769, approved November 3, 1964, and effective December 1, 1964, amended the Wine regulations (26 CFR Part 240) and Production of Volatile Fruit-Flavor Concentrates regulations (26 CFR Part 198) to implement this provision of law. Because this Treasury decision merely conforms the regulations to Public Law 88-653, and should become effective at the same time as the statute, it is considered impracticable and unnecessary to comply with the notice and hearing requirements of section 5 of the Federal Alcohol Administration Act, approved August 29, 1935, and the public rule-making and effective date requirements of section 4 (a) and (c) of the Administrative Procedure Act, approved June 11, 1946. Accordingly, this Treasury decision shall become effective on December 1, 1964.

(Sec. 5, Federal Alcohol Administration Act (49 Stat. 981, as amended; 27 U.S.C. 205))

[SEAL] HAROLD T. SWARTZ,
*Acting Commissioner of Internal Revenue.*

Approved: December 7, 1964.

STANLEY S. SURREY,
*Assistant Secretary of the Treasury.*

# Title 32—NATIONAL DEFENSE

## Chapter V—Department of the Army

SUBCHAPTER B—CLAIMS AND ACCOUNTS

## PART 536—CLAIMS AGAINST THE UNITED STATES

### Burial Expenses

1. In § 536.50, subdivision (iv) of paragraph (b)(1) is revised; subdivision (ii) of paragraph (c)(1) is revised; and paragraph (e)(5) is revised, to read as follows:

**§ 536.50 Eligible deceased and authorized benefits.**

* * * * * * *

(b) *Civilian Army employee.* * * *

(1) * * *

(iv) Transportation of remains to decedent's home or official station or such place as the Chief of Support Services may deem appropriate provided such transportation does not exceed cost of transportation to home or official station, whichever is greater.

* * * * * * *

(c) *Dependents.* (1) * * *

(ii) Transportation of remains to decedent's home or such place as the Chief of Support Services may deem appropriate.

* * * * * * *

(e) *Indigent persons.* * * *

(5) Transportation of remains to a cemetery designated by the Chief of Support Services.

* * * * * * *

2. Paragraph (f) of § 536.51 is revised to read as follows:

**§ 536.51 Persons authorized to direct disposition of remains.**

* * * * * * *

(f) Cases in which evaluation of legal documents is required to determine disposition rights, or in which other legal problems exist, may be referred to the Chief of Support Services for review and opinion provided resolution within the command is not possible.

3. In § 536.52, paragraph (a)(3), (4)(iv) and (7) is revised, and paragraph (b)(1), (2) and (4) is revised, to read as follows:

**§ 536.52 Arrangements for disposition of remains.**

(a) *The Army arranges for mortuary services.* * * *

(3) Army authorities at or nearest the place of death will be responsible for making all required reports to the Chief of Support Services and to immediately advise the official permanent station of the decedent concerning services and information furnished and assistance rendered to relatives or funeral directors.

* * * * * * *

(4) * * *

(iv) The Chief of Support Services.

* * * * * * *

(7) The installation shipping remains to the final destination will furnish next of kin five copies of DD Form 1375 (Request for Payment of Funeral and/or Interment Expenses). The forms may be carried by the escort, or they may be included with the shipping permit or other papers accompanying the remains. Completed forms are returned to the shipping installation for payment.

(b) *Next of kin arranges for mortuary services.* (1) When next of kin (after being properly advised) declines services and supplies offered by Army authorities and desires to engage their own funeral director, all cost for mortuary services and supplies, shipment of remains, and interment is a responsibility of the next of kin. However, Army authorities are responsible to advise next of kin of their right to request reimbursement for funeral, interment, and transportation expenses, and for providing DD Form 1375.

(2) When next of kin arranges for disposition of remains, reimbursement for funeral, interment, and transportation expenses may be obtained by the person who paid the bill of the funeral director, or the funeral director concerned may obtain payment, by submitting properly completed DD Form 1375, in quadruplicate, to the Chief of Support Services, ATTN: Memorial Division, Department of the Army, Washington, D.C., 20315. Upon receipt of completed forms, the Chief of Support Services will determine the amount to be allowed and will authorize payment in the amount found allowable.

* * * * * * *

(4) When next of kin assume custody of remains and make all arrangements, Army authorities are relieved of responsibility to inspect remains, to submit DA Form 2774 (Record of Preparation and Disposition of Remains—Deaths Occurring in CONUS) or DA Form 2775 (Record of Preparation and Disposition of Remains—Deaths Occurring Overseas).

4. In § 536.53, paragraphs (h)(2)(i) and (k)(3) are revised to read as follows:

**§ 536.53 Scope of mortuary benefits.**

* * * * * * *

(h) *Transportation.* * * *

(2) * * *

(i) *At Government expense.* The following listed deceased personnel may be shipped at Government expense to the destinations indicated:

(*a*) Military personnel described in § 536.50(a) and (f) to any place selected by the next of kin or other person directing disposition of the remains.

(*b*) Civilian employees described in § 536.50(b) to the decedent's home or official station or such place as the Chief of Support Services may deem appropriate, provided cost of transportation does not exceed cost of transportation to the home or official station, whichever is greater. When an employee in a category specified in § 536.50(b) dies while temporarily absent from temporary duty station, transportation of remains to the authorized destination will not exceed the amount which would have been allowable had death occurred at

the point from which decedent departed on such temporary absence.

(c) Dependents described in § 536.50 (c)(1) to the decedents' home or such place as the Chief of Support Services may deem appropriate.

(d) Indigents described in § 536.50(e) to a cemetery designated by the Chief of Support Services by the most economical means.

(e) Enemy prisoners and aliens described in § 536.50(g) to a cemetery or other place designated by the Chief of Support Services.

• • • • • •

(k) *Interment.* • • •

(3) Interment of indigents, enemy prisoners, and aliens who die in Army custody is authorized at reasonable cost in a cemetery designated by the Chief of Support Services.

5. In § 536.55(a)(1), subdivisions (ii), (iii), and (iv) are revised to read as follows:

**§ 536.55 Transportation of remains.**

(a) *Eligible deceased who are authorized transportation—At Government expense.* (1) • • •

(ii) Civilian employees cited in § 536.50(b) to the decedent's home or official station or such place as the Chief of Support Services may deem appropriate provided such transportation does not exceed cost of transportation to home or official station, whichever is greater.

(iii) Dependents of members and certain civilian employees of the Army cited in § 536.50(c)(1) to the decedent's home or such other place determined by the Chief of Support Services to be the appropriate place of interment.

(iv) Indigent persons, enemy prisoners and aliens cited in § 536.50 (e) and (g) to a cemetery designated by the Chief of Support Services.

• • • • • •

6. In § 536.57, paragraph (e) (1) and (3) is revised to read as follows:

**§ 536.57 Government headstones and markers.**

• • • • • •

(e) *Application for headstone or marker*—(1) *Private or civilian cemetery.* If burial is in a private or civilian cemetery, the next of kin (or other interested individual) may obtain a regulation Government headstone or marker, without cost, to mark the grave of an eligible deceased person by submitting an application to the Chief of Support Services, ATTN: Memorial Division, Washington, D.C., 20315. Application may be made on DD Form 1330 which will be furnished by the person escorting the remains to the place of burial, the survivor Assistance Officer, or through local national veterans organizations.

• • • • • •

(3) *Memorial headstone or marker.* The next of kin may obtain, without cost, a memorial headstone or marker for eligibles cited in paragraph (c)(2) of this section, upon application on DD Form 1330 to the Chief of Support Services, ATTN: Memorial Division, Washington, D.C., 20315.

• • • • • •

# Title 32A—NATIONAL DEFENSE, APPENDIX

## Chapter X—Oil Import Administration, Department of the Interior

[Oil Import Reg. 1; Rev. 4, Amdt. 3]

## OI REG. 1—OIL IMPORT REGULATION

### Miscellaneous Amendments

Sections 10 and 11 relating to allocations of crude oil and unfinished oils in Districts I–IV and in District V have been revised in the light of the levels of authorized imports established pursuant to section 2 of Proclamation 3279, as amended, for the allocation period beginning January 1, 1965.

1. Section 10 of Oil Import Regulation 1 (Revision 4) (29 F.R. 8170) is amended to read as follows:

**Sec. 10. Allocations of crude oil and unfinished oils—Districts I–IV.**

(a) The quantity of imports of crude oil and unfinished oils determined to be available for allocation in Districts I–IV for the allocation period January 1, 1965 through June 30, 1965, shall be allocated by the Administrator among eligible applicants as provided in paragraphs (b) and (c) of this section.

(b) Except as provided in paragraph (c) of this section, each eligible applicant shall receive an allocation based on refinery inputs for the year ending September 30, 1964, and computed according to the following schedule:

| *Average B/D input* | *Percent of input* |
|---|---|
| 0–10,000 | 60.0 |
| 10,000–30,000 | 33.7 |
| 30,000–100,000 | 20.4 |
| 100,000 plus | 14.1 |

(c)(1) Except as provided in subparagraph (2) of this paragraph, if an eligible applicant imported crude oil pursuant to an allocation under the Voluntary Oil Import Program and if an allocation computed under paragraph (b) of this section would be less than 49.75 percent of the applicant's last allocation of imports of crude oil under the Voluntary Oil Import Program, the applicant shall, nevertheless, receive an allocation under this section equal to 49.75 percent of his last allocation of imports of crude oil under the Voluntary Oil Import Program.

(d) No allocation made pursuant to this section shall entitle a person to a license which will allow the importation of unfinished oils in excess of 10 percent of the allocation.

(e) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

2. Section 11 of Oil Import Regulation 1 (Revision 4) (29 F.R. 8170) is amended to read as follows:

**Sec. 11. Allocations of crude oil and unfinished oils—District V.**

(a) The quantity of imports of crude oil and unfinished oils determined to be available for allocation in District V for the allocation period January 1, 1965 through June 30, 1965, shall be allocated by the Administrator among eligible applicants as provided in paragraphs (b) and (c) of this section.

(b) Except as provided in paragraph (c) of this section, each eligible applicant shall receive an allocation based on refinery inputs for the year ending September 30, 1964, and computed according to the following schedule:

| *Average B/D input* | *Percent of input* |
|---|---|
| 0–10,000 | 17.0 |
| 10,000–30,000 | 11.6 |
| 30,000–100,000 | 9.2 |
| 100,000 plus | 5.53 |

(c)(1) Except as provided in subparagraph (2) of this paragraph, if an eligible applicant imported crude oil pursuant to an allocation under the Voluntary Oil Import Program and if an allocation computed under paragraph (b) of this section would be less than 59.0 percent of the applicant's last allocation of imports of crude oil under the Voluntary Oil Import Program, the applicant shall, nevertheless, receive an allocation under this section equal to 59.0 percent of his last allocation of imports of crude oil under the Voluntary Oil Import Program.

(2) If an applicant imported crude oil pursuant to an allocation under the Voluntary Oil Import Program which reflected imports of crude oil that would now be exempt from restrictions pursuant to clause (4) of paragraph (a) of section 1 of Proclamation 3279, as amended, and if an allocation computed under paragraph (b) of this section would be less than 46.0 percent of the applicant's last allocation of imports of crude oil under the Voluntary Oil Import Program, the applicant shall, nevertheless, receive an allocation under this section equal to 46.0 percent of his last allocation of imports of crude oil under the Voluntary Oil Import Program.

(d)(1) No allocation made pursuant to this section shall entitle a person to a license which will allow the importation of unfinished oils in excess of 10 percent of the allocation. Each barrel of unfinished oil imported shall be deemed to be the equivalent of one barrel of crude oil and will be so charged against the person's license by the respective Collectors of Customs.

(2) The permissible percentage of imports of unfinished oils and the equivalence of unfinished oils to crude oil may be changed during the allocation period, if necessary to prevent impairing accomplishment of the purposes of the program. Such a change will be made only after notice of proposed rule making and will not become effective until the 30th calendar day following publication in the FEDERAL REGISTER of the Amendment making such change.

(e) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

Because allocations must be made and licenses issued for the allocation period beginning January 1, 1965, it is impracticable to give notice of proposed rule making on, or to delay the effective date of, this amendment. Accordingly, this amendment shall become effective immediately.

STEWART L. UDALL,
*Secretary of the Interior.*

# Title 43—PUBLIC LANDS: INTERIOR

## Chapter II—Bureau of Land Management

### APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 3510]

[Idaho 014480]

### IDAHO

### Withdrawal for National Forest Recreation Areas

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following-described national forest lands are hereby withdrawn from appropriation under the United States mining laws (Chap. 2, Title 30 U.S.C.), in aid of programs of the Department of Agriculture:

BOISE MERIDIAN

CARIBOU NATIONAL FOREST

*Trail Canyon Recreation Site*

T. 8 S., R. 43 E.,
Sec. 29, NW¼NE¼NE¼, N½NW¼NE¼, NE¼NE¼NW¼, and S½NE¼NW¼.

CHALLIS NATIONAL FOREST

*Joes Gulch-Four Acres Campground*

T. 11 N., R. 13 E.,
Sec. 35, lot 1, except north 30 acres; lot 3, except north 10 acres; lot 5, except south 20 acres.

*Salmon River Camping Area*

T. 11 N., R. 14 E.,
Sec. 30, lot 1, except west 15 acres; lot 4, except west 10 acres; lot 5; lot 6, except south 20 acres; lots 7 and 8; lot 9, except northwest 10 acres; lot 11; lot 13, except southeast 10 acres.

*Snowslide Campground*

T. 11 N., R. 14 E.,
Sec. 20, lots 3 and 6.

*Cove Campground*

T. 11 N., R. 14 E.,
Sec. 22, lot 3, except north 30 acres.

*Sunny Gulch Campground*

T. 10 N., R. 13 E.,
Sec. 23, lots 4 and 5;
Sec. 26, lots 3 and 4, except south 20 acres; lot 5, except south 20 acres.

The areas described aggregate approximately 492 acres.

2. The withdrawal made by the order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws.

JOHN A. CARVER, JR.,
*Assistant Secretary of the Interior.*

DECEMBER 7, 1964.

[F.R. Doc. 64-12703; Filed, Dec. 10, 1964; 8:47 a.m.]

[Public Land Order 3511]

[Wyoming 0248350]

### WYOMING

### Withdrawal for Meeks Cabin Dam and Reservoir

By virtue of the authority contained in section 3 of the Act of June 17, 1902 (32 Stat. 338; 43 U.S.C. 416), as amended and supplemented, it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (Chap. 2, Title 30 U.S.C.), but not from leasing under the mineral leasing laws, and reserved for the Meeks Cabin Dam and Reservoir:

SIXTH PRINCIPAL MERIDIAN

T. 12 N., R. 117 W.,
Sec. 10, NE¼SE¼SE¼ and S½SE¼SE¼;
Sec. 14, W½NW¼NE¼, NW¼, W½SW¼, W½E½SW¼ and N½NE¼NE¼SW¼;
Sec. 22, E½E½ of lot 1, E½NE¼ and E½E½NE¼SE¼.

The areas described aggregate approximately 435 acres.

JOHN A. CARVER, JR.,
*Assistant Secretary of the Interior.*

DECEMBER 7, 1964.

[F.R. Doc. 64-12704; Filed, Dec. 10, 1964; 8:47 a.m.]

[Public Land Order 3512]

[Nevada 059798]

### NEVADA

### Withdrawal for Proposed Southern Nevada Water Supply Project

By virtue of the authority contained in section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), as amended and supplemented, it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (Chapter 2, Title 30 U.S.C.), but not from leasing under the mineral leasing laws, and reserved for the proposed Southern Nevada Water Supply Project:

MOUNT DIABLO MERIDIAN

T. 21 S., R. 62 E.,
Sec. 23, NE¼, NE¼NW¼ and E½SE¼;
Sec. 24;
Sec. 25, E½NE¼, NW¼NE¼, NE¼NW¼, S½SW¼ and SW¼SE¼;
Sec. 35, E½NE¼NW¼, N½NE¼, SW¼SW¼ and E½SW¼.
T. 21 S., R. 63 E.,
Sec. 19;
Sec. 20, all except those lands included in Patented Mineral Survey 4808;
Sec. 21, N½, SW¼, N½SE¼ and SW¼SE¼;
Sec. 22, N½, N½SW¼, SE¼SW¼, and SE¼;
Sec. 25;
Sec. 26, lots 1, 2, 3, 4, N½ and N½S½;
Sec. 27;
Sec. 28, SE¼NE¼, N½NW¼, W½SW¼, SE¼SW¼ and SE¼;
Sec. 29, N½NE¼, NW¼ and S½S½;
Sec. 30, lots 1, 2, 4, NE¼, E½NW¼, SE¼SW¼ and S½SE¼;
Sec. 34, lots 1 to 6 inclusive, W½NE¼ and W½;
Sec. 35, lots 1 to 7 inclusive, lot 10, and SE¼SE¼;
Sec. 36.
T. 22 S., R. 63 E.,
Secs. 1, 2 and 3;
Secs. 10 to 15 inclusive.
Secs. 22, 23, 26 and 35.
T. 23 S., R. 63 E.,
Sec. 2, lots 3, 5, 6, 7, 11 to 15 inclusive, and 18, and S½SW¼;
Sec. 11, lot 1 and that portion of lot 2 lying west of the east boundary of U.S. Highway 95.
T. 22 S., R. 63½ E.,
Secs. 1, 12 and 13.

The areas described aggregate approximately 18,370 acres.

2. The use and administration of the lands affected by this order will become subject to the provisions of the reclamation laws, supra, including the use of the lands under lease, license, or permit, at such time as the Southern Nevada Water Supply Project is authorized by Congress.

3. Pending authorization of the Southern Nevada Water Supply Project, the withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit or the disposal of their mineral and vegetative resources, other than under the mining laws, subject to the condition that such use or

disposition will not be inconsistent with the reclamation laws and the purposes for which the lands are withdrawn.

JOHN A. CARVER, JR.,
*Secretary of the Interior.*

# Title 45—PUBLIC WELFARE

## Subtitle A—Department of Health, Education, and Welfare, General Administration

## PART 80—NONDISCRIMINATION IN FEDERALLY-ASSISTED PROGRAMS OF THE DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

*Correction*

In F.R. Doc. 64-12539, appearing at page 16298 of the issue for Friday, December 4, 1964, the following changes are made:

1. On page 16300, third column, the parenthetical phrase in the second line of § 80.5(b) is changed to read "(P.L. 815 and P.L. 874)".

2. On page 16303, first column, immediately above the last line of text, a section headnote is inserted reading as follows:

**§ 80.13 Definitions.**

3. On page 16304, first column, in the fifth line of item 27, the Code citation is changed to read "42 U.S.C. 1857b".

# Title 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

[Docket No. 15542; FCC 64-1115]

## PART 73—RADIO BROADCAST SERVICES

### Table of Assignments, FM Broadcast Stations

In the matter of amendment of § 73.202, Table of Assignments, FM Broadcast Stations (Hialeah, Fla.; Olean, N.Y.; Cadillac and Traverse City, Mich.; Ionia, St. Johns, and Grand Haven, Mich.; Monticello and Jamestown, Ky.; Beaumont and Port Arthur, Tex.; Holly Springs, Miss.; Santa Rosa, N. Mex.; Franklin, N.C.; Fairfield and Lodi, Calif.; Brownwood, Tex.; Kewanee, Ill.; Fort Dodge, Carroll, and Charles City, Iowa.; Celina, Ohio; Connellsville and Uniontown, Pa.; New Martinsville, W. Va.), Docket No. 15542, RM-568, RM-584, RM-585, RM-588, RM-590, RM-592, RM-593, RM-598, RM-601, RM-602, RM-604, RM-608, RM-609, RM-612.

*First report and order.* 1. The Commission has before it for consideration its notice of proposed rule making, released July 8, 1964, (FCC 64-613), proposing a number of changes in the FM Table of Assignments. In the present document we deal with most, but not all, of the proposals contained in the notice; the remainder will be dealt with shortly.

2. A number of statements were filed in response to the proposals set out in the notice. All duly filed documents were considered in making the following determinations. No oppositions were filed to any of the proposals covered herein.

3. RM-584, Olean, New York: The Notice, in response to the request of Radio Olean, Inc. (licensee of daytime-only AM station WMNS) proposed to assign Channel 265A to Olean. The population of Olean is 21,868.[1] The only FM channel presently assigned to the community (239) is occupied. There are two standard broadcast stations licensed in Olean: WMNS and full-time station WHDL.

4. In support of the assignment of Channel 265A to Olean, petitioner maintains that the community is somewhat isolated, that a new FM station would substantially improve effective competition between mass media in the area, and that an assignment can be made to the community without disturbing other assignments.

5. The Commission is of the opinion because of the above facts, as well as petitioner's interest and the availability of Channel 265A that it is in the public interest to assign Channel 265A to Olean. This community warrants a second assignment. In view of the circumstances here where a Class B channel probably cannot be found, we are justified in mixing Class A and B assignments.

6. RM-585. Cadillac and Traverse City, Michigan: The notice, in response to the request of Midwestern Broadcasting Company, proposed to reassign Channel 278 from Cadillac to Traverse City and to replace it in Cadillac with Channel 244A.

7. The population of Traverse City is 18,432. FM Channels 221A and 270 are assigned to the community. Channel 221A is not occupied nor are there applications pending for its use. There are two applications pending for the use of Channel 270, those of Great Northern Broadcasting Company (BPH-3984) and petitioner Midwest Broadcasting Company (BPH-4079). Two AM stations serve Traverse City: WCCW (daytime only) and WTCM (unlimited time). The population of Cadillac is 10,112. FM Channels 225 and 278 are assigned to the community. Channel 225 is occupied. Channel 278 is not occupied nor are there applications pending for its use. One unlimited time AM station, WATT, is located in Cadillac. Petitioner plans to drop its pending application for Channel 270 in Traverse City and apply for Channel 278 if it is assigned to the community. This action would avoid a costly comparative hearing and it would provide a substantial community with a second wide-coverage FM service. Some consideration must also be given to petitioner's statement that a wide coverage FM channel is necessary for an effective operation in Traverse City due to the fact that although there is substantial population in the area it is widely scattered. Assignment of a second Class C channel will also permit two FM stations to operate on a more nearly equal competitive basis.

8. In view of the foregoing, petitioner's interest, and the apparent lack of interest in a second wide coverage FM operation in Cadillac the Commission is of the view that it is in the public interest to reassign Channel 278 from Cadillac to Traverse City and to replace it, in Cadillac, with Channel 244A. In view of the paucity of available channels in this area we are permitting Class A and C assignments in both communities.

9. RM-590. Monticello and Jamestown, Kentucky: In response to the joint petition filed by Fred A. Staples (Monticello) and Russell County Broadcasters (Jamestown), the Notice proposed to assign Channel 269A to Monticello and Channel 288A to Jamestown.

10. Monticello, a community with a population of 2,940, presently has no FM channel assigned to it; it is served by a daytime-only, standard station, WFLW. The population of Jamestown is 792. No FM channel is assigned to the community nor is there any radio station located in it. If the proposals set out in our notice are adopted, it will mean that Monticello, the county seat of Wayne County (and therefore of special significance to that county (population 14,700)) would receive a first fulltime aural service and that Jamestown, the county seat of Russell County (11,076) would have located in it a first aural service of any kind. The adoption of the proposed assignments would in no way disturb other FM assignments. Petitioners are most interested in providing FM service to both communities at an early date.

11. In view of the above, we are of the opinion that it is in the public interest to assign Channel 269A to Monticello and Channel 288A to Jamestown.

12. RM-592. Beaumont and Port Arthur, Texas: The Notice, in response to the request of Radio Beaumont, Inc., proposed to interchange Channel 231 presently assigned to Port Arthur with Channel 299 presently assigned to Beaumont.

13. The population of Beaumont is 119,175. Channels 236, 248 and 299 are assigned there. Channels 248 and 236 are occupied while Channel 299 is not occupied and has no applications pending for its use. The population of Port Arthur is 66,676. FM Channels 227, 231 and 253 are assigned to it. Channels 227 and 253 are occupied. Channel 231 is not occupied nor are there applications pending for its use. It is apparent that petitioner is interested in developing an FM operation in the Beaumont-Port Arthur area only if it can construct the station on Channel 231 at Beaumont. It appears that a transmitter for such a station could be located at the present site of petitioner's AM Station KLVI. If the proposal is adopted there will be no decrease in the number of channels available to either community.

14. The Commission is of the opinion, because of the above facts, and the probability of the early initiation of a new FM service, that it is in the public interest to interchange Channel 231 presently assigned to Port Arthur with Channel 299 presently assigned to Beaumont.

15. RM-598. Santa Rosa, New Mexico: In response to the petition filed by Hubbard Broadcasting, Inc., the Notice proposed to substitute Channel 240A for Channel 228A at Santa Rosa. Santa Rosa is a community of 2,220 persons, with one Class A Channel (228A) assigned. The channel is unoccupied and there are no applications pending for its use.

16. Petitioner has filed an application for the use of Channel 227 presently assigned to Albuquerque, New Mexico (BPH-4437). In order to meet the minimum mileage separation requirements with respect to the Santa Rosa assignment, that application presently specifies a transmitter site near Alameda Township (Bernalillo County). If the substitution of channels at Santa Rosa requested by petitioner in this rule making is adopted, petitioner will be able to amend its application for Channel 227 to specify a transmitter site at the location of its KOB-TV tower on Sandia Crest east of Albuquerque, without violating our minimum mileage separation requirements. The operation petitioner contemplates for Channel 227, in the event this rule making petition is granted, will be more desirable than the operation presently possible, because of the fact that the Sandia Crest transmitter site will enable a Channel 227 operation to meet the needs of a larger area. Petitioner points out, and we agree, that the channel substitution he proposes will in no way adversely affect Santa Rosa's potential for local service.

17. In view of the foregoing, the Commission is of the view that it is in the public interest to substitute Channel 240A for Channel 228A at Santa Rosa.

18. RM-601. Franklin, North Carolina: The notice, in response to the petition filed by Macon County Broadcasters, proposed to assign Channel 244A to Franklin. At the present time there are no FM channels assigned to the community, although it is served by AM daytime-only station WFSC. The population of Franklin is 2,173. It is located in Macon County (population 14,835).

19. In support of the proposed assignment, various facts were brought to the attention of the Commission, Franklin is a county seat significant to its county in a commercial sense (it is the largest community in its county); it is isolated from large urban areas; and the community at this time has no nighttime or early morning radio service. Because of these facts and the fact that no other assignments need be disturbed, the Commission believes that it is in the public interest to assign Channel 244A to Franklin and is so doing.

20. RM-602. Fairfield, California: In response to the petition filed by the Fairfield Publishing Company, the notice proposed to reassign Channel 237A from Lodi to Fairfield.

21. The population of Fairfield is 14,968. It is located in Solano County (population 134,597). The population of San Joaquin County, in which Lodi is located, is 249,989, and that city's population is 22,229. There are two FM channels assigned to Lodi: 237A and 249A. Channel 249A is occupied while Channel 237A is unoccupied and not applied for. Standard broadcast station KCVR, a daytime only station, is located in the community. The county of San Joaquin, in addition to the Lodi stations, has the following stations located in it: KWC, KSTN, KJOY, KSTN-FM, and KCVN-FM (Ed.). In contrast to the above there are no FM channels assigned to Fairfield nor is there an AM station located in it; there are no FM assignments in Solano County and only one AM station therein, KNBA.

22. Petitioner's main point lies in his statement: "there is a greater need for the assignment of a first FM station to the community of Fairfield and the first FM and second broadcast service to its county than there is for the second FM and third broadcast service to the community of Lodi and the fourth FM and eighth broadcast service to Lodi's county, San Joaquin." In light of the facts pointed out in petitioner's statement, with which we agree, and the fact that Channel 237A can be reassigned to Fairfield without violating our minimum mileage separation requirements (petitioner claims that it has access to a transmitter site four miles north of Fairfield from which Fairfield could be served), as well as the lack of any opposition to petitioner's proposal, we are of the view that it is in the public interest to reassign Channel 237A from Lodi to Fairfield.

23. RM-604. Brownwood, Texas: The notice, in response to the petition filed by Kean Radio Corporation, proposed to assign either Channel 257A or Channel 292A to Brownwood.

24. The population of Brownwood is 16,974. Channels 268 and 281 are assigned to the community. Neither is occupied and there are no applications pending for their use. An educational station operates on Channel 201. Standard broadcast stations KEAN (unlimited time) and KBWD (unlimited time) operate in Brownwood. In view of the two commercial broadcast services presently located in Brownwood and the existence of a daily newspaper, all competing for advertisers' support, as well as a recent decline in population, petitioner is of the opinion that it cannot justify the expenditures necessary for the installation of a wide coverage FM station. It does feel, however, that the expenditures necessary for a limited coverage station can be justified. Petitioner is of the view that the community not only can support a limited coverage FM station but also that it is in need of such service.

25. The foregoing facts along with petitioner's interest and the availability of a limited coverage channel bring the Commission to the opinion that it is in the public interest to assign Channel 257A to Brownwood. Under the circumstances in this case we believe the mixing of classes of stations is justified.

26. RM-608. Kewanee, Illinois: As a result of a petition filed by Kewanee Broadcasting Company, the notice proposed to assign Channel 221A to Kewanee.

27. Kewanee has a population of 16,324 and is located in Henry County (population 49,317). No commercial FM channels are assigned to the community or county. AM Station WKEI, Kewanee, is the only AM station in the county. The inauguration of an FM station in the community would provide Kewanee and its county with a second radio service and a first FM service. The economic importance of the community also warrants an assignment.

28. For the reasons set out above, as well as the availability of Channel 221A and petitioner's interest, the Commission is of the view that it is in the public interest to assign Channel 221A to Kewanee.

29. RM-612. Celina, Ohio: The notice, in response to the petition filed by WCSM Radio, Inc., proposed to make the additional assignment of Channel 244A to Celina.

30. Celina is a community of 7,659 persons located in Mercer County (population 32,559). The community has occupied FM Channel 232A assigned to it. Petitioner's daytime-only AM Station WOSM is also licensed in the community; there are no other AM stations or FM assignments in the county. As a county seat and the largest community in Mercer County, Celina is of substantial importance to the area. It appears that the community is a focal point for cultural and social activities. A new FM station located in Celina would provide it and its surrounding area with a third broadcast service during daytime hours and a second in the early morning and nighttime. The assignment of Channel 244A to Celina meets our minimum mileage separation requirements. In view of petitioner's intention to promptly file an application for any new channel assigned to Celina, it appears that a newly assigned Channel 244A will not lie fallow.

31. The foregoing facts lead the Commission to the conclusion that it is in the public interest to assign Channel 244A to Celina.

32. Authority for the amendments adopted herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

33. *It is ordered*, That effective January 11, 1965, the Table of Assignments contained in § 73.202 of the Commission's rules and regulations is amended to read as follows in respect to the communities named:

[1] All population figures herein are 1960 U.S. Census figures.

| City | Channel No. |
|---|---|
| California: | |
| Fairfield | 237A |
| Lodi | 249A |
| Illinois: | |
| Kewanee | 221A |
| Kentucky: | |
| Jamestown | 288A |
| Monticello | 289A |
| Michigan: | |
| Cadillac | 225, 244A |
| Traverse City | 221A, 270, 273 |
| New Mexico: | |
| Santa Rosa | 240A |
| New York: | |
| Olean | 239, 265A |
| North Carolina: | |
| Franklin | 244A |
| Ohio: | |
| Celina | 232A, 244A |
| Texas: | |
| Beaumont | 231, 236, 248 |
| Brownwood | 257A, 268, 281 |
| Port Arthur | 227, 253, 299 |

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083; 47 U.S.C. 303, 307)

Adopted: December 2, 1964.

Released: December 3, 1964.

FEDERAL COMMUNICATIONS COMMISSION,[3]

[SEAL] BEN F. WAPLE, *Secretary.*

# Title 50—WILDLIFE AND FISHERIES

## Chapter II—Bureau of Commercial Fisheries, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER F—AID TO FISHERIES

## PART 257—NOTICE AND HEARING ON SUBSIDIES

On pages 14744 to 14746 of the FEDERAL REGISTER of October 29, 1964, there was published a notice of proposed rule making to issue regulations governing the procedures for the notice and hearing requirements of the United States Fishing Fleet Improvement Act (Public Law 88-498). Interested persons were given 20 days in which to submit written comments, suggestions, or objections with respect to the proposed regulations.

No objections have been received and the only suggestion submitted does not require a revision of the proposal.

The proposed regulations are hereby adopted without change and are set forth below. This part shall become effective at the beginning of the 20th calendar day following the date of this publication in the FEDERAL REGISTER.

STEWART L. UDALL, *Secretary of the Interior.*

DECEMBER 8, 1964.

Sec.
257.1 Basis and purpose.
257.2 Definitions.
257.3 Scope of rules.
257.4 Mailing address.
257.5 Authentication.
257.6 Inspection of records.
257.7 Appearance and practice.
257.8 Parties.
257.9 Form, execution and service of documents.
257.10 Notice, pleadings and replies.
257.11 Duties of Presiding Officer.
257.12 Hearing procedure.
257.13 Evidence.
257.14 The record.
257.15 Decisions.

AUTHORITY: The provisions of this Part 257 issued under the Act of June 12, 1960 (Public Law 86-516), as amended.

### § 257.1 Basis and purpose.

(a) The Act of June 12, 1960 (Public Law 86-516), as amended by the United States Fishing Fleet Improvement Act (Public Law 88-498) authorizes the Secretary of the Interior to pay a subsidy for the construction of fishing vessels in shipyards of the United States and requires that this be done only after Notice and Hearing.

(b) The purpose of this part is to establish rules of practice and procedure for the notice and hearing.

### § 257.2 Definitions.

Definitions shall be the same as in Part 256 of this subchapter.

### § 257.3 Scope of rules.

The regulations in this part govern the procedure in hearings subject to Part 256 of this subchapter. These hearings are subject to the Administrative Procedure Act (5 U.S.C. 1003, et seq.) and Practice Before The Department of the Interior (43 CFR Part 1). The regulations shall be construed to secure the just, speedy, and inexpensive determination of every proceeding with full protection for the rights of all parties therein.

### § 257.4 Mailing address.

Documents required to be filed in, and correspondence relating to, proceedings governed by the regulations in this part shall be addressed to the Director, Bureau of Commercial Fisheries, Department of the Interior, Washington, D.C., 20240.

### § 257.5 Authentication.

All rules, orders, determinations, and decisions of the Secretary shall be signed by the Secretary.

### § 257.6 Inspection of records.

The files and records of these hearings, except those held by the Secretary for good cause to be confidential, shall be open to inspection and copying as follows:

(a) All pleadings, motions, depositions, correspondence, exhibits, transcripts of testimony, exceptions, briefs, and decisions in any formal proceeding under this part may be inspected and copied in the office of the Chief, Branch of Loans and Grants, Bureau of Commercial Fisheries, Department of the Interior, Washington, D.C., 20240.

(b) Orders, rules, rulings, opinions, determinations, and decisions may be inspected in the office of the Chief, Branch of Loans and Grants, except those held by the Secretary for good cause to be confidential and not cited as precedents.

### § 257.7 Appearance and practice.

(a) A party may appear in person or by an officer, partner or regular employee of the party; by or with counsel or as otherwise permitted by 43 CFR Part 1 in any proceeding under the regulations in this part. A party may offer testimony, produce and examine witnesses, and be heard upon brief and at oral argument if oral argument is granted by the Presiding Officer. Attorneys-at-law who are admitted to practice before the Federal Courts or before the courts of any State or possession of the United States, may represent a party as counsel.

(b) Persons who appear at any hearing shall deliver a written notice of appearance to the official reporter, stating for whom the appearance is being made. The Presiding Officer may require a person making an appearance in a representative capacity to show his authority to act in such capacity. The written appearance shall be made a part of the record.

### § 257.8 Parties.

(a) The term "party" shall include any natural person, corporation, association, firm, partnership, trustee, receiver, cooperative or governmental agency determined by the Presiding Officer as having an interest in the proceedings. A party making an application shall be designated as "applicant." A party whose petition for leave to intervene is granted shall be designated an "intervenor." Only a party as designated in this section may introduce evidence or examine witnesses at hearings.

(b) For an intervenor to prove an interest in the hearings he must show that there is a reason for belief that the operation of the vessel described in the application will cause economic injury or hardship to efficient vessel operators already operating in the fishery in which it is proposed that the vessel be operated.

### § 257.9 Form, execution and service of documents.

(a) All papers to be filed under the regulations in this part shall be clear and legible; and shall be dated, signed in ink, contain the docket description and title of the proceeding and the title, if any, and the address of the signatory. Five copies of all papers are required to be filed. Documents filed shall be executed by (1) the person or persons filing same, (2) by an authorized officer thereof if it be a corporation or, (3) by an attorney or other person having authority with respect thereto.

(b) All documents, when filed, shall show that service has been made upon all parties to the proceeding. Such service shall be made by delivering one copy to each party in person or by mailing by first class mail, properly addressed with postage prepaid. When a party has appeared by attorney or other representative, service on such attorney or other representative will be deemed service upon the party. The date of service of document shall be the day when the matter served is deposited in the United States mail, shown by the postmark thereon, or is delivered in person, as the case may be.

[3] Commissioners Hyde, Bartley, and Loevinger absent.

(c) The original of every document filed under this part and required to be served upon all parties to a proceeding shall be accompanied by a certificate of service signed by the party making service, stating that such service has been made upon each party to the proceeding. Certificates of service may be in substantially the following form:

I hereby certify that I have this day served the foregoing document upon all parties of record in this proceeding by: (1) Mailing postage prepaid, (2) delivering in person, a copy to each party.

Dated at ---------- this ------ day of ---------- 19--.

Signature ----------.

### § 257.10 Notice, pleadings and replies.

(a) After acceptance of an application eligible on its face for construction subsidy or for the transfer of a vessel to a different fishery, the Director, Bureau of Commercial Fisheries, shall publish a notice of hearing in the FEDERAL REGISTER advising that a hearing will be held not less than 30 days after date of such publication and setting the time and place and providing details with respect to such hearing. Any person desiring to intervene and present evidence that the approval of the application will cause economic injury or hardship to efficient vessel operators must file, at least 10 days prior to the date set for the hearing (unless otherwise consented to by the Presiding Officer), a Petition of Intervention setting forth his interest. The hearing will be held in Washington, D.C., unless such a petition is received. If such a petition is received, the Presiding Officer may designate a different hearing site by telegraphic notice to the parties in the proceedings. If no petition to intervene is received, it will not be necessary for the applicant to appear at the hearing if he files all information in writing as required by the Presiding Officer.

(b) All petitions shall be in writing and shall state the petitioner's grounds of interest in the subject matter; the facts relied upon, the relief sought; and shall cite the authority upon which the petition rests. The petition shall be served upon all parties named therein or affected thereby. Answers to petitions must be filed within 5 days of the hearing date, unless otherwise consented to by the Presiding Officer.

(c) Amendments or supplements to pleadings may be allowed or refused in the discretion of the Presiding Officer. The Presiding Officer may direct a party to state its case more fully and in more detail by way of amendment. If a response to an amended pleading is necessary, it may be filed and served within the time set by the Presiding Officer. Amendments or supplements allowed prior to hearing will be served in the same manner as the original pleading.

(d) All motions and requests for rulings shall state the relief sought, the authority relied upon and the facts alleged. If made before or after the hearing, such motions shall be in writing. If made at the hearing, motions may be stated orally: *Provided, however,* that the Presiding Officer may require such motion to be reduced to writing and filed and served in the same manner as a formal motion. Oral argument upon a written motion, in which an answer has been filed, may be granted within the discretion of the Presiding Officer. Answers to a formal motion or pleading shall be filed and served in the same manner as the motion or pleading.

### § 257.11 Duties of Presiding Officer.

The Presiding Officer shall have the authority and duty to:

(a) Take or cause depositions to be taken.

(b) Rule upon proposed amendments or supplements to motions and pleadings.

(c) Regulate the course of the hearings.

(d) Prescribe the order in which evidence shall be presented.

(e) Dispose of procedural requests or similar matters.

(f) Hear and initially rule upon all motions and petitions before him.

(g) Administer oaths and affirmations.

(h) Examine witnesses.

(i) Rule upon offers of proof and receive competent, relevant, material, reliable, and probative evidence.

(j) Exclude irrelevant, immaterial, incompetent, unreliable, repetitious or cumulative evidence.

(k) Exclude cross-examination which is primarily intended to elicit self-serving declarations in favor of the witness.

(l) Limit cross-examination to interrogatories which are required for a full and true disclosure of the facts in issue.

(m) Act upon petitions to intervene.

(n) Act upon submissions of facts or arguments.

(o) Hear arguments at the close of testimony.

(p) Fix the time for filing briefs, motions and other documents to be filed in connection with hearings.

(q) Issue the intial decisions and dispose of any other pertinent matter that normally and properly arises in the course of proceedings.

### § 257.12 Hearing procedure.

(a) Unless authorized by the Presiding Officer, witnesses will not be permitted to read prepared testimony into the record. The evidentiary record shall be limited to factual and expert opinion testimony. Arguments will not be received in evidence but should be presented in opening and/or closing statements or in briefs to the Presiding Officer. All exhibits and responses to requests for evidence shall be numbered consecutively by the party submitting same and shall be filed with the Presiding Officer if filed during the hearing. If filed at some other time they should be filed in accordance with § 257.4 with one copy also being sent to each party to the hearing.

(b) Normally, the order of presentation at the hearing will be alphabetical in each of the following categories:

(1) Applicant,

(2) Intervenors.

Rebuttal should be presented without any adjournment in the proceedings.

(c) Cross-examination shall be limited, subject to § 257.13(b), to the scope of the direct examination and to witnesses whose testimony is adverse to the party desiring to cross-examine. Only cross-examination which is necessary to test the truth and completeness of the direct testimony and exhibits will be permitted.

(d) A request for oral argument at the close of testimony will be granted or denied by the Presiding Officer in his discretion.

(e) Rulings of the Presiding Officer may not be appealed prior to, or during, the course of the hearings, except in extraordinary circumstances where prompt decision by the Secretary is necessary to prevent unusual delay or expense, in which instance the matter shall be referred forthwith to the Secretary by the Presiding Officer. Any appeal shall be filed within 10 days from the date of the close of the hearing.

### § 257.13 Evidence.

(a) In any proceedings under this part, all evidence which is relevant, material, reliable and probative, and not unduly repetitious or cumulative, shall be admissible. Irrelevant and immaterial or unduly repetitious evidence shall be excluded.

(b) Each party shall have the right to present his case or defense by oral or documentary evidence, to submit rebuttal evidence; and to conduct such cross-examination as may be required for a full and true disclosure of the facts.

(c) At any time during the hearing the Presiding Officer may call for the production of further relevant and material evidence, reports, studies and analyses upon any issue, and require such evidence to be presented by the party or parties concerned, either at the hearing or adjournment thereof. Such material shall be received subject to appropriate motions, cross-examination and/or rebuttal. If a witness refuses to testify or produce the evidence as requested, the Presiding Officer shall forthwith report such refusal to the Secretary.

### § 257.14 The record.

(a) The Director, Bureau of Commercial Fisheries, will designate an official reporter for all hearings. The official transcript of testimony taken, together with any exhibits and briefs filed therewith, shall be filed with the Director, Bureau of Commercial Fisheries. Transcripts of testimony will be available in any proceeding under the regulations of this part, and will be supplied by the official reporter to the parties and to the public, except when required for good cause to be held confidential, at rates fixed by the contract between the United States of America and the reporter. If the reporter is an employee of the Department of the Interior, the rate will be fixed by the Director, Bureau of Commercial Fisheries.

(b) The transcript of testimony and exhibits, together with all papers and requests, including rulings and the initial decision filed in the proceeding, shall constitute the exclusive record for decision. The initial decision will be predicated on this same record, as will the final decision.

§ 257.15 **Decisions.**

(a) The Presiding Officer is delegated the authority to render initial decisions in all proceedings before him. The same officer who presides at the reception of evidence shall render the initial decision except when such officer becomes unavailable to the Department of the Interior. In such case, another Presiding Officer will be designated by the Secretary to render the initial decision. Briefs, or other documents, to be submitted after the hearing must be received not later than ten (10) days after the hearing unless otherwise extended by the Presiding Officer upon motion by a party. The initial decision shall be made within twenty (20) days after the hearing or the receipt of all briefs, whichever is later. If no appeals from the initial decision are received within ten (10) days of the date of the initial decision, it will become the final decision on the twentieth day following the date of the initial decision. If an appeal is received, the appeal will be transmitted to the Secretary who will render the final decision after considering the record and the appeal.

(b) All initial and final decisions, shall include a statement of findings and conclusions, as well as the reasons or basis therefor, upon the material issues presented. A copy of each decision shall be served on the parties to the proceeding, and furnished to interested persons upon request.

(c) Official notice may be taken of such matters as might be judicially noticed by the courts; or of technical or scientific facts within the general or specialized knowledge of the Department of the Interior as an expert body; or of a document required to be filed with or published by a duly constituted Government body: *Provided*, That where a decision or part thereof rests on the official notice of a material fact not appearing in the evidence of the record, the fact of official notice shall be so stated in the decision and any party, on timely request, shall be afforded an opportunity to show the contrary.

[F.R. Doc. 64–12741; Filed, Dec. 10, 1964; 8:49 a.m.]

# Proposed Rule Making

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

**[ 26 CFR Part 48 ]**

### EXCISE TAXES

### Sale Price of Rebuilt Television Picture Tubes

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: CC:LR, Washington, D.C., 20224, within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] BERTRAND M. HARDING,
*Acting Commissioner of Internal Revenue.*

In order to conform the Manufacturers and Retailers Excise Tax Regulations (26 CFR Part 48) under section 4142 of the Internal Revenue Code of 1954 to section 6 of the Act of October 13, 1964 (Public Law 88–653, 78 Stat. 1086), such regulations are amended as follows:

PARAGRAPH 1. Section 48.4142 is amended by revising section 4142 and the historical note. These amended provisions read as follows:

§ 48.4142 **Statutory provisions; definition; radio and television component; sale price of rebuilt television picture tube.**

Sec. 4142. *Definitions*—(a) *Radio and television component.* As used in section 4141, the term "radio and television components" means chassis, cabinets, tubes, speakers, amplifiers, power supply units, antennae of the "built-in" type, phonograph mechanisms, and phonograph record-players, which are suitable for use on or in connection with, or as component parts of, any of the articles enumerated in section 4141, whether or not primarily adapted for such use.

(b) *Sale price of rebuilt television picture tubes.* In determining the sale price of a rebuilt television picture tube, there shall be excluded from the price, in accordance with regulations prescribed by the Secretary or his delegate, the value of a television picture tube accepted in exchange.

[Sec. 4142 as amended and in effect Jan. 1, 1959, and as further amended by sec. 6(a), Act of Oct. 13, 1964 (Pub. Law 88–653, 78 Stat. 1086)]

PAR. 2. Section 48.4142–2 is added immediately after § 48.4142–1 and reads as follows:

§ 48.4142–2 **Rebuilt television picture tubes sold on an exchange basis.**

In the case of a sale on or after January 1, 1965, of a rebuilt television picture tube, the sale price of the rebuilt television picture tube on which the tax is to be computed shall not include the value of a television picture tube accepted in exchange. The total amount charged in excess of the amount allowed for the television picture tube accepted in an exchange will be the basis for tax. For example, if a rebuilt television picture tube is sold for $25, plus another television picture tube, the tax on the rebuilt tube will be computed on the basis of $25.

[F.R. Doc. 64–12674; Filed, Dec. 10, 1964; 8:45 a.m.]

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

**[ 7 CFR Part 912 ]**

### GRAPEFRUIT GROWN IN INDIAN RIVER DISTRICT IN FLORIDA

### Expenses and Fixing of Rate of Assessment for 1964–65 Fiscal Year

Consideration is being given to the following proposals submitted by the Indian River Grapefruit Committee, established under Marketing Agreement No. 136, as amended, and Order No. 912, as amended (7 CFR Part 912), regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(a) That the expenses that are reasonable and likely to be incurred by the Indian River Grapefruit Committee, established pursuant to the provisions of the aforesaid marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning August 1, 1964, and ending July 31, 1965, will amount to $30,000.

(b) That the rate of assessment which each handler who first handles fruit shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said marketing agreement and order, be fixed at six mills ($0.006) per 1⅗ bushel box of fruit, or its equivalent when packed in other containers or in bulk, so handled by such handler during such fiscal period.

(c) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C., 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: December 8, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

### PLUMS GROWN IN CALIFORNIA

### Changes in Representation of Certain Districts on Plum Commodity Committee

Notice is hereby given that the Department is considering a proposed amendment, as hereinafter set forth, to the rules and regulations (Subpart—Rules and Regulations; 7 CFR 917.100–917.179) currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in California. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The amendment to the said rules and regulations was proposed by the Control Committee, established under the said amended marketing agreement and order as the agency to administer the terms and provisions thereof. The amendment changes the representation of certain districts on the Plum Commodity Committee.

The said amendment is as follows:

1. Delete § 917.118 and substitute therefor the following:

**§ 917.118 Changes in representation of certain districts on the Plum Commodity Committee.**

The representation or membership on the Plum Commodity Committee is changed to provide for:

(a) Three (3) members to represent the area included in the Fresno District;

(b) One (1) member to represent the area included in the Tulare District;

(c) One (1) member to represent the area included in the Kern District and Southern California District;

(d) One (1) member to represent the area included in the Placer District and Colfax District; and

(e) One (1) member to represent all the territory in California not included in the foregoing districts.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C., 20250, not later than the 10th day after publication of the notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: December 7, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 64-12716; Filed, Dec. 10, 1964; 8:47 a.m.]

## [ 7 CFR Part 1004 ]

## MILK IN DELAWARE VALLEY MARKETING AREA

### Notice of Proposed Suspension of Certain Provision of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of certain provision of the order regulating the handling of milk in the Delaware Valley marketing area is being considered for the period of December 1, 1964, through March 31, 1965.

Proposed to be suspended in § 1004.50 (a)(4) is the provision "and shall be an additional 20 cents more if the percentage of such receipts to such disposition is less than 126".

The proposed action would suspend a provision of the supply-demand mechanism in the Class I pricing formula which would otherwise increase the Class I price an additional 20 cents per hundredweight in the forthcoming quarter (January-March) over the price level applicable in the current quarter. The Delaware Valley Class I price of $6.00 in the current quarter includes a plus supply-demand adjustment of 20 cents per hundredweight.

Cooperative associations representing a substantial proportion of producers supplying milk to handlers regulated under the terms of the Delaware Valley milk order requested this suspension. Petitioners claimed the suspension action is necessary because the existing provision of the adjustor does not reflect accurately market conditions of supply and demand following significant changes in the market structure from that which existed when the provision was incorporated in the formula. They stated further that a higher Class I price would be contraseasonal in nature and could seriously jeopardize markets of local producers resulting from intermarket price disparities between the Delaware Valley and adjacent Federal order markets. The action was requested to be made effective through March 1965 so that orderly marketing may not be disrupted pending review of the provision at a public hearing.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington, D.C., 20250, not later than three days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in duplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Signed at Washington, D.C., on December 8, 1964.

CLARENCE H. GIRARD,
*Deputy Administrator.*

[F.R. Doc. 64-12766; Filed, Dec. 10, 1964; 8:50 a.m.]

# DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## Food and Drug Administration

## [ 21 CFR Parts 45, 121 ]

## OLEOMARGARINE IDENTITY STANDARD; FOOD ADDITIVES DELTA-DECALACTONE AND DELTA-DODECALACTONE

### Extension of Time for Filing Comments on Proposal To Amend Identity Standard and To Issue Regulation Establishing Safety of Food Additive

In the matter of amending the identity standard for oleomargarine (21 CFR 45.1) to permit the use of delta-decalactone and delta-dodecalactone as optional artificial flavoring ingredients and amending the food additive regulations to provide for the safe use of these flavorings in oleomargarine:

A notice of proposed rulemaking in the above-identified matter was published in the FEDERAL REGISTER of October 17, 1964 (29 F.R. 14367), and granted a period of 30 days for filing comments. The Commissioner of Food and Drugs has received several requests for an extension of this time. Good reasons therefor appearing, the time for filing comments in this matter is extended to December 16, 1964.

This action is taken pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 409, 701, 52 Stat. 1046, 1055 as amended, 72 Stat. 1785; 21 U.S.C. 341, 348, 371) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (21 CFR 2.90; 29 F.R. 471).

Dated: December 4, 1964.

JOHN L. HARVEY,
*Deputy Commissioner of Food and Drugs.*

# FEDERAL AVIATION AGENCY

## [ 14 CFR Part 71 [New] ]

[Airspace Docket No. 64-SO-59]

## CONTROL AREA EXTENSION AND TRANSITION AREA

### Proposed Revocation and Designation

The Federal Aviation Agency is considering amendments to Part 71 [New] of the Federal Aviation Regulations which would revoke the control area extension and designate a transition area in the vicinity of Edenton, North Carolina.

The Edenton, N.C., control area extension is presently designated as that airspace bounded on the W by V-229, on the N by the Norfolk, Va., control area extension, on the NE by control 1181, on the SE by the NW shore of Pamlico Sound, and on the S by the arc of a 60-mile radius circle centered at latitude 34°54'30" N., longitude 76°53'00" W., excluding the portions within R-5301A, R-5301B, R-5302, R-5303, R-5304, and R-5305.

The Federal Aviation Agency, having completed a comprehensive review of the terminal airspace structure requirements in the Edenton, N.C., terminal area, including studies attendant to the implementation of the provisions of CAR Amendments 60-21/60-29 (26 F.R. 570, 27 F.R. 4012), proposes the airspace actions hereinafter set forth.

1. The Edenton, N.C., control area extension would be revoked.

2. The Edenton, N.C., transition area would be designated as that airspace extending upward from 700 feet above the surface within a 5-mile radius of the Edenton Municipal Airport (latitude 36°01'30" N., longitude 76°33'30" W.); within 2 miles each side of a line bearing 337° from latitude 36°05'00" N., longitude 76°36'00" W., extending from the 5-mile radius area to 8 miles NW of latitude 36°05'00" N., longitude 76°36'00" W.; including that airspace extending upward from 1,200 feet above the surface bounded on the N by the arc of a 55-mile radius circle centered at latitude 36°57'44" N., longitude 76°24'44" W., on the E by longitude 76°30'00" W., on the S by the arc of a 60-mile radius circle centered at latitude 34°54'30" N., longitude 76°53'00" W. and on the W by the E boundary of V-229.

The proposed transition area is required to protect the prescribed special instrument approach procedure at Edenton, N.C., and aircraft being radar vectored by the Washington Air Route Traffic Control Center.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in duplicate to the Director, Southern Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, Post Office Box 20636, Atlanta, Ga., 30320. All communications received within thirty days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Chief, Air Traffic Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Southern Regional Office, Federal Aviation Agency, Room 724, 3400 Whipple Street, East Point, Ga.

This amendment is proposed under section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)).

Issued in East Point, Ga., on December 1, 1964.

PAUL H. BOATMAN,
*Acting Director, Southern Region.*

[F.R. Doc. 64-12687; Filed, Dec. 10, 1964; 8:45 a.m.]

## [ 14 CFR Part 71 [New] ]

[Airspace Docket No. 64-WE-32]

## CONTROL ZONE AND TRANSITION AREAS

### Proposed Designation and Alteration

The Federal Aviation Agency is considering amendments to Part 71 [New] of the Federal Aviation Regulations which would designate a control zone and transition area at Corvallis, Oreg., pursuant to the commissioning of a VOR at latitude 44°29'59" N., longitude 123°17'33" W. and fan marker at latitude 44°34'08" N., longitude 123°14'15" W. on or about April 15, 1965, and would alter the Kings Valley, Oreg., and Eugene, Oreg., transition areas.

The Federal Aviation Agency, having completed a comprehensive review of the terminal airspace structure requirements in the Corvallis, Oreg., terminal area, including studies attendant to the implementation of the provisions of CAR Amendments 60-21/29, proposes the following airspace actions:

1. Designate the Corvallis, Oreg., control zone as that airspace within a 5-mile radius of Corvallis Municipal Airport (latitude 44°29'50" N., longitude 123°17'10" W.). The control zone shall be effective during the times established in advance by a Notice to Airmen and continuously published in the Airman's Guide.

2. Designate the Corvallis, Oreg., transition area as that airspace extending upward from 700 feet above the surface within a 7-mile radius of Corvallis Municipal Airport (latitude 44°29'50" N., longitude 123°17'10" W.); within 2 miles each side of the Corvallis VOR 029° True radial, extending from the 7-mile radius area to 7 miles NE of the Fischer Fan Marker and within 2 miles each side of the 044° True bearing from latitude 44°33'25" N., longitude 123°16'22" W., extending from the 7-mile radius area to 5 miles NE of latitude 44°33'25" N., longitude 123°16'22" W.; that airspace extending upward from 1,200 feet above the surface within 6 miles NW and 8 miles SE of the Corvallis VOR 029° and 209° True radials, extending from 6 miles SW to 17 miles NE of the VOR.

3. The Kings Valley, Oreg., transition area is presently designated as that airspace extending upward from 1,200 feet above the surface within 12 miles NW and 8 miles SE of the Newberg, Oreg., VORTAC 204° radial, extending from 10 miles NE to 22 miles SW of the INT of the Newberg VORTAC 204° and the Eugene, Oreg., VORTAC 340° radials.

4. Alter the Kings Valley, Oreg., transition area as that airspace extending upward from 1,200 feet above the surface within 12 miles NW and 8 miles SE of the Newberg, Oreg., VORTAC 204° True radial, extending from 9 miles NE to 22 miles SW of the INT of the Newberg VORTAC 204° and the Eugene, Oreg., VORTAC 347° True radials, and that airspace north of Kings Valley INT bounded on the NW by Victor 99, on the SE by Victor 23 W alternate and on the SW by a line 39 miles NW of and parallel to the Eugene VORTAC 295° True radial, excluding the portion within the Corvallis, Oreg., transition area.

5. Alter the description of the Eugene, Oreg., transition area to exclude the portion within the Corvallis transition area as proposed for designation herein.

The proposed Corvallis control zone would provide protection for aircraft executing prescribed instrument procedures at the Corvallis Airport during the hours of operation of the weather reporting service to be provided by duly certified personnel of West Coast Airlines. Communications service will be provided by the FAA's Eugene, Oreg., Combined Station/Tower through remote facilities located on the Corvallis VOR.

The 700-foot portion of the transition area is required to provide protection to aircraft executing prescribed instrument approach and departure procedures at altitudes between 1,000 feet and 1,500 feet above the surface.

The 1,200-foot portion of the transition area is required to provide protection to aircraft executing prescribed instrument approach, departure and holding procedures at altitudes above 1,500 feet above the surface.

The alteration of the Kings Valley transition area is required to provide protection to aircraft executing prescribed holding procedures at the Kings Valley INT. The additional portion west of Dallas, Oreg., is required to provide protection for aircraft in radar transition from the Kings Valley INT to Victor 99 and the Portland, Oreg., terminal area.

The following instrument approach procedure will be established effective concurrent with the commissioning of the Corvallis VOR and the Fischer Fan Marker approximately April 15, 1965:

*AL-VOR-1.* Proceed outbound on the 008° M radial, procedure turn E side of course (minimum 3,000 feet) within 10 miles of the Fischer Fan Marker, minimum altitude over Fischer Fan Marker inbound 188° M radial 1,500 feet; over facility 700 feet (facility on airport). Missed approach—within 5.0 miles after passing Fischer Fan Marker or within 0.0 mile after passing Corvallis VOR, turn left, climb to 3,000 feet on VOR 008° M radial within 15 miles.

At a future date, after adjacent terminal area studies have been completed, the floors of low altitude airways adjacent to Corvallis will be raised to 1,200 feet or higher above the surface.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif., 90009. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Agency, 5651 West Manchester Avenue, Los Angeles, Calif., 90045.

This amendment is proposed under the authority of section 307(a), Federal Aviation Act of 1958, as amended (72 Stat. 749; 49 U.S.C. 1348).

Issued in Los Angeles, Calif., on December 3, 1964.

JOSEPH H. TIPPETS,
*Director, Western Region.*

[F.R. Doc. 64-12688; Filed, Dec. 10, 1964; 8:45 a.m.]

## [ 14 CFR Part 71 [New] ]

[Airspace Docket No. 64-WE-61]

## CONTROL ZONES, TRANSITION AREA, AND CONTROL AREA EXTENSIONS

### Proposed Alteration, Revocation, and Designation

The Federal Aviation Agency is considering amendments to Part 71 [New]

of the Federal Aviation Regulations which would alter the controlled airspace in the Riverside and Twentynine Palms, California, terminal areas.

The following controlled airspace is presently designated in the Riverside and Twentynine Palms terminal areas:

1. The Ontario, Calif. (Ontario International Airport) control zone is designated within a 5-mile radius of Ontario International Airport (latitude 34°03'25" N., longitude 117°36'30" W.) and within 2 miles on each side of the ILS localizer E course extending from the 5-mile radius zone to the OM, excluding the portion within a 1-mile radius of the Chino, Calif., Airport (latitude 33°58'30" N., longitude 117°38'10" W.).

2. The Riverside, Calif. (March AFB) control zone is designated within a 5-mile radius of March AFB, Riverside, Calif., and within 2 miles either side of a line extending from March AFB through the Riverside VOR to 5 miles SW of the VOR.

3. The Riverside, Calif., control area extension is designated as that airspace S of March AFB, Riverside, Calif., bounded on the E by V–117, on the S and SE by V–208, on the W by V–23, on the NW by V–8 and on the N by V–16.

4. The San Bernardino, Calif., control area extension is designated as that airspace NE of San Bernardino bounded on the S by V–16, on the NW by V–8, on the E by longitude 116°35'00" W., extending from the S boundary of V–8 to the Ontario, Calif., VOR 060° radial; thence SW via the Ontario VOR 060° radial to V–137; thence SE via V–137 to V–16.

5. The Twentynine Palms, Calif., transition area is designated as that airspace extending upward from 1,200 feet above the surface bounded on the E by longitude 115°12'00" W., on the S by latitude 33°28'00" N., on the W by the W boundary of V–208 and V–117, the S boundary of V–16, and longitude 116°28'-00" W., and on the N by latitude 34°17'-00" N., excluding the portion within R–2501 and R–2507.

The FAA, having completed a comprehensive review of the terminal airspace requirements in the Riverside-Twentynine Palms areas, including studies attendant to the implementation of the provisions of CAR Amendments 60–21/60–29, has under consideration the following airspace actions:

1. Alter the Ontario, Calif., control zone by redesignating it as that airspace within a 5-mile radius of Ontario International Airport (latitude 34°03'25" N., longitude 117°36'30" W.); within 2 miles each side of the Ontario ILS localizer east course extending from the 5-mile radius zone to 3 miles E of the outer marker, excluding the portion within a one-mile radius of the Chino, Calif., Airport (latitude 33°58'30" N., longitude 117°38'10" W.).

2. Alter the Riverside, Calif. (March AFB) control zone by redesignating it as that airspace within a 5-mile radius of March AFB (latitude 33°52'50" N., longitude 117°15'31" W.); within 2 miles each side of the March AFB VOR 329° and 149° True radials extending from the 5-mile radius zone to one mile SE of the VOR; within 2 miles each side of the March AFB TACAN 325° True radial extending from the 5-mile radius zone to 5 miles NW of the TACAN.

3. Revoke the Riverside and San Bernardino, Calif., control area extensions.

4. Designate the Riverside, Calif., transition area as that airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 34°10'00" N., longitude 117°59'00" W., to latitude 34°10'00" N., longitude 117°01'00" W., to latitude 33°46'00" N., longitude 117°01'00" W., to latitude 33°-44'30" N., longitude 117°04'00" W., to latitude 33°40'30" N., longitude 117°04'-00" W., to latitude 33°38'00" N., longitude 117°09'00" W., to latitude 33°56'00" N., longitude 117°30'00" W., to latitude 33°56'00" N., longitude 117°59'00" W.; thence to point of beginning, and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 34°30'00" N., longitude 117°43'00" W., thence east along latitude 34°30'00" N. to the southeast boundary of V–21, thence along the southeastern boundary of V–21 to longitude 116°30'00" W., thence direct to latitude 34°40'30" N., longitude 116°29'-40" W., to latitude 34°30'00" N., longitude 116°26'30" W., to latitude 34°16'-00" N., longitude 116°18'00" W., to latitude 33°30'00" N., longitude 116°18'00" W., to latitude 33°30'00" N., longitude 117°30'00" W., to latitude 33°39'00" N., longitude 117°30'00" W., to latitude 33°-46'00" N., longitude 117°45'00" W., to latitude 33°56'00" N., longitude 117°53'-00" W., to latitude 33°56'00" N., longitude 117°59'00" W., to latitude 34°10'-00" N., longitude 117°59'00" W., to latitude 34°10'00" N., longitude 117°43'00" W., thence to point of beginning. The portion of this transition area within George AFB, Calif., Restricted Area/Military Climb Corridor (R–2526) would be used only after obtaining prior approval from appropriate authority.

5. Alter the Twentynine Palms, Calif., transition area by redesignating it as that airspace extending upward from 700 feet above the surface within a 3-mile radius of Thermal Airport (latitude 33°37'38" N., longitude 116°09'45" W.); within 2 miles each side of the Thermal VORTAC 140° True radial, extending from the 3-mile radius area to 8 miles SE of the VORTAC; within 2 miles each side of the Thermal VORTAC 122° True radial, extending from the 3-mile radius area to 5 miles SE of the VORTAC; and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 34°17'00" N., longitude 115°25'00" W., to latitude 33°-28'00" N., longitude 115°25'00" W., to latitude 33°28'00" N., longitude 116°18'-00" W., to latitude 34°17'00" N., longitude 116°18'00" W., thence to point of beginning, excluding the portions within R–2501 and R–2507.

The floors of the airways that traverse the transition areas proposed herein would automatically coincide with the floors of the transition areas.

The actions proposed herein would, in part, designate a control zone extension NW of March AFB and lengthen the control zone extension E of Ontario to provide protection for aircraft executing prescribed instrument approach and departure procedures at March AFB and Ontario International Airport. In addition, the control zone extension SE of March AFB would be reduced. The designation of the portion of the Riverside and Twentynine Palms transition area proposed with a floor of 700 feet above the surface would provide protection for aircraft executing prescribed instrument approach, departure and radar vectoring procedures while operating below the 1,200-foot floor portion of the transition areas.

In addition, the portion of the Riverside transition area with a floor of 1,200 feet and the revocation of the San Bernardino and Riverside control area extensions would raise the floor of controlled airspace beyond the limits of the proposed irregularly configured 700-foot portion of the transition area from 700 to 1,200 feet. The Twentynine Palms transition area with a floor of 1,200 feet would be reduced in size. The portions of controlled airspace released by these actions are no longer required for air traffic control purposes. The portions of controlled airspace retained would provide protection for aircraft executing prescribed holding, approach, missed approach, radar and departure procedures within the Riverside and Twentynine Palms, Calif., terminal areas.

Certain minor revisions to prescribed instrument procedures would accompany the actions proposed herein but operational complexities would not be increased nor would aircraft performance characteristics or established landing minimums be adversely affected.

Specific details of the changes to procedures and minimum instrument flight rules altitudes that would be required may be examined by contacting the Regional Air Traffic Division Chief, Federal Aviation Agency, 5651 West Manchester Avenue, Los Angeles, Calif., 90045.

This proposal was circularized to the public for informal comment by the Los Angeles Area Office on February 14, 1964, as Case 63–LAX–4.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif., 90009. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public Docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Agency, 5651 West Manchester Avenue, Los Angeles, Calif., 90045.

This amendment is proposed under section 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

JOSEPH H. TIPPETS,
*Director, Western Region.*

## [ 14 CFR Part 71 [New] ]

[Airspace Docket No. 64–WE–65]

### TRANSITION AREA

### Proposed Alteration

The Federal Aviation Agency is considering an amendment to Part 71 [New] of the Federal Aviation Regulations which would alter the controlled airspace in the Coeur d'Alene, Idaho, terminal area.

The Coeur d'Alene, Idaho, transition area is presently designated as that airspace extending upward from 700 feet above the surface within a 5-mile radius of Coeur d'Alene Air Terminal (latitude 47°46'30" N., longitude 116°49'05" W.), and within 2 miles each side of the 181° and 347° bearings from latitude 47°41'30" N., longitude 116°47'34" W., extending from the 5-mile radius area to 8 miles S. of latitude 47°41'30" N., longitude 116°47'34" W.

On October 30, 1964, the City of Coeur d'Alene commissioned a radio beacon at latitude 47°44'44" N., longitude 116°57'24" W. To provide controlled airspace for the protection of aircraft executing instrument approach and departure procedures utilizing this facility, the FAA proposes the alteration of the present Coeur d'Alene transition area as follows:

Redesignate the Coeur d'Alene transition area as that airspace extending upward from 700 feet above the surface within a 5-mile radius of Coeur d'Alene Air Terminal (latitude 47°46'30" N., longitude 116°49'05" W.); within 2 miles each side of the 072° and 252° True bearings from the Coeur d'Alene radio beacon (latitude 47°44'44" N., longitude 116°57'24" W.), extending from the 5-mile radius area to 8 miles W. of the radio beacon, and within 2 miles each side of the 186° True bearing from the Coeur d'Alene radio beacon, extending from the radio beacon to 10 miles S. of the radio beacon.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Western Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 5651 West Manchester Avenue, Post Office Box 90007, Airport Station, Los Angeles, Calif., 90009. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Agency, 5651 West Manchester Avenue, Los Angeles, Calif., 90045.

This amendment is proposed under section 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Los Angeles, Calif., on December 3, 1964.

JOSEPH H. TIPPETS,
*Director, Western Region.*

# FEDERAL POWER COMMISSION

## [ 18 CFR Part 12 ]

[Docket No. R–268]

### HYDROELECTRIC LICENSED PROJECTS

### Inspections To Insure Safe Operation; Notice of Extension of Time

DECEMBER 4, 1964.

Upon consideration of the requests filed in the subject proceeding by Wisconsin Valley Improvement Company on November 13, 1964, Wisconsin Michigan Power Company and Northern States Power Company on November 16, 1964, Nekoosa-Edwards Paper Company on November 17, 1964, Wisconsin River Power Company and Consolidated Water Power Company on November 19, 1964, Wisconsin Public Service Corporation on November 20, 1964, and counsel for Wisconsin Power and Light Company on November 30, 1964, for an extension of time within which to file data, views, and comments in writing concerning the proposals set forth in the notice of proposed rulemaking issued in the above-designated matter on October 20, 1964;

Notice is hereby given that the time is extended from December 9, 1964 to and including January 8, 1965, within which interested persons may file data, views, and comments in writing concerning the proposals set forth in said notice of proposed rulemaking issued October 20, 1964.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64–12706; Filed, Dec. 10, 1964; 8:47 a.m.]

## DEPARTMENT OF THE INTERIOR

### Office of the Secretary

### IMPORTS INTO PUERTO RICO OF CRUDE OIL, UNFINISHED OILS AND FINISHED PRODUCTS, OTHER THAN RESIDUAL FUEL OIL TO BE USED AS FUEL

#### Adjustments in Maximum Levels

The maximum levels of imports into Puerto Rico of crude oil, unfinished oils and finished products, other than residual fuel oil to be used as fuel, established by Presidential Proclamation 3279, as amended, are modified pursuant to paragraph (c) of section 2 of the Proclamation to permit, during the period January 1, 1965, through June 30, 1965, 112,600 barrels per day in imports of crude oil and unfinished oils, and an additional 614 barrels per day in the imports of finished products, other than residual fuel oil to be used as fuel.

All non-Governmental holders of allocations of imports of finished products, other than residual fuel oil to be used as fuel, into Puerto Rico, have been canvassed with respect to their interest in supplying the increased requirements for finished products. With the exception of the Shell Oil Companies and Tropical Gas Company, all others have stated that they have no interest. Accordingly, the allocation made to the Shell Oil Companies will be increased to permit them to import into Puerto Rico an additional 552 barrels daily of asphalt, and the allocation made to the Tropical Gas Company will be increased to permit them to import into Puerto Rico an additional 62 barrels daily of propylene free propane.

STEWART L. UDALL,
*Secretary of the Interior.*

DECEMBER 9, 1964.

[F.R. Doc. 64-12789; Filed, Dec. 10, 1964; 8:50 a.m.]

## DEPARTMENT OF AGRICULTURE

### Commodity Credit Corporation

### SALES OF CERTAIN COMMODITIES

#### December Sales List

*Notice to buyers.* Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F.R. 6669) and subject to the conditions stated therein as well as herein, the commodities listed below are available for sale and, where noted, for redemption of payment-in-kind certificates on the price basis set forth.

The prices at which Commodity Credit Corporation commodity holdings are available for sale during December 1964 are as announced by the U.S. Department of Agriculture. The following commodities are available: Butter, cheddar cheese, nonfat dry milk, dry beans, cotton (upland and extra long staple), wheat, corn, oats, barley, rye, rice, grain sorghum, peanuts, flax, and soybeans.

Commodity Credit Corporation-owned corn will not be priced for export except for barter and CCC credit sales and for limited stocks stored in West Coast terminals.

On November 12 (press release USDA 3826-64), a new export program was announced for flaxseed and linseed oil. Operating details will be announced when completed.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

If it becomes necessary during the month to amend this list in any material way—such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale—an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list, address: Director, Procurement and Sales Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C., 20250.

Interest rates per annum under the CCC Export Credit Sales Program for December 1964 are 4½ percent for periods up to and including 12 months, and 5 percent for periods from over 12 months up to a maximum of 36 months. All commodities currently offered for sale by CCC, plus tobacco from CCC loan stocks, are available for export under the CCC Export Credit Sales Program as provided under specific commodity listings.

The following commodities are available for programming under Title IV, P.L. 480, private trade agreements: Wheat, corn, rye, rice, grain sorghum, upland and extra long staple cotton, tobacco from CCC loan stocks, butter, cheese, and nonfat dry milk. In addition, other surplus agricultural commodities are also eligible for Title IV programming. A list of all commodities available under this program, and current information on interest rates and other phases of the program are being sent separately to recipients of the CCC Monthly Sales List.

The following commodities are currently available for barter: Barley, cotton, tobacco, wheat, corn, and grain sorghum. (In addition, free market stocks of cottonseed and soybean oils are eligible for barter programming.) This list is subject to change from time to time.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity, and the conditions require removal of the commodity from CCC stocks within a reasonable period of time. Where conditions of sale for export differ from those for domestic sale, proof of exportation is also required, and the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchases from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in the following list. Interested persons are invited to communicate with the Agricultural Stabilization and Conservation Service, USDA, Washington, D.C., 20250, with respect to all commodities or—for specified commodities—within the designated ASCS Commodity Office.

Commodity Credit Corporation reserves the right to amend, from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

CCC reserves the right to refuse to consider an offer, if CCC does not have adequate information of financial responsibility of the offerer to meet contract obligations of the type contemplated in this announcement. If a prospective offerer is in doubt as to whether CCC has adequate information with respect to his financial responsibility, he should either submit a financial statement to the office named in the invitation prior to making an offer, or communicate with such office to determine whether such a statement is desired in his case. When satisfactory financial responsibility has not been established, CCC reserves the right to consider an offer only upon submission by offerer of a certified or cashier's check, a bid bond, or other security, acceptable to CCC, assuring that if the offer is accepted, the offerer will comply with any provisions of the contract with respect to payment for the commodity and the furnishing of performance bond or other security acceptable to CCC.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS office promptly upon appearance and therefore, generally, they do not appear in the monthly Sales List.

On sales for which the buyer is required to submit proof to CCC of exportation the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions and have a person, principal, or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to United States Government agencies, with only minor exceptions will constitute domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

*Notice to exporters.* The Department of Commerce, Bureau of International Commerce, pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or re-exportation by anyone of any commodities (except absorbent cotton and sterilized gauze and bandages with respect to Cuba only) under this program to Cuba, the Soviet Bloc, or Communist-controlled area of the Far East including Communist China, North Korea and the Communist-controlled area of Vietnam, except under validated license issued by the U.S. Department of Commerce, Bureau of International Commerce.

These regulations generally require that exporters, in or in connection with their contracts with foreign purchasers, where the contract involves $10,000 or more and exportation is to be made to a Group R country, obtain from the foreign purchaser a written acknowledgment of his understanding of (1) U.S. Commerce Department prohibitions (Comprehensive Export Schedule, §§ 371.4 and 371.8) against sales or resale for re-export of said commodities, or any part thereof, without express Commerce Department authorization, to the Soviet Bloc, Communist China, North Korea or the Communist-controlled area of Vietnam or to Cuba, and (2) the sanction of denial of future U.S. export privileges that may be imposed for violation of the Commerce Department regulations. Exporters who have a continuing and regular relationship with a foreign purchaser may obtain a blanket acknowledgment from such purchaser covering all transactions involving surplus agricultural commodities and manufactures thereof purchased from CCC or subsidized for export by the Secretary of Agriculture or CCC. Where commodities are to be exported by a party other than the original purchaser of the commodities from the CCC the original purchaser should inform the exporter in writing of the requirements for obtaining the signed acknowledgment from the foreign purchaser.

For all exportations, one of the destination control statements specified in Commerce Department Regulations (Comprehensive Export Schedule § 379.10(c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of International Commerce or one of the field offices of the Department of Commerce.

Exporters should consult the applicable Commerce Department regulations for more detailed information if desired and for any changes that may be made therein.

| Commodity | Sales price or method of sale |
|---|---|
| Barley, bulk | Domestic or export, unrestricted use:<br>Storable: Market price but not less than the Agricultural Act of 1949 formula minimum price for such sales which is 105 percent [1] of the applicable 1964 price support rate (published price support loan rate plus 12 cents per bu.) for the class, grade, and quality of the barley plus the amount shown below applicable to the type of carrier involved. If delivery is outside the area of production, applicable freight will be added. Examples of these formula minimum prices are shown below.<br>Nonstorable: At not less than market price as determined by CCC. |

Markups and Agricultural Act of 1949 formula price examples (per bushel)

| Markup in cents received by | | Examples of in-store [2] formula minimum prices for No. 2 or better barley (ex-rail or barge in dollars) | |
|---|---|---|---|
| Truck | Rail or barge | Terminal | General sales price |
| *Cents* 12½ | *Cents* 7½ | Minneapolis, Minn.<br>Kansas City, Mo. | $1.28½<br>1.30½ |

Availability information: For information on CCC barley sales from bin sites, contact ASCS State or county offices. For information on the disposition of barley from other locations, contact the Evanston, Kansas City, Minneapolis, or Portland ASCS grain office listed at end of table.

Export announcement sales:
(1) Under Announcement GR-368 (Revised Aug. 31, 1959), as amended, for feed grain export payment-in-kind program. (2) Under Announcement GR-212 (Revision 2, Jan. 9, 1961), for application to approved CCC barter and credit sales. CCC reserves the right to determine the class, grade, quality, and quantity to be made available for the sales under these announcements. The statutory minimum price referred to in the price adjustment provisions of these export sales announcements is 105% of the applicable price-support rate plus the adjustment referred to in above table. Sale is made at the applicable export market price, as determined by CCC; export payment-in-kind rates, if any, are deducted in arriving at barter and credit sales prices.

Available: Evanston and Kansas City ASCS offices. Stocks in Duluth or Minneapolis will be available through the Minneapolis ASCS grain office.

|---|---|
| Corn, bulk | Domestic or export—unrestricted use:<br>A. Redemption of domestic payment-in-kind certificates:[1] Such CCC dispositions of corn, as CCC may designate, will be in redemption of certificates or rights represented by pooled certificates under a feed grain program. The minimum price at which corn shall be valued for such dispositions shall be market price, but not less than the payment-in-kind formula price for such redemptions. Such formula price shall be the applicable 1964 price support loan rate for the class, grade, and quality of the corn, plus the amount shown in C below applicable for the storage point involved.<br>B. General sales:[1]<br>1. Storable: Such CCC dispositions of storable corn, as CCC may designate as general sales, will be made during the month at market price, but not less than the Agricultural Act of 1949 formula minimum price for such sales which is 105 percent [2] of the applicable 1964 price support rate (published price-support loan rate plus 15 cents per bushel) for the class, grade, and quality of the corn, plus the amount shown in C below, applicable to the storage point involved. Examples of these formula minimum prices are shown in C below. For corn in store at other than the point of production the freight from point of production to the present point of storage will also be added. CCC will normally make general sales of corn when dispositions of such corn are not being made against domestic payment-in-kind certificates.<br>2. Nonstorable: Such dispositions of nonstorable corn as CCC may designate as general sales will be made at not less than market price, as determined by CCC.<br>C. | *Cents* 3 | *Cents* 4½ | Minneapolis, Minn.[3]<br>Chicago, Ill.[3] | $1.37¾<br>1.56½ |

D. Availability information: For information on CCC corn sales and payments-in-kind from bin sites, contact ASCS State or county offices. For information on the disposition of corn from other locations, contact the Evanston, Kansas City, Minneapolis or Portland ASCS grain office listed at end of table.

Export announcement sales:
Under Announcement GR-212 (Revision 2, Jan. 9, 1961) for application to arrangements for barter and approved CCC credit, except that limited West Coast terminal stocks are available for export sale under Announcement GR-212 (barter, credit, and other designated sales) and under Announcement GR-368. CCC reserves the right to determine the class, grade, quality, and quantity to be made available for sale under any export announcement. The statutory minimum price referred to in the price adjustment provisions of Announcement GR-212 is 105% of the applicable price-support rate plus the adjustments referred to in subparagraph C above. Sale is made at the applicable export market price, as determined by CCC; export payment-in-kind rates, if any, are deducted in arriving at credit and barter sales prices.

Available: Evanston, Kansas City, Minneapolis, and Portland ASCS grain offices.

See footnotes at end of table.

| Commodity | Sales price or method of sale |
|---|---|
| Cotton, upland | Domestic or export, unrestricted use: Competitive bid under the terms and conditions of Announcement NO-C-16, as amended (Sale of Upland Cotton for Unrestricted Use). Under this announcement, upland cotton acquired under price support programs will be sold at the highest price offered but in no event at less than the higher of (a) 105 percent of the current loan rate for such cotton, plus reasonable carrying charges, or (b) the market price for such cotton, as determined by CCC.<br>Competitive offers under the terms and conditions of Announcement NO-C-26 (Disposition of Upland Cotton—for exchange of PIK certificates or rights in the certificate pool for upland cotton). Upland cotton may be acquired at its domestic market price which shall be the highest price offered but not less than the minimum price determined by CCC.<br>Export, CCC Sales for Export: Competitive bid under the terms and conditions of Announcement CN-EX-25 (Cotton Export Program—Sales—1964-66 Marketing Years) and NO-C-29 (Sale of Upland Cotton—Cotton Export Program—1964-66 Marketing Years).<br>Export, CCC Credit Sales and Barter: Competitive bid under the terms and conditions of Announcement CN-EX-23 (Purchase of Upland Cotton for Export under the Export Credit Sales Program), Announcement CN-EX-24 (Acquisition of Upland Cotton for Export under the Barter Program), and Announcement NO-C-28 (Sale of Upland Cotton—CCC Credit and Barter Programs—1964-66 Marketing Years). |
| Cotton, extra long staple | Domestic or export, unrestricted use: Competitive bid under the terms and conditions of Announcements NO-C-6 (Revised July 22, 1960), as amended, and NO-C-10, as amended. Under these announcements extra long staple cotton (domestically grown) will be sold at the highest price offered but in no event at less than the higher of (a) 115 percent of the current support price for such cotton plus reasonable carrying charges, or (b) the domestic market price as determined by CCC.<br>Export, CCC Sales for Export: Competitive bid under the terms and conditions of Announcements CN-EX-20 (Foreign-Grown Extra Long Staple Cotton Export Program) and NO-C-23 (Sale of Foreign-Grown Extra Long Staple Cotton); or competitive bid under the terms and conditions of Announcements CN-EX-22 (Extra Long Staple Cotton Export Program) and NO-C-27 (Sale of Extra Long Staple Cotton).<br>Available: Sale of cotton will be made by the New Orleans ASCS Commodity Office and catalogs for upland cotton and extra long staple cotton showing quantities, qualities, and location may be obtained for a nominal fee from the office. |
| Dairy products | Sales are in carlots only in-store at storage location of products.<br>Submission of offers: Submit offers to the Minneapolis ASCS Commodity Office. |
| Butter | Domestic or export: Unrestricted use: Announced prices, under LD-29, as amended: 62.0 cents per pound—New York, Pennsylvania, New Jersey, New England, and other States bordering the Atlantic Ocean and Gulf of Mexico. 61.25 cents per pound—Washington, Oregon, and California. All other States 61.0 cents per pound.<br>Export: Competitive bid under LD-33, as amended, pursuant to invitations to bid to be issued by Minneapolis ASCS Commodity Office. |
| Cheddar cheese (standard moisture basis). | Domestic or export: Unrestricted use: Announced prices, under LD-29, as amended: 40.75 cents per pound—New York, Pennsylvania, New England, New Jersey, and other States bordering the Atlantic Ocean and Pacific Ocean and the Gulf of Mexico. All other States 39.75 cents per pound.<br>Export: Competitive bid under LD-33, as amended, pursuant to invitation to bid to be issued by Minneapolis ASCS Commodity Office. Announced prices under LD-36: Any cheese offered but not sold under the invitation to bid issued pursuant to LD-33 will be offered for sale through the following Monday noon at prices announced by press release from the Minneapolis ASCS Commodity Office each Tuesday. |
| Nonfat dry milk | Domestic or export: Unrestricted use: Announced prices, under LD-29, as amended: Spray process, U.S. Extra Grade, 16.40 cents per pound.<br>Export: Payment-in-kind under SM-8, as amended. Competitive bid, under LD-33, as amended, pursuant to invitation to bid to be issued by Minneapolis ASCS Commodity Office. |

D. Availability information: Storable Northern Spring Wheat sales for unrestricted use have been suspended until further notice. For information on CCC wheat sales from bin sites, contact ASCS State or county offices. For information on the disposition of wheat from other locations, contact the Evanston, Kansas City, Minneapolis, or Portland ASCS grain office listed at end of table.

Export announcement sales:

(i) Under Announcement GR-345 (Revised August 25, 1964) as amended for export under the wheat export payment-in-kind program except that: (a) durum wheat will not be eligible for P.L. 480, Title 1 sales, and (b) hard winter wheat exports through West Coast ports will not be eligible for Title I, P.L. 480 sales, (2) under Announcement GR-261 (Rev. 2, Jan. 9, 1961, as amended and supplemented) for export as wheat and under Announcement GR-262 (Rev. 2, Jan. 9, 1961 as amended) for export as flour for application under arrangements for barter and approved CCC credit sales only at prices determined daily. Hard winter wheat will not be sold through West Coast ports under Announcements GR-261 or GR-262.

Available: Evanston, Kansas City, Minneapolis and Portland ASCS grain offices. (See above for limited availability of hard winter wheat through west coast ports.)

[1] Such dispositions shall be for domestic unrestricted use or for export.

[2] The delivery basis for these examples is "in-store", and market prices will be on the same basis. The formula price delivery basis for bin site sales will be f.o.b.

[3] To compute, multiply applicable support price by 1.05, round product up to nearest whole cent and add amount shown in the appropriate table and any applicable freight.

[4] On sales made on a protein basis, the loan rate shall be increased by the applicable market or loan bulletin protein premium for the protein content of the wheat, whichever is higher. On sales made on a sedimentation basis, the loan rate shall be increased by the applicable loan bulletin sedimentation premium for the sedimentation value of the wheat. On sales made on a combined sedimentation and protein basis, the loan rate shall be adjusted by the applicable loan bulletin sedimentation and protein premiums and discounts for the respective sedimentation value and protein contents of the wheat.

[5] Woodford County, Ill., origin.

[6] Redwood County, Minn., origin.

## Office of the Secretary

## KANSAS AND WISCONSIN

### Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 of the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1961), it has been determined that in the hereinafter-named counties in the States of Kansas and Wisconsin natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies or other responsible sources.

Kansas

Graham. Sheridan.
Rooks.

Wisconsin

Burnett. Lincoln.
Florence. Oneida.
Forest. Rusk.
Langlade. Washburn.

Pursuant to the authority set forth above, emergency loans will not be made in the above-named Kansas counties after December 31, 1965, or in the above-named Wisconsin counties after June 30, 1965, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 7th day of December 1964.

Orville L. Freeman,
*Secretary.*

## Food and Drug Administration

## NEW DRUGS

### Notice of Approval of Applications March–October 1964

As provided in § 130.33 of the new-drug regulations (21 CFR 130.33), notice is given of the following new drugs for which applications, or supplemental applications for substantive labeling changes, have been approved on the dates specified:

DRUGS FOR HUMAN USE

| Active ingredients (as declared on label) | Trade name or other designated name and dosage form | Principal indication or pharmacological category | Applicant | Date approved | How dispensed [1] |
|---|---|---|---|---|---|
| Methopholine, 60 mg. | Verstidyne (tablet). | Analgesic. | Roche Laboratories, Nutley, N.J. | Mar. 31, 1964 | Rx |
| Flurothyl. | Inloklon (inhalation). | Convulsant. | Ohio Chemical & Surgical Equipment Co., Wis. Madison, Co. | Apr. 1, 1964 | Rx |
| Meprobamate, 400 mg. | Meprobamate (tablet). | Tranquilizer. | Reese Laboratories, Calif. Los Angeles, | Apr. 6, 1964 | Rx |
| Methopholine, 30 mg.; aspirin, 227 mg.; phenacetin, 162 mg.; caffeine, 32.4 mg. | Verstidyne Compound 30 (tablet). | Analgesic. | Roche Laboratories, Nutley, N.J. | do. | Rx |
| Methopholine, 60 mg.; aspirin, 227 mg.; phenacetin, 162 mg.; caffeine, 32.4 mg. | Verstidyne Compound 60 (tablet). | do. | do. | do. | Rx |
| Tyloxapol, 0.25 percent; benzalkonium chloride 0.02 percent. | Elnulene (solution). | Contact lens solution. | Alcon Laboratories, Inc., Fort Worth, Tex. | do. | Rx |
| Betamethasone, 0.2 percent. | Celestone (cream). | Anti-inflammatory hormone. | Schering Corp., Bloomfield, N.J. | Apr. 10, 1964 | Rx |
| Betamethasone, 0.6 mg./5 cc. | Celestone (syrup). | do. | do. | Apr. 13, 1964 | Rx |
| Meprobamate, 400 mg. | Seidobamate (tablet). | Tranquilizer. | Mallard, Inc., Detroit, Mich. | do. | Rx |
| Dexamethasone, 0.5 mg./5 ml. | Hexadrol (elixir). | Anti-inflammatory hormone. | Organon Inc., West Orange, N.J. | Apr. 23, 1964 | Rx |
| Meprobamate, 200 mg., 400 mg. | Meprobamate (tablet). | Tranquilizer. | Barrows Chemical Co., Inc., Inwood, Long Island, N.Y. | May 5, 1964 | Rx |
| Meprobamate, 400 mg. | do. | do. | Strong, Cobb, Inc., Cleveland, Ohio. | do. | Rx |
| Oxymetazoline hydrochloride, 0.05 percent. | Afrin (solution spray). | Decongestant. | Schering Corporation, Bloomfield, N.J. | do. | Rx |
| Chlorthalidone, 50 mg.; reserpine, 0.25 mg. | Regroton (tablet). | Antihypertensive; diuretic. | Geigy Pharmaceuticals, Ardsley, N.Y. | May 8, 1964 | Rx |
| Sodium citrate, 2.63 percent; citric acid (hydrous), 0.327 percent; sodium biphosphate (dihydrous), 0.527 percent; dextrose (hydrous), 2.55 percent. | Cube-PAC (solution). | Blood collection-transfusion unit containing anticoagulant. | Baxter Laboratories, Inc., Morton Grove, Ill. | May 13, 1964 | Rx |
| Meprobamate, 400 mg. | Meprobamate (tablet). | Tranquilizer. | Pennex Products Co., Inc., Verona, Pa. | May 25, 1964 | Rx |
| Fluocinolone acetonide, 0.01 percent. | Synalar (solution). | Anti-inflammatory hormone. | Syntex Laboratories, Inc., Palo Alto, Calif. | May 27, 1964 | Rx |
| Ethylestrenol, 2 mg. | Maxiboln (tablet). | Anabolic hormone. | Organon Inc., West Orange, N.J. | May 28, 1964 | Rx |
| Dexamethasone, 0.1 percent. | Maxidex (solution). | Anti-inflammatory hormone. | Alcon Laboratories, Inc., Fort Worth, Tex. | July 16, 1964 [2] | Rx |
| Triamterene, 100 mg. | Dyrenium (capsule). | Diuretic. | Smith Kline & French Laboratories, Philadelphia, Pa. | Aug. 10, 1964 | Rx |
| | Absorbable Surgical Suture. | Suture. | Ethicon, Inc., Summerville, N.J. | Aug. 27, 1964 | Rx |
| Dexamethasone 21-phosphate, 0.1 percent. | Decadron Phosphate (cream). | Anti-inflammatory hormone. | Merck Sharp & Dohme Research Laboratories, West Point, Pa. | Sept. 11, 1964 [2] | Rx |
| Isoflurophate, 0.025 percent. | Floropryl (ointment). | Glaucoma. | do. | do. [3] | Rx |
| Triamcinolone acetonide, 0.025 percent. | Kenalog (lotion). | Anti-inflammatory hormone. | E.R. Squibb & Sons, New Brunswick, N.J. | Sept. 25, 1964 [2] | Rx |

See footnotes at end of table.

DRUGS FOR HUMAN USE—continued

| Active ingredients (as declared on label) | Trade name or other designated name and dosage form | Principal indication or pharmacological category | Applicant | Date approved | How dispensed [1] |
|---|---|---|---|---|---|
| Mecliziine hydrochloride, 25 mg. | Mecliziine Hydrochloride (tablet). | Antimotion sickness. | Arlin Chemicals, Inc., Carlstadt, N.J. | Oct. 2, 1964 | Rx |
| Anileridine dihydrochloride, 25 mg. | Apodol (tablet). | Analgesic. | E. R. Squibb & Sons, New Brunswick, N.J. | Oct. 15, 1964 | Rx |
| Anileridine, 25 mg./cc. | Apodol (injection). | do. | do. | do. | Rx |
| Cholestyramine resin. | Cuemid (powder). | Antipruritic. | Merck Sharp & Dohme Research Laboratories, West Point, Pa. | do. | Rx |

DRUGS FOR VETERINARY USE

| Active ingredients (as declared on label) | Trade name or other designated name and dosage form | Principal indication or pharmacological category | Applicant | Date approved | How dispensed [1] |
|---|---|---|---|---|---|
| Dexamethasone, 10 mg. | Azium (bolus). | Anti-inflammatory hormone. | Schering Corporation, Bloomfield, N.J. | Mar. 25, 1964 | Rx |
| Acepromazine maleate, 10 mg./cc. | Acepromazine maleate (injection). | Tranquilizer. | Ayerst Laboratories, Inc., New York, N.Y. | Apr. 8, 1964 | Rx |
| Hydrochlorothiazide, 25 mg./cc. | Vetidrex (injection). | Diuretic. | CIBA Pharmaceutical Co., Summit, N.J. | May 1, 1964 | Rx |
| Hydrochlorothiazide, 1 g. | Vetidrex (bolus) | do. | do. | May 6, 1964 | Rx |
| Iron hydrogenated dextran, 100 mg./cc. iron. | Hyferdex (injection). | Hematinic. | Corvel, Inc., Omaha, Nebr. | May 8, 1964 | OTC |
| Primidone, 250 mg. | Medi-Pets (tablet). | Anticonvulsant. | Ayerst Laboratories, Inc., New York, N.Y. | Sept. 25, 1964 | Rx |
| Cyclothiazide, 1 mg. | Renaxide (tablet) | Diuretic. | Corvel, Inc., Omaha, Nebr. | Oct. 2, 1964 [2] | Rx |
| Dexamethasone, 10 mg. | Azium (powder) | Anti-inflammatory hormone. | Scherling Corporation, Bloomfield, N.J. | Oct. 13, 1964 | Rx |
| Ferric oxide stabilized with a 17 percent by dextrin, 100 mg./cc. iron. | Dextron-100 (injection). | Hematinic. | Norden Laboratories, Inc., Lincoln, Nebr. | do. | OTC |

[1] The abbreviation "Rx" means restricted by law to prescription only; the abbreviation "OTC" applies to drugs that have been exempted from prescription.

[2] Supplemental application, labeling change.

[3] Supplemental application, new package size.

# ATOMIC ENERGY COMMISSION

[Docket No. 50–183]

## GENERAL ELECTRIC CO.

### Notice of Proposed Issuance of Facility License Amendment

Please take notice that the Atomic Energy Commission proposes to issue Amendment No. 2, set forth below, to Provisional Operating License No. DR–10 which authorizes the General Electric Company to operate its ESADA–Vallecitos Experimental Superheat Reactor located near Pleasanton, California. The amendment will authorize an increase in operating power level from 12.5 Mwt to 17 Mwt.

The Commission has found that:

(1) The application for amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter 1, CFR;

(2) The issuance of this amendment will not be inimical to the common de-

fense and security or to the health and safety of the public.

Within thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER, the applicant may file a request for a hearing, and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's regulations (10 CFR Part 2). If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the licensee's application for license amendment (Proposed Change No. 9) dated August 14, 1964, as supplemented on August 21, 1964, and (2) a related hazards analysis prepared by the Test & Power Reactor Safety Branch of the Division of Reactor Licensing, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington, D.C., 20545. Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 7th day of December 1964.

For the Atomic Energy Commission.

R. L. DOAN,
*Director,*
*Division of Reactor Licensing.*

AMENDMENT TO PROVISIONAL OPERATING LICENSE

[License DR-10, Amdt. 2]

Provisional Operating License No. DR-10 issued to the General Electric Company is hereby amended in the following respects:

1. Paragraph 1 is revised by adding the dates of "August 14, 1964," and "August 21, 1964", to the list of dates therein of amendments to General Electric's application for operating license.

2. Paragraph 4.A. is revised in its entirety to read as follows:

"A. General Electric shall not operate the reactor at power levels in excess of 17.0 megawatts thermal."

3. The Technical Specifications attached as Appendix "A" to Provisional Operating License No. DR-10 are changed as set forth in the attachment hereto.

This amendment is effective as of the date of issuance.

For the Atomic Energy Commission.

*Director,*
*Division of Reactor Licensing.*

ATTACHMENT "B"

CHANGES TO TECHNICAL SPECIFICATIONS

NOTE: The following changes pertain to the power level increase:

1. Change paragraph V.C.1. to read as follows:

"1. The reactor shall not be operated at a planned normal power level in excess of 17 Mw (thermal). The power level (high neutron flux) scram setting on the picoammeters shall be set at a level not in excess of 125% of the maximum planned normal power level for any given test operation, but shall in no event be set at a level greater than 21.3 Mwt."

2. In paragraph VI.E.2., fourth line, change "12.5 Mwt" to read "17 Mwt".

[F.R. Doc. 64-12717; Filed, Dec. 10, 1964; 8:48 a.m.]

# CIVIL AERONAUTICS BOARD

[Docket No. 15556; Order E-21564]

## AIR TRAFFIC CONFERENCE OF AMERICA

### Order Authorizing Discussions of Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of December 1964.

On September 22, 1964, by Order E-21310, the Board authorized certain discussions among the members of the Air Traffic Conference (ATC) relating to proposed revisions in the free baggage allowance and excess baggage charges. Such discussions took place at the ATC meeting on the 28th and 29th of October. As a result, it was decided that certain surveys and further discussion were needed in order to permit a full evaluation of the new approach being considered. ATC, by its Executive Secretary, has, therefore, requested that the authorization of discussions be extended so as to permit conduct and evaluation of the surveys as well as further discussions of the matter at a special Conference meeting to be called in March.

As outlined in the request of ATC, the survey would be conducted under a Special Committee of airline representatives and an "Ad Hoc" Committee working under the Special Committee. There would be two survey periods: the first, in the middle of November, and the second, during the first week in February. Analyses of the results and preparation of a final report and recommendations to the Conference would be begun at meetings of the Special and "Ad Hoc" Committees in December. No meetings are presently scheduled for January, but the committees would meet in February to finalize the report and recommendations to be presented at a special Conference meeting to be called in March.

The ATC request apparently contemplates a blanket authorization covering the five-month period between the present and the March Conference meeting. However, the power to permit such discussions to take place free from application of the antitrust laws is an extraordinary one which we are reluctant to use except in the most limited and carefully controlled circumstances. The actual physical conduct of the surveys and tabulation of the results would appear to require no authorization. Moreover, we do not believe that a blanket authorization permitting informal discussions at any time the participants desire is either necessary or proper. Accordingly, we will limit the authorization to those instances where it appears to be needed, i.e., specific meetings at which the results of the survey will be analyzed and recommendations formulated. There are four such committee meetings and the special conference meeting scheduled for March of next year.

Our reasons for departing from our policy of precluding inter-carrier discussions of domestic rates in this case have already been stated in Order E-21310. The surveys contemplated by the instant request would appear to be useful in reaching a result consistent with the public interest. Accordingly, the Board has decided to authorize further discussions to the extent necessary. The authorization will be conditioned in a manner to provide adequate safeguards to the public interest. In addition, we will require that the tabulated results of each carrier's survey be filed with the Board together with any over-all compilation so that we may have the benefit of such information in evaluating any agreement that may be presented to us for approval, or in the further processing of Docket 14274, if no agreement is reached.

The five-month period during which the surveys will be conducted and evaluated, in our opinion is too long a time to delay the further processing of the investigation in Docket 14274. There is no assurance that the discussions authorized will culminate in a satisfactory agreement. The prehearing conference in this case was originally scheduled for October 24 and was postponed until further notice in order to permit the carriers to discuss the American Airlines proposal at the October ATC meeting. Thus, a substantial delay has already been permitted and to sanction still further delay would deprive the public of the expeditious disposition to which it is entitled should the further carrier discussions prove not to be fruitful. We will, therefore, direct that the prehearing conference be reassigned for a date in the near future and that the processing of the investigation proceed normally while the survey is being conducted and evaluated.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 412 and 414 thereof:

*It is ordered,* That,

1. The carrier members of the Air Traffic Conference of America are authorized to engage in discussions on one occasion during March 1965 looking toward possible revisions to the currently effective baggage allowances and charges: *Provided,* That, if the Board deems it appropriate or necessary, observers from the Board's staff shall attend such discussions.

2. The carrier representatives, listed below who are members of a Special or "Ad Hoc" Committee of the Air Traffic Conference of America are authorized to meet on three occasions in December of 1964 and one occasion in February of 1965 to discuss possible revisions in baggage allowances and charges: *Provided,* That, if the Board deems it appropriate or necessary, observers from the Board's staff shall attend such discussions.

3. The Board be given at least 48 hours notice of the time and place of any discussion authorized herein by filing written notice with the Board's Docket Section.

4. Complete and accurate minutes shall be kept of all such discussions, and a true copy thereof be filed with the Board's Docket Section not later than 30 days after the conclusion of the discussions.

5. Any agreement or agreements reached as a result of such discussions (together with the minutes of such discussions) shall be filed with the Board in accordance with section 412 of the Federal Aviation Act of 1958 and approved by the Board prior to being placed in effect.

6. The tabulated results of each participating carrier's survey of passenger baggage to be conducted by the Air Traffic Conference of America in November of 1964 and February of 1965 together with any overall compilation of such surveys shall be filed with the Board's Docket Section not later than 30 days after they are available.

7. This order shall be served upon all domestic certificated local service and trunkline air carrier members of the Air Traffic Conference of America.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
*Secretary.*

[Docket No. 7531; Order E-21565]

## CITY OF FALL RIVER, MASS.

### Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of December 1964.

On November 30, 1955, the City of Fall River, Massachusetts filed with the Board a complaint alleging that Northeast Airlines, Inc. has failed to provide the city with adequate air service within the meaning of section 404(a) of the Federal Aviation Act, and requesting that the carrier be required to provide the city, at its own airport, with a minimum of three daily round trips to New York City.

Northeast was first certificated to serve Fall River in Northeast Airlines, Inc., Additional Service to Boston, 4 C.A.B. 686 (1944). However, the Board in its decision authorized service by Northeast to Fall River through the New Bedford airport.[1] No changes in Northeast's Fall River-New Bedford certificate authority have been made since 1944, and Northeast has continued to serve Fall River through the New Bedford airport since that time. At present Northeast is providing New Bedford-Fall River with three daily round trips to New York.[2] Flights are presently scheduled so as to provide both cities with early morning, afternoon, and evening departures.

In view of Northeast's certificate obligation to serve New Bedford-Fall River as a single, hyphenated point and Northeast's New York commuter schedules provided Fall River through the New Bedford airport, only 13 miles and 30 minutes driving time from downtown Fall River,[3] we see no basis for proceeding further with Fall River's complaint. The Board tentatively finds and concludes that the complaint does not state facts warranting the institution of an adequacy of service investigation. Therefore, the City of Fall River will be directed to show cause why its complaint should not now be dismissed.

*Accordingly, it is ordered,*

1. That all interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and dismissing the complaint of Fall River, Massachusetts in Docket 7531.

2. That all interested persons having objection to the issuance of an order making final the proposed findings and conclusions set forth herein shall, within 15 days of service of a copy of this order, file with the Board and serve upon all persons made parties to this proceeding a statement of objections, such statement to conform to the Board's Rules of Practice in Economic Proceedings; [4]

3. That, if timely objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. That, in the event no objections are filed, all further procedural steps will be deemed to have been waived, and the case will be submitted to the Board for final action; and

5. That a copy of this order shall be served on the City of Fall River, Massachusetts and Northeast Airlines, Inc., who are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

# FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 15535, 15536; FCC 64M-1226]

## NELSON BROADCASTING CO. AND UBIQUITOUS FREQUENCY MODULATION, INC.

### Order Continuing Hearing

In re applications of Donald P. Nelson & Wilbur E. Nelson, d/b as Nelson Broadcasting Company, Kingston, New York, Docket No. 15535, File No. BPH-4211; Ubiquitous Frequency Modulation, Incorporated, Hyde Park, New York, Docket No. 15536, File No. BPH-4312; for construction permits.

The Hearing Examiner having under consideration a letter request for continuance of hearing dated December 4, 1964, from Ubiquitous Frequency Modulation, Incorporated in the above-entitled matter, and

It appearing, that a continuance is a necessity in the circumstances of this case and that counsel for the other applicant and the Commission's Broadcast Bureau have agreed to a reasonable continuance and immediate consideration of the request,

*It is ordered,* This 7th day of December 1964, that the aforesaid request is granted, and that, accordingly, the present hearing date of December 11, 1964, is changed to December 14, 1964, on which day the hearing will commence at 10:00 a.m. in the Commission's offices in Washington, D.C.

Released: December 7, 1964.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
*Secretary.*

## PRATTVILLE BROADCASTING CO. AND BILLY WALKER

### Memorandum Opinion and Order Scheduling Hearing

In re applications of Ned N. Butler and Claude M. Gray, d/b as the Prattville Broadcasting Company, Prattville, Alabama, Docket No. 14878, File No. BP-14571; Billy Walker, Prattsville, Alabama, Docket No. 14879, File No. BP-14729; for construction permits.

1. In their pleadings filed December 3, 1964, the applicants move for a field hearing in the above-entitled proceeding. The Broadcast Bureau consents.

2. The applicants herein are competing for authorization to construct and operate a daytime standard broadcast station in Prattville, Alabama, using the frequency 1330 kilocycles. Prattville Broadcasting Company proposes power output of 1 kilowatt; Walker proposes

500 watts. Following hearings held March 20 and 21, 1963, Hearing Examiner Basil P. Cooper issued an Initial Decision looking toward grant of the Walker application and denial of the competing application. Thereafter, the Commission's Review Board, upon consideration of a series of pleadings, remanded the case to the Hearing Examiner for further hearings and the issuance of a Supplemental Initial Decision on additional issues, viz., whether applicant Walker lacked candor in the showing heretofore made in support of his application, and whether he attempted to mislead the Commission in regard to his financial qualifications and the possible interest of another party in his application. Hearings on the remand which were originally scheduled to commence December 8, 1964, in Washington, D.C., are being continued to January 13, 1965.

3. The language of the Review Board's remand order, as well as the showing made by the applicants in support of their pleadings, make clear that full development of the evidence under the new issues is possible only through the field hearing sought.

*It is ordered*, This 7th day of December 1964, that the motions are granted, and that sessions of the hearings in the above-entitled proceeding will be held in Prattville, Alabama, commencing January 13, 1965.

Released: December 7, 1964.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
*Secretary.*

[Docket Nos. 15701, 15702; FCC 64M-1230]

## SOUTHERN NEWSPAPERS, INC., AND RADIO HOT SPRINGS CO.

### Order Advancing Prehearing Conference

In re applications of Southern Newspapers, Inc., Hot Springs, Arkansas, Docket No. 15701, File No. BPH-3984; C. J. Dickson, Guy R. Beckham and James M. Alexander, d/b as Radio Hot Springs Company, Hot Springs, Arkansas, Docket No. 15702, File No. BPH-4124; for construction permits.

The Hearing Examiner having under consideration a petition filed on December 4, 1964, by the Broadcast Bureau, requesting that the prehearing conference in the above-entitled proceeding, presently scheduled for December 23, 1964, be advanced to December 16, 1964; and

It appearing, that Broadcast Bureau counsel assigned to this proceeding will be unable to meet the presently scheduled prehearing date of December 23, 1964; and

It further appearing, that counsel for all other parties to this proceeding have informally consented to the requested advance of the date of the prehearing conference and agreed to a waiver of the four-day rule for consideration of this pleading;

*It is, therefore ordered*, This 7th day of December 1964 that the petition be and it is hereby granted; and the prehearing conference in the above-styled proceeding be and it is hereby advanced from December 23, 1964, at 9:00 a.m., to December 16, 1964, at 10:00 a.m., in the offices of the Commission in Washington, D.C.

Released: December 7, 1964.

[Docket No. 15641; FCC 64R-552]

## INTERNATIONAL PANORAMA TV, INC.

### Memorandum Opinion and Order Amending Issues

In re application of International Panorama TV, Inc., Fontana, California, Docket No. 15641, File No. BPCT-3181; for construction permit for new television broadcast station.

1. The Review Board has before it for consideration a petition to clarify or enlarge issues, filed November 6, 1964, by Broadcast Bureau.[1]

2. On April 22, 1963, International Panorama TV, Inc. (hereinafter International) filed its instant application for a construction permit for a new television broadcast station to operate on Channel 40, Fontana, California. Channel 40 is allocated to Riverside, California, but the applicant has specified Fontana, California, as its principal community to be served. The proposed new station would place a principal city signal over the whole of Los Angeles, California, as well as over Fontana and Riverside.

3. At the time the Commission designated the above-captioned application for hearing, it had before it a petition to deny, and pleadings related thereto. Said petition was filed by Spanish International Broadcasting Company, permittee of Television Station KMEX-TV, Channel 34, Los Angeles, California (hereinafter KMEX).[2] KMEX alleged that Angel Lerma Maler (also known as Angel Lerma; for consistency the name Maler will be used here), president and 75 percent shareholder of International, and 100 percent owner of Panorama Latino TV, Inc. (which produces Spanish language television programming for telecast over Station KCOP-TV, Channel 13, Los Angeles), lacked the requisite character qualifications to be a broadcast licensee. In its petition KMEX asserted that Maler tried to injure Station KMEX-TV by sending, under fictitious Latin American names, letters disparaging various practices of the station to the Commission, government officials, and some of the station's advertisers, among others. In its petition, KMEX also asserted that an inaccurate report concerning the degree of UHF conversion in the Los Angeles area, which bore the legend "Associated Research Company" and which was extracted from a more complete version of a survey report, was circulated anonymously by Panorama Latino TV, Inc., among various advertising agencies and other potential time buyers of KMEX-TV. A copy of one of the "inaccurate reports" was attached to the petition, but a copy of the "more complete version" was not. In an affidavit attached to the petition, Donn E. Mire, an examiner of questioned documents, stated that a copy of the altered report and the envelope in which it was mailed were typed on the same machine as a carbon copy of a letter which was found by a private detective in a trash can used by Panorama Latino TV, Inc., and which had the name Angel Lerma typed below the space reserved for the signature. An attached affidavit of said detective, Lee Worthington Cake, verified the discovery of said carbon copy.

4. In its opposition, which was verified by Maler, to KMEX's petition to deny, International stated that "Mr. Lerma [Maler] ha[d] been unable, after a most careful investigation, to find out who prepared and sent this report • • • [and] affirms that neither he nor, on his investigation anyone connected with Panorama Latino, prepared or distributed [it] • • •" In an attached affidavit Maler claimed that during the years 1962 and 1963 there were several unauthorized entries into the offices of Panorama Latino TV, Inc. While two other attached affidavits attempted to show that Alexander G. Golomb (also known as Alexander G. Colombo), an employee of Panorama Latino TV, Inc., wrote and was solely responsible for the aforementioned disparaging letters,[3] there was no admission of responsibility for the altered report.

5. In an affidavit attached to KMEX's reply to opposition, James Coyle, who had requested Associated Research Company to conduct a survey of UHF conversions in the Los Angeles area, stated that he had forwarded to Maler, at the latter's request and for his "own personal use," a copy of an abbreviated report of the full survey report, both of which were written by aforesaid research company and which were, according to Coyle's instructions, to be read together; that after Coyle had learned that altered copies of the abbreviated report were in circulation, he called Maler and asked him if he had distributed the altered report; and that at first Maler answered in the negative, but upon being asked a second time, Maler admitted mailing the altered report to "a few friends." In another affidavit, Miguel Reyes Medina stated that Maler showed him a copy of the altered report. Attached to KMEX's reply to opposition were copies of the altered summary report, the original full report, and the original summary report. The one significant difference between the two abbreviated reports, both of which state as a conclusion that "retail sales to the public of UHF Converters have declined for each succeeding month since sales began," is that the altered one has the following inscription on a fly sheet, and substantially the same inscription at the tops of five of the six pages of the report, whereas the original one has no fly sheet nor a similar inscription:

ASSOCIATED RESEARCH COMPANY COMMENTS FROM TV RETAILERS ON SALES AND PERFORMANCE OF CONVERTORS FOR THE NEW UHF KMEX-TV CHANNEL 34

6. In its Memorandum Opinion and Order of designation (FCC 64-903), released October 2, 1964, the Commission dismissed KMEX's petition as being untimely filed, but nevertheless it decided to "consider the questions raised therein" on its own motion. Relevant to the instant problem are the following statements of the Commission:

> 4. We are asked to consider four questions in this matter • • • [one of which is] whether the applicant has the requisite character qualifications to be a broadcast licensee, in view of the disparaging letters discussed below.
>
> • • • • •
>
> 8. The basic problem presented by this case is the question of whether the applicant has the requisite character qualifications to be a broadcast licensee. In order to place our decision in proper perspective, a brief summary of the events leading to the filing of the petition in this matter appears appropriate.
>
> 9. • • • [The Commission here discusses the letters sent to the Commission.] There are also other letters and documents involved which the petitioner alleges were sent by Maler to advertisers and others in an attempt to defame, injure and destroy Station KMEX-TV.
>
> 10. In January 1964, the applicant was apprised by the Commission of the information at hand and was requested to comment on the charges that the letters had originated in the offices of Panorama Latino TV. Maler thereupon submitted a categorical denial, under oath, stating that he had no knowledge whatsoever of the letters or their origin. Subsequently, the applicant instituted its own investigation into the matter and discovered that the letters had all been written by one Alexander G. Golomb. • • • The applicant, however, states that the letters were written by Golomb for reasons of his own without the knowledge, consent or acquiescence of Maler. Maler steadfastly and categorically denies that he knew about the letters, that he had any connection therewith, or that he acquiesced in, condoned, or ratified Golomb's actions. The applicant has submitted affidavits to support its position, including one from Golomb in which he swears that he was solely responsible for the letters, that he wrote them in Maler's absence, that he wrote the letters at home, that he subsequently surreptitiously had the type on the typewriter changed, and that he used fictitious names • • • Petitioner alleges that, in any event, Maler ratified Golomb's action by retaining Golomb in his employ after the authorship of the letters was discovered.
>
> 11. The only question to be resolved in this proceeding is the responsibility, if any, of Maler. There is presently insufficient information before the Commission to allow us to make a judgment as to the plausibility of the explanation offered by the applicant. Obviously, this application cannot be granted without resolving the question of whether Maler must bear some responsibility in this matter. While it is apparent that no person other than Maler and those associated with him could have the "personal knowledge" required of affiants by Section 309(d) of the Communications Act, as to what Maler actually knew, it is conceivable that testimony could be elicited and evidence adduced from which valid inferences could be drawn as to Maler's responsibility, if any, for the actions of Golomb. Just as the public interest would require us to determine whether the applicant has the requisite qualifications to be a broadcast licensee if the evidence discloses Maler's complicity, so the public interest would seem to require a grant free of unresolved character questions if the evidence discloses Maler's innocence. It seems to us, therefore, that even if the evidence discloses that Maler was, to some extent and in some manner, responsible for the letters and other documents, we must further determine whether such responsibility necessarily reflects adversely on his character and, if so, whether the public interest would necessarily require us to deny the application. Clearly, a full and complete record of all of the facts and circumstances surrounding the writing of these letters and other documents is necessary in order to enable us to resolve these questions • • •

7. The Commission consequently designated the International application for hearing upon the following issues:

> 1. To determine whether Angel Lerma Maler was responsible for the actions of Alexander G. Golomb (also known as Alexander G. Colombo) in writing letters and other documents referred to in this Memorandum Opinion and Order and, if so, the nature and extent thereof.
>
> 2. To determine, if Issue 1 is resolved in the affirmative, whether the conduct of Angel Lerma Maler adversely reflects on the qualifications of the applicant to be a broadcast licensee.
>
> 3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the application would serve the public interest, convenience and necessity.

8. Believing that the aforestated issues encompass both the matter of the letters and the matter of the report, the Broadcast Bureau requested a conference with the Hearing Examiner in order to obtain a clarification and interpretation of said issues. At the conference, held November 4, 1964, the Broadcast Bureau was unable to obtain a ruling that the matter of the report is encompassed within the issues. While the Examiner said that he could not see that the report was referred to even remotely in the Commission's designation Order (Tr. 35, 41), he stated:

> [W]hether I would be disposed to receive the report or any testimony with reference to it, I could not pass on that now. I would have to see the witness, and listen to counsel's objection, and rule on the record accordingly • • •. What specifically I am going to receive in evidence under these issues, I could not state at this time. (Tr. 29–30)

Later, at Tr. 41, 42–43, the Examiner stated that while he would not make a declaratory ruling at that time, at the hearing he would permit the Broadcast Bureau to present evidence concerning the report and would entertain International's motion to strike after completion of the testimony. He said he was "trying to save time" and "trying to avoid a trip to the Commission on amended issues" (Tr. 45). However, since this proposal was not acceptable to International the Examiner withdrew it (Tr. 45).

9. The Broadcast Bureau now requests (a) that the Review Board clarify Issue 1 by holding that it encompasses inquiry into Maler's activities with regard to the abbreviated report and his representations to the Commission concerning said report; or (b) that, if the Review Board does not clarify Issue 1 as requested in (a), it designate the following issue:

> To determine whether Angel Lerma Maler was responsible in any way for the preparation and/or dissemination of a "summary report" regarding UHF conversion in Los Angeles; and whether Maler misrepresented and/or was lacking in candor in furnishing information to the Commission regarding his knowledge of the preparation and/or dissemination of this summary report.

The Broadcast Bureau bases its position on the fact that in its designation Order the Commission occasionally uses the language "letters and other documents" (see above, para. 4). The Broadcast Bureau asks, "What was the Commission referring to when it used the word 'document', if it was not referring to the summary report?" And petitioner states that in light of the affidavit of Coyle and "the findings of the questioned document analyst" (Donn E. Mire), a question is presented as to whether Maler, in denying any knowledge of the preparation or dissemination of the report, made misrepresentations to the Commission.

10. It is clear from the context of paragraph 11 of the Commission's Memorandum Opinion and Order and from Issue 1 itself that the Commission's primary concern was the responsibility of Maler for the actions of Golomb. There is no doubt that Issue 1 does not call for a determination of whether Maler was solely responsible for writing anything. Thus, it is significant here that there were no allegations by International (or KMEX) before the Commission—nor did the Commission make any comments—that there was any connection between Golomb and the summary report; his name was mentioned throughout the pleadings and the decision only in relation to the letters. On this ground alone the Review Board must conclude that Issue 1 is restricted to a determination of whether Maler was responsible for Golomb's letter-writing activities; and not whether he was solely to blame for the alteration and/or dissemination of the summary report.

11. In recommending addition of its proposed issue, the Broadcast Bureau is not renewing any request made in KMEX's petition to deny, nor is it asking for reconsideration of the Commission's

---

[1] Also before the Review Board are: (a) opposition, filed November 10, 1964 by International Panorama TV, Inc., and (b) reply to the opposition filed November 18, 1964, by the Broadcast Bureau. The Broadcast Bureau filed its petition more than fifteen days after the publication of the designation Order in the FEDERAL REGISTER, but it has shown good cause to justify its delay.

[2] KMEX claimed standing in this proceeding on the ground that International's proposed station would compete with it for revenues in the Los Angeles area and that it would suffer economic injury due to a diversion of revenues.

[3] In one of said affidavits, Golomb admitted his sole responsibility for writing the letters; in the other affidavit, John J. Harris, examiner of questioned documents, stated that the signatures on the letters were in Golomb's handwriting.

designation Order. Instead the Broadcast Bureau is desirous of adding an issue, based upon the affidavits of Coyle and Mire and the contradictory affidavit of Maler, as to whether the latter had made any misrepresentation to the Commission or was lacking in candor.[4] In its petition to deny KMEX was concerned with Lerma's character qualifications and did not allege misrepresentation concerning the altered report. Thus, the Commission was not faced with the misrepresentation question which is now before the Review Board and consequently did not address itself to said question. The Review Board believes that the issue requested by the Broadcast Bureau must be added to this proceeding in light of the question raised by the affidavits of Mire, Coyle, and Reyes,[5] especially when viewed with the statement verified by Maler concerning the latter's lack of knowledge of the preparation and/or dissemination of the summary report. This application cannot be granted without a resolution of said question, which might well go to the heart of Maler's qualifications to be a broadcast licensee. While no person other than Maler and those associated with him could have the "personal knowledge" required of affiants by Section 309(d) of the Communications Act, as to what Maler actually did or knew, it is conceivable that testimony could be elicited and evidence adduced from which valid inferences could be drawn concerning Maler's implication in the matter of the altered summary report. It is clear that a full and complete record of all the facts and circumstances surrounding Maler's connection with the altered report is necessary in order for a determination to be made concerning Maler's qualifications.

*Accordingly, it is ordered,* This 7th day of December 1964, That the petition to clarify or enlarge, filed November 5, 1964, by the Broadcast Bureau, is denied insofar as clarification is concerned, and is granted insofar as enlargement is concerned; that existing issues 2 and 3 are renumbered as issues 3 and 4; and that the issues in this proceeding are enlarged by addition of the following new issue 2:

2. To determine whether Angel Lerma Maler was responsible in any way for the preparation and/or dissemination of a "summary report" regarding UHF conversion in Los Angeles; and whether Maler misrepresented and/or was lacking in candor in furnishing information to the Commission regarding his knowledge of the preparation and/or dissemination of this summary report.

*It is further ordered,* That issue 3 is amended to read as follows:

3. To determine, if Issue 1 or 2 is resolved in the affirmative, whether the conduct of Angel Lerma Maler adversely reflects on the qualifications of the applicant to be a broadcast licensee.

Released: December 8, 1964.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
*Secretary.*

[F.R. Doc. 64-12759; Filed, Dec. 10, 1964; 8:50 a.m.]

[Docket Nos. 15248, 15626; FCC 64R-551]

## UNITED ARTISTS BROADCASTING, INC., AND OHIO RADIO, INC.

### Memorandum Opinion and Order Amending Issues

In re applications of United Artists Broadcasting, Inc., Lorain, Ohio, Docket No. 15248, File No. BPCT-3168; Ohio Radio, Incorporated, Lorain, Ohio, Docket No. 15626, File No. BPCT-3348; for construction permit for new television broadcast station.

1. The Review Board has before it for consideration a motion to enlarge issues, filed October 8, 1964, by Ohio Radio, Incorporated (Ohio).[1] Ohio seeks to enlarge issues beyond those designated by Commission Order, FCC 64-860, released September 18, 1964, by the addition of five issues as to United Artists Broadcasting, Inc. (United Artists):

(1) To determine the efforts made by United Artists Broadcasting, Inc., to ascertain the programming needs and interests of the area to be served, and the manner in which it proposes to meet such needs and interests.

(2) To determine whether in light of the evidence adduced in connection with the "Suburban" issue, whether United Artists Broadcasting, Inc., can be relied upon to carry out its program proposal.

(3) To determine whether the application of United Artists Broadcasting, Inc., should be denied because of conflict with the requirements of § 73.613 of the rules.

(4) To determine whether the proposal of United Artists Broadcasting, Inc., is consistent with section 307(b) of the Communications Act and the policies reflected therein, and §§ 73.606 and 73.607 of the Commission's rules and the policies reflected therein.

(5) To determine whether United Artists Broadcasting, Inc., is financially qualified to construct, own and operate the proposed television broadcast station.

These requested issues will be discussed in order.

2. United Artists originally filed an application for Channel 65, Cleveland, Ohio, on March 25, 1963; that application was designated for comparative hearing with two competing applications on December 23, 1963 (FCC 63-1161). An amendment offered by United Artists was granted on April 1, 1964 (FCC 64M-275) permitting withdrawal of United Artists from the Channel 65 proceeding and allowing an amendment of its application to specify Channel 31, Lorain, Ohio. On May 26, 1964, Ohio filed an application for Channel 31, Lorain. At the time of United Artists' Channel 31 amendment, a rule making proceeding was in progress (Docket No. 14229), to consider a proposal for the transfer of Channel 31 from Lorain to Cleveland. That proceeding is still pending.

3. *Requested Issues 1 and 2.* Ohio alleges that United Artists' amended application, although it specifies Lorain as its principal city, made no change in the programming which had been proposed for Cleveland. Movant contends that the similarities in United Artists' program proposals for Cleveland and Lorain raise a question as to whether the proposal for Lorain has been tailored to meet the needs of the area to be served. Ohio further contends that in similar situations the Commission and the Board have inquired into an applicant's proposal. It cites *Suburban Broadcasters,* FCC 60-559, 20 RR 52 (1960) and *Geoffrey Lapping,* FCC 63R-348, 1 RR 2d 153 (1963). Ohio asserts that a "Suburban" issue is necessary in that Lorain and Cleveland are in separate standard metropolitan statistical areas and the city of Lorain is not otherwise identified with the Cleveland Urbanized Area. In addition, Ohio alleges that United Artists' failure to amend its program schedule indicates that the applicant did not make a study of the program needs of Lorain and did not prepare its program proposal on the basis of such inquiry or investigation.

4. The Broadcast Bureau supports Ohio's request for Issue 1 and cites the retention of the "Cleveland" program titles in United Artists' proposed Channel 31 schedule, as indicating the need for a "Suburban" issue. The Bureau further contends that simply because Lorain is located in the service area of United Artists' Channel 65 proposal, it does not follow that a program proposal for Cleveland will serve the local needs and interests of Lorain or that United Artists' present Channel 31 proposal will serve as a local outlet for Lorain. The Bureau's position is that absent a bona fide attempt by United Artists to ascertain local needs and interests of Lorain a "Suburban" issue should be added. United Artists opposes the addition of this issue, contending that the instant case is not a "Suburban-type" case because its application does not involve identical program schedules for completely different communities or factual allegations that the applicant has no familiarity with program needs, interests, and tastes of the public to be served. United Artists contends that Lorain is part of the Cleveland "metropolitan complex" and that its proposals for Channels 65 and 31 would serve substantially the same areas and populations. Moreover, United Artists asserts that the ultimate assignment of Channel 31 is uncertain due to the pending rule making proceeding and it would be "artificial" to file a revised program proposal at this time. Finally, United Artists contends an inquiry into its program proposal can be made under the existing standard comparative issue.

5. The Board and the Commission have indicated that an applicant has the responsibility of ascertaining the needs of the community which he proposes to serve and to program to meet such needs. Springfield Telecasting Co., FCC 64R-471, 3 RR 2d 727; Community Telecasting Corp., FCC 62-523, 32 FCC 933, 24 RR 1; Suburban Broadcasting Co., FCC 60-559 20 RR 52; Radio Tifton, 11 RR 1167 (1955). Where an applicant's program proposal is the same as that which he has proposed for another community, a "Suburban" issue will be added, absent a showing by the applicant that he is familiar with the needs of the community he proposes to serve. Consequently, the fact that United Artists' signal encompasses both Cleveland and Lorain does not serve to absolve the applicant of its responsibility to ascertain the needs and interests of its principal community, Lorain. There is no showing of any bona fide attempt on United Artists' part to ascertain the needs and interests of Lorain, either through investigation of those needs or through any allegation of familiarity with the area. See Bootheel Broadcasting Co., FCC 64R-47, 24 RR 292 (1962). Further, the assertion that Lorain is a Cleveland suburb has no basis in fact. Lorain is classified by the United States Census Bureau as part of the Lorain-Elyria Standard Metropolitan Statistical Area (SMSA), which is separate from the Cleveland SMSA. Lorain is not classified as part of the Cleveland Urbanized Area. Lorain is the 12th largest city in Ohio. Absent a specific showing, the Board cannot assume that the programming needs and interests of Lorain are identical with those of Cleveland. Accordingly, a "Suburban" issue will be added. The basis of Ohio's further request for an issue inquiring into United Artists' reliability in carrying out its proposed program schedule "in light of the evidence adduced in connection with the Suburban issue" is not explained, and the request for Issue 2 will, therefore, be denied. Cumberland Publishing Company, FCC 64R-467, released October 1, 1964.

6. *Requested Issues 3 and 4.* Ohio asserts that an issue to determine whether United Artists' proposal complies with § 73.613 of the Commission's rules[2] is necessary because the applicant has not indicated that its main studio will be located in the principal community to be served, nor has it requested waiver of the rule. To illustrate the need for the addition of Issue 3 Ohio cites the applicant's contradictory statements. In United Artists' application (Section V-C) Lorain is specified as the location of the main studios but in Exhibit I attached to the application the following statement is made: "• • • United Artists is unable to determine whether to locate its main studios at Lorain, or at Cleveland requesting a waiver of § 73.613 of the rules. A final determination will be made with respect thereto upon resolution of the proposal to transfer Channel 31 from Lorain to Cleveland." Ohio alleges that United Artists is attempting to subvert § 73.606 (Table of Assignments) and § 73.607[3], inconsistent with the Commission's determination pursuant to section 307(b) of the Communications Act that Lorain should have its own local television service. The allegation made by Ohio is that United Artists, in reality, is applying for a Cleveland station.

7. The Broadcast Bureau agrees that United Artists' statements as to its main studio location are ambiguous; it therefore supports Ohio's request for Issue 3. However, the Bureau opposes the addition of Issue 4 on the theory that evidence adduced under the "Suburban" issue and a 73.613 issue (main studio location) will disclose any violation of § 73.606, 73.607 and/or section 307(b) of the Communications Act. In a responsive pleading United Artists states that it will locate its main studio in Lorain unless the assignment of Channel 31 is changed to Cleveland, in which case it will locate in Cleveland.

8. Ohio's request for an issue to determine United Artists' compliance with § 73.613 of the rules will be granted. The question to be determined is what location United Artists has indicated for its main studio. The statement made by United Artists in its responsive pleading does not obviate the need for inquiry, since the fact remains that the statements in its application are ambiguous and United Artists has not clarified them. United Artists relies upon the pending rule-making proceeding (Docket No. 14229) to explain all the uncertainties of its proposal. At the present time Channel 31 is assigned to Lorain, United Artists has applied for that channel, and therefore has applied for a Lorain facility; compliance with § 73.613 must, therefore, be determined in the light of such facts. For the aforementioned reasons we will enlarge the issues to determine whether United Artists proposes to locate its main studios in Lorain and, if it intends to locate outside of Lorain, whether circumstances exist which would warrant waiver of § 73.613(a).

9. Ohio's request for separate issues to determine whether United Artists is attempting to subvert §§ 73.606 and 73.607 of the Commission's rules and is acting inconsistently with the Commission's determination under section 307(b) of the Communications Act will be denied. Ohio's request is based on the following circumstances: it is not discernible whether United Artists' program proposal reflects the needs and interests of Lorain; it is unclear whether United Artists proposes to locate its main studio in Cleveland or Lorain; United Artists will locate its transmitter in Cleveland;[4] and United Artists' proposal will cover the entire city of Cleveland, as well as Lorain, with a city grade (80 dbu) signal. Although the sum of these allegations may well raise a substantial question as to United Artists' intent to comply with the Commission's section 307(b) determination (that Lorain should have a local UHF facility), we do not think the addition of a specific issue is necessary. United Artists is already under a burden to come forward with evidence showing its proper intention on two of these matters (whether its program proposal reflects the needs and interests of Lorain and the location of its main studio) by the addition of a "Suburban" issue (Issue 1) and a § 73.613 issue (Issue 3). If United Artists were to fail to satisfy its burden under either of these issues it would be disqualified as an applicant in this proceeding, thereby obviating any need for a section 307(b) issue. If United Artists were to sustain its burden on each of these two issues the remaining circumstances cited would not warrant a section 307(b) determination under existing Commission rules and policies.

10. *Requested Issue 5.* The last issue that Ohio requests is a standard financial issue against United Artists. The allegations upon which Ohio bases its request are that United Artists' resources are "thin and non-liquid"; that their financial showing is out-of-date; that United Artists' parent company, United Artists Corporation (United Corp.), has not properly evidenced its ability to fulfill a commitment to lend $350,000 to United Artists; and that United Artists' proposal is dependent upon such commitment. To support the above allegations Ohio asserts that the balance sheet submitted by United Corp. lists $62,000,000 in current liabilities and only $9,000,000 in liquid assets. These figures, Ohio contends, leave United Corp. $53,000,000 below the Commission's normal financial standard of liquid assets sufficient in amount to meet current liabilities and in addition, proposed commitments. Further, Ohio finds additional support for its request in that

---

[4] As is stated above, International's opposition, which was verified by Maler, stated that Maler claimed, after making an investigation into the matter of the altered report, that neither he nor anyone connected with Panorama Latino prepared or distributed the report. In an affidavit attached to the petition to deny Mire stated that the altered report was typed on the same machine as a letter allegedly written in the offices of Panorama Latino. And in an affidavit attached to KMEX's reply to opposition, Coyle claimed that during a phone conversation with Maler, the latter first told him that he had not distributed the altered report but, upon further questioning, admitted having mailed said report to a few friends.

[5] As is stated above, in an affidavit attached to KMEX's reply to opposition, Reyes alleged that Maler showed him a copy of the altered report.

[1] Pleadings before the Review Board are: (1) Motion to enlarge issues, filed October 8, 1964, by Ohio Radio, Inc.; (2) comments, filed October 21, 1964, by the Broadcast Bureau; (3) opposition, filed October 21, 1964, by United Artists Broadcasting, Inc.; and (4) reply, filed November 2, 1964, by Ohio Radio, Inc.

[2] 73.613(a) requires that the main studio of a television broadcast station must be located in the principal community to be served. Where the principal community is a city, such studio shall be located within the corporate boundaries of such city. Pursuant to subsection (b), subsection (a) may be waived by the Commission if such waiver is not inconsistent with the operation of the station in the public interest and upon a showing of good cause.

[3] Rule 73.607(a): "Subject to (b) applications may be filed to construct television broadcast stations only on the channels assigned in the Table of Assignments (73.606 (b)) and only in the communities listed therein." (b): "A channel assigned to a community listed in the Table of Assignments is available upon application in any unlisted community which is located within 15 miles of the listed community."

[4] There is no requirement, under our present Rules, that a television transmitter be located within the principal city. At present the only requirement is contained in Rule 73.685(a), which provides that, "[t]he transmitter location shall be so chosen so that, • • • the following minimum field intensity [specified for given channels] shall be provided over the entire principal community to be served."

United Corp. pays only stock dividends and has previously committed itself to lend its wholly-owned subsidiary (United Artists) $700,000 to finance proposals for UHF facilities in Houston and Boston.

11. The Broadcast Bureau and United Artists oppose the addition of a financial issue. Their oppositions are based on the following assertions: The $9,000,000 referred to by Ohio represents the "cash" listed, by United Corp., on its balance sheet; United Corp. lists other current assets totalling $120,000,000; the Commission has found United Corp. financially qualified four times within the last two years on the basis of the same balance sheet now in question; and Ohio presents no new facts to support its instant request.

12. Ohio's request for a financial qualifications issue will be denied. United Corp. has committed itself to lend United Artists $350,000 to finance the instant proposal. The latest balance sheet submitted by United Corp. shows $152,000,000 in total assets and total liabilities of $100,000,000. Where a small amount of money must be obtained from a large amount of non-liquid assets the Board will not add a financial qualifications issue. See Springfield Television Broadcasting Corporation, FCC 64R–234, 2 RR 2d 841; Garo W. Ray, FCC 63R–103, 25 RR 286; and Massillon Broadcasting Co., Inc., FCC 61–1164, 22 RR 218. In view of United Corp.'s substantial assets and net worth, we believe its ability to honor its $350,000 commitment to United Artists is sufficiently established so that there is no need for a financial qualifications issue. The fact that United Corp. pays only stock dividends is not relevant to the present question and we do not think that its commitment of an additional $700,000 to United Artists for two other UHF facilities materially changes United Corp.'s financial position.

*Accordingly, it is ordered,* This 7th day of December 1964, that the motion to enlarge issues, filed October 8, 1964, by Ohio Radio, Incorporated, is granted to the extent indicated herein, and is denied in all other respects; and the issues in this proceeding are enlarged by the addition of the following:

1. To determine the efforts made by United Artists Broadcasting, Inc. to ascertain the programming needs and interests of the area to be served, and the manner in which it proposes to meet such needs and interests.

2. To determine where United Artists Broadcasting, Inc. proposes to locate its main studio and if such location is outside the corporate city limits of the city of Lorain, whether circumstances exist which would warrant a waiver of § 73.613(a) of the Commission's Rules.

Released: December 8, 1964.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
*Secretary.*

## AMERICAN MAIL LINE, LTD., AND KAWASAKI KISEN KAISHA, LTD.

### Notice of Agreement Filed for Approval

Notice is hereby given that the following Agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street, NW., room 301; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

G. E. Sherwood,
Director of Market Research,
American Mail Line,
1010 Washington Building,
Seattle, Wash., 98101.

Agreement 9406, between American Mail Line Ltd. as the initial carrier and Kawasaki Kisen Kaisha, Ltd. as the delivering carrier, provides for the establishment of a through billing arrangement covering the transportation of general cargo from loading ports on the West Coast of the United States and Canada to Fremantle and/or other discharging ports in Western Australia with transhipment at the ports of Yokohama, Kobe or Nagoya, Japan, in accordance with terms and conditions set forth in the agreement.

Dated: December 8, 1964.

By order of the Federal Maritime Commission.

THOMAS LISI,
*Secretary.*

Notice of agreement filed for approval by:

W. J. Amoss, Jr., Vice President, Traffic,
Lykes Bros. Steamship Co.,
821 Gravier Street,
New Orleans, La., 70112.

Agreement No. 9404 between Lykes Bros. Steamship Company and South African Marine Corporation, Ltd., provides for the coverage of ports and the spacing of sailings in the trade between United States Gulf of Mexico ports and ports in Southwest Africa, the Republic of South Africa, and Mozambique. Decisions under the agreement will be reached by unanimous vote of the parties, and either party may withdraw upon giving thirty days written notice to the other.

Dated: December 8, 1964.

By order of the Federal Maritime Commission.

THOMAS LISI,
*Secretary.*

[F.R. Doc. 64–12747; Filed, Dec. 10, 1964; 8:49 a.m.]

## MITSUI O.S.K. LINES, LTD., AND SEA-LAND SERVICE, INC.

### Notice of Agreement Filed for Approval

Notice is hereby given that the following Agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement(s) at the Washington office of the Federal Maritime Commission, 1321 H Street NW., room 301; or may inspect agreements at the offices of the District Managers, New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments with reference to an agreement including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter), and the comments should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. J. J. Scully,
Traffic Department,
Sea-Land Service, Inc.,
Puerto Rican Division,
Post Office Box 1050,
Elizabeth, N.J., 07207.

Agreement No. 8502–1 between the above-named carriers modifies the basic agreement, which covers a through billing arrangement on cargo from loading ports in Korea, Formosa, the Philippines and Japan, including Hong Kong to ports of call in Puerto Rico, with transhipment at New York Harbor, New York, by amending all reference to Osaka Shosen Kaisha, Ltd., the originating carrier, to read "Mitsui O.S.K. Lines, Ltd.", and amending all reference to Sea-Land of Puerto Rico, Division of Sea-Land Service, Inc., the delivering carrier, to read "Sea-Land Service, Inc."

Also, provision is made that the through rate under the agreement will be named by Mitsui, who shall also file the rates on traffic not within the scope of any approved conference agreement. All reference to the Federal Maritime Board is removed from the agreement, and provision is made that this agreement and/or any modification thereof shall not be effective or implemented prior to approval by the Commission.

Dated: December 8, 1964.

By order of the Federal Maritime Commission.

THOMAS LISI,
*Secretary.*

# FEDERAL POWER COMMISSION

[Docket No. CP65–156]

## CITY OF BAINBRIDGE, GEORGIA

### Notice of Application

DECEMBER 3, 1964.

Take notice that on November 25, 1964, the City of Bainbridge, Georgia (Applicant), filed in Docket No. CP65–156 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing South Georgia Natural Gas Company (South Georgia) to establish a second physical connection of its natural gas transportation facilities with the existing facilities of Applicant's natural gas distribution system, and to sell and deliver natural gas to Applicant, for resale to Southern Nitrogen Company (Southern), all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant requests an order directing South Georgia to extend a 6⅝-inch O.D. high pressure pipeline from a point near the present delivery point for a distance of 4 miles to a point at or near the City limits in West Bainbridge, Georgia, and there build the necessary facilities to make deliveries of natural gas to the City of Bainbridge.

Applicant proposes to make interconnection with the facilities of South Georgia at the proposed delivery point and by means of 1.4 miles of 4½-inch O.D. line to connect both delivery points together.

The application states that the proposed facilities are sought for the purpose of making natural gas available to a new customer of the City, Southern Nitrogen Company, as well as for providing adequate service to Applicant's existing customers in West Bainbridge.

The estimated annual requirements of Southern are stated to be 240,000 annually on an interruptible basis.

The estimated cost of Applicant's proposed facilities is $32,820, and will be financed with current funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 28, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that an order is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

[Docket No. G-6887 etc.]

## WILLIAM G. WEBB

### Order Consolidating Applications for Permission and Approval To Abandon Sales and Service, Adding Respondent, Prescribing Procedure and Setting Date of Hearing

DECEMBER 1, 1964.

William G. Webb, Docket No. G-6887; J. Glenn Turner, Docket No. G-6907; Frank A. Schultz, Docket No. G-10037; William G. Webb, Docket No. G-15692; J. Glenn Turner, Docket No. G-15693; William G. Webb, Docket No. G-19109; Benson-Montin-Greer Drilling Corporation, Docket No. G-19110; J. Glenn Turner, Docket No. G-19145; Frank A. Schultz, et al., Docket No. G-20018; Benson-Montin-Greer Drilling Corporation, Docket No. CI61-156; La Plata Gathering System, Inc., Docket No. CI61-812; Frank A. Schultz, Docket No. CI61-817; Jack London, Jr., Docket No. CI62-1147; Ralph E. Davis, Docket No. CI62-1175; J. Glenn Turner and William G. Webb, Docket No. CI62-1177; J. Glenn Turner and William G. Webb, Docket No. CI62-1211; C. W. Murchison, Docket No. CI63-65; Frank A. Schultz, et al., Docket No. CI63-318.

On the various dates set forth in Appendix A below, the above-named applicants filed, in the respective dockets, applications seeking permission and approval to abandon in whole or in part natural gas sales for resale in interstate commerce.[1] All of the acreage from which the sales have been made is located in San Juan or Rio Arriba Counties, New Mexico, or La Plata County, Colorado, all of which is in the San Juan Basin.

By various agreements, the applicants have assigned all or parts of their interests in the acreage, wells and related property to El Paso Natural Gas Company (El Paso). These agreements were executed pursuant to options previously granted to the applicants by El Paso. Prior to the assignments, all of the gas produced from this acreage was dedicated to El Paso under gas purchase agreements.[2] The options had been granted by El Paso at approximately the same times that the gas purchase agreements were entered into between the producers and El Paso. Although the gas purchase contracts were filed with the Commission as producer rate schedules, the Commission was unaware of these collateral options until the producers filed their abandonment applications. It further appears that some of the acreage concerned herein was formerly held by El Paso under oil and gas leases, which were subsequently assigned to the applicants. All of the gas involved will continue to be transported in interstate commerce and sold in interstate commerce from El Paso's pipeline system.

The prices under the applicants' currently effective rate schedules range from 10 cents per Mcf to 14 cents per Mcf.

Pursuant to an inquiry by the Commission staff, El Paso has submitted certain cost and reserve data with regard to some of the above-mentioned assignments.[3]

El Paso states, in its submittal in response to the staff inquiry, filed with the Secretary on March 23, 1964, that the total remaining recoverable reserves, as of December 31, 1962, applicable to the Appendix C leases were 230,000,000 Mcf. For these reserves, El Paso would pay approximately $16,000,000 of which approximately $5,000,000 represents production payments and approximately $11,000,000 represents cash payment at time of assignments. This represents approximately 6.9 cents per Mcf of recoverable reserves. A preliminary cost-of-service summary related to the Appendix C filings, submitted by El Paso for the year 1962, reflects a unit cost of service of 26.74 cents per Mcf, some 12 cents to 16 cents per Mcf more than the currently effective producer prices. Although El Paso claims that this figure is not representative due to unusually low production during the year 1962, we are concerned lest the proposed abandonments result in an unwarranted increase in El Paso's jurisdictional unit cost of service to the detriment of El Paso's jurisdictional customers.

The producer applications are similar in nature, involve common issues and accordingly should be heard on a consolidated record. Since El Paso is directly concerned in these transactions, it will be made a respondent in this consolidated proceeding.

This order shall constitute notice of the filing of the applications and amendments which are open to public inspection in the Commission's offices.

The Commission finds:

(1) These related matters should be heard on a consolidated record and disposed of under the applicable rules and regulations.

(2) It is appropriate and in the public interest that El Paso Natural Gas Company be made respondent in these proceedings.

The Commission orders:

(A) El Paso Natural Gas Company is hereby made a respondent in these proceedings.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, 15, and 16 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held on February 2, 1965, at 10:00 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by these consolidated proceedings.

(C) Direct testimony and exhibits of all applicants and all parties supporting applicants shall be served in accordance with the Commission's rules of practice and procedure on or before the 18th day of January, 1965, upon the Commission staff, interveners and all petitioners to intervene who have filed petitions to intervene on or before December 28, 1964, unless the Commission has denied intervention to any of the petitioners prior to the date set for filing such testimony and exhibits.

(D) Following all preliminary matters to come before the presiding examiner on the above-designated hearing date witnesses will be presented to adopt their respective testimony, previously served, whereupon cross-examination will commence immediately. In all other matters the presiding examiner's right to prescribe the manner in which the proceeding is to be conducted is preserved.

(E) Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 28th day of December 1964.

By the Commission.

[SEAL] GORDON M. GRANT,
*Acting Secretary.*

[1] The pleadings carry various titles but each seeks permission to delete all or part of acreage previously dedicated to the interstate market, viz., El Paso Natural Gas Company. They are all therefore treated as applications for permission to abandon sales and service under section 7(b) of the Natural Gas Act.

[2] See Appendix B for details as to related rate filings.

[3] This applies only to the assignments related to the filings designated in Appendix C below. Similar information relating to the remaining assignments listed in Appendix B is not available since the staff request for information was made prior to these filings.

[Docket No. CP65-154]

## CITY OF BURLINGAME, KANSAS

### Notice of Application

DECEMBER 3, 1964.

Take notice that on November 25, 1964, the City of Burlingame, Kansas (Applicant), filed in Docket No. CP65-154 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Cities Service Gas Company (Cities Service) to sell and deliver natural gas to Applicant for resale in the community of Scranton, Kansas (Scranton), all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant proposes to purchase from Cities Service the gas required for Scranton, to take delivery of such gas, in addition to the gas purchased for distribution in Burlingame, at the existing interconnection of Applicant's lateral line with the main transmission line facilities of Cities Service, to transport the Scranton gas along with the Burlingame gas to a point at or near the Burlingame town border, and at that point to sell and deliver to Scranton the volumes intended for Scranton.

The estimated initial three year period of annual and peak day requirements of Scranton are stated to be:

| | First year | Second year | Third year |
|---|---|---|---|
| Annual (Mcf) | 25,300 | 31,600 | 38,000 |
| Peak day (Mcf) | 328 | 407 | 490 |

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 28, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time re-

quired herein, if the Commission on its own review of the matter believes that an order is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12697; Filed, Dec. 10, 1964; 8:46 a.m.]

[Docket No. RI65-348]

## MILLER AND FOX MINERALS CORP. ET AL.

### Order Providing for Hearing on and Suspension of Proposed Change in Rate

DECEMBER 3, 1964.

On November 5, 1964, Miller and Fox Minerals Corporation (Operator), et al. (Miller and Fox),[1] tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated November 2, 1964.

Purchaser and producing area: Texas San Juan Oil Corporation[2] (Miller and Fox Field, Jim Wells County, Texas) (R.R. District No. 4).

Rate schedule designation: Supplement No. 1 to Miller and Fox's FPC Gas Rate Schedule No. 2.

Effective date: December 6, 1964.[3]
Amount of Annual Increase: $864.
Effective rate: 11.0 cents per Mcf.[4][5]
Proposed rate: 12.0 cents per Mcf.[5]
Pressure base: 14.65 p.s.i.a.

Miller and Fox request that their proposed rate increase be permitted to become effective as of November 1, 1964. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for Miller and Fox's rate filing and such request is denied.

[1] Address is: 900 Vaughn Plaza, Corpus Christi, Tex., 78401.

[2] Buyer resells the subject gas to Tennessee Gas Transmission Company under its FPC Gas Rate Schedule No. 2. Buyer filed for a rate of 15.0 cents per Mcf which was suspended until April 1, 1965, by Commission order issued October 19, 1964, in Docket No. RI65-268.

[3] The stated effective date is the first day after expiration of the required statutory notice.

[4] Initial rate.

[5] Rate subject to a downward Btu adjustment.

The producers' proposed periodic rate increase is geared to the buyer's, Texas San Juan Oil Corporation (San Juan), contract in that they both provide for a 1.0 cent per Mcf periodic increase on November 1, 1964, and every five years thereafter, thus maintaining a 3.0 cents per Mcf differential between the two rates. On September 24, 1964, San Juan filed for a periodic increase from 14.0 cents to 15.0 cents per Mcf which was suspended for five months until April 1, 1965, by the Commission's order issued October 19, 1964, in Docket No. RI65-268, since it exceeded the 14.0 cents per Mcf area ceiling for increased rates. Miller and Fox's proposed rate is below the area increased ceiling of 14.0 cents per Mcf, but since it is related to San Juan's rate increase, it is suspended until April 1, 1965, the end of the suspension period for San Juan's related rate increase.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed change, and that Supplement No. 1 to Miller and Fox's FPC Gate Rate Schedule No. 2 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Miller and Fox's FPC Gas Rate Schedule No. 2.

(B) Pending such hearing and decision thereon, Supplement No. 1 to Miller and Fox's FPC Gas Rate Schedule No. 2 is hereby suspended and the use thereof deferred until April 1, 1965, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 20, 1965.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
*Secretary.*

[Docket No. CP65-151]

## MONTANA-DAKOTA UTILITIES CO.

### Notice of Application

DECEMBER 3, 1964.

Take notice that on November 23, 1964, Montana-Dakota Utilities Co. (Applicant), 831 Second Avenue South, Minneapolis, Minnesota, filed in Docket No. CP65-151 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of natural gas, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant seeks authorization to sell natural gas to the Wyoming Gas Company and to E. R. Jensen, d.b.a. Byron Gas Service, in accordance with Applicant's FPC Gas Tariff, Original Volume No. 3.

The application states that Applicant has been selling natural gas to the Wyoming Gas Company and to Byron Gas Service since June 1, 1951, on the assumption that they are intrastate sales not subject to the jurisdiction of the Federal Power Commission.

The estimated 1965, 1966 and 1967, annual and peak day sales to Wyoming Gas Company are stated to be:

| | First year | Second year | Third year |
|---|---|---|---|
| Annual (Mcf)---- | 1,067,900 | 1,070,000 | 1,072,100 |
| Peak day (Mcf)-- | 8,350 | 8,360 | 8,380 |

The estimated 1965, 1966, and 1967, annual and peak day sales to Byron Gas Service are stated to be:

| | First year | Second year | Third year |
|---|---|---|---|
| Annual (Mcf)---- | 44,000 | 44,000 | 44,000 |
| Peak day (Mcf)-- | 380 | 380 | 380 |

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 23, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12699; Filed, Dec. 10, 1964; 8:46 a.m.]

[Docket No. CP65-116]

## NORTHERN NATURAL GAS CO.

### Notice of Application

DECEMBER 3, 1964.

Take notice that on October 28, 1964, Northern Natural Gas Company, 2223 Dodge Street, Omaha, Nebr., filed in Docket No. CP65-116 an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act for permission and approval to abandon certain facilities and for a certificate of public convenience and necessity authorizing reinstallation of such facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant requests permission and approval to abandon two 1,800 horsepower compressor units at its Andrews Compressor Station and authorization to reinstall such units at its Florey Field Compressor Station, both located in Andrews County, Tex.

The application states that the two 1,800 horsepower units are no longer required at the Andrews station because of declining volumes of raw gas, and states further that such units are presently required at Flory Field.

The estimated cost of the proposed facilities is $685,200, which includes $314,300 for material and equipment transferred from Andrews. Applicant proposes to finance construction with cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 23, 1964.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter believes that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12700; Filed, Dec. 10, 1964; 8:46 a.m.]

[Docket No. G-16611 etc.]

## PHILLIPS PETROLEUM CO. ET AL.

### Notice Fixing Oral Argument

DECEMBER 3, 1964.

Phillips Petroleum Company, Docket No. G-16611, G-16612; Kerr-McGee Oil Industries, Inc., Docket No. G-16718, G-16719; The Jupiter Corporation, Docket No. G-16679.

Upon consideration of the motion filed on October 20, 1964, by the counsel for Phillips Petroleum Company and Kerr-McGee Oil Industries, Inc., for oral argument;

Take notice that an oral argument is hereby scheduled to be heard at 10:00 a.m. on February 26, 1965 in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C. The oral argument shall be confined to those matters consideration of which was deferred by Paragraph (F) of the order accompanying the Commission's Opinion No. 436 issued July 23, 1964.

Parties desiring to participate in the oral argument shall notify the Secretary in writing on or before February 1, 1965 and state the time desired for the presentation of their argument.

By direction of the Commission.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12701; Filed, Dec. 10, 1964; 8:46 a.m.]

[Docket No. R-250; Order 288]

## ALABAMA POWER CO.

### Order Denying Application for Rehearing

DECEMBER 4, 1964.

On November 4, 1964, Alabama Power Company filed an application for rehearing of the Commission's Order No. 288, issued on October 6, 1964, concerning procedures for the recapture or relicensing of hydroelectric projects upon the expiration of their licenses. The Company urges substantially the same arguments contained in its response to the Commission's notice of proposed rulemaking in this proceeding which were considered fully by the Commission before it issued Order No. 288 in Docket No. R-250.

The Commission further finds. The application for rehearing, filed by the Alabama Power Company on November 4, 1964, of the Commission's Order No. 288, issued on October 6, 1964, presents no facts or principles of law which were not considered by the Commission when it issued its aforesaid order or which, having now been considered, warrant any modification of the order.

The Commission orders. The Alabama Power Company's application for rehearing filed on November 4, 1964, of the Commission's Order No. 288 issued on October 6, 1964 is denied.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
*Secretary.*

[F.R. Doc. 64-12707; Filed, Dec. 10, 1964; 8:47 a.m.]

[Project 2062]

## PUBLIC UTILITY DISTRICT 1; OKANOGAN COUNTY, WASHINGTON

### Notice Fixing Place of Hearing

DECEMBER 4, 1964.

Notice is hereby given that the hearing in the above-designated matter fixed for December 16, 1964 by order issued November 25, 1964 shall be held at the Auditorium Room, PUD Building, 327 North Wenatchee Avenue, Wenatchee, Wash., at 10:00 a.m., local time, on December 16, 1964.

GORDON M. GRANT,
*Acting Secretary.*

[F.R. Doc. 64-12708; Filed, Dec. 10, 1964; 8:47 a.m.]

[Docket No. RI65-349]

## SKELLY OIL CO.

### Order Providing for Hearing on and Suspension of Proposed Change in Rate

DECEMBER 4, 1964.

On November 11, 1964, Skelly Oil Company (Skelly)[1] tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated November 2, 1964.

Purchaser and producing area: Tennessee Gas Transmission Company (Logansport Field, DeSoto Parish, Louisiana) (North Louisiana).

Rate schedule designation: Supplement No. 11 to Skelly's FPC Gas Rate Schedule No. 5.

Effective date: December 5, 1964.[2]
Amount of annual increase: $18,526.
Effective rate: 14.79407 cents per Mcf.[3][4]
Proposed rate: 15.79407 cents per Mcf.[3][4]
Pressure base: 14.65 p.s.i.a.

Skelly's proposed increased rate is based on a contract from which the indefinite pricing provisions were deleted prior to the issuance of the Seventh Amendment to the Commission's General Policy Statement No. 61-1, as amended. The increased rate exceeds the regular area ceiling rate of 15.75 cents per Mcf, including tax reimbursement, by 0.04407 cent per Mcf, but is under the Seventh Amendment ceiling of 16.2654 cents per Mcf, including tax reimbursement. Skelly claims that since the proposed increase is within the Seventh Amendment ceiling rate and the contract now complies with the Seventh Amendment that the proposed increase should be accepted without sus-

[1] Address is: Post Office Box 1650, Tulsa Okla.

[2] The stated effective date is the effective date requested by Respondent.

[3] Subject to a downward Btu adjustment.

[4] Includes tax reimbursement. The amount of tax reimbursement is not specifically stated in the renegotiated agreement dated March 8, 1963 (Supplement No. 9), which provides for the instant rate increase. Prior to such agreement tax reimbursement was 1.75 cents per Mcf.

pension. Under the circumstances, we do not consider the Seventh Amendment ceiling applicable to Skelly's increased rate for the reason that Skelly deleted the indefinite pricing provisions before the Seventh Amendment was issued. To accept the instant increased rate would establish a precedent of accepting increases in rate up to the Seventh Amendment ceiling under contracts which either never contained indefinite pricing provisions or from which such provisions had been eliminated prior to the issuance of the Seventh Amendment. Accordingly, Skelly's proposed increased rate is suspended as hereinafter ordered.

The proposed periodic rate increase filed by Skelly exceeds the applicable area price level for increased rates in North Louisiana as set forth in the Commission's Statement of General Policy No. 61–1, as amended (18 CFR, Chapter I, Part 2, § 2.56).

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed change, and that Supplement No. 11 to Skelly's FPC Gas Rate Schedule No. 5 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 11 to Skelly's FPC Gas Rate Schedule No. 5.

(B) Pending such hearing and decision thereon, Supplement No. 11 to Skelly's FPC Gas Rate Schedule No. 5 is hereby suspended and the use thereof deferred until May 5, 1965, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before January 20, 1965.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F.R. Doc 64–12709; Filed, Dec. 10, 1964; 8:47 a.m.]

[Docket No. RI 65–350]

## CLORIS DALE ET AL.

### Order Providing for Hearing on and Suspension of Proposed Changes in Rates

DECEMBER 4, 1964

On November 6, 1964, Cloris Dale (Operator), et al. (Cloris Dale), tendered for filing proposed changes in their presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are set forth in Appendix "A" hereof.

Cloris Dale submits three superseding contracts dated September 28, 1954, and three related notices of change in rate dated September 28, 1964, for non-pipeline quality gas. The present contractual rate under the superseding contract is 11.0 cents per Mcf subject to a full proportionate downward Btu adjustment for gas containing less than 925 Btu's. The related notices of change in rate include agreements dated September 4, 1963, which amend the contracts so as to eliminate any reduction in price for gas containing less than 925 Btu's. No change is proposed in the 11.0 cents per Mcf base prices. Each of the units involved is producing gas at less than 925 Btu's. The 11.0 cents per Mcf minimum price for the subject gas would be equivalent to rates in excess of 11.0 cents per Mcf for 925 Btu gas. Under the circumstances, we believe that the proposed 11.0 cents per Mcf rate for the instant gas should be suspended because it exceeds the area ceiling for gas of pipeline quality as set forth in the Commission's Statement of General Policy No. 61–1, as amended (18 CFR, Ch. I, Part 2, § 2.56).

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed changes, and that the proposed superseding rate schedules and supplements thereto be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed changes.

(B) Pending a hearing and decision thereon, the superseding rate schedules and supplements thereto are suspended and their use deferred until May 7, 1965, and thereafter until made effective as prescribed by the Natural Gas Act.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)), on or before January 20, 1965.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

# SECURITIES AND EXCHANGE COMMISSION

[File No. 1–3421]

## CONTINENTAL VENDING MACHINE CORP.

### Order Suspending Trading

DECEMBER 7, 1964.

The common stock, 10 cent par value, of Continental Vending Machine Corp., being listed and registered on the American Stock Exchange and having unlisted trading privileges on the Philadelphia-Baltimore-Washington Stock Exchange, and the 6 percent convertible subordinated debentures due September 1, 1976, being listed and registered on the American Stock Exchange, pursuant to provisions of the Securities Exchange Act of 1934; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such Exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

*It is ordered,* Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the American Stock Exchange, the Philadelphia-Baltimore-Washington Stock Exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period December 8, 1964, through December 17, 1964, both dates inclusive.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 24A–1680]

## FERGUSON & ASSOCIATES, INC.

### Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

DECEMBER 7, 1964.

I. Ferguson & Associates, Inc. (issuer), 4470 Westfield Drive NE., Atlanta, Georgia, 30305, a Georgia corporation, filed with the Commission on July 22, 1963, a notification, offering circular and other exhibits relating to a proposed offering of 180 units consisting of $180,000 principal amount of 7 percent subordinated debentures and 18,000 shares of its $0.01 par value Class A common stock at $0.01 per share for an aggregate of $180,180, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder. The offering was commenced on November 19, 1963. A report on Form 2–A was filed June 18, 1964, and thereafter amended July 14 and 23, 1964. A revised offering circular was filed October 5, 1964, but has not been amended.

II. The Commission has reasonable cause to believe that:

A. The original and revised offering circulars contain untrue statements of material facts, omit to state material facts and contain a misleading presentation of facts in that:

1. The original and revised offering circulars used in offering the securities contain a materially false and misleading representation that "The only personal property intended to be owned would be necessary office equipment, fixtures and furnishings sufficient to carry on the operation of the business".

2. The original and revised offering circulars state that the issuer will concentrate on the sale of its securities to raise the prerequisite $100,000 capital to operate as a broker-dealer and to engage in such business in Georgia. In this connection the revised offering circulars omit adequate and accurate disclosure in the text of the revised offering circulars concerning:

a. The original amount of the debentures offered.

b. The period of time over which the offering under the notification has been made.

c. The amount of the debentures sold under the notification.

d. The expenses incurred in connection with the offering and the operation of the issuer.

e. The business in which the company is engaged which produced the commissions as shown in the financial statements for the fiscal period ended July 31, 1964.

f. The loss operations of the issuer which make it necessary for it to pay the interest due on outstanding debentures as of December 15, 1964, from the proceeds of the debentures sold or to be sold.

g. Issuer's apparent inability to sell securities at a rate sufficient to attain, after expenses, the $100,000 capital requirement for a broker-dealer's license under Georgia law.

3. The revised offering circulars contain false and misleading as well as conflicting statements concerning the use of the proceeds of the offering and the priority of such use.

4. The revised offering circular used in the sale of the securities does not disclose that a portion of the proceeds from the sale of the securities would be used to purchase a new automobile at a cost of $4,125.60 nor is any disclosure made concerning the business in which the company is engaged which would require the ownership and use of an automobile.

5. The revised offering circular fails to justify or explain the 114 percent increase in the estimated expenses of the offering over and above the amount shown in the original offering circular dated November 19, 1963.

6. The issuer has failed to use the proceeds of the offering for the purposes and in the order of priority shown in the original offering circular dated November 19, 1963.

7. The issuer improperly capitalized ordinary business expenses as organization expenses which resulted in a material understatement of the net loss and operating deficit in its financial statements in the revised offering circular.

8. The revised offering circular fails to include a profit and loss statement for the period of operations ended March 31, 1964, as required by paragraph 2 of Schedule 1.

9. The original and revised offering circulars state that the issuer would concentrate on the sale of its securities to raise the prerequisite capital to operate as a broker-dealer and to engage in such business, whereas it appears that the principal function of the company's operations and the sole purpose of the offering to date are to provide the issuer's principal officer with a means of livelihood.

B. The report on Form 2–A filed on July 23, 1964, contains false and misleading information with respect to the use of the proceeds of the offering.

C. It thus appears that the offering did, does and will operate as a fraud and deceit upon purchasers in violation of section 17(a) of the Securities Act of 1933, as amended.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended;

*It is ordered,* Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F.R. Doc. 64–12693; Filed, Dec. 10, 1964; 8:46 a.m.]

## SECURITY RESERVE LIFE INSURANCE CO.

### Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

DECEMBER 7, 1964.

I. Security Reserve Life Insurance Company (issuer), Suite 1, 333 West Colfax Avenue, Denver, Colorado, a

Colorado corporation, filed with the Commission on October 5, 1962, a notification on Form 1–A and an offering circular relating to a proposed offering of 75,000 shares of common stock, $1.00 par value, at $4.00 per share, for an aggregate offering of $300,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended (the Act), pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder. This offering purportedly commenced on November 26, 1962, and was completed with all shares sold on December 20, 1963. The issuer, on November 29, 1963, filed a second notification with the Commission relating to another 75,000 shares of its common stock to be offered at $4.00 per share. This second offering commenced on December 30, 1963, and a report of sales on Form 2–A indicates that this offering was terminated as of July 30, 1964, with 25,000 shares sold.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that:

1. Issuer failed to file supplemental sales literature used in the offer and sale of its securities under its notification 24D–2600.

2. Issuer failed to name in its Form 1–A and offering circular two persons who acted as underwriters of its offering under 24D–2644.

3. The offering under each of the notifications, when computed in accordance with Rules 253 and 254, exceeded the $300,000 limitation of Rule 254(a).

B. The offering under 24D–2600 was made in violation of section 17 of the Securities Act of 1933, as amended, in that:

1. Underwriters of the offering made untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly in relation to:

a. The possibility of a future offering at an increased price;

b. The safety of an investment in the securities of the issuer;

c. The stability of the market price of the stock of the issuer;

d. The scope of the issuer's present or proposed insurance operations;

e. The persons to whom the issuer was offering stock;

f. The non-availability for investment of the stock of established life insurance companies;

g. The extent of government supervision of companies and persons engaged in selling insurance stocks;

h. The amount of stock of the issuer available for sale;

i. Investments held by the issuer.

2. The supplemental sales literature used in connection with the offering contained untrue statements of material facts or omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading concerning:

a. The growth of other life insurance companies and the insurance industry;

b. The return on an investment in the stock of life insurance companies;

c. The status of the issuer's operations.

C. The offering circular used in connection with the offering under 24D–2644 omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, in that it failed to set forth a contingent liability for sales made in violation of the securities laws of the State of Kansas and the Securities Act of 1933.

D. The issuer and the underwriters of the offering have made untrue statements of material fact in connection with a rescission offer to persons who purchased stock of the issuer under both of the offerings described in Section I above concerning:

1. The number of persons accepting the rescission offer;

2. The reasons for the rescission offer;

3. The potential of the issuer in the insurance business after the rescission offer.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended with respect to both filings made by the issuer under Regulation A as described in section I above:

*It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of the issuer under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within thirty days after the entry of this order; that within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

NELLYE A. THORSEN,
*Assistant Secretary.*

## TASTEE FREEZ INDUSTRIES, INC.

### Order Suspending Trading

DECEMBER 7, 1964.

The common stock, 67 cents par value, of Tastee Freez Industries, Inc., being listed and registered on the American Stock Exchange, pursuant to provisions of the Securities Exchange Act of 1934; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such Exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

*It is ordered*, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the American Stock Exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period December 8, 1964, through December 17, 1964, both dates inclusive.

By the Commission.

[SEAL] NELLYE A. THORSEN,
*Assistant Secretary.*

# INTERSTATE COMMERCE COMMISSION

## ORGANIZATION

### Chairman et al.

DECEMBER 4, 1964.

The Interstate Commerce Commission has amended its Organization Minutes, being assignment of work, business, and functions pursuant to section 17 of the Interstate Commerce Act, as amended, issue of March 7, 1961, revised to May 1, 1961 (26 F.R. 4773, 5167, 8434, 10991, 12789; 27 F.R. 1234, 1747, 2500, 3830, 9997; 28 F.R. 198, 896, 8185; and 29 F.R. 3027, 4935, 11401, 12503, 14517, 16846), as follows:

(1) Under the heading Terms, Duties, and Responsibilities of the Chairman, Vice Chairman, and Senior Commissioner Present, Item 3.8 is amended to read:

3.8 He shall be ex officio Chairman of the Committee on Legislation and of the Committee on Rules. He shall appoint a standing Committee and may appoint such ad hoc Committees on Policy and Planning as he may deem necessary to aid him in discharging his responsibilities under Item 3.2(a)(2) of these minutes.

(2) Under the heading Committees of the Commission, Item 5.2 (a), (b), and (c) is deleted.

[SEAL] HAROLD D. MCCOY,
*Secretary.*

[F.R. Doc. 64–12719; Filed, Dec. 10, 1964; 8:48 a.m.]

[Notice 1091]

## MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 8, 1964.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 67303. By order of December 4, 1964, the Transfer Board approved the transfer to Pettapiece Cartage, Limited, Leamington, Ontario, Canada, of the operating rights issued by the Commission January 6, 1960, under Certificate in No. MC 96312, to Pine Tree Cartage Co., a corporation, Detroit, Mich., authorizing the transportation, over irregular routes, of general commodities, except those of unusual value, Class A and B explosives, and household goods, as defined by the Commission, between points within 8 miles of Detroit, Mich., including Detroit. William B. Elmer, 22644 Gratiot Avenue, East Detroit, Mich., attorney for applicants.

No. MC–FC 67304. By order of December 4, 1964, the Transfer Board approved the transfer to Baldwin Transfer Co., Inc., Mobile, Ala., of the operating rights in Certificate of Registration No. MC 120722 Sub 1, issued October 17, 1963, to Larry C. Tomlinson, doing business as Baldwin Transfer Company, Mobile, Ala., corresponding to the grant of intrastate authority to transferor issued by the Alabama Public Service Commission in Common Carrier Certificate No. 2312, dated October 20, 1960. Thomas A. Johnston, III, Post Office Box 1652, Mobile, Ala., attorney for applicants.

No. MC–FC 67315. By order of December 4, 1964, the Transfer Board approved the transfer to Reliable Leasing, Inc., New York, N.Y., of Certificate No. MC 15877, issued April 13, 1954, to Alfred Felson, Inc., New York, N.Y., authorizing the transportation, over irregular routes, of piece goods, and women's and infants' wearing apparel, between New York, N.Y., on the one hand, and, on the other, points in Bergen, Hudson, Essex, and Passaic Counties, N.J.; general commodities, excluding household goods and commodities in bulk, between points in New York, N.Y. Bert Collins, 140 Cedar Street, New York 6, N.Y., representative for applicants.

No. MC–FC 67331. By order of December 4, 1964, the Transfer Board approved the transfer to James F. Kelley, Philadelphia, Pa., of the operating rights issued by the Commission October 10, 1949, under Certificate No. MC 16729, to Joseph P. McLaughlin, doing business as McLaughlin Brothers, Philadelphia, Pa., authorizing the transportation of: Household goods, and furniture and fixtures used in billiard parlors, bowling alleys, and retail liquor establishments, over irregular routes, between Philadelphia, Pa., on the one hand, and, on the other, points in New Jersey, Delaware, and New York; and cut flowers, over irregular routes, from Philadelphia, Pa., to Wilmington, Del. John H. Derby, 2122 Cross Road, Glenside, Pa., practitioner for applicants.

No. MC–FC 67358. By order of December 4, 1964, the Transfer Board approved the transfer to G. H. Thomas Trucking Co., a corporation, Cleveland, Ohio, of the claimed grandfather proviso operations for which a Certificate of Registration evidencing a right to engage in interstate or foreign commerce within the State of Ohio, is sought, pursuant to the BOR–99 filing in No. MC 120825 Sub 1, by Virginia V. Thomas, doing business as G. H. Thomas Trucking Co., Cleveland, Ohio, supported by Ohio Certificates Nos. 3408–R and 8476–I. James R. Stiverson, 50 West Broad Street, Columbus, Ohio, attorney for applicants.

No. MC–FC 67361. By order of December 4, 1964, the Transfer Board approved the transfer to M & S Transfer, Incorporated, Osceola, Nebr., of the operating rights in Certificate No. MC 4709, issued October 11, 1941, to Clyde E. Smith, doing business as Osceola Produce Co. Transfer, Osceola, Nebr., authorizing the transportation, over regular routes, of General commodities, excluding household goods, and commodities in bulk, and other specified commodities, between Osceola, Lincoln, and Omaha, Nebr., over specified regular routes. W. W. Norton, Osceola, Nebr., attorney for applicants.

No. MC–FC 67372. By order of December 4, 1964, the Transfer Board approved the transfer to Bertly Aronsen, doing business as Island Empire Bus Lines, 621 Front Street, Mukilteo, Wash., applicant in No. MC 120955 Sub 1, BOR–99 filed in the name of William Affleck, doing business as Anacortes-Mount Vernon Stage Company, 908 Fifth Street, Anacortes, Wash., for certificate of registration to operate in interstate or foreign commerce, authorizing operations under the former second proviso of section 206(a)(1) of the Act, supported by Washington Certificate No. 1, authorizing the transportation of passengers and express between specified points and areas in Washington.

## FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 8, 1964.

Protests to the granting of an application must be prepared in accordance with Rule 1.40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

### LONG-AND-SHORT HAUL

FSA 39433: *Livestock to points in WTL territory.* Filed by Western Trunk Line Committee, agent (No. A-2384), for interested rail carriers. Rates on livestock, feeder or stocker, in carloads, between points in Wyoming, on the one hand, and points in western trunk-line territory, on the other.

Grounds for relief: Market competition.

Tariff: Supplement 18 to Western Trunk Line Committee, agent, tariff I.C.C. A-4497.

FSA 39434: *Class and commodity rates from or to Hyco and Hyco Junction, N.C.* Filed by O. W. South, Jr., agent (No. A4604), for interested rail carriers. Rates on property moving on class and commodity rates, in carloads and less-than-carloads, from or to Hyco or Hyco Junction, N.C., on the one hand, and points in the United States and Canada, on the other.

Grounds for relief: New station and grouping.

FSA 39435: *Baler or binder twine from North Atlantic ports.* Filed by Traffic Executive Association-Eastern Railroads, agent (No. E.R. No. 2754), for interested rail carriers. Rates on baler or binder twine, in carloads, from Boston, Mass., Baltimore, Md., Albany and New York, N.Y., Philadelphia, Pa., Norfolk and Richmond, Va., and ports grouped therewith, to points in official (including Illinois) territory, also points in northern Illinois and southern Wisconsin.

Grounds for relief: Port relationship, short-line distance formula and grouping.

Tariff: Traffic Executive Association-Eastern Railroads, agent, tariff I.C.C. C-483.

FSA 39436: *Agricultural implements from Boise, Idaho.* Filed by Union Pacific Railroad Company (No. 125), for itself and interested rail carriers. Rates on potato harvesters, K.D., rotary bedders, K.D., and beaters, K.D., loose or in packages, in carloads, from Boise, Idaho, to points in Colorado and Wyoming.

Grounds for relief: Carrier competition.

Tariff: Supplements 147 and 8 to Union Pacific Railroad Company's tariffs I.C.C. 5332 and 5595, respectively.

FSA No. 39437: *Cinders from Erwinville, La.* Filed by Southwestern Freight Bureau, agent (No. B-8651), for interested rail carriers. Rates on cinders, viz.: coal, clay, shale or slate, in carloads, from Erwinville, La., to points in southern territory.

Grounds for relief: Market competition.

Tariff: Supplement 41 to Southwestern Freight Bureau, agent, tariff I.C.C. 4565.

FSA No. 39438: *Commodities between points in Texas.* Filed by Texas-Louisiana Freight Bureau, agent (No. 525), for interested real carriers. Rates on tool joint compound, paper articles, and other commodities described in the application, in carloads and tank-car loads, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief: Intrastate rates and maintenance of rates from and to points in other States not subject to the same conditions.

Tariff: Supplement 23 to Texas-Louisiana Freight Bureau, agent, tariff I.C.C. 998.

FSA No. 39440: *Chemicals from and to points in WTL territory.* Filed by Western Trunk Line Committee, agent (No. A-2383), for interested rail carriers. Rates on chemicals, as described in the application, in carloads and tank-car loads, between points in Wyoming, on the one hand, and points in western trunk-line territory, on the other.

Grounds for relief: Market competition.

Tariff: Supplement 10 to Western Trunk Line Committee, agent, tariff I.C.C. A-4530.

### AGGREGATE OF INTERMEDIATES

FSA No. 39439: *Commodities between points in Texas.* Filed Texas-Louisiana Freight Bureau, agent (No. 526), for interested rail carriers. Rates on tool joint compound, paper articles, and other articles described in the application, in carloads and tank-car loads, from, to, and between points in Texas, over interstate routes through adjoining States.

Grounds for relief: Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff: Supplement 23 to Texas-Louisiana Freight Bureau, agent, tariff I.C.C. 998.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F.R. Doc. 64-12718; Filed, Dec. 10, 1964; 8:48 a.m.]

## CUMULATIVE CODIFICATION GUIDE—DECEMBER

**The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published to date during December.**

**3 CFR** (Page)
PROCLAMATIONS:
3630 — 15941

FEDERAL REGISTER

Area Code 202 Phone 963–3261

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration (mail address National Archives Building, Washington, D.C. 20408), pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

### PART 401—FEDERAL CROP INSURANCE

### Subpart—Regulations for the 1961 and Succeeding Crop Years

APPENDIX; COUNTY DESIGNATED FOR TOBACCO CROP INSURANCE

Pursuant to authority contained in § 401.1 of the above-identified regulations, as amended, the following county is hereby added to the lists of counties published July 29, 1964, and November 26, 1964, which were designated for tobacco crop insurance for the 1965 crop year. The type of tobacco on which insurance is offered in the county is shown opposite the name of the county.

### Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER G—DETERMINATION OF PROPORTIONATE SHARES

[Sugar Determination 850.147, Rev. 1, Amdt. 1]

### PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

### Proportionate Shares for Farms—1965 Crop

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended, § 850.147 of this chapter (29 F.R. 15801) is hereby amended as follows:

In § 850.147, subdivision (iii) of subparagraph (b)(1) is amended, paragraph (d) is amended by deleting the last sentence thereof and adding the following table and paragraph (q) is added. Section 850.147 is revised to read as follows:

**§ 850.147 Proportionate shares for farms in the domestic beet sugar area.**

* * * * *

(b) *National acreage, minimum proportionate share acreages for reserve localities, contingency acreage and State acreage allocations.* * * *

(1) * * *

(iii) *State acreage allocations* totaling 1,255,185 acres are hereby established as follows:

| State | Acres |
|---|---|
| California | 303,141 |
| Colorado | 176,101 |
| Idaho | 152,921 |
| Illinois | 1,084 |
| Indiana | 27 |
| Iowa | 3,799 |
| Kansas | 20,664 |
| Michigan | 77,781 |
| Minnesota | 111,880 |
| Montana | 63,173 |
| Nebraska | 80,642 |
| Nevada | 2,365 |
| New Mexico | 94 |
| North Dakota | 48,463 |
| Ohio | 29,164 |
| Oregon | 19,132 |
| South Dakota | 10,485 |
| Texas | 6,335 |
| Utah | 34,643 |
| Washington | 56,182 |
| Wyoming | 57,159 |
| | 1,255,185 |

(d) *Requests for shares.* * * *

| State | Closing Date |
|---|---|
| California: | |
| Northern Area | Dec. 1, 1964. |
| Southern Area | Mar. 26, 1965. |
| Colorado | Jan. 22, 1965. |
| Idaho | Jan. 15, 1965. |
| Illinois | Mar. 19, 1965. |
| Indiana | Feb. 12, 1965. |
| Iowa | Mar. 1, 1965. |
| Kansas | Jan. 29, 1965. |
| Michigan | Feb. 12, 1965. |
| Minnesota | Jan. 29, 1965. |
| Montana | Jan. 15, 1965. |
| Nebraska | Feb. 12, 1965. |
| Nevada | Feb. 12, 1965. |
| New Mexico | Feb. 12, 1965. |
| New York | Mar. 12, 1965. |
| North Dakota | Jan. 29, 1965. |
| Ohio | Feb. 12, 1965. |
| Oregon | Jan. 15, 1965. |
| South Dakota | Feb. 12, 1965. |
| Texas | Jan. 29, 1965. |
| Utah | Jan. 29, 1965. |
| Washington | Jan. 8, 1965. |
| Wyoming | Jan. 15, 1965. |

* * * * *

(q) *General provisions.* General provisions pertaining to conditional payments, including instructions for filing applications for payment, are set forth in Part 891 of this Chapter.

*Statement of bases and considerations.* Sugar Determination 850.147 (29 F.R. 15801) provides, among other things, that the State acreage allocations and closing dates for filing requests for proportionate shares will be supplied by amendment thereto. This amendment provides such acreage allocations and closing dates. Further, this amendment provides that the general provisions pertaining to conditional payments are set forth in Part 891 of this Chapter.

In determining State allocations a base acreage was established for each sugarbeet producing State on the record of its 1962–64 accredited acreage (acreage harvested for sugar, bona fide abandoned acres and prevented acres, but excluding acreage from the national sugarbeet acreage reserve) by adding 30 percent of the 1962–63 average accredited acreage and 70 percent of the 1964 accredited acreage. The resultant State base acreages were factored to 1,255,185 (the national limitation less the effective national reserve of 118,815 acres and the 1,000 contingency acreage). This method coincides with that recommended to the Department by sugarbeet grower associations and sugarbeet companies when they recommended that the 1965 crop be restricted.

Accordingly, I hereby find and conclude that the foregoing amendment will effectuate the applicable provisions of the Act.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153, secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U.S.C. 1131, 1132).

Effective date: Date of publication.

Signed at Washington, D.C., on December 9, 1964.

CHARLES S. MURPHY,
*Acting Secretary.*

[F.R. Doc. 64–12813; Filed, Dec. 11, 1964; 8:50 a.m.]

[Sugar Determination 855.10, Rev. 1, Amdt. 2]

### PART 855—MAINLAND CANE SUGAR AREA

### Proportionate Shares for Farms; 1965 Crop

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended, § 855.10 (29 F.R. 13595, 14102) is hereby amended by revising subparagraph (3) of paragraph (f) to read as follows:

**§ 855.10 Proportionate shares for sugarcane farms in the Mainland Cane Sugar Area for the 1965 crop.**

* * * * *

(f) *Adjustments in shares.* * * *

(3) To offset proportionate share acreages which will be unused on farms in Louisiana, 10,000 acres are available. Any operator of a farm in Louisiana for which a share is determined under paragraph (d) of this section may, within 7 days after the notice of such proportionate share is mailed to him, file a request with the County Committee for an increase in such share on a form available at the local Agricultural Stabilization and Conservation Service County Office (hereinafter referred to as "County Office"). However, requests may be accepted after such date if acreage is available under this subparagraph and if the State Committee determines that the persons desiring such increases were prevented from filing by such date because of absence, due to illness or other reasons beyond their control. If the total of the requests for additional acreage made in the State does not exceed the acreage made available under this subparagraph (3), the State Committee shall authorize County Committees to increase the shares of farms

in accordance with such requests subject to modifications by taking into consideration the ability of the operator to use such increase in light of availability and suitability of land, adequacy of drainage, availability of production and marketing facilities, establishment of proper sugarcane rotation practices, the maintenance of a proper relationship between total sugarcane acreage and suitable cropland and the need for minimum acreages in his mill area. If the total of the requests for additional acreage exceeds the acreage made available under this subparagraph (3), the State Committee shall prorate the acreage available to all parishes having farms for which increases in shares have been requested, on the basis of the accredited acreage record of such farms for the crop years 1962, 1963, and 1964. The State Committee shall authorize County Committees to increase shares for such farms within the acreage prorated by considering the above factors. If the total measured acreage of 1965 crop sugarcane covered by shares established for farms in Louisiana under paragraph (d) of this section including adjustments as provided in subparagraph (1) of this paragraph and this subparagraph (3), exceeds the total acreage of shares for farms in Louisiana authorized under paragraph (d) of this section including adjustments as provided in subparagraph (1) of this paragraph, the State Committee shall deduct such excess acreage from the shares that have been increased pursuant to this subparagraph (3), by reducing such shares, and by distributing pro-rata such deduction, based on the amount of the increase in each share under this subparagraph which is utilized.

* * * * *

*Statement of bases and considerations.* The original determination made 10,000 acres available to farmers in Louisiana to offset proportionate share acreages which would be unused on other farms in that State. County Committees were authorized to recommend to the State Committee the extent that each request for an increase in the share of an old producer should be granted by considering the availability of land and other factors having a bearing on the ability of the operator to produce sugarcane. The State Committee was authorized to modify any request for increase on the basis of the same criteria considered by the County Committees in making their recommendations.

Requests for increases have been received from every sugarcane parish in Louisiana. An examination of such requests indicates some lack of uniformity in the manner in which requests from farmers were considered by individual County Committees. Furthermore, the State Committee is not fully familiar with the conditions pertaining to individual farms.

This amendment provides that County Committees will forward each request for an increase in share without any further action on their part. Whenever the total requested acreage for increasing shares exceeds the acreage available for this purpose, the State Committee shall prorate the acreage available to parishes on the basis of the accredited acreage records for the years 1962 through 1964 of farms within the parishes for which increases have been requested. Increases in individual shares within the acreage prorated shall be made by County Committees in consideration of the criteria mentioned above. It is believed that this method will provide for a more uniform distribution of the acreage available.

Accordingly, I hereby find and conclude that the foregoing amendment will effectuate the applicable provisions of the Act.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153, secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U.S.C. 1131, 1132)

Effective date: Date of publication.

Signed at Washington, D.C., on December 9, 1964.

CHARLES S. MURPHY,
*Acting Secretary.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Tree Nuts), Department of Agriculture

[Navel Orange Reg. 64]

## PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

### Limitation of Handling

**§ 907.364 Navel Orange Regulation 64.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date. The Administrative Committee held an open meeting on December 3, 1964, to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such open meeting; necessary supplemental economic and statistical information upon which this recommended regulation is based were received by the Fruit Branch on December 8, 1964; information regarding the provisions of the regulation recommended by the committee has been disseminated to shippers of grapefruit, grown as aforesaid, and this section, including the effective time thereof, is identical with the recommendation of the committee; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective on the date hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) Except as otherwise provided in subparagraph (2) of this paragraph, during the period beginning at 12:01 a.m., P.s.t., December 13, 1964, and ending at 12:01 a.m., P.s.t., January 24, 1965, no handler shall handle from the State of California or the State of Arizona to any point outside thereof:

(i) Any grapefruit which do not meet the requirements of the U.S. No. 2 grade which for purposes of this regulation shall include the requirement that the grapefruit be well colored, instead of slightly colored, and free from peel that is more than one inch in thickness at the stem end (measured from the flesh to the highest point of the peel): *Provided,* That the tolerances prescribed for the U.S. No. 2 grade shall be the tolerances applicable to the requirements of this subparagraph except that not more than 5 percent shall be allowed for grapefruit having peel more than one inch in thickness at the stem end; or

(ii) Any grapefruit which measure less than 3 11/16 inches in diameter, except that a tolerance of 5 percent, by count, for grapefruit smaller than 2 11/16 inches shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925-51.955 of this title: *Provided,* That in determining the percentage of grapefruit in any lot which are smaller than 3 11/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 4 7/16 inches in diameter and smaller.

(2) Subject to the requirements of subparagraph (1) (i) of this paragraph, any handler may, but only as the initial handler thereof, handle grapefruit smaller than 3 11/16 inches in diameter directly to a destination in Zone 4 or Zone 3; and if the grapefruit is so handled directly to Zone 3 the grapefruit does not measure less than 3 6/16 inches in diameter: *Provided,* That a tolerance of 5 percent, by count, of grapefruit smaller than 3 6/16 inches in diameter shall be permitted, which tolerance shall be applied in accordance with the aforesaid provisions for the application of tolerances and, in determining the percentage of grapefruit in any lot which are smaller than 3 6/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are 3 13/16 inches in diameter and smaller.

(3) As used herein, "handler," "variety," "grapefruit," "handle," "Zone 1," "Zone 2," "Zone 3," and "Zone 4" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U.S. No. 2" and "well colored" shall have the same meaning as when used in the aforesaid revised United States Standards for Grapefruit; and "diameter" shall mean the greatest dimension measured at right angles to a line from the stem to blossom end of the fruit.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 10, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 64-12850; Filed, Dec. 11, 1964; 8:50 a.m.]

[Lemon Reg. 142]

## PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### Limitation of Handling

**§ 910.442 Lemon Regulation 142.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 27 F.R. 8346), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 8, 1964.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., December 13, 1964, and ending at 12:01 a.m., P.s.t., December 20, 1964, are hereby fixed as follows:

(i) District 1: 46,500 cartons;
(ii) District 2: 88,350 cartons;
(iii) District 3: 69,750 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 10, 1964.

PAUL A. NICHOLSON,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F.R. Doc. 64-12851; Filed, Dec. 11, 1964; 8:50 a.m.]

[Grapefruit Reg. 21]

## PART 909—GRAPEFRUIT GROWN IN THE STATE OF ARIZONA; IN IMPERIAL COUNTY, CALIFORNIA; AND IN THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF WHITE WATER, CALIFORNIA

### Limitation of Shipments

**§ 909.321 Grapefruit Regulation 21.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 909, as amended (7 CFR Part 909), regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of White Water, California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date. The Administrative Committee held an open meeting on December 3, 1964, to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such open meeting; necessary supplemental economic and statistical information upon which this recommended regulation is based were received by the Fruit Branch on December 8, 1964; information regarding the provisions of the regulation recommended by the committee has been disseminated to shippers of grapefruit, grown as aforesaid, and this section, including the effective time thereof, is identical with the recommendation of the committee; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective on the date hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this regulation will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) Except as otherwise provided in subparagraph (2) of this paragraph, during the period beginning at 12:01 a.m., P.s.t., December 13, 1964, and ending at 12:01 a.m., P.s.t., January 24, 1965, no handler shall handle from the State of California or the State of Arizona to any point outside thereof:

(i) Any grapefruit which do not meet the requirements of the U.S. No. 2 grade which for purposes of this regulation shall include the requirement that the grapefruit be well colored, instead of slightly colored, and free from peel that is more than one inch in thickness at the stem end (measured from the flesh to the highest point of the peel): *Provided,* That the tolerances prescribed for the U.S. No. 2 grade shall be the tolerances applicable to the requirements of this subparagraph except that not more than 5 percent shall be allowed for grapefruit having peel more than one inch in thickness at the stem end; or

(ii) Any grapefruit which measure less than 3 11/16 inches in diameter, except that a tolerance of 5 percent, by count, for grapefruit smaller than 2 11/16 inches shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925-51.955 of this title: *Provided,* That in determining the percentage of grapefruit in any lot which are smaller than 3 11/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 4 7/16 inches in diameter and smaller.

(2) Subject to the requirements of subparagraph (1) (i) of this paragraph, any handler may, but only as the initial handler thereof, handle grapefruit smaller than 3 11/16 inches in diameter directly to a destination in Zone 4 or Zone 3; and if the grapefruit is so handled directly to Zone 3 the grapefruit does not measure less than 3 6/16 inches in diameter: *Provided,* That a tolerance of 5 percent, by count, of grapefruit smaller than 3 6/16 inches in diameter shall be permitted, which tolerance shall be applied in accordance with the aforesaid provisions for the application of tolerances and, in determining the percentage of grapefruit in any lot which are smaller than 3 6/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are 3 13/16 inches in diameter and smaller.

(3) As used herein, "handler," "variety," "grapefruit," "handle," "Zone 1," "Zone 2," "Zone 3," and "Zone 4" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U.S. No. 2" and "well colored" shall have the same meaning as when used in the aforesaid revised United States Standards for Grapefruit; and "diameter" shall mean the greatest dimension measured at right angles to a line from the stem to blossom end of the fruit.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

1485.270 Assignments.
1485.271 Eligible country or designated country.

AUTHORITY: The provisions of this subpart issued under secs. 4 and 5, 62 Stat. 1070, 1072, 15 U.S.C. 714 b and c.

### § 1485.251 General statement.

This subpart supersedes the Special Nonfat Dry Milk Export Payment-in-Kind Rates-by-Contract Program and provides a special program of Commodity Credit Corporation (referred to in this subpart as "CCC") with respect to dairy products under which exporters may earn payments in the form of export commodity certificates at rates which will be determined on an offer and acceptance basis. The term "this program" when used in this subpart means the special dairy products export payment rates-by-contract program provided for in this subpart. This program will operate independently and on a separate basis from the Dairy Products Export Payment-in-Kind Program (28 F.R. 11667, as amended 29 F.R. 7312) (now terminated except as expressly provided in the termination notice as filed for publication in the FEDERAL REGISTER) which provides export payments-in-kind at rates announced by CCC. An export under the Dairy Products Export Payment-in-Kind Program will not be deemed to be an export under this program and vice versa. This subpart contains the regulations governing this program under which CCC will make payments in the form of export commodity certificates (called "certificates" in this subpart) to exporters who have exported or caused to be exported dairy products from commercial sources at payment rates determined by offers and acceptances as provided in § 1485.252. Eligible dairy products will be named and periods during which offers to export may be submitted will be announced by press release from time to time by the Office of the General Sales Manager, FAS. Certificates will be redeemable in any commodity offered for export sale under a CCC regulation or announcement providing for redemption of such certificates. Such commodities delivered in redemption of certificates must also be exported. Dairy products obtained from CCC for export shall not be eligible for certificates unless other dairy products have been exported in satisfaction of the requirements of the export sale contract. This program will be carried out in behalf of CCC by the Foreign Agricultural Service (referred to herein as "FAS"), and by the Agricultural Stabilization and Conservation Service (referred to herein as "ASCS"), United States Department of Agriculture, and will be administered under the general direction and supervision of the General Sales Manager, FAS. Information pertaining to the program may be obtained as provided in § 1485.268.

### § 1485.252 Submission and acceptance of offers.

(a) Exporters desiring to participate in this program may submit offers, at times which will be announced by press release, to the Office of the General Sales Manager, FAS, to export specific quantities of dairy products from commercial sources at payment rates specified in the offers. An offer may be made by letter or telegram which must be received within the time specified for the receipt of offers. Such offer must state: (1) That the offer is made pursuant to Announcement SM–8; (2) The quantity and kind of dairy products to be exported including, in the case of cheese, the minimum milkfat content on a dry basis; (3) The offered export rate per net weight pound. If an offer is accepted, a telegraphic notice of acceptance by CCC will be given by the General Sales Manager stating an acceptance number. Such notice will be given within one business day after the time for the receipt of offers. "Business day" means any day of the week except Saturday, Sunday and days declared legal holidays by statute for United States Government employees. Failure to accept an offer will constitute a rejection of the offer. No notice of rejection will be given unless such notice is requested in the offer in which case such notice will be given by collect telegram. The exporter should promptly notify the Office of the General Sales Manager of any error in his offer. No offer, or modification, or withdrawal thereof, will be considered if received after the closing time for the receipt of offers, unless the General Sales Manager determines that: (i) Such offer, modification or withdrawal was delayed in transmission by mail or telegraph through no fault of Offerer, or (ii) the modification is made for the purpose of correcting an error apparent on the face of the original offer, for the purpose of clarifying an ambiguity or supplying an omission therein, or (iii) the modification is beneficial to CCC and not prejudicial to any other exporter. If an offer has been accepted before such a permissible change is received by CCC, the exporter will be permitted to cancel the contract with CCC. All communications pertaining to an Offer to Export to which an acceptance number has been assigned shall contain reference to the acceptance number. "General Sales Manager" as used in this subpart means the General Sales Manager, FAS, or his designee.

(b) CCC reserves the right to refuse to consider an offer if CCC does not have adequate information of financial responsibility of the offerer to meet contract obligations of the type contemplated in this announcement. If a prospective offerer is in doubt as to whether CCC has adequate information with respect to his financial responsibility, he should either submit a financial statement to the General Sales Manager prior to making an offer, or communicate with such office to determine whether such a statement is desired in his case. When satisfactory financial responsibility has not been established, CCC reserves the right to consider an offer only upon submission by offerer of a certified or cashier's check, a bid bond, or other security, acceptable to CCC, assuring that if the offer is accepted, the offerer will comply with any provisions of the contract with respect to payment for the commodity and the furnishing of performance bond or other security acceptable to CCC.

### § 1485.253 Exporter's contract with CCC.

The submission of an offer to export at a specific export payment rate and its acceptance by CCC shall constitute a contract between CCC and the exporter under which (a) subject to all the terms and conditions of this subpart, the exporter agrees to export or cause to be exported dairy products as provided in § 1485.255, to submit satisfactory evidence of such exportation as provided in § 1485.258, and, upon the failure to comply with such terms and conditions, to pay CCC for its damages as provided in § 1485.261, and (b) CCC agrees to issue certificates to the exporter as provided in § 1485.259.

### § 1485.254 Inspection of dairy products at time of production and at time of loading for export.

(a) The exporter shall obtain an inspection certificate which shall have been issued by the Inspection and Grading Branch, Dairy Division, Agricultural Marketing Service (referred to herein as "AMS"), within 90 days of the time of export, showing the weight and quality of the commodity for submission with the application for payment: *Provided, however*, That the General Sales Manager may, in his discretion, accept other evidence of weight and quality.

(b) The exporter shall also obtain from AMS through his own arrangements a grading certificate covering the inspection of the commodity at dockside or border port of entry showing the quantity of the product, condition of the containers, and verification that the product being exported is the same as that reported on the quality and weight inspection certificates provided for in paragraph (a) of this section, for submission with the application for payment.

(c) In the case of exports shipped across the U.S. border by truck or railroad the dairy products may be inspected at the point of loading and sealed under supervision of AMS. The certificates resulting from such inspection will be accepted in lieu of certificates obtained under paragraph (b) of this section.

### § 1485.255 Exportation requirements.

(a) The exporter shall export or cause to be exported to eligible countries as defined in § 1485.271, the quantity of dairy products stated in the offer, during the period commencing on the date following the date of acceptance of the offer and ending ninety days after such date or within any extension of such period which is approved in writing by the General Sales Manager, FAS, as provided in § 1485.261(b). Such period during which exportation must be made is hereinafter referred to as the "export period."

(b) Exportation of the dairy products by or to a United States Government agency shall not qualify as an exportation for the purposes of this program. (United States Government Agency means any corporation wholly owned by the Federal Government and any department, bureau, administration, or other unit of the Federal Government, as for example, the Departments of the Army, Navy, and Air Force, the Agency for International Development, the Army and Air Force Exchange Service, the Navy exchanges, and the Panama Canal Company.) Sales to foreign buyers, including foreign governments, financed with funds made available by a United States Government agency such as the Agency for International Development or the Export-Import Bank, are not sales to a United States Government agency, provided the dairy products are not for transfer by such buyers to a United States Government agency.

(c) Dairy products exported under this program must have been processed in the United States from milk produced in the United States.

(d) Dairy products shall be exported under this program only to an eligible country as defined in § 1485.271, and such dairy products so exported shall not be transshipped by the exporter to any country other than an eligible country.

### § 1485.256 Quantity tolerance.

If the exporter exports or causes exportation of a net quantity of dairy products less than the net quantity provided in the exporter's contract with CCC, but not less than 95 percent of such quantity, the exporter shall not be deemed to be in default. If an exporter exports or causes exportation of a net quantity in excess of the net quantity provided in the exporter's contract with CCC, but not in excess of 105 percent of such quantity, he may include such excess quantity in his application for payment and such excess quantity may be included in the computation of the amount of the certificate to be issued.

### § 1485.257 Application for export commodity certificate.

An original and two copies of Application for Export Payment Form CCC–162, must be prepared and submitted to the Minneapolis ASCS Commodity Office, together with the evidence of the weight and quality or grade as provided in § 1485.254 and the evidence of exportation as provided in § 1485.258. Such evidence must be submitted within 60 days after the end of the export period. The exporter will be required to certify in the application that the dairy products were not exported by or to a United States Government Agency as defined in § 1485.255(b) of this subpart.

### § 1485.258 Documents required as evidence of export.

(a) Each Application for Export Payment, Form CCC–162 must be supported by the following documents evidencing export as applicable:

(1) Subject to the provisions of subparagraph (3) of this paragraph, if export is by water, or air, a non-negotiable duplicate copy of the applicable on-board commercial bill of lading signed by an agent of the export carrier, which shows the net weight of the dairy product, the identification of the export carrier, and that the dairy product is destined to an eligible country. A bill of lading showing the gross weight of the dairy product and the number of containers may be furnished, provided the bill of lading also shows the weight of the containers or the exporter furnishes an acceptable certification as to the weight of the containers. If exported under Public Law 480, 83d Congress, the purchase authorization number shall be shown on the bill of lading. If loss, destruction, or damage to the dairy product occurs subsequent to loading on board the export carrier, but prior to issuance of on-board bill of lading, one copy of a loading tally sheet or acceptable similar document may be substituted for the bill of lading.

(2) Subject to the provisions of subparagraph (3) of this paragraph, if export is by rail or truck, and not under Public Law 480, 83d Congress, a Shipper's Export Declaration, authenticated by a representative of the Bureau of Customs at the port of export, which identifies the shipment(s), the date of clearance into the foreign country, the gross weight of the dairy product, the net weight of the dairy product, and the weight of the containers. If export is under Public Law 480, 83d Congress, one unauthenticated copy of Shipper's Export Declaration (or photostat of an unauthenticated copy) which shall bear a statement certified by the exporter that, "The authenticated copy of this Shipper's Export Declaration was forwarded to (insert name of banking institution) with my draft for financing of the shipment under P.A. No. (show number).

(3) If the export shipment is made by vessel, plane, truck, or other carrier, operated by a United States Government agency, then in lieu of the bill of lading or Shipper's Export Declaration provided for in subparagraphs (1) and (2) of this paragraph, the exporter may submit a certificate issued by an authorized official or employee of such agency showing the date of shipment(s), type of carrier used, identification of the commodity, and the quantity.

(4) Such additional evidence of export as CCC may require under the circumstances of any particular transaction to enable CCC to determine that there has been compliance with the export requirements hereof.
